Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course: Theories of Communication
Course Code : MJM 101, Crédits : 03, Session: 2018-19 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name: Sayantani Roy

A. Introduction: The objective of this course is to familiarize the students with the understanding of communication process and different theories of mass communication.

B. Course Outcomes: At the end of the course, students will be able to:

- **MJM101.1**. Understand the communication process.
- **MJM101**.2: Understand different school of thoughts for communication
- **MJM101.3**. Learn about the different models of communication.
- **MJM101.4**. Learn about the different theories of communication
- **MJM101.5:** Learn about the importance of communication in today's context

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

Dr. Sumit Narula
Director
Amity School of Communication

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

Dr. Sumit Narula
Director
Amity School of Communication

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Basics of Print Journalism
Course Code : MJM 102. Crédits : 3, Session : 2018-19 (ODD), Class MAJMC 1st Semester
Faculty Name : Ashish Sharma

A. **Introduction:** In the Basics of Print Journalism course, the objective is to familiarise future media analysts and current affairs professionals with crucial skills in critical analysis, statistical methods, and data interpretation. The aim is to establish a robust understanding of intermediate to advanced analytical concepts, enabling students to adeptly navigate the intricacies of media analysis and stay well-informed about current affairs within their respective fields.

B. **Course Outcomes:** At the end of the course, students will be able to:

- MJM-102.1- Basics of Print Journalism course will develop advanced critical analysis skills, allowing them to evaluate news articles, reports, and journalistic content
- MJM-102.2- Participants will acquire a solid foundation in statistical methods relevant to journalism, enabling them to interpret and present data effectively in their reporting.
- MJM-102.3- This skill set will empower them to engage critically with diverse media sources and contribute to a more comprehensive understanding of current affairs.
- MJM-102.4- The course will equip students with the capability to interpret complex data sets commonly encountered in journalism
- MJM-102.5- The course aims to ensure that participants are proficient in staying abreast of current affairs within their specific disciplines.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Media Designing
Course Code : MJM ~~113~~103, Credits: 3 Session : 2018-19 Class : MA J&MC I
Faculty Name : Sanjay Sikarwar

A. Introduction: "Media Designing" introduces students to the creative world of visual communication, covering essential design principles and tools. This course equips participants with the skills to craft compelling and visually impactful media content across various platforms.

B. Course Outcomes: At the end of the course, students will be able to:

MJM ~~113~~103.1 Enable students to understand the basics of the computer based graphic design, which mainly using in adverting.

MJM ~~113~~103.2 Help students to practice meaning and artistic qualities of graphic design, how to work with computers, different design software's like Adobe Illustrator, InDesign, Quark Xpress etc.

MJM ~~113~~103.3 Enable students to strengthen them in using various software's like Adobe Illustrator, InDesign, Quark Xpress etc.

MJM ~~113~~103.4 Develop a deep understanding of fundamental design principles, including layout, color theory, and typography.

MJM ~~113~~103.5 Apply design concepts to various media platforms, including digital, print, and social media, ensuring versatility.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Course Contents/Syllabus:

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : ADVERTISING PRINCIPLES AND PRACTICES
Course Code: MJM 104, Credits: 03, Session: 2018-19 (Odd Sem.), Class: MA(J&MC). 1st Year
Faculty Name : Dhruv Sabarwal

A. Introduction: The course provides a comprehensive overview of advertising from a media perspective. It talks about the evolution of advertising creating an understanding of traditional advertising and promotional tools.

B. Course Outcomes: At the end of the course, students will be able to:

MJM104.1. The course introduces the students to concepts of advertising.

MJM104.2. The course will provide them with the knowledge of Indian advertising scenario.

MJM104.3. The course is designed to make students understand the relationship between advertising and marketing.

MJM104.4. The course shall familiarize the students with the social and ethical issues concerning advertising in society.

MJM104.5. The course is designed to encourage critical thinking regarding advertising practices by analyzing the legal dimensions.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

D. Programme Specific Outcomes:

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

E. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%

Course Handout
Course Name: Aesthetics of Photography
Course Code : MJM 105. Crédits : 3, Session: 2018-19(ODD), Class MAJMC 1st Semester
Faculty Name : Sandesh Mahajan

Introduction: The Aesthetics of Photography explores the visual language and artistic principles behind compelling images. This subject delves into composition, lighting, and the emotional impact of photographs. Students will unravel the artistry within the frame, cultivating a deeper appreciation for the intersection of creativity and technical skill in the realm of photography.

A. **Course Outcomes:** At the end of the course, students will be able to:

- MJM-105.1- Students will gain proficiency in both the artistic and commercial aspects of photography, developing a nuanced understanding of how visual elements contribute to impactful images.
- MJM-105.2- Through hands-on exploration, students will refine their skills in creating and editing photographic works.
- MJM-105.3- This process will elevate their visual literacy, fostering a deeper connection to the medium of photography.
- MJM-105.4- The course covers the creation of both fictional and non-fictional images, artificial lighting techniques, digital editing processes, and the principles of photojournalism.
- MJM-105.5- This component aims to cultivate a constructive and analytical approach, fostering growth and improvement in their photographic work through feedback.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication I MID-SEMESTER (SEM –I) 2018-19						
Class: MAJMC.I Semester						
Subject Name: MJM-105 Aesthetics of Photography		Time: 1.5 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of cloud architecture and model.
CO2: Apply different cloud programming models as per need.

CO Map	Question No.	Question	Marks
CO1	Q.1	How does the interplay of composition, lighting, and subject contribute to the aesthetic appeal of a photograph, and how can photographers leverage these elements for creative expression?	3
CO1	Q.2a	In the realm of photography, how does the balance between artistry and commercial considerations influence the creation of compelling images, and what challenges may arise in finding this equilibrium?	3
	Q.2b	Explore the significance of digital editing in shaping the aesthetic qualities of a photograph. How can post-processing enhance or alter the visual narrative, and what ethical considerations should photographers keep in mind during this process?	3
CO1	Q.3	Discuss the role of storytelling in both fictional and non-fictional photographic works. How can photographers effectively convey narratives through their images, and what visual techniques contribute to storytelling in photography?	6
CO2	Q.4	Examine the impact of artificial lighting on the mood and atmosphere of a photograph. How can photographers skillfully use lighting techniques to evoke specific	3

Dr. Sumit Narula
Director
Amity School of Communication

		emotions and enhance the overall aesthetic quality of their work?	
CO2	Q.5a	In the context of photojournalism, how does the pursuit of visual aesthetics intersect with the responsibility to accurately document and represent real-world events? How can photographers navigate the ethical considerations inherent in this genre of photography?	3
	Q.5b	Examine the principles of photojournalism and its unique aesthetic requirements. How can photographers ethically capture and convey news stories while maintaining a visually compelling narrative?	3
CO2	Q 6	How does the incorporation of critique, particularly through peer review, contribute to the refinement of photographic skills and artistic vision? In what ways can constructive feedback shape the development of a photographer's style and technique?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course Aesthetics of Photography /Course code ***MJM-105*** is level 2 for the academic year 2018-19.

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : INTRODUCTION TO RADIO
Course Code : MJM 106, Crédits : 03, Session : 2018-19 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Sayantani Roy

A. Introduction: The objective of this course is to familiarize the students Students with the structure and history of the radio industry of India, as well as recognize the impact of AIR on nation.

B. Course Outcomes: At the end of the course, students will be able to:
MJM106.1. The course introduces the students to concepts of Radio as a Medium.
MJM106.2. The course will provide them with the knowledge of Expansion of Radio.
MJM106.3. The course is designed to make students to understand the Broadcasting Policy.
MJM106.4 Understand the mechanics, principles, and life cycle of the Radio process.
MJM106.5. Understand the world of Radio

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Course Handout
Course Name : Political Communication
Course Code : MJM ~~118~~108, Crédits : 03, Session : 2018-19 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Dr. Ashish Sharma

A. Introduction: A democracy's success depends upon open and direct communication between its citizens and those who govern them. Therefore, the main goal of the course is to teach students about the role of communication in informing, influencing, and legitimizing decisions in domestic politics. In the constitution was adopted and why not some other, how the institutions grow in the company of actual politics.

This course examines the interaction of media, politics, and public opinion, thus providing a survey of the field of political communication. As a result, the goal of this course is to teach students to be effective observers and participants in the public sphere. We will study political communication in all its forms, genres, and styles in Indian politics. This course examines the practices that have come to constitute political communication. Emphasis will be given to the role of political communication as it is practiced in the media.

B. Course Outcomes: At the end of the course, students will be able to:

MJM118MJM108.1. The course introduces the students to concepts of Political Communication as an emerging Discipline.

MJM118MJM108.2. The course will provide them with the knowledge of international dimensions of Political Communication.

MJM118MJM108.3. The course is designed to make students to understand politics and its relation to nation-building.

MJM118MJM108.4. The course is designed to make students to understand UNESCO's efforts in removal of Imbalance in News flow.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

Dr. Sumit Narula
Director
Amity School of Communication

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

Faculty Name : Dr. Sumit Narula

A. Introduction: "Communication Research is a dynamic course designed to equip students with the essential skills and methodologies for exploring, analyzing, and understanding various aspects of communication. Through a comprehensive study of research techniques, this course empowers students to critically examine the impact, dynamics, and trends in communication processes across diverse media and contexts."

B. Course Outcomes: At the end of the course, students will be able to:

- MJM 201.1. Develop advanced skills in designing and conducting communication research across diverse media platforms.
- MJM 201.2 Cultivate the ability to critically evaluate and interpret communication processes, theories, and trends.
- MJM 201.3 Master various research methodologies relevant to communication studies, including qualitative and quantitative approaches.
- MJM 201.4 Acquire proficiency in presenting research findings through clear and impactful communication strategies.
- MJM 201.5 Demonstrate a strong commitment to ethical considerations in communication research, ensuring integrity and validity in the research process.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Course Contents/Syllabus:

	Weightage (%)
Module I – Introduction to Communication Research	**20%**
Descriptors/Topics Definition, Research Methods and Approaches in Social Sciences. Mass Media Research and Scientific Methods. Importance of Communication Research – Indian Scenario. Formulation of Research Problem, Review of Literature, Hypothesis, Research Design.	
Module II – Communication Research Process	

Dr. Sumit Narula
Director
Amity School of Communication

Descriptors/Topics Steps of Research Process: Study the situation, Identification of Problem, Developing of Objectives, Formation of Hypothesis, Reviewing of Relevant Literature, Deciding the Research Design, Collection of Data, Data Analysis, Finding the Results, Policy implications and conclusion. Sampling: Meaning, strategies, methods and types Basic Terms of Sampling: Sample Plan, Sample Design, Sample Unit, Sample Frame and Sample Size, Tools of Data Collection	**30%**
Module III – Statistical application	**30%**
Descriptors/Topics Statistics Applied In Research: Frequencies And Percentages; Measures Of Central Tendency: Mean, Median And Mode; Measures Of Dispersion: Range, Standard Deviation And Mean Deviation; Simple Correlation	
Module IV – Report Writing and Ethical Issues in Communication Research	**20%**
Descriptors/Topics Research Reports: Research Articles/Paper, Project Report, Dissertation and Thesis, Significance of Abstract, Proposal, Synopsis, Reference and Bibliography in Research, Ethical Issues in Research: Plagiarism, Database and Research matrix	

E. Assessment/ Examination Scheme:

Continuous Assessment/Internal Assessment				**End Term Examination**
Components (Drop down)	**Mid Term Exam**	**Assignment/Project/Quiz**	**Attendance**	
Weightage (%)	15	10	05	70

Sample Question Paper

Sample Amity School of Communication 2018-19						
Class: MA J&MC **Communication Research** II Semester						
Subject Name: **Communication Research**		Time: 3 Hrs			Max.Marks:70	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6	Q. 7, 8, 9, 10	
Student will be able to:						

CO Map	Question No.	Question	Marks
CO1	Q.1	Define various research methods and approaches used in social sciences	6
CO1	Q.2	What are the various tools of data collection ?	6
	Q.3	What are measures of central tendency? Explain mean ,median and mode	6
CO1	Q.4	What are the cultural, social and political impact of Globalisation?	6
CO2	Q.5	Explain in detail the shift in Indian Sports scenario,	6
CO2	Q.6	Define communication research and discuss its importance in the Indian scenario.	6
	Q.7	Explain the process of formulating a research problem, including the review of literature, hypothesis development, and research design.	10
CO2	Q.8	Discuss the application of statistics in communication research, emphasizing frequencies and percentages.	10
CO3	Q.9	Explore ethical considerations in communication research, covering topics such as plagiarism, database usage, and research matrices.	10

Dr. Sumit Narula
Director
Amity School of Communication

CO3	Q.10	Explain key terms related to sampling, including sample plan, sample design, sample unit, sample frame, and sample size. Discuss tools of data collection.	20

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Communication Research*** /Course code ***MJM 201*** is level **3** for the academic year 2018-192.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Television Journalism
Course Code : MJM 202, Crédits : 03, Session : 2028-19 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Nihaz Anwar

A. Introduction: The objective of this course is to familiarize the students Students with the structure and history of the TV industry of India, as well as recognize the impact of Television Industry on nation.

B. Course Outcomes: At the end of the course, students will be able to:

MJM 202.1. The course introduces the students to introduce the basics of Tv Production and its practice to the students

MJM 202.2. The course is designed in a manner to reinforce the basic concepts of TV Industry.

MJM 202.3.Course will make students understand the workings of the media.

MJM 202.4 Understand the mechanics, principles, of TV production.

MJM 202.5. Understand the world of Television Production.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus

	Weightage (%)
Module I: Television as a Medium	**25%**
• Understanding the medium: invention and development; strengths and weaknesses of the medium;	

Dr. Sumit Narula
Director
Amity School of Communication

• Production and transmission technology; working of a TV camera: various camera shots and angles for news coverage, types of ENG cameras, • understanding sound, light and colour TV editing software: uses and limitations	
Module II TV News	**25%**
• Understanding TV News: news values, significance of timeliness, news as it happens; sources of news, types of news, news agencies; • news priorities for TV, comparison with other news media, breaking news: definition and practice • Working of a news room: various functionaries in a news room: reporters, copy editors, input, editors, output editors, news producers, cameramen, video editors; • Backroom researchers, reference library or archives people, graphic artists	
Module III TV Reporting	**25%**
• TV reporting: reporting skills: understanding deadline, gathering information, cultivating, sources, planning and designing a story, being fit and alert, presentation skills: voice modulation, diction, screen presence, body language; • Piece-to-camera, phonos, interview skills, instructing cameraman, • significance of sound-bytes, gettinggood sound-bytes	
Module IV TV Editing	25
• Writing and editing TV news: TV writing style: words vs visuals, writing in 'aural' style, content of news, anchor script, voice over script, writing headlines, drafting of news scrolls; • updating information, News presentation: structure of a news bulletin: headlines, • individual stories: telling a story through visuals, use of graphics, file shots, photos etc., • compilation of a bulletin, live feed, anchor's responsibilities; • Skills required of a news anchor: screen presence, presence of mind, interview skills etc.	2**25%**

E. Examination Scheme:

Components	**A**	**MT**	**IE**	**EE**
Weightage (%)	5	15	10	70

MT: Mid Term; IE: Internal Evaluation; EE: End Semester Examination; A: Attendance

Course Handout
Course Name : Radio Production
Course Code : MJM 203. Crédits : 3, Session : 2018-19 (EVEN), Class MAJMC 2nd Semester
Faculty Name : Sayantani Roy

Introduction: This course is designed to provide students with hands-on experience in radio production and broadcasting. It covers various aspects of radio equipment, scriptwriting, voice and presentation skills, program development, news reporting, and practical tasks to develop their radio broadcasting skills.

A. **Course Outcomes:** At the end of the course, students will be able to:

- MJM-203.1- Provide a comprehensive understanding of the fundamental concepts and principles of radio production,
- MJM-203.2- Develop practical skills in operating radio production equipment, including soundboards, microphones, and editing software,
- MJM-203.3- Explore effective scripting and storytelling methods tailored for radio
- MJM-203.4- Offer opportunities for students to participate in live radio broadcasting scenarios
- MJM-203.5- Equip students with proficiency in industry-standard software for audio editing and production

Program Educational Objectives

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus:

Course Contents/Syllabus:

	Weightage (%)
Module I Studio Layout	

Dr. Sumit Narula
Director
Amity School of Communication

Descriptors/Topics The Radio Studio- Studio Layout, The studio desk, mixer, control panel, console or board, Digital Compression, Digital Audio Workstation, Tape Formats, CDs, album and other discs, Microphones, Stereo, Equipment faults, Basics of Sound	**20%**
Module II Radio Formats and Genres	**20%**
Descriptors/Topics Radio formats- Simple announcements, Radio talks/commentaries/comments, Radio interviews, Radio discussions, Radio features and documentaries. Radio play, Radio running commentaries, Radio ads/commercials, Phone ins and radio bridges, Music on radio, Radio News-Radio News defined, Main characteristics of Radio News as against news in other media	
Module III Writing for radio	**20%**
Descriptors/Topics Writing for ear- Who are you talking to? What do you want to say? The storage of talk Words, Structure and Signposting, Pictures and stories, Double Meaning/Ambiguity Writing script (Radio News/ Radio Feature/ Radio Play etc.)	
Module IV Radio Presentation	**40%**
Descriptors/Topics News reading and Presentation-The Seven Ps (Posture, Projection, Pace, Pitch, Pause, Pronunciation, Personality) , News reading, Vocal Stressing, Inflections, Quotation Marks, Alterations, Corrections, List and Numbers, Station Style, Continuity presentation, Creation of Radio Jingles, Error and Emergencies, Head Phones, Trials and Promos, Radio Interviewing(The basic approach, Question Technique etc.),Vox Pop (Phrasing the Questions, Putting the Questions etc.), Cues and Links (Information for the broadcasters, links), Making radio Commercials(Copy policy, Target Audience, writing copy, voicing and treatment, music and effects, Humour)	

Pedagogy for Course Delivery:

The course integrates class lectures, equipment demos, and discussions for a holistic understanding. Field assignments and hands-on experience with audio radio stations enhance practical skills. Culminating in a student-led radio program project, the curriculum ensures a comprehensive grasp of radio production, encompassing various program types in mass communication.

