General Introduction of the Event

Mr Harish Sharma, Deputy Manager and Mr. Dushyant Singh, Patent Associate, Amity IPR Cell, visited at AUH on Thursday/June 08, 2023, for interaction with faculties, researchers to ensure augmentation and promotion of IP filings.

Inspiration & Objectives of the Event

- Briefing the importance of patent filing for their all research and ongoing project work and further motivating them to file patents, copyright for their novel ideas and concepts.
- To introduce the IPR-working culture in Amity campus with do's and don'ts,
- Addressing on furnishing IP related data to IPR cell as and when requested to respective inventors within stipulated deadline for faster compliance to the IPO office actions,
- To create an awareness amongst the faculty/researcher on Patentable/copyrightable subject matters
- Further, addressing all IPR related queries of faculties and interested persons present at AUH campus.
- Mining the probable patent filings from research scholars and student projects for their novel ideas and concepts.

Brief about the address/talk of speakers

Mr Harish Sharma talk about the importance of patent filing for their all research and ongoing project work and further motivating them to file patents, copyright for their novel ideas. He also encourages the IPR working culture at Amity campus. He created an awareness on Patentable/copyrightable subject matters. Personal interaction of Mr Harish Sharma was conducted with the faculty members to clear the doubts about IPR in their respective fields.

Under the evening school project, a ten-day workshop was organized by the Amity Centre for Sanskrit and Indic Studies, Amity University, Haryana. Several eminent scholars shared their enlightening views on various sub-topics based on "Sanskrit to Culture" (संस्कृत से संस्कृति की ओर)

The inaugural session of the workshop was graced by the presence of esteemed individuals such as Honourable Vice Chancellor of Amity University, Prof. PB Sharma, Prof. Shashi Tiwari, Dr. Baldevanand Sagar, Yoga Guru Ram Avtar, Dr. Pankaj Mishra, Dr. Ashutosh Angiras, and Prof. Sanjay Kumar Jha. During this session, every speaker emphasized the immense significance of Sanskrit and its inseparable connection with culture. They were unanimous in their opinion that a proper understanding of culture is incomplete without a deep knowledge of Sanskrit.

The workshop served as a platform for diverse discussions and insights into the profound influence of Sanskrit on various aspects of culture. Scholars from different backgrounds and expertise shared their wisdom, enriching the participants' understanding of this ancient language and its role in shaping cultural values and traditions.

Throughout the ten days, participants engaged in fruitful interactions, exploring how Sanskrit serves as a key to unlocking the treasures of our heritage and preserving our ancient wisdom. The workshop undoubtedly left a lasting impact on all those involved, fostering a deeper appreciation for Sanskrit and its irreplaceable role in preserving and promoting our cultural legacy.

On the first day of the workshop, Prof. Ashutosh Angiras from Sanatan Dharma College, Ambala, delivered a comprehensive discourse on the subject "Sanskrit - Subject, Challenges, and Solutions" in his session. He expressed concern about the present position of the Sanskrit subject and the challenges before us, emphasizing the need to bring changes in Sanskrit education and teaching methods to reach the masses effectively.

Manesar

Mr. Narendra ji, prabhari of the North Zone of Sanskrit Bharti, joined the workshop on the second day and stated that the coming era is the golden age for Indians due to the presence of Sanskrit. However, he emphasized the need to embrace the ancient culture, as taught by our forefathers, through concepts like " सर्वभवन्तुसुखिनः, " and " वसुदेवकुटुंबकम् " to realize this golden age.

Dr. Pankaj Kumar Mishra, Associate Professor St. Stephen's College Delhi University, delivered his discourse on the third day, focusing on the interconnection between Sanskrit literature and culture. He emphasized how literature shapes our culture and our thoughts, acting as a reflection of our emotions.

On the fourth day, Yoga Guru Dr. Ram Avtar Ji from Ekal Yoga Ayog, gave his address on the importance of Sanskaras. In 16 samskaras, he specially emphasized on the importance of marriage and pregnancy samskaras and told that these two samskaras are mainly necessary samskaras, therefore it is very important to have these two samskaras duly performed for the promotion of Indian culture.

Dr. Baldevanand Sagar National president of World Sanskrit Media Council was present among us as a speaker on the fifth day. He said in his address that Indian culture is the most ancient culture of the world and only by understanding this culture we can understand other cultures of the world. While brainstorming on this topic from Sanskrit to culture, Dr. Sagar discussed many topics related to Sanskrit and culture. During his discussion on Sanskrit and culture, he referred to Sanskrit literature as a science.

On the sixth day, as the main speaker, Dr. Prasoon Kumar Mishra from Delhi University presented his discourse on the Vedic literature and spirituality. He shared profound insights on the subject.

On the seventh day, two speakers presented their addresses. Firstly, Dr. Ayush Gupta from Sagar University spoke on Indian knowledge tradition, drawing from Vedic literature and science. Secondly, Prof. Shashi Tiwari, President of Waves India, shared important facts reflecting Indian culture and elaborated on the central topic of Sanskrit to culture.

On the eighth day of the workshop, two speakers, Dr. Dilip and Dr. Rupesh, working as assistant professors in Delhi University, presented their addresses and they informed all the participants about very informative facts by making Sanskrit and culture the centrepiece.

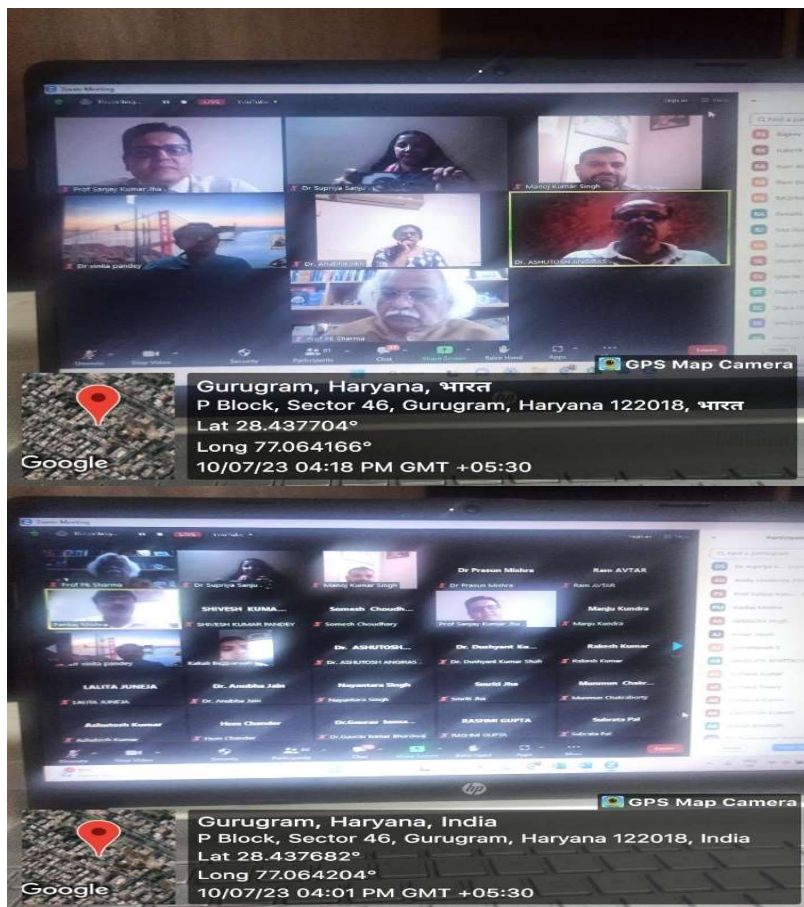

Throughout the workshop, Dr. Akhilesh Kumar Tripathi, Assistant Professor of Amity Centre for Sanskrit and Indic Studies, conducted Sanskrit conversation sessions to increase the participants' awareness and familiarity with the language.

The valedictory session of the workshop witnessed the presence of many scholars. Chief guest Brigadier J S Rajpurohit, presented the vision of Chanakya in a video and PPT, which was incredibly enlightening. Guest of honour Prof. Anju Seth, Principal of Satyawati College, Delhi University, delivered a highly enlightening speech, encapsulating the essence of the main topic – Sanskrit and its representation of culture.

All the participants actively engaged in discussions and provided valuable suggestions for incorporating other topics related to Sanskrit and culture in future workshops. Dr. Hemant Kumar Jha, Head of the English department at Amity School of Liberal Arts, expressed gratitude to all the scholars and participants for making this ten-day knowledge-sharing event a remarkable success. He believed that their support will be a significant achievement for our department in the mission to propagate Sanskrit and culture to the masses.

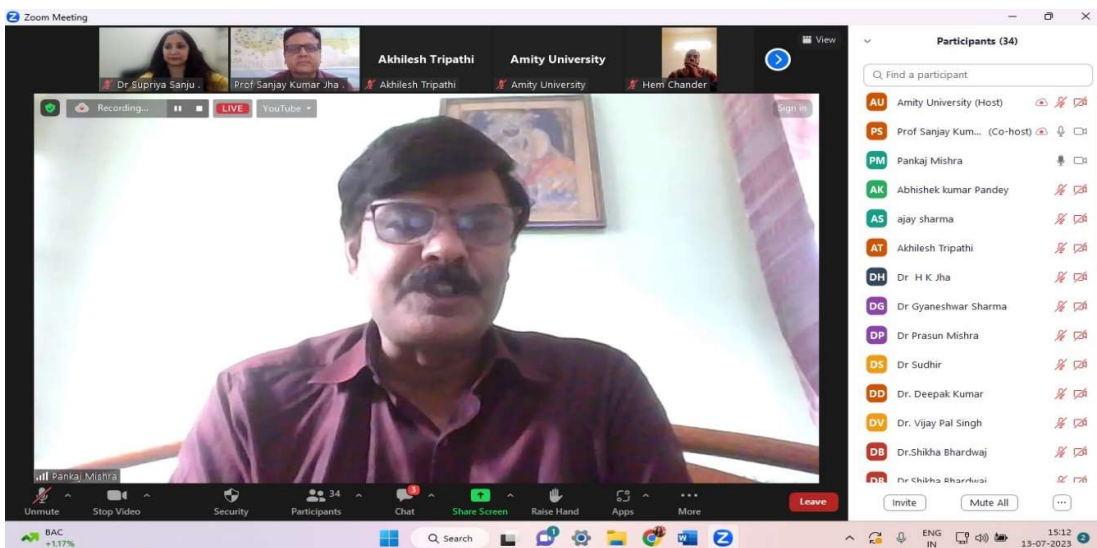

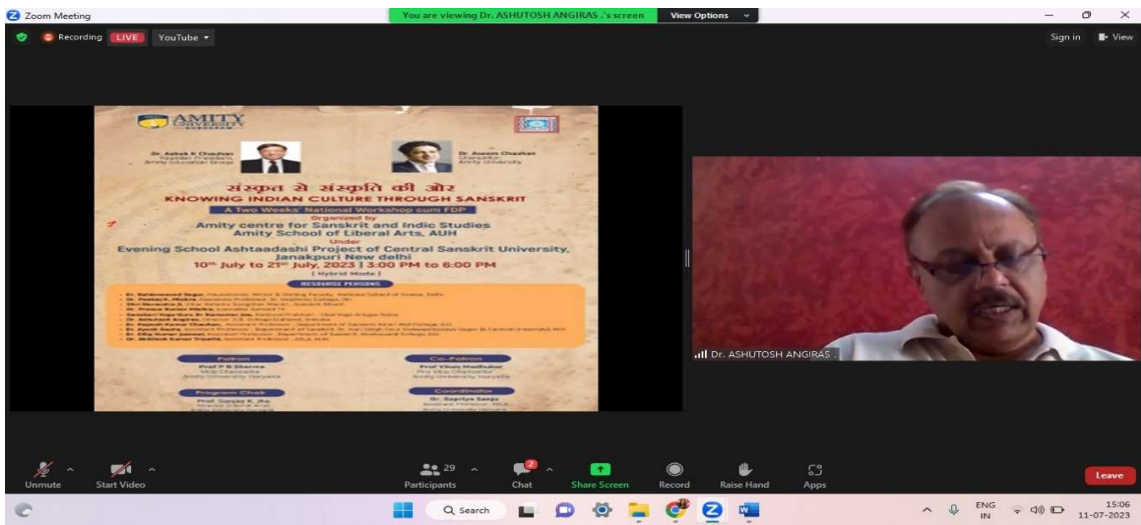

Dr. Supriya Sanju, the coordinator of the Amity Centre for Sanskrit and Indic Studies, managed the stage proceedings during the workshop.

This workshop was highly successful. Many scholars from across the country representing Sanskrit and culture joined us through this workshop. The scholars assured us of their support and commitment to reaching Sanskrit and culture to every household. This accomplishment is a significant milestone for our department.

3.1 General Introduction of the Event

A Workshop was organised for the students of 3rd Semester AID (Fashion). Mr. SAM VINAY RAO was invited as an expert to introduce students with the graphic design software Adobe Photoshop. Because Photoshop is so widely used in Fashion design, marketing, creative and engineering roles, Photoshop skills are useful for professionals and students. Since, it launched more than 25 years ago, Adobe Photoshop has become the undisputed king of image manipulation software. Photoshop has become one of the most widely used programs across a variety of industries, and having Photoshop skills helps whether the working professional, a student, or an enthusiast. Because learning Photoshop can take some time, students may want to consider Photoshop classes and workshop to improve their Photoshop skills. Hence, a brief one-day Workshop was scheduled on 8th Aug'2023.

CAM WORKSHOP ON BASICS OF ADOBE PHOTOSHOP

By GUEST EXPERT

**Mr. SAM VINAY RAO
Assoc. Prof., ASCO, AUH**

Date: 8th Aug'2023

4. Outcome related to Students Learning & Grooming				
i. Industry Knowledge		<i>Achieved</i>		The visit to the industry provided students with the opportunity to learn about the Oil tools industry and its working.
ii. Networking		<i>Achieved</i>		During the visit, the students were given the chance to interact with various professionals working in the company. This helps in fostering connections and building meaningful relationships with industry experts which is considered valuable for future internships, job opportunities, or mentorship.
iii. Work Environment		<i>Achieved</i>		The visit to the industry gave students a glimpse into the actual work environment. The students were able to observe the concepts of management learnt in their course in its real-life application. They were able to observe the dynamics among employees, understand the company's values and mission, understand the need for safety at workplace, and learn about the teamwork and collaboration required to achieve organizational goals.
iv. Professional Etiquettes		<i>Achieved</i>		Being in environn

				industry visit provides students with the opportunity to learn about professional etiquette, conduct, and workplace norms. They learnt the importance of punctuality, dress code, communication skills, and other aspects of formal conduct.
5. <u>Any other</u>				

3.1 General Introduction of the Event-

A visit to Botil Oil Tools India Pvt Ltd., an established manufacturer and global supplier of a comprehensive range of Downhole Drilling & Production Oil Tools, was organized by Amity College of Commerce on 17th August, 2023. There was a total of 16 students accompanied by the event coordinator and faculty for the programme, Mr. Shiv Swaroop Jha, Head of the Department, Amity College of Commerce. The main aim of the industry visit was to familiarize students with the actual working of an industry and provide them with exposure to an industrial work environment. It also aimed to bridge the gap between theory and practice and provide students with the opportunity to see concepts of management and work come into action. The students reached the prescribed venue by 10:30 a.m. They were given a general introduction to the company by Mr. Jitender and Mr. Pradeep, where they were briefed about the company, its working, and its commitment to safety. Soon, students were taken to different locations of the factory including the shop floor and gauge room and were briefed about the products and tools manufactured and exported. The accompanying faculty, Mr. Shiv Swaroop Jha explained the students how exports made by Indian companies like Botil Oil Tools Pvt Ltd. Would help India in earning foreign exchange and give India international credibility, ultimately strengthening the Indian economy. The session was concluded with each student sharing their takeaways after which refreshments were offered. The visit concluded at 1:00 p.m. and the students returned to college by 1:30 p.m.

3.2 Inspiration & Objectives of the Event

Going on an industry visit serves as a bridge between theoretical learning and real-world application. By physically observing the operations, processes, and workflows of a company or organization, the visit aimed to allow students to gain a deeper understanding of various aspects such as production methods, quality control, supply chain management, and employee dynamics. The interaction of students with various professionals and employees of the Botil Oil Tools Pvt Ltd. allowed the 16 students to engage in conversations, ask questions and open doors to networking opportunities and potential mentorship. Through the observation of day-to-day activities and subsequent exploration, the students were expected to enhance their comprehension of the field and its practical applications. Such immersive involvement enabled them to apply their theoretical knowledge, cultivate practical skills, and acquire valuable industry exposure. The presence of Mr. Shiv Swaroop Jha, the accompanying faculty member, ensured appropriate guidance and supervision throughout the visit. In essence, the visit was intended to inspire and motivate the students by acquainting and bridging the gap between theory and practical working of an industry.

-------------------	----------------------	--------------------	---	------------

1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement	Industry Visit to Napino Automobile Electrical spare parts manufacturing plant, has apprised the student with automated production process, the familiarity may help students for placements.	<i>Students become aware with production process, quality control measures, which may help students with knowledge to get into automobile sector placements.</i>	<i>The Industry Visit to Napino has familiarize and generated interest in students for placement in Automobile industry with adequate knowledge of it.</i>	<i>Students can clear placement process of Automobile electrical Industry as they are equipped with the knowledge of automated production process with attendant quality control measures.</i>
b) Collaborations for Research Papers	<i>The research topic based on automated production process with attendant quality control measures particularly for automobile industry can be prepared with this industry visit.</i>	<i>Students are prepared and motivate to conduct research project based on automated production process particularly involving automobile spare parts.</i>	<i>Students are advised to prepare their Research Report based on automated production process involving quality control, security, environment protection measures particularly for automobile electrical spare parts manufacturing plants.</i>	<i>Students have learnt the process of automated production related to automobile electrical spare parts production units so as to prepare research papers based on this.</i>
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Summer Training and Dissertation Reports based on automated production process	<i>The understanding and comprehensive knowledge of automated production</i>	<i>Summer Training strategy along with Dissertation topics based on automated production process of automobile spare parts plant is well understood and learned by students.</i>	<i>Students have learned and understood the process of automated production of automobile electrical spare parts manufacturing plants, which would help them to carry out their summer training and dissertation much easier.</i>

	particularly related to automobile spare parts manufacturing plants; are clearly understood and learned.	<i>process particularly of switches, gears and other spare parts; will help students for their summer internship and dissertation projects in these areas.</i>		
d) Collaboration for Funded Projects	No	No	No	No
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				<i>The Future managers whom we are training will be the change agents in the future</i>
4. Outcome related to Students Learning & Grooming				
	<i>Through Industry Visit, students understood the process of automated production of automobile spare parts particularly switches, along with applicable quality measures.</i>	<i>Students became aware and understood the automated production process with attendant quality control, safety and hygiene measures particularly related to automobile electrical spare parts</i>	<i>Students learned how automated production processes with attendant quality control measures is managed efficiently.</i>	<i>The production process of automobile electrical spare parts particularly various type of switches and clusters are learned and viewed by the students.</i>
5. Any other				
Students become conversant with security, hygiene, environmental protection and quality control measures related to automated production of automobile and electrical spare parts manufacturing plants.				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

The Industry Visit is an integral part of MBA Industry Interface and Economics student with insights into the real working of industry in operation, wherein they can co-structures, policy implementation and floor execution in entirety, enabling them management concepts and cases that are delivered to them in the classes.

3.2 Inspiration & Objectives of the Event

To apprise and mould Management and Economics students of ABS/ASE, AUH to have insight into the actual working of corporate ecosystem/ expert mind-set, and how best to mould themselves with intellectual, behavioural, personality and execution skill-set to become an efficient Manager.

3.3 Brief about the address/talk of speakers

- The Industry Visit to Napino Auto Electrical Ltd., IMT, Manesar; initiated with 12 MBA first semester, 3 M A and 5 BA (H) Economics students accompanied by faculty coordinators Prof. (Dr.)A M Jose and Dr. Jomit C P through the Bus which started from Amity campus on 8 am and reached factory premise by around 9 am, wherein the Senior HRSwetaGumansinghwelcomed the students and faculties, after briefing about the plant which manufactures automobile electrical switches, clusters, PCBs, and other spare parts, offered tea and snacks to the team before the presentation session.
- Ms. Sweta Gumansingh along with her teammate Ms. Nehaapprised the team through presentation about the production process at Napino, which is completely automated adhering strictly to every security, hygiene, pollution control, environment protection and quality control measures. In the technical presentation they have shown various products that the company offers, the clients that the company has and to name a few like Hero, Honda, Mahindra, Suzuki, TVS, Yamaha, Audi, Jaguar etc. During our interaction with the Corporate HR, we got to know how the company market its product, since the company works on B2B model it sells the product directly to its client company through OEM, and if some pieces are left then those are sold to local vendors and shops.
- Following the presentation, there was an interactive session with students during which the organisation HR Manager and Training Specialist answered the questions asked by the students regarding the organisation. Then they take the team to their production unit where a couple of their employees gave us an outline of all the products that are currently being manufactured, including the Regulator Rectifier and additionally the machine that they prefer to utilise for an outstanding result. All products are produced through automated process in a sequential order so that highest quality is maintained.
- The Industry Visit ended at 11.30 am with photo session and thanksgiving between the faculty coordinators and HR.

INDUSTRIAL VISIT REPORT BY Abhirami S (MBA-HHM) on 17.08.2023

Napino vehicle & Electronics Ltd

Dedicated to providing its customers with higher value in the area of vehicle electrical and electronic products, Napino vehicle & Electronics Ltd. is a focused and active business. The company is focused on the manufacturing and supplying of wide variety of product related to automobile as well as electronic components. The company was established operations in Udyog Vihar in 1997 and had a turnover of 1350 Cr in 2021-22. They have a total of 9 plants and 6 group companies. The company mainly consists of two main categories- R&D Centre (Research and Development) and the main production centre.

In 2001 the company joint venture with a Japan company Shindengen Electrics. They directed on line supplier by hero in 2003 and established R&D center in 2003. The company joint venture with continental for instruction clusters, other than that licensing agreement with Fallbrook and CVP technologies moreover joint ventures with domino for electromechanical products in 2018. In 2019 the company signed with Fransis for lithium battery packs.

The Manesar Sec-8 Plant, formerly known as the Napino Plant, was established in 2012 and is the one I visited on August 17, 2023. The vision of the company indicates the technology driven organization preferred by customers and admired by employees and finally focused on achieving sustainable growth through business excellence and the mission of the company includes to continuously strengthen and upgrade their manufacturing process, quality systems and people competencies to achieve their vision.

