Course Handout
Course: BAJMC , (Basics of Radio)
Course Code : BAJMC101, Crédits : 02, Session :2017-18 (Odd Sem.), Class : BAJMC. 1st Semester
Faculty Name : Sayantani Roy

Introduction: The objective of this course is To familiarize students with the basics of radio as a medium of communication. To develop production skills and the ability for producing radio programs. To develop professional capabilities of news reading.

A. **Course Outcomes:** At the end of the course, students will be able to:

BAJMC 101.1 : Students will be able to identify and write, record, produce and edit several formats of radio programs including news stories, and features.

BAJMC 101.2: Students will recognize the structure and history of the radio industry, and will be able to work in a professional atmosphere of radio stations.

BAJMC 101.3: Students will interpret the challenges and solutions of the radio industry.

BAJMC 101.4 : Students will outline the relationship of each personnel inside a radio station.

BAJMC101.5: Students will learn the techniques of communication used in radio.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Director
Amity School of Communication

B. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Presentation		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus

	Weightage
Module I	**20%**
Understanding the medium: Invention and development; strengths and weaknesses of the medium Basics of sound recording and editing	
Module II	**20%**
Radio news reporting: skills of a radio news reporter: developing sources, gathering news, giving voice-cast, phonos, anchoring and news reading skills: general awareness, presence of mind; clarity, diction, pronunciation	
Module III	**20%**
Writing for radio: characteristics of radio writing style: simple, conversational style; norms regarding use of adjectives, adverbs, numerals; writing radio news: rewriting news to suit brevity and clarity in radio news, editing news, types of leads, function of headlines in a news bulletin, writing headlines	
Module IV	**20%**

Dr. Sumit Narula
Director
Amity School of Communication

Compiling a bulletin: types of bulletins: local to international editing news for different bulletins; using voice-dispatches and other elements in a bulletin: sequencing, updating news updates, news reports, newsreel etc.	
Module V	**20%**
Radio interview: types: interview for news gathering, vox-pop; structured interview programmes: personality, informative, issue based; skills of an interviewer: personality, language, knowledge, curiosity, communication skills; research for interview; from planning to production.	

D. Examination Scheme:

Components	A	CT	S/V/Q/HA	EE
Weightage (%)	5	15	10	70

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

Teaching Pedagogy: Conduct hands-on workshops where students learn the fundamentals of radio equipment operation, including microphones, mixers, and recording devices. Provide opportunities for students to practice recording and editing audio clips. Create simulated radio broadcasting environments where students take on different roles, such as announcers, DJs, or newsreaders. This allows them to experience real-time broadcasting scenarios and develop skills in live presentation and improvisation.

Course Handout
Course Name : Fundamentals of Advertising
Course Code : BAJMC 103 Crédits : 03 Session : 2017-2018 , Class : BAJMC Semseter Ist
Faculty Name : Dhruv Sabharwal

A. Introduction: The course provides a comprehensive overview of advertising from media perspective. It talks about the evolution of advertising creating an understanding of traditional advertising and promotional tools.

B. **Course Outcomes:** At the end of the course, students will be able to:

BAJMC 103 .1.Identify and define the advertising concepts
BAJMC 103 .2. Review the advertising media.
BAJMC 103 .3. Analyze the Indian advertising scenario.
BAJMC 103 .4. Distinguish between advertising and marketing.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course: BAJMC , Basics of Graphic Design
Course Code : BAJMC104, Crédits : 03, Session :2017-18 (Odd Sem.), Class : BAJMC. 1st Year
Faculty Name : Anshul Jain

A. Introduction: In this course students will be introduced about the functioning of print industry. A broad knowledge of the computer based graphic design, which mainly using in print and electronic media. Students will study the designing of graphics and layout of pages, taking into consideration the choice of typeface and positioning and choice of color, images and text. Students will explore the information in context to the designing of variety of print layouts.

B. Course Outcomes: At the end of the course, students will be able to:

BAJMC104.1 student will be able to identify the design elements required in print media industry.

BAJMC 104.2 The student will be able to use different software's that are required to design a newspaper

BAJMC104.3: Students will be able to understand the printing structure and the layout of the newspapers as well as magazines.

BAJMC104.4: Students will acquire skills in layout design, including grid systems, page composition, and visual hierarchy

BAJMC104.5: Students will comprehend color theory principles such as color harmony, contrast, saturation, and the psychology of color

C. Program Outcomes:

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

Dr. Sumit Narula

Course Handout
Course: BAJMC , Writing for Print
Course Code : BAJMC105, Crédits : 03, Session :2017-18 (Odd Sem.), Class : BAJMC. 1st Year
Faculty Name : Mr. Nihaz Anwar

Introduction: The course aims to introduce basic concepts of print

A. Journalism including news structuring, writing and news gathering. In addition, basics of editing will be discussed.

B. Course Outcomes: At the end of the course, students will be able to:

BAJMC105.1: Students will be able to organize a news story according to the hard news structure.

BAJMC 105.2: Students will be able to write different leads, body and ending. They will be able to demonstrate interviewing and news gathering skills.

BAJMC105.3: Students will be able to display editing skills including proof reading and headline writings.

BAJMC105.4: Students will acquire skills in editing and proofreading print media content to ensure grammatical accuracy, consistency, and adherence to editorial style guidelines.

BAJMC105.5: Students will learn to develop engaging and relevant content for print media, including articles, features, headlines, captions, and advertisements, catering to target audiences and publication objectives.

C. Program Outcomes:

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course: BAJMC , (**Understanding of Mass Communication**)
Course Code : BAJMC 201, Crédits : 03, Session :2017-18 (Even Sem.), Class : BAJMC. 1st Year
Faculty Name : Aditya Kumar Shukla

Introduction: The objective of this course is to familiarize the prospective journalists and mass media professionals to various basic concepts of mass communication. They should be able to understand the various important nuances of mass communication

A. **Course Outcomes:** At the end of the course, students will be able to:

- BAJMC201.1: This paper will introduce students to key concepts in communication and Mass Communication.
- BAJM201.2: It will help them to enhance media literacy and to gain understanding of mass communication and its processes.
- BAJMC201.3: Students will learn the process, elements, levels, models and major theories of communication and mass communication.
- BAJMC201.4: It will also help them to learn about the norms, practices within mass media fields, and become aware of the

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Basics of Television Journalism
Course Code : BAJMC 202, Credits : 3, Session : 2017-18 (EVEN), Class BAJMC 2nd Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-202.1- Demonstrate proficiency in news gathering techniques, including research, interviewing, and fact-checking for television journalism.
- BAJMC -202.2- Apply video production skills effectively, encompassing camera operation, editing, and sound recording, to produce professional-quality news content.
- BAJMC -202.3- Analyze and critique news stories from a television journalism perspective, evaluating their adherence to journalistic ethics and standards.
- BAJMC -202.4- Develop critical thinking skills to identify news values and prioritize information for broadcast in television journalism.
- BAJMC -202.5- Understand the role of technology and digital media in shaping contemporary television journalism practices

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Reporting & Feature Writing
Course Code : BAJMC 203, Crédits : 3, Session : 2017-18 (EVEN), Class BAJMC 2nd Semestre
Faculty Name : Sayantani Roy

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-203.1- Mastery of journalistic research techniques, including sourcing, fact-checking, and data analysis, to produce accurate and well-informed news reports and features.
- BAJMC-203.2- Understanding of news values and editorial judgment in selecting and prioritizing topics for news coverage and feature writing, considering relevance, impact, and audience interest.
- BAJMC-203.3- Application of storytelling principles and narrative techniques to craft engaging and immersive feature articles that captivate readers and convey complex information effectively.
- BAJMC-203.4- Analysis of ethical considerations and professional standards in journalism, particularly in relation to accuracy, fairness, and sensitivity in reporting and feature writing.
- BAJMC-203.5- Development of critical thinking skills to evaluate the credibility and bias of sources, information, and narratives presented in news reports and feature articles.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

B. Syllabus:

Course Contents/Syllabus:

	Weightage
Module I : Beat Reporting	**25 %**
Covering a news beat; Covering local beats; Crime reporting; Education reporting; Health reporting Civic Issues reporting; Covering local government	
Module II: Covering the state and politics	**25 %**
Covering national level beats; Covering the Government (PIB, Ministries, independent bodies) Political Reporting (Political structure in India, Covering political parties/events/rallies/ elections) Parliament Reporting (Parliament Structure, reporting on legislature) Legal Reporting (structure & jurisdiction of courts, reporting court hearings, precautions) Entertainment and Lifestyle Reporting; Business Reporting:;Sports Reporting:	
Module III: Investigative Reporting	**25 %**
(a) Definition and elements; Tools of investigative reporting; Sting Operations and latest trends Relevant Case studies: Indian and International	
Module IV: Feature Writing	**25 %**
How to write a feature; Different types of features; Writing Book reviews; Writing film reviews	

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication

Dr. Sumit Narula
Director
Amity School of Communication

process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

Dr. Sumit Narula
Director
Amity School of Communication

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal	Mid Term 1	CT	15%

Dr. Sumit Narula
Director

Evaluation	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

Course Contents/Syllabus:

	Weightage
Module I – Understanding Softwares and their relevance	**30 %**
Initializing with the basics of softwares its tools, tasks such as product design with the help of vector softwares like corel draw and illustrator. How to design Logo, Logotype, Letterhead design, Business Card, Envelop, Catalogues, Brochures. Digital Posters fram(EXERCISE ON: A comparative study of layouts and logos)	
Module II – aspects of designing	**40%**
Focusing on the composition and balancing the different element of design through The exercise of designing Press ad, Magazine ad, Hoardings, Kiosks, Interior & Exterior Signage, Danglers and Banners etc. Choice and use of images and colors Tagline, Visuals, Copy, Spot colors, Process colors, Color Management for images.	
Module III – significance of Photoshop	**30 %**
(a) The functioning of Photoshop and its significance in various medias, working on the editing, comparing the raster images and vector images.	

Dr. Sumit Narula
Director
Amity School of Communication

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general

Sample Question Paper

Amity School of Communication I MID-SEMESTER (SEM –II) 2017-18						
Class: BAJMC.II Semester						
Subject Name: BAJMC-204 ADVANCED GRAPHIC DESIGN		Time: 1:30 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: composition, to create visually compelling graphic designs.

CO2: to execute complex design projects with precision and efficiency.

CO Map	Question No.	Question	Marks
CO1	Q.1	How do you apply advanced design principles in your graphic designs?	3
CO1	Q.2a	Describe a project where you achieved specific branding or marketing goals through design.	3
	Q.2b	How do you ensure intuitive user experiences in digital interface design?	3
CO1	Q.3	How do you incorporate current design trends while maintaining originality?	6
CO2	Q.4	Provide a brief critique of a graphic design piece based on aesthetics and functionality	3
CO2	Q.5a	How does effective teamwork contribute to successful design projects?	3
	Q.5b	How would you leverage emerging technologies in graphic design?	3
CO2	Q 6	Explain how you integrate sustainability principles into your design practice.	6

Dr. Sumit Narula
Director
Amity School of Communication

Attainments		Rubric
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course Advanced Graphic Design /Course code ***JMC-204*** is level 2 for the academic year 2017-18.

Amity School of Communication
Course Handout
Course Name : Writing for Radio
Course Code : BAJMC 205, Crédits : 3, Session : 2017-18 (EVEN), Class BAJMC 2nd Semestre
Faculty Name : Sayantani Roy

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC -205.1- Mastery of radio-specific writing techniques, including scripting, storytelling, and narration, to create compelling and engaging audio content.
- BAJMC -205.2- Proficiency in crafting concise and impactful scripts tailored for radio broadcasting, considering time constraints and audience attention spans.
- BAJMC -205.3- Understanding of the unique characteristics and strengths of radio as a medium for communication, and the ability to leverage its auditory nature in writing.
- BAJMC-205.4- Application of journalistic principles and ethical standards in radio writing, including accuracy, fairness, and objectivity in reporting and storytelling.
- BAJMC-205.5- Analysis of different radio formats and genres, such as news bulletins, documentaries, dramas, and interviews, and the ability to adapt writing styles accordingly.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Digital Photography & Visualization
Course Code : BAJMC 206, Crédits : 3, Session : 2017-18 (EVEN), Class BAJMC 2nd Semestre
Faculty Name : Sandesh Mahajan

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC 206.1- Develop a foundational understanding of photography as a visual medium, including its history, techniques, and contemporary practices.
- BAJMC 206.2- Demonstrate proficiency in the technical aspects of photography, including camera operation, exposure settings, and composition principles.
- BAJMC 206.3- Explore various approaches to visualization in photography, including conceptualization, planning, and execution of visual ideas.
- BAJMC 206.4- Gain hands-on experience in making and editing photographs using both traditional and digital methods, enhancing technical skills and creative expression.
- BAJMC 206.5- Explore the genre of photojournalism and its role in documenting social, cultural, and political events, understanding ethical considerations and storytelling techniques.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Total			**100%**

B. Syllabus:

Course Contents/Syllabus:

	Weightage
Module I Introduction	**15 %**
PR concepts and role (Definitions and concepts, Role and Objectives of PR); Public Relations in India Internal & External PR ; Role of PRSI	
Module II Public Relations & Media Affairs	**20%**
Planning P.R campaigns; PR Tools; Lobbying; Media relations (Media list, Relationship building meetings, Media planning, Media tours and visits); Role of Press kit and its importance; Organizing press conference Measurement of PR (Pre, during and post); Role of new media in PR; Changing trends in PR	
Module III Techniques of Public Relations	**20 %**
Writing for press (Pitch notes, placed articles, Media briefing documents); Press release ; Press Interviews a) Contents for the newsletter	
Module IV Functions of Corporate Communication	15%
Introduction- Difference between Public Relations and Corporate Communication; Importance and functions of Corporate Communication; Elements of corporate communication: corporate philosophy, culture, Corporate identity, citizenship and philanthropy	
Module V Tools of Corporate Communication	15%
Importance – Role of Corporate Communication tools; Company Profile in an organization; House Journal; Annual Reports; Internet – E- Newsletters, Memos, Notices; Direct marketing, network marketing; Liasioning and its importance	
Module VI Corporate Planning and Strategy	15%
Corporate Governance; Image Management; Crisis and Disaster Management; 7 C's of Corporate Communication; Role of media in Corporate Communication	

Dr. Sumit Narula
Director
Amity School of Communication

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general

Sample Question Paper

Amity School of Communication I MID-SEMESTER (SEM –II) 2017-18						
Class: BAJMC.II Semester						
Subject Name: BAJMC-207 PUBLIC RELATIONS AND CORPORATE COMMUNICATION		Time: 1:30 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Dr. Sumit Narula
Director
Amity School of Communication

Student will be able to
CO1: public relations and corporate communication.

