Enclose event report along with glimpses of the event (Photographs)

Palliative care is an approach that improves the quality of life of patients and their families facing the problem associated with life-threatening illness, through the prevention and relief of suffering by means of early identification and impeccable assessment and treatment of pain and other problems, physical, psychosocial and spiritual. This vital and essential aspect of optimizing patients' quality of life has undoubtedly contributed to the widening acceptance of palliative care as a recognized nursing specialty.

Amity College of Nursing organized symposium on Palliative Care on 17th January 2019. The objective of this symposium was to create and update the knowledge regarding palliative care, its need and role of nurses in hospice nurses and community among nursing students and faculties.