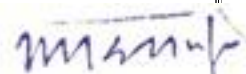

Regulator Rectifier (RR), Flexible PCB (Printed Circuit Board), TW Switches, Electronic Control Units, ISO Controller, SRM (Supplier Relationship Management, which focuses on SCM performance), O2 Sensor, and a wide range of other goods are just a few of their offerings. Currently, the company Napino mostly concentrates on producing parts for two-wheelers, but it has future intentions to pursue the production of four-wheelers as well.

The industrial tour on August 17, 2023, began at 8 a.m., and in a hour we reached at the Napino the site in Sec-8 Manesar. Before a PowerPoint presentation that detailed the firm's history, products, clients, and future efforts, we were first taken to a training room where we were given a brief introduction to what the company does. Following the presentation, we had open discussion session during which the organisation HR Manager and Training Specialist answered any questions we had regarding the organisation. Following on, we were given a guided tour of the Goods Production Complex where a couple of their employees gave us an outline of all of the products that are currently being manufactured, including the Regulator Rectifier and additionally the machine that they prefer to utilise for an outstanding result.

Despite the fact it was slightly unrelated to the topic for me, I was very enthusiastic about seeing how these things were made. It offered me a general understanding of how automobiles and electronics are made, and I learned about the quality control procedures used to ensure the highest quality and that the goods meet the required requirements. From the HR Manager of the company, Swetha, we learned about the management techniques. She also gave us a brief overview of the duties and obligations of each employee working there. The sterility was the one aspect of the business that really impressed me. They uphold a secure and sterile environment for the workers, which also shows they did not want to skimp on product quality.

To Amity University, I would like to convey my sincere gratitude for sponsoring and coordinating this educational factory tour of Napino Auto & Electronics Ltd. The coordination and advice of Prof (Dr) A M Jose and Prof Jomit C P made the first industry visit an incredible educational experience. Last but not least, I want to express my gratitude to my other classmates for travelling with me to this organization.

In conclusion, this IV gave us an excellent introduction to comprehending the in-depth knowledge of the unseen and increased our comprehension of practical application. This endeavour definitely increased our learning experience and our understanding of the sector.

Industrial Visit Report by Bhavesh Agrawal MBA students of AUH on 17-08-2023

I. Executive Summary:

Briefly summarize the purpose of the industrial visit, the company visited, key takeaways, and overall experience.

First time in the industrial visit the main purpose in the industrial visit is to know about the industry and to explore the new thing for my knowledge and for betterment of my future.

II. Introduction:

Provide an introduction to the industrial visit, including the objective the company visited, its industry, and its significance in the business landscape.

The name of the industrial visit is NAPINO is the IT sector and the work on which fully automatic machine and for and two and four-wheeler vehicles.

III. Company Overview:

Present a detailed overview of the company, including its history, mission, vision, products/services, market presence, and any other relevant information.

The overall view is best and new knowledge. The major customer of this IT sector is HERO.

IV. Itinerary:

Outline the schedule of the industrial visit, including the date, time, locations visited within the company, and activities conducted during the visit.

The timing on the industrial visit is 8:00 AM reach on 9:30AM in the industrial visit and to see video of

Industrial Visit Report by Abhinav a student of MBA on 17-08-2023

I. Executive Summary:

Industrial visits are a crucial part of the program as it gives exposure to real working environment as well as practical perspective. In this industrial visit we had a chance to visit Napino E Mobility Solution. We saw how the company functions and how they manufacture product and checks its standards. The overall experience was really good and it was worth visiting there.

II. Introduction:

Napino E Mobility Solutions is a company that provides electrical solutions to the automotive industry particularly focusing on 2 wheelers.

The visit provided us with a firsthand experience of the company's operations. During the visit, we had the opportunity to see the company's manufacturing facilities, R&D labs and some products that they had made in past.

Napino's significance in the business landscape arise from its role in shaping the future of automotive technology. As we

INDUSTRIAL VISIT REPORT BY DISHANT MALHOTRA
(MBA) (BANKING FINANCE) 17-08-2023

EXECUTIVE SUMMARY-

OUR INDUSTRIAL VISIT WAS SCHEDULED ON 17-08-2023 TO NAPIANO AUTO AND ELECTRONICS LIMITED. THIS PLANT WAS ESTABLISHED IN 2012 WHICH IS ORIGINALLY CALLED AS THE MANESAR SEC-8 PLANT. IT WAS AN AMAZING EXPERIENCE AND I LEARNED HOW THEY MANAGED THEIR WORK PROPERLY AND EFFICIENTLY.

INTRODUCTION-

The company was established in 1997 and had a turnover of 1350 Cr in 2021-22. They have a total of 9 plants and 6 group companies. Their company mainly consists of 2 main categories- R&D Centre (Research and Development) and the main production centre.

COMPANY OVERVIEW-

NAPINO Auto and Electronics Limited is the largest manufacturer of Regulator/Rectifier and Capacitor Discharge Ignitors in India. Equipped with state-of-the-art facilities and leading technology from around the globe, the engineering capability ensures production of world class products.

- They have 13 SMT lines over 3 locations.
- With new generation Diagnostic equipment including the X-Ray Machine, Micro Analysis Test Lab & Automatic Optical Inspection Equipment installed at our facilities, we guarantee accuracy in performance.
- Their products include- Regulator Rectifier (RR), Flexible PCB(Printed Circuit Board), TW Switches, Electronic Control Units, ISO Controller.

INDUSTRIAL VISIT REPORT BY Melvin Johnson (MBA-HHM) on 17.08.2023

Napino vehicle & Electronics Ltd

Napino Vehicle & Electronics Ltd. is a focused and dynamic company committed to giving its clients greater value in the area of vehicle electrical and electronic goods. The company's main areas of focus are the production and supply of a wide range of products linked to automotive and electronic components. The business started operating in Udyog Vihar in 1997, and in 2021-2022 it generated a revenue of 1350 Cr. They have a total of 6 group companies and 9 plants. The R&D Centre (Research and Development) and the primary production center make up the majority of the company.

The business formed a joint venture with Shindengen Electronics in 2001. They built an R&D center in 2003 and directed an online supplier by hero. In addition to a licensing agreement with Fallbrook and CVP technologies and joint ventures with Domino for electromechanical goods in 2018, the company has a joint venture with Continental for instructional clusters. The business secured a contract with Fransis for lithium battery packs in 2019.

I went to the Manesar Sec-8 Plant on August 17, 2023; it was founded in 2012 and was originally known as the Napino Plant. The mission of the company includes continuously improving their manufacturing process, quality systems, and people competencies in order to realize their vision of becoming a technology-driven organization that is admired by employees and customers alike and focused on achieving sustainable growth through business excellence.

Just a few of their products include Regulator Rectifiers (RR), Flexible PCBs (Printed Circuit Board), TW Switches, Electronic Control Units, ISO Controllers, Supplier Relationship Management (SRM) and a vast range of other items. The company Napino mostly produces parts for two-wheelers but it plans to also pursue the production of four-wheelers in the future.

On August 17, 2023, the industrial tour started at 8 a.m., and after an hour we arrived at the Napino site in Sec-8 Manesar. We were taken to a training room where we were given a brief overview of what the company does before a PowerPoint presentation that covered the firm's history, products, clients, and future initiatives. The organization's HR Manager and Training Specialist answered any inquiries we had about the company during the open discussion that followed the presentation. After that, we received a guided tour of the goods production complex, during which a few of their staff gave us an overview of all the items currently being produced, including the regulator rectifier and moreover the machine.

I was quite interested in learning how these objects were manufactured, even if it was somewhat unconnected to the issue for me. It gave me a general idea of how cars and gadgets are created, and I discovered the methods used for quality control to guarantee the greatest quality and that the products adhere to the specifications. We heard about management strategies from Swetha, the company's HR Manager. She also gave us a brief rundown of the responsibilities and responsibilities of each person there. One thing about the business that really impressed me was how sterile it was.

They provide a safe and sanitary working environment for the employees, demonstrating their commitment to high-quality products.

I would like to express my sincere appreciation to Amity University for supporting and organizing this informative manufacturing visit of Napino Auto & Electronics Ltd. The first industry visit was an amazing educational experience thanks to Prof (Dr) A M Jose and Prof Jomit C P's planning and guidance. Last but not least, I would want to thank my fellow classmates for accompanying me to this organization.

In conclusion, this IV improved our understanding of practical application while providing a great start to understanding in-depth knowledge of the unseen. This project undoubtedly improved our knowledge of the industry and our learning experience.

With sincere gratitude,

Melvin Johnson(A51339523002)

First industrial Visit Report by Riya Nagar 17-08-2023

(MA Economics semester 1)

I. Executive Summary:

We visited Napino, an auto mobile company in Manesar, Haryana. We (students) were 20 in number. We visited there to understand the functioning of the company and how that particular plant is operated and managed. Overall, the experience was great.

II. Introduction:

Napino Auto and Electronics Limited is an unlisted public company incorporated on 14 November 1991. The main objective of visiting there was to learn and experience how a corporate company function. We were guided by Miss Shweta (Manager).

III. Company Overview:

Napino Auto AND Electronics Limited is a non-govt company, incorporated on 14 Nov, 1991. It's a public unlisted company and is classified as company limited by shares. Their mission is to continuously strengthen and upgrade our manufacturing processes, quality systems and people competencies to achieve their vision of technology driven organization, preferred by customers and admired by employees, focused on achieving sustainable growth through business excellence. The company deals in the production and manufacturing of automotive electronic products, electronic fuel injection system, instrument cluster, e – mobility, wiring harnesses, ISG and controllers, IoT products, transmission system. etc.

Industrial Visit Report by Varada Jayadev (MBA) on 17-08-2023

Our industrial visit was scheduled on 17-08-2023 to Napino Auto & Electronics Ltd.

Napino Auto & Electronics Ltd. is a focused and dynamic company committed to achieving greater value for its customers in the field of auto electrical and electronic products. Napino Auto & Electronics Ltd is an Indian company primarily engaged in the automotive and electronics industries. The company specializes in manufacturing and supplying a wide range of products related to automobiles and electronic components. Their offerings include electrical and electronic systems, wiring harnesses, control modules, sensors, and other automotive components.

The company was established in 1997 and had a turnover of 1350 Cr in 2021-22. They have a total of 9 plants and 6 group companies. Their company mainly consists of 2 main categories- R&D Centre (Research and Development) and the main production centre.

The Napino plant we visited on 17-08-2023 was established in 2012 which is originally called as the Manesar Sec-8 Plant. The vision of the company includes a technology driven organization preferred by customers and admired by employees and finally focused on achieving sustainable growth through business excellence. The mission of the company includes to continuously strengthen and upgrade their manufacturing process, quality systems and people competencies to achieve their vision.

Their products include- Regulator Rectifier (RR), Flexible PCB(Printed Circuit Board), TW Switches, Electronic Control Units, ISO Controller, SRM(Supplier relationship management which practices on the SCM performance), O2 Sensor and so many more. The company Napino mainly focuses on manufacturing parts for two wheelers as of now and plans to expand their market in the future by targeting four-wheeler manufacturing as well. They also focus on JV's (Joint Venture) mainly at the

Point wise highlights of the Event:

Groz Engineering Tools Pvt. Ltd. is one of the industry's leading supplier of quality tools, with state-of-the-art manufacturing facilities amounting to 500 000 sq. feet area, over 30 years of experience in customer satisfaction - first in Germany and, since 1981, in the USA, Australia, New Zealand, Africa, UK, Europe and India.

On receiving the letter of permission from Groz Tools, 20 students along with Dr Rajesh Arora, faculty from ASET, visited Groz Tools, National Highway-8, near haldiram's Village, Kherki Daula, Sector 76, Gurugram, Haryana 122001 on 17th august 23. All the students assembled near the Banyan Tree at 12:30 pm and left the college at 12.40 pm. The bus reached the Groz Tools at 1:30 pm.

After reaching the entrance, all the students received their visiting ID cards. All the students were greeted at the door by the company's engineer in charge, and then instructed to go to the training room. Three mentors namely Mr Ajay, HR Head, Dr JP (Vice President, HR), Mr Devender, Plant Engineer facilitated the visit. Each of them provided a brief introduction before sharing some background information about the business. Additionally, they discuss their company's viewpoint and its significance in research fields like the manufacturing of tools, analytical studies and case studies etc. with the students.

SESSION 1: Die Casting & Assembly Section

Mr. Devender, Plant head provided a brief overview of **Die Casting & Assembly Section** of Groz Tools to all the students.

Mr. Devender is a mechanical engineering with more than 20 years of experience working as a senior engineer. His areas of expertise include machine tools, die casting, manufacturing and assembly of different part. He provided a brief overview of different operations carried out during die casting of different components. Die casting is a metal casting process that involves feeding molten nonferrous alloys into dies under high pressure and at high speed to rapidly create molded products. The main materials used in die casting are alloys of aluminium, magnesium and zinc. Additionally, Mr. Devender highlighted the function and applicability of various components manufactured in the company and highlighted various aspects like types of metal used in die casting, Processes and how die castings are produced, Die casting: hot and cold and Die casting design geometry in context with die casting.

This session was followed by a lengthy conversation between the students and the mentors, which was very engaging and beneficial for the students.

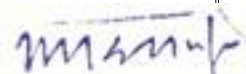

SESSION 2: Quality Control Department of Groz Tools

Mr. Ajay, Plant head provided a brief overview of Quality Control Department of Groz Tools to all the students.

Quality control department of Groz Tools involves testing units and determining if they are within the specifications for the final product. The purpose of the testing is to determine any needs for corrective actions in the manufacturing process. Good quality control helps companies meet consumer demands for better products

Various important terms like Quality assurance (QA) and quality control (QC), industry perspective on Quality assurance (QA) and quality control (QC), History of QA and QC, QA and QC resources were demonstrated by the plant head.

Quality assurance and quality control are two aspects of quality management. While some quality assurance and quality control activities are interrelated, the two are defined differently. Typically, QA activities and responsibilities cover virtually all of the quality system in

Registrar

Amity University Haryana
Manesar Gurgaon-122413

another, while QC is a subset of the QA activities. Also, elements in the quality system might not be specifically covered by QA/QC activities and responsibilities but may involve QA and QC.

This session concluded with a question-and-answer segment, in which students participated actively.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

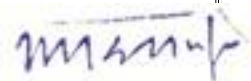

Amity University Gurugram organized Virtual industrial visit to Yakult Danone India Pvt. Ltd On 17th August 2023 to provide the exposure of Industry working to the students. Twenty-Eight students participated in the visit from Amity School of Engineering and Technology(ASET). Dr. Deepak Kumar of the ASET Department of Amity University Haryana accompanied the students to the industry visit. It was a successful and an informative event.

3.2 Inspiration & Objectives of the Event

- To provide insights into the industry to the students.
- To bridge the gap between classroom teaching and practical working environment
- To provide students an insight into the real working environment, workstations, plants, assembly lines, machines, systems etc.

3.3 Brief about the address/talk of speakers

The students were briefed about the working of the company. It was told that The bench scientifically established through years of research and more than 40 million bottles

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event-

Amity School of Hospitality (ASH) in collaboration with Corporate Resource Centre, AUH organized "Industry Visit to Radisson Blu Plaza Hotel, Mahipalpur, New Delhi" on 17/08/2023 between 10 AM – 3 PM. The faculty coordinators were Dr. Kumari Shiwani – Assistant Professor & Mr. Mohammad Soyav – Assistant Professor. The objective to organize this event was to make ASH students visit Radisson Blu Plaza Hotel, Mahipalpur, New Delhi to gather information about latest trends practiced in hotels & to get the feel of live atmosphere of a 5 Star Hotel. Hotel Visit is a significant part of Hospitality & Hotel Management Course. Hotel Visit provides exposure of Hospitality & Hotel Industry to students. Hotel Visit provides idea about how a hotel looks like, what are various departments, their chief functions & operations, career prospects etc. to Hospitality & Hotel Management Students. A total of 17 ASH students, comprising of 13 students of Bachelor of Hotel Management (BHM) and 4 students of Bachelor of Tourism & Travel Management (BTTM), visited "Radisson Blu Plaza Hotel, Mahipalpur, New Delhi". The BHM & BTTM students of ASH got the opportunity to see hotel and meet hoteliers. The students were shown presentation about the hotel at the very beginning. Thereafter, they were taken to each & every department such as front office, restaurants, bar, banquets, conference rooms, business centre, executive lounges, guest rooms, kitchen, staff cafeteria, housekeeping, laundry, purchase, stores, reservations, accounts/finance, human resource, training/learning & development, security, engineering, sales & marketing etc. of the hotel & chief functions of each & every department were explained briefly for better understanding of students. The students were also briefed about significance of pleasant personality, neat & tidy appearance, immaculate grooming, go-getter attitude, pro-active mindset, blend of hard & smart work, punctuality & honesty in hotels. The students were also briefed about career opportunities in various departments of a hotel. At last, the students were motivated to ask questions, if any, to clear any doubt whatsoever.

3.2 Inspiration & Objectives of the Event: To make students of ASH visit Radisson Blu Plaza Hotel, Mahipalpur, New Delhi in order to acquire knowledge about latest trends practiced in hotels.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event –

Copyrights, Patents and Extramural Research in Nursing are important topics to be covered. As for now nursing department is also indulge with patents, copyright, and extramural research. It really enhanced the quality of nursing and gave advanced modalities to treat patients with successful rate by decreasing mortality rate compared to previous disease history.

3.2 Inspiration & Objectives of the Event

This webinar will enable the participants to:

1. Acquire knowledge regarding patent.
2. Discuss about copyright and its perspective.
3. Describe about the extramural research in nursing.

3.3 Brief about the address/talk of speakers.

Mr Sembian. N shared about the patent, what it is and how to get it. He also gave some brainstorming to get an innovative idea by seeing pictures. He discussed about the copyright, its type and what are the rights of paternity and rights of integrity. He clearly makes the process of copyright to be understandable by showing flowchart and described it perfectly. Finally, he explained about the extramural research in nursing and encouraged everyone to be a part of it.

Ms. Supreet Rupam AP-I, Amity College of Nursing, AUH welcomed the Guest speaker and all the participants. She gave brief introduction of Mr. Sembian. N. He has 18 years of Teaching Experience; specialized in Medical Surgical Nursing Has numerous publications, Record as Speaker and chairperson in various conferences and Applied for One Copyright. Editorial board member in International Journal of Nursing Critical Care, International Journal of Cardiovascular Nursing, International Journal of Emergency and Trauma Nursing and reviewed number of papers. Mentor for QCI under JHEPIGO in U.P, NAAC criteria Head and Member of IQAC in UPUMS. Master trainer of HIV under INC. Performing as a member – in various state and National level online examination in UPUMS

Ms. Harshna Richard AP-II, Amity College of Nursing, AUH, gives vote of thanks to Chief Patrons, Dr. Ashok K. Chauhan, Founder President, Amity Education Group, Dr. Aseem Chauhan, Chancellor, Amity University, Prof. Dr. PB Sharma, Vice-Chancellor, Amity University Haryana, Prof. Dr. Vikas Madhukar, Pro Vice-Chancellor, Amity University Haryana. She also thanked Dr Sunita Srivastava Principal Amity College of Nursing for guiding and supporting in this event. She thanked **Mr Sembian. N** for taking such a knowledgeable and wonderful session and for sparing time for this webinar. She thanked convenor of this event Ms. Supreet Rupam and co-coordinator Ms. Harshna Richard for conducting the last, she thanked all the faculty members, students those who have participated in enthusiasm.

				Students learnt and understood about the NTCC courses in PG programmes provided by Amity University, Haryana to all the students of CBFS. The session revolved around the Writing a paper which is necessary for the NTCC courses.
5. Any other				

2. Event Report along with glimpses of the event (Photographs)

Seminar started with introduction of the speaker. The seminar: **“Introduction of NTCC courses and Research Orientation”** held on 24th August, 2023 conducted by Prof. S.R. Pathak.

The aim of the session is to make students aware about the NTCC courses in PG programmes and How to write the paper? The first part of the session focuses on the NTCC courses provided to the students by the department in which the NTCC courses, a unique feature of PG programmes has been elaborated. The NTCC courses are non teaching credit courses and are the part of the curriculum. There will be a total five NTCC courses (Term paper, Sumr

project, Research seminar, Good laboratory practices) during the post graduation. The supervisors will be allowed to the students for these courses under whose guidance students have to make the report of their work in the given format and also have to present their work in the form of presentation. A highly useful activity i.e., Good laboratory practices session will also be held which will be hosted by the experts from DST. The second part of the session emphasizes on How to start the research? How to search the literature? A very appropriate “Keyword” is must for searching the literature. Bloom’s taxonomy is used to map the content: Remember→ Understand→ Apply → Analyze→ Evaluate→ Create.

Critical thinking is a very important part for the research. One must have these questions in mind while going for research: “Why?”, “How does that work?”, “What that made of?”, “What does that mean?” etc. There are many Publication house like Wiley, Sciencedirect, Bentham, Springer, etc and many journals like ACS Nano, Inorganica Chimica Acta, Journal of Molecular Liquids, Coordination Chemistry Reviews, etc. Scopus index journals have highest weightage.

Google scholar is used to search the literature which is already published. There are two type of papers that are Research paper and Review article. Sources of literature are library, digital library, web, google, scifinder. CAS (Chemical Abstract Services) is used to find the structures.

First step is fixing a topic for review, then we must have a question in mind why only this topic, what is the significance of this topic, then find out research gap, gap and flaws must be ensured and it should not be done previously (must have new idea), topic must be relevant. Keywords plays a very important role like “and”, “or”, “not” are the keywords that must be used wisely to get proper paper. This is how to start writing a paper.