.CO2: Apply different cloud programming models as per need.

CO Map	Question No.	Question	Marks
CO1	Q.1	What are the key principles of public relations and corporate communication?	3
CO1	Q.2a	How do public relations and corporate communication contribute to organizational reputation?	3
	Q.2b	Can you distinguish between the roles of public relations in public and private sectors?	3
CO1	Q.3	What communication channels and tools are commonly used in public relations and corporate communication?	6
CO2	Q.4	Name common communication channels used in PR and corporate communication.	3
CO2	Q.5a	What ethical considerations are crucial in these fields?	3
	Q.5b	How do organizations handle crises through communication?	3
CO2	Q 6	How do public relations and corporate communication contribute to organizational reputation?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course **Public Relations and Corporate Communication /Course code BA*JMC-206*** is level 2 for the academic year 2017-18.

Dr. Sumit Narula
Director
Amity School of Communication

Amity School of Communication
Course Handout
Course Name : Basics of Media Research
Course Code : BAJMC 301, Crédits : 02, Session :2017-18(Odd Sem.), Class : BJMC. III rd Sem
Faculty Name : Dr. Sumit Narula

A. Introduction: The objective of this course is to introduce basic concepts of research and to establish the relationship between mass communication, journalism & research.

B. *Course Outcomes:* *At the end of the course, students will be able to:*

1. BAJMC 301.1: Students will be able to outline the fundamentals of research.
2. BAJMC 301.2: Students will describe the relationship between mass communication, journalism & research.
3. BAJMC 301.3: Students will explain the process, concepts, and techniques of research & infer the impact of research in mass communication.\
4. BAJMC 301.4: Student will be able to understand Qualitative and quantitative research techniques.
5. BAJMC 301.5: Student will be able to understand the process of writing a research report.

Program Educational Outcome

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Dr. Sumit Narula
Director
Amity School of Communication

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

Dr. Sumit Narula
Director
Amity School of Communication

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Global Media Scenario
Course Code : BAJMC 302, Crédits : 3, Session : 2017-18 (ODD), Class BAJMC 3rd Semester
Faculty Name : Sayantani Roy

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC 302.1- Develop a critical understanding of the relationship between media and globalization.
- BAJMC 302.2-Analyze how media influences the construction of national identities in a global context.
- BAJMC 302.3- Explore the impact of international media flows on social formations and cultural identities.
- BAJMC 302.4- Examine the role of media in shaping perceptions of global events and issues.
- BAJMC 302.Discuss the ethical considerations and cultural implications of media globalization.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Basics of Newsroom Practices
Course Code : BAJMC 304, Crédits : 3, Session : 2017-18 (ODD), Class BAJMC 3rd Semester
Faculty Name : Nihaz Anwar

Introduction: This course aims to a comprehensive exploration of essential journalistic skills and operations. From ethical standards to news gathering techniques, this course equips you with the fundamental knowledge needed to excel in the fast-paced world of media.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-304.1- Students will be able to identify the working procedure of the TV industry
- BAJMC-304.2- Students will outline the relationship of each personnel inside a newsroom
- BAMC-304.3- Students will recognize the working process of media houses
- BAJMC-304.4- Students will interpret the challenges and solutions of the TV industry
- BAJMC-304.5- Student will gain essential skills and knowledge in journalistic ethics, news gathering techniques.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Writing for TV
Course Code : BAJMC 306, Crédits : 3, Session : 2017-18 (ODD), Class BAJMC 3rd Semester
Faculty Name : Sandesh Mahajan

Introduction: This course aims to explore the intricacies of crafting compelling narratives specifically tailored for television audiences. From script development to character arcs and dialogue, join us on a journey to master the essential techniques needed to captivate viewers and bring stories to life on the small screen."

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-306.1- To familiarize students with concept of scrip, film& TV language.
- BAJMC-306.2- To make student acquainted with scripting for film, TV and video.
- BAJMC-306.3- To make students acquainted with script writing for different types of programmes.
- BAJMC-306.4- To make students acquainted with the formats of electronic media scripts and checklist for script revision.
- BAJMC-306.5- Learn to use different video script formats and employ effective revision techniques to enhance script quality.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication I MID-SEMESTER (SEM –III) 2017-18						
Class: BAJMC.III Semester						
Subject Name: BAJMC-306 Writing for TV		Time: 1.5 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of cloud architecture and model.
CO2: Apply different cloud programming models as per need.

CO Map	Question No.	Question	Marks
CO1	Q.1	What is the significance of scriptwriting in electronic media, film, and television language?	3
CO1	Q.2a	How do you brainstorm ideas and conduct research for scripting?	3

Dr. Sumit Narula
Director
Amity School of Communication

	Q.2b	What are the different formats used in scriptwriting and how are ideas developed and treated?	3
CO1	Q.3	Can you outline the stages involved in the scripting process, from idea conception to final production script?	6
CO2	Q.4	How do you breakdown shots and create storyboards for multi-camera productions?	3
CO2	Q.5a	What distinguishes a screenplay from a production script and a shooting script?	3
	Q.5b	How do you write scripts for various television programs such as news, documentaries, and variety shows?	3
CO2	Q 6	What are the different types of appeals and styles used in scriptwriting for advertisements and commercials?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Writing for TV*** /Course code ***BAJMC 306*** is level 3 for the academic year 2017-18.

Amity School of Communication
Course Handout
Course Name : Applied Research in Media Studies
Course Code : BAJMC 401, Crédits: 3 Session : 2017-2018 Class : BA J&MC IV
Faculty Name : Dr. Sumit Narula

A. Introduction: : The objective of this course is to familiarize the prospective engineers with techniques in calculus, multivariate analysis, and linear algebra. It aims to equip the students with standard concepts and tools at an intermediate to advanced level that will serve them well towards tackling more advanced level of mathematics and applications that they would find useful in their disciplines.

B. Course Outcomes: At the end of the course, students will be able to:
BAJMC 401.1: To introduce students to the application of research in mass communication
BAJMC 401.2: To explore the various forms of research in different media
BAJMC 401.3: To introduce students to the variety of tools used in different forms of media research
BAJMC 401.4: To introduce them to the concept of research paper/articles and their execution
BAJMC 401.5: To understand the scientific methods and analysis in research.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste

Dr. Sumit Narula
Director
Amity School of Communication

management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Course Contents/Syllabus:

Course Contents/Syllabus:	**Weightage**

Dr. Sumit Narula
Director
Amity School of Communication

Module I: Concept of Development Meaning and definitions of development, Process of development, Models and theories of development, Approaches to development, Problems and issues in development, Characteristics of developing societies, Difference between developed and developing nations and societies, Developmental issues	**30%**
Module II: Development Communication The concept of development communication, Definitions of development communication, Roles of development communication, Goals of development communication, Difference between communication for development and development communication, Development Support Communication	**35%**
Module III: Use of Mass Media in Social Sensitization Flow of information, McBride Commission, Role of communicator in the process of social change, Mass media as a tool for development, Problems with the use of media for development, Role of community radio and local media in social sensitization, CRS and local media role in development, Panchayati Raj	**35%**

Course Handout
Course Name : Basics of Film Theory & Practice
Course Code : BAJMC 402, Crédits : 3, Session : 2017-2018 (EVEN), Class BAJMC IV Semester
Faculty Name : Sandesh Mahajan

Introduction: This course aims to offers a comprehensive exploration of key concepts in film theory, coupled with practical exercises designed to hone your skills in scriptwriting, cinematography, editing, and directing.

Course Outcomes: At the end of the course:

- BAJMC-402.1- Students will select the Language of Cinema and fundamentals of film form and content
- BAJMC-402.2- Students will understand the relationship between theory and practice
- BAJMC-402.3- Students will be classify various fascinating aspects of Cinema
- BAJMC-402.4- Students will be able to define the crucial fine points that make Cinema
- BAJMC-402.5- Students will be capable to create a simple script and implement a shoot based on the same

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

	examination. The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weightage
Module I : Language of Cinema	20%
World space and screen space; Continuity: space & time, concepts of editing Camera movements, angles & shots; Mise-en-scene; Dimensions of sound: onscreen & off-screen, di-getic & non-digetic, sync amd non-sync, sound effects, and silence, dialogues, ambient sound, background score & musical tracks.	
Module II: Stages of Film Production	20%
Development stage- casting, scheduling & reece Pre production stage- key members of film production unit and their roles and responsibilities; Production; Post production; Distribution, promotion and release; Exhibition	
Module III : Scriptwriting	20%
Narrative Composition: 3 plot structure, Linear and Non linear and Circular Characterization & Dramatic Structure; Scriptwriting formats, step outline & shot break down Screen Play, storyboarding & shooting script; Script selection; Writing proposal	
Module IV : Lighting for Films	20%
Study of Lighting-Mood, Feel, Form, Content; Single point and two point lighting in Films Understanding Natural lighting in Films; Exercises in lighting for- Cameo; Silhouettes; Low Key; High Key; Realistic; Horror	
Module V: Introduction to Film Theories	20%
How to view/read the movie; Narrative and non narrative; Film genre; Italian neo-realism; French New wave; Birth of Indian cinema; Golden era of Indian Cinema	

Teaching Pedagogy:

The class will be taught using theory, discussion, practical and case based method. Film clips specially belonging to particular eras will be screened. Discussion based learning especially in the context of Indian cinema will be undertaken. Home assignments and presentation will be a component of the course. In case of a specific event in the city involving cinema, students will

Dr. Sumit Narula
Director
Amity School of Communication

be taken on field trip for the same. Written assignments on scriptwriting will be included. Workshop and interactive method will be used to hone skills in script writing.

Amity School of Communication
Course Handout
Course Name : Electronic Media Production
Course Code : BAJMC 403, Crédits : 3, Session : 2017-18 (EVEN), Class BAJMC IV Semestre
Faculty Name : Nihaz Anwar

Introduction: This course aims to explore the intricacies of producing compelling electronic media content for various electronic media platforms. From mastering camera techniques to editing and post-production.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-403.1- Students will identify the concept of idea generation and converting the concept into actual programme .
- BAJMC-403.2- Students will able to outline quality lighting setups for different genres of TV programmes.
- BAJMC-403.3- Students will be able to demonstrate audience rating for the betterment of Production quality.
- BAJMC-403.4- Gain proficiency in utilizing advanced tools and techniques for producing high-quality multimedia content.
- BAJMC-403.5- Develop practical skills in camera operation, video editing, and post-production.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Introduction to Development Communication
Course Code : BAJMC 404, Crédits : 3, Session : 2017-2018 (EVEN), Class BAJMC IV Semester
Faculty Name :

Introduction: This course aims to a comprehensive exploration of the theories, strategies, and practices employed in fostering sustainable development at local, national, and global levels.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-404.1- Students will be able to recognize and explain the concept and importance of development
- BAJMC-402.2- Students will be able to distinguish between communication and development communication
- BAJMC-403.3- Students will be able to describe use of different media in development communication
- BAJMC-404.4- Understand key theories and principles of development communication.
- BAJMC-405.5- Acquire practical skills to design and implement effective communication strategies for social change.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Basics of Cyber Media
Course Code : BAJMC 405, Crédits : 3, Session: 2017-18 (EVEN), Class :BAJMC 4th Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Cyber Media. It is important for a media student to understand the way media is being consumed in the emerging networked world. On demand access to content, anytime, anywhere and on any digital device is the birth and evolution of New Media. An understanding of New Media will enable the student to find the synergies, challenges and opportunities in the emerging media landscape.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-101.1-Students will gain a profound grasp of key concepts in cyber media, providing a solid foundation for analyzing and interpreting diverse understanding the emergence of the new'reader'
- BAJMC-101.2-The course will empower students to enhance their convergence of media and technology enabling them to critically engage with various forms of New Media.
- BAJMC-101.3-They will develop the ability to discern and interpret media messages, fostering a more informed and discerning perspective.
- BAJMC-101.4-This includes a detailed exploration of theories of changing role of media professionals.
- BAJMC-101.5-Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of of web journalism.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Faculty Name : Dhruv Sabharwal

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC 406.**1- Gain a comprehensive understanding of the role and significance of Event Management in contemporary society, considering fast-changing trends and dynamics.
- **BAJMC 406.**2- Acquire practical knowledge and skills in planning, organizing, and executing various types of events, ranging from corporate conferences to cultural festivals.
- **BAJMC 406.**3- Develop proficiency in event marketing and promotion strategies, including utilizing digital platforms and social media for enhanced outreach and engagement.
- **BAJMC 406.**4- Explore the impact of Event Management as a tool for brand promotion and building, understanding its importance in enhancing brand visibility and consumer engagement.
- **BAJMC 406.5**Analyze case studies and real-world examples to understand best practices and challenges in Event Management across different industries and sectors.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Film Appreciation
Course Code : **BAJMC 407**, Credits : 3, Session : 2017-18 (EVEN), Class BAJMC 4th Semester
Faculty Name : Sandesh Mahajan

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC 407.**1- Understand the significance and value of film viewing as a form of cultural expression and communication.
- **BAJMC 407.**2- Summarize key events and developments in the early history of filmmaking, including major technological advancements and influential filmmakers.
- **BAJMC 407.**3- Demonstrate an understanding of the filmmaking process, including pre-production, production, and post-production stages.
- **BAJMC 407.**4- Discuss the principles of film psychology and how they influence audience perception and interpretation of cinematic narratives.
- **BAJMC 407.**5Describe general ideas and theories in art criticism and how they apply to the analysis and appreciation of film as an art form.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