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Visual Designing and Production
Course Code : MJM 204, Crédits : 03, Session :2018-19 (Odd Sem.), Class : MA(J&MC). II Sem
Faculty Name : Anshul Jain

A. **Introduction:** The objective of this course is to make students aware of the concepts of visual designs and production. The course will help them in understanding advertising designing along with software's such adobe and corel draw.

B. **Course Outcomes:** At the end of the course, students will be able to:
MJM 204.1. Students will be introduced to the art, and commercial practice of advance level of digital graphic designing. Students will explore the making and editing of work to inform their computer graphic designing.

- **MJM 204.2**. Projects will introduce students to the many ways the medium is used in their culture; this includes the making of professional magazines, newspaper layout, and corporate brochure, etc.
MJM 204.3. Students will also learn the terminology used in layouts and designs in indoor medium.
MJM 204.4 The students will study the design for advertising layouts, taking into the consideration the choice of typeface.
MJM 204.5. Understand the positioning and choice of colors, images and text.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as

Dr. Sumit Narula
Director
Amity School of Communication

professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%

Course Handout
Course Name : Specialized Reporting
Course Code : MJM 205 , Credits : 3 Session : 2018-19 Class : MA J&MC II
Faculty Name : Aditya Kumar Shukla

A. Introduction: "Specialized Reporting is a dynamic course designed to equip journalism students with advanced skills in in-depth reporting across specialized fields. From investigative journalism to coverage of niche topics, this course focuses on honing the expertise needed to excel in the ever-evolving landscape of specialized reporting."

B. Course Outcomes: At the end of the course, students will be able to:
MJM 205.1. Gain proficiency in conducting thorough investigations, from research to ethical reporting.
MJM 205.2. Develop specialized knowledge to report effectively on diverse subjects, such as science, business, or culture.
MJM 205.3. Acquire skills in using various media formats and innovative techniques for impactful storytelling.
MJM 205.4. Foster the ability to critically analyze complex issues and present them coherently in journalistic narratives.
MJM 205.5 Cultivate adaptability to emerging media platforms and technologies for cutting-edge reporting.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies,

Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Film Theory and Practices
Course Code : MJM 206, Crédits : 03, Session : 2018-19 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Mr. Siddharth Sharma

A. Introduction: The objective of this course is to familiarize the students with concept of film theories and language of cinemas. This course will allow students to learn the contribution of prominent film directors in Indian Cinema

B. Course Outcomes: At the end of the course, students will be able to:

MJM206.1. In this course students will understand the language of film making

MJM206.2. They will come to know about different stages of filmmaking

MJM206.3. The course is designed to enable the student to understand the scriptwriting and storyboarding techniques.

MJM206.4. They will be introduced to the concepts of lighting and editing for films.

- **MJM206.5.** To establish distinction between technique and content

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Public Relation and Corporate Communication
Course Code : MJM 207, Crédits : 03, Session : 2018-19 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Dhruv Sabharwal

A. Introduction: The objective of this course is to familiarize the Students with the structure and history of the PR industry of India, as well as recognize the impact of corporate communication on nation.

B. Course Outcomes: At the end of the course, students will be able to:

MJM207.1. The course introduces the students to introduce the basics of PR and its practice to the students

MJM207.2. The course is designed in a manner to reinforce the basic concepts of effective public relations.

MJM207.3. Course will make students understand the workings of the media -- and the 'new media' landscape

MJM207.4 Understand the mechanics, principles, of PR.

MJM207.5. Understand the world of Corporate Communication.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : FOLK AND POPULAR MEDIA OF INDIA
Course Code: MJM 208, Credits: 03, Session: 2018-19 (Even Sem), Class: MA(J&MC) II Sem
Faculty Name : Satnaam Singh

A. Introduction: The student will explore the diverse world of Folk Media in this course, delving into its meaning, forms like dance, theatre, and music, and cultural significance. Uncover the interplay between Popular and Traditional Media, and analyze the integrated use of Folk Media with mass communication. Discover the role of Folk Media in nation-building and its impact on national integration.

B. Course Outcomes: At the end of the course, students will be able to:

MJM208.1. Students will gain a profound understanding of Folk Media, encompassing its various forms such as dance, theatre, and music, along with their cultural significance.

MJM208.2. Develop critical analysis skills to dissect the interplay between Popular and Traditional Media, examining their dynamics and cultural implications.

MJM208.3. Acquire the ability to integrate Folk Media with mass communication, exploring its role in nation-building and its application by government agencies.

MJM208.4. Cultivate an appreciation for the diverse folk forms, folklore, and traditional communication methods, understanding their unique contributions to cultural richness.

MJM208.5. Develop problem-solving skills by addressing challenges and prospects faced by folk artists, fostering a nuanced perspective on the democratization of communication and the role of traditional media in national integration.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

Dr. Sumit Narula
Director
Amity School of Communication

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

D. Programme Specific Outcomes:

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

E. Assessment Plan:

Amity School of Communication

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Advance Media Research
Course Code : MAJMC 301, Crédits : 3, Session : 2018-19 (ODD), Class MAJMC III Sem
Faculty Name : Dr. Sumit Narula

Introduction: The course aims at teaching applied research can put theory to the test, it may add to conceptual clarification and integrate previous existing theories. Thus, central aim of applied research is to find out a solution for some pressing practical problem.

Course Outcomes: At the end of the course, students will be able to:

- MAJMC 301.1- The introduce students to the application of research in mass communication
- MAJMC 301.2- explore the various forms of research in different media
- MAJMC 301.3- introduce students to the variety of tools used in different forms of media research
- MAJMC 301.4- introduce them to the concept of research paper/articles and their execution
- MAJMC 301.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination.	A	5%

Dr. Sumit Narula
Director
Amity School of Communication

	The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weightage
Module I: – Correlation & Regression Analysis	**25 %**
Meaning, Concept and Characteristics of Correlation, Types of Correlation: Basic Type (Positive, Negative and Zero), Linearity Based Linear, Non-linear and Curvilinear, Partial Correlation: Pearson's Product Moment Correlation and Spearman's Rank Order Correlation, Determination of Correlation by Graphical Methods and Coefficient of Correlation, Concept of Multi-co linearity and Multiple Correlation Regression- Meaning, Application and Interpretation of Regression and its Terms-R, R2; Relationship between Correlation Coefficient and Regression Coefficient, Advantage and Assumption and Uses of Regression Analysis in Research Pape	
Module II: Test of Significance	**25%**
Concept and Application of Hypothesis Testing and Test of Significance, Type of Errors, Level of Significance, Critical Region, One-tailed and Two-tailed Tests, Size and Power of a Test, Degree of Freedom, T-Test: Independent Sample T-Test, Paired T-Test, Chi-square Test: Meaning and Application, Test of Goodness of fit, Test in One-way Classification, Contingency Table, Test of Independence of Factors, Yates Correction	
Module III: Analysis of Variance (ANOVA) and Time	**25 %**
Cross Tabulation and Chi-square Test with SPSS, One-way ANOVA: Meaning, Interpretation, Application and Calculation with SPSS, Two-way ANOVA: Meaning, Interpretation, Application and Calculation with SPSS, Post-hoc Measurement, Time Series Analysis	
Module IV – Factor Analysis Method	**25%**

Dr. Sumit Narula
Director
Amity School of Communication

Factor Analysis: Meaning, Interpretation, Application, Principle Component Method with Varimax Rotation, KO Barlett's Test for Validity with SPSS, Identification of Factors through loading with SPSS, Advantage and Limitation of Factor Analysis	

Teaching Pedagogy:

Power-point presentation, Relevant research papers as examples for explaining the concept, Practical exercise for application of media research

C. Examination Scheme

Theory L/T (%)	Lab/Practical/Studio (%)	End Term Examination
100	NA	100

Theory Assessment (L&T):

Continuous Assessment/Internal Assessment				End Term Examination
Components (Drop down)	Class Test	Attendance	Assignments	70
Weightage (%)	15	05	10

Sample Question Paper

Amity School of Communication MID-SEMESTER (SEM –III) 2018-19
Class: MAJMC III Semester

Dr. Sumit Narula
Director
Amity School of Communication

Subject Name: MAJMC 301 Applied Research in Media Studies		Time: 1.5 Hrs.			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of applied research & ethics
.CO2: Basic principles and rules of proof reading

CO Map	Question No.	Question	Marks
CO1	Q.1	What are some common methodologies used in applied research, and how do they differ from those used in theoretical research?	3
CO1	Q.2a	What is one-way ANNOVA? Explain.	3
	Q.2b	How do researchers ensure that their findings from applied research are relevant and applicable to the target audience or problem?	3
CO1	Q.3	What is KO Barlett's Test for Validity with SPSS?	6
CO2	Q.4	How does collaboration between researchers and stakeholders, such as industry partners or government agencies, enhance the effectiveness of applied research?	3
CO2	Q.5a	What role does data analysis and interpretation play in applied research, and how do researchers ensure the validity and reliability of their findings?	3
	Q.5b	How do researchers disseminate the results of applied research to maximize its impact and implementation?	3
CO2	Q 6	What are some challenges commonly faced by researchers in the field of applied research, and how can they be addressed to facilitate the translation of research findings into practice?	6

Dr. Sumit Narula
Director
Amity School of Communication

Attainments		Rubric
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Advance Media Research***/Course code ***MAJMC 301*** is level 2 for the academic year 2018-19.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Film Theory and Practices
Course Code : MAJMC 302, Crédits : 03, Session : 2018-19 (Even Sem.), Class : MA(J&MC). III Sem
Faculty Name : Mr. Siddharth Sharma

A. Introduction: The objective of this course is to familiarize the students with concept of film theories and language of cinemas. This course will allow students to learn the contribution of prominent film directors in Indian Cinema

B. Course Outcomes: At the end of the course, students will be able to:

MAJMC 302.1. In this course students will understand the language of film making
MAJMC 302.2. They will come to know about different stages of filmmaking
MAJMC 302.3. The course is designed to enable the student to understand the scriptwriting and storyboarding techniques.
MAJMC 302.4. They will be introduced to the concepts of lighting and editing for films.

- **MAJMC 302.5.** To establish distinction between technique and content

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Amity School of Communication
Course Handout
Course Name : Advanced New Media
Course Code : **MAJMC 303**, Credits : 3, Session : 2018-19(ODD), Class MAJMC IIIth Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **MAJMC 303**.1- Develop an understanding of the evolving nature of media consumption patterns in the networked world.
- **MAJMC 303**.2- Explore the emergence of the new 'reader' and their role in shaping media content and distribution.
- **MAJMC 303**.3- Analyze the convergence of media and technology and its impact on content creation, distribution, and audience engagement.
- **MAJMC 303**.4- Gain insight into the changing role of media professionals in the context of new media environments.
- **MAJMC 303**.5- Understand the principles and practices of web journalism, including storytelling techniques, multimedia content creation, and audience interaction.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-MAsed, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course : Print Layout and Design
Course Code : MAJMC 305 Crédits :03 Session :2020-21(Odd Sem.) , Class : MAJMC III Sem
Faculty Name : Sanjay Singh Sikarwar

Introduction: The course aims to introduce basic concepts of print. In this course students will be introduced to the broad knowledge of the basic computer software's, which are mainly used in print media. Students will study the designing of print layout of pages, taking into consideration the choice of typeface and positioning and choice of color, images and text. Students will explore the information in context to the designing of variety of print layouts.

A. **Course Outcomes:** At the end of the course, students will be able to:

MAJMC 305 .1. Students will understand the basic computer fundamentals.
MAJMC 305.2. Students will learn the basics of Photoshop and CorelDraw
MAJMC 305.3. Students will learn the basics of Quark express and Indesign.
MAJMC 305.4. Evaluate the different ideologies in the field of graphics & editing
MAJMC 305.5. prepare a project based on graphics & design.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Anchoring and Presentation
Course Code : **MAJMC 306**, Credits : 3, Session : 2018-2019 (ODD), Class MAJMC IIIth Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **MAJMC-306**.1- Develop the ability to deliver information in a professional and articulate manner suitable for television broadcasting.
- **MAJMC-306**.2- Acquire the skills to handle live broadcasting situations with confidence and poise, including ad-libbing and responding to unexpected challenges.
- **MAJMC-306**.3- Understand the challenges faced by media professionals in the field of television anchoring and develop strategies to overcome them.
- **MAJMC-306**.4- Enhance vocal delivery and non-verbal communication techniques to engage and captivate television audiences.
- **MAJMC-306**.5- Practice effective time management and organization skills to meet deadlines and deliver polished performances on air.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Current Affairs and Media Analysis
Course Code : MAJMC 401. Crédits : 3, Session : 2018-19 (EVEN), Class MAJMC 4th Semester
Faculty Name : Aditya Kumar Shukla

A. **Introduction:** The goal of this course is to acquaint aspiring professionals in Current Affairs and Media Analysis with essential techniques in critical analysis, statistical methods, and data interpretation. It seeks to provide students with a solid foundation in intermediate to advanced analytical concepts, empowering them to navigate the complexities of media analysis and stay abreast of current affairs in a proficient manner within their disciplines.

B. **Course Outcomes:** At the end of the course, students will be able to:

- MAJMC-401.1-Students will select the Language of news and fundamentals and content
- MAJMC-401.2-Students will understand the relationship between theory and practice
- MAJMC-401.3- Students will be classifying various fascinating aspects of current affairs and news
- MAJMC-401.4-Students will be able to define the crucial fine points that make Cine
- MAJMC-401.5-To create a simple script and implement a shoot based on the same

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies,

Dr. Sumit Narula
Director
Amity School of Communication

professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media,

Dr. Sumit Narula
Director
Amity School of Communication

and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus:

Course Contents/Syllabus:

	Wei
Module I Overview	**20%**
What Makes News? Understanding News/News Values News Selection: Theories of Agenda Setting, Spiral of Silence Etc Debate on Objectivity (Bias) And Subjectivity Building News Sources and Credibility of News	
Module II Analysis of National and International News and Current Affairs	

Dr. Sumit Narula
Director
Amity School of Communication

Classroom Discussions on National and International News Comparative Analysis of News Treatment in Various News Papers and TV Channels. Background of Important News, Relevance of These Reports to India And the World Community or Why They Are Considered to Be Important, Restructuring The UN	**20%**
Module III Global Economic Trends and Issues	**20%**
Profile of The Indian Economy (Industry, Agriculture, Infrastructure, Growth Rates, World Ranking, Role of Planning, Budgets and Government Policies) The World's Top 5 Economies and Emerging World Powers - 2025 Regional Economic Groupings of The World and Their Functioning: The World Bank; The European Union and Its Expansion; The Asian Development Bank; World Economic Forum	
Module IV Indian Topical Issues and Their Backgrounders	**20%**
Indian Constitution, Naxalism And Marxism, Criminalization of Politics Indian Foreign Policy: India And Issue of Permanent Seat in The UN	

Pedagogy for Course Delivery:

The class will be taught using theory, discussion, practical and case based method. Film clips specially belonging to particular eras will be screened. Discussion based learning especially in the context of Indian cinema will be undertaken. Home assignments and presentation will be a component of the course. In case of a specific event in the city involving cinema, students will be taken on field trip for the same. Written assignments on scriptwriting will be included. Workshop and interactive method will be used to hone skills in script writing.

Lab/ Practicals details, if applicable: List of Experiments:

- A 2- 3 minute film on a certain theme.
- Film Viewing sessions
- Film Appreciation exercises
- Script writing sessions

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Media Ethics, Laws & Regulations
Course Code : MAJMC 402 **Crédits :** 03 **Session :** 2018-19 (Even Sem.), **Class :** MA (J&MC). 2nd Year
Faculty Name : Satnaam Singh

A. **Introduction:** This subject will give students a broad knowledge of ethical issues and legal restraints placed upon media. And students will study the various regulatory aspects of media. Their various stakeholders in content regulation of the media.

A. Course Outcomes: At the end of the course, students will be able to:

MAJMC 402.1. To introduce students to ethical issues and legal restraints placed upon media.

MAJMC 402.2. To discuss the conflicting traditions of a free but regulated mass media.

MAJMC 402.3. To describe the various media laws.

MAJMC 402.4. To understand the context and framework of media regulation in India.

MAJMC 402.5. To discuss the issues arising from regulation of the media.

MAJMC 402.6. To locate the role of various stakeholders in content regulation of the media.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

B. Assessment Plan:

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course: MA(J&MC), Corporate Communication & Brand Management
Course Code: MAJMC 404, Credits: 03, Session: 2018-19 (Even Sem.), Class: MAJMC. IV Sem
Faculty Name : Satnaam Singh

A. Introduction: To Understand how corporate communication works..

B. **Course Outcomes:** At the end of the course, students will be able to:

BJM404.1: To provide basic and emerging concepts and principles about better decision-making in Corporate Communication and Brand Management.

BJM404.2: To enable the students to integrate various functions with organizational goals and strategies.

BJM404.3: To provide hands-on training on planning and production of brand and social campaigns.

MAJMC404.4: To provide skills on various relevant software, especially in media planning and production of campaigns.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, and sustainability and allowing them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films.

Dr. Sumit Narula
Director
Amity School of Communication

Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Course Handout
Course Name: **News Room Practices**
Course Code: MA JMC 405, Credits: 3 Session: 2018-2019 Class: MA J&MC IV Semester
Faculty Name: Mr Ashish Sharma

A. **Introduction:** "Newsroom Practices" hones students' skills in news presentation and newsroom operations, focusing on the dynamic world of broadcast journalism. Participants will master the art of credible news delivery while gaining insights into newsroom dynamics, editorial processes, and collaborative practices.

B. **Course Outcomes:** At the end of the course, students will be able to:
MAJMC 405.1. To understand the newsroom practices.
MAJMC 405.2. To understand each department involved, in a newsroom.
MAJMC 405.3. To enable students, to apply their skills to functioning attributes.
MAJMC 405.4. To become aware of the inside picture of the industry.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

Dr. Sumit Narula
Director
Amity School of Communication

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, and sustainability and allowing them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize

Dr. Sumit Narula
Director
Amity School of Communication

and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name: **Media Globalization**
Course Code: MAJMC 406, Credits: 3 Session: 2018-19 Class: MA J&MC IV Semester
Faculty Name: Mr Ashish Sharma

A. **Introduction:** This course will help students to understand the globalise news media to shape perceptions of global and local reality. They will examine the extent to which the growing access to information from every corner of the globe fosters reporting that accurately reflects global and local realities.