Future plan for utilizing the contacts developed with the Invited Guests: NA

ESTABLISHED BY THE HARYANA ACT NO.10 OF 2010 AND UGC RECOGNISED • LOCATED AT GURGAON (MANESAR)

Contemporary Research Endeavors The Seminar Series

“Introduction of NTCC Courses and Research Orientation”

Speaker : Prof. Seema R Pathak, HOD, CBFS, AUH

**Organized by: Department of Chemistry, Bio-Chemistry
and Forensic Sciences, ASAS**

Venue: D-205; Date: 24th Aug 2023 (Thursday); Time: 3.50-4.45pm

Audience

**Compulsory to all students of M.Sc. Applied
Chemistry, M.Sc. Bio Chemistry and M.Sc. Forensic
Science (First Semester)
Others are welcome to attend**

Name & Signature of the Event Coordinator

Dr. Supreet
Outcome Coordinator, ASAS

Prof. Atul Thakur
Head of Institute, ASAS

Directorate of Outcome
Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 25/08/2023
Event Type: Student Training
Event Theme : Cyber Security and Ethical Hacking
Event Title: Workshop on Cyber Security and Ethical Hacking
Venue: B Block Auditorium
Organized by(School): Amity School of Engineering and Technology
Student Participation*: No. of Students from AUH – 132
Faculty Participation*: No. of Faculty Members from AUH:-02
Participation from outside AUH: No. of Students & Faculty Members-Nil
(Enclose attendance sheets in given format)

Event Coordinator(s) with designation : Dr. Shweta Sinha, Associate Professor
 Ms.Nishu Sethi, Assistant Professor

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Address	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/ No)
1	India	Mr. Aman	Network Bulls	Event Co-ordinator	Networking	8800 4797 03		Network bulls	training	NA
2	India	Mr. Sandip	Network Bulls	Network Trainer	Cisco Certified-inter network expert	NA	sandipn4041998@gmail.com	Network Bulls	Certification and Training	NA

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	NA			
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NA			From the academic point of view participants can use their skills learned for working on projects. Summer internship and project trainings can be provided to students from Amity at nominal charges.
c) Collaboration for Funded Projects	NA			
2. Outcome related to Industry Connect				
a) Placement	NA			
b) Collaborations for Research Papers	NA			

c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NA			
d) Collaboration for Funded Projects	N/A			
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	NA			
b) Benefit to society in terms of Education		Yes	25/8/2023	Students participated keenly in the discussion and cleared their doubts regarding the network technology. They learnt about the holistic approach towards the research in the sustainable world.
4. Outcome related to Students Learning & Grooming				
				Students learnt about developing solutions for networking and security problems, balancing business concerns, technical issues for improving small to medium and medium to large business. They were motivated to do research in the area of network technology.
5. Any other-NA				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

Objectives of the Event:

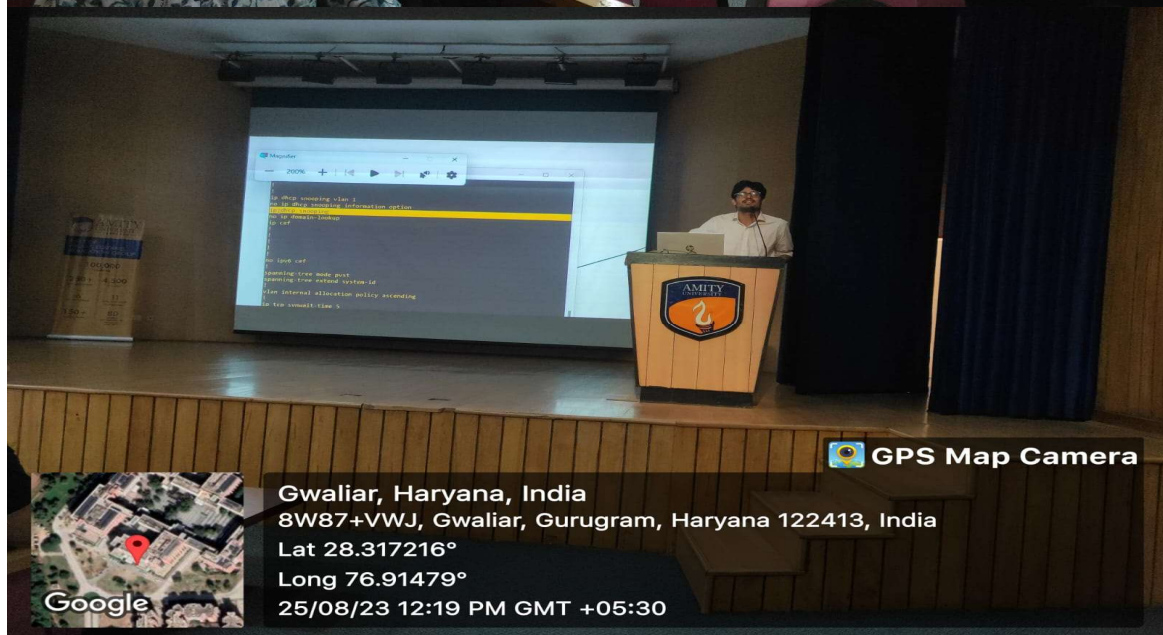

1. To show student importance of Cyber Security and Ethical Hacking.
2. To introduce students about latest technology and certifications in Computer Networking.
3. Make students aware about necessary skills to enter in Networking Companies.

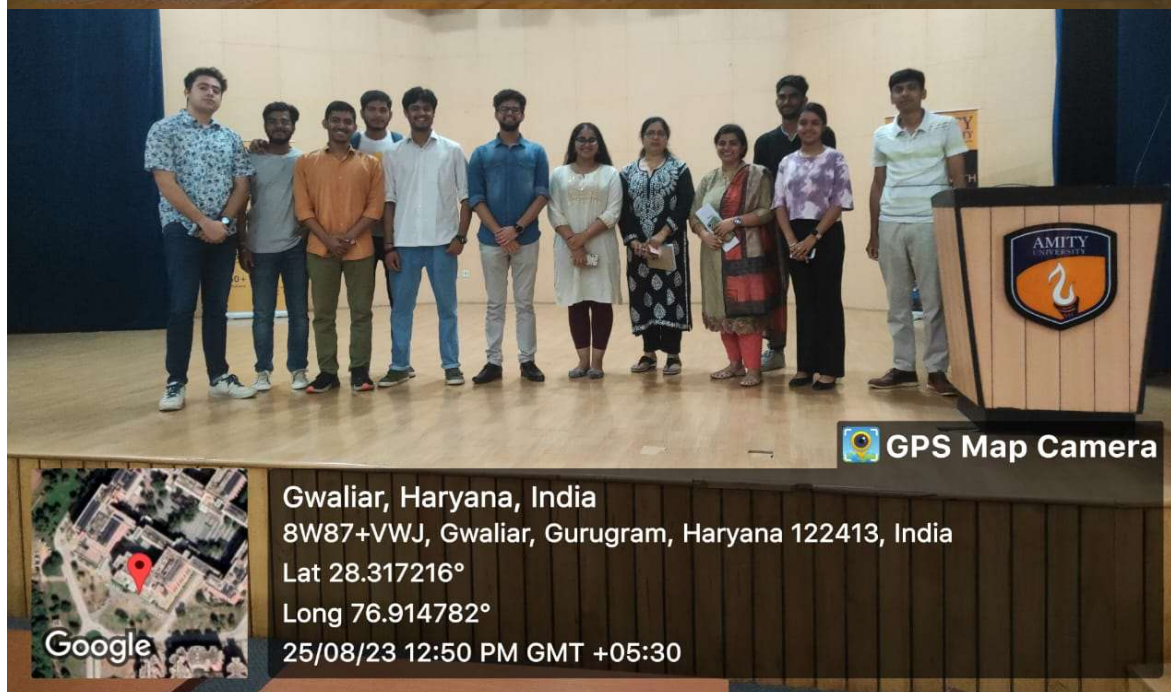

3.3 Brief about the address/talk of speakers :

Mr. Sandeep: He briefed about the security and red team, blue team hacking. He also talked about different kinds of hacking tests and ways of ethical hacking

Mr. Aman : He briefed about the different courses that network bulls is currently offering and encouraged students to enrol and understand the world of cyber security.

3.3 Photographs with caption (also share high resolution JPEG files of photographs)- Attached

c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	yes			
d) Collaboration for Funded Projects	yes			
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education	yes			
4. Outcome related to Students Learning & Grooming				

Increased Awareness: Students are now more aware of the potential online threats and cyber security challenges they may encounter in the digital world.

Enhanced Knowledge: Participants have gained valuable insights into cyber security best practices, online safety measures, and ways to protect themselves from cyber threats.

Improved Online Behavior: Students are expected to exhibit more responsible and secure online behavior, such as using strong passwords, avoiding suspicious links, and being cautious about sharing personal information.

Empowerment: The talk has empowered students with the knowledge and tools needed to navigate the digital world securely, making them less vulnerable to online threats.

Cyber security Consciousness: Students now have a stronger sense of cyber security consciousness, which will help them make informed decisions while engaging with technology.

Preparedness: They are better prepared to handle various online scenarios and know how to respond to potential cyber attacks or scams.

Community Engagement: The event may have sparked discussions and engagements within the student community about online safety and cyber security, leading to a more informed and vigilant digital society.

Future Awareness: Students may continue to stay updated on cyber security issues and share their knowledge with peers, contributing to a safer online environment.

Overall, the talk had a positive impact on students' learning and grooming by equipping essential skills and awareness needed to navigate the digital world securely and resp

Report:

Centre of Excellence for Innovation in Education, School of Engineering and Technology, and Academic Staff College, Amity University Haryana, joined forces to launch the Cyber Security and Coders Club. As part of this initiative, an expert talk was held on September 4, 2023, with the theme "Strengthening Online Safety: Nurturing Cyber security Awareness among the Youth." The featured speaker was Col Inderjeet Singh, Chief Cyber Officer at Vara Technology Pvt Ltd, a renowned expert in the cyber security field.

The primary objective of this talk was to raise awareness among young individuals about the critical importance of online safety and to in still a robust sense of cyber security consciousness.

During the talk, Col Inderjeet Singh provided invaluable insights and guidance on implementing measures to ensure a secure online experience for the younger generation. The talk was designed to empower participants with the knowledge and tools necessary to navigate the digital world securely.

Key highlights of the talk included discussions on the rising cybercrime rates in Delhi, with by 200% in 2023. Various forms of cybercrimes were addressed, including credit card an

medical data breaches, prescription and insurance fraud, identity theft, and the exploitation of computer resources for activities like crypto mining and spamming.

The talk also shed light on the thriving fake profile marketplaces online, emphasizing the importance of being cautious about digital footprints left behind on social media platforms. It was noted that even seemingly ephemeral content may have a lasting presence online.

The popularity of social media platforms was highlighted, with staggering numbers of users on platforms like Facebook, YouTube, WhatsApp, Instagram, TikTok, and more. The significance of online privacy and security in the age of social media was emphasized.

The discussion covered advanced cybercrimes, including the use of shortened or obfuscated links to deliver malware. Social engineering tactics employed by cybercriminals to gain access to sensitive information, such as through impersonating banks, credit card companies, medical providers, or government agencies, were also addressed.

Phone scams, including the grandparent scam and tech support fraud, were discussed, with an emphasis on verifying the legitimacy of incoming calls and never sharing sensitive information without proper verification.

The talk stressed the importance of strong password management practices, including the use of password managers to securely store and auto fill login credentials. Internet privacy and best practices for mobile security hygiene were also highlighted.

Overall, the expert talk served as a valuable resource for enhancing cyber security awareness among the youth and equipping them with the knowledge needed to protect themselves in the digital world.

1	India	Dr. Gyaneshwar Kumar Rao	Amity University Haryana	Assistant Professor	Organometallic complexes		gk Rao @gg.amity.edu			

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): The resource person was invited because he is the Assistant professor in Amity University Haryana and expertise in design of organometallic complexes and ligands.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

Yes, Dr. Gyaneshwar Kumar Rao known in advance to the students. He is an Assistant Professor, CBFS, ASAS, AUH.

Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved / Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. <u>Outcome related to Academia Connect</u>				

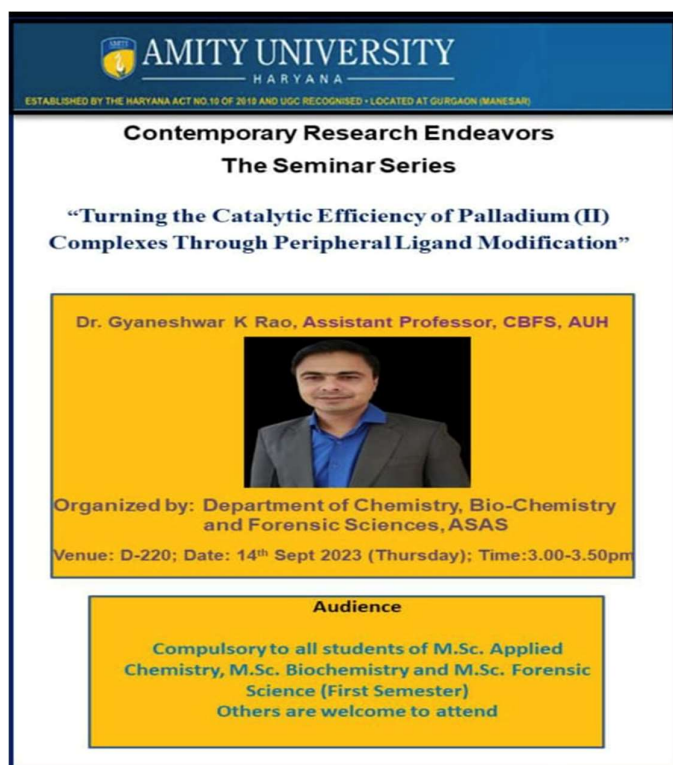

a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				NA
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				NA
c) Collaboration for Funded Projects				NA
2. Outcome related to Industry Connect				
a) Placement				NA
b) Collaborations for Research Papers				NA
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				NA
d) Collaboration for Funded Projects				NA
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				NA
b) Benefit to society in terms of Education				NA
4. Outcome related to Students Learning & Grooming				
				Students learnt and understood about the ligand chemistry and the complex formation using different ligands, effect of change of ligand on the yield, effect of pendant alkyl chain on the reaction rate and yield of the product formed. The use of different catalyst for the catalytic reactions.
5. Any other- NA				

2. Event Report along with glimpses of the event (Photographs)

Seminar started with introduction of speaker. The seminar: **“Turning the Catalytic Efficiency of Palladium (II) Complexes Through Peripheral Ligand Modification”** held on 14th September, 2023 conducted by Dr. Gyaneshwar Kumar Rao.

The aim of the study is to make students understand about the catalytic chemistry and how catalytic efficiency of complexes can be tuned by the modification of peripheral ligand. The work has been inspired by the scientists; Suzuki and Miyaura who coupled two electron rich species (C-C coupling). Palladium has been used as a catalyst for the purpose because we need a cycle in which Pd(0) must convert into Pd (II) and Pd(II) must convert into Pd(0) so as soon :

Pd(0) this is again going to convert into bulk material which will not react with anything. To reduce the quantity of palladium, the peripheral environment around the palladium centre has been tuned. The interest is to design the catalyst for challenging chemical transformation for instance CO₂ reduction, water splitting, C-C coupling reaction and N₂ activation. Nanomaterials has also been designed which can be used catalyst. So, designing of catalyst has been the prime concern which may be homogeneous or heterogeneous. So, for Suzuki-Miyaura coupling a base has also been required to reduce Pd(II) to Pd(0). Sulphur containing ligand are of more interest for the purpose due to their good donor and acceptor ability. S, Se and Te has been incorporated in the reaction to check whether the catalysts are working in the same way or have different kind of activity. The activity of these chalcogens are of order: Se > S > Te. The other important thing which was done was to tune the alkyl chain on the pendant arm. The complex with longer alkyl chain has higher activity as compared to shorter alkyl chain.

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 14th September 2023
Event Type: Conference/Symposium/Seminar
Event Title: A National Seminar on Eco-Centric Developments under the Purview of Indian Knowledge System
Event Theme: Innovation
Venue: D Block Auditorium
Web/Video Link of the Event: NA
Organized by: Amity Centre for Sanskrit and Indic Studies, ASLA, AUH
In collaboration with: Central Sanskrit University New Delhi
Event Level: National
Student Participation: No. of Students from AUH (Course wise):-
Faculty Participation: No. of Faculty Members from AUH (Deptt. wise):- } 600
Participation from outside AUH: No. of Students & Faculty Members-
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation:

Details of Expert/Speaker/Resource Person/Judge:

National Seminar on

“Eco-Centric Developments Under the Purview of Indian Knowledge System”

AMITY UNIVERSITY GURUGRAM

A National Seminar

On
Eco-Centric Developments under the Purview of Indian Knowledge System

Organized by
Amity Centre for Sanskrit and Indic Studies, Amity School of Liberal Arts AUH

Under
Ashtaadashi Project of Central Sanskrit University, Delhi

Program Venue: Amity University Gurugram, D- Block Auditorium
Date & Time: 14th September 2023 | 10:00 AM to 1:00 PM

CHIEF GUEST
SHRI K. N. GOVINDACHARYA JEE
Eminent Thought Leader and Renowned Ambassador of Indian Knowledge System

GUESTS OF HONOUR

- Prof. P. R. Trivedi**
Founder Chancellor, IITM University
- Dr. Om Prakash Pandey**
IISD Scientist, Scientific Advisor to Govt. India
- Shri Jeev Kant Jha Jee**
Coordinator, Nish Samudh, National Awareness Campaign
- Dr. Pankaj K. Mishra**
Associate Professor, St. Stephens College, DU

CO-PATRON
Prof. Vikas Madhukar
Vice-Chancellor, Amity University Haryana

PROGRAM CHAIR
Prof. Sanyal K. Jha
Director (Liberal Arts), Amity University Haryana

CONVENOR
Dr. Supriya Sanju, Assistant Professor, Amity Centre for Sanskrit and Indic Studies, ASIA, AUH

COORDINATOR
Prof. Edy J. Chandrasekhar, P.D. IISD, Gurugram, ASIA, AUH

ORGANIZING TEAM

- Dr. Shradhamita Singh
- Dr. Supriya Sanju
- Dr. Sunit K. Mishra
- Dr. Ashish K. Tripathi

CONTACT PERSONS

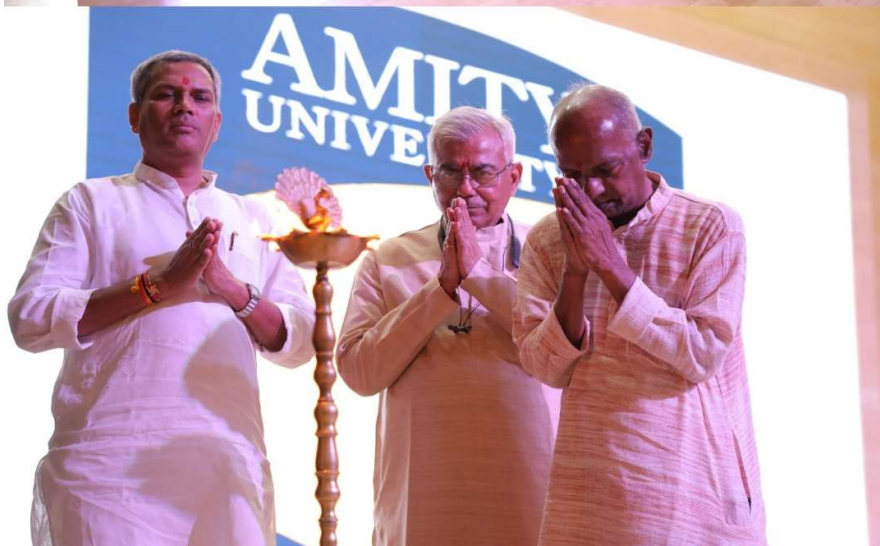

- Dr. Supriya Sanju 9816294255

Amity School of Liberal Arts, Amity University Haryana, organized a National Seminar on "Eco-Centric Developments Under the Purview of Indian Knowledge System".

brought together eminent scholars, renowned experts, environmentalists, indigenous communities, concerned citizens and practitioners from various fields to explore and celebrate the rich tradition of eco-centric wisdom inherent in India's ancient knowledge systems. The seminar started with the ceremonial practice of lighting the lamp by the dignitaries and seeking the blessings of Almighty. In his welcome address, Prof. S.K. Jha, Director, Amity School of Liberal Arts, welcomed the dignitaries and laid emphasis on the importance of environment since the Vedic times. Honourable Vice Chancellor of Amity University, Haryana, Prof. P.B. Sharma addressed the gathering and focussed on Indian Knowledge System and its contribution towards the betterment of the environment. The Registrar of the University, Dr. Ravi Manuja stressed on the division of the world into two parts, one favouring the nature and other destroying the nature. Shri Jeev Kant Jha, Coordinator, Nadi Samvad National Awareness Campaign focused on the importance and conservation of water. Dr. O.P. Pandey, ISRO Scientist and Scientific advisor to Government of India, said that consciousness is more important and there exists a correlation of science and technology with the mind and earth. He also laid emphasis on the socio-cultural, political and economic factors can be a key factor to bring change in the environment. The Chief guest of the Seminar, Shri. K.N. Govindacharaya Ji, eminent thought leader and renowned ambassador of Indian Knowledge System, guided the audience to read some books which highlight the degradation of the mother earth. He said that we in solidarity should all “think globally and act locally.”

The inaugural session culminated with a vote of thanks by Dr. Supriya Sanju followed by the paper presentations on diverse topics by various scholars, educationists and environmentalists. The seminar proved to be vital for the audience as it provided knowledge, skills, and values that are essential for addressing current and future environmental challenges and fostering a more suitable and equitable world. It equipped the gathering with the tools they need to make informed decisions, advocate for positive change and contribute to the well-being of the planet.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

"The ACC has organised The Startup Saga - An Entrepreneur's Tale" on 18th September 2023. It was an inspiring event that showcased the remarkable journeys of new-age Indian entrepreneurs. The event aimed to shed light on the challenges they encountered while building their successful companies. The participants were tasked with narrating these entrepreneurial stories and demonstrating their creativity by enacting advertisements for these companies, either live on stage or through recorded videos.

The event commenced with an enthusiastic welcome by the hosts, setting the stage for a day filled with inspiration and insights into the world of startups. The event was judged by our beloved faculty members, Dr. Vidhi Bhargava (Professor (ACC), IQAC co-ordinator) and Dr. Renuka Sharma (Assistant Professor, ACC) who excel in the field of commerce and entrepreneurship.

Throughout the event, participants took turns sharing the entrepreneurial stories of companies that have become household names in the Indian business landscape. These narratives provided valuable lessons about persistence, innovation, and adaptability in the face of adversity. The teams presented the stories of various startups like Infosys (by Arsh and Kartik), Nat Habit (by Aashita, Shreya, Khushbu and Tamanna), Oyo (by Kartik Jangra) and OYO (by Ramachokkalingam SA).

The highlight of the event was the enactment of advertisements. Some participants chose to perform live, captivating the audience with their creativity and presentation skills, while others showcased pre-recorded videos, displaying their storytelling prowess through visual media.

The event concluded with declaration of results by our esteemed judges and a group of judges and participants to capture the wholesome moment.

3.2 Inspiration & Objectives of the Event

- Resilience and Perseverance: The stories of the entrepreneurs emphasized the importance of resilience in overcoming challenges and setbacks.
- Innovation and Creativity: The advertisement enactments showcased the participants' creativity in marketing and promotion, highlighting the significance of innovative approaches in business.
- Inspiration for Aspiring Entrepreneurs: The event motivated and inspired us to embark on our own entrepreneurial journeys.