Amity School of Communication
Course Handout
Course Name : Advanced Cyber Media
Course Code : **BAJMC 501**, Credits : 2, Session : 2017-18 (ODD), Class BAJMC 5th Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC 501**.1- Develop an understanding of the evolving nature of media consumption patterns in the networked world.
- **BAJMC 501**.2- Explore the emergence of the new 'reader' and their role in shaping media content and distribution.
- **BAJMC 501**.3- Analyze the convergence of media and technology and its impact on content creation, distribution, and audience engagement.
- **BAJMC 501**.4- Gain insight into the changing role of media professionals in the context of new media environments.
- **BAJMC 501**.5- Understand the principles and practices of web journalism, including storytelling techniques, multimedia content creation, and audience interaction.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Advanced Film Theory & Practice
Course Code : **BAJMC 502**, Credits : 3, Session : 2017-18 (ODD), Class BAJMC 5th Semester
Faculty Name : Sandesh Mahajan

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **JMC 502**.1- Gain an in-depth understanding of the intricate nuances of cinema, including its history, genres, and techniques.
- **JMC 502**.2- Develop a critical appreciation for the specific elements and finer aspects of film, such as cinematography, editing, sound design, and narrative structure.
- **JMC 502**.3- Explore the works of renowned filmmakers across different periods and cultures, analyzing their distinctive styles, themes, and contributions to cinema.
- **JMC 502**.4- Examine the impact of influential filmmakers and their outstanding works on the evolution of filmmaking practices and cinematic storytelling.
- **JMC 502**.5- Analyze and interpret films using advanced theoretical frameworks and critical perspectives, incorporating concepts from film theory, semiotics, and cultural studies

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be	A	5%

Amity School of Communication
Course Handout
Course Name : Anchoring Skills for Television
Course Code : **BAJMC 504**, Credits : 3, Session : 2017-18 (ODD), Class BAJMC 5th Semester
Faculty Name : Nihaz Anwar

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC-504**.1- Develop the ability to deliver information in a professional and articulate manner suitable for television broadcasting.
- **BAJMC-504**.2- Acquire the skills to handle live broadcasting situations with confidence and poise, including ad-libbing and responding to unexpected challenges.
- **BAJMC-504**.3- Understand the challenges faced by media professionals in the field of television anchoring and develop strategies to overcome them.
- **BAJMC-504**.4- Enhance vocal delivery and non-verbal communication techniques to engage and captivate television audiences.
- **BAJMC-504**.5- Practice effective time management and organization skills to meet deadlines and deliver polished performances on air.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Specialized Writing & Editing**
Course Code : JMC 505, Crédits : 3, Session : 2015-18 (ODD), Class BAJMC 5th Sem
Faculty Name : Sayantani Roy

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-505.1- Students will gain a profound grasp of key concepts to Write various types of features for magazines
- BAJMC-505.2- The course will empower students to Produce stories for specialized genres such as travel, lifestyle, disaster reporting.
- BAJMC-505.3- They will develop editing and Page Layout planning skills.
- BAJMC-505.4- This includes a detailed exploration Demonstration of investigative reporting and writing skills
- BAJMC-505.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester	A	5%

	examination. The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weighta
Module I : Writing for Magazines	**25 %**
Indepth news analysis; Writing features; Gossip, diary and opinion columns; Profiles Human Interest features	
Module II: Specialized writing	**25 %**
Editorial writing; Travel writing; Disaster reporting; Page 3 and lifestyle reporting Science and Technology reporting; Environmental reporting	
Module III: Investigative Reporting	**20 %**
Definition and elements; Tools of investigative reporting; Sting Operations and latest trends; Relevant Case studies: Indian and International	
Module IV: Editing & Page Layout	
Editing and rewriting news and features Headlines – techniques, styles, purposes, kinds of headlines; Dummy pagemake- up Computer layout; Choosing the right visuals; Principles of photo editing; Page Layout Planning	**30 %**

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general

Course Handout
Course Name : **Digital Animation & Sound**
Course Code : JMC 506, Crédits : 2, Session : 2017-18 (ODD), Class BAJMC 5th Sem
Faculty Name : Anshul Jain

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-506.1- Understand the principles of digital animation, including key concepts such as timing, spacing, and squash and stretch.
- BAJMC-506.2- Demonstrate the ability to create visually compelling animated sequences using a variety of techniques, such as 2D or 3D animation.
- BAJMC-506.3- Gain an understanding of storytelling techniques and how they apply to animation, including character development and narrative structure.
- BAJMC-506.4- Develop critical thinking skills by analyzing and critiquing animated works, identifying strengths and areas for improvement.
- BAJMC-506.5- Explore the relationship between sound and animation, learning how to synchronize audio with visual elements effectively.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Media Planning**
Course Code : JMC 507, Crédits : 3, Session : 2017-2018 (ODD), Class BAJMC 5th Sem
Faculty Name : Dr Dhruv Sabharwal

Introduction: The course aims at teaching process by which media selects positions by companies or their agencies is a complex one involving substantial marketing and advertising research. While the process includes numerous steps, it operates in two stages: media planning and media buying.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-507.1- Understand the fundamental concepts and theories of media planning, including audience analysis, media selection, and campaign strategy.
- JMC-507.2- Develop proficiency in utilizing media research tools and data analysis techniques to inform media planning decisions.
- JMC-507.3- Gain insight into the role of media in integrated marketing communication strategies and how media planning aligns with broader marketing objectives.
- JMC-507.4- Explore the ethical considerations and legal regulations relevant to media planning, such as advertising standards and consumer privacy laws.
- JMC-507.5- Analyze case studies and real-world examples to understand best practices and industry trends in media planning across various sectors and markets.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : **Media Laws & Ethics**
Course Code : BAJMC 601, Crédits : 3 , Session : 2017-18 (EVEN), Class BAJMC 6th Sem
Faculty Name : Satnam Singh

Introduction: The course aims at encompassing the legal regulations and moral standards governing journalistic practices and media content. With increasing scrutiny and evolving digital landscapes, navigating the complexities of free speech, privacy rights, and responsible reporting is paramount. Understanding these principles is essential for media professionals to uphold integrity, transparency, and accountability in their work.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-601.1- Understand the historical development and evolution of media laws and ethical standards.
- BAJMC-601.2- Analyze and interpret legal frameworks governing freedom of speech, press freedom, and access to information.
- BAJMC-601.3- Identify key legal concepts and principles relevant to media practitioners, such as defamation, privacy, copyright, and intellectual property.
- BAJMC-601.4- Examine case studies and real-world scenarios to apply legal and ethical principles to contemporary media issues.
- BAJMC-601.5- Discuss the role of media watchdogs, regulatory bodies, and professional organizations in upholding ethical standards and accountability.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Sample Question Paper

Amity School of Communication I MID-SEMESTER (SEM –5) 2017-18						
Class: BAJMC 6th Semester						
Subject Name: BAJMC-601 Media Laws & Ethics		Time: 1.5 Hrs		Max. Marks: 30		
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: Understand the historical development and evolution of media laws and ethical standards.
CO2: Identify key legal concepts and principles relevant to media practitioners, such as defamation, privacy, copyright, and intellectual property.

CO Map	Question No.	Question	Marks
CO1	Q.1	How does Media Laws & Ethics contribute to achieving marketing objectives and enhancing brand visibility?	3
CO1	Q.2a	What are the primary legal principles that govern media activities, and how do they vary across different jurisdictions?	3
	Q.2b	How do media laws address issues of privacy, especially in the context of reporting on public figures?	3
CO1	Q.3	What are the ethical considerations surrounding the use of anonymous sources in journalism, and how do media organizations navigate them?	6
CO2	Q.4	How do media laws protect freedom of speech and freedom of the press, and what are the limitations on these freedoms?	3

Dr. Sumit Narula
Director
Amity School of Communication

CO2	Q.5a	How do defamation laws differ between the United States and other countries, and what impact do these differences have on journalistic practices?	3
	Q.5b	Can you explain the concept of copyright law as it applies to media content, and how do media organizations ensure compliance?	3
CO2	Q 6	What ethical considerations arise when reporting on marginalized or vulnerable communities, and how do media organizations address them?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Media Laws & Ethics*** Course code BA***JMC-601*** is level 2 for the academic year 2017-18.

Amity School of Communication
Course Handout
Course Name : **Multimedia & Convergence**
Course Code : JMC 602 Crédits : 3 , Session : 2017-18 (EVEN), Class BAJMC 6th Sem
Faculty Name : Anshul Jain

Introduction: This course focuses on the design and evaluation of multimedia learning and teaching environments in higher education settings as well as corporate training contexts. Students are introduced to principles of multimedia design based on cognitive theories and constructivist approaches to learning. Near completion, students are exposed to further case studies and develop their own concept for a multimedia project. This course will focus on the design of educational multimedia for libraries and media centers, to facilitate an understanding of how to create and design user-centered, instructional multimedia, to provide hands-on experience in multimedia production, including digitization of images, sounds, animation and video, and hypertext authoring.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-602.1- Students will be able to describe and apply Multimedia software in various ways.
- BAJMC-602.2- They also will be able to interpret and operate on the various principles of multimedia design.
- BAJMC-602.3- Demonstrate proficiency in creating multimedia content using a variety of tools and technologies..
- BAJMC-602.4- Explore the cultural, social, and economic implications of multimedia convergence on society..
- BAJMC-602.5- Collaborate effectively in interdisciplinary teams to create multimedia projects that integrate various media formats..

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Fiction Production**
Course Code : BAJMC 603 Crédits : 3 , Session : 2017-18 (EVEN), Class BAJMC 6th Sem
Faculty Name : Sandesh Mahajan

Introduction: This course focuses on the design and evaluation of Fiction production which encompasses the creative process of crafting imaginative narratives across various mediums, including literature, film, television, and digital platforms. From conceptualization to publication, it involves storytelling techniques, character development, world-building, and narrative structure, aiming to captivate audiences with compelling and immersive fictional experiences

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-603 .1- Analyze various storytelling techniques and narrative structures employed in fiction production..
- BAJMC-603 .2- Apply principles of world-building to construct immersive fictional settings that enhance narrative depth..
- BAJMC-603 .3- Demonstrate proficiency in creating multimedia content using a variety of tools and technologies
- BAJMC-603 .4- Develop strategies for navigating the publishing and production process in the fiction industry.
- BAJMC-603 .5- Explore ethical considerations and responsibilities inherent in the creation and dissemination of fictional content.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Name : **Client Servicing & Copywriting**
Course Code : BAJMC 604, Crédits : 2, Session : 2015-18 (EVEN), Class BAJMC 6th Semester
Faculty Name : Dhruv Sabharwal

Introduction: This course aims to immerse students in Advertising copywriting is a creative communication form based upon a sense of artistry. The course will detail how account planning and client servicing relate to advertising industry.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-604.1- The course designed to familiarize the students with the concept of copy writing as selling through writing
- BAJMC-604.2- The course will empower students to enhance their media literacy skills, the course will help students develop writing skills.
- BAJMC-604.3- They will develop the ability to discern and interpret media messages, course will train students to generate, develop and express ideas effectively
- BAJMC-604.4- This includes a detailed exploration to make the students well versed with the Principles and Practices to copy writing and of develop the vocabulary, visualization skills and intricacies of copywriting.
- BAJMC-604.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : **Radio Programming**
Course Code : BAJMC 605, Crédits : 3, Session : 2015-18 (EVEN), Class BAJMC 6th Semestre
Faculty Name : Sayantani Roy

Introduction: The course objective is to make the students understand radio journalism in India. This will give an insight into changing trends in radio programming. It will help the students to learn the techniques used to conceptualize a program how to write script of different program genres finally make them aware of the production process used in Radio for programming.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-605.1- The course designed to will recognize the importance of professional responsibilities needed.
- BAJMC-605.2- The course will empower students to identify the technicalities as well as the terminologies used for Radio Programmes.
- BAJMC-605.3- They will will be able to learn how to express concepts with the help of words that create impact.
- BAJMC-605.4- This includes a detailed exploration to make the students well versed with the entire production process.
- BAJMC-605.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course: Theories of Communication
Course Code : MAJMC 101, Crédits : 03, Session: 2017-18 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name: Sayantani Roy

A. Introduction: The objective of this course is to familiarize the students with the understanding of communication process and different theories of mass communication.

B. Course Outcomes: At the end of the course, students will be able to:

- **MAJMC101.1**. Understand the communication process.
- **MAJMC101**.2: Understand different school of thoughts for communication
- **MAJMC101.3**. Learn about the different models of communication.
- **MAJMC101.4**. Learn about the different theories of communication
- **MAJMC101.5:** Learn about the importance of communication in today's context

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and

Dr. Sumit Narula
Director
Amity School of Communication

films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name : Basics of Print Journalism
Course Code : MAJMC 102. Crédits : 3, Session : 2017-18 (ODD), Class MAJMC 1st Semester
Faculty Name : Ashish Sharma

A. **Introduction:** In the Basics of Print Journalism course, the objective is to familiarise future media analysts and current affairs professionals with crucial skills in critical analysis, statistical methods, and data interpretation. The aim is to establish a robust understanding of intermediate to advanced analytical concepts, enabling students to adeptly navigate the intricacies of media analysis and stay well-informed about current affairs within their respective fields.

B. **Course Outcomes:** At the end of the course, students will be able to:

- MAJMC-102.1- Basics of Print Journalism course will develop advanced critical analysis skills, allowing them to evaluate news articles, reports, and journalistic content
- MAJMC-102.2- Participants will acquire a solid foundation in statistical methods relevant to journalism, enabling them to interpret and present data effectively in their reporting.
- MAJMC-102.3- This skill set will empower them to engage critically with diverse media sources and contribute to a more comprehensive understanding of current affairs.
- MAJMC-102.4- The course will equip students with the capability to interpret complex data sets commonly encountered in journalism
- MAJMC-102.5- The course aims to ensure that participants are proficient in staying abreast of current affairs within their specific disciplines.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. Amity School of Communication
Course Handout
Course Name : Media Designing
Course Code : MAJMC 103, Credits: 3 Session : 2017-18 Class : MA J&MC I
Faculty Name : Sanjay Sikarwar

A. Introduction: "Media Designing" introduces students to the creative world of visual communication, covering essential design principles and tools. This course equips participants with the skills to craft compelling and visually impactful media content across various platforms.

B. Course Outcomes: At the end of the course, students will be able to:

MAJMC 103.1 Enable students to understand the basics of the computer based graphic design, which mainly using in adverting.

MAJMC 103.2 Help students to practice meaning and artistic qualities of graphic design, how to work with computers, different design software's like Adobe Illustrator, InDesign, Quark Xpress etc.

MAJMC 103.3 Enable students to strengthen them in using various software's like Adobe Illustrator, InDesign, Quark Xpress etc.