B. **Course Outcomes:** At the end of the course, students will be able to:

1. MAJMC 406.1. Demonstrate understanding of the influence of business pressure on news operations in market-driven/influenced media systems.
2. MAJMC 406.2. To Demonstrate an awareness of the emergence of "new voices" in the global media.
3. MAJMC 406.3. To Identify and demonstrate an understanding of the mechanisms by which governments, intelligence agencies, political parties, and businesses influence the framing of news.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

Dr. Sumit Narula
Director
Amity School of Communication

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, and sustainability and allowing them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize

Dr. Sumit Narula
Director
Amity School of Communication

and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication
Course Handout
Course Name : Communication Théories and Model
Course Code : JMC 101, Crédits : 3, Session : 2019-20 (Odd), Class BAJMC Ist Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- JMC-101.1- Students will gain a profound grasp of key concepts in communication and mass communication, providing a solid foundation for analyzing and interpreting diverse communication phenomena.
- JMC-101.2- The course will empower students to enhance their media literacy skills, enabling them to critically engage with various forms of mass communication.
- JMC-101.3- They will develop the ability to discern and interpret media messages, fostering a more informed and discerning perspective.
- JMC-101.4- This includes a detailed exploration of models and major theories, equipping them with a comprehensive understanding of how communication functions in diverse contexts
- JMC-101.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : History and Growth of Media in India
Course Code : JMC 102, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : BA (J&MC) 1st Semester
Faculty Name : Siddharth Sharma

A. **Introduction:** *The course aims at instructing students about History and Mass Media in India. This paper will introduce the students about the different phase of Journalism in India.*

B. **Course Outcomes:** At the end of the course, students will be able to:

- JMC 102.1 Students will able to learn the early stage of media followed by different types of media used in early days.
- JMC 102.2 Students will learn the history of newspaper Industry. They will also learn the development of newspaper in India
- JMC 102.3: Students will be able to describe the history of press in India during the colonial era.
- JMC 102.4: Students will be able to discuss the developments of the press post-independence.
- JMC 102.5: Students will learn the historical aspects of media industry in India.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

Course Handout
Course Name : Fundamentals of Advertising
Course Code : JMC 103 Crédits : 03 Session : 2019-2020 , Class : BAJMC Semester Ist
Faculty Name : Dhruv Sabharwal

A. Introduction: The course provides a comprehensive overview of advertising from media perspective. It talks about the evolution of advertising creating an understanding of traditional advertising and promotional tools.

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 103 .1.Identify and define the advertising concepts
JMC 103 .2. Review the advertising media.
JMC 103 .3. Analyze the Indian advertising scenario.
JMC 103 .4. Distinguish between advertising and marketing.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Introduction to Visual Communication
Course Code : JMC 105, Crédits : 02, Session : 2019-2020 (Odd Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Siddharth Sharma

A. Introduction: *Visual communication applies the fundamentals of major art forms for professional problem-solving. It is the conveyance of ideas and information in forms that can be read or looked upon*

B. Course Outcomes: At the end of the course, students will be able to:

- JMC105.1: The students would be able to understand Visual communication as an integral part of human communication.
- JMC105.2: Students will learn the basic of visual communication with respect to different mediums and their usage.
- JMC105.3: students will understand the connection of visual tools with the society. They will learn the concept of symbols and semiotics.
- JMC105.4: students will learn about different theories related to visual communication.
- JMC105.5: Students will thee understand the application of index and symbols in daily life.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher

Dr. Sumit Narula
Director
Amity School of Communication

studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

Amity School of Communication
Course Handout
Course : Digital Skills for Media I
Course Code : JMC 107 Crédits :03 Session :2019-20 (Odd Sem.) , Class : BAJMC I Sem
Faculty Name : Sanjay Singh Sikarwar

Introduction: The course aims to introduce basic concepts of print. In this course students will be introduced to the broad knowledge of the basic computer software's, which are mainly used in print media. Students will study the designing of print layout of pages, taking into consideration the choice of typeface and positioning and choice of color, images and text. Students will explore the information in context to the designing of variety of print layouts.

A. **Course Outcomes:** At the end of the course, students will be able to:

JMC 107 .1. Students will understand the basic computer fundamentals.
JMC 107.2. Students will learn the basics of Photoshop and CorelDraw
JMC 107.3. Students will learn the basics of Quark express and Indesign.
JMC 107.4. Evaluate the different ideologies in the field of graphics & editing
JMC 107.5. prepare a project based on graphics & design.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus:

Module I: Computer Fundamentals and Ms Office	**Weightage**
Definition, Generations and basic components of Computer. Input/output devices, Memory and other peripherals, Introduction to Operating System (Windows 10), Functions and features of Operating System (Accessories, Control Panel, Desktop, Windows Explorer), Ms office Suit, Introduction to word Processing, MS Word interface, Tools and Menus, Document editing and formatting, Mail Merge and other tools. MS Excel Interface, Tools and Menus, Creating Spreadsheet, Use of functions, Charts and Graphs, MS PowerPoint Interface, Tools and Menus, Creating slides, inserting multimedia objects, Transition and Custom Animation, Delivering, Presentations.	**40%**
Module II: Introduction to Photoshop	**30%**
Introduction to Graphics, Colour models and modes, Graphic file formats and their applications. Adobe Photoshop Interface, Tools and Menus, Working with Layers, Filters, Masking and other tool. Use of Photoshop for Designing and Photo Publishing.	

Dr. Sumit Narula
Director
Amity School of Communication

Module III: Introduction to Adobe In Design	**30%**
Working with In-design, Page design, Newspaper, Magazine & Advertisement Design with the help of In-design, Hindi Typing Techniques, English Typing Techniques, Practice of Both Type of Typing.	

Lab/ Practicals: Training of Graphics and Animation Software

F. Assessment/ Examination Scheme:

Course Name: Specialized Reporting, Writing & Editing
Course Code : JMC 201, Crédits : 3, Session : 2019-20 (EVEN), Class BAJMC 2nd Semester
Faculty Name: Aditya Kumar Shukla

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, and disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning. In addition students will also learn the basics of print media editing

Course Outcomes: At the end of the course, students will be able to:

- JMC-201.1- The course designed to familiarize the students with the concept of various types of features for magazines
- JMC-201.2- The course will empower students to enhance their media literacy skills; the course will help students different leads, the body text and ending.
- JMC-201.3- They will develop the ability to discern and interpret media messages, course will train students to demonstrate interviewing and newsgathering skills
- JMC-201.4- This includes a detailed exploration to make the students well versed with the Principles and Practices to editing skills including proof reading and headline writing
- JMC-201.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home	S/V/Q/HA	10%

Dr. Sumit Narula

Sample Question Paper

Amity School of Communication II MID-SEMESTER (SEM –II) 2019-20						
Class: BAJMC.II Semester						
Subject Name: JMC-201 Specialized Reporting, Writing & Editing		Time: 1.5 Hrs.			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating

Dr. Sumit Narula
Director
Amity School of Communication

Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of News gathering and beats
.CO2: Basic principles and rules of proof reading

CO Map	Question No.	Question	Marks
CO1	Q.1	What are the key elements of a news story that a writer should include when writing for a news outlet?	3
CO1	Q.2a	How does the inverted pyramid structure benefit news writing, and why is it commonly used?	3
	Q.2b	What strategies can news writers employ to ensure their writing is clear, concise, and engaging?	3
CO1	Q.3	What are some common grammatical and stylistic errors that news writers should watch out for during proofreading?	6
CO2	Q.4	What tools or techniques can news writers use to streamline the proofreading process and catch errors more efficiently?	3
CO2	Q.5a	Why is it important for news writers to be aware of biases, both in their own writing and in the sources they use?	3
	Q.5b	How can news writers maintain objectivity and impartiality in their reporting?	3
CO2	Q 6	What role does headline writing play in news articles, and what are some best practices for crafting effective headlines?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Specialized Reporting, Writing & Editing***/Course code ***JMC-201*** is level 2 for the academic year 2019-20.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Theories of Advertisements & Public Relations
Course Code : JMC 202, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Dr Dhruv Sabharwal

A. Introduction: This Subject deals with Advertisement & Public relation exposure to students for better academic progression.

B. Course Outcomes: At the end of the course, students will be able to:
JMC202.1. In this course students will understand the Role of Advertisement .
JMC202.2. In this course students will understand the PR.
JMC202.3. In this course students will understand the ADV Production.
JMC202.4. They will be introduced to the concepts of CSR
JMC202.5. Understand the PR Production Process

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

Course Handout
Course Name : Basics of Radio Journalism
Course Code : JMC 203. Crédits : 3, Session : 2019-20 (EVEN), Class BAJMC 2nd Semester
Faculty Name : Dr Manish Dubey

Introduction: This course is designed to provide students with hands-on experience in basics of radio journalism. It covers various aspects of radio equipment, scriptwriting, voice and presentation skills, program development, news reporting, and practical tasks to develop their radio broadcasting skills.

A. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-203.1- Students will be able to identify and write record, produce and edit several formats of radio programmes including news stories, and features.
- JMC-203.2- Students will recognize the structure and history of the radio industry will be able to work in professional atmosphere of radio station,
- JMC-203.3- Students will interpret the challenges and solutions of the radio industry
- JMC-203.4- Students will outline the relationship of each personnel inside a radio station
- JMC-203.5- Equip students with proficiency in industry-standard software for audio editing and production

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus:

Module I: Understanding the medium	**Weightage**
Strengths and Weaknesses of the Medium, Writing for ear- Who are you talking to? What do you want to say?, The storage of talk Words, Structure and Signposting, Pictures and stories Double Meaning/Ambiguity, Writing script (Radio News/ Radio Feature/ Radio Play etc)	**15%**

Dr. Sumit Narula
Director
Amity School of Communication

Module II: Radio News	**15%**
Radio News Reporting: Skills of a Radio News Reporter: Developing Sources, Gathering News, Giving Voice- Cast, Phonos, Anchoring and News Reading Skills: General Awareness, Presence of Mind; Clarity, Diction, Pronunciation, Compiling a Bulletin: Types of Bulletins: Local to International Editing News for Different Bulletins; Using Voice-Dispatches and other Elements in a Bulletin: Sequencing, Updating News Updates, News Reports, Newsreel etc.	
Module III: News Reading	**20%**
News reading and Presentation-The Seven Ps (Posture, Projection, Pace, Pitch, Pause, Pronunciation, Personality), News reading, Vocal Stressing, Inflections, Quotation Marks, Alterations, Corrections, List and Numbers, Station Style, Continuity presentation, Creation of Radio Jingles, Error and Emergencies, Head Phones, Trials and Promos	
Module IV: Radio Interview and Advertising	**20%**
Radio Interviewing(The basic approach, Question Technique etc), Vox Pop (Phrasing the Questions, Putting the Questions etc), Cues and Links (Information for the broadcasters links), Making Radio Commercials (Copy policy, Target Audience, writing copy, voicing and treatment, music and effects, Humour)	
Module V: Radio Program Production	**30%**

Dr. Sumit Narula
Director
Amity School of Communication

Radio Programme Formats; Latest trends of Radio Programmes; Functions & Characteristics of Radio Programmes; Production and Recording Process Programme Planning; Broadcasting Guidelines; Conceptualization and Ideation: Show Designing; Radio Programme Production: Interviews, Radio Talk, Discussions, Review Programmes, Production of Musical Programmes; Best use of Music database; Talk show; Discussion Programme; Drama/Skits; Radio Documentaries and Feature; Advertisements, Promos, Jingles; Telephonic Programmes	

Teaching Pedagogy:

The course integrates class lectures, equipment demos, and discussions for a holistic understanding. Field assignments and hands-on experience with audio radio stations enhance practical skills. Culminating in a student-led radio program project, the curriculum ensures a comprehensive grasp of Basics of Radio Journalism, encompassing various program types in mass communication.

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course: INDIAN ECONOMY & FOREIGN RELATIONS
Course Code: JMC 205, Credits: 03, Session: 2019-20 (Even Sem), Class: BA(J&MC). II SEM
Faculty Name: Aditya Kumar Shukla

A. Introduction: Using appropriate analytical frameworks, this course reviews major trends in economic and foreign policy indicators and policy debates in India in the post-Independence period, with particular emphasis on paradigm shifts and turning points. Given the rapid changes taking place in India.

B. Course Outcomes: At the end of the course, students will be able to:

JMC205.1. Students will be able to gain insights into the major features of the Indian economy at independence and its growth under different policy regimes.

JMC205.2. The student will be able to explore the impact of macroeconomic policies, including fiscal, trade, investment, financial, and monetary policies, on the Indian economy.

JMC205.3. Students will be able to familiarize with key international organizations and institutions such as the World Bank, Asian Development Bank, World Economic Forum, United Nations, and various international groupings.

JMC205.4. The students will understand the determinants and principles shaping India's foreign policy, considering both domestic and international sources.

JMC205.5. Students will be able to evaluate the security challenges faced by India, including terrorism, energy security, nuclear policy, and geopolitical considerations.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

D. Programme Specific Outcomes:

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

E. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves	A	5%

Digital Skills for Media-II
Course Code : JMC 206 Crédits : 2 Session : 2019-20, Class : BAJMC II Semester
Faculty Name: Sanjay Singh Sikarwar

A. Introduction: Sound is stored for playback through the process of sound recording. Recording devices capture sound waves from the air and convert them into electrical signals or digital data, which are then stored on media such as records, compact discs (CDs), and computer hard drives. Students will learn all the terminologies such as playback equipment reverses the recording process to reproduce the original sound. Sound recording is used in the music, movie, television, and radio industries.

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 206.1.. Understand the concepts of Sound recording & editing.
JMC 206.2. Analyse various terminologies and equipment setting.
JMC 206.3. Identify, implement and evolve conceptual understanding of the Sound recording & editing.
JMC 206.4. Evaluate the different technologies such as Peaking, balancing, mastering etc.
JMC 206.5. Enable students to prepare project on audio sampling.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%

Dr. Sumit Narula
Director
Amity School of Communication

End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus:

Module I: Basics of Sound Recording and Sound Equipments	**Weightage**
Voice casting, Sound Theory: Frequency, Amplitude, the art of foley, Microphone, Characteristics, Sound Recording Fundamentals:–Mic placement –Angle vs Distance – Signal to Noise Ratio, Types of Sound Equipments, Basic Recording Techniques, Basics of Digital Audio, Powering Up Hardware.	**35%**
Module II: Sound Recording Software	**30%**
Introduction to Software, Sound-forge Interface, Tools and Menus, Working with Sound-forge, Audio Recording, Audio programme recording and editing with the help of Sound-forge.	
Module III: Sound Editing	**35%**
Sound Editing: dialogue editing -cleaning up audio, noise reduction, etc, Creating First Session, Making First Recording, Importing Media in to Session, Basic Editing Techniques, Using Virtual Instruments, Recording on Sound forge, Basic Mixer Terminology, Basic Automation, Basic Mixing Techniques, Creating Stereo Mix Down, Multi-track Editing, Hands on Project	

Examination Scheme for Theory+Practical (T+P) Subject

E. Examination Scheme:

Components	**A**	**CT**	**S/V/Q/HA**	**EE**
Weightage (%)	5	15	10	70

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

F. **Suggested Text/Reference Books:**

Amity School of Communication
Course Handout
Course Name: Radio Production
Course Code: JMC 207 Credit: 2 Session: 2019-20 (Even Sem), Class: BAJMC 2nd Semester
Faculty Name: Dr Manish Dubey

A. **Introduction:** This course provides a hands-on exploration of the dynamic world of radio, covering essential skills such as scriptwriting, voice modulation, program development, and news reporting. Get ready to dive into the art and science of crafting compelling audio content for diverse audiences.

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 207.1. Develop proficiency in crafting engaging radio scripts, honing the skill of effective storytelling for the auditory medium

JMC 207.2. Enhance vocal techniques to convey emotions, information, and narratives with clarity and impact in radio broadcasting.

JMC 207.3. Cultivate the art of delivering timely and accurate news through radio, understanding the nuances of journalistic storytelling in the audio format...

JMC 207.4. Gain practical experience in operating radio equipment, executing live broadcasts, and navigating the technical aspects of radio production to prepare for real-world scenarios.

JMC 207.5. Cultivate hands-on experience through practical exercises, preparing for real-world challenges in radio production within the broader field of mass communication.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Basics of Media Research
Course Code : JMC301, Crédits : 02, Session: **) 2019-20** (Odd Sem.), Class : BAJMC. III rd Sem
Faculty Name : Sumit Narula

A. Introduction: The objective of this course is to introduce basic concepts of research and to establish the relationship between mass communication, journalism & research.

B. *Course Outcomes:* *At the end of the course, students will be able to:*

1. JMC 301.1: Students will be able to outline the fundamentals of research.
2. JMC 301.2: Students will describe the relationship between mass communication, journalism & research.
3. JMC 301.3: Students will explain the process, concepts, and techniques of research & infer the impact of research in mass communication.\
4. JMC 301.4: Student will be able to understand Qualitative and quantitative research techniques.
5. JMC 301.5: Student will be able to understand the process of writing a research report.

Program Educational Outcome

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

Dr. Sumit Narula
Director
Amity School of Communication

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Assessment Plan:

Course Contents/Syllabus:

	Weightage
Module I – Introduction to Media Research • Meaning, definitions and types of research • Media research: Concept and Scope • Challenges and Prospect of Media Research in India • Research designs: Exploratory, Descriptive and Experimental • Approaches to research: Qualitative, Quantitative and Mixed • Quantitative Research Methods for Media Studies: Census, Survey, Content Analysis. • Qualitative Research Methods for Media Studies: Case – study, Content Analysis, Focus Group Discussion, Observation, Interview • Research Tools: Questionnaire and Schedule, In – depth Interview and Focus Group Discussion as research tool	**35%**
Module II – Media Research Process and Sampling • Steps of Media Research Process: Study the situation, Identification of Problem, Developing of Objectives, Formation of Hypothesis, Reviewing of relevant literature, Deciding the Research Design, Collection of Data, Data Analysis, Finding the Results, Outcome of Research • Sampling: selecting a suitable sample using sampling methods • Basic terms of sampling: sample plan, sample design, sample unit, sample frame and sample size	**35%**

Dr. Sumit Narula
Director
Amity School of Communication

Module III – Media Research Report Writing and Ethical Issues • Types of Media Research reports: Research Articles / Paper, Project Report, Dissertation • Significance of Reference and Bibliography in Research • Ethical Issues in Research: Plagiarism and interviewers guidelines	**30%**

Pedagogy for Course Delivery:

- **Power-point presentation**
- **Relevant research papers as examples for explaining the concept**
- **Practical exercise for research methods and sampling**

Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name: Television Journalism
Course Code: JMC 302. Credits : 3, Session: 2019-20 (ODD), Class BAJMC 3rd Semester
Faculty Name : Ashish Sharma

Introduction: This course immerses students in applying Communication in television journalism. Covering camera operation, scriptwriting, voice modulation, presentation skills, and news reporting, it fosters experiential learning. Participants develop television broadcasting skills, applying theoretical frameworks to real-world scenarios.