3.3 Brief about the address/talk of speakers – N/A

3.4 'Take Homes' for the Guest and Attendees – Chocolates for Participants and Winners

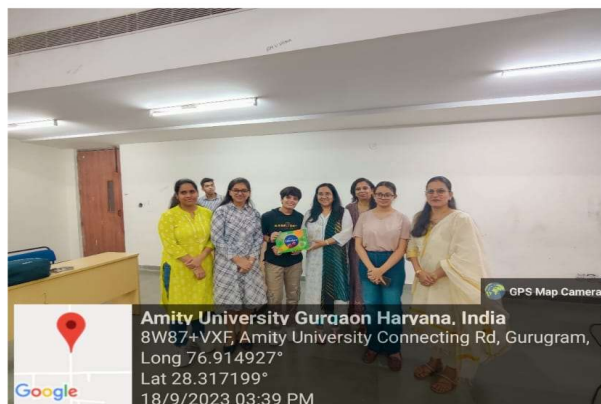

3.5 Future plan for utilizing the contacts developed with the Invited Guests – N/A

3.6 Budget of the Event(Budget Sanctioned, Total Expenditure &Revenue Generated) – N/A

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Nil	Nil	Nil	Nil
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	Nil	Nil	Nil	Nil
c) Collaboration for Funded Projects	Nil	Nil	Nil	Nil
2. Outcome related to Industry Connect				
a) Placement	Nil	Nil	Nil	Nil
b) Collaborations for Research Papers	Nil	Nil	Nil	Nil
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Nil	Nil	Nil	Nil
d) Collaboration for Funded Projects	Nil	Nil	Nil	Nil
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	Nil	Nil	Nil	Nil
b) Benefit to society in terms of Education	Nil	Nil	Nil	Nil
4. Outcome related to Students Learning & Grooming				
The aim of the Art talk is to engage art students in a creative exercise to identify their hopes, dreams of the future and positive energy with the help of creative lines.				
5. Any other				
Sustainable design talk aims to lessen negative effects on the environment, the health, and comfort of building inhabitants, enhancing building performance. Reduced use of non-renewable resources, reduced waste, and the creation of healthy, productive ecosystems are the fundamental goals of sustainability.				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

Amity University Haryana (AUH) celebrating the InnovationWeek 2023 from 18th -25th September 2023. In the occasion of Innovation week celebration, Amity School of Fine Arts, AUH organized a virtual Expert Talk (Round table discussion) on “Design Thinking a Tool for Sustainability in a Changing World” on the 18th of September 2023 between 10:30 AM to 01:10 PM. They have gathered a panel of distinguished experts, thinkers, and visionaries who have dedicated their lives to unravelling the mysteries of design thinking and sustainability. Prof. (Dr.) P. B. Sharma, Honourable- Vice Chancellor, Amity University Haryana, Gurugram, and Prof. (Dr) Vikas Madhukar, Honourable-Pro Vice Chancellor, Amity University Haryana inaugurated this expert talk.

Dr. Maya Jaber- CEO of M3D Consulting & Assistant Professor, University of Wisconsin-Platteville, United States, Dr. Manish Arora- Raman Post Doc Fellow (JHU-USA), Coordinator DIC & IICs BHU, Banaras Hindu University, Varanasi, Uttar Pradesh, India, Mr. Dharam Mentor-Brand Strategist/Mentor, Author, Educator and Founder GDGB Mumbai, Maharashtra, India, Prof. Dr. Shruti Nigudkar-Program Director | Professor, Department of Visual Arts, School of Design, MIT WPU, Pune, Prof Jyoti Chhabra-Head Department of Fashion Design and Coordinator, Research and Innovation Cell for Entrepreneurship Graphic Era Hill University, Dehradun, Dr. Nilakshi Yein- Assistant Professor, User Experience & Interaction Design School of Design, UPES participated in this expert talk as expertise. These individuals have contributed immensely to their respective fields. The event was moderated by Mr Ramesh Sampui, faculty of ASFA, AUH.

3.2 Inspiration & Objectives of the Event:

Solve Complex Sustainability Challenges: Leverage Design Thinking to tackle intricate sustainability problems, such as climate change, resource scarcity, and environmental degradation, by breaking them down into manageable components and generating creative solutions.

User-Centered Design: Prioritize the needs and aspirations of end-users, communities, and stakeholders in sustainability initiatives, ensuring that solutions are practical, inclusive, and culturally sensitive.

Holistic Systems Thinking: Encourage a holistic understanding of the interconnectedness of social, environmental, and economic factors, fostering solutions that consider the broader ecosystem and long-term consequences.

Innovation and Creativity: Cultivate a culture of innovation and creativity by promoting brainstorming, experimentation, and out-of-the-box thinking to develop sustainable products, services, and systems.

Adaptability and Resilience: Design solutions that are adaptable to changing conditions and resilient in the face of unforeseen challenges, enhancing sustainability in an ever-evolving world.

Reducing Environmental Footprint: Use Design Thinking to minimize the environmental impact of products and processes, incorporating principles of circular economy, zero waste, and sustainable sourcing.

Community Engagement: Facilitate community involvement in sustainability efforts, ensuring that the affected communities have a voice in the design and implementation of solutions.

Behaviour Change: Influence positive behavioural change by employing Design Thinking to design interventions, campaigns, and experiences that motivate individuals and organizations to adopt sustainable practices.

Cross-Disciplinary Collaboration: Foster collaboration between diverse stakeholders, including designers, scientists, policymakers, and businesses, to harness collective expertise for sustainable innovation.

Measurable Impact: Establish clear metrics and indicators to assess the environmental, social, and economic impact of sustainability initiatives, allowing for continuous improvement and accountability.

Ethical Considerations: Integrate ethical considerations into the design process, ensuring that sustainability solutions are aligned with principles of social justice, fairness, and human rights.

Education and Awareness: Use Design Thinking as a tool for educating and raising awareness about sustainability issues, inspiring individuals, and organizations to take proactive steps towards a more sustainable future.

Scalability and Replicability: Design solutions that are scalable and replicable, allowing successful models to be adapted and implemented in different contexts and regions.

Policy Support: Collaborate with policymakers to inform evidence-based decision-making, advocating for policies that promote sustainability and incentivize responsible design and production practices.

Long-Term Vision: Encourage a long-term perspective in design, aiming for solutions that have a lasting impact on sustainability, even as the world continues to change.

Incorporating Design Thinking into sustainability efforts can empower individuals and organizations to create innovative, human-centered, and sustainable solutions that address the challenges of a rapidly changing world while fostering positive environmental, social, and economic outcomes.

Outcomes:

Innovative Solutions: Design Thinking fosters the development of innovative solutions that address sustainability challenges in novel and effective ways. These solutions may include new products, services, processes, and business models.

User-Centered Products and Services: By prioritizing user needs and preferences, Design Thinking results in products and services that are more user-friendly, accessible, and meet the demands of diverse user groups.

Environmental Stewardship: Design Thinking can lead to the creation of products and processes that minimize environmental impact, reduce waste, and promote responsible resource management, contributing to a more sustainable planet.

Resilience: Solutions developed through Design Thinking are often more resilient to changing environmental, economic, and social conditions. They can adapt and thrive in dynamic and uncertain environments.

Behavioural Change: Design Thinking interventions can influence positive behavioural change, encouraging individuals and organizations to adopt sustainable practices, such as energy conservation, waste reduction, and eco-friendly consumption.

Community Empowerment: Communities and stakeholders are actively engaged in the design process, empowering them to take ownership of sustainability initiatives and ensuring solutions align with local values and needs.

Cross-Sector Collaboration: Design Thinking encourages collaboration across sectors, fostering partnerships between businesses, governments, nonprofits, and academia to address complex sustainability challenges collectively.

Measurable Impact: Solutions developed using Design Thinking are often accompanied by clear metrics and indicators to measure their impact, enabling organizations to track progress and make data-driven improvements.

Ethical and Social Responsibility: Design Thinking promotes ethical considerations and social responsibility in decision-making, ensuring that sustainability efforts prioritize fairness, equity, and human rights.

Education and Awareness: The process of Design Thinking can serve as an educational tool, raising awareness about sustainability issues and inspiring individuals and organizations to take informed and proactive steps toward sustainability.

Policy Influence: Design Thinking can inform and shape policies and regulations that support sustainability, providing evidence-based insights to guide government and industry actions.

Scalability and Replicability: Successful solutions developed through Design Thinking can be scaled and replicated in different contexts and regions, amplifying their positive impact on sustainability.

Long-Term Vision: Design Thinking encourages a focus on long-term sustainability, emphasizing solutions that endure and continue to address evolving challenges over time.

Cultural Shift: The application of Design Thinking can lead to a cultural shift in organizations and society, promoting a mindset of continuous innovation, adaptability, and sustainability.

Global Resilience: When applied globally, Design Thinking can contribute to a more resilient and interconnected world that is better equipped to address the complex, interrelated challenges of the 21st century.

Overall, Design Thinking as a tool for sustainability can drive transformative change, fostering a more sustainable, adaptable, and socially responsible world that is better prepared to thrive in the face of ongoing change and uncertainty.

Organized by: Amity School of Hospitality (ASH)

In collaboration with: None

Event Level: Institutional

Student Participation*: No. of Students from AUH (Course wise):- (BHM-21 & BTM-4)-25

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- (ASH)- 07

Participation from outside AUH*: No. of Students & Faculty Members-NIL

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Mr. Subir Kumar Malakar- Associate Professor.

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Chef Jai Kumar Bhasin	Royal Caribbean International Cruise Lines	Executive Chef	Hospitality	On Request	On Request	On Request	Hospitality Entrepreneurship and Startup Innovations	Mr. Subir Kumar Malakar

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): The criteria was to invite the renowned, experienced & knowledge ful expert from the field of hospitality entrepreneurship and start up innovations to impart innovative learnings to ASH students.

Was the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

Yes, the resource person was known to Mr. Subir Kumar Malakar. Both of them had met each other at various events in past such as webinars, seminars, conferences etc.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Intangible			
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	Intangible			

c) Collaboration for Funded Projects	Intangible			
2. Outcome related to Industry Connect				
a) Placement	Intangible			
b) Collaborations for Research Papers	Intangible			
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Intangible			
d) Collaboration for Funded Projects	Intangible			
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	Intangible			
b) Benefit to society in terms of Education	Intangible			
4. Outcome related to Students Learning & Grooming				
The ASH students learnt about the various innovative hospitality entrepreneurship and startup opportunities & their key aspects.				
5. Any other- NIL				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Amity School of Hospitality (ASH) organized “Expert Talk on Hospitality Entrepreneurship & Startup Innovations” on 18/09/2023 between 11:30 AM – 12:30 PM. The faculty coordinator was Mr. Subir Kumar Malakar – Associate Professor. The objective to conduct this event was to make ASH students aware about the various innovative entrepreneurship and startup opportunities in the hospitality sector & their key aspects. A total of 25 BHM & BTTM Students of ASH participated in this event. The Guest Speaker/Resource Person, Chef Jai Kumar Bhasin, Executive Chef from Royal Caribbean International Cruise Lines, was invited to deliver Expert Talk on Hospitality Entrepreneurship and Startup Innovations. He said that Hospitality Entrepreneurship involves starting and managing businesses within the hospitality industry, which includes sectors like hotels, restaurants, travel, and tourism. Innovations in this field are driven by changes in customer preferences, technology, sustainability, and the overall evolution of the industry. Here are some key aspects of hospitality entrepreneurship and startup innovations:

Market Research and Niche Identification: Successful entrepreneurs in the hospitality industry often start by identifying specific niches or underserved markets. Conduct thorough market research to understand customer needs and preferences in your chosen niche. This could involve focusing on eco-friendly accommodations, catering to specific dietary requirements, or offering unique travel experiences.

Technology Integration: Technology is a significant driver of innovation in hospitality. Startups can leverage mobile apps, AI-powered chatbots, online booking platforms, and data analytics to enhance customer experiences. Contactless check-in/check-out, virtual concierge services, and personalized recommendations are examples of tech-driven innovations.

Sustainability and Eco-Friendly Initiatives: Sustainability is a growing concern in the hospitality industry. Entrepreneurs can launch startups that focus on eco-friendly practices, such as energy-efficient hotels, waste reduction programs, or sourcing local and organic products for restaurants. These initiatives not only attract environmentally conscious travelers but also reduce operational costs.

Food and Beverage Innovations: Restaurants and food-related startups can experiment with new culinary concepts, dietary trends, and fusion cuisines. Embracing farm-to-table practices, offering unique dining experiences, and accommodating various dietary preferences (e.g., vegan, gluten-free) can set businesses apart in a competitive market.

Alternative Accommodations: With the rise of platforms like Airbnb and Vrbo, there's a growing demand for unique and alternative accommodations. Entrepreneurs can explore opportunities in glamping sites, boutique hotels, and themed lodging experiences.

Cultural and Local Experiences: Providing guests with authentic local experiences is a trend that continues to gain traction. Startups can partner with local artisans, tour guides, and cultural institutions to create immersive travel experiences that go beyond the typical tourist attractions.

Health and Safety Measures: In light of the COVID-19 pandemic, health and safety measures have become paramount in the hospitality industry. Entrepreneurs can focus on startups that offer innovative solutions for sanitization, contactless operations, and health monitoring to ensure guests' well-being.

Online Marketing and Social Media: Building a strong online presence and leveraging social media platforms for marketing and engagement is essential for startups in the hospitality sector. Engaging storytelling, user-generated content, and influencer partnerships can boost brand visibility and reputation.

Flexible Booking and Pricing Models: Innovations in pricing models, such as dynamic pricing, subscription-based services, and flexible booking options, can help startups attract a wider range of customers and optimize revenue.

Customer Feedback and Personalization: Collecting and analyzing customer feedback is crucial for improving services and personalizing guest experiences. Utilize guest data to tailor offerings, make operational improvements, and foster guest loyalty.

Employee Training and Well-being: Happy and well-trained staff are key to delivering exceptional hospitality services. Startups can invest in employee training programs, promote work-life balance, and implement innovative HR practices to attract and retain talent.

Regulatory Compliance: Ensure your startup complies with local regulations, licensing requirements, and safety standards, as non-compliance can lead to legal issues and reputational damage.

Successful entrepreneurship in the hospitality industry requires a combination of creativity, adaptability, and a deep understanding of customer expectations. Stay attuned to industry trends and emerging technologies to identify opportunities for innovation in this ever-evolving field.

3.2 Inspiration & Objectives of the Event

To make ASH Students aware about the various innovative entrepreneurship and startup opportunities in the hospitality sector & their key aspects.

3.3 Brief about the address/talk of speakers- mentioned in the 'General Introduction of the Event'.

3.4 'Take Homes' for the Guest and Attendees- The attendees learnt about the various innovative entrepreneurship and startup opportunities in the hospitality sector & their key aspects & the guest speaker/resource person expressed his interest in delivering more of such expert talks in future.

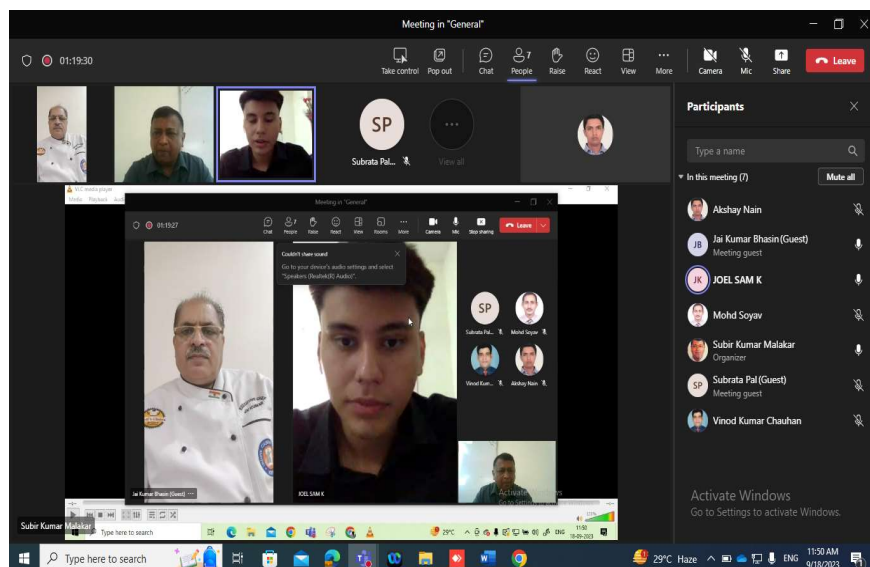

3.5 Future plan for utilizing the contacts developed with the Invited Guests- ASH will try to invite Chef Jai Kumar Bhasin more frequently to impart more of such knowledge ful & insightful expert talks on Hospitality Entrepreneurship and Startup Innovations.

3.6 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated)- NIL

Event Coordinator(s) with designation: Dr Dimple Singh, Associate Professor
 Dr Vijay Kumar Yadav, Assistant Professor

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Ms. Bhawna Bindal	Binary Semantics	Data Analyst	Mathematical Software					

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):The Resource Person, Ms. Bhawna Bindal, is working as a Data Analyst with Binary Semantics. The speaker's expertise matched with the requirements of the workshop. As the workshop aimed at making students learn the software MAPLE and its applications in solving various problems in mathematics, so the requirement was to have a speaker proficient in MAPLE. With this, the speaker works as Data analyst and has ample experience in utilizing MAPLE in various applied scenarios. Based on these factors, the speaker was chosen for being resource person for the workshop.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?
 NA

				Students learnt the use of MAPLE software so that it can be used in their MSc dissertations and PhD research work.
5. Any other				
NA				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

The conducted event was based on making students aware of the use of MAPLE in their mathematical problem-solving techniques. Maple is a math software that combines the world's most powerful math engine with an interface that makes it extremely easy to analyse, explore, visualize, and solve mathematical problems. It solves problems from virtually any branch of mathematics or field that relies on mathematics, such as calculus, algebra, differential equations, statistics, control design, linear algebra, physics, optimization, group theory, differential geometry, signal processing, special functions, number theory, financial modelling, etc. It keeps problems, solutions, visualizations, and explanations all together in a single, easy-to-follow document, so you do not have to waste time reconstructing your thought processes. It develops complex solutions using a sophisticated programming language designed for mathematics, so your code is shorter, easier to write, easier to debug, and easier to maintain.

3.2 Inspiration & Objectives of the Event

The objective of the event is to make student learn MAPLE and to provide them hands-on experience of MAPLE problem solving techniques.

3.3 Brief about the address/talk of speakers

The speaker introduces the use of MAPLE from scratch. She started from basic mathematical tools such as differentiation, integration and then elevated the level up-to curve tracing and other related mathematical topics such as graph theory, group theory, optimization techniques etc.

3.4 'Take Homes' for the Guest and Attendees

COLLABORATION WITH BINARY SEMANTICS
GURUGRAM, HARYANA

ORGANIZING COMMITTEE

Dr. Sudeshna Ghosh
Dr. Amit Sharma
Dr. Sarika Jain
Dr. Reeta Bhardwaj
Dr. Kamal Kumar
Dr. Gagandeep Kaur

PROGRAMME SCHEDULE:

VENUE: COMPUTER LAB A BLOCK 3rd FLOOR

10:30 AM -10:35 AM	Saraswati Vandana
10:35 AM -10:40 AM	Opening Remarks and Overview of the Workshop Prof. Atul Thakur, HoI, ASAS, AUH
10:40 AM -10:45 AM	Welcome Address Prof. Vikas Madhukar, Hon'ble Pro-Vice Chancellor, AUH
10:45 AM -10:50 AM	Words of wisdom by Hon'ble Vice-Chancellor Prof. P. B. Sharma, Hon'ble Vice-Chancellor, AUH
10:50 AM -11:00 AM	Introduction to Guest Speaker Dr. Sudeshna Ghosh, Associate Professor, Department of Mathematics
11:00AM-11:15 AM	Introduction of Binary Semantics Portfolio By Devendra Sharma, Manager, Binary Semantics Portfolio
11:15AM-11:30 AM	Topic 1: Getting started with maple: Brief Introduction By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio

11:30AM-12:00 PM	Topic 2 : Using Context Menu Options and Command Line By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
12:00PM-12:30 PM	Topic 3 : Visualization with Maple By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
12:30 PM – 1:00 PM	Topic 4: Ways of Approaching Calculus. By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
Lunch	
2:00 PM-2:45 PM	Topic 5: Working with Packages in Maple - Differential Equation, Linear Algebra, Statistics, and Optimization Etc. By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
2:45 PM-3:15 PM	Topic 6 : Working with Maple Math Applications and Maple Calculator By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
3:15 PM-3:30 PM	Topic 7 : Maple Resources for Teaching and Research By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
3:30 PM-3:45 PM	Topic 8 : Online Version of Maple with Maple Learn By Bhawna Bindal, Data Analyst, Binary Semantics Portfolio
3:45 PM-4:00 PM	Q&A Session
4:00 PM -4:10 PM	Vote of Thanks Dr. N. Chandramowliswaran, HOD, Department of Mathematics

Education				
4. Outcome related to Students Learning &Grooming				
Students learnt how to use sustainable material as innovative artwork. How these kind sustainable materials transformed in a new identity, new art form.				
5. Any other				
Students created stunning sculptures from discarded and recycled materials. It not only highlights their artistic abilities but also emphasizes the importance of sustainability and environmental consciousness. Through their innovative works of art, our students aim to inspire others to rethink waste materials and their potential for creative reuse.				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: Amity University Haryana (AUH) celebrating the Innovation Week 2023 from 18th -25th September 2023. In the occasion of Innovation week celebration, Amity School of Fine Arts, AUH organized a sculpture workshop on "Creative & Sustainable Sculpture Using Waste Materials" for students. Students made many interesting creative sculptures with different kinds of waste materials like- corrugated cardboard sheets, foil paper, Paper roll, Paper Mache etc, wooden stick, wood panel, wooden branch, plastic used bottle, plastic sheets etc. They not just enjoyed it, but also experimented with different types of waste materials to make sculptures. They used their knowledge and sense of art to create their own sculptural forms. The workshop started with a wonderful PPT presentation by Mr. Animesh Mahata, faculty of ASFA, AUH where he introduced waste materials and how the students can create artworks out of the waste materials. He has shown some interesting artwork which is done by using waste materials. He suggested to participated students to collect whatever waste materials are available to them and then think what kind of artwork possibly they can make out of that. He also suggested that they can make some layout for their sculptures. Participants came up with some interesting ideas; Mr. Animesh guided them how they can build up their sculpture using those materials.

3.2 Inspiration & Objectives of the Event: Amity School of Fine Arts organized a workshop on creative sculpture by using waste materials for the students. The aim and objective of the workshop is to encourage skill development and enhance creative understanding of students to bring out creative output. This workshop has explored a variety of mediums and techniques, while developing critical thinking and problem-solving skills. The goal of this workshop was separated into two major components. First, how to transfer waste materials into a creative object. Second, nurture student's creative skills and aesthetical understanding about artwork. Students have developed versatile quality of handling different mediums and build their own unique style.