MAJMC 103.4 Develop a deep understanding of fundamental design principles, including layout, color theory, and typography.

MAJMC 103.5 Apply design concepts to various media platforms, including digital, print, and social media, ensuring versatility.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : ADVERTISING PRINCIPLES AND PRACTICES
Course Code: MAJMC 104, Credits: 03, Session: 2017-18 (Odd Sem.), Class: MA(J&MC). 1st Year
Faculty Name : Dhruv Sabharwal

A. Introduction: The course provides a comprehensive overview of advertising from a media perspective. It talks about the evolution of advertising creating an understanding of traditional advertising and promotional tools.

B. Course Outcomes: At the end of the course, students will be able to:

MAJMC104.1. The course introduces the students to concepts of advertising.

MAJMC104.2. The course will provide them with the knowledge of Indian advertising scenario.

MAJMC104.3. The course is designed to make students understand the relationship between advertising and marketing.

MAJMC104.4. The course shall familiarize the students with the social and ethical issues concerning advertising in society.

MAJMC104.5. The course is designed to encourage critical thinking regarding advertising practices by analyzing the legal dimensions.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

D. Programme Specific Outcomes:

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

E. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves	A	5%

Dr. Sumit Narula
Director
Amity School of Communication

	including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			100%

F. Syllabus:

Module I: Understanding Advertising:

Concept, Nature, Definitions, Evolution and History, Role, Objectives, Functions, And Significance, Types and Classification of Advertising, Factors Determining Advertising Opportunity of a Product/Service/Idea, Types of Appeals and Advertising Messages, Concept of Integrated Marketing Communication (IMC)

Module II: Agency Structure and its Roles and Responsibilities:

Various Functional Departments and Scope of Their Works (Account Planning, Account Servicing. Creative- Copy & Art, Media, Production, Billing, HR Etc.)

Ad Agency: Functions, Types, Structure, Departments, Remuneration, Pitching, Client Agency Relationship, Revenue and Commission Systems.

Module III: Account Management:

Introduction to Account Management-Scope, Definition, Responsibilities and Implementation Paths, Client Related Issues and The Process: Stages in The Client-Agency Relationship, Factors Affecting Client-Agency Relationship, The Pitching Mechanism-Simulation, Creative and Media Briefing Process (Agency -Media Interface, Agency Revenue Process, Setting and Allocating Budget, Various Methods of Budgeting)

Module IV: Social, Legal and Ethical Aspects of Advertising:

Ethical Issues in Advertising Social Criticism of Advertising Laws in Advertising, Statutory Bodies in India, Role of AAA And ASCI and The Study of Various Codes of Conduct.

G. Examination Scheme:

Components	A	CT	S/V/Q/HA	EE
Weightage (%)	5	15	10	70

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

Amity School of Communication
Course Handout
Course Name: Aesthetics of Photography
Course Code : MAJMC 105. Crédits : 3, Session: 2017-18(ODD), Class MAJMC 1st Semester
Faculty Name : Dr. Sandesh Mahajan

Introduction: The Aesthetics of Photography explores the visual language and artistic principles behind compelling images. This subject delves into composition, lighting, and the emotional impact of photographs. Students will unravel the artistry within the frame, cultivating a deeper appreciation for the intersection of creativity and technical skill in the realm of photography.

A. **Course Outcomes:** At the end of the course, students will be able to:

- MAJMC-105.1- Students will gain proficiency in both the artistic and commercial aspects of photography, developing a nuanced understanding of how visual elements contribute to impactful images.
- MAJMC-105.2- Through hands-on exploration, students will refine their skills in creating and editing photographic works.
- MAJMC-105.3- This process will elevate their visual literacy, fostering a deeper connection to the medium of photography.
- MAJMC-105.4- The course covers the creation of both fictional and non-fictional images, artificial lighting techniques, digital editing processes, and the principles of photojournalism.
- MAJMC-105.5- This component aims to cultivate a constructive and analytical approach, fostering growth and improvement in their photographic work through feedback.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Sample Question Paper

Amity School of Communication I MID-SEMESTER (SEM –I) 2017-18						
Class: MAJMC.I Semester						
Subject Name: MAJMC-105 Aesthetics of Photography		Time: 1.5 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		
Student will be able to CO1: List the broad perceptive of cloud architecture and model. CO2: Apply different cloud programming models as per need.						

CO Map	Question No.	Question	Marks
CO1	Q.1	How does the interplay of composition, lighting, and subject contribute to the aesthetic appeal of a photograph, and how can photographers leverage these elements for creative expression?	3
CO1	Q.2a	In the realm of photography, how does the balance between artistry and commercial considerations influence the creation of compelling images, and what challenges may arise in finding this equilibrium?	3
	Q.2b	Explore the significance of digital editing in shaping the aesthetic qualities of a photograph. How can post-processing enhance or alter the visual narrative, and what ethical considerations should photographers keep in mind during this process?	3
CO1	Q.3	Discuss the role of storytelling in both fictional and non-fictional photographic works. How can photographers effectively convey narratives through their images, and what visual techniques contribute to storytelling in photography?	6
CO2	Q.4	Examine the impact of artificial lighting on the mood and atmosphere of a photograph. How can photographers skillfully use lighting techniques to evoke specific	3

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : INTRODUCTION TO RADIO
Course Code : MAJMC 106, Crédits : 03, Session : 2017-18 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Sayantani Roy

A. Introduction: The objective of this course is to familiarize the students Students with the structure and history of the radio industry of India, as well as recognize the impact of AIR on nation.

B. Course Outcomes: At the end of the course, students will be able to:

MAJMC106.1. The course introduces the students to concepts of Radio as a Medium.

MAJMC106.2. The course will provide them with the knowledge of Expansion of Radio.

MAJMC106.3. The course is designed to make students to understand the Broadcasting Policy.

MAJMC106.4 Understand the mechanics, principles, and life cycle of the Radio process.

MAJMC106.5. Understand the world of Radio

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Course Handout
Course Name : Political Communication
Course Code : MAJMC 108, Crédits : 03, Session : 2017-18 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Dr. Ashish Sharma

A. Introduction: A democracy's success depends upon open and direct communication between its citizens and those who govern them. Therefore, the main goal of the course is to teach students about the role of communication in informing, influencing, and legitimizing decisions in domestic politics. In the constitution was adopted and why not some other, how the institutions grow in the company of actual politics.

This course examines the interaction of media, politics, and public opinion, thus providing a survey of the field of political communication. As a result, the goal of this course is to teach students to be effective observers and participants in the public sphere. We will study political communication in all its forms, genres, and styles in Indian politics. This course examines the practices that have come to constitute political communication. Emphasis will be given to the role of political communication as it is practiced in the media.

B. Course Outcomes: At the end of the course, students will be able to:

MAJMC108.1. The course introduces the students to concepts of Political Communication as an emerging Discipline.

MAJMC108.2. The course will provide them with the knowledge of international dimensions of Political Communication.

MAJMC108.3. The course is designed to make students to understand politics and its relation to nation-building.

MAJMC108.4. The course is designed to make students to understand UNESCO's efforts in removal of Imbalance in News flow.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

Dr. Sumit Narula
Director
Amity School of Communication

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

Dr. Sumit Narula
Director
Amity School of Communication

Syllabus

Module I: Political Communication as an emerging Discipline

Scope and Characteristics, Relationship of Politics with Communication. Theoretical Approaches, The Role of Media in Politics; Mediation, Political Socialization, Political Participation, Political Processes, Public Opinion, Persuasion, Public Policy, Rights and Responsibilities of The Media. Channels of Political Communication

Module II: International dimensions of Political Communication

Globalisation of Media, Transnational News, Ideological Promotion and Conflict, International Relations and Propaganda, Emergence of Third World Political Communication. Communication as A Human Right – UNO's Universal Declaration of Human Rights and Communication - International News Agencies and Syndicates, Their Organizational Structure and Functions – A Critique of Western News Values

Module III: Introduction to identity politics and its relation to nation-building

Local Assertions and Its Links to Global Assertions, Gender Issues - Country or Region-Specific Gender, Race, Class and Caste Issues from A Post-Colonial Perspective; Racial Profiling, Discrimination, Xenophobia and Cross Border Migration, HDI, Development and Environmental Concerns - Conflict of Interests Between Economic and Environmental Concerns.

Module IV: UNESCO's efforts in removal of Imbalance in News flow

Debate on New World Information and Communication Order and New International Economic Order, MacBride Commission's Report – Non-Aligned News Agencies Pool – Its Working, Success, Failure. Issues in International Communication – Democratization of Information Flow and Media Systems – Professional Standards; Information – Prompted Cultural Imperialism – Criticisms; Violence Against Media Persons - Effects of Globalization on Media Systems and Their Functions; Transnational Media Ownership and Issues of Sovereignty and Security.

Examination Scheme:

Components	A	CT	S/V/Q/HA	EE
Weightage (%)	5	15	10	70

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

Course Handout
Course Name : Fundamentals of Communication Research
Course Code : MAJMC 201, Credits : 3 Session : 2017-18 Class : MA J&MC II Sem
Faculty Name : Dr. Sumit Narula

A. Introduction: "Fundamentals of Communication Research is a dynamic course designed to equip students with the essential skills and methodologies for exploring, analyzing, and understanding various aspects of communication. Through a comprehensive study of research techniques, this course empowers students to critically examine the impact, dynamics, and trends in communication processes across diverse media and contexts."

B. Course Outcomes: At the end of the course, students will be able to:

- MAJMC 201.1. Develop advanced skills in designing and conducting Fundamentals of Communication Research across diverse media platforms.
- MAJMC 201.2 Cultivate the ability to critically evaluate and interpret communication processes, theories, and trends.
- MAJMC 201.3 Master various research methodologies relevant to communication studies, including qualitative and quantitative approaches.
- MAJMC 201.4 Acquire proficiency in presenting research findings through clear and impactful communication strategies.
- MAJMC 201.5 Demonstrate a strong commitment to ethical considerations in Fundamentals of Communication Research, ensuring integrity and validity in the research process.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

	ensuring integrity and validity in the research process.															

Sample Question Paper

Sample Amity School of Communication 2017-18						
Class: MA J&MC **Fundamentals of Communication Research** II Semester						
Subject Name: **Fundamentals of Communication Research**		Time: 3 Hrs		Max.Marks:70		
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6	Q. 7, 8, 9, 10	
Student will be able to:						

CO Map	Question No.	Question	Marks
CO1	Q.1	Define various research methods and approaches used in social sciences	6
CO1	Q.2	What are the various tools of data collection ?	6
	Q.3	What are measures of central tendency? Explain mean ,median and mode	6
CO1	Q.4	What are the cultural, social and political impact of Globalisation?	6
CO2	Q.5	Explain in detail the shift in Indian Sports scenario,	6
CO2	Q.6	Define Fundamentals of Communication Research and discuss its importance in the Indian scenario.	6
	Q.7	Explain the process of formulating a research problem, including the review of literature, hypothesis development, and research design.	10

Dr. Sumit Narula
Director
Amity School of Communication

CO2	Q.8	Discuss the application of statistics in Fundamentals of Communication Research, emphasizing frequencies and percentages.	10
CO3	Q.9	Explore ethical considerations in Fundamentals of Communication Research, covering topics such as plagiarism, database usage, and research matrices.	10
CO3	Q.10	Explain key terms related to sampling, including sample plan, sample design, sample unit, sample frame, and sample size. Discuss tools of data collection.	20

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Fundamentals of Communication Research*** /Course code ***MAJMC 201*** is level **3** for the academic year 2017-182.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Television Journalism
Course Code : MAJMC 202, Crédits : 03, Session : 2017-18 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Nihaz Anwar

A. **Introduction:** The objective of this course is to familiarize the students Students with the structure and history of the TV industry of India, as well as recognize the impact of Television Industry on nation.

B. **Course Outcomes:** At the end of the course, students will be able to:
MAJMC 202.1. The course introduces the students to introduce the basics of Tv Production and its practice to the students
MAJMC 202.2. The course is designed in a manner to reinforce the basic concepts of TV Industry.
MAJMC 202.3.Course will make students understand the workings of the media.
MAJMC 202.4 Understand the mechanics, principles, of TV production.
MAJMC 202.5. Understand the world of Television Production.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus

	Weightage (%)
Module I: Television as a Medium	**25%**
• Understanding the medium: invention and development; strengths and weaknesses of the medium;	

Dr. Sumit Narula
Director
Amity School of Communication

• Production and transmission technology; working of a TV camera: various camera shots and angles for news coverage, types of ENG cameras, • understanding sound, light and colour TV editing software: uses and limitations	
Module II TV News	**25%**
• Understanding TV News: news values, significance of timeliness, news as it happens; sources of news, types of news, news agencies; • news priorities for TV, comparison with other news media, breaking news: definition and practice • Working of a news room: various functionaries in a news room: reporters, copy editors, input, editors, output editors, news producers, cameramen, video editors; • Backroom researchers, reference library or archives people, graphic artists	
Module III TV Reporting	**25%**
• TV reporting: reporting skills: understanding deadline, gathering information, cultivating, sources, planning and designing a story, being fit and alert, presentation skills: voice modulation, diction, screen presence, body language; • Piece-to-camera, phonos, interview skills, instructing cameraman, • significance of sound-bytes, gettinggood sound-bytes	
Module IV TV Editing	25
• Writing and editing TV news: TV writing style: words vs visuals, writing in 'aural' style, content of news, anchor script, voice over script, writing headlines, drafting of news scrolls; • updating information, News presentation: structure of a news bulletin: headlines, • individual stories: telling a story through visuals, use of graphics, file shots, photos etc., • compilation of a bulletin, live feed, anchor's responsibilities; • Skills required of a news anchor: screen presence, presence of mind, interview skills etc.	2**25%**

E. Examination Scheme:

Components	**A**	**MT**	**IE**	**EE**
Weightage (%)	5	15	10	70

MT: Mid Term; IE: Internal Evaluation; EE: End Semester Examination; A: Attendance

Faculty Name : Sayantani Roy

Introduction: This course is designed to provide students with hands-on experience in radio production and broadcasting. It covers various aspects of radio equipment, scriptwriting, voice and presentation skills, program development, news reporting, and practical tasks to develop their radio broadcasting skills.