Course Outcomes: At the end of the course, students will be able to:

- JMC-302.1- To enable students, understand the concepts of Television journalism system and functioning of News channels.
- JMC-302.2- To apprise students the history and growth of TV in India, also to make them aware of impact of TV in society
- JMC-302.3 To define and introduce the editorial concepts of the TV industry
- JMC-302.4- To make the students recognize the working culture of the industry
- JMC-302.5- To become well aware of the inside picture of the industry.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skillful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

	examination. The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

Course Content	Weightage %
Module I – Writing for TV (Pre-Production)	30%
TV genres – Fiction and nonfiction, Differences between writing for radio, TV, print and Web Terminology used in Television Writing: Reporting for TV; Reporting Beats Ethics and qualities of a TV reporter, TV Writing while visualizing, Challenges of writing and ways to overcome; Writing for various Genres: crime , business, national, international stories, sports, entertainment, lifefstyle; Writing for interview: concept, kinds, types, impact, outcome, questioning; Writing for a news story: concept, kinds, types, impact, outcome; Writing for a current affair report: facts and figures, background information, unbiased , data/statistics Snippets: fast news; Headlines: creation of headlines, selection of headlines for different segments an bulletins Writing for entertainment: style, knowledge of the entertainment industry, related shots, music Business: terminology, sensex, shares, update, follow ups, impact; Sports: coverage, live updates, knowledge of games, teams, players, scope, impact, achievements International: political, crime, disaster, business, entertainment	
Module II: Sound Camera & Lighting	25%
What is sound? Unit of sound, Voicing, Types of microphones, use of audio mixers for recording & editing of sound, Video camera, Types of video camera, Different types of shots, camera movements, Tilt, Track, Crane movements etc Lenses: Different types of lenses and their application, Lights and lighting, Basics of lighting, Techniques, Different types of lights used in videography, Use of filters & reflectors	
Module III: Shooting (Production)	25%

Dr. Sumit Narula
Director
Amity School of Communication

Presentation; How to decide on the final product; Accompaniments of the product. Follow ups; Development process of the product; Backgrounder; Where to leave a particular story, Challenges of shooting and ways to sort them: budget, weather, lack of coordination, technical difficulties, permissions, Planning and Shooting for various program formats: News:live or recorded, Entertainment; Interviews; Talk shows; Shooting for fiction	
Module IV: Editing (Post Production)	
oncept of Video Editing, What is editing? Types of editing: Linear (Old concept of video editing), U-matic, Beta & VHS, Cut to cut, A/B roll, Assembly and insert editing. Non Linear (Modern concept of video editing), Problems in editing and the solutions, Different styles of editing, Editing for fiction; Editing for non- fiction; Editing interviews, Travels shows, cookery shows, Reality shows	20%

Teaching Pedagogy:

Lectures and hands on experience; Watching TV shows, explaining through TV shows. Writing, shooting and editing, Giving the class a feel of the news room.

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : WRITING FOR ADVERTISING AND PUBLIC RELATIONS
Course Code: JMC 303, Credits: 03, Session: 2019-20 (Odd Sem.), Class: BA(J&MC). III SEM
Faculty Name: Dr. Dhruv Sabarwal

A. Introduction: To initiate the students into Advertising and Public Relations. Explore the dynamic interplay of creativity and strategy as we unravel the art of crafting compelling messages. From impactful headlines to strategic storytelling, this course equips you with the skills to shape perceptions, build brands, and thrive in the ever-evolving communication landscape.

B. Course Outcomes: At the end of the course, students will be able to:

JMC303.1. To acquainted with contents and basic of planning and organizing public relations programmes.

JMC303.2. To understand the dynamics of advertising business and industry as well as its contribution to the development of the immediate and global community.

JMC303.3. To identify the creative nuggets in advertising business and understand the psychology behind their application in advertising business. A well-written ad brief of product will be sufficient demonstration of this learning outcome.

JMC303.4. To demonstrate an understanding of the roles of media planning in effective ad campaign.

JMC303.5. To explore experiential and immersive writing approaches to engage audiences in the evolving landscape of advertising and public relations.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

D. Programme Specific Outcomes:

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

E. Assessment Plan:

Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective

Dr. Sumit Narula
Director
Amity School of Communication

waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

Dr. Sumit Narula
Director
Amity School of Communication

B. Syllabus

Module I: Media Ethics

Ethical Framework, Ethics in Journalism, Press as The Fourth Estate, Code of Conduct for Journalists, Press Council Guidelines, Confidentiality of Sources. Editorial Content & Integrity, Trends in Commercialization: Paid News, Advertorials, Private Treaties, Case Studies (National and International)

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Film Theories and Practices
Course Code : JMC 305, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : BA (J&MC) 3rd Semester
Faculty Name : Siddharth Sharma

A. Introduction: The objective of this course is to familiarize the the landscape of film theories.

B. Course Outcomes: At the end of the course, students will be able to:
JMC305.1. In this course students will understand the language of film making
JMC305.2. They will come to know about different stages of filmmaking
JMC305.3. The course is designed to enable the student to understand the scriptwriting and storyboarding techniques.
JMC305.4. They will be introduced to the concepts of lighting and editing for films.
- **JMC305.5.** To establish distinction between technique and content

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Digital Skills for Media III
Course Code : JMC 307 Crédits : 2 Session : 2019-20, Class : BAJMC 3rd Semester
Faculty Name :Sanjay Singh Sikarwar

A. Introduction: Video editing ensures continuity between shots, creates pacing through cuts and creates meaning by juxtaposing images. Video Editors will use digital editing applications such as Premiere Pro and Final Cut Pro to add and remove elements of a video file, add sound, speed up or slow down footage, and add digital effects. Acquiring graphic design and video editing skills can significantly boost student professional growth. These skills are highly sought after by various industries, including marketing, advertising, media, and entertainment

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 307.1. understand the concepts of Video editing & graphic design..
JMC 307.2. Analyze various Video editing techniques.
JMC 307.3. Identify, implement and evolve conceptual understanding of the graphics design.
JMC 307.4. Evaluate the different technologies such as linear editing & non linear editing.
JMC 307.5. Enable students to understand format of graphics & structure..

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher

Dr. Sumit Narula
Director
Amity School of Communication

studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : ADVERTISEMENT PRODUCTION
Course Code: JMC 308, Credits: 03, Session: 2019-20 (Odd Sem.), Class: BA(J&MC). III SEM
Faculty Name: Gaurav Chhabra

A. Introduction: To initiate the students into Advertisement Production unveils the art and precision of transforming creative concepts into impactful visuals. Explore the intricate process from ideation to execution across print, digital, and audio-visual mediums. Dive into the technical nuances, consumer psychology, and real-world applications, equipping you to craft compelling advertisements that resonate and captivate audiences.

B. Course Outcomes: At the end of the course, students will be able to:

JMC308.1. The student will acquire comprehensive knowledge of advertisement production techniques, encompassing visual storytelling, cinematography, graphic design, and digital production skills.

JMC308.2. The student will demonstrate the ability to translate creative concepts into visually compelling advertisements, integrating copy, visuals, and design for maximum impact across diverse mediums.

JMC308.3. The student will gain hands-on experience and technical proficiency in the use of industry-standard production tools, software, and equipment for executing high-quality advertisements.

JMC308.4. The student will develop the agility to adapt production strategies to emerging trends in the media landscape, including the digital realm, ensuring relevance and effectiveness in contemporary advertising.

JMC308.5. The student will apply insights into consumer psychology and behaviour to create advertisements that resonate with target audiences, considering cultural sensitivities and societal trends for strategic and impactful audience engagement.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

Dr. Sumit Narula

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

D. Programme Specific Outcomes:

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

E. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Internal Assignment	CT	15%
	Internal Assignment		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End	A	5%

Dr. Sumit Narula
Director
Amity School of Communication

	Semester examination. The allowance of 25% includes all types of leaves including medical leaves.		
End Semester Examination	Viva-Voce	Viva	70%
Total			100%

F. Syllabus:

Modules	Weightage (%)
Module I: Fundamentals of Advertisement Production	**35%**
Introduction to Advertisement Production • Explore the role of advertisement production in the marketing ecosystem. • Understand the key elements of a successful advertisement and the impact of production on message delivery. **Creative Ideation and Storyboarding** • Master the art of brainstorming and ideation for advertisements. • Learn to translate creative concepts into effective storyboards, outlining visual and narrative components. **Pre-production Planning** • Dive into the meticulous planning phase, covering budgeting, script development, casting, location scouting, and assembling production teams. • Understand the importance of effective pre-production in ensuring a smooth production process.	
Module II: Technical Aspects of Advertisement Production	**30%**
Cinematography and Visual Composition • Explore the principles of cinematography for video advertisements. • Learn techniques for visual storytelling, framing, lighting, and camera movements to enhance visual impact. **Graphic Design for Print and Digital** • Delve into graphic design principles for print and digital advertisements. • Understand the use of typography, color theory, and layout design to create visually compelling print materials and online assets. **Digital Advertisement Production** • Navigate the digital landscape, covering the production of online ads, social media	

Dr. Sumit Narula
Director
Amity School of Communication

content, and interactive ad formats. • Explore the integration of multimedia elements and user engagement strategies in digital advertisement production.	
Module III: Post-production and Audience Engagement	**35%**
Editing and Post-production • Learn post-production techniques, including video editing, sound design, and visual effects. • Understand the role of post-production in refining and enhancing the final advertisement. **Audience Analysis and Engagement** • Explore consumer psychology and behavior to tailor advertisements to target demographics. • Learn strategies for maximizing audience engagement, considering cultural nuances and current trends. **Real-world Application and Case Studies** • Apply learned concepts in practical scenarios, working on real-world advertisement production projects. • Analyze and dissect successful advertisement campaigns through case studies, gaining insights into effective production strategies.	

Pedagogy for Course Delivery:

This practical project will be conducted in groups under the guidance of the faculty responsible for the guidance of this project.

G. Assessment/ Examination Scheme:

Theory L/T (%)	Lab/Practical/Studio (%)	End Term Examination
00%	100%	00%

Theory Assessment (L&T):

Sample Question Paper

Amity School of Communication

Department of Journalism and Mass Communication

III MID-SEMESTER (SEM –III) 2019-20

Class: BA(J&MC) III Semester

Subject Name: JMC308 ADVERTISEMENT PRODUCTION	Time: 2 Hrs	Max. Marks: 30

Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,2	Q.3,	Q.4	Q.4	Q.5	Q.6

Student will be able to

CO1: The student will acquire comprehensive knowledge of advertisement production techniques, encompassing visual storytelling, cinematography, graphic design, and digital production skills.

CO2. The student will demonstrate the ability to translate creative concepts into visually compelling advertisements, integrating copy, visuals, and design for maximum impact across diverse mediums.

CO3. The student will gain hands-on experience and technical proficiency in the use of industry-standard production tools, software, and equipment for executing high-quality advertisements.

CO4. The student will develop the agility to adapt production strategies to emerging trends in the media landscape, including the digital realm, ensuring relevance and effectiveness in contemporary advertising.

CO5. The student will apply insights into consumer psychology and behaviour to create advertisements that resonate with target audiences, considering cultural sensitivities and societal trends for strategic and impactful audience engagement.

CO Map	Question No.	Question	Marks
CO1	Q.1	What are the key elements of an effective storyboard, and how does it guide the production process?	3
CO2	Q.2a	How does pre-production planning, including budgeting and team assembly, influence the overall success of an advertisement campaign?	3
	Q.2b	Can you explain the importance of graphic design principles in creating visually compelling print and digital advertisements?	3

Dr. Sumit Narula
Director
Amity School of Communication

CO3	Q.3	How does digital advertisement production differ from traditional methods, and what are the essential considerations for creating effective online ads?	6
CO4	Q.4	Can you provide an analysis of a successful advertisement campaign, discussing the key production strategies that contributed to its effectiveness?	3
CO5	Q.5a	In the context of advertisement production, how can user engagement strategies be effectively integrated into digital campaigns?	3
	Q.5b	What role does post-production play in refining and enhancing the final version of an advertisement?	3
CO5	Q 6	How can an understanding of consumer psychology contribute to tailoring advertisements to specific target demographics?	6

Attainments		Rubric
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ADVERTISEMENT PRODUCTION /JMC 308 is level 2 for the academic year 2019-20.

Dr. Sumit Narula
Director
Amity School of Communication

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Applied Research in Media Studies
Course Code : JMC 401, Crédits: 3 Session : 2019-20 Class : BA J&MC IV
Faculty Name : Dr. Sumit Narula

A. Introduction: : This course will help students to learn application level of media research.

B. Course Outcomes: At the end of the course, students will be able to:

- To introduce students to the application of research in mass communication
- To explore the various forms of research in different media
- To introduce students to the variety of tools used in different forms of media research
- To introduce them to the concept of research paper/articles and their execution
- To understand the scientific methods and analysis in research.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Dr. Sumit Narula
Director
Amity School of Communication

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple

Dr. Sumit Narula
Director
Amity School of Communication

cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course : News Room Practices & Anchoring Skills
Course Code : JMC 402 Crédits :03 Session : 2019-20 (Odd Sem.) , Class : BAJMC IV Sem
Faculty Name : Sanjay Singh Sikarwar

A. **Introduction:** Television journalism plays a fundamental role in keeping the public informed about local, national, and international events. Through news broadcasts, documentaries, and investigative reports, it brings significant issues, critical stories, and human experiences to the attention of millions of viewers.

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 402 .1. Understand the concepts of TV & News room Practices
JMC 402.2. Analyze various format of TV Shows
JMC 402.3. Identify, implement and evolve conceptual understanding of the subject.
JMC 402.4. Evaluate the different ideologies in the field of TV & News industries
JMC 402.5. Enable students to understand various formats of programme.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Dr. Sumit Narula
Director
Amity School of Communication

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course: MEDIA PLANNING & EVENT MANAGEMENT
Course Code: JMC 403, Credits: 02, Session: 2019-20 (Even Sem), Class: BA(J&MC). IV SEM
Faculty Name: Gaurav Chhabra

A. Introduction: This course provides a thorough understanding of media planning, covering its definition, objectives, and contemporary relevance. Students explore strategies, including internet dynamics. The curriculum extends to event management, encompassing types, interrelationships, and planning skills. It ensures students are adept in media planning processes, event dynamics, and evaluation methodologies for a well-rounded professional readiness.

B. Course Outcomes: At the end of the course, students will be able to:

JMC403.1. Understanding that EM companies function as independent organizations.

JMC403.2. Develop the understanding of the events as prevalent tools of marketing.

JMC403.3. Analyzing the role of events in building/developing corporate image.

JMC403.4. Provide an insight into the important aspects of crisis/risk management in events.

JMC403.5. Creating a combination of PR, advertising and promotions that help a corporate organization.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication-related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

D. Programme Specific Outcomes:

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

MID-SEMESTER (SEM –IV) 2019-20

Class: BA(J&MC) IV Semester

Subject Name: JMC403 MEDIA PLANNING AND EVENT MANAGEMENT	Time: 2 Hrs	Max. Marks: 30

Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,	Q.3	Q.5	Q.1	Q.6

Student will be able to

CO1. Understanding that EM companies function as independent organizations.

CO2. Develop the understanding of the events as prevalent tools of marketing.

CO3. Analyzing the role of events in building/developing corporate image.

CO4. Provide an insight into the important aspects of crisis/risk management in events.

CO5. Creating a combination of PR, advertising and promotions that help a corporate organization.

CO Map	Question No.	Question	Marks
CO1	Q.1	What is the significance of media planning in the current scenario, and how does it contribute to developing effective media strategies?	3
CO2	Q.2a	In media planning, how is the matching of media with market achieved, considering geographical selectivity, reach, and frequency?	3
	Q.2b	Explain the media planning process, covering media briefing, scheduling, and the development of media plans and strategies. How is media budgeting approached using traditional and modern methods?	3
CO4	Q.3	What functions does media buying serve in the media planning process, and what are the new trends in media buying?	6
CO3	Q.4	Explore the 5 C's of an event and the departments within an event management company. Discuss the design, logistics, and production aspects of organizing an event.	3

Dr. Sumit Narula
Director
Amity School of Communication

CO5	Q.5a	Why is event research important, and what does the event proposal and pitching process entail?	3
	Q.5b	How do you establish tangible objectives and sensitivity in event evaluation? Explain the evaluation perspectives from the client, organizer, and target audience.	3
CO3	Q.6	Discuss the functions of media buying within the media planning process. How have new trends influenced the way media buying is approached?	6

Attainments		Rubric

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Introduction to New Media
Course Code : JMC 404, Crédits : 03, Session : 2019-20 (Even Sem.), Class : BA (J&MC) 2nd Semester
Faculty Name : Dr Pranav Mishra

A. Introduction: The course will help students to learn the new edge media.

B. Course Outcomes: At the end of the course, students will be able to:
JMC404.1. In this course students will understand the emergence of the new 'reader'.
JMC404.2. They will come to know about convergence of media and technology.
JMC404.3. The course is designed to enable the student to understand the changing role of media professionals.
JMC404.4. They will be introduced to the concepts of web journalism.
JMC404.5. Understand the New Media production process

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

Course Handout
Course Name : Fake News and Media Literacy
Course Code : JMC 405, Crédits : 3, Session : 2019-20 (EVEN), Class BAJMC 4th Sem
Faculty Name : Siddharth Sharma

Introduction: "Fake news" has captured the attention of politicians, the media, and the general public since 2016. But the concept is hardly new; it has existed in some form for centuries. In this course, we will explore the history of fake news in different media, culminating in an examination of the modern phenomenon of fake news. We will learn information literacy techniques for evaluating news sources and will study a specific contemporary manifestation of "fake news" in depth.