4. Outcome related to Students Learning & Grooming				
1. Improved problem-solving capacity.		Achieved		The students presented a unique business model which involves a huge amount of brainstorming. It improves the problem-solving capacity of the participants.
2. Insights into financials		Achieved		The participants also must discussed the financial aspect of their business as well. This needs adequate research into the current cost as well as demand of that product or service in the market.
3. Digital Creativity		Achieved		The competition demanded a logo from the participant as well for their product or company. Logo making is an interesting job that tickles one's creativity to the fullest.
4. Confidence		Achieved		Pitching is an activity which boosts one's confidence a lot. The participants experienced the same situation as on might face during a pitch.
5. Any other				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

Amity College of Commerce organized an event named "Tide of Ideas" on 20th September, 2023 under the Innovation Week, 2023. The event was organised under the guidance of Dr. Renuka Sharma (Assistant Professor, Amity College of Commerce). The "Tide of Ideas" event was a dynamic platform that brought together aspiring entrepreneurs to present their innovative business models to a distinguished panel of judges- Dr. Savita (Assistant Professor, ACC) and Dr. Renuka Sharma (Assistant Professor, ACC). The event kicked off with an introduction of the esteemed judges and participants, creating an atmosphere of anticipation and excitement. Then the participants took turns presenting their business models which showed their dedication and vision. The presentations were followed by cross questioning by the judges which were answered by the participants. Finally, the results were announced by the judges based on criteria like feasibility, market potential, way of pitching, etc. The winners were applauded and given prizes for their ingenuity and determination which marked the end of the event.

3.2 Inspiration & Objectives of the Event

1. Expert Insights: Participants benefitted from the valuable feedback and insights provided by the esteemed panel of judges.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: Event No 3: Innovation in the pharmaceutical Regulatory Affairs

In order to celebrate the **innovation week-2023**, AIP has organized its event no 3 as **Innovation in the pharmaceutical Regulatory Affairs**. The session comprised of a competition wherein students gave a brief presentation on some of the novel and innovative practices being adopted and followed by the various pharmaceutical regulatory affairs agencies. Further, students gave a comparative study of various regulatory requirements of different countries and how the innovative practices are bringing efficiency in their working.

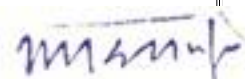

3.2 Inspiration & Objectives of the Event:

As a matter of fact, AUH is a research and innovation driven university and wants its students to be innovative in all spheres of day-to-day life. So, it motivates students to imbibe the habit of research and innovation. Therefore, to cater this mandate, a session on **Innovation in the Pharmaceutical Regulatory Affairs** was organized. The objective of the event was to make students aware of some of the most contemporary trends in regulatory affairs which are being followed by different countries. Additionally, the session also involved the question answer session pertaining to students' presentation wherein they have answered about the queries that were being raised.

3.3 Brief about the address/talk of speakers: A session on innovation in pharmaceutical Regulatory affairs was organized in Amity Institute of Pharmacy (AIP) under the aegis of Innovation Week-2023. Altogether 10 students participated in the contest and gave a brief presentation highlighting the recent trends in the pharmaceutical regulatory affairs. The best presentation was of **Pratham** which talked about the Strengthening regulatory affairs in academics (STARS) and what are the recent development in the regulatory regimen. Second best presentation was of **Sakshi** followed by of **Aparna**.

3.1 General Introduction of the Event

On 21st September, Biscuits Pvt. Ltd. situated in Neemrana, Haryana. This educational excursion aimed to provide students with real-world insights into the manufacturing processes of a renowned company and offer practical exposure to the world of business. The visit commenced with the students and faculty members arriving at the Parle Factory in Neemrana. The factory staff warmly welcomed the students, who efficiently organized the event. The students were first introduced to the rich history and diverse product range of Parle through a promotional movie named "Zappo." This film provided a company's journey, core values, and commitment to quality and innovation. Following a representative from Parle guided the students through the entire production process.

comprehensively explained how Parle biscuits and other products are manufactured, from raw material intake to packaging and distribution. The students had the unique opportunity to witness the various stages of production. To commemorate the visit, all 31 students along with Dr. Renuka Sharma gathered for a group photograph in front of the Parle Factory. As the industrial visit concluded, the students were presented with Parle G biscuit packs as a token of appreciation for their participation and interest.

3.2 Inspiration & Objectives of the Event

The inspiration behind organizing this industrial visit was to bridge the gap between theoretical classroom learning and practical application in the dynamic world of commerce and industry:

- Real-world Exposure: To provide students with a tangible understanding of the operations and complexities involved in large-scale production.
- Enhanced Learning Experience: Direct visit to the production unit plays a major role in better understanding of the production process.

Directorate of Outcome

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 22 September 2023

Event Type: Online Guest Lecture

Event Title: Ambient Mechanical Energy Harvesting using Piezo/Triboelectric Nanogenerator

Event Theme: To celebrate innovation day

Venue: MS Teams (Online)

Web/Video Link of the Event:

Organized by: Department of Physics, ASAS

In collaboration with: NA

Event Level: Institutional

Student Participation*: No. of Students from AUH (Course wise):- 100

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 04

Participation from outside AUH*: No. of Students & Faculty Members-NA

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Prof. Jyotsna Sharma, Physics, ASAS, AUH

Details of Expert/Speaker/Resource Person/Judge: NA

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by

5. Any other				
NA				

3. Event Report along with glimpses of the event (Photographs attached)

3.1 General Introduction of the Event

To contribute to the spirit of CELEBRATING INNOVATION AND CREATIVITY

3.2 Inspiration & Objectives of the Event

To provide invaluable insights into the fascinating realm of Ambient Mechanical Energy Harvesting through Piezo/Triboelectric Nanogenerators, a topic of great relevance in today's world of sustainable energy solutions.

3.3 Brief about the event

On the morning of September 23, 2023, Dr. Bharti Singh, an esteemed member of the Department of Physics at Delhi Technological University, delivered an engaging lecture on the topic of "Ambient Mechanical Energy Harvesting using Piezo/Triboelectric Nanogenerators." The lecture, which commenced at 11:00 AM, drew an audience representing a diverse cross-section of the academic community. Among the attendees were MSc and BSc students, as well as PhD scholars and B Tech students, totaling 100 participants.

The event kicked off with a warm welcome address by Professor Jyotsna Sharma, who set the tone for the proceedings. She introduced Dr. Singh as the keynote speaker, highlighting her expertise in the subject matter. Dr. Singh's lecture provided invaluable insights into the fascinating realm of Ambient Mechanical Energy Harvesting through Piezo/Triboelectric Nanogenerators, a topic of great relevance in today's world of sustainable energy solutions.

The lecture was well-received by the audience, who were captivated by Dr. Singh's knowledge and delivery. Her ability to convey complex concepts in an accessible manner left a lasting impression on the attendees. As the event concluded, Professor Jyotsna Sharma once again took the stage to express her gratitude through a vote of thanks, acknowledging the significance of the lecture and the valuable contributions of all involved.

In summary, the lecture by Dr. Bharti Singh was a resounding success, offering an enlightening exploration of energy harvesting technologies. It not only enriched the academic experience of the students but also served as a testament to the academic excellence at Delhi Technological University.

3.4 'Take Homes' for the Guest and Attendees

This event has awakened in students inquisitiveness towards science.

3.5 Future plan for utilizing the contacts developed with the Invited Guests NA

3.6 Budget of the Event(Budget Sanctioned, Total Expenditure &Revenue Generated) NA

3.7 Details of Awards if Any: NA

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

Department of Physics

Amity School of Applied Sciences

Amity University Haryana

celebrates

Innovation Week

September 2023

About department of Physics

Department of Physics, Amity School of Applied Sciences was established under the aegis of Amity University Haryana with a vision to be a centre of excellence for physical sciences. The main thrust and philosophy behind the establishment of the department is to promote in depth undergraduate & post Graduate education and conduct research in emerging areas of Physical Sciences that will be beneficial for the Nation and the World at large. The curricula designed are comprehensive and are comparable to International Standards. It provides huge openings and built in potential for research. It subscribes to the deep and sustained belief that application of principles of natural sciences in Technology can bring about material advances.

About Amity University Haryana

Amity University Haryana, Gurugram is situated in the picturesque, 110-acre Amity Education Valley, in the close proximity to Gurugram. AUH is built on a foundation which embodies all the qualities that have made Amity institutions world-class over the last two decades. The campus provides a multicultural environment with the presence of students from across India and more than 15 countries who share diversity of regions, ethnicities and flavors giving a global outlook.

Program Schedule

Activities	Faculty and student coordinator	Date and time	Registration link
Quiz Competition	Dr. Supreet and Dr. Ritesh Verma Student Coordinators: Ms. Priya Bisht ((9311273834)) and Sneha Lata	20 September 2023 11:00AM - 12:00 PM	https://forms.gle/aaQKXmsXHeUTGTwu5
Science Shorts	Prof. Jyotsna Sharma Student Coordinator: Ms. Mallika Oberoi (7988257497)	20 September 2023 12:00 -1:00 PM	https://forms.gle/4atXtR6Qx2pTpt9CA
Debate	Dr. Vikas Lahariya and Prof. Ambika Devi Student Coordinator: Pramesh Yadav (8396801101)	21 September 2023 10:00 -11:00 AM	https://forms.gle/zdMpd4YDUyukw9SNA
Online guest lecture	Prof. Jyotsna Sharma Student Coordinator: Ms. Chunmesh Rani (9050360958)	22 September 2023 11:00 -12:00 noon	https://forms.gle/XjLHvgdgeXaUULWA9

***No Registration fees *E- Certificates will be provided to all the participants.**

Program Chair: Prof Atul Thakur

Program Coordinators: Prof Ambika Devi and Prof Jyotsna Sharma

What is a Nanogenerator?

Advantages

- Portable
- Wearable
- Easy to use

Applications

- Harvesting energy from human body
- To power your personal gadgets and phones
- Self-powered nano/micro devices
- Smart wearable systems

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Amity School of Hospitality (ASH) organized “Sustainability & Future Food Workshop” on 22/09/2023 between 11 AM – 1 PM. The faculty coordinator was Dr. Kunal Seth – Professor, ASH. The objective to conduct this event was to make ASH students gain a lot of information regarding health benefits behind adopting Vegetarian & Vegan Soya Food in the daily diet, various such products available in the market & their cooking styles. A total of 33 BHM & BTTM Students of ASH participated in this event. The Resource Person, Mr. Pramod Kumar - General Manager, Vezlay Foods Pvt Ltd, was invited to speak about significance of Vegetarian & Vegan Soya Food in our lives & demonstrate cooking of some Vegetarian & Vegan Soya Food Products for better understanding of all. He said that Vezlay Foods Pvt. Ltd. was formed to provide nutritious, healthy, and delicious vegetarian foods in a hygienic and cost-effective manner. Their mission is to provide healthy and easy to digest foods in taste and texture of non-veg food in a cost-effective manner so that everyone enjoys their life in a healthy way. The soya product market in India is very large and as one of the leading soya product suppliers in India, they are among the first organizations to introduce soya food with a non-vegetarian food texture. They have very innovative, ready-to-eat soya food products with the same texture as non-vegetarian foods. Some of their valuable products are made for the first time in India. They have introduced Soya Seekh Kabab, Shami Kabab, Nugget, Soya Chaap, Soya Leg Pieces, Soya Noodle (gluten-free), Soya Veggie TVP (gluten-free), Soya Chikka, etc. They are getting a very healthy response from their customers. The reason behind this is soya innovation. Their soya products are 100% vegetarian and suitable for all food lovers. The taste and texture of their products is very close to non-veg food. Therefore, their products are widely accepted by vegetarians, vegans and non-vegetarians. Vezlay Soya Foods contain rich proteins, rich dietary fiber, rich calcium and a low cholesterol level. Vezlay is one of India's leading suppliers of soya products. He after his talk, demonstrated cooking of some of the above-mentioned Vegetarian & Vegan Soya Food Products in Food Production Lab of ASH for enhanced learning of all.

3.2 Inspiration & Objectives of the Event – The inspiration & objective of the event was to create awareness among the ASH students regarding the health benefits behind adopting Vegetarian & Vegan Soya Food in the daily diet, various such products available in the market like Soya Seekh Kabab, Shami Kabab, Nugget, Soya Chaap, Soya Leg Pieces, Soya Noodle (gluten-free), Soya Veggie TVP (gluten-free), Soya Chikka, etc. & their cooking styles.

3.3 Brief about the address/talk of speakers – mentioned in the ‘General Introduction of the Event’.

3.4 ‘Take Homes’ for the Guest and Attendees – The ‘Take Homes’ for the Attendees was that they gained a lot of information regarding the health benefits behind adopting Vegetarian & Veg the daily diet, various such products available in the market like Soya Seekh Kabab, Nugget, Soya Chaap, Soya Leg Pieces, Soya Noodle (gluten-free), Soya Veg;

4. **Any other**

The goal of this workshop will be separated into two major components. First, how to transfer waste material into a creative object. Second, nurture participant's creative skills and aesthetical understanding about artwork. Also, develop versatile quality of participants to handle different mediums and build own unique style.

5. **Event Report along with glimpses of the event(Photographs)**

3.1 General Introduction of the Event: This is a 24 X 7 event, on creative artworks making with waste materials, organized by Amity School of Fine Arts, AUH. All the participants were created artworks through different types of waste products like- ccorrugated cardboard sheet (Packing box), match sticks, branches of tree, container etc. The event started with a PPT presentation by the event coordinator Mr. Animesh Mahata, where he introduced waste materials and how the participants can create artwork out of the waste materials.

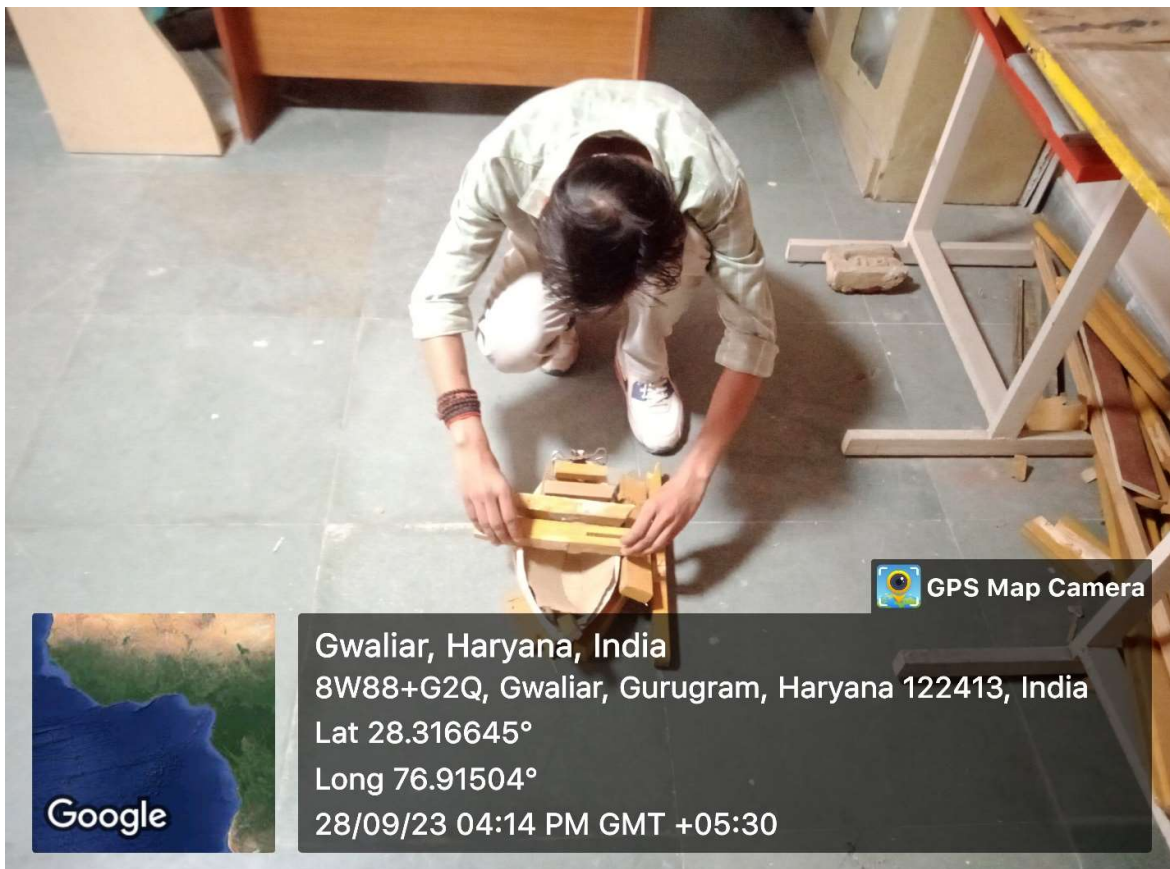

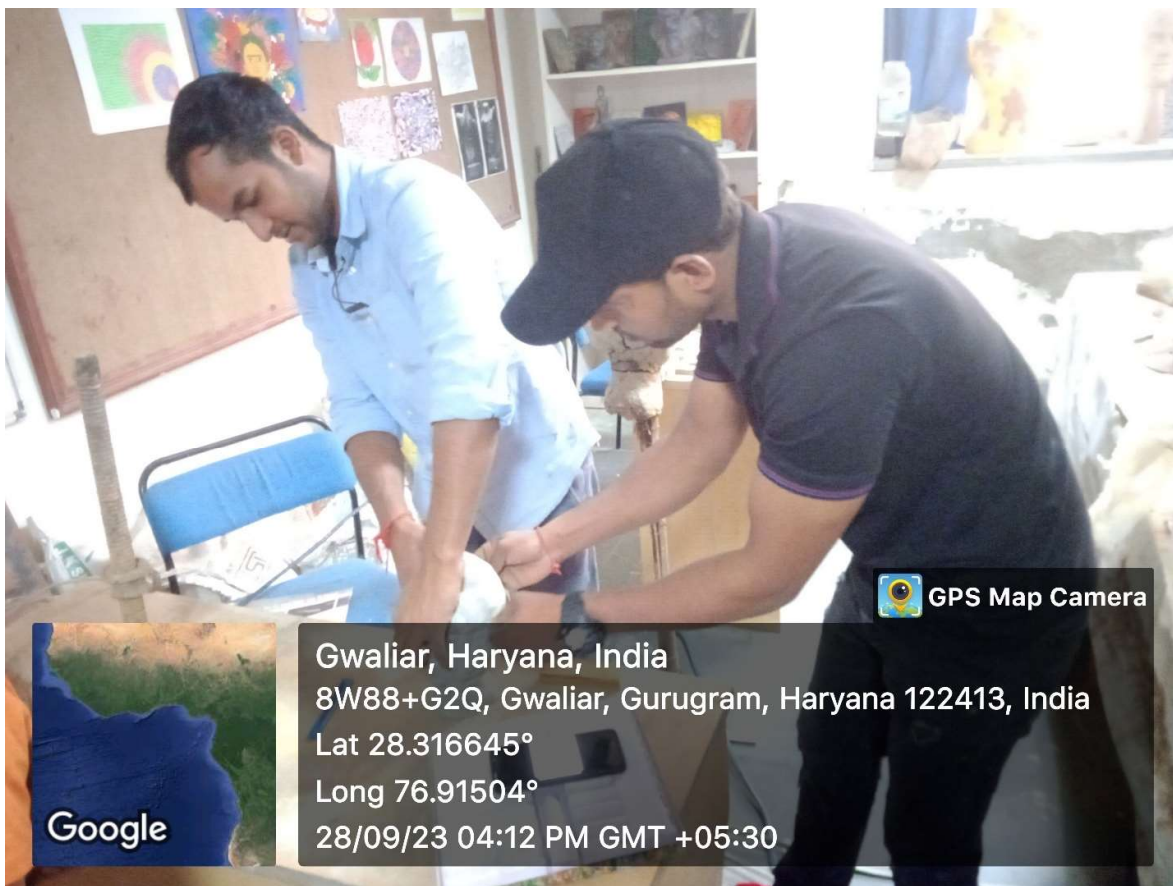

3.2 Inspiration & Objectives of the Event: Amity Institute of Design (Fine Arts) organized a 24 X7 event on recycling of waste products for the students & faculties of Amity University Haryana. Mr. Animesh Mahata, Assistant Professor of ASFA, introduced about the art by waste products. He also discussed about techniques and possibility of these kind waste products. This kind practice will be to further develop all participants skills and sense as artist. Our main objectives of the event were to develop the ability to think and organize the thinking to create something useful. Also make our vision and outlook broader about the nature & society and control the harmful effects of waste on our environment. Participants made a few interesting artworks with these kinds of waste materials which is marvelous artworks. They improved their skill, art sense, understanding on new& different types of waste material art practice. This kind art practice is very contemporary in all over art world. So many artists are creating tremendous art works through these kind waste products. So many artists are creating tremendous art works through these kind waste products. Hope, all the participants also will continue their art practice through these material in future.

3. Event Report along with glimpses of the event(Photographs)

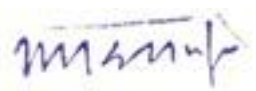

3.1 General Introduction of the Event: Nutrition promotes vitality and an overall sense of health and well-being by providing the body with energy and nutrients that fuel growth, healing, and all body systems and functions. Optimum nutrition also helps to ward off the development of various chronic diseases. With the increasing consumers awareness about the various facts of nutrition and its impact on overall wellbeing of an individual, it is a need of time to provide a platform for leaders in the academia's, food processing sectors, nutritionist, scientist, industries, civil society, and NGOs to discuss and share their experience with the people around and to answer their curiosity related to a particular field. This workshop aims to assist beneficiaries in understanding various aspects of Nutrition, health and wellbeing and the opportunities and challenges faced in ensuring food and nutrition security worldwide. which would greatly assist them in understanding various indispensable aspects of food science and nutrition in the best possible way.

3.2 Inspiration &Objectives of the Event: To provide an understanding of basics of nutrition and its relation to overall health and wellbeing of an individual.

- To foster conceptual learning in the field of food science and nutrition emphasizing on carbs, fat, protein, vitamin, and minerals and how they impact your overall health and wellness.
- Debunking the media myths and marketing confusion around what is actually healthy.
- To promote healthy eating practices in order to maximize optimum intake of nutrients on daily basis.
- To recognize the importance of exercise and how it effects the various biochemical parameters in body, helps to reduce medication dependence, reduces the risk of various chronic diseases and how regular physical activity can make living with degenerative diseases manageable.
- Overall, the workshop will equip participants to get thorough knowledge on various factors affecting health and fitness of a person and aids them in adapting holistic approaches for healthy and happy living.