A. **Course Outcomes:** At the end of the course, students will be able to:

- MAJMC-203.1- Provide a comprehensive understanding of the fundamental concepts and principles of radio production,
- MAJMC-203.2- Develop practical skills in operating radio production equipment, including soundboards, microphones, and editing software,
- MAJMC-203.3- Explore effective scripting and storytelling methods tailored for radio
- MAJMC-203.4- Offer opportunities for students to participate in live radio broadcasting scenarios
- MAJMC-203.5- Equip students with proficiency in industry-standard software for audio editing and production

Program Educational Objectives

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**

	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus:

Course Contents/Syllabus:

	Weightage (%)
Module I Studio Layout	

Dr. Sumit Narula
Director
Amity School of Communication

Descriptors/Topics The Radio Studio- Studio Layout, The studio desk, mixer, control panel, console or board, Digital Compression, Digital Audio Workstation, Tape Formats, CDs, album and other discs, Microphones, Stereo, Equipment faults, Basics of Sound	**20%**
Module II Radio Formats and Genres	**20%**
Descriptors/Topics Radio formats- Simple announcements, Radio talks/commentaries/comments, Radio interviews, Radio discussions, Radio features and documentaries. Radio play, Radio running commentaries, Radio ads/commercials, Phone ins and radio bridges, Music on radio, Radio News-Radio News defined, Main characteristics of Radio News as against news in other media	
Module III Writing for radio	**20%**
Descriptors/Topics Writing for ear- Who are you talking to? What do you want to say? The storage of talk Words, Structure and Signposting, Pictures and stories, Double Meaning/Ambiguity Writing script (Radio News/ Radio Feature/ Radio Play etc.)	
Module IV Radio Presentation	**40%**
Descriptors/Topics News reading and Presentation-The Seven Ps (Posture, Projection, Pace, Pitch, Pause, Pronunciation, Personality) , News reading, Vocal Stressing, Inflections, Quotation Marks, Alterations, Corrections, List and Numbers, Station Style, Continuity presentation, Creation of Radio Jingles, Error and Emergencies, Head Phones, Trials and Promos, Radio Interviewing(The basic approach, Question Technique etc.),Vox Pop (Phrasing the Questions, Putting the Questions etc.), Cues and Links (Information for the broadcasters, links), Making radio Commercials(Copy policy, Target Audience, writing copy, voicing and treatment, music and effects, Humour)	

Pedagogy for Course Delivery:

The course integrates class lectures, equipment demos, and discussions for a holistic understanding. Field assignments and hands-on experience with audio radio stations enhance practical skills. Culminating in a student-led radio program project, the curriculum ensures a comprehensive grasp of radio production, encompassing various program types in mass communication.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as

Dr. Sumit Narula
Director
Amity School of Communication

professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus

	Weightage (%)
Module I House Styles	

Dr. Sumit Narula
Director
Amity School of Communication

Descriptors/Topics Basic concept of style-sheet and its creation, Style guide: examples from newspapers, magazines; own guide produced for new publication. Styles: choice of typeface and masthead, choice and use of images and color, positioning of articles and images on the page, use of headlines in an appropriate font, point size, number of lines etc., text manipulation, juxtaposition of text/images/advertising, Typography	**25%**
Module II Advertising Designing	**35%**
Descriptors/Topics Communicating through multiple media: Digital and print produces integrated design solutions. Different types of advertising: Press ad, Magazine ad, Hoardings, Kiosks, Interior & Exterior Signage, Danglers, and Banners etc. Choice and usage of images and colors in advertisements.	
Module III Design Software's	**40%**
Descriptors/Topics **obe Photoshop and Coral Draw -** Introduction, Interfaces and various palettes, Document Setting, About Menus. Different Advertisement Designing Projects – magazine, brochure, newspaper, letter head, flex board advertisements', Advertising Campaign: Developing advertising campaigns, from concept to creation, from creative to presentation.

Amity School of Communication
Course Handout
Course Name : Specialized Reporting
Course Code : MAJMC 205 , Credits : 3 Session : 2017-18 Class : MA J&MC II
Faculty Name : Aditya Kumar Shukla

A. Introduction: "Specialized Reporting is a dynamic course designed to equip journalism students with advanced skills in in-depth reporting across specialized fields. From investigative journalism to coverage of niche topics, this course focuses on honing the expertise needed to excel in the ever-evolving landscape of specialized reporting."

B. Course Outcomes: At the end of the course, students will be able to:
MAJMC 205.1. Gain proficiency in conducting thorough investigations, from research to ethical reporting.
MAJMC 205.2. Develop specialized knowledge to report effectively on diverse subjects, such as science, business, or culture.
MAJMC 205.3. Acquire skills in using various media formats and innovative techniques for impactful storytelling.
MAJMC 205.4. Foster the ability to critically analyze complex issues and present them coherently in journalistic narratives.
MAJMC 205.5 Cultivate adaptability to emerging media platforms and technologies for cutting-edge reporting.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies,

Dr. Sumit Narula
Director
Amity School of Communication

professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Film Theory and Practices
Course Code : MAJMC 206, Crédits : 03, Session : 2017-18 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Sandesh Mahajan

A. Introduction: The objective of this course is to familiarize the students with concept of film theories and language of cinemas. This course will allow students to learn the contribution of prominent film directors in Indian Cinema

B. Course Outcomes: At the end of the course, students will be able to:

MAJMC206.1. In this course students will understand the language of film making

MAJMC206.2. They will come to know about different stages of filmmaking

MAJMC206.3. The course is designed to enable the student to understand the scriptwriting and storyboarding techniques.

MAJMC206.4. They will be introduced to the concepts of lighting and editing for films.

- **MAJMC206.5.** To establish distinction between technique and content

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Public Relations
Course Code : MAJMC 207, Crédits : 03, Session : 2017-18 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Dr Pranav Mishra

A. Introduction: The objective of this course is to familiarize the students Students with the structure and history of the PR industry of India, as well as recognize the impact of corporate communication on nation.

B. Course Outcomes: At the end of the course, students will be able to:
MAJMC207.1. The course introduces the students to introduce the basics of PR and its practice to the students
MAJMC207.2. The course is designed in a manner to reinforce the basic concepts of effective public relations.
MAJMC207.3. Course will make students understand the workings of the media -- and the 'new media' landscape
MAJMC207.4 Understand the mechanics, principles, of PR.
MAJMC207.5. Understand the world of Corporate Communication.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

Amity School of Communication
Course Handout
Course Name : Advance Media Research
Course Code : MAJMC 301, Crédits : 3, Session : 2017-18 (ODD), Class MAJMC III Sem
Faculty Name : Dr. Sumit Narula

Introduction: The course aims at teaching applied research can put theory to the test, it may add to conceptual clarification and integrate previous existing theories. Thus, central aim of applied research is to find out a solution for some pressing practical problem.

Course Outcomes: At the end of the course, students will be able to:

- MAJMC 301.1- The introduce students to the application of research in mass communication
- MAJMC 301.2- explore the various forms of research in different media
- MAJMC 301.3- introduce students to the variety of tools used in different forms of media research
- MAJMC 301.4- introduce them to the concept of research paper/articles and their execution
- MAJMC 301.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination.	A	5%

Dr. Sumit Narula
Director
Amity School of Communication

	The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weightage
Module I: – Correlation & Regression Analysis	**25 %**
Meaning, Concept and Characteristics of Correlation, Types of Correlation: Basic Type (Positive, Negative and Zero), Linearity Based Linear, Non-linear and Curvilinear, Partial Correlation: Pearson's Product Moment Correlation and Spearman's Rank Order Correlation, Determination of Correlation by Graphical Methods and Coefficient of Correlation, Concept of Multi-co linearity and Multiple Correlation Regression- Meaning, Application and Interpretation of Regression and its Terms-R, R2; Relationship between Correlation Coefficient and Regression Coefficient, Advantage and Assumption and Uses of Regression Analysis in Research Pape	
Module II: Test of Significance	**25%**
Concept and Application of Hypothesis Testing and Test of Significance, Type of Errors, Level of Significance, Critical Region, One-tailed and Two-tailed Tests, Size and Power of a Test, Degree of Freedom, T-Test: Independent Sample T-Test, Paired T-Test, Chi-square Test: Meaning and Application, Test of Goodness of fit, Test in One-way Classification, Contingency Table, Test of Independence of Factors, Yates Correction	
Module III: Analysis of Variance (ANOVA) and Time	**25 %**
Cross Tabulation and Chi-square Test with SPSS, One-way ANOVA: Meaning, Interpretation, Application and Calculation with SPSS, Two-way ANOVA: Meaning, Interpretation, Application and Calculation with SPSS, Post-hoc Measurement, Time Series Analysis	
Module IV – Factor Analysis Method	**25%**

Dr. Sumit Narula
Director
Amity School of Communication

Factor Analysis: Meaning, Interpretation, Application, Principle Component Method with Varimax Rotation, KO Barlett's Test for Validity with SPSS, Identification of Factors through loading with SPSS, Advantage and Limitation of Factor Analysis	

Teaching Pedagogy:

Power-point presentation, Relevant research papers as examples for explaining the concept, Practical exercise for application of media research

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Film Theory and Practices
Course Code : MAJMC 302, Crédits : 03, Session : 2017-18 (Even Sem.), Class : MA(J&MC). III Sem
Faculty Name : Mr. Siddharth Sharma

A. **Introduction:** The objective of this course is to familiarize the students with concept of film theories and language of cinemas. This course will allow students to learn the contribution of prominent film directors in Indian Cinema

B. **Course Outcomes:** At the end of the course, students will be able to:
MAJMC 302.1. In this course students will understand the language of film making
MAJMC 302.2. They will come to know about different stages of filmmaking
MAJMC 302.3. The course is designed to enable the student to understand the scriptwriting and storyboarding techniques.
MAJMC 302.4. They will be introduced to the concepts of lighting and editing for films.
- **MAJMC 302.5.** To establish distinction between technique and content

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name : Advanced New Media
Course Code : **MAJMC 303**, Credits : 3, Session : 2017-18(ODD), Class MAJMC IIIth Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **MAJMC 303**.1- Develop an understanding of the evolving nature of media consumption patterns in the networked world.
- **MAJMC 303**.2- Explore the emergence of the new 'reader' and their role in shaping media content and distribution.
- **MAJMC 303**.3- Analyze the convergence of media and technology and its impact on content creation, distribution, and audience engagement.
- **MAJMC 303**.4- Gain insight into the changing role of media professionals in the context of new media environments.
- **MAJMC 303**.5- Understand the principles and practices of web journalism, including storytelling techniques, multimedia content creation, and audience interaction.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-MAsed, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Advertising Stratégies and Planning
Course Code : MAJMC 304, Crédits : 3, Session : 2017-18 (ODD), Class MAJMC 3rd Semester
Faculty Name : Dhruv Sabharwal

Introduction: This course aims to explore the dynamic world of Advertising Strategies, where we dissect the tactics and techniques used to create impactful campaigns that resonate with target audiences and achieve marketing objectives.

Course Outcomes: At the end of the course, students will be able to:

- MAJMC-304.1- Understand the various perspectives of Advertising strategies.
- MAJMC-304.2- Identify the opportunities in the field of Advertising strategies.
- MAJMC-304.3- Creating Advertising Plans for clients.
- MAJMC-304.4- Researching and analyzing in the field of advertising.
- MAJMC-304.5- Gain proficiency in developing and executing comprehensive advertising strategies.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course : Print Layout and Design
Course Code : MAJMC 305 Crédits :03 Session :2017-18(Odd Sem.) , Class : MAJMC III Sem
Faculty Name : Sanjay Singh Sikarwar

Introduction: The course aims to introduce basic concepts of print. In this course students will be introduced to the broad knowledge of the basic computer software's, which are mainly used in print media. Students will study the designing of print layout of pages, taking into consideration the choice of typeface and positioning and choice of color, images and text. Students will explore the information in context to the designing of variety of print layouts.

A. **Course Outcomes:** At the end of the course, students will be able to:

MAJMC 305 .1. Students will understand the basic computer fundamentals.
MAJMC 305.2. Students will learn the basics of Photoshop and CorelDraw
MAJMC 305.3. Students will learn the basics of Quark express and Indesign.
MAJMC 305.4. Evaluate the different ideologies in the field of graphics & editing
MAJMC 305.5. prepare a project based on graphics & design.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Amity School of Communication
Course Handout
Course Name : Anchoring and Presentation
Course Code : **MAJMC 306**, Credits : 3, Session : 2017-18 (ODD), Class MAJMC IIIth Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **MAJMC-306**.1- Develop the ability to deliver information in a professional and articulate manner suitable for television broadcasting.
- **MAJMC-306**.2- Acquire the skills to handle live broadcasting situations with confidence and poise, including ad-libbing and responding to unexpected challenges.
- **MAJMC-306**.3- Understand the challenges faced by media professionals in the field of television anchoring and develop strategies to overcome them.
- **MAJMC-306**.4- Enhance vocal delivery and non-verbal communication techniques to engage and captivate television audiences.
- **MAJMC-306**.5- Practice effective time management and organization skills to meet deadlines and deliver polished performances on air.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Name : Media Analysis and Current Affairs
Course Code : MAJMC 401. Crédits : 3, Session : 2017-18 (EVEN), Class MAJMC 4th Semester
Faculty Name : Aditya Kumar Shukla

A. **Introduction:** The goal of this course is to acquaint aspiring professionals in media analysis and current affairs with essential techniques in critical analysis, statistical methods, and data interpretation. It seeks to provide students with a solid foundation in intermediate to advanced analytical concepts, empowering them to navigate the complexities of media analysis and stay abreast of current affairs in a proficient manner within their disciplines.

B. **Course Outcomes:** At the end of the course, students will be able to:

- MAJMC-401.1-Students will select the Language of news and fundamentals and content
- MAJMC-401.2-Students will understand the relationship between theory and practice
- MAJMC-401.3- Students will be classifying various fascinating aspects of current affairs and news
- MAJMC-401.4-Students will be able to define the crucial fine points that make Cine
- MAJMC-401.5-To create a simple script and implement a shoot based on the same

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and

Dr. Sumit Narula
Director
Amity School of Communication

skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name : Media Ethics, Laws & Regulations
Course Code : MAJMC 402 **Crédits :** 03 **Session :** 2017-18 (Even Sem.), **Class :** MA (J&MC). 2nd Year
Faculty Name : Satnaam Singh

A. **Introduction:** This subject will give students a broad knowledge of ethical issues and legal restraints placed upon media. And students will study the various regulatory aspects of media. Their various stakeholders in content regulation of the media.