Course Outcomes: At the end of the course, students will be able to:

- BJM-405.1- The introduce students to define fake news and discuss its history
- BJM-405.2- Describe the modern phenomenon of fake news and discuss its significance
- BJM-405.3- Identify sources of false or misleading information on a variety of media platforms
- BJM-405.4- Evaluate news and other information outlets for bias
- BJM-405.5- Describe how news items are created and disseminated across different types of media and social networks

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. [PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%

Sample Question Paper

Amity School of Communication IV MID-SEMESTER (SEM –IV) 2019-20						
Class: BAJMC.IV Semester						
Subject Name: JMC-405: Fake News and Media Literacy		Time: 1.5 Hrs.			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Dr. Sumit Narula
Director
Amity School of Communication

Student will be able to CO1: List the broad perceptive of News gathering and beats .CO2: Basic principles and rules of proof reading			
CO Map	Question No.	Question	Marks
CO1	Q.1	What defines "fake news" and how does it differ from misinformation and disinformation?	3
CO1	Q.2a	How does the spread of fake news and disinformation impact public discourse and democratic processes?	3
	Q.2b	What are some common techniques used to create and disseminate fake news and disinformation?	3
CO1	Q.3	How do social media platforms contribute to the spread of fake news and disinformation, and what measures are being taken to address this issue?	6
CO2	Q.4	What role do confirmation bias and echo chambers play in the consumption and propagation of fake news and disinformation?	3
CO2	Q.5a	how can individuals critically evaluate information sources to distinguish between legitimate news and fake news?	3
	Q.5b	What are the potential consequences of believing and sharing fake news and disinformation?	3
CO2	Q 6	How do governments and organizations combat fake news and disinformation without infringing on freedom of speech?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course : ***Fake News and Media Literacy*** /Course code ***JMC-405*** is level 2 for the academic year 2019-20.

Dr. Sumit Narula
Director
Amity School of Communication

AMITY UNIVERSITY

Amity School of Communication
Course Handout
Course : Digital Skills for Media IV
Course Code : JMC 406 Crédits :02 Session : 2019-20 (Odd Sem.) , Class : BAJMC IV Sem
Faculty Name : Sanjay Singh Sikarwar

A. **Introduction:** Television journalism plays a fundamental role in keeping the public informed about local, national, and international events. Through news broadcasts, documentaries, and investigative reports, it brings significant issues, critical stories, and human experiences to the attention of millions of viewers.

B. **Course Outcomes:** At the end of the course, students will be able to:

BAJMC 406 .1. Understand the concepts of Graphics & design.
BAJMC 406.2. Various digital media formats
BAJMC 406.3. Multimedia & its interactive style of working
BAJMC 406.4. Evaluate the different ideologies in the field of graphics & editing
BAJMC 406.5. prepare a project based on graphics & design.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

C. **Assessment Plan:**

AMITY SCHOOL OF COMMUNICATION I MID-SEMESTER (SEM –IV) 2019-20						
Class: BA(J&MC) IV Semester						
Subject Name: BAJMC-406 Digital Skills for Media-IV		Time: 1.5 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Dr. Sumit Narula
Director
Amity School of Communication

Student will be able to CO1: List the Different designing software and concept.CO2: Apply different application as per need.			
CO Map	Question No.	Question	Marks
CO1	Q.1	What are the latest software and application in studying audiences through digital media?	3
CO1	Q.2a	What are the various platforms of graphics?	3
	Q.2b	What is 'editing'? What are the main aspects of editing? Discuss briefly the role Non linear editing?	3
CO1	Q.3	What is vector graphics? Is it losing importance now-a-days?	6
CO2	Q.4	Explain the significance of pixel & resolution?	3
CO2	Q.5a	What do you understand by visual aspect of design in media? Hoe do the visuals help in communication process	3
	Q.5b	Briefly discuss the history and development of graphics.	3
CO2	Q 6	Analyse the concept of Visual Literacy. How does it help the understanding and appreciation of a visuals?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course Digital skills for media IV /Course code ***JMC 406*** is level **3** for the academic year 2019-20.

Dr. Sumit Narula

Amity School of Communication
Course Handout
Course Name : Television Production
Course Code : JMC 407 Credit : 2 Session : 2019-20 (Odd Sem.), Class : BAJMC. 4th Sem
Faculty Name : Sandeep Kumar

A. **Introduction:** This course is meant to Equip students with comprehensive skills in television production, covering technical proficiency, creative storytelling, effective pre-production planning, collaborative teamwork, and critical analysis of production choices to prepare them for diverse roles in the industry.

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 407.1. Demonstrate proficiency in operating television production equipment and technology.

JMC 407.2. Apply principles of visual storytelling to create compelling narratives for television.

JMC 407.3. Execute effective pre-production planning, including scriptwriting, budgeting, and scheduling for television projects..

JMC 407.4. Collaborate with a production team to successfully execute live television broadcasts and recorded programs.

JMC 407.5. Evaluate and analyze the impact of television production choices on audience engagement and viewer experience.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : Advanced Cyber Media
Course Code : **BAJMC 501**, Credits : 2, Session : 2019-20(ODD), Class BAJMC 5th Semester
Faculty Name : Aditya Kumar Shukla

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC 501**.1- Develop an understanding of the evolving nature of media consumption patterns in the networked world.
- **BAJMC 501**.2- Explore the emergence of the new 'reader' and their role in shaping media content and distribution.
- **BAJMC 501**.3- Analyze the convergence of media and technology and its impact on content creation, distribution, and audience engagement.
- **BAJMC 501**.4- Gain insight into the changing role of media professionals in the context of new media environments.
- **BAJMC 501**.5- Understand the principles and practices of web journalism, including storytelling techniques, multimedia content creation, and audience interaction.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

Course Handout
Course Name : Advanced Film Theory & Practice
Course Code : **BAJMC 502**, Credits : 3, Session : 2019-20 (ODD), Class BAJMC 5th Semester
Faculty Name : Sandesh Mahajan

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **JMC 502**.1- Gain an in-depth understanding of the intricate nuances of cinema, including its history, genres, and techniques.
- **JMC 502**.2- Develop a critical appreciation for the specific elements and finer aspects of film, such as cinematography, editing, sound design, and narrative structure.
- **JMC 502**.3- Explore the works of renowned filmmakers across different periods and cultures, analyzing their distinctive styles, themes, and contributions to cinema.
- **JMC 502**.4- Examine the impact of influential filmmakers and their outstanding works on the evolution of filmmaking practices and cinematic storytelling.
- **JMC 502**.5- Analyze and interpret films using advanced theoretical frameworks and critical perspectives, incorporating concepts from film theory, semiotics, and cultural studies

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : Anchoring Skills for Television
Course Code : **BAJMC 504**, Credits : 3, Session : 2019-20 (ODD), Class BAJMC 5th Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- **BAJMC-504**.1- Develop the ability to deliver information in a professional and articulate manner suitable for television broadcasting.
- **BAJMC-504**.2- Acquire the skills to handle live broadcasting situations with confidence and poise, including ad-libbing and responding to unexpected challenges.
- **BAJMC-504**.3- Understand the challenges faced by media professionals in the field of television anchoring and develop strategies to overcome them.
- **BAJMC-504**.4- Enhance vocal delivery and non-verbal communication techniques to engage and captivate television audiences.
- **BAJMC-504**.5- Practice effective time management and organization skills to meet deadlines and deliver polished performances on air.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Specialized Writing & Editing**
Course Code : BAJMC 505, Crédits : 3, Session : 2019-20 (ODD), Class BAJMC 5th Sem
Faculty Name : Aditya Kumar Shukla

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-505.1- Students will gain a profound grasp of key concepts to Write various types of features for magazines
- BAJMC-505.2- The course will empower students to Produce stories for specialized genres such as travel, lifestyle, disaster reporting.
- BAJMC-505.3- They will develop editing and Page Layout planning skills.
- BAJMC-505.4- This includes a detailed exploration Demonstration of investigative reporting and writing skills
- BAJMC-505.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Course Handout
Course Name : **Digital Animation & Sound**
Course Code : BAJMC 506, Crédits : 2, Session : 2019-20 (ODD), Class BAJMC 5th Sem
Faculty Name : Sanjay Sikarwar

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-506.1- Understand the principles of digital animation, including key concepts such as timing, spacing, and squash and stretch.
- BAJMC-506.2- Demonstrate the ability to create visually compelling animated sequences using a variety of techniques, such as 2D or 3D animation.
- BAJMC-506.3- Gain an understanding of storytelling techniques and how they apply to animation, including character development and narrative structure.
- BAJMC-506.4- Develop critical thinking skills by analyzing and critiquing animated works, identifying strengths and areas for improvement.
- BAJMC-506.5- Explore the relationship between sound and animation, learning how to synchronize audio with visual elements effectively.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

B. Syllabus:

	Weighta
Module I	**25%**
Introduction to computers, various generations of computers, computer hardware/software Introduction to graphics, designing the graphics. Graphics-its role in instructional and educational programmes, Communication principles.	
Module II	**50%**
Computer graphics concepts, Bitmap graphics, resolution, color, file formats, composition Animation: Meaning & importance, Animation techniques, Paper animation, Cell animation, computer animation and its application.	
Module III	**25%**
An introduction to the process of 2D and 3D computer animation, using various software, image processing and special effects; 2D and 3D computer animation: its composition, model building, colour, lighting, camera, editing, production effects like fire, explosion etc. and rendering	

Teaching Pedagogy:

The class will be taught by giving references of daily life. Traits will be given to them in the class so that the students can gather information from various sources and keep themselves updated with the latest happenings. The students will get a deep insight for mass communication theroies. Their inquisitiveness and debatable instincts as journalists and mass communicator will increase. Various examples of the news analysis and communication process will be acquainted to the students so that it will help them understand the intricacies of the media industry in general

Amity School of Communication
Course Handout
Course Name : **Media Planning**
Course Code : BAJMC 507, Crédits : 3, Session : 2019-20 (ODD), Class BAJMC 5th Sem
Faculty Name : Dr Dhruv Sabharwal

Introduction: The course aims at teaching process by which media selects positions by companies or their agencies is a complex one involving substantial marketing and advertising research. While the process includes numerous steps, it operates in two stages: media planning and media buying.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-507.1- Understand the fundamental concepts and theories of media planning, including audience analysis, media selection, and campaign strategy.
- BAJMC-507.2- Develop proficiency in utilizing media research tools and data analysis techniques to inform media planning decisions.
- BAJMC-507.3- Gain insight into the role of media in integrated marketing communication strategies and how media planning aligns with broader marketing objectives.
- BAJMC-507.4- Explore the ethical considerations and legal regulations relevant to media planning, such as advertising standards and consumer privacy laws.
- BAJMC-507.5- Analyze case studies and real-world examples to understand best practices and industry trends in media planning across various sectors and markets.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Amity School of Communication
Course Handout
Course Name : **Media Laws & Ethics**
Course Code : BAJMC 601, Crédits : 3 , Session : 2019-20 (EVEN), Class BAJMC 6th Sem
Faculty Name : Satnam Singh

Introduction: The course aims at encompassing the legal regulations and moral standards governing journalistic practices and media content. With increasing scrutiny and evolving digital landscapes, navigating the complexities of free speech, privacy rights, and responsible reporting is paramount. Understanding these principles is essential for media professionals to uphold integrity, transparency, and accountability in their work.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-601.1- Understand the historical development and evolution of media laws and ethical standards.
- BAJMC-601.2- Analyze and interpret legal frameworks governing freedom of speech, press freedom, and access to information.
- BAJMC-601.3- Identify key legal concepts and principles relevant to media practitioners, such as defamation, privacy, copyright, and intellectual property.
- BAJMC-601.4- Examine case studies and real-world scenarios to apply legal and ethical principles to contemporary media issues.
- BAJMC-601.5- Discuss the role of media watchdogs, regulatory bodies, and professional organizations in upholding ethical standards and accountability.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : **Multimedia & Convergence**
Course Code : BAJMC 602 Crédits : 3 , Session : 2019-20 (EVEN), Class BAJMC 6th Sem
Faculty Name : Mehraj Haq

Introduction: This course focuses on the design and evaluation of multimedia learning and teaching environments in higher education settings as well as corporate training contexts. Students are introduced to principles of multimedia design based on cognitive theories and constructivist approaches to learning. Near completion, students are exposed to further case studies and develop their own concept for a multimedia project. This course will focus on the design of educational multimedia for libraries and media centers, to facilitate an understanding of how to create and design user-centered, instructional multimedia, to provide hands-on experience in multimedia production, including digitization of images, sounds, animation and video, and hypertext authoring.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-602.1- Students will be able to describe and apply Multimedia software in various ways.
- BAJMC-602.2- They also will be able to interpret and operate on the various principles of multimedia design.
- BAJMC-602.3- Demonstrate proficiency in creating multimedia content using a variety of tools and technologies..
- BAJMC-602.4- Explore the cultural, social, and economic implications of multimedia convergence on society..
- BAJMC-602.5- Collaborate effectively in interdisciplinary teams to create multimedia projects that integrate various media formats..

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course Name : **Fiction Production**
Course Code : BAJMC 603 Crédits : 3 , Session : 2019-20 (EVEN), Class BAJMC 6th Sem
Faculty Name : Siddharth Sharma

Introduction: This course focuses on the design and evaluation of Fiction production which encompasses the creative process of crafting imaginative narratives across various mediums, including literature, film, television, and digital platforms. From conceptualization to publication, it involves storytelling techniques, character development, world-building, and narrative structure, aiming to captivate audiences with compelling and immersive fictional experiences

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-603 .1- Analyze various storytelling techniques and narrative structures employed in fiction production..
- BAJMC-603 .2- Apply principles of world-building to construct immersive fictional settings that enhance narrative depth..
- BAJMC-603 .3- Demonstrate proficiency in creating multimedia content using a variety of tools and technologies
- BAJMC-603 .4- Develop strategies for navigating the publishing and production process in the fiction industry.
- BAJMC-603 .5- Explore ethical considerations and responsibilities inherent in the creation and dissemination of fictional content.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

Course Handout
Course Name : **Radio Programming**
Course Code : BAJMC 605, Crédits : 3, Session : 2019-20 (EVEN), Class BAJMC 6th Semestre
Faculty Name : Manish Dubey

Introduction: The course objective is to make the students understand radio journalism in India. This will give an insight into changing trends in radio programming. It will help the students to learn the techniques used to conceptualize a program how to write script of different program genres finally make them aware of the production process used in Radio for programming.

Course Outcomes: At the end of the course, students will be able to:

- BAJMC-605.1- The course designed to will recognize the importance of professional responsibilities needed.
- BAJMC-605.2- The course will empower students to identify the technicalities as well as the terminologies used for Radio Programmes.
- BAJMC-605.3- They will will be able to learn how to express concepts with the help of words that create impact.
- BAJMC-605.4- This includes a detailed exploration to make the students well versed with the entire production process.
- BAJMC-605.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course: Theories of Communication
Course Code : JMC 111, Crédits : 03, Session: 2019-20 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name: Siddharth Sharma

A. Introduction: The objective of this course is to familiarize the students with the understanding of communication process and different theories of mass communication.

B. Course Outcomes: At the end of the course, students will be able to:

- **JMC111.1**. Understand the communication process.
- **JMC111**.2: Understand different school of thoughts for communication
- **JMC111.3**. Learn about the different models of communication.
- **JMC111.4**. Learn about the different theories of communication
- **JMC111.5:** Learn about the importance of communication in today's context

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

Dr. Sumit Narula
Director
Amity School of Communication

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

Dr. Sumit Narula
Director
Amity School of Communication

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Course Handout
Course Name : Basics of Print Journalism
Course Code : JMC 112. Crédits : 3, Session : 2019-20 (ODD), Class MAJMC 1st Semester
Faculty Name : Ashish Sharma

A. **Introduction:** In the Basics of Print Journalism course, the objective is to familiarise future media analysts and current affairs professionals with crucial skills in critical analysis, statistical methods, and data interpretation. The aim is to establish a robust understanding of intermediate to advanced analytical concepts, enabling students to adeptly navigate the intricacies of media analysis and stay well-informed about current affairs within their respective fields.

B. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-112.1- Basics of Print Journalism course will develop advanced critical analysis skills, allowing them to evaluate news articles, reports, and journalistic content
- JMC-112.2- Participants will acquire a solid foundation in statistical methods relevant to journalism, enabling them to interpret and present data effectively in their reporting.
- JMC-112.3- This skill set will empower them to engage critically with diverse media sources and contribute to a more comprehensive understanding of current affairs.
- JMC-112.4- The course will equip students with the capability to interpret complex data sets commonly encountered in journalism
- JMC-112.5- The course aims to ensure that participants are proficient in staying abreast of current affairs within their specific disciplines.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus:

Course Contents/Syllabus:

Modules	**Weightage (%)**
Module I: Media History	

Dr. Sumit Narula
Director
Amity School of Communication

Early Efforts of News Papering in India With Special Reference to Hickey, Buckingham And Raja Ram Mohan Roy, The Indian Press and Freedom Movement - Gandhi, Tilak,	**20 %**
Module II: Anatomy of News	**20 %**
News: Meaning, Definition, Nature, News Value (Galtung And Ruge), Basic Elements of News, Hard News Vs Soft News, Organizing the News Structure: 5 Ws & I H, Inverted Pyramid Writing A Lead, Beat Reporting, Deciding the News Angle (Understanding the Audience) Use of Archives, Sources of News, Use of Internet	
Module III: News Gathering	**30 %**
Reporting: Various Types of Reporting (Objective, Interpretative, Investigative,) General Assignment Reporting/Working on A Beat: Political: (Special Problems Related to Political Beats), Crime, Health, Sports, Education, Science, Etc. Reporting for News Agency, Periodicals and Magazines.	
Module IV: Editing & Layout Planning	
Editing Symbols, Editing Desk, (Editor, News Editor, Chief Sub-Editor, Sub- Editor, Proof Reading, Typography, Headline, Photo Selection and Editing - Page Planning and Layout - Importance of Editorial Policies.	**30 %**

Pedagogy for Course Delivery:

The course will be delivered through a combination of lectures, discussions and practical exercises.