3.1 Brief about the address/talk of speakers

Amity Medical School with Amity Academic Staff College in Collaboration , Delhi chapter organized a Two-day International workshop on "Nutrition, Health and Well-being" on October 2023 at Amity University Haryana. The main objective behind the workshop was to educate the population's the role of nutrition in health and well-being.

1st day of the event was started with the name of Almighty God to enlighten the path of knowledge by Saraswati Vandana and lamp lightening. The opening address was given by Prof. Sanjana Vij, Deputy Director, Amity Academic Staff College Head, Amity University Haryana. Prof. Vij has given a brief introduction to the topic and summarized the need for nutrition in health and well-being.

Dr. Luxita Sharma, Director, Amity Medical School & HOD, Department of Dietetics & Applied Nutrition, welcomes all the dignitaries and participants. She also briefed the topic of the Workshop and shared some of her life experiences in the field of clinical nutrition and spoke about how proper and good nutrition is linked with good health and well-being.

Then the keynote address was given by Prof. (Dr.) P.B. Sharma, Hon'ble Vice Chancellor, Amity University Haryana, Amity University Haryana. He has also highlighted his points of view on the role of nutrition in health and well-being. Sir has also congratulated the organizers of the workshop and motivated them to continue with such informative and unprecedented topics for the future.

The session was continued by Guest of Honor-Prof. (Dr.) N. R. Dash, President, IAPEN India-Delhi Chapter, Department of G.I. Surgery, AIIMS, New Delhi. He has also covered how nutrition is linked with health and well-being by focusing on a few topics such as today's world nutrition, the history of nutrition, personalized nutrition, family nutrition, community nutrition, gap of DBM is narrowing, and how overnutrition is rising.

Then a vote of Thanks was delivered by Dr. Gaurav Kumar Bhardwaj, HOD, Department of Optometry, AMS, AUH.

Plenary session-1

The first plenary session was started by Ms. Shilpa Chadha Thakur, General Secretary, IAPEN India-Delhi Chapter, Senior Consultant Dietetics, Asian Hospital, Faridabad. She delivered her talk on "obesity and fad diet", and she explained very well how the fad diet is one of the important factors for the current scenario of obesity.

Thereafter, the session was continued by Ms. Anita Jatana, Vice President, IAPEN India, Delhi Chapter, Consultant Dietetics, Apollo Hospital, New Delhi. She has covered how Diet is important in the Holistic Approach to Good Health Immunity. Deepti Khatuja, Chief Dietician, Fortis Memorial Research Institute, Gurugram. She has covered on the topic Immunity and Diet.

After Small break for lunch, we continued our session by Mr Nikesh Kumar Jain from NSR NutriEdu Tech Solutions Pvt. Ltd. He has conducted the Workshop on "Nutrition Digitalization using NSRNutriCal". Then the lecture was continued by Ms. Pooja Singh Workshop on innovation in contact lenses. Ms Tanima Chakraborty & and Aashish Bhatnagar from Essilor in A-block auditorium, AUH. The students benefited from their talk.

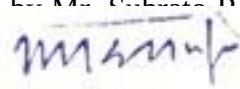

Then the Poster/Model Presentation and Quiz contest was conducted by the organizer.

Plenary session-2

2nd day of the plenary session was started by Dr. Joydeep Dutta Professor, Department of Chemistry, AUH. He has given a very well presentation and talk on the topic "Manuscript Writing".

Thereafter, the session was started by Arun Kumar Agarwal President - Sound Hearing 2030. He has given a wonderful talk on Young India- Unsafe listening and discussed how the young generation day by day facing hearing loss and by 2050 over 6 billion of the younger might lose their hearing.

The session was continued by Mr. Suneel Kumar Dixit on the topic Optometry Clinical Practice by Tele (included - All about tele - Project proposal - Case Based Discussion). Then continued by Mr. Subrata Das on the topic "Custom made Artificial Eye - Why every Optoms should be aware started by Mr Kushal Mehra & team.

Workshop on Scleral contact lens workshop from Purecon was given by Mr. Gagan Sahani and Ms. Achint Kaur.

Then the session was online and delivered by our international speaker Dr. Ang Yeow Nyin UKM, Malaysia, and covered the topic of Nutrition and Health.

Thereafter one more session was delivered online by our international speaker Dr Meshach Aiwerioghene Senior Lecturer, Healthcare Management, Faculty of Medicine, Health and Social Care, Swansea University, United Kingdom. He delivered his speech on “Understanding Stress and How it Affects Your Health and Wellbeing”.

Thereafter, the session was continued by Dr. Suparna Jerath Program Head, Nutrition at The George Institute for Global Health, India. She has delivered her speech on The Nutrition Transition.

After the lunch break, we returned to our enthusiastic session. The Workshop on “Ayurveda Technology in Nutrition” was conducted by Ms. Shreya Agarwal from P-NUT.

The Workshop was continued by Phoenix Solanki and her team from Cochlear Ltd. on “Cochlear Implant Fitting”.

Then the most important part of the session was now come to announce the name of the winner who participated in the Poster/Model Presentation and Quiz contest. After that Valedictory Programme and vote of Thanks were delivered by Dr Luxita Sharma, Director, Amity Medical School, HOD, Department of Dietetics & Applied Nutrition.

The entire program was coordinated with the support of the Vice-chancellor, Academic Staff College, faculty, Ph.D research scholars, and students of Amity Medical School.

Outcome Report (Event/Activity Organized @ AUH)

1. General Information

Date: 05 October 2023
Event Type: Guest Lecture
Event Title: DRDO Arsenic Removal Technology (DART): A Sustainable Solution for Arsenic Remediation from Ground Water
Event Theme: DRDO Arsenic Removal Technology (DART)
Venue: B-Block Auditorium, AUH
Organized by: Department of Chemistry, Biochemistry and Forensic Science.
Event Level: Institutional
Student Participation*: No. of Students from AUH (Course wise): 50M.Sc. (AC); 4M.Sc (FS); 02B.Sc. (Chem); 42B.Sc. (FS); 01B.Sc. (Biotech)
Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise): - 11
Participation from outside AUH*: No. of Students & Faculty Members-NIL
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Dr. Dipti Vaya (Associate Professor) and Dr. Mamta (Asst. Prof.-III)
Details of Expert/Speaker/Resource Person/Judge: NA

Outcome of the Event with Timelines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (If proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				NA
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				NA
c) Collaboration for Funded Projects				NA
2. Outcome related to Industry Connect				
a) Placement				NA
b) Collaborations for Research Papers				NA
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				NA
d) Collaboration for Funded Projects				NA
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				Society found out the real importance of the removal of deadly toxins from the water.
b) Benefit to society in terms of Education				Society found out how simply the deadly toxins like Arsenic could be removed from water using simpler method like DART.
4. Outcome related to Students Learning & Grooming				
				Students would have got the zeal to help out the mankind with the research ideas.
5. Any other				
NA				

2. Event Report along with glimpses of the event (Photographs)

The guest lecture organized by CBFS, delivered the awareness importance of having good quality, contamination free water for the healthy community, which was basically focused on removal of deadly toxins like Arsenic from the ground water.

Guest Lecture – 5th October, 2023 by Dr Kshipra Misra-

Importance of having good quality water and the major ground water impurities including the deadly toxin like Arsenic and successive way of removing this toxin from ground water using the method “DART” which is DRDO’s arsenic removal technology.

Future plan for utilizing the contacts developed with the Invited Guests: NA

2.1 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated):

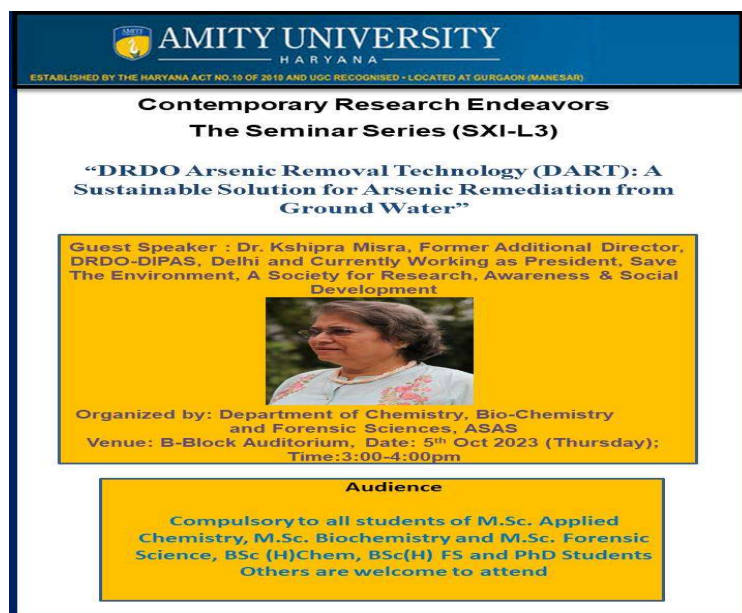

Total Expenditure: Rs. 3000/- [Honorarium: Rs. 2000/- and TA: Rs.1000/-]

Guest Lecture Report

On October 5th, 2023, a guest lecture on **DRDO Arsenic Removal Technology (DART)** was organized by Deptt. of Chemistry, Biochemistry and Forensic Science, Amity University, Haryana. The event was held in the B-block auditorium and the guest speaker was an expert in the field of removal of arsenic from ground water with several years of experience.

Information of Guest

Name- Dr Kshipra Misra, the Former Additional Director, DRDO-Defence Institute of Physiology & Allied Sciences, Delhi and currently she is serving as President, “Save The Environment” - A Society for Research, Awareness & Social Development.

Education. Ph.D in Chemistry and Post Doctorate from Harvard School of Public Health, Harvard University, USA.

Now actively involving in implementing various environmental and societal initiatives and organizing scientific meets on environmental issues.

Motivational speaker-

- Successfully completed various projects as Project Director and guided several Ph.D and Masters' students
- Visiting Scientist in the University of Quebec, Canada.
- Expert member in various research project evaluation committees of different government organizations and academic institutes.
- Life time member for number of national and international professional societies. She has delivered several invited talks in India as well as abroad.
- Chief Editor of The International Journal of Environment and Health Sciences and is also editorial board member and reviewer in journals of international repute.
- Conferred with several awards and honors, some among them being the prestigious:
 - ✓ Anubhav Award from The Government of India;
 - ✓ WATI, Women and Technological Innovation Award;
 - ✓ DRDO- Spin off Technology Award; Bhartiya Stree Shakti Samman;
 - ✓ Anveshan Award by IIM, Ahmedabad;
 - ✓ Bharat Jyoti Award;
 - ✓ NRDC, Government of India Social Innovation award
 - ✓ NESI Eminent Scientist honor.
 - ✓ Her name is also included in Marquis Who's Who in Asia and Reference Asia (Asia's Who's Who of Men & Women of Achievement).

- Renowned for the development of innovative DART filters used for reducing the impact of arsenic poisoning in groundwater.
- Authored more than hundred research papers published in international and national journals. Editor-in-Chief of a book and has contributed many chapters in various books related to Environment Science and Phytochemistry and has many national and international patents to her credit.

DRDO Arsenic Removal Technology (DART): A Sustainable Solution for Arsenic Remediation from Ground Water

Arsenic contamination in groundwater is a significant issue in various parts of India. Arsenic is a naturally occurring element that can be found in rocks and soil. When the groundwater comes into contact with these arsenic-rich geological formations, it can become contaminated with arsenic, posing serious health risks to people who consume the water.

Several states in India, including West Bengal, Bihar, Uttar Pradesh, Jharkhand, and Assam, have reported high levels of arsenic contamination in their groundwater. The World Health Organization (WHO) has set the safe limit for arsenic in drinking water at 10 micrograms per liter ($\mu\text{g/L}$). In many affected areas in India, the arsenic levels far exceed this limit.

Long-term consumption of arsenic-contaminated water can lead to various health problems, including skin lesions, cancer, cardiovascular diseases, and developmental effects. It is crucial for residents in affected areas to have access to safe drinking water sources, and efforts are being made by the government and various organizations to address this issue.

DART, in the context of DRDO (Defence Research and Development Organisation) India, stands for "DRDO's arsenic removal technology." It is an arsenic removal technique developed by the DRDO to address the issue of arsenic contamination in groundwater, particularly in the states of West Bengal and other parts of India where this problem is prevalent. DART utilizes a sorbent material that is capable of adsorbing arsenic from water. The sorbent material may include materials like iron oxide-based compounds or modified activated alumina, which have a high affinity for arsenic. As water containing arsenic passes through a filter or column containing the sorbent material, the arsenic ions are adsorbed onto the surface of the sorbent through chemical interactions. One of the significant features of DRDO's DART technology is the ability to regenerate the sorbent material after it reaches its adsorption capacity. Regeneration techniques may involve desorption processes using chemicals or other methods to remove the adsorbed arsenic from the sorbent, allowing the sorbent to be reused multiple times. Like as a building material.

DRDO's DART technology has been instrumental in providing safe drinking water to communities in arsenic-affected regions, contributing significantly to public health and environmental safety efforts in these areas.

1. General Information

Date: 05 October 2023
Event Type: Educational Visit
Event Title: Visit to IARI and its Department of Extension, and Department of Agricultural Economics, Experimental new farming practices and technology in IARI farms. National Agricultural Science Museum.
Event Theme: Study Visit
Venue: IARI, PUSA Campus, New Delhi
Web/Video Link of the Event: NA
Organized by: Amity School of Economics
In collaboration with: IARI
Event Level: Institutional
Student Participation: No. of Students from AUH (Course wise): ASE students (9 from M.A Economics, 28 from B.A. Economics and 1 from PhD) Total- 38

3. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.		The IARI faculty explained the opportunities that Economic students do get, which has benefitted ASE/AU H students too		Research Skills: Students had the opportunity to understand the research activities at IARI. Conducting surveys, analyzing data, and understanding research methodologies are valuable skills that can be honed during such visits. These skills are essential for future economists.
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				Career Insights: Exposure to the various agricultural

				analysts, or researchers, can help students make informed decisions about their future careers. They can identify areas of interest and potential career paths within the field of economics.
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				Teamwork and Collaboration: Group visits promote teamwork and collaboration among students. They learn to work together, share responsibilities, and solve problems collectively, skills essential for their future academic and professional endeavors
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				<i>The students will be in the future serving the farming community</i>
4. Outcome related to Students Learning & Grooming				
A study visit to the Indian Agricultural Research Institute (IARI) can have several positive outcomes related to students' learning and grooming in the field of economics.	<i>The ASE Students could learn many things about the food that we eat, its economics.</i>	Enhanced Knowledge: Students gained in-depth knowledge about agricultural economics, sustainable farming practices, and the agricultural industry. They also learned about the economic aspects of agriculture, including production costs, market trends, and government policies		Practical Exposure: Visiting IARI allowed students to see theoretical concepts in action. They observed agricultural experiments, innovative farming techniques, and interacted with experts in the field. This practical exposure enhances their understanding and provides real-world context to their learning. Networking: Interacting with researchers, scientists, and professionals at IARI helped students build valuable networks. These connections can be beneficial for their academic and professional growth, providing mentorship opportunities and potential collaborations. Critical Thinking: Encounters with real-world agricultural challenges can stimulate critical thinking. Students can analyze complex issues, evaluate different solutions, and develop a deeper understanding of the economic implications of agricultural decisions and policies. Communication Skills: Engaging with experts and peers during the visit can enhance students' ideas, as they participate

		affecting the agricultural sector.		improving their ability to articulate economic concepts effectively. Inspiration and Motivation: Meeting successful professionals and witnessing innovative agricultural practices can inspire students. It can motivate them to pursue further studies or research in economics, agriculture, or related fields, driving their passion for learning.
--	--	------------------------------------	--	---

5. Any other

Cultural Exposure: The visit to Indian **Agricultural Science Museum** helped the students to gain insights into the socio-economic aspects of rural life. Understanding the history of diverse cultures and agrarian economic challenges broadens their perspective and empathy, essential qualities for well-rounded economists.

In summary, a study visit to the Indian Agricultural Research Institute can significantly contribute to students' learning and grooming by enhancing their knowledge, providing practical exposure, developing essential skills, fostering networks, and inspiring them to excel in the field of economics.

The students reflections on the study visit are Given below:

A50018222004 Mr VADDE NAGARAJU:BA (H) Economics Sester -III

Firstly, I want to express my gratitude to Amity University and the Economics Department for providing me with the wonderful opportunity to visit the Indian Research Agriculture Institute and gain practical knowledge about agriculture in both Indian and global contexts."

My learning points are

- While observing, I noticed that the institute's employees utilize a **multidisciplinary approach, integrating** various fields of science, economics, and technology to address complex agricultural challenges.
- When we visited farms and nurseries, I noticed that the IRAI was conducting research on various crops emphasizing the need **to diversify for better resilience to climate change and** This has broader implications for regional economics.

Manish

Registrar
Amity University Haryana
Manesar Gurgaon-122413

- iii. learning **about sustainable farming techniques emphasizing importance** of environmentally friendly methods for long term economic viability.
- iv. Recognizing the institute use of **data analytics and technology for informed decision making** reinforced the role data optimizing resources allocation and investment in agriculture.
- v. Finally, I understand the **importance of knowledge transfer to farmers**, ensuring they have access to the latest information and best practices.

Sasikant MA Economics -1

- i. Indian Agricultural Research institute is also a world class agricultural research centre .We the Students had great opportunity to learn about Agriculture. IARI is helpful to make research and projects regarding Agriculture.
- ii. Day-by-Day world is upgrading and also technology was also improving from that IARI is also changing and upgrading the Research techniques and also using different technology like Machinery, Marketing techniques.
- iii. 3)IARI is helping the farmers to aware about New Farming techniques. These Farming techniques are helpful to farmers to learn New kind of farming techniques.
- iv. IARI is also Maintaining international relations through Marketing. it helpful to maintain and growth in India's GDP. Through this it will helps India to maintain Friendly relation with neighboring and other counties.
- v. There are so many Scientists are there in the IARI. They gave us inspiration to make india No1. Like M.S. Swaminathan he is one of the great scientists also known as father of green revolution.

A50018222014 Ms LAKSHITA YADAV BA (H) Economics III

We learnt about : The campus of Indian Agricultural 1.Research Institute is in 500 hectare and how the utilize it in for testing their various agro experiments.

- i. We came to know that only 25% of their research is available to common farmers due to scalability issue.
- ii. The role of krishi Mela organised by them for selling genetically modified saplings for better results to farmers.
- iii. The poly house- how it's controlled environment help in growing some specific crops .The Israil technology of plantation.
- iv. The future of education in field of Agricultural economics.
- v. Ancient farming techniques being displayed in the agricultural museum.

A50018222013 Mr SHUBHAM BA (H) Economics-III

We learnt about:

- i. The history and significance of the PUSA farm why it was made in 1907
- ii. The father of Green revolution MS Swaminathan
- iii. The cross breeding of the plants mainly tomato.Poly house technology of tomato and cucumber.
- iv. The mixture named Soilide being used which contains vermicular composts.
- v. The Israil plantation techniques and the green house farming
- vi. The integrated farming ecosystem of pond fishery , ducks , hens and the surrounding fields
- vii. Drip irrigation and fertilizer controlling
- viii. The future of Agricultural economics, MSP and Subsidies
- ix. We also say the fossils or remains of some old agricultural crops like horsegram , gram , chickpeas in the museum.

Aruna MA Economics -I

- i. I learned IARI came Bihar to Delhi in 29th july 1936

Manesar

Registrar

Director Amity University Haryana
Manesar Gurgaon-122413

- ii. Different type of theme research like Farm management and resources economics, Agriculture and marketing trade
- iii. We learned about cutting-edge research in crop breeding, pest control, and sustainable farming practices.
- iv. In museums we learned our farming village culture many different Many different ways of living
- v. Discover sustainable farming techniques, such as organic farming, integrated pest management, and precision agriculture.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

A Workshop was organised for the students of 5th Semester ASFDT. Dr.SAM VINAY RAO was invited as an expert to introduce students with more tricks & functions of the tools of Adobe Photoshop. Because Photoshop is so widely used in Fashion design, marketing, creative and engineering roles, Photoshop skills are useful for professionals and students. Since, it launched more than 25 years ago, Adobe Photoshop has become the undisputed king of image manipulation software. It has become one of the most widely used programs across a variety of industries, and having Photoshop skills helps whether the working professional, a student, or an enthusiast. Because learning Photoshop can take some time, students may want to consider Photoshop classes and workshop to improve their Photoshop skills. Hence, a brief one-day Workshop was scheduled on 12th Oct'2023 to advance the skills of the students for their future Fashion illustration for Graduation design collection.

4. Outcome related to Students Learning & Grooming		
Students attending a seminar on social entrepreneurship should gain a comprehensive understanding of how businesses can address societal challenges while being financially sustainable. They should learn to identify opportunities for positive impact, develop innovative solutions, and grasp the importance of ethical and sustainable practices in entrepreneurship. Additionally, students should leave with the motivation and skills needed to create and manage enterprises that prioritize both profit and the betterment of society.		
5. Any other		

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

The seminar on social entrepreneurship is a knowledge-sharing event focused on the intersection of business and social impact. It brings together experts, entrepreneurs, and enthusiasts to explore innovative ways to address societal challenges through sustainable business models. Topics include introduction of an entrepreneur, ethical practices, and real-world success stories, making it a valuable platform for those interested in creating positive change through entrepreneurship.

3.2 Inspiration & Objectives of the Event

The objective of the seminar on social entrepreneurship was to educate, inspire, and empower participants in understanding the principles and practices of social entrepreneurship. This event aims to foster a deeper understanding of how businesses can create positive social and environmental impacts while remaining financially sustainable. Through interactive sessions, case studies, and expert discussions, the seminar intends to equip attendees with the knowledge, tools, and motivation to pursue innovative solutions to societal challenges and drive positive change through entrepreneurial endeavours.

3.3 Brief about the guest lecture

Manesar

The speaker delivered an inspiring talk on social entrepreneurship, highlighting its potential to drive positive change in society. They emphasized the importance of innovative business models that prioritize social and environmental impact alongside profits. The talk encouraged individuals to harness their entrepreneurial spirit to address pressing societal issues and create a more sustainable and equitable future.

3.4 'Take Homes' for the Guest and Attendees: N/A

3.5 Future plan for utilizing the contacts developed with the Invited Guests

Students have exciting plans for leveraging the contacts they've developed with the guest speaker in the field of social entrepreneurship. They intend to seek mentorship and guidance, collaborate on potential projects, and even volunteering with organization (DoAR). These connections will serve as valuable resources to help them make a meaningful impact in the realm of social entrepreneurship.