A. Course Outcomes: At the end of the course, students will be able to:

MAJMC 402.1. To introduce students to ethical issues and legal restraints placed upon media.

MAJMC 402.2. To discuss the conflicting traditions of a free but regulated mass media.

MAJMC 402.3. To describe the various media laws.

MAJMC 402.4. To understand the context and framework of media regulation in India.

MAJMC 402.5. To discuss the issues arising from regulation of the media.

MAJMC 402.6. To locate the role of various stakeholders in content regulation of the media.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

B. Assessment Plan:

DEPARTMENT OF POLITICAL SCIENCE
Course Handout
Course : Development Communication
Course Code : MAJMC 403, Crédits : 03, Session : 2017-18 (Odd Sem.), Class : MA (J&MC) 2nd Year
Faculty Name : Sayantani Roy

A. Introduction: This course focuses on the concept of development & To increase understanding about community and organization.

A. Course Outcomes: At the end of the course, students will be able to:

MAJMC403.1. To increase student's knowledge in development communication

MAJMC403.2. To understand role of different Government and Non-government Organizations in development communication

MAJMC403.3 To introduce need of different communication approaches for different settings

MAJMC403.4: To understand the different approaches of development communication.

MAJMC 403.5: To understand the importance of development communication in upliftment of society

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to

craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Syllabus:

Modules	**Weightage (%)**
Module I Concept of Development	**20 %**
Definition and Process of Development, Key Concepts in Development - Self Reliance, Dependence, Cultural Identity, Decentralization, Participation, Areas of Development – Politics, Social And Economic Issues, Agriculture, Population Control, Literacy & Education, Vocational Training, Farm Sector, Public And Private SectorIndustries, Health & Family Welfare, Environment Issues, Water Harvesting And Management, Pollution, Climate Change, Energy Consumption, Child Labour, Trafficking, Domestic Violence, Social Justice, Issues Of Inequality, Tribal Development, Issues Of Women And Children, Rural Development, Urbanization And Related Problems Theories and Paradigms of Development

AMITY UNIVERSITY

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course: MA(J&MC), Corporate Communication & Brand Management
Course Code: MAJMC 404, Credits: 03, Session: 2017-18 (Even Sem.), Class: MAJMC. IV Sem
Faculty Name : Satnaam Singh

A. Introduction: To Understand how corporate communication works..

B. **Course Outcomes:** At the end of the course, students will be able to:

BJM404.1: To provide basic and emerging concepts and principles about better decision-making in Corporate Communication and Brand Management.

BJM404.2: To enable the students to integrate various functions with organizational goals and strategies.

BJM404.3: To provide hands-on training on planning and production of brand and social campaigns.

MAJMC404.4: To provide skills on various relevant software, especially in media planning and production of campaigns.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, and sustainability and allowing them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films.

Dr. Sumit Narula
Director
Amity School of Communication

Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name: **News Room Practices**
Course Code: MA JMC 405, Credits: 3 Session: 2017-18 Class: MA J&MC IV Semester
Faculty Name: Mr Ashish Sharma

A. **Introduction:** "Newsroom Practices" hones students' skills in news presentation and newsroom operations, focusing on the dynamic world of broadcast journalism. Participants will master the art of credible news delivery while gaining insights into newsroom dynamics, editorial processes, and collaborative practices.

B. **Course Outcomes:** At the end of the course, students will be able to:
MAJMC 405.1. To understand the newsroom practices.
MAJMC 405.2. To understand each department involved, in a newsroom.
MAJMC 405.3. To enable students, to apply their skills to functioning attributes.
MAJMC 405.4. To become aware of the inside picture of the industry.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

Dr. Sumit Narula
Director
Amity School of Communication

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, and sustainability and allowing them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize

Dr. Sumit Narula
Director
Amity School of Communication

and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name: **Media Globalization**
Course Code: MAJMC 406, Credits: 3 Session: 2017-18 Class: MA J&MC IV Semester
Faculty Name: Mr Ashish Sharma

A. **Introduction:** This course will help students to understand the globalise news media to shape perceptions of global and local reality. They will examine the extent to which the growing access to information from every corner of the globe fosters reporting that accurately reflects global and local realities.

B. **Course Outcomes:** At the end of the course, students will be able to:

1. MAJMC 406.1. Demonstrate understanding of the influence of business pressure on news operations in market-driven/influenced media systems.
2. MAJMC 406.2. To Demonstrate an awareness of the emergence of "new voices" in the global media.
3. MAJMC 406.3. To Identify and demonstrate an understanding of the mechanisms by which governments, intelligence agencies, political parties, and businesses influence the framing of news.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

Amity School of Communication
Course Handout
Course Name : Communication Théories and Model
Course Code : BJM 101, Crédits : 3, Session : 2018-19 (Odd), Class BAJMC Ist Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BJM-101.1- Students will gain a profound grasp of key concepts in communication and mass communication, providing a solid foundation for analyzing and interpreting diverse communication phenomena.
- BJM-101.2- The course will empower students to enhance their media literacy skills, enabling them to critically engage with various forms of mass communication.
- BJM-101.3- They will develop the ability to discern and interpret media messages, fostering a more informed and discerning perspective.
- BJM-101.4- This includes a detailed exploration of models and major theories, equipping them with a comprehensive understanding of how communication functions in diverse contexts
- BJM-101.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %

Course Handout
Course Name : Fundamentals of Advertising
Course Code : BJM 103 Crédits : 03 Session : 2018-2019 , Class : BAJMC Semseter Ist
Faculty Name : Dhruv Sabharwal

A. Introduction: The course provides a comprehensive overview of advertising from media perspective. It talks about the evolution of advertising creating an understanding of traditional advertising and promotional tools.

B. **Course Outcomes:** At the end of the course, students will be able to:

BJM 103 .1.Identify and define the advertising concepts
BJM 103 .2. Review the advertising media.
BJM 103 .3. Analyze the Indian advertising scenario.
BJM 103 .4. Distinguish between advertising and marketing.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Introduction to Visual Communication
Course Code : JMC 105, Crédits : 02, Session : 2018-19 (Odd Sem.), Class : BA (J&MC) 1st Semester
Faculty Name : Dr. Sandesh Mahajan

A. Introduction: *Visual communication applies the fundamentals of major art forms for professional problem-solving. It is the conveyance of ideas and information in forms that can be read or looked upon*

B. Course Outcomes: At the end of the course, students will be able to:

- BJM 105.1: The students would be able to understand Visual communication as an integral part of human communication.
- BJM 105.2: Students will learn the basic of visual communication with respect to different mediums and their usage.
- BJM 105.3: students will understand the connection of visual tools with the society. They will learn the concept of symbols and semiotics.
- BJM 105.4: students will learn about different theories related to visual communication.
- BJM 105.5: Students will thee understand the application of index and symbols in daily life.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course : Digital Skills for Media I
Course Code : JMC 107 Crédits :03 Session :2020-21(Odd Sem.) , Class : BAJMC I Sem
Faculty Name : Sanjay Singh Sikarwar

Introduction: The course aims to introduce basic concepts of print. In this course students will be introduced to the broad knowledge of the basic computer software's, which are mainly used in print media. Students will study the designing of print layout of pages, taking into consideration the choice of typeface and positioning and choice of color, images and text. Students will explore the information in context to the designing of variety of print layouts.

A. **Course Outcomes:** At the end of the course, students will be able to:

BJM 107 .1. Students will understand the basic computer fundamentals.
BJM 107.2. Students will learn the basics of Photoshop and CorelDraw
BJM 107.3. Students will learn the basics of Quark express and Indesign.
BJM 107.4. Evaluate the different ideologies in the field of graphics & editing
BJM 107.5. prepare a project based on graphics & design.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Project	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	Viva	EE	70%

Amity School of Communication

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Specialized Reporting, Writing & Editing
Course Code : BJM 201, Crédits : 3, Session : 2018-19 (EVEN), Class BAJMC 2nd Semestre
Faculty Name : Aditya Kumar Shukla

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, and disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning. In addition students will also learn the basics of print media editing

Course Outcomes: At the end of the course, students will be able to:

- BJM-201.1- The course designed to familiarize the students with the concept of various types of features for magazines
- BJM-201.2- The course will empower students to enhance their media literacy skills; the course will help students different leads, the body text and ending.
- BJM-201.3- They will develop the ability to discern and interpret media messages, course will train students to demonstrate interviewing and newsgathering skills
- BJM-201.4- This includes a detailed exploration to make the students well versed with the Principles and Practices to editing skills including proof reading and headline writing
- BJM-201.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Director
Amity School of Communication

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Theories of Advertisements & Public Relations
Course Code : BJM 202, Crédits : 03, Session : 2018-19 (Odd Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Dr Dhruv Sabharwal

A. Introduction: This Subject deals with Advertisement & Public relation exposure to students for better academic progression.

B. Course Outcomes: At the end of the course, students will be able to:
BJM202.1. In this course students will understand the Role of Advertisement .
BJM202.2. In this course students will understand the PR.
BJM202.3. In this course students will understand the ADV Production.
BJM202.4. They will be introduced to the concepts of CSR
BJM202.5. Understand the PR Production Process

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Project	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	Viva	EE	70%
Total			**100%**

Dr. Sumit Narula
Director
Amity School of Communication

D. Syllabus

	Weightage
Module I: Advertising in Economy & Business	**25 %**
Advertising the key ingredient in National Economic Growth - Stimulating better products ,Healthy Competition , Competition and monopoly - Rising GNP; Optimizing the utility of purchase, Advertisers and Advertising Agencies; Agency Structure , Departments of Ad Agencies, Research ,Creative, Media Account Service; Integrated Agency Service, Account Planning and Account Management.	
Module II: Advertising Theories	**25%**
Hierarchical Effects Theory ,Brand Theories, Color Theories : Audience Resistance, Resilience and Selectivity: Audience use Theories, Media Dependency Theories, Cognitive processes in Media Effects, Cultural and Critical studies. Social Aspects, Consumerism and Consumer Awareness, Cultural Impact of Advertising, Quest for materialism, Standards of taste.

Amity School of Communication
Course Handout
Course Name : Basics of Radio Journalism
Course Code : BJM 203. Crédits : 3, Session : 2021-24 (EVEN), Class BJM 2nd Semester
Faculty Name : Dr Manish Dubey

Introduction: This course is designed to provide students with hands-on experience in basics of radio journalism. It covers various aspects of radio equipment, scriptwriting, voice and presentation skills, program development, news reporting, and practical tasks to develop their radio broadcasting skills.

A. **Course Outcomes:** At the end of the course, students will be able to:

- BJM-203.1- Students will be able to identify and write record, produce and edit several formats of radio programmes including news stories, and features.
- BJM-203.2- Students will recognize the structure and history of the radio industry will be able to work in professional atmosphere of radio station,
- BJM-203.3- Students will interpret the challenges and solutions of the radio industry
- BJM-203.4- Students will outline the relationship of each personnel inside a radio station
- BJM-203.5- Equip students with proficiency in industry-standard software for audio editing and production

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus:

Module I: Understanding the medium	**Weightage**
Strengths and Weaknesses of the Medium, Writing for ear- Who are you talking to? What do you want to say?, The storage of talk Words, Structure and Signposting, Pictures and stories Double Meaning/Ambiguity, Writing script (Radio News/ Radio Feature/ Radio Play etc)	**15%**

Dr. Sumit Narula
Director
Amity School of Communication

Module II: Radio News	**15%**
Radio News Reporting: Skills of a Radio News Reporter: Developing Sources, Gathering News, Giving Voice- Cast, Phonos, Anchoring and News Reading Skills: General Awareness, Presence of Mind; Clarity, Diction, Pronunciation, Compiling a Bulletin: Types of Bulletins: Local to International Editing News for Different Bulletins; Using Voice-Dispatches and other Elements in a Bulletin: Sequencing, Updating News Updates, News Reports, Newsreel etc.	
Module III: News Reading	**20%**
News reading and Presentation-The Seven Ps (Posture, Projection, Pace, Pitch, Pause, Pronunciation, Personality), News reading, Vocal Stressing, Inflections, Quotation Marks, Alterations, Corrections, List and Numbers, Station Style, Continuity presentation, Creation of Radio Jingles, Error and Emergencies, Head Phones, Trials and Promos	
Module IV: Radio Interview and Advertising	**20%**
Radio Interviewing(The basic approach, Question Technique etc), Vox Pop (Phrasing the Questions, Putting the Questions etc), Cues and Links (Information for the broadcasters links), Making Radio Commercials (Copy policy, Target Audience, writing copy, voicing and treatment, music and effects, Humour)	
Module V: Radio Program Production	**30%**

Amity School of Communication

Radio Programme Formats; Latest trends of Radio Programmes; Functions & Characteristics of Radio Programmes; Production and Recording Process Programme Planning; Broadcasting Guidelines; Conceptualization and Ideation: Show Designing; Radio Programme Production: Interviews, Radio Talk, Discussions, Review Programmes, Production of Musical Programmes; Best use of Music database; Talk show; Discussion Programme; Drama/Skits; Radio Documentaries and Feature; Advertisements, Promos, Jingles; Telephonic Programmes	

Teaching Pedagogy:

The course integrates class lectures, equipment demos, and discussions for a holistic understanding. Field assignments and hands-on experience with audio radio stations enhance practical skills. Culminating in a student-led radio program project, the curriculum ensures a comprehensive grasp of Basics of Radio Journalism, encompassing various program types in mass communication.

Director
Amity School of Communication

		engagement and maintain relevance in a competitive media environment?.	
CO1	Q.2a	What factors contribute to this significant increase? Provide a detailed explanation supported by arguments.	3
	Q.2b	What are the key narrative techniques employed in successful BASICS OF RADIO PRODUCTIONs, and how do they contribute to creating compelling and memorable content?	3
CO1	Q.3	Explore the significance of sound design in BASICS OF RADIO PRODUCTION. How does thoughtful and strategic sound design enhance the overall impact and effectiveness of radio broadcasts?	6
CO2	Q.4	Define radio format the main elements of radio formats	3
CO2	Q.5a	Explain the important features of column writing.	3
	Q.5b	Discuss the difference between news as information, education, and entertainment with examples	3
CO2	Q 6	Describe the duties and functions of parliamentary correspondent.	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Radio Journalism*** /Course code ***BJM-203*** is level 3 for the academic year 2018-19.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Fundamentals of Photography
Course Code : BJM 204, Crédits : 03, Session : 2018-19 (Even Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Siddharth Sharma

A. Introduction: The objective of this course is to clear the fundamental concept of the medium of photography, combine the science and art of photography. This course will deal with historical aspects of medium and will design storytelling through visual medium.