Amity School of Communication
Course Handout
Course Name : Media Designing
Course Code : JMC 113, Credits: 3 Session : 2019-20 Class : MA J&MC I
Faculty Name : Sanjay Sikarwar

A. Introduction: "Media Designing" introduces students to the creative world of visual communication, covering essential design principles and tools. This course equips participants with the skills to craft compelling and visually impactful media content across various platforms.

B. Course Outcomes: At the end of the course, students will be able to:

JMC 113.1 Enable students to understand the basics of the computer based graphic design, which mainly using in adverting.

JMC 113.2 Help students to practice meaning and artistic qualities of graphic design, how to work with computers, different design software's like Adobe Illustrator, InDesign, Quark Xpress etc.

JMC 113.3 Enable students to strengthen them in using various software's like Adobe Illustrator, InDesign, Quark Xpress etc.

JMC 113.4 Develop a deep understanding of fundamental design principles, including layout, color theory, and typography.

JMC 113.5 Apply design concepts to various media platforms, including digital, print, and social media, ensuring versatility.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : ADVERTISING PRINCIPLES AND PRACTICES
Course Code: JMC 114, Credits: 03, Session: 2019-20 (Odd Sem.), Class: MA(J&MC). 1st Year
Faculty Name : Mr. Gaurav Chhabra

A. Introduction: The course provides a comprehensive overview of advertising from a media perspective. It talks about the evolution of advertising creating an understanding of traditional advertising and promotional tools.

B. Course Outcomes: At the end of the course, students will be able to:

JMC114.1. The course introduces the students to concepts of advertising.

JMC114.2. The course will provide them with the knowledge of Indian advertising scenario.

JMC114.3. The course is designed to make students understand the relationship between advertising and marketing.

JMC114.4. The course shall familiarize the students with the social and ethical issues concerning advertising in society.

JMC114.5. The course is designed to encourage critical thinking regarding advertising practices by analyzing the legal dimensions.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

D. Programme Specific Outcomes:

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

E. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%

Amity School of Communication
Course Handout
Course Name: Aesthetics of Photography
Course Code : JMC 115. Crédits : 3, Session: 2019-20(ODD), Class MAJMC 1st Semester
Faculty Name : Siddharth Sharma

Introduction: The Aesthetics of Photography explores the visual language and artistic principles behind compelling images. This subject delves into composition, lighting, and the emotional impact of photographs. Students will unravel the artistry within the frame, cultivating a deeper appreciation for the intersection of creativity and technical skill in the realm of photography.

A. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-115.1- Students will gain proficiency in both the artistic and commercial aspects of photography, developing a nuanced understanding of how visual elements contribute to impactful images.
- JMC-115.2- Through hands-on exploration, students will refine their skills in creating and editing photographic works.
- JMC-115.3- This process will elevate their visual literacy, fostering a deeper connection to the medium of photography.
- JMC-115.4- The course covers the creation of both fictional and non-fictional images, artificial lighting techniques, digital editing processes, and the principles of photojournalism.
- JMC-115.5- This component aims to cultivate a constructive and analytical approach, fostering growth and improvement in their photographic work through feedback.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Sample Question Paper

Amity School of Communication I MID-SEMESTER (SEM –I) 2019-20						
Class: MAJMC.I Semester						
Subject Name: JMC-105 Aesthetics of Photography		Time: 1.5 Hrs			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of cloud architecture and model.
CO2: Apply different cloud programming models as per need.

CO Map	Question No.	Question	Marks
CO1	Q.1	How does the interplay of composition, lighting, and subject contribute to the aesthetic appeal of a photograph, and how can photographers leverage these elements for creative expression?	3
CO1	Q.2a	In the realm of photography, how does the balance between artistry and commercial considerations influence the creation of compelling images, and what challenges may arise in finding this equilibrium?	3
	Q.2b	Explore the significance of digital editing in shaping the aesthetic qualities of a photograph. How can post-processing enhance or alter the visual narrative, and what ethical considerations should photographers keep in mind during this process?	3
CO1	Q.3	Discuss the role of storytelling in both fictional and non-fictional photographic works. How can photographers effectively convey narratives through their images, and what visual techniques contribute to storytelling in photography?	6
CO2	Q.4	Examine the impact of artificial lighting on the mood and atmosphere of a photograph. How can photographers skillfully use lighting techniques to evoke specific	3

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : INTRODUCTION TO RADIO
Course Code : JMC 116, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Dr Pranav Mishra

A. Introduction: The objective of this course is to familiarize the students Students with the structure and history of the radio industry of India, as well as recognize the impact of AIR on nation.

B. Course Outcomes: At the end of the course, students will be able to:
JMC116.1. The course introduces the students to concepts of Radio as a Medium.
JMC116.2. The course will provide them with the knowledge of Expansion of Radio.
JMC116.3. The course is designed to make students to understand the Broadcasting Policy.
JMC116.4 Understand the mechanics, principles, and life cycle of the Radio process.
JMC116.5. Understand the world of Radio

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : MASS MEDIA INDUSTRY
Course Code : JMC 117, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Dr Adhrit Chandra Pati Tripathi

A. **Introduction:** The objective of this course is to familiarize the students with the knowledge of mass media as a corporate enterprise is essential for a complete understanding of mass communication. Today's media is increasingly market driven, and the students will learn about the various branches in the mass media industry and various aspects of the industry such as ownership patterns, legal issues and laws, and organizational structure.

B. **Course Outcomes:** At the end of the course, students will be able to:
JMC117.1. The course introduces the students to concepts of Media and Entertainment.
JMC117.2. The course will provide them with the knowledge of Contemporary Practices in media industry.
JMC117.3. The course is designed to make students to understand the Culture of Media.
JMC117.4 Understand the mechanics, principles, and life cycle of the Mass Media Industry.
JMC117.5. Understand the world of Mass Media Industry with respect to global & regional scenario.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Course Name : Political Communication
Course Code : JMC 118, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA(J&MC). 1st Year
Faculty Name : Dr. Ashish Sharma

A. **Introduction:** A democracy's success depends upon open and direct communication between its citizens and those who govern them. Therefore, the main goal of the course is to teach students about the role of communication in informing, influencing, and legitimizing decisions in domestic politics. In the constitution was adopted and why not some other, how the institutions grow in the company of actual politics.

This course examines the interaction of media, politics, and public opinion, thus providing a survey of the field of political communication. As a result, the goal of this course is to teach students to be effective observers and participants in the public sphere. We will study political communication in all its forms, genres, and styles in Indian politics. This course examines the practices that have come to constitute political communication. Emphasis will be given to the role of political communication as it is practiced in the media.

B. **Course Outcomes**: At the end of the course, students will be able to:

JMC118.1. The course introduces the students to concepts of Political Communication as an emerging Discipline.

JMC118.2. The course will provide them with the knowledge of international dimensions of Political Communication.

JMC118.3. The course is designed to make students to understand politics and its relation to nation-building.

JMC118.4. The course is designed to make students to understand UNESCO's efforts in removal of Imbalance in News flow.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

Dr. Sumit Narula
Director
Amity School of Communication

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Faculty Name : Dr. Sumit Narula

A. Introduction: "Communication Research is a dynamic course designed to equip students with the essential skills and methodologies for exploring, analyzing, and understanding various aspects of communication. Through a comprehensive study of research techniques, this course empowers students to critically examine the impact, dynamics, and trends in communication processes across diverse media and contexts."

B. Course Outcomes: At the end of the course, students will be able to:

- JMC 211.1. Develop advanced skills in designing and conducting communication research across diverse media platforms.
- JMC 211.2 Cultivate the ability to critically evaluate and interpret communication processes, theories, and trends.
- JMC 211.3 Master various research methodologies relevant to communication studies, including qualitative and quantitative approaches.
- JMC 211.4 Acquire proficiency in presenting research findings through clear and impactful communication strategies.
- JMC 211.5 Demonstrate a strong commitment to ethical considerations in communication research, ensuring integrity and validity in the research process.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

Dr. Sumit Narula
Director
Amity School of Communication

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

A. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Course Contents/Syllabus:

	Weightage (%)
Module I – Introduction to Communication Research	**20%**
Descriptors/Topics Definition, Research Methods and Approaches in Social Sciences. Mass Media Research and Scientific Methods. Importance of Communication Research – Indian Scenario. Formulation of Research Problem, Review of Literature, Hypothesis, Research Design.	
Module II – Communication Research Process	

Dr. Sumit Narula
Director
Amity School of Communication

Descriptors/Topics Steps of Research Process: Study the situation, Identification of Problem, Developing of Objectives, Formation of Hypothesis, Reviewing of Relevant Literature, Deciding the Research Design, Collection of Data, Data Analysis, Finding the Results, Policy implications and conclusion. Sampling: Meaning, strategies, methods and types Basic Terms of Sampling: Sample Plan, Sample Design, Sample Unit, Sample Frame and Sample Size, Tools of Data Collection	**30%**
Module III – Statistical application	**30%**
Descriptors/Topics Statistics Applied In Research: Frequencies And Percentages; Measures Of Central Tendency: Mean, Median And Mode; Measures Of Dispersion: Range, Standard Deviation And Mean Deviation; Simple Correlation	
Module IV – Report Writing and Ethical Issues in Communication Research	**20%**
Descriptors/Topics Research Reports: Research Articles/Paper, Project Report, Dissertation and Thesis, Significance of Abstract, Proposal, Synopsis, Reference and Bibliography in Research, Ethical Issues in Research: Plagiarism, Database and Research matrix	

E. Assessment/ Examination Scheme:

Continuous Assessment/Internal Assessment				**End Term Examination**
Components (Drop down)	**Mid Term Exam**	**Assignment/Project/Quiz**	**Attendance**	
Weightage (%)	15	10	05	70

Sample Question Paper

Sample Amity School of Communication 2019-20						
Class: MA J&MC **Communication Research** II Semester						
Subject Name: **Communication Research**		Time: 3 Hrs			Max.Marks:70	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6	Q. 7, 8, 9, 10	
Student will be able to:						

CO Map	Question No.	Question	Marks
CO1	Q.1	Define various research methods and approaches used in social sciences	6
CO1	Q.2	What are the various tools of data collection ?	6
	Q.3	What are measures of central tendency? Explain mean ,median and mode	6
CO1	Q.4	What are the cultural, social and political impact of Globalisation?	6
CO2	Q.5	Explain in detail the shift in Indian Sports scenario,	6
CO2	Q.6	Define communication research and discuss its importance in the Indian scenario.	6
	Q.7	Explain the process of formulating a research problem, including the review of literature, hypothesis development, and research design.	10
CO2	Q.8	Discuss the application of statistics in communication research, emphasizing frequencies and percentages.	10
CO3	Q.9	Explore ethical considerations in communication research, covering topics such as plagiarism, database usage, and research matrices.	10

Dr. Sumit Narula
Director
Amity School of Communication

CO3	Q.10	Explain key terms related to sampling, including sample plan, sample design, sample unit, sample frame, and sample size. Discuss tools of data collection.	20

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Communication Research*** /Course code ***JMC 211*** is level **3** for the academic year 2019-202.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Television Journalism
Course Code : JMC 212, Crédits : 03, Session : 2019-20 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Dr Pranav Mishra

A. Introduction: The objective of this course is to familiarize the students Students with the structure and history of the TV industry of India, as well as recognize the impact of Television Industry on nation.

B. Course Outcomes: At the end of the course, students will be able to:

JMC212.1. The course introduces the students to introduce the basics of Tv Production and its practice to the students

JMC212.2. The course is designed in a manner to reinforce the basic concepts of TV Industry.

JMC212.3.Course will make students understand the workings of the media.

JMC212.4 Understand the mechanics, principles, of TV production.

JMC212.5. Understand the world of Television Production.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

D. Syllabus

	Weightage (%)
Module I: Television as a Medium	**25%**
• Understanding the medium: invention and development; strengths and weaknesses of the medium;	

Dr. Sumit Narula
Director
Amity School of Communication

• Production and transmission technology; working of a TV camera: various camera shots and angles for news coverage, types of ENG cameras, • understanding sound, light and colour TV editing software: uses and limitations	
Module II TV News	**25%**
• Understanding TV News: news values, significance of timeliness, news as it happens; sources of news, types of news, news agencies; • news priorities for TV, comparison with other news media, breaking news: definition and practice • Working of a news room: various functionaries in a news room: reporters, copy editors, input, editors, output editors, news producers, cameramen, video editors; • Backroom researchers, reference library or archives people, graphic artists	
Module III TV Reporting	**25%**
• TV reporting: reporting skills: understanding deadline, gathering information, cultivating, sources, planning and designing a story, being fit and alert, presentation skills: voice modulation, diction, screen presence, body language; • Piece-to-camera, phonos, interview skills, instructing cameraman, • significance of sound-bytes, gettinggood sound-bytes	
Module IV TV Editing	25
• Writing and editing TV news: TV writing style: words vs visuals, writing in 'aural' style, content of news, anchor script, voice over script, writing headlines, drafting of news scrolls; • updating information, News presentation: structure of a news bulletin: headlines, • individual stories: telling a story through visuals, use of graphics, file shots, photos etc., • compilation of a bulletin, live feed, anchor's responsibilities; • Skills required of a news anchor: screen presence, presence of mind, interview skills etc.	2**25%**

E. Examination Scheme:

Components	**A**	**MT**	**IE**	**EE**

Course Handout
Course Name : Radio Production
Course Code : JMC 213. Crédits : 3, Session : 2019-20 (EVEN), Class MAJMC 2nd Semester
Faculty Name : Dr Manish Dubey

Introduction: This course is designed to provide students with hands-on experience in radio production and broadcasting. It covers various aspects of radio equipment, scriptwriting, voice and presentation skills, program development, news reporting, and practical tasks to develop their radio broadcasting skills.

A. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-213.1- Provide a comprehensive understanding of the fundamental concepts and principles of radio production,
- JMC-213.2- Develop practical skills in operating radio production equipment, including soundboards, microphones, and editing software,
- JMC-213.3- Explore effective scripting and storytelling methods tailored for radio
- JMC-213.4- Offer opportunities for students to participate in live radio broadcasting scenarios
- JMC-213.5- Equip students with proficiency in industry-standard software for audio editing and production

Program Educational Objectives

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus:

Course Contents/Syllabus:

	Weightage (%)
Module I Studio Layout	

Dr. Sumit Narula
Director
Amity School of Communication

Descriptors/Topics The Radio Studio- Studio Layout, The studio desk, mixer, control panel, console or board, Digital Compression, Digital Audio Workstation, Tape Formats, CDs, album and other discs, Microphones, Stereo, Equipment faults, Basics of Sound	**20%**
Module II Radio Formats and Genres	**20%**
Descriptors/Topics Radio formats- Simple announcements, Radio talks/commentaries/comments, Radio interviews, Radio discussions, Radio features and documentaries. Radio play, Radio running commentaries, Radio ads/commercials, Phone ins and radio bridges, Music on radio, Radio News-Radio News defined, Main characteristics of Radio News as against news in other media	
Module III Writing for radio	**20%**
Descriptors/Topics Writing for ear- Who are you talking to? What do you want to say? The storage of talk Words, Structure and Signposting, Pictures and stories, Double Meaning/Ambiguity Writing script (Radio News/ Radio Feature/ Radio Play etc.)	
Module IV Radio Presentation	**40%**
Descriptors/Topics News reading and Presentation-The Seven Ps (Posture, Projection, Pace, Pitch, Pause, Pronunciation, Personality) , News reading, Vocal Stressing, Inflections, Quotation Marks, Alterations, Corrections, List and Numbers, Station Style, Continuity presentation, Creation of Radio Jingles, Error and Emergencies, Head Phones, Trials and Promos, Radio Interviewing(The basic approach, Question Technique etc.),Vox Pop (Phrasing the Questions, Putting the Questions etc.), Cues and Links (Information for the broadcasters, links), Making radio Commercials(Copy policy, Target Audience, writing copy, voicing and treatment, music and effects, Humour)	

Pedagogy for Course Delivery:

The course integrates class lectures, equipment demos, and discussions for a holistic understanding. Field assignments and hands-on experience with audio radio stations enhance practical skills. Culminating in a student-led radio program project, the curriculum ensures a comprehensive grasp of radio production, encompassing various program types in mass communication.

Amity School of Communication I MID-SEMESTER (SEM –II) 2019-20						
Class: MAJMC II Semester						
Subject Name: MAJMC-213 RADIO PRODUCTION		Time: 1.5 Hrs		Max. Marks: 30		
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating
Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		
Student will be able to CO1: List the broad perceptive of cloud architecture and model. CO2: Apply different cloud programming models as per need.						

CO Map	Question No.	Question	Marks
CO1	Q.1	In the age of digital media, how can radio producers effectively utilize various platforms to enhance audience engagement and maintain relevance in a competitive media environment?.	3

Dr. Sumit Narula
Director
Amity School of Communication

CO1	Q.2a	What factors contribute to this significant increase? Provide a detailed explanation supported by arguments.	3
	Q.2b	What are the key narrative techniques employed in successful radio productions, and how do they contribute to creating compelling and memorable content?	3
CO1	Q.3	Explore the significance of sound design in radio production. How does thoughtful and strategic sound design enhance the overall impact and effectiveness of radio broadcasts?	6
CO2	Q.4	Define radio format the main elements of radio formats	3
CO2	Q.5a	Explain the important features of column writing.	3
	Q.5b	Discuss the difference between news as information, education, and entertainment with examples	3
CO2	Q 6	Describe the duties and functions of parliamentary correspondent.	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Radio Production*** /Course code JMC 213 is level **3** for the academic year 2019-20.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Visual Designing and Production
Course Code : JMC 214, Crédits : 03, Session :2019-20 (Odd Sem.), Class : MA(J&MC). II Sem
Faculty Name : Siddharth Sharma

A. **Introduction:** The objective of this course is to make students aware of the concepts of visual designs and production. The course will help them in understanding advertising designing along with software's such adobe and corel draw.

B. **Course Outcomes:** At the end of the course, students will be able to:
JMC 214.1. Students will be introduced to the art, and commercial practice of advance level of digital graphic designing. Students will explore the making and editing of work to inform their computer graphic designing.

