Event Report

The department of Amity School of Architecture and Planning organized a Guest Lecture for the final year students of Bachelor of Architecture. The lecture was an introductory talk by an industry expert regarding the importance of Green infrastructure design, illustrated by her through showcase of several of real time projects that are on going at her own practise. The lecture was received with admiration by the students who keenly noted the latest technologies and techniques employed in the projects shared and interacted with the industry expert. Ms Jain also guided the students specifically on their questions regarding appropriate site treatment and design approach strategies.