3.6 Budget of the Event(Budget Sanctioned, Total Expenditure &Revenue Generated): N/A

3.7 Details of Awards if Any:

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 19 October 2023

Event Type: Guest Lecture

Event Title: Building the Future: Challenges and Opportunities in Semiconductor Research

Event Theme: NA

Venue: AUH (Online)

Web/Video Link of the Event:

<https://amityedu.zoom.us/meeting/register/tZcvfuihpj8pHdJhWks50ep3t4PvVgrhNcD>

Organized by: Department of Electronics and Communication Engineering, ASET, AUH

In collaboration with: Tezpur University, Assam

Event Level: National

Student Participation*: No. of students from AUH (Course wise):- 48

Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 05

Participation from outside AUH*: No. of Students & Faculty Members- 25

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Dr. Neeraj Gupta; Associate Professor, AEST

Details of Expert/Speaker/Resource Person/Judge:

S N	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Dr. Ratul Kumar Baruah	Tezpur University, Assam	Associate Professor	Semiconductor devices, Biosensors, and Flexible electronics	99578 62754	ratul.kr@tezpur.ernet.in	On request <u>Dr. Ratul Kr. Baruah</u> (ernet.in)	Semiconductor devices, Biosensors, and Flexible electronics	Dr. Neeraj Gupta (AP)

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	NIL	NIL	NIL	NIL
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NIL	NIL	NIL	NIL
c) Collaboration for Funded Projects	NIL	NIL	NIL	NIL
2. Outcome related to Industry Connect				
a) Placement	NIL	NIL	NIL	NIL
b) Collaborations for Research Papers	NIL	NIL	NIL	NIL

c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NIL	NIL	NIL	NIL
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
				Students were amazed to know the opportunities in the semiconductor domain. They were keen to ask queries and to join summer internship in the field of VLSI.
5. Any other				
NA				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

The event aimed to inspire and educate participants about the Challenges and Opportunities in Semiconductor Research.

Inspiration & Objectives of the Event:

The semiconductor industry faces the challenges and opportunities of increased product demand in the immediate future. The growth of artificial intelligence (AI) and the Internet of Things (IoT) and the ongoing demands from the smartphone sector and other high-tech industries will place stress on the semiconductor supply chain. The challenge will be further complicated by ongoing international trade disputes, which may drive up the cost of semiconductor materials and interfere with global collaboration within the industry.

New solutions are needed to face these demands. Recycling semiconductor materials at device end-of-life continues to prove difficult, as does the need to produce semiconductor devices using more sustainable processes to reduce the emissions of toxic pollutants during the manufacturing process.

Such events further the aim of AUH which research and innovation driven university. The objective was to make participants gain valuable insights from expert about challenges and opportunities in semiconductor, and the event served as a platform for meaningful discussions and knowledge exchange.

3.2 Brief about the address/talk of speakers:

Dr Ratul Kumar Baruah explained the participants about the frugal engineering to develop concept of semiconductors and laid the foundation of importance of chips. In the later part of the session, he debunked all the myths about semiconductor devices. He covered the following topics:

- ✚ Explained about the Moore's law in semiconductors
- ✚ Discuss about the MOSFET and its basic operation
- ✚ The challenges faced by engineers at scaled devices
- ✚ New device structure like gate all around MOSFET and nano sheets transistors.
- ✚ Applications of semiconductors in various domain of engineering
- ✚ Finally, focus on job opportunities and challenges faced by engineers in this demanding area.

3.3 'Take Homes' for the Guest and Attendees; The take home message from the lecture was introductory knowledge in the semiconductors and market trends in this domain. Innovation is not the sole domain of scientists, engineers, or entrepreneurs. It is a collective endeavour that involves each one of us. It thrives on diversity, on the collision of ideas and perspectives. Participants were encouraged innovator, to ask questions, challenge the status quo, and seek out new ways of doing t

3.4 Future plan for utilizing the contacts developed with the Invited Guests: To organ

3.5 Budget of the Event(Budget Sanctioned, Total Expenditure &Revenue Generated): NIL

Introduction to Expert by Dr Neeraj Gupta

Typical VLSI Design Flow

Trends in Devices

Opportunities in semiconductor research for job seekers

- Research and Development (R&D) Positions
- Process Development and Manufacturing
- Device Physics and Modeling
- Materials Science
- Quality and Reliability
- Photonics and Optoelectronics
- Emerging Technologies
- Energy-Efficient Designs
- IoT and Edge Computing
- Security and Cybersecurity
- Flexible Electronics
- Biomedical Applications
- Environmental and Sustainable Technologies

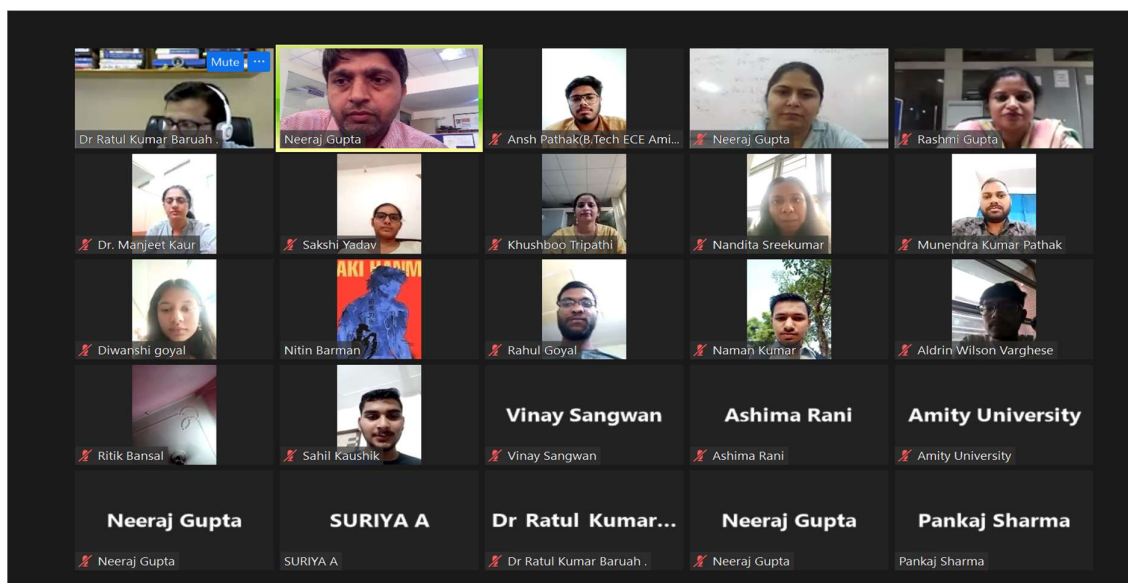

(Research Scientist/Engineer, R&D Engineer)
(Process Engineer, Device Engineer)
(Device Physicist, Simulation Engineer)
(Materials Scientist/Engineer, Thin Film Engineer)
(Reliability Engineer, Quality Assurance Engineer)
(Photonics Engineer, Optoelectronics Researcher)
(Quantum Computing Researcher, Neuromorphic Computing Engineer)
(Power Electronics Engineer, Low-Power Design Engineer)
(IoT Device Engineer, Edge Computing Engineer)
(Hardware Security Engineer, Cybersecurity Researcher)
(Flexible Electronics Engineer)
(Biomedical Device Engineer, Bio-sensor Researcher)
(Sustainability Engineer)

Outcome Report (Event/Activity Organized @ AUH)

1. General Information

Date: 20 October 2023
Event Type: Educational Visit/ Tour (Sculpture Sustainable Workshop)
Event Title : "Waste to Art" Workshop on Gandhi
Event Theme: Innovation
Venue: Satyagrah Mandap Gandhi Darshan Rajghat, New Delhi
Web/Video Link of the Event: No
Organized by: Amity School of Fine Arts (ASFA) AUH
In collaboration with: Gandhi Smriti and Darshann Smriti New Delhi
Event Level: National
Student Participation: No. of Students from AUH (Course wise): - 41
Faculty Participation: No. of Faculty Members from AUH (Deptt. wise): - 03
Participation from outside AUH: No. of Students & Faculty Members- No
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Dr. Animesh Mahata, Asst. Prof. ASFA,
 Mr. Ramesh Sampui, Asst. Prof. ASFA,

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Ms.Nehmat Mongia	Gandhi Smriti and Darshann Smriti New Delhi	Curator	Design	99713 54969	mongiane hmar@gmail.com	NA	NA	Dr. Rakesh Kumar Chaudhary HoD

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Nil	Nil	Nil	Nil
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	Nil	Nil	Nil	Nil
c) Collaboration for Funded Projects	Nil	Nil	Nil	Nil
2. Outcome related to Industry Connect				
a) Placement	Nil	Nil	Nil	Nil
b) Collaborations for Research Papers	Nil	Nil	Nil	Nil

c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Nil	Nil	Nil	Nil
d) Collaboration for Funded Projects	Nil	Nil	Nil	Nil
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	Nil	Nil	Nil	A session on the importance of reducing waste and recycling in the art-making process. Information on how to dispose of art-related waste responsibly. Participants displayed their finished sculptures for group discussion and critique
b) Benefit to society in terms of Education	Nil	Nil	Nil	The Sustainable Sculpture Workshop achieved the following outcomes: Participants gained knowledge of sustainable materials and techniques for creating sculptures. Enhanced awareness of the environmental impact of art materials and the importance of sustainable art practices.
4. Outcome related to Students Learning & Grooming				
Students learnt how to use sustainable material as innovative artwork. How these kind sustainable materials transformed in a new identity, new art form.				
5. Any other				
The Sustainable Sculpture Workshop was a success in raising awareness about sustainable art practices and equipping participants with the knowledge and skills to create sculptures with minimal environmental impact. The event fostered a sense of community and collaboration among participants, and we look forward to seeing their continued contributions to the world of sustainable sculpture.				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: Art is not just an expression of emotion but also a medium for communicating ideas. It can act as therapeutic relief, a conduit for self-expression, or simply a way to appreciate life's beauty. Through art, we can chronicle history, embody societal values, and comment on political or social events. "Waste to Art" workshop type of art seeks to transform waste such as paper, cardboard, wood, glass, plastics, metals and rubber into works of art. The concept, therefore, goes beyond the conventional recycling of materials by creating objects that exceed the economic, cultural and social value of the original product. A workshop can introduce a new concept, spurring participants to investigate it further on their own, or can demonstrate and encourage the practice of actual methods. It's a great way to teach hands-on skills because it offers participants a chance to try out new methods and fail in a safe situation.

3.2 Inspiration & Objectives of the Event : The Sustainable Sculpture Workshop was held on 20th October 2023 at Satyagrah Mandap Gandhi Darshann Rajghat New Delhi . This workshop aimed to introduce participants to the concept of creating sculptures using environmentally friendly and sustainable materials and techniques. The event was organized by Gandhi Smriti and Darshann Smriti attended by 41 participant's students, and individuals interested in sustainable Sculpture Workshop was a success in raising awareness about sustainable art p

participants with the knowledge and skills to create sculptures with minimal environmental impact. The event fostered a sense of community and collaboration among participants, and we look forward to seeing their continued contributions to the world of sustainable sculpture.

Outcomes:

The Sustainable Sculpture Workshop achieved the following outcomes:

Participants gained knowledge of sustainable materials and techniques for creating sculptures.

Enhanced awareness of the environmental impact of art materials and the importance of sustainable art practices.

The creation of numerous sustainable sculptures by participants, showcasing their creativity and newfound skills.

An increased commitment among participants to incorporate sustainable practices into their future artistic endeavours.

The student of Amity School of Fine Arts worked on their own sculptures using the sustainable materials and techniques learned during the workshop.

Group discussions and feedback sessions to foster creativity and collaboration.

A session on the importance of reducing waste and recycling in the art-making process.

Information on how to dispose of art-related waste responsibly.

Participants displayed their finished sculptures for group discussion and critique.

A roundtable discussion on the challenges and benefits of sustainable sculpture.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

An insightful Training session on CMIE Databases was conducted in A Block Auditorium organised by ABS in association with Central Library, AUH. It was organised for the students of ABS and AESM under the guidance of ABS Faculties. The guest, Mr. Rajeev Ranjan discussed the application of databases with the distinguished set of students which are practiced in CMIE, data relevant to business dealings, profits, economic conditions, decision making important for sustaining in the business world.

3.2 Inspiration & Objectives of the Event

The objective of the training session organized by Amity Business School is to foster career growth by analysing the datasets available of an organisation in an efficient manner to make the best information extracted from it. Through this discussion, audience is provided with a unique gain valuable insights into economic research and analysis, explore the extensive resources.

CMIE, and understand the pivotal role this organization plays in shaping our understanding of India's economic landscape. Mr. Ranjan's wealth of knowledge and experience makes this training session a truly enriching experience for all attendees. Students can gain information on the impact of effective utilisation of databases on business and society, and its role in driving economic growth. It serves as a platform for students to showcase their research, analytical, and communication skills. Ultimately, the training session aims to foster a deeper understanding of practicing extraction of databases and its role in shaping the business landscape while developing valuable decisions for future activities of the organisation.

3.3 Brief about the address/talk of speakers

Mr. Rajeev Ranjan discussed the various aspects how the data of the companies can be used effectively by the students for their placements and research. Also, the handson on prowess is also discussed and explained for the effective search methanism

3.4 'Take Homes' for the Guest and Attendees

Mr. Rajeev Ranjan provided valuable insights into leveraging company data for students' placements and research, with a focus on hands-on practical skills for effective data search mechanisms. This is a commendable approach, as practical experience is crucial in the field of data analysis and research. The keypoints discussed

Effective Use of Company Data:Students can benefit from understanding how to utilize company data for their placements and research. This could involve accessing publicly available data, utilizing APIs, or forming partnerships with companies for access to specific datasets.

Companies often have a wealth of information that can be used for various purposes, including market research, trend analysis, and identifying areas for improvement.

Effective Search Mechanism:Discussing and explaining effective search mechanisms implies teaching students how to efficiently search for and retrieve relevant data. This could include advanced search techniques, using databases, and understanding how to filter and refine search results.

Prowess in Data Handling:Mention of prowess in data handling suggests a focus on developing expertise in managing and manipulating data. This is a fundamental skill for anyone working with data, especially in the context of research and placements.

Integration with Placement Process:Connecting the use of data to the placement process implies that students can use their data analysis skills to enhance their job search. For example, they might analyze industry trends, identify in-demand skills, or tailor their resumes based on data-driven insights.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

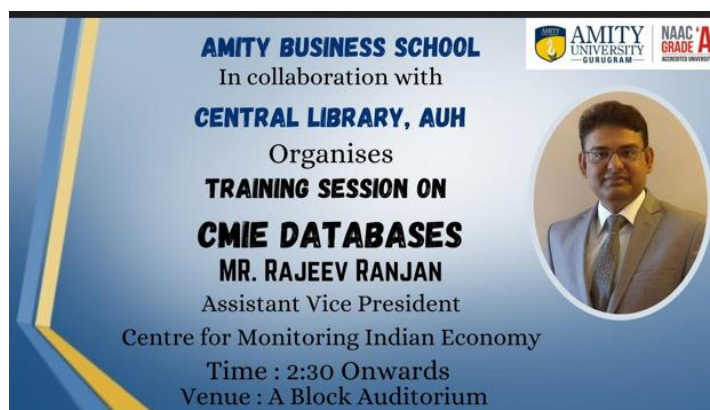

More detailed session can be planned for research scholar and interested students of ABS and AESM

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

The textile testing workshop was organized from 31st Oct'23-6th Nov'23 in D427, 4th Floor, D block, AUH for the students of ASFDT. Mr. Vikas Bhargava was invited as a guest. Students were made aware of the Safety measures required to be taken in the Industry during Textile testing. They were given a demonstration of the usage of the different equipment like: GSM Cutter, weighing balance, Beasley Balance, snap pull tester, tensile strength testing machine, colour matching cabinet, pilling tester, and crock meter and learnt about the testing methods and its requirement. Later, they tested different fabrics. Those who learn textile testing can better understand about fabric quality and use in the design process. This knowledge can help them in any field where quality & creativity is valued. Thus, it's very important for the students pursuing fashion design to know the techniques of Textile testing.

3.2 Inspiration & Objectives of the Event

- ☐ To learn about the basic textile testing of fabric like calculation of GSM and EPI, PPI.
- ☐ To learn about the snap pull testing procedure.
- ☐ To know how to match the colour of two different lot of fabrics.
- ☐ To learn about the pilling tester as well as tensile strength testing methodology.

3.3 Brief about the address/talk of speakers

Mr Vikas Bhargava, Founder Partner of Brandwidth Apparel LLP, is an international textile professional and has over 29 years of experience in the industry with exposure to all departments of the textile & apparel industry. Ms. Kavita is B.Tech, M.Tech, 2 years industrial experience and 9 years teaching experience.

3.4 'Take Homes' for the Guest and Attendees:

Students gained knowledge of the different techniques of Textile testing required for Quality checks of fabric in the industry.

They learnt how to measure GSM, yarn Count, pilling resistance and tensile strength of fabric and also learnt how to check colorfastness, color variation and snap pull strength etc.

They performed some basic textile testing using instruments like the GSM cutter, EPI, PPI, Rubbing fastness, Color matching, Snap pull tester, Tensile strength tester and Beasley balance.

Students learnt the importance of the Safety measures required to be taken in the Industry during Textile testing.

3.5 Future plan for utilizing the contacts developed with the Invited Guests:

Mr Vikas Bhargava, Founder Partner of Brandwidth Apparel LLP, Gurgaon with whom we have an MOU, has been closely associated with the Department. He has organised workshops/ industrial visits & helped in Internship & placement of students previously and has assured us of his support in future also.

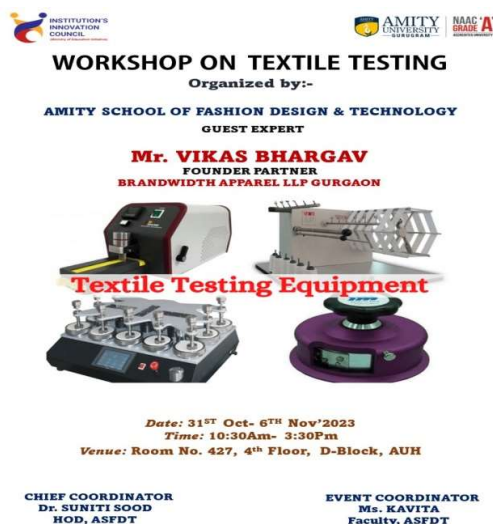

3.6 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): NA

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

An insightful workshop was organised by ABS in MDP Room, A Block, AUH. This dynamic workshop on Capability Enhancement and personality development delves into key aspects such as effective communication, self-confidence, leadership development, time management, emotional intelligence, and goal setting. Through a blend of engaging presentations, group discussions, and hands-on activities, participants will gain practical insights and tools to refine their personalities and enhance their capabilities. It was organised by students of BBA-2nd year under the guidance of ABS faculty. A distinguished set of students participated in the workshop.

3.2 Inspiration & Objectives of the Event

The general objective of conducting the personality development and capability enhancement workshop is to empower participants with the tools and insights necessary for personal and professional growth. The event aims to provide a comprehensive platform for individuals to enhance their self-awareness, communication skills, and overall personality traits. Through a series of interactive sessions, participants get exposed to various strategies and exercises designed to improve their confidence, leadership abilities, and interpersonal skills. The ultimate goal was to foster a positive and dynamic environment that would enable participants to unlock their full potential, navigate challenges effectively, and contribute meaningfully to both their personal lives and professional endeavours.

3.3 Brief about the address/talk of speakers

Dr. Supriti Agrawal is an associate professor at Amity Business School, Amity University, Manesar in Marketing with 23 years of industry and academic experience. She completed her PhD in the year 2013 from BITS, MESRA Ranchi in the areas of pharmaceutical marketing. Her current areas of research interest include Consumer Behavior, Health care service Marketing, Pharmaceutical Marketing.

3.4 'Take Homes' for the Guest and Attendees

The workshop helps a person for unlocking the psychological tools and insights to elevate the capabilities through enhanced self-awareness, communication strategies, and confidence. The session benefitted in fostering a resilient mindset for sustained professional growth.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

The second part of the workshop for continuation is being planned to be held on 23rd November, 2023.

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Dr Dhananjay Dey	IIIT Lucknow	Associate Professor	Mathematics	98682 47231	ddey@iiitl.ac.in	NA	Cryptography	Dr NC Mowli (HOD)

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): He is an eminent professor in the field of mathematics at IIIT Lucknow and published several research papers in his area of research. He has many funded projects ongoing and completed. He can help interested faculties to write funded project and research papers in collaboration.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)? Yes. The guest was known to ASAS Mathematics HOD Dr NCMowli.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book	Tangible			Interested

Chapter etc.				having same area of research
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NA			
c) Collaboration for Funded Projects	Tangible			Ready to Guide faculties for funded projects writing.
2. Outcome related to Industry Connect				
a) Placement	NA			
b) Collaborations for Research Papers	NA			
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NA			
d) Collaboration for Funded Projects	NA			
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	NA			
b) Benefit to society in terms of Education	NA			
4. Outcome related to Students Learning & Grooming				
				This event helped participants to gain knowledge in the field of cryptography which include secure system.
5. Any other				
NA				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event: The event was organised by department of mathematics and the speaker was an eminent professor of mathematics from IIIT Lucknow. He delivered a **lecturer** on Quantum and post quantum cryptography. In this **webinar** he discussed about applications of cryptography, cryptosystem, Secure communication, development in quantum computing etc. **This event helped participants to gain knowledge in the field of cryptography which include secure system.**

3.2 Inspiration & Objectives of the Event: The inspiration and objective behind this event was to gain knowledge in the field of cryptography and its application and development.

3.3 Brief about the address/talk of speakers: The speaker talks about the application of cryptography and also given some idea about collaborative work.

3.4 'Take Homes' for the Guest and Attendees: Indepth knowledge of Cryptography.

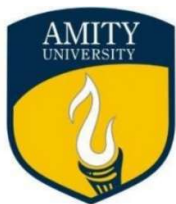

3.5 Future plan for utilizing the contacts developed with the Invited Guests: For active collaboration in his area of research.