- **JMC 214.2**. Projects will introduce students to the many ways the medium is used in their culture; this includes the making of professional magazines, newspaper layout, and corporate brochure, etc.
JMC 214.3. Students will also learn the terminology used in layouts and designs in indoor medium.
JMC 214.4 The students will study the design for advertising layouts, taking into the consideration the choice of typeface.
JMC 214.5. Understand the positioning and choice of colors, images and text.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as

Dr. Sumit Narula
Director
Amity School of Communication

professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Amity School of Communication

DEPARTMENT OF Journalism and Mass Communication
Course Handout
Course : Film Theory and Practices
Course Code : JMC 216, Crédits : 03, Session : 2019-20 (Even Sem.), Class : MA(J&MC). II Sem
Faculty Name : Mr. Siddharth Sharma

A. Introduction: The objective of this course is to familiarize the students with concept of film theories and language of cinemas. This course will allow students to learn the contribution of prominent film directors in Indian Cinema

B. Course Outcomes: At the end of the course, students will be able to:

JMC216.1. In this course students will understand the language of film making

JMC216.2. They will come to know about different stages of filmmaking

JMC216.3. The course is designed to enable the student to understand the scriptwriting and storyboarding techniques.

JMC216.4. They will be introduced to the concepts of lighting and editing for films.

- **JMC216.5.** To establish distinction between technique and content

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course Public Relations and corporate communication /Course code **JMC 217** is level 2 for the academic year 2019-20.

Dr. Sumit Narula
Director
Amity School of Communication

AMITY UNIVERSITY

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

DEPARTMENT OF JOURNALISM & COMMUNICATION
Course Handout
Course : FOLK AND POPULAR MEDIA OF INDIA
Course Code: JMC 218, Credits: 03, Session:2019-20 (Even Sem), Class: MA(J&MC) II Sem
Faculty Name : Mr. Gaurav Chhabra

A. Introduction: The student will explore the diverse world of Folk Media in this course, delving into its meaning, forms like dance, theatre, and music, and cultural significance. Uncover the interplay between Popular and Traditional Media, and analyze the integrated use of Folk Media with mass communication. Discover the role of Folk Media in nation-building and its impact on national integration.

B. Course Outcomes: At the end of the course, students will be able to:

JMC218.1. Students will gain a profound understanding of Folk Media, encompassing its various forms such as dance, theatre, and music, along with their cultural significance.

JMC218.2. Develop critical analysis skills to dissect the interplay between Popular and Traditional Media, examining their dynamics and cultural implications.

JMC218.3. Acquire the ability to integrate Folk Media with mass communication, exploring its role in nation-building and its application by government agencies.

JMC218.4. Cultivate an appreciation for the diverse folk forms, folklore, and traditional communication methods, understanding their unique contributions to cultural richness.

JMC218.5. Develop problem-solving skills by addressing challenges and prospects faced by folk artists, fostering a nuanced perspective on the democratization of communication and the role of traditional media in national integration.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

Dr. Sumit Narula
Director
Amity School of Communication

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

C. Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

D. Programme Specific Outcomes:

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

E. Assessment Plan:

Component of Evaluation	Description	Code	Weightage %
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking	A	5%

Course Handout
Course Name : New Media Ecology
Course Code : JMC 311, Crédits : 3, Session : 2019-20 (ODD), Class JMC 3rd Semester
Faculty Name : Dr. Sandeep Kumar

A. **Introduction:** The goal of this course is to acquaint aspiring professionals in media analysis and current affairs with essential techniques in critical analysis, statistical methods, and data interpretation. It seeks to provide students with a solid foundation in intermediate to advanced analytical concepts, empowering them to navigate the complexities of media analysis and stay abreast of current affairs in a proficient manner within their disciplines.

B. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-311.1- Students will develop advanced digital literacy skills, understanding the intricacies of new media platforms
- JMC-311.2- students will possess enhanced critical thinking abilities, enabling them to analyze and evaluate the impact of new media on society, culture, and communication.
- JMC-311.3- Course participants will gain the capacity to adapt to and harness emerging technologies
- JMC-311.4- Students will acquire practical skills in new media production, including content creation, curation, and distribution
- JMC-311.5- The course will install a deep understanding of ethical considerations related to new media usage, ensuring students approach their roles in mass media with a strong sense of responsibility and integrity.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course New Media Ecology/Course code ***JMC-311*** is level **3** for the academic year 2019-20.

Dr. Sumit Narula
Director
Amity School of Communication

Course Handout
Course : Advanced Film Theories and Practices
Course Code : JMC 312, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA (J&MC) III Sem
Faculty Name : Siddharth Sharma

A. **Introduction:** This course focuses on the basics of filmmaking and cinema techniques The ability to analyse and put film studies in proper perspective will be intended during the course.An attempt to understand the technical as well as the artistic aspects of film making as a means of human communication will be made and classic films will be viewed and discussed.

B.Course Outcomes: At the end of the course, students will be able to:

JMC312.1. Students are introduced to principles and methodology of filmmaking

JMC312.2.They will be expected to exercise their creativity and visualize and make short films. Apart from filmmaking, preliminary idea to film appreciation will also be introduced.

JMC312.3 Documentary realism will be pitted against mainstream commercial film genres

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to

journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to

craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

DEPARTMENT OF POLITICAL SCIENCE
Course Handout
Course : Development Communication
Course Code : JMC 313, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA (J&MC) 2nd Year
Faculty Name : Siddharth Sharma

A. Introduction: This course focuses on the concept of development & To increase understanding about community and organization.

A. Course Outcomes: At the end of the course, students will be able to:

JMC313.1. To increase student's knowledge in development communication

JMC313.2. To understand role of different Government and Non-government Organizations in development communication

JMC313.3 To introduce need of different communication approaches for different settings

JMC313.4: To understand the different approaches of development communication.

JMC 313.5: To understand the importance of development communication in upliftment of society

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to

craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Syllabus:

Modules	**Weightage (%)**
Module I Concept of Development	**20 %**
Definition and Process of Development, Key Concepts in Development - Self Reliance, Dependence, Cultural Identity, Decentralization, Participation, Areas of Development – Politics, Social And Economic Issues, Agriculture, Population Control, Literacy & Education, Vocational Training, Farm Sector, Public And Private SectorIndustries, Health & Family Welfare, Environment Issues, Water Harvesting And Management, Pollution, Climate Change, Energy Consumption, Child Labour, Trafficking, Domestic Violence, Social Justice, Issues Of Inequality, Tribal Development, Issues Of Women And Children, Rural Development, Urbanization And Related Problems Theories and Paradigms of Development	
Module II Concept of Community, Structure and Organization	**20 %**
Concept and Characteristics of a Community, Structure and Organization of Different Typesof Communities, Tribal, Rural and Urban and Urban Slums, Meaning and Scope of Community Organization, Pris, Cooperatives, Youth Organizations, Other Organizations for Community Empowerment, Meaning, Characteristics, Types and Functions of Groups, Stages and Process of GroupFormation, Group Norms and Structure	
Module III Development Communication	**20 %**
Promotion of Development Communication Role of Government Organizations in Development Communication Such as Akashwani, DAVP, IEC Bureau, Resource Centres, Songs and Drama Division, Non-Government Organizations Role of NGOs In Development, Corporate Social Responsibility (CSR) Development Communication and Extension Activities (Work)	

Dr. Sumit Narula
Director
Amity School of Communication

Module IV: Approaches in Development Communication	
Communication Planning at National, State, Regional, District, Block and Village Levels,Communication Strategies and Action Plans, Case Studies, Campaigns, Social Marketing, Social Mobilization, Message Design in Communication, Role of Mass Media: Print, Radio, TV, Outdoor Publicity and Traditional Media - Music, Drama, Dance, Puppetry, Street Play,Fairs, Festivals and Their Role in Development, Cyber Media and Development: E-Governance, Digital Democracy & E-Chaupal, ICT(Information Communication Technology) & Development, SITE Experiment, Participatory Approaches of Communication, Barriers in Development Communication,	**40 %**

Pedagogy for Course Delivery:

This class will be taught using the theory and case method. Students will learn to appreciate this complex discipline withthe help of various teaching aids such as case studies, practical exercises, screenings, and reading group.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

Director
Amity School of Communication

DEPARTMENT OF POLITICAL SCIENCE
Course Handout
Course : WEB DESIGNING
Course Code : JMC 315, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA (J&MC) III Semester
Faculty Name : Dr Pranav Mishra

A. Introduction: The objective of this course is to familiarize the students with the understanding of web designing process and different designs, principles and life cycle of digital and print production process.

B. Course Outcomes: At the end of the course, students will be able to:
JMC315.1. Study of the entire print reproduction process from idea formulation to designer's drawing board to the printer's finished product.
JMC315.2. Study the history of graphic design to the present era.
JMC315.3. Study the layout theory applied to digital and print production.
JMC315.4. Understand the mechanics, principles, and life cycle of the digital publishing process.
JMC315.5. Understand the Web Designing production process

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further

Dr. Sumit Narula
Director
Amity School of Communication

studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques,

Dr. Sumit Narula
Director
Amity School of Communication

planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

C. Assessment Plan:

Amity School of Communication	
Course Handout	
Course Name : Media Laws & Ethics	
Course Code : JMC 317	**Crédits :** 03
Session : 2019-20 (Odd Sem.),	**Class :** MA (J&MC). 2nd Year
Faculty Name : Dr. Adhirit Chandra Pati Tripathi	

A. **Introduction:** This subject will give students a broad knowledge of ethical issues and legal restraints placed upon media. And students will study the various regulatory aspects of media. Their various stakeholders in content regulation of the media.

A. Course Outcomes: At the end of the course, students will be able to:

JMC317.1. To introduce students to ethical issues and legal restraints placed upon media.

JMC317.2. To discuss the conflicting traditions of a free but regulated mass media.

JMC317.3. To describe the various media laws.

JMC317.4. To understand the context and framework of media regulation in India.

JMC317.5. To discuss the issues arising from regulation of the media.

JMC317.6. To locate the role of various stakeholders in content regulation of the media.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

DEPARTMENT OF POLITICAL SCIENCE
Course Handout
Course : Film Appreciation
Course Code : JMC 411, Crédits : 03, Session : 2019-20 (Odd Sem.), Class : MA (J&MC) 2nd Year
Faculty Name : Siddharth Sharma

A. Introduction: This course focuses on the basics of filmmaking and cinema techniques The ability to analyse and put film studies in proper perspective will be intended during the course. An attempt to understand the technical as well as the artistic aspects of film making as a means of human communication will be made and classic films will be viewed and discussed.

B. Course Outcomes: At the end of the course, students will be able to:

JMC411.1. Students are introduced to the principles and methodology of filmmaking

JMC411.2. They will be expected to learn about camera lighting and editing. Apart from filmmaking, preliminary idea to film appreciation will also be introduced.

JMC411.3 Documentary realism will be pitted against mainstream commercial film genres.

JMC*411*.4 Students will learn about different film genres and the difference between them

JMC*411*.5: Students will learn about the global cinema and will produce short films.

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as

Dr. Sumit Narula
Director
Amity School of Communication

professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and skilfully visualize and interpret findings. Derive novel insights to

craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

Modules	**Weightage (%)**
Module I Film Production

Course Handout
Course Name : Media Analysis and Current Affairs
Course Code : JMC 412. Crédits : 3, Session : 2019-20 (EVEN), Class JMC 4th Semester
Faculty Name : Dr. Sandeep Kumar

A. **Introduction:** The goal of this course is to acquaint aspiring professionals in media analysis and current affairs with essential techniques in critical analysis, statistical methods, and data interpretation. It seeks to provide students with a solid foundation in intermediate to advanced analytical concepts, empowering them to navigate the complexities of media analysis and stay abreast of current affairs in a proficient manner within their disciplines.

B. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-412.1-Students will select the Language of news and fundamentals and content
- JMC-412.2-Students will understand the relationship between theory and practice
- JMC-412.3- Students will be classifying various fascinating aspects of current affairs and news
- JMC-412.4-Students will be able to define the crucial fine points that make Cine
- JMC-412.5-To create a simple script and implement a shoot based on the same

Program Educational Objectives

PEO1- Proficiency in Technical and Creative Skills: Students will develop technical expertise in various fields of media, mass communication, and related disciplines. Their adeptness in both technical and creative domains will empower them to execute their tasks with a dedicated focus on quality, punctuality, and a commitment to continual enhancement.

PEO2- Effective Interpersonal Abilities: Journalism and mass communication students will showcase proficient interpersonal skills, both within team environments and in professional settings.

PEO3- Social Impact Awareness: Students will be educated on social issues and their repercussions on society. They will develop the ability to implement remedial measures when necessary.

PEO4- Professionalism: Acquiring knowledge in professionalism, ethics, delivering high-quality performance, and fostering sustainability will equip students to emerge as professional leaders and valuable contributors to society through proactive and constructive endeavors.

PEO5- Lifelong Learning Orientation: Students in journalism and mass communication will exhibit a commitment to continuous learning, demonstrating an interest in further studies, professional licensure, or advanced education within the field. This pursuit aims to facilitate the ongoing enhancement of their technical proficiency and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, and understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from interpersonal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relations, corporate communication to advertising.

[PO.4]. Lifelong Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Progressive and Enterprise Development: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research Orientation and skills: Developing a keen sense of observation, ability of questioning, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Program Specific Outcomes

[PSO.1]. Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects spanning various domains in TV, Radio, Print, Digital media, and films. Employ diverse methods to gather requisite information and proficiently design, execute, and manage media initiatives.

[PSO.1]. Data Visualization and Storytelling: Apply expertise in different realms of Journalism and Mass Communication to conduct thorough research, analyze data, and

Dr. Sumit Narula
Director
Amity School of Communication

skilfully visualize and interpret findings. Derive novel insights to craft engaging narratives addressing diverse issues.

[PSO.3]. Research and Teaching Proficiency: Apply knowledge from diverse areas of journalism and mass communication to conduct insightful research, analyze data, and derive innovative findings. Effectively apply this acquired knowledge in delivering content in educational settings, contributing to an enriched classroom experience.

D. Syllabus:

Course Contents/Syllabus:

	Wei
Module I Overview	**20%**
What Makes News? Understanding News/News Values News Selection: Theories of Agenda Setting, Spiral of Silence Etc Debate on Objectivity (Bias) And Subjectivity Building News Sources and Credibility of News	
Module II Analysis of National and International News and Current Affairs	**20%**
Classroom Discussions on National and International News Comparative Analysis of News Treatment in Various News Papers and TV Channels. Background of Important News, Relevance of These Reports to India And the World Community or Why They Are Considered to Be Important, Restructuring The UN	

Dr. Sumit Narula
Director
Amity School of Communication

Module III Global Economic Trends and Issues	**20%**
Profile of The Indian Economy (Industry, Agriculture, Infrastructure, Growth Rates, World Ranking, Role of Planning, Budgets and Government Policies) The World's Top 5 Economies and Emerging World Powers - 2025 Regional Economic Groupings of The World and Their Functioning: The World Bank; The European Union and Its Expansion; The Asian Development Bank; World Economic Forum	
Module IV Indian Topical Issues and Their Backgrounders	**20%**
Indian Constitution, Naxalism And Marxism, Criminalization of Politics Indian Foreign Policy: India And Issue of Permanent Seat in The UN	

Pedagogy for Course Delivery:

The class will be taught using theory, discussion, practical and case based method. Film clips specially belonging to particular eras will be screened. Discussion based learning especially in the context of Indian cinema will be undertaken. Home assignments and presentation will be a component of the course. In case of a specific event in the city involving cinema, students will be taken on field trip for the same. Written assignments on scriptwriting will be included. Workshop and interactive method will be used to hone skills in script writing.

Lab/ Practicals details, if applicable: List of Experiments:

- A 2- 3 minute film on a certain theme.
- Film Viewing sessions
- Film Appreciation exercises
- Script writing sessions

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name : Communication Théories and Model
Course Code : JMC 101, Crédits : 3, Session : 2020-21 (Odd), Class BAJMC Ist Semester
Faculty Name : Ashish Sharma

Introduction: This course aims to immerse students in the practical application of Communication Theories and Models. Encompassing elements such as radio equipment, scriptwriting, voice modulation, presentation skills, program development, and news reporting, the curriculum engages students in experiential learning. Through hands-on tasks, participants cultivate skills in radio broadcasting, applying theoretical frameworks to real-world communication scenarios.

Course Outcomes: At the end of the course, students will be able to:

- JMC-101.1- Students will gain a profound grasp of key concepts in communication and mass communication, providing a solid foundation for analyzing and interpreting diverse communication phenomena.
- JMC-101.2- The course will empower students to enhance their media literacy skills, enabling them to critically engage with various forms of mass communication.
- JMC-101.3- They will develop the ability to discern and interpret media messages, fostering a more informed and discerning perspective.
- JMC-101.4- This includes a detailed exploration of models and major theories, equipping them with a comprehensive understanding of how communication functions in diverse contexts
- JMC-101.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

Dr. Sumit Narula
Director
Amity School of Communication

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

A. Assessment Plan:

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : History and Growth of Media in India
Course Code : BJM 102, Crédits : 03, Session : 2020-21 (Odd Sem.), Class : BA (J&MC) II Semester
Faculty Name : Siddharth Sharma

A. **Introduction:** *The course aims at instructing students about History and Mass Media in India. This paper will introduce the students about the different phase of Journalism in India.*
B. **Course Outcomes:** At the end of the course, students will be able to:

- JMC 102.1 Students will able to learn the early stage of media followed by different types of media used in early days.
- JMC 102.2 Students will learn the history of newspaper Industry. They will also learn the development of newspaper in India
- JMC 102.3: Students will be able to describe the history of press in India during the colonial era.
- JMC 102.4: Students will be able to discuss the developments of the press post-independence.
- JMC 102.5: Students will learn the historical aspects of media industry in India.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

Amity School of Communication
Course Handout
Course Name : Fundamentals of Print Journalism
Course Code : JMC 104, Crédits: 2 Session : 2020-21 Class : BA J&MC I
Faculty Name : Satnaam Singh

A. Introduction: "Fundamentals of Print Journalism is a comprehensive course that delves into the core principles of print media, equipping students with essential skills in news writing, reporting, and editing. Through practical insights and theoretical foundations, this course provides a solid foundation for aspiring journalists navigating the dynamic landscape of print journalism."

