

Dr. Kedar Purnapatre, Assistant Director, Daiichi Sankyo India Pharma Ltd, Gurgaon visited Amity University Gurgaon as invited speaker on February 15, 2017 and spoke on '***Practical approaches for the discovery of antibiotics***'. Dr. Purnapatre has been working on the discovery of antibiotics for last 15 years. He talked about a potential drug candidate against gram negative bacteria which is in the final stages of clinical trial. The compound is an inhibitor of leucine tRNA synthetase. He has also worked on DBT sponsored project on tuberculosis and a collaborative project with GSK.

He interacted with other faculties and students.

Dr. Purnapatre was invited and hosted by Dr. Krishna Murari Sinha.