B. Course Outcomes: At the end of the course, students will be able to:
BJM204.1. Understand the different aspects of Fundamentals of Photography
BJM204.2. Develop professional capabilities of Photography.
BJM204.3. Understand Basics of Photo Editing.
BJM204.4. They will be introduced to the concepts creative photography.
BJM204.5. Understand different theories of photography.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and

Dr. Sumit Narula
Director
Amity School of Communication

multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus

Module I: Introduction to Visuals	**Weightage**
Human Eye and Camera. The social definition of photography: Light and Color, Qualities of light, characteristics of light; Understanding the color theory; Contrast Painting and Photography; Photography as an Art and Science.	**25%**
Module II: Visual Perception	**25%**

Dr. Sumit Narula
Director
Amity School of Communication

Basics of Camera (aperture, shutter speed, focal length, depth of field etc.,) Camera operations: Types of Camera, Types of Lenses. The art of seeing; Digital S.L.R vs. S.L.R.; Advantages of Aperture and depth of field; Shutter and motion; Focal length; Lenses and its relation to subjects; Exposure techniques; Different types of light : Natural & Artificial.	
Module III: Principles of Photography	**25%**
Rules of Composition: portraits, Landscape; Composing different subjects; Perspective, Texture, Pattern, Colour, Shape, Contrast, Types of Photography, Landscape, Portrait Still Documentary.	
Module IV: Compositing and Editing Photographs	**25%**
Concept of Light-room , Merging of multiple shots to produce a suitable output; Product based photography; Comparative study of Digital photography vs conventional photography; Editing techniques in photography	

E. Examination Scheme:

Components	A	MT	IE	EE
Weightage (%)	5	15	10	70

MT: Mid Term; IE: Internal Evaluation; EE: End Semester Examination; A: Attendance

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course: INDIAN ECONOMY & FOREIGN RELATIONS
Course Code: BJM 205, Credits: 03, Session: 2018-19 (Even Sem), Class: BA(J&MC). II SEM
Faculty Name: Aditya Kumar Shukla

A. Introduction: Using appropriate analytical frameworks, this course reviews major trends in economic and foreign policy indicators and policy debates in India in the post-Independence period, with particular emphasis on paradigm shifts and turning points. Given the rapid changes taking place in India.

B. Course Outcomes: At the end of the course, students will be able to:

BJM205.1. Students will be able to gain insights into the major features of the Indian economy at independence and its growth under different policy regimes.

BJM205.2. The student will be able to explore the impact of macroeconomic policies, including fiscal, trade, investment, financial, and monetary policies, on the Indian economy.

BJM205.3. Students will be able to familiarize with key international organizations and institutions such as the World Bank, Asian Development Bank, World Economic Forum, United Nations, and various international groupings.

BJM205.4. The students will understand the determinants and principles shaping India's foreign policy, considering both domestic and international sources.

BJM205.5. Students will be able to evaluate the security challenges faced by India, including terrorism, energy security, nuclear policy, and geopolitical considerations.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

D. Programme Specific Outcomes:

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

E. Assessment Plan:

A. Introduction: Sound is stored for playback through the process of sound recording. Recording devices capture sound waves from the air and convert them into electrical signals or digital data, which are then stored on media such as records, compact discs (CDs), and computer hard drives. Students will learn all the terminologies such as playback equipment reverses the recording process to reproduce the original sound. Sound recording is used in the music, movie, television, and radio industries.

B. **Course Outcomes:** At the end of the course, students will be able to:

BJM 206.1.. Understand the concepts of Sound recording & editing.
BJM 206.2. Analyse various terminologies and equipment setting.
BJM 206.3. Identify, implement and evolve conceptual understanding of the Sound recording & editing.
BJM 206.4. Evaluate the different technologies such as Peaking, balancing, mastering etc.
BJM 206.5. Enable students to prepare project on audio sampling.

Program Educational Objectives

Amity School of Communication
Course Handout
Course Name: Radio Production
Course Code: BJM 207 Credit: 2 Session: 2018-19 (Even Sem), Class: BAJMC 2nd Semester
Faculty Name: Dr Manish Dubey

A. **Introduction:** This course provides a hands-on exploration of the dynamic world of radio, covering essential skills such as scriptwriting, voice modulation, program development, and news reporting. Get ready to dive into the art and science of crafting compelling audio content for diverse audiences.

B. **Course Outcomes:** At the end of the course, students will be able to:

BJM 207.1. Develop proficiency in crafting engaging radio scripts, honing the skill of effective storytelling for the auditory medium

BJM 207.2. Enhance vocal techniques to convey emotions, information, and narratives with clarity and impact in radio broadcasting.

BJM 207.3. Cultivate the art of delivering timely and accurate news through radio, understanding the nuances of journalistic storytelling in the audio format...

BJM 207.4. Gain practical experience in operating radio equipment, executing live broadcasts, and navigating the technical aspects of radio production to prepare for real-world scenarios.

BJM 207.5. Cultivate hands-on experience through practical exercises, preparing for real-world challenges in radio production within the broader field of mass communication.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Basics of Media Research
Course Code : BAJMC 301, Crédits : 02, Session : 2018-2019 (Odd Sem.), Class : BJMC. III rd Sem
Faculty Name : Dr. Sumit Narula

A. Introduction: The objective of this course is to introduce basic concepts of research and to establish the relationship between mass communication, journalism & research.

B. *Course Outcomes:* *At the end of the course, students will be able to:*

1. BAJMC 301.1: Students will be able to outline the fundamentals of research.
2. BAJMC 301.2: Students will describe the relationship between mass communication, journalism & research.
3. BAJMC 301.3: Students will explain the process, concepts, and techniques of research & infer the impact of research in mass communication.\
4. BAJMC 301.4: Student will be able to understand Qualitative and quantitative research techniques.
5. BAJMC 301.5: Student will be able to understand the process of writing a research report.

Program Educational Outcome

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Amity School of Communication
Course Handout
Course Name : Global Media Scenario
Course Code : BAJMC 302, Crédits : 3, Session : 2018-2019 (ODD), Class BAJMC 3rd Semester
Faculty Name : Syantani Roy

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC 302.1- Develop a critical understanding of the relationship between media and globalization.
- BAJMC 302.2-Analyze how media influences the construction of national identities in a global context.
- BAJMC 302.3- Explore the impact of international media flows on social formations and cultural identities.
- BAJMC 302.4- Examine the role of media in shaping perceptions of global events and issues.
- BAJMC 302.Discuss the ethical considerations and cultural implications of media globalization.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Basics of Newsroom Practices
Course Code : BAJMC 304, Crédits : 3, Session : 2018-2019 (ODD), Class BAJMC 3rd Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to a comprehensive exploration of essential journalistic skills and operations. From ethical standards to news gathering techniques, this course equips you with the fundamental knowledge needed to excel in the fast-paced world of media.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-304.1- Students will be able to identify the working procedure of the TV industry
- BAJMC-304.2- Students will outline the relationship of each personnel inside a newsroom
- BAMC-304.3- Students will recognize the working process of media houses
- BAJMC-304.4- Students will interpret the challenges and solutions of the TV industry
- BAJMC-304.5- Student will gain essential skills and knowledge in journalistic ethics, news gathering techniques.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Advertising Stratégies
Course Code : BAJMC 305, Crédits : 3, Session : 2018-2019 (ODD), Class BAJMC 3rd Semester
Faculty Name : Dhruv Sabharwal

Introduction: This course aims to explore the dynamic world of Advertising Strategies, where we dissect the tactics and techniques used to create impactful campaigns that resonate with target audiences and achieve marketing objectives.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-305.1- Understand the various perspectives of Advertising strategies.
- BAJMC-305.2- Identify the opportunities in the field of Advertising strategies.
- JMC-305.3- Creating Advertising Plans for clients.
- JMC-305.4- Researching and analyzing in the field of advertising.
- JMC-305.5- Gain proficiency in developing and executing comprehensive advertising strategies.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Introduction: This course aims to explore the intricacies of crafting compelling narratives specifically tailored for television audiences. From script development to character arcs and dialogue, join us on a journey to master the essential techniques needed to captivate viewers and bring stories to life on the small screen."

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-306.1- To familiarize students with concept of scrip, film& TV language.
- BAJMC-306.2- To make student acquainted with scripting for film, TV and video.
- BAJMC-306.3- To make students acquainted with script writing for different types of programmes.
- BAJMC-306.4- To make students acquainted with the formats of electronic media scripts and checklist for script revision.
- BAJMC-306.5- Learn to use different video script formats and employ effective revision techniques to enhance script quality.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication I MID-SEMESTER (SEM –III) 2018-2019						
Class: BAJMC.III Semester						
Subject Name: BAJMC-306 Writing for TV		Time: 1.5 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of cloud architecture and model.
CO2: Apply different cloud programming models as per need.

CO Map	Question No.	Question	Marks
CO1	Q.1	What is the significance of scriptwriting in electronic media, film, and television language?	3
CO1	Q.2a	How do you brainstorm ideas and conduct research for scripting?	3

Dr. Sumit Narula
Director
Amity School of Communication

	Q.2b	What are the different formats used in scriptwriting and how are ideas developed and treated?	3
CO1	Q.3	Can you outline the stages involved in the scripting process, from idea conception to final production script?	6
CO2	Q.4	How do you breakdown shots and create storyboards for multi-camera productions?	3
CO2	Q.5a	What distinguishes a screenplay from a production script and a shooting script?	3
	Q.5b	How do you write scripts for various television programs such as news, documentaries, and variety shows?	3
CO2	Q 6	What are the different types of appeals and styles used in scriptwriting for advertisements and commercials?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Writing for TV*** /Course code ***BAJMC 306*** is level 3 for the academic year 2018-2019.

Amity School of Communication
Course Handout
Course Name : Applied Research in Media Studies
Course Code : BAJMC 401, Crédits: 3 Session : 2018-2019 Class : BA J&MC IV
Faculty Name : Dr. Sumit Narula

A. Introduction: : The objective of this course is to familiarize the prospective engineers with techniques in calculus, multivariate analysis, and linear algebra. It aims to equip the students with standard concepts and tools at an intermediate to advanced level that will serve them well towards tackling more advanced level of mathematics and applications that they would find useful in their disciplines.

B. Course Outcomes: At the end of the course, students will be able to:
BAJMC 401.1: To introduce students to the application of research in mass communication
BAJMC 401.2: To explore the various forms of research in different media
BAJMC 401.3: To introduce students to the variety of tools used in different forms of media research
BAJMC 401.4: To introduce them to the concept of research paper/articles and their execution
BAJMC 401.5: To understand the scientific methods and analysis in research.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste

Dr. Sumit Narula
Director
Amity School of Communication

management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Name : Basics of Film Theory & Practice
Course Code : BAJMC 402, Crédits : 3, Session : 2018-2019 (EVEN), Class BAJMC IV Semestre
Faculty Name : Sandesh Mahajan

Introduction: This course aims to offers a comprehensive exploration of key concepts in film theory, coupled with practical exercises designed to hone your skills in scriptwriting, cinematography, editing, and directing.

Course Outcomes: At the end of the course:

- BAJMC-402.1- Students will select the Language of Cinema and fundamentals of film form and content
- BAJMC-402.2- Students will understand the relationship between theory and practice
- BAJMC-402.3- Students will be classify various fascinating aspects of Cinema
- BAJMC-402.4- Students will be able to define the crucial fine points that make Cinema
- BAJMC-402.5- Students will be capable to create a simple script and implement a shoot based on the same

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Electronic Media Production
Course Code : BAJMC 403, Crédits : 3, Session : 2018-2019 (EVEN), Class BAJMC IV Semestre
Faculty Name : Ashish Sharma

Introduction: This course aims to explore the intricacies of producing compelling electronic media content for various electronic media platforms. From mastering camera techniques to editing and post-production.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-403.1- Students will identify the concept of idea generation and converting the concept into actual programme .
- BAJMC-403.2- Students will able to outline quality lighting setups for different genres of TV programmes.
- BAJMC-403.3- Students will be able to demonstrate audience rating for the betterment of Production quality.
- BAJMC-403.4- Gain proficiency in utilizing advanced tools and techniques for producing high-quality multimedia content.
- BAJMC-403.5- Develop practical skills in camera operation, video editing, and post-production.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Course Name : Introduction to Development Communication
Course Code : BAJMC 404, Crédits : 3, Session : 2018-2019 (EVEN), Class BAJMC IV Semester
Faculty Name : Siddharth Sharma

Introduction: This course aims to a comprehensive exploration of the theories, strategies, and practices employed in fostering sustainable development at local, national, and global levels.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-404.1- Students will be able to recognize and explain the concept and importance of development
- BAJMC-402.2- Students will be able to distinguish between communication and development communication
- BAJMC-403.3- Students will be able to describe use of different media in development communication
- BAJMC-404.4- Understand key theories and principles of development communication.
- BAJMC-405.5- Acquire practical skills to design and implement effective communication strategies for social change.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Basics of Cyber Media
Course Code : BAJMC 405, Crédits : 3, Session: 2018-2019 (EVEN), Class :BAJMC 4th Semestre
Faculty Name : Mehraj Haq

Introduction: This course aims to immerse students in the practical application of Cyber Media. It is important for a media student to understand the way media is being consumed in the emerging networked world. On demand access to content, anytime, anywhere and on any digital device is the birth and evolution of New Media. An understanding of New Media will enable the student to find the synergies, challenges and opportunities in the emerging media landscape.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-101.1-Students will gain a profound grasp of key concepts in cyber media, providing a solid foundation for analyzing and interpreting diverse understanding the emergence of the new'reader'
- BAJMC-101.2-The course will empower students to enhance their convergence of media and technology enabling them to critically engage with various forms of New Media.
- BAJMC-101.3-They will develop the ability to discern and interpret media messages, fostering a more informed and discerning perspective.
- BAJMC-101.4-This includes a detailed exploration of theories of changing role of media professionals.
- BAJMC-101.5-Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of of web journalism.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-	S/V/Q/HA	10%

Dr. Sumit Narula
Director
Amity School of Communication

	Voce/Quiz/Home Assignment		
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves Including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weightage
Module I : Introduction to New Media	**30 %**
History of Internet Journalism – world & India What is New Media - Multiplatform journalism to the mainstream, Journalism of open doors Defining convergence and studying its origin and evolution in context of readers and technology Studying the impact of convergence on target audience, business and society.	
Module II: Digital Age	**35 %**
Meanings of acronyms in the digital world - Megabytes, gigabytes and terabytes, url, web address, IP address, domain name, world wide web, hypertext transfer protocol, e-mail, instant messaging, file transfer protocol (FTP), web browsers, cache, plug-ins and extensions, RSS readers and feeds, Web-based readers, Stand-alone readers; Web 2.0 – openness, organization and community. Content sharing sites (documents, videos, pictures) Business side of Web 2.0; Tags and folksonomy	
Module III: New Media Journalist	**35 %**
News is a conversation now – participative newsrooms; MOJOs Being a New Media Journalist – Learning to leverage technology for data management, self management, news management, crowd sourcing, managing conversations	

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general.