B. Course Outcomes: At the end of the course, students will be able to:

JMC 104.1 Enable students to understand basic concepts of news and the news process.
JMC 104.2 Help students to understand print media industry from a journalistic perspective
JMC 104.3 Help students to analyses about the current scenario and scope of media industry in India.
JMC 104.4 Equip students with the ability to craft clear, concise, and compelling news stories adhering to journalistic standards.
JMC 104.5 Provide students with the knowledge and skills necessary for effective editorial decision-making and the production of high-quality print journalism.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

Course Handout
Course: BAJMC , State and Politics
Course Code : JMC 106, Crédits : 02, Session: 2020-21 (Odd Sem.), Class : BAJMC. 1st Year
Faculty Name : Mr. Ashish Sharma

A. Introduction: This course is meant to examine the dynamic interplay between state institutions and political processes, fostering an understanding of political systems, power structures, and the impact of governance on society and individual rights.

B. **Course Outcomes:** At the end of the course, students will be able to:

JMC 106.1: Students will be able to identify forms of government, coalitions and alliances

JMC 106.2: Students will be able to analyze political issues in the overall context of the Indian Constitution.

JMC 106.3: Understanding the functioning of different assembly and to understand how their working effect normal people.

JMC 106.4: Understanding the powers and the duties assigned to different executive members. TO understand how a state and country runs.

JMC 106.5: Understanding the working of judiciary, from their responsibilities to their functioning. To describe the functioning and structure of the state, legislature, executive and thejudiciary.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Course : Digital Skills for Media I
Course Code : JMC 107 Crédits :03 Session : 2020-21 (Odd Sem.) , Class : BAJMC I Sem
Faculty Name : Sanjay Singh Sikarwar

Introduction: The course aims to introduce basic concepts of print. In this course students will be introduced to the broad knowledge of the basic computer software's, which are mainly used in print media. Students will study the designing of print layout of pages, taking into consideration the choice of typeface and positioning and choice of color, images and text. Students will explore the information in context to the designing of variety of print layouts.

A. **Course Outcomes:** At the end of the course, students will be able to:

JMC 107 .1. Students will understand the basic computer fundamentals.
JMC 107.2. Students will learn the basics of Photoshop and CorelDraw
JMC 107.3. Students will learn the basics of Quark express and Indesign.
JMC 107.4. Evaluate the different ideologies in the field of graphics & editing
JMC 107.5. prepare a project based on graphics & design.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

Total			**100%**

D. Syllabus:

Module I: Computer Fundamentals and Ms Office	**Weightage**
Definition, Generations and basic components of Computer. Input/output devices, Memory and other peripherals, Introduction to Operating System (Windows 10), Functions and features of Operating System (Accessories, Control Panel, Desktop, Windows Explorer), Ms office Suit, Introduction to word Processing, MS Word interface, Tools and Menus, Document editing and formatting, Mail Merge and other tools. MS Excel Interface, Tools and Menus, Creating Spreadsheet, Use of functions, Charts and Graphs, MS PowerPoint Interface, Tools and Menus, Creating slides, inserting multimedia objects, Transition and Custom Animation, Delivering, Presentations.	**40%**
Module II: Introduction to Photoshop	**30%**
Introduction to Graphics, Colour models and modes, Graphic file formats and their applications. Adobe Photoshop Interface, Tools and Menus, Working with Layers, Filters, Masking and other tool. Use of Photoshop for Designing and Photo Publishing.	

Dr. Sumit Narula
Director
Amity School of Communication

Module III: Introduction to Adobe In Design	**30%**
Working with In-design, Page design, Newspaper, Magazine & Advertisement Design with the help of In-design, Hindi Typing Techniques, English Typing Techniques, Practice of Both Type of Typing.	

Lab/ Practicals: Training of Graphics and Animation Software

F. Assessment/ Examination Scheme:

Director
Amity School of Communication

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Print Media Production
Course Code : JMC 108, Crédits : 02 (P), Session : 2020-21 (Odd Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Dr Pranav Mishra

A. Introduction: To access the knowledge of student regarding Film Production.

B. Course Outcomes: At the end of the course, students will be able to:
JMC108.1. In this course students will understand the Print Pre Production.
JMC108.2. In this course students will understand the Print Production.
JMC108.3. In this course students will understand the Print Post Production.
JMC108.4. They will be introduced to the concepts of Print Final Production
JMC108.5. Understand the Print Media Production Process

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

Dr. Sumit Narula
Director
Amity School of Communication

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

Dr. Sumit Narula
Director
Amity School of Communication

AMITY UNIVERSITY
MADHYA PRADESH
Established vide Government of Madhya Pradesh Act No. 27 of 2010

Amity School of Communication
Course Handout
Course Name: Specialized Reporting, Writing & Editing
Course Code : JMC 201, Crédits : 3, Session : 2020-21 (EVEN), Class BAJMC 2nd Semester
Faculty Name: Aditya Kumar Shukla

Introduction: The course aims at teaching specialized writing genres such as magazine writing, editorial writing, and disaster reporting among others. It also discusses various aspects of investigative reporting and editing and page layout planning. In addition students will also learn the basics of print media editing

Course Outcomes: At the end of the course, students will be able to:

- JMC-201.1- The course designed to familiarize the students with the concept of various types of features for magazines
- JMC-201.2- The course will empower students to enhance their media literacy skills; the course will help students different leads, the body text and ending.
- JMC-201.3- They will develop the ability to discern and interpret media messages, course will train students to demonstrate interviewing and newsgathering skills
- JMC-201.4- This includes a detailed exploration to make the students well versed with the Principles and Practices to editing skills including proof reading and headline writing
- JMC-201.5- Through practical applications and real-world examples, students will not only comprehend theoretical frameworks but also apply them to the field of mass communication

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

Dr. Sumit Narula
Director
Amity School of Communication

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Sample Question Paper

Amity School of Communication II MID-SEMESTER (SEM –II) 2020-21						
Class: BAJMC.II Semester						
Subject Name: JMC-201 Specialized Reporting, Writing & Editing		Time: 1.5 Hrs.			Max. Marks: 30	
Levels of the questions as per Blooms Taxonomy	Remembering	Understanding	Applying	Analyzing	Evaluating	Creating

Dr. Sumit Narula
Director
Amity School of Communication

Question Mapping	Q.1,4	Q.2,3	Q.4	Q.2,5,6		

Student will be able to
CO1: List the broad perceptive of News gathering and beats
.CO2: Basic principles and rules of proof reading

CO Map	Question No.	Question	Marks
CO1	Q.1	What are the key elements of a news story that a writer should include when writing for a news outlet?	3
CO1	Q.2a	How does the inverted pyramid structure benefit news writing, and why is it commonly used?	3
	Q.2b	What strategies can news writers employ to ensure their writing is clear, concise, and engaging?	3
CO1	Q.3	What are some common grammatical and stylistic errors that news writers should watch out for during proofreading?	6
CO2	Q.4	What tools or techniques can news writers use to streamline the proofreading process and catch errors more efficiently?	3
CO2	Q.5a	Why is it important for news writers to be aware of biases, both in their own writing and in the sources they use?	3
	Q.5b	How can news writers maintain objectivity and impartiality in their reporting?	3
CO2	Q 6	What role does headline writing play in news articles, and what are some best practices for crafting effective headlines?	6

Attainments		**Rubric**
Level	1	IF 60% of students secure more than 60% marks then level 1
Level	2	IF 70% of students secure more than 60% marks then level 2
Level	3	IF 80% of students secure more than 60% marks then level 3

Course outcome: Based on internal and external assessment the level of Course outcome attainment of the course ***Specialized Reporting, Writing & Editing***/Course code ***JMC-201*** is level 2 for the academic year 2020-21.

Dr. Sumit Narula
Director
Amity School of Communication

DEPARTMENT OF JOURNALISM AND MASS COMMUNICATION
Course Handout
Course : Theories of Advertisements & Public Relations
Course Code : JMC 202, Crédits : 03, Session : 2020-21 (Odd Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Dr Dhruv Sabharwal

A. Introduction: This Subject deals with Advertisement & Public relation exposure to students for better academic progression.

B. Course Outcomes: At the end of the course, students will be able to:
JMC202.1. In this course students will understand the Role of Advertisement .
JMC202.2. In this course students will understand the PR.
JMC202.3. In this course students will understand the ADV Production.
JMC202.4. They will be introduced to the concepts of CSR
JMC202.5. Understand the PR Production Process

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think ‘out of the box’ to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Project	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	Viva	EE	70%
Total			**100%**

Course Handout
Course Name : Basics of Radio Journalism
Course Code : JMC 203. Crédits : 3, Session : 2020-21 (EVEN), Class BAJMC 2nd Semester
Faculty Name : Dr Manish Dubey

Introduction: This course is designed to provide students with hands-on experience in basics of radio journalism. It covers various aspects of radio equipment, scriptwriting, voice and presentation skills, program development, news reporting, and practical tasks to develop their radio broadcasting skills.

A. **Course Outcomes:** At the end of the course, students will be able to:

- JMC-203.1- Students will be able to identify and write record, produce and edit several formats of radio programmes including news stories, and features.
- JMC-203.2- Students will recognize the structure and history of the radio industry will be able to work in professional atmosphere of radio station,
- JMC-203.3- Students will interpret the challenges and solutions of the radio industry
- JMC-203.4- Students will outline the relationship of each personnel inside a radio station
- JMC-203.5- Equip students with proficiency in industry-standard software for audio editing and production

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

Dr. Sumit Narula
Director
Amity School of Communication

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities.

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process.

B. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	CT	15%
	Mid Term 2		
	Seminar/Viva-Voce/Quiz/Home Assignment	S/V/Q/HA	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a studentto be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

C. Syllabus:

Module I: Understanding the medium	**Weightage**
Strengths and Weaknesses of the Medium, Writing for ear- Who are you talking to? What do you want to say?, The storage of talk Words, Structure and Signposting, Pictures and stories Double Meaning/Ambiguity, Writing script (Radio News/ Radio Feature/ Radio Play etc)	**15%**

Dr. Sumit Narula
Director
Amity School of Communication

Module II: Radio News	**15%**
Radio News Reporting: Skills of a Radio News Reporter: Developing Sources, Gathering News, Giving Voice- Cast, Phonos, Anchoring and News Reading Skills: General Awareness, Presence of Mind; Clarity, Diction, Pronunciation, Compiling a Bulletin: Types of Bulletins: Local to International Editing News for Different Bulletins; Using Voice-Dispatches and other Elements in a Bulletin: Sequencing, Updating News Updates, News Reports, Newsreel etc.	
Module III: News Reading	**20%**
News reading and Presentation-The Seven Ps (Posture, Projection, Pace, Pitch, Pause, Pronunciation, Personality), News reading, Vocal Stressing, Inflections, Quotation Marks, Alterations, Corrections, List and Numbers, Station Style, Continuity presentation, Creation of Radio Jingles, Error and Emergencies, Head Phones, Trials and Promos	
Module IV: Radio Interview and Advertising	**20%**
Radio Interviewing(The basic approach, Question Technique etc), Vox Pop (Phrasing the Questions, Putting the Questions etc), Cues and Links (Information for the broadcasters links), Making Radio Commercials (Copy policy, Target Audience, writing copy, voicing and treatment, music and effects, Humour)	
Module V: Radio Program Production	**30%**

Dr. Sumit Narula
Director
Amity School of Communication

Radio Programme Formats; Latest trends of Radio Programmes; Functions & Characteristics of Radio Programmes; Production and Recording Process Programme Planning; Broadcasting Guidelines; Conceptualization and Ideation: Show Designing; Radio Programme Production: Interviews, Radio Talk, Discussions, Review Programmes, Production of Musical Programmes; Best use of Music database; Talk show; Discussion Programme; Drama/Skits; Radio Documentaries and Feature; Advertisements, Promos, Jingles; Telephonic Programmes	

Teaching Pedagogy:

The course integrates class lectures, equipment demos, and discussions for a holistic understanding. Field assignments and hands-on experience with audio radio stations enhance practical skills. Culminating in a student-led radio program project, the curriculum ensures a comprehensive grasp of Basics of Radio Journalism, encompassing various program types in mass communication.

Course Handout
Course : Fundamentals of Photography
Course Code : JMC 204, Crédits : 03, Session : 2020-21 (Even Sem.), Class : BA (J&MC) 1st Year
Faculty Name : Siddharth Sharma

A. Introduction: The objective of this course is to clear the fundamental concept of the medium of photography, combine the science and art of photography. This course will deal with historical aspects of medium and will design storytelling through visual medium.

B. Course Outcomes: At the end of the course, students will be able to:
JMC204.1. Understand the different aspects of Fundamentals of Photography
JMC204.2. Develop professional capabilities of Photography.
JMC204.3. Understand Basics of Photo Editing.
JMC204.4. They will be introduced to the concepts creative photography.
JMC204.5. Understand different theories of photography.

Program Educational Objectives

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

Dr. Sumit Narula
Director
Amity School of Communication

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Program Outcomes

PEO1-Technical and Creative Adeptness: The students will be able to become technically adept to specific fields of media, mass communication and allied fields. Their technical and creative skills will enable them to perform their work with a commitment to quality, timeliness with continuous improvement.

PEO2- Collaboration and Ethical Leadership: Become a team member in Public, Private, Corporate and Government Sector as Media person, techno managers, administrator or entrepreneurs, investigative agencies with efficient Communication and ethics.

PEO3- Professionalism and Social Contribution: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

PEO4- Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

PEO5- Industry Impact in Communication: Mark a difference in the Advertising, Events, Public Relations, Corporate Communication, and related industries as competent, trained and qualified journalist.

PEO6- Media & Entertainment Industry Readiness: To develop the learner into competent and efficient Media & Entertainment Industry- ready professionals.

Programme Outcomes:

[PO.1]. Professionalism: Understanding of professionalism, ethics, quality performance, sustainability and allow them to be professional leaders and contributors to society through their proactive and constructive work.

[PO.2]. Domain Knowledge and Skills: Comprehensive knowledge, understanding of all domains of Journalism and Mass Communication and their interdisciplinary and

Dr. Sumit Narula
Director
Amity School of Communication

multidisciplinary relationship with other related fields. Practical, professional, and procedural knowledge to carry out highly skilled works in media and communication fields.

[PO.3]. Selecting the Media Domain: The course enables students to develop their own focused area of interest. The work-related experiences can potentially lead to a broad spectrum of cultural, media-based, and artistic activities from inter – personal communication to newspaper, radio & television broadcasting to journalism, digital web production, E-content writing, and public relation, corporate communication to advertising.

[PO.4]. Continuous Learning: Journalism and mass communication students will display interest in lifelong learning including studies leading to professional licensure or higher studies in the field that provides for continued development of their technical ability and creative skills.

[PO.5]. Critical Thinking: Take informed actions after identifying the relevant assumptions that frame our thinking and actions, evaluating the policies, and practices to draw valid conclusions and support them with evidence.

[PO.6]. Digital and technological skills: Understand the use of ICT to access, evaluate, and use a variety of relevant Mass Communication related information sources, and use appropriate software for analysis of data.

[PO.7]. Creativity: Innovate and think 'out of the box' to handle complex tasks from multiple perspectives and unfamiliar contexts by adopting innovative, imaginative, lateral thinking, interpersonal skills and emotional intelligence.

[PO.8]. Innovative and Entrepreneurship Enhancement: Impart skills related to Information Communication Technologies (ICTs), including digital and media literacy and competencies.

[PO.9]. Research-related skills: Developing a keen sense of observation, ability to question, application of research tools & techniques, planning & execution of investigations, following research ethics in the field of Mass Communication.

[PO.10]. Collaborating and coordination skills: Developing a keen sense of working in team spirit, feeling of collaboration and cooperation.

[PO.11]. Environmental awareness and action: Coverage of environmental issues by Mitigating the effects of environmental degradation, climate change, and pollution, effective waste management, conservation of biodiversity, management of biological resources, forest and wildlife conservation, and sustainable development and living.

[PO.12]. Multicultural competence and inclusive spirit: Capability to effectively engage in a multicultural group/society by acquiring knowledge about the values and beliefs of multiple cultures by adopting gender sensitivity and gender-neutral approach along with empathy for the less advantaged and the differently abled including those with learning disabilities

Dr. Sumit Narula
Director
Amity School of Communication

Program Specific Outcomes

[PSO.1]. Proficiency in Creative Conceptualization and Management: Demonstrate the ability to conceptualize projects across various domains, including TV, Radio, Print, Digital media, and films. Employ diverse methods to gather essential information and adeptly design, execute, and manage media projects.

[PSO.2]. Data Visualization and Storytelling: Apply a comprehensive understanding of Journalism and Mass Communication to undertake research, analyze data, and proficiently visualize and interpret findings. Utilize this knowledge to craft compelling narratives on a wide range of issues.

[PSO.3]. Skilful Creative Expression and Writing: Exhibit the capacity to generate impactful and creative communication content. Produce articles, features, reports, and other creative pieces tailored for transmedia platforms such as print, digital, and audio-visual mediums. Employ refined reporting, editing, and design skills in the process

C. Assessment Plan:

Component of Evaluation	**Description**	**Code**	**Weightage %**
Continuous Internal Evaluation	Mid Term 1	MT	15%
	Internal evaluation	IE	10%
Attendance	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	A	5%
End Semester Examination	End Semester Examination	EE	70%
Total			**100%**

D. Syllabus

Module I: Introduction to Visuals	**Weightage**
Human Eye and Camera. The social definition of photography: Light and Color, Qualities of light, characteristics of light; Understanding the color theory; Contrast Painting and Photography; Photography as an Art and Science.	**25%**
Module II: Visual Perception	**25%**

Dr. Sumit Narula
Director
Amity School of Communication

Basics of Camera (aperture, shutter speed, focal length, depth of field etc.,) Camera operations: Types of Camera, Types of Lenses. The art of seeing; Digital S.L.R vs. S.L.R.; Advantages of Aperture and depth of field; Shutter and motion; Focal length; Lenses and its relation to subjects; Exposure techniques; Different types of light : Natural & Artificial.	
Module III: Principles of Photography	**25%**
Rules of Composition: portraits, Landscape; Composing different subjects; Perspective, Texture, Pattern, Colour, Shape, Contrast, Types of Photography, Landscape, Portrait Still Documentary.	
Module IV: Compositing and Editing Photographs	**25%**
Concept of Light-room , Merging of multiple shots to produce a suitable output; Product based photography; Comparative study of Digital photography vs conventional photography; Editing techniques in photography	

E. Examination Scheme:

Components	A	MT	IE	EE
Weightage (%)	5	15	10	70

MT: Mid Term; IE: Internal Evaluation; EE: End Semester Examination; A: Attendance