Amity School of Communication
Course Handout
Course Name : Fundamentals of Event Management
Course Code : **BAJMC 406** , Credits : 3, Session : 2018-2019 (EVEN), Class BAJMC 4th Semester
Faculty Name : Dhruv Sabharwal

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC 406.**1- Gain a comprehensive understanding of the role and significance of Event Management in contemporary society, considering fast-changing trends and dynamics.
- **BAJMC 406.**2- Acquire practical knowledge and skills in planning, organizing, and executing various types of events, ranging from corporate conferences to cultural festivals.
- **BAJMC 406.**3- Develop proficiency in event marketing and promotion strategies, including utilizing digital platforms and social media for enhanced outreach and engagement.
- **BAJMC 406.**4- Explore the impact of Event Management as a tool for brand promotion and building, understanding its importance in enhancing brand visibility and consumer engagement.
- **BAJMC 406.5**Analyze case studies and real-world examples to understand best practices and challenges in Event Management across different industries and sectors.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

- **BAJMC 407.**4- Discuss the principles of film psychology and how they influence audience perception and interpretation of cinematic narratives.
- **BAJMC 407.**5Describe general ideas and theories in art criticism and how they apply to the analysis and appreciation of film as an art form.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Advanced Cyber Media
Course Code : **BAJMC 501**, Credits : 2, Session : 2018-2019 (ODD), Class BAJMC 5th Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC 501**.1- Develop an understanding of the evolving nature of media consumption patterns in the networked world.
- **BAJMC 501**.2- Explore the emergence of the new 'reader' and their role in shaping media content and distribution.
- **BAJMC 501**.3- Analyze the convergence of media and technology and its impact on content creation, distribution, and audience engagement.
- **BAJMC 501**.4- Gain insight into the changing role of media professionals in the context of new media environments.
- **BAJMC 501**.5- Understand the principles and practices of web journalism, including storytelling techniques, multimedia content creation, and audience interaction.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Advanced Film Theory & Practice
Course Code : **BAJMC 502**, Credits : 3, Session : 2018-2019 (ODD), Class BAJMC 5th Semester
Faculty Name : Sandesh Mahajan

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **JMC 502**.1- Gain an in-depth understanding of the intricate nuances of cinema, including its history, genres, and techniques.
- **JMC 502**.2- Develop a critical appreciation for the specific elements and finer aspects of film, such as cinematography, editing, sound design, and narrative structure.
- **JMC 502**.3- Explore the works of renowned filmmakers across different periods and cultures, analyzing their distinctive styles, themes, and contributions to cinema.
- **JMC 502**.4- Examine the impact of influential filmmakers and their outstanding works on the evolution of filmmaking practices and cinematic storytelling.
- **JMC 502**.5- Analyze and interpret films using advanced theoretical frameworks and critical perspectives, incorporating concepts from film theory, semiotics, and cultural studies

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be	A	5%

Amity School of Communication
Course Handout
Course Name : Anchoring Skills for Television
Course Code : **BAJMC 504**, Credits : 3, Session : 2018-2019 (ODD), Class BAJMC 5th Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC-504**.1- Develop the ability to deliver information in a professional and articulate manner suitable for television broadcasting.
- **BAJMC-504**.2- Acquire the skills to handle live broadcasting situations with confidence and poise, including ad-libbing and responding to unexpected challenges.
- **BAJMC-504**.3- Understand the challenges faced by media professionals in the field of television anchoring and develop strategies to overcome them.
- **BAJMC-504**.4- Enhance vocal delivery and non-verbal communication techniques to engage and captivate television audiences.
- **BAJMC-504**.5- Practice effective time management and organization skills to meet deadlines and deliver polished performances on air.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Specialized Writing & Editing**
Course Code : BAJMC 505, Crédits : 3, Session : 2018-2019 (ODD), Class BAJMC 5th Sem
Faculty Name : Aditya Kumar Shukla

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-505.1- Students will gain a profound grasp of key concepts to Write various types of features for magazines
- BAJMC-505.2- The course will empower students to Produce stories for specialized genres such as travel, lifestyle, disaster reporting.
- BAJMC-505.3- They will develop editing and Page Layout planning skills.
- BAJMC-505.4- This includes a detailed exploration Demonstration of investigative reporting and writing skills
- BAJMC-505.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Name : **Digital Animation & Sound**
Course Code : BAJMC 506, Crédits : 2, Session : 2018-2019 (ODD), Class BAJMC 5th Sem
Faculty Name : Sanjay Sikarwar

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-506.1- Understand the principles of digital animation, including key concepts such as timing, spacing, and squash and stretch.
- BAJMC-506.2- Demonstrate the ability to create visually compelling animated sequences using a variety of techniques, such as 2D or 3D animation.
- BAJMC-506.3- Gain an understanding of storytelling techniques and how they apply to animation, including character development and narrative structure.
- BAJMC-506.4- Develop critical thinking skills by analyzing and critiquing animated works, identifying strengths and areas for improvement.
- BAJMC-506.5- Explore the relationship between sound and animation, learning how to synchronize audio with visual elements effectively.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Media Planning**
Course Code : BAJMC 507, Crédits : 3, Session : 2018-2019 (ODD), Class BAJMC 5th Sem
Faculty Name : Dr Dhruv Sabharwal

Introduction: The course aims at teaching process by which media selects positions by companies or their agencies is a complex one involving substantial marketing and advertising research. While the process includes numerous steps, it operates in two stages: media planning and media buying.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-507.1- Understand the fundamental concepts and theories of media planning, including audience analysis, media selection, and campaign strategy.
- BAJMC-507.2- Develop proficiency in utilizing media research tools and data analysis techniques to inform media planning decisions.
- BAJMC-507.3- Gain insight into the role of media in integrated marketing communication strategies and how media planning aligns with broader marketing objectives.
- BAJMC-507.4- Explore the ethical considerations and legal regulations relevant to media planning, such as advertising standards and consumer privacy laws.
- BAJMC-507.5- Analyze case studies and real-world examples to understand best practices and industry trends in media planning across various sectors and markets.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Amity School of Communication
Course Handout
Course Name : **Media Laws & Ethics**
Course Code : BAJMC 601, Crédits : 3 , Session : 2018-2019 (EVEN), Class BAJMC 6th Sem
Faculty Name : Satnam Singh

Introduction: The course aims at encompassing the legal regulations and moral standards governing journalistic practices and media content. With increasing scrutiny and evolving digital landscapes, navigating the complexities of free speech, privacy rights, and responsible reporting is paramount. Understanding these principles is essential for media professionals to uphold integrity, transparency, and accountability in their work.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-601.1- Understand the historical development and evolution of media laws and ethical standards.
- BAJMC-601.2- Analyze and interpret legal frameworks governing freedom of speech, press freedom, and access to information.
- BAJMC-601.3- Identify key legal concepts and principles relevant to media practitioners, such as defamation, privacy, copyright, and intellectual property.
- BAJMC-601.4- Examine case studies and real-world scenarios to apply legal and ethical principles to contemporary media issues.
- BAJMC-601.5- Discuss the role of media watchdogs, regulatory bodies, and professional organizations in upholding ethical standards and accountability.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End	A	5%

	Semester examination. The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weightage
Module I : Media Ethics	**30%**
Ethics: Definition and Context; Ethics in Journalism; Code of conduct for Journalists; Press Council and its Role; Editorial content & integrity; Trends in commercialization: paid news, advertorials, private treaties; Guest lectures on ethical issues in media by Industry experts.	
Module II: Media Laws	**35 %**
Freedom of Speech and Expression; Defamation; Contempt of court; Right to Privacy Copyright; Right to Information; Cinematograph Act; Law on cyber security (IT Act, 2000)	
Module III : Media Regulation	**35 %**
Regulation: Meaning & Context; Why regulate the media?; Regulatory bodies for print, broadcast, Films; Print media regulation; Broadcast Regulation; Cable Television Regulation Act, 1995; Self Regulation	

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general

Sample Question Paper

Amity School of Communication I MID-SEMESTER (SEM –6) 2018-2019						
Class: BAJMC 6th Semester						
Subject Name: BAJMC-601 Media Laws & Ethics		Time: 1.5 Hrs		Max. Marks: 30		
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: Understand the historical development and evolution of media laws and ethical standards.
CO2: Identify key legal concepts and principles relevant to media practitioners, such as defamation, privacy, copyright, and intellectual property.

CO Map	Question No.	Question	Marks
CO1	Q.1	How does Media Laws & Ethics contribute to achieving marketing objectives and enhancing brand visibility?	3
CO1	Q.2a	What are the primary legal principles that govern media activities, and how do they vary across different jurisdictions?	3
	Q.2b	How do media laws address issues of privacy, especially in the context of reporting on public figures?	3
CO1	Q.3	What are the ethical considerations surrounding the use of anonymous sources in journalism, and how do media organizations navigate them?	6
CO2	Q.4	How do media laws protect freedom of speech and freedom of the press, and what are the limitations on these freedoms?	3

Dr. Sumit Narula
Director
Amity School of Communication

CO2	Q.5a	How do defamation laws differ between the United States and other countries, and what impact do these differences have on journalistic practices?	3
	Q.5b	Can you explain the concept of copyright law as it applies to media content, and how do media organizations ensure compliance?	3
CO2	Q 6	What ethical considerations arise when reporting on marginalized or vulnerable communities, and how do media organizations address them?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Media Laws & Ethics*** Course code BA***JMC-601*** is level 2 for the academic year 2018-2019.

Amity School of Communication
Course Handout
Course Name : **Multimedia & Convergence**
Course Code : BAJMC 602 Crédits : 3 , Session : 2018-2019 (EVEN), Class BAJMC 6th Sem
Faculty Name : Mehraj Haq

Introduction: This course focuses on the design and evaluation of multimedia learning and teaching environments in higher education settings as well as corporate training contexts. Students are introduced to principles of multimedia design based on cognitive theories and constructivist approaches to learning. Near completion, students are exposed to further case studies and develop their own concept for a multimedia project. This course will focus on the design of educational multimedia for libraries and media centers, to facilitate an understanding of how to create and design user-centered, instructional multimedia, to provide hands-on experience in multimedia production, including digitization of images, sounds, animation and video, and hypertext authoring.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-602.1- Students will be able to describe and apply Multimedia software in various ways.
- BAJMC-602.2- They also will be able to interpret and operate on the various principles of multimedia design.
- BAJMC-602.3- Demonstrate proficiency in creating multimedia content using a variety of tools and technologies..
- BAJMC-602.4- Explore the cultural, social, and economic implications of multimedia convergence on society..
- BAJMC-602.5- Collaborate effectively in interdisciplinary teams to create multimedia projects that integrate various media formats..

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Fiction Production**
Course Code : BAJMC 603 Crédits : 3 , Session : 2018-19 (EVEN), Class BAJMC 6th Sem
Faculty Name : Siddharth Sharma

Introduction: This course focuses on the design and evaluation of Fiction production which encompasses the creative process of crafting imaginative narratives across various mediums, including literature, film, television, and digital platforms. From conceptualization to publication, it involves storytelling techniques, character development, world-building, and narrative structure, aiming to captivate audiences with compelling and immersive fictional experiences

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-603 .1- Analyze various storytelling techniques and narrative structures employed in fiction production..
- BAJMC-603 .2- Apply principles of world-building to construct immersive fictional settings that enhance narrative depth..
- BAJMC-603 .3- Demonstrate proficiency in creating multimedia content using a variety of tools and technologies
- BAJMC-603 .4- Develop strategies for navigating the publishing and production process in the fiction industry.
- BAJMC-603 .5- Explore ethical considerations and responsibilities inherent in the creation and dissemination of fictional content.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Faculty Name : Dhruv Sabharwal

Introduction: This course aims to immerse students in Advertising copywriting is a creative communication form based upon a sense of artistry. The course will detail how account planning and client servicing relate to advertising industry.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-604.1- The course designed to familiarize the students with the concept of copy writing as selling through writing
- BAJMC-604.2- The course will empower students to enhance their media literacy skills, the course will help students develop writing skills.
- BAJMC-604.3- They will develop the ability to discern and interpret media messages, course will train students to generate, develop and express ideas effectively
- BAJMC-604.4- This includes a detailed exploration to make the students well versed with the Principles and Practices to copy writing and of develop the vocabulary, visualization skills and intricacies of copywriting.
- BAJMC-604.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : **Radio Programming**
Course Code : BAJMC 605, Crédits : 3, Session : 2018-2019 (EVEN), Class BAJMC 6th Semestre
Faculty Name : Manish Dubey

Introduction: The course objective is to make the students understand radio journalism in India. This will give an insight into changing trends in radio programming. It will help the students to learn the techniques used to conceptualize a program how to write script of different program genres finally make them aware of the production process used in Radio for programming.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-605.1- The course designed to will recognize the importance of professional responsibilities needed.
- BAJMC-605.2- The course will empower students to identify the technicalities as well as the terminologies used for Radio Programmes.
- BAJMC-605.3- They will will be able to learn how to express concepts with the help of words that create impact.
- BAJMC-605.4- This includes a detailed exploration to make the students well versed with the entire production process.
- BAJMC-605.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.