3.6 Budget of the Event(Budget Sanctioned, Total Expenditure & Revenue Generated): NA

3.7 Details of Awards if Any: NA

4. Outcome related to Students Learning & Grooming				
The ASH students gained a lot of information regarding 'Role of Quality Control in Food Service Chain-From Production to Service'. Quality Control throughout the food service chain helps establishments maintain consistency in their offerings, reduce food waste, enhance customer satisfaction, and ensure compliance with food safety regulations. It is an essential component of running a successful and reputable food service operation.				
5. Any other - NIL				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Amity School of Hospitality (ASH) in collaboration with Internal Quality Assurance Cell (IQAC), AUH organized "Workshop on Role of Quality Control in Food Service Chain-From Production to Service" on 3/11/2023 between 9:30 AM – 1:10 PM. The faculty coordinators were Dr. Vinod Kumar Chauhan – Assistant Professor & Mr. Subrata Pal – HOD & Associate Professor. The objective to conduct this event was to make ASH students gain a lot of information regarding 'Role of Quality Control in Food Service Chain-From Production to Service'. A total of 9 BHM students of ASH participated in this event. The resource person, Dr. Sunita Sharma – Deputy Director, IQAC, AUH said that Quality Control plays a critical role in the food service chain, ensuring that the food served to customers meets the required standards of safety, taste, and consistency. It encompasses a series of processes and checks that begin with the production of food and continue through various stages until the final service to the customer. Here's an overview of the role of quality control at each stage of the food service chain:

1. Production:

- Ingredient Quality:** Quality control starts with selecting and sourcing high-quality ingredients. Suppliers must meet certain standards for freshness, safety, and consistency.
- Food Safety:** Ensuring that food is produced and handled in a manner that prevents contamination and foodborne illnesses, adhering to sanitation and hygiene regulations.
- Portion Control:** Proper portioning of ingredients helps maintain consistency and manage costs.
- Recipe Standardization:** Developing and following standardized recipes ensures consistency in taste and presentation.

2. Food Preparation:

- Cooking Standards:** Monitoring cooking times and temperatures to ensure food safety and quality.
- Cross-Contamination Prevention:** Proper handling and storage to prevent cross-contamination of allergens or pathogens.
- Taste and Presentation:** Regular quality checks to ensure that the food meets taste and visual standards.

3. Storage and Inventory:

- Temperature Control:** Maintaining proper storage temperatures to prevent spoilage.
- FIFO (First-In, First-Out):** Ensuring that the oldest stock is used first to prevent food waste.

c. Inventory Accuracy: Regularly auditing inventory to prevent over-ordering or running out of essential ingredients.

4. Service:

- a. Plating and Presentation: Ensuring that the food is served according to established standards for presentation.
- b. Temperature: Checking that hot food is served hot and cold food is served cold.
- c. Order Accuracy: Verifying that the food matches the customer's order.
- d. Timeliness: Ensuring that orders are served promptly to maintain customer satisfaction.

5. Customer Feedback:

- a. Customer Satisfaction Surveys: Collecting and analyzing feedback to make continuous improvements.
- b. Complaint Handling: Addressing and resolving customer complaints promptly to maintain customer trust.

6. Compliance and Regulations:

- a. Adhering to local, state, and federal regulations related to food safety, sanitation, and labeling.
- b. Regular Inspections: Subjecting the food service establishment to periodic inspections by health authorities to ensure compliance.

7. Training and Education:

- a. Training Staff: Providing ongoing training to staff on food safety, hygiene, and quality standards.
- b. Keeping Up with Trends: Staying updated with industry trends and incorporating new techniques or ingredients as needed.

Quality Control throughout the food service chain helps establishments maintain consistency in their offerings, reduce food waste, enhance customer satisfaction, and ensure compliance with food safety regulations. It is an essential component of running a successful and reputable food service operation.

3.2 Inspiration & Objectives of the Event – The inspiration & objective of the event was to educate ASH students regarding ‘Role of Quality Control in Food Service Chain-From Production to Service’.

3.3 Brief about the address/talk of speakers – mentioned in the ‘General Introduction of the Event’.

3.4 ‘Take Homes’ for the Guest and Attendees – The ‘Take Homes’ for the Attendees was that they gained a lot of information regarding ‘Role of Quality Control in Food Service Chain-From Production to Service’. The ‘Take Homes’ for the resource person was that she expressed her interest in conducting more of such workshops in future to educate ASH students about role of quality control in various hotel & restaurant operations.

3.5 Future plan for utilizing the contacts developed with the Invited Guests – The future plan is to collaborate with the resource person to conduct more of such highly informative workshops in future for ASH students.

NA				

2. Event Report along with glimpses of the event (Photographs)

Seminar started with introduction of speaker. The seminar: **“Self-assembled Nanostructures Formation within Ionic Liquids Media”** held on 9th November, 2023 conducted by Dr. Kamalakanta Behera.

The formation of self-assembled nanostructures like micelles and microemulsions within ionic liquids media was discussed. Ionic liquids are salts which exist in liquid state over wide range of temperature including room temperature and they possess unique physicochemical properties such as, low melting point, negligible vapour pressure, high thermal and chemical stability, high electrical conductivity, large electrochemical window, etc. Ionic liquids are called green solvents as they have no damaging impact on the earth atmosphere due to their low volatility. Ionic liquids have shown tremendous application potential in synthesis, catalysis, biocatalysis, separation and extraction, material science, and pharmaceuticals. The micellar properties like critical micelle concentration and aggregation number and micellar size of different surfactants solutions (ionic and nonionic surfactants) were presented. Fluorescence probe pyrene was used in the investigation. The formation of ionic liquid based microemulsions such as water in ionic liquid microemulsions (w/IL) was characterized using color and UV-visible absorbance spectra of octahedral complexes within the ionic liquid microemulsions.

Conclusions and Future Prospects

- ILs show effectiveness in modifying properties of aqueous micellar solutions.
- The micellization process is favored at low concentrations of ILs (~ 2 wt%).
- At lower concentrations ILs behave as electrolytes where as at higher concentrations these behave as cosolvents.
- These new type of hybrid environmentally-benign systems composed of (IL + surfactant + water) can be potentially applied as green media for a variety of synthetic and catalytic reactions and for many other applications as well.

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Prof (Dr) Subhra Das (ASET) & Prof (Dr) PCS Devara (ACOAST)

Details of Expert/Speaker/Resource Person/Judge:

SN	Countr y Name	Expert Name	Organization Name	Designati on	Specializa tion	Contact No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborate with expert	Recomme nded by
1	India	Dr Anikender Kumar	Environme ntal Monitoring and Research Centre, India Meteorolog ical Department	Senior Scientist	Atmosph eric Sciences	NA	anikender@gmail.com	NA	Research	Prof (Dr) Subhra Das

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)? Yes, he is known to AUH (Prof. P.C.S. Devara, Director, ACOAST). Dr. Anikender Kumar is a senior Meteorologist, having sound knowledge on the linkages between Atmospheric/Oceanic Phenomena and Meteorology over different environments. He has developed some novel techniques with foreign collaborators in studying Atmospheric Ozone over Arctic, Antarctic and Himalayan regions, ocean-atmospheric coupled processes and renewable energy transformation/exchange between surface and different cross-sections of the atmosphere during different extreme weather events such as cyclones, tsunamis, heat/cold waves, active/break monsoons etc.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Yes			
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	<i>PhD scholars from IMD have registered with ACOAST</i>			
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
5. Any other				
The primary goal of this Council is to inspire, encourage and nurture the young students for different activities involved in pre-incubation, incubation and making successful start-ups.				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event : The National Energy Conservation Day is celebrated at AUH to create awareness among the students towards energy conservation and climate change.

3.2 Inspiration & Objectives of the Event: As per the mandate of MHRD and Amity University Haryana (AUH) mission to augment start-up ecosystem in the University, an Institution Innovation Council (IICs) is functioning to systematically foster the culture of Innovation and start-up ecosystem in higher education institutions. The primary goal of this Council is to inspire, encourage and nurture the young students for different activities involved in pre-incubation, incubation and making successful start-ups.

3.2 Brief about the address/talk of speakers

The National Energy Conservation Day is celebrated on December 14 every year, in order to spread the message on the importance of conserving energy and to showcase the achievements of the AUH in energy efficiency and conservation. In India, to raise awareness about energy efficiency and its conservation, the BEE, under the guidance of Ministry of Power, recognizes and encourages endeavours of industrial units, institutions, and establishments in reducing energy consumption by felicitating them with Energy Conservation Awards on the occasion of National Energy Conservation Day.

The event started with a welcome address by Prof. (Dr.) P C S Devara highlighting the importance of energy conservation to protect our environment. He emphasized on the initiatives taken by AUH in monitoring the quality of air on campus and also highlighted the research carried out by Ph D scholars at AUH in understanding the impact of air pollution on human health. Honourable Vice Chancellor Prof. (Dr.) P B Sharma, addressed the students and faculty members and emphasized on the importance of energy conservation for achieving the sustainable development goals and prosperity of the country. The address was followed by the guest lecture by Dr Anikender Kumar on the topic Influence of Meteorology on Air Quality. He emphasized of ozone for protecting us from the harmful sun's UV radiation. But the ground level (because of atmospheric pollution is harmful to living organism. It can inflame and damage lungs, aggravate chronic lungs disease and may cause permanent lung damage. Dr Ku

various greenhouse gases and its impact on environment and human health. A detailed study of the stability of atmosphere and the factors used to assess stability was discussed during the lecture. Students participated actively and had learnt the importance of conserving energy and importance of efficient usage energy which would lead to prolong existence of fossil fuels and direct reduction of greenhouse gas emissions entering the Earth's atmosphere. When users limit their energy usage, they decrease their environmental impact. The act of energy conservation can help slow global warming, therefore saving coastal cities from disappearing underwater, improving water quality and protecting reefs and other fragile ecosystems, improving air quality, and reducing allergens leading to a reduced risk of respiratory health issues, and decreasing the effects on mental health, injuries, and fatalities caused by severe weather. Energy conservation and efficiency work hand in hand with improving the global impact. On a global basis, energy efficiency works behind the scenes to improve energy security, lower energy bills, and move countries closer to reaching climate goals. Prof. (Dr.) H R P Yadav posed the question to the eminent speaker as to what initiatives had India taken to meet the commitments made at COP 28 in Dubai regarding the reduction in greenhouse gas emission and restricting the rise in temperature at 1.5°C. Dr Yadav outlined the COP 28 mandate for India regarding reduction of GHGs. Dr Anikender Kumar proposed that greenhouse gas emission reduction can be done in a planned manner like the steps taken to ban usage of chlorofluorocarbons globally which harms the ozone layer. Prof. (Dr.) P. C.S Devara suggested the utilization of AI & ML techniques to study the energy production and consumption data to study its impact on the meteorological parameters and how it can be used to achieve the target set at COP 28.

The Talk was followed by taking the **Renewable Energy Pledge** by the students, faculty and guest speaker towards conserving our environment. Prof. Subhra Das delivered the vote of thanks and acknowledged the support and guidance provided by each of the members of the faculty, students and higher management in organizing the National Energy Conservation Day. Dr Sweta Tripathi concluded the event by encouraging the young minds to take responsibility in conserving the Mother Nature.

3.3 'Take Homes' for the Guest and Attendees: Change or be changed!

And what we mean by that is that is climate change, if we don't change the way we use our energy resources, if we don't make efforts to conserve our environment then it is going to change everything about our physical world. And there is NO Planet B for us to live!

3.4 **Future plan for utilizing the contacts developed with the Invited Guests:** Dr Anikeder can be of great help for conducting joint PhD and projects between AUH & IMD.

3.5 **Budget of the Event(Budget Sanctioned, Total Expenditure & Revenue Generated)- NA**

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

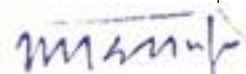

Date : 21 -22 December 2023
Event Type : Workshop
Event Title : “Two Day Workshop on Problem Solving and Ideation Workshop”
Event Theme : IPR & Entrepreneurship
Venue : C-408, AUH
Web/Video Link of the Event: Offline
Organized by : Amity Institute of Pharmacy
In collaboration with: IIC, AUH
Event Level : Institutional
Student Participation*: No. of Students from AUH (Course wise): 22
Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 05
Participation from outside AUH*: No. of Students & Faculty Members- NIL
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Dr. Asim Kumar, Assistant Professor-I, AIP

Details of Expert/Speaker/Resource Person/Judge:

S N	Countr y Name	Expert Name	Organization Name	Designati on	Specializatio n	Contact No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborate with expert	Recomme nded by
1	India	Dr. Manoj Gautam	Fresenius Kabi Oncology Limited, Gurugram, Haryana-122001	Senior Resear ch Scienti st-II	Formulati on Develop ment and IPR	99141 42669	manojgautam08@gmail.com	NA	Drug Formulatio n developme nt in oncology	Dr. Asim Kumar
2	India	Dr. Atin Kalra	Ex-Patent Analyst, Dr. Reddy's Lab Hyderabad , currently in AIP, AUH	Associ ate Profess or	Formulati on developm ent and Patenting	98726 51760	akalra@ggn.amity.edu	NA	Drug Formulatio n developme nt and its patenting	Dr. Asim Kumar

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): The resource persons were invited based on their profile of work. Dr. Gautam is working in an oncology company where novel drug formulations are being developed and its patenting is carried out. His expertise in the field of patenting the drug formulation compelled us to invite him for ideation workshop. Dr. Atin has previously served in Dr. Reddy's patent department wherein he has got an opportunity to frame strategies to how to better protect the intellectual property of the drug formulations developed by the company.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				Collaboration in future would be beneficial for PhD, PG & UG student's training/workshop and to carry out their Research work.
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
				Students and faculties learnt about the strategies of developing newer products, how to commercialize them and most importantly how to secure the IPR.
5. Any other				
The 2 day workshop gave students and attendees a fair idea of the functioning of a company, day to day challenges and problems that occur their and how to conceive novel ideas to tackle those challenges				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event: "Two Day Workshop On Problem Solving and Ideation Workshop" Workshop DAY 1: 21-12-23;

Expert: Dr. Manoj Kumar Gautam, Senior Research Scientist-II, Fresenius Kabi Oncology Limited, Gurugram, Harayana-122001

Theme/Key Content: Navigating the Evolution: "Innovation and Patenting in India"

Session 1; 10.00 AM-1:30 PM: Unravelling the dynamics: Trends in Indian innovation
Session 2; 2.00 PM-4:30 PM: From Concepts to patents adopting to India's shifting patent landscape

Workshop DAY 2: 22-12-23;

Expert: Dr. Atin Kalra, Faculty, AUH,
Ex-Patent Analyst at Dr. Reddy's Lab, Hyderabad

Theme/Key Content: Securing tomorrow: Patent Protection for your Innovation.

Session 1; 10.00 AM-1:30 PM: Cracking the code-strategies for effective patent protection
Session 2; 2.00 PM-4:30 PM: Beyond the lab practical insight into safeguarding your property.

Manoj

3.2 Inspiration & Objectives of the Event: The objective of event was to sensitize students/participants towards the various challenges pertaining to the pharmaceutical industry and how to troubleshoot them by devising novel ideas/protocols. The mandate of institutional innovation council (IIC) is to make the stakeholders aware about innovation and to further motivate the students/stakeholders to develop practices conducive for entrepreneurship. It is therefore in this pursuit this two-day workshop was organized. However, following were some of the notable objectives of organizing the workshop:

- a) To develop an understanding of Intellectual property right regimen and its protection (IPR) as well as its application in an academic setup.
- b) To motivate the students towards developing the habit of innovation and converting the daily lab works and practices into some novel intellectual property idea.
- c) To further motivate students to develop novel concepts/prototypes and to protect these prototypes by IPR

3.3 Brief about the address/talk of speakers:

The sessions were well planned and executed. The day 1, session 1 started on **21st dec 2023**. **Dr. Gautam** started the first day session after a brief introduction by Dr. Asim about the two days workshop. The first session of day 1 was having theme of **Unravelling the dynamics: Trends in Indian innovation**. He elaborated the contemporary trends of innovation accruing in India during last decade. His talk was very insightful in the sense that he has discussed various real time example of innovative ideas/prototypes being developed into commercial product. He also outlines the dynamics of innovation that has unravelled in India over the years. His second session was based on theme **“Concepts to patents adopting to India’s shifting patent landscape”** wherein, he highlighted the important role that intellectual property plays in the economic growth of a country. He emphasized upon a fruitful collaboration between academia and industry for a robust patent policy. The session was interactive, and students have asked their queries and was properly addressed by **Dr. Gautam**. In the end he also talks about his current company where he is working. Further he also pointed out the necessary skills set which students should develop to get absorbed in industry.

The day 2 session of the workshop was addressed by **Dr. Atin Kalra** on **22nd December 2023**. The day 2 session was started by a brief introduction of the workshop and guest speaker by Dr. Asim Kumar. The theme of session 1, day 2 was **Cracking the code-strategies for effective patent protection** wherein he elaborated the ways and means through which any academic and industrial organization protect its intellectual property and what are the procedural requirements for it. He himself being a patent analyst has discussed in length about the innovative practices that a student/professional should adopt to make their prototype/idea commercially viable. In his second session of the day having theme **“Beyond the lab practical insight into safeguarding your intellectual property”**, he emphasized upon the innovative teaching and lab practices that should be adopted by the academic institutions. He elaborated the importance of teacher in compelling the students in developing the habit of inquisitiveness and to develop the habit of problem-solving approach beyond the lab. In a very lucid manner Dr. Kalra delivered his talk and took up questions raised by students. He further discussed some case studies highlighting the role of skillsets which should be learnt by students to cater the everchanging landscape of patenting. He also motivated students to prepare for patent agent exams and to learn the nuances of Indian patent act. At last vote of thanks was delivered by Dr. Asim emphasizing the efforts made by Amity University in developing various practices supporting entrepreneurship and innovation in the campus.

3.4 ‘Take Homes’ for the Guest and Attendees:

The take home message to the attendees was to get updated with the changing dynamics of innovation and intellectual property right in our country and to conceive innovative ideas/prototypes that could be commercially lucrative and could be protected by IPR regimen.

3.5 Future plan for utilizing the contacts developed with the Invited Guests: To organize more such Workshops

5. Any other**3. Event Report along with glimpses of the event(Photographs)****3.1 General Introduction of the Event:**

Understanding the Office space and its requirements for interior design

3.2 Objectives of the Event:

- To help students evaluate the positive and negative traits in a office space design
- To analyse the need and requirements of a office complex.
- Understanding the services used and required in office area for a interior design firm
- Learning on-site the construction techniques and renovation of structures for interiors.

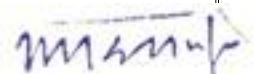

3.3 Brief about the address/talk of speakers:

On-Site Visit to DLF Galleria Sector 91, for site selection of Office space design.

Understanding construction and change of renovation as per site requirement and analysis.

Learning construction techniques and building façade methods for designing of spaces.

Case Study of renowned office Livspace a interior design office understanding its requirement and services for the society and designing for the future. Providing necessities for the office space.

3.1 General Introduction of the Event:

PROGRAMME SCHEDULE. Day: 23.01.2024

10: 30 AM-11:00 AM	Meet and Greet
11: 00 AM-11:50 AM	Talk by Prof. Pawan K. Dhar
11:50 AM-12:30PM	Discussion and QA session
12:30 PM-1:00 PM	Interaction with Scientists and Young Innovators
1:00 PM- 2:00 PM	Lunch

3.2 Inspiration & Objectives of the Event

Date:23.01.2024

Location:A-block Auditorium

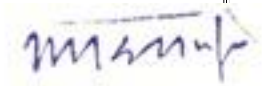

Organizer: AIB, Amity University Haryana

My Story “Bio-entrepreneurship and Start-ups in Biological Businesses” was a highly educational and interesting expert talk. The talk aimed to address the most recent developments and difficulties in entrepreneurship within the life science industry by sharing the journey of Clear Meat Pvt. Ltd. Students gathered at A-block Auditorium for listening to Prof. Pawan Dhar and his highly motivational journey, enabling them to learn more about innovation and collaboration in the dynamic field of life sciences.

3.3 Brief about the address/talk of speakers

Event Overview:

- Student Coordinators Mr Manas and Ms Sejal, gave the opening remarks before the programme got underway.
- A welcome address was delivered by Prof. Rajendra Prasad, Dean - Engineering, and Technology, Director - Amity Institute of Integrative Sci

Registrar
Amity University Haryana
Manesar Gurgaon-122413

Director - Amity Institute of Biotechnology. Prof. Pawan K. Dhar-Head, Synthetic Biology group at school of Biotechnology, JNU, New Delhi was greeted and presented with a souvenir.

- Prof. Pawan K. Dhar, Professor, JNU; Co-Founder and Chief Mentor, Clear Meat Pvt. Ltd and Foresight Biotech Pvt. Ltd. was greeted and introduced. Prof. Dhar gave a captivating and creative presentation, making the subject clear for the audience using visuals.
- Prof Machiavelli Singh, Director DRP delivered vote of appreciation and expressed gratitude to Prof. Dhar and the audience. He acknowledged all coordinators and their contributions to the success of the event.

Key Points Discussed: Title – “Bio-entrepreneurship and Start-ups in Biological Businesses”

The talk by Prof. Dharspoke about inspiring journey of founding his own companies, Clear Meat Pvt. Ltd and Foresight Biotech Pvt. Ltd. and their subsequent journey.He began by speaking about how biotechnological research is currently just confined to papers and emphasized on the gap between biotechnological research in labs and its commercialization.He further talked about differences between intelligence and imagination, creativity and innovation giving examples of prominent Walt Disney, Thomas Adams etc.

He also talked about incremental, Red-ocean, radical and frugal innovations too. Telling students about angel investors and venture capitalists too.

He also spoke about his companies Foresight Biotech Pvt. Ltd. And Clear Meat Pvt. Ltd., talking how he got inspiration to start his own company, how they managed expenses, funding, failures, lessons they learnt and how they tend to go proceed further via presentations and examples.

A question-and-answer period followed the presentation, in which participants asked insightful queries that Prof. Dhar responded to. Participants have the chance to further clear up their questions and go deeper into the issues covered during this interactive portion.

Prof.Dhar used graphics and a well-structured presentation to make his lecture interesting and educational. In order to advance the life science sector, the programme promoted knowledge exchange, teamwork, and the investigation of new opportunities. In his vote of appreciation, Prof. Machiavelli Singh thanked the speaker and the audience for their contributions to the event's success.

3.4 ‘Take Homes’ for the Guest and Attendees

Highlights from the talk and discussions:

3.5 This event not only showcased the inspiring entrepreneurial journey of Prof. Dhar but also provided valuable insights into the world of biotechnological research, innovation, and the challenges and triumphs of founding and running successful companies in the field

3.6 Future plan for utilizing the contacts developed with the Invited Guests: YES as domain experts.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

Amity School of Fashion Design & Technology in collaboration with the Internal Quality Assurance Cell (IQAC) department, organised an Innovative workshop tailored for the students of 6th & 4th Semester, where they showcased the artistry of draping using fabric & paper.

This hands-on session promised to be a gateway into the world of dynamic textile manipulation. Participants joined us as we unravelled the secrets behind Button Masala, a unique method that seamlessly blended creativity and sustainability.

Button Masala is a distinctive textile technique that revolutionizes fabric manipulation. Originating from India, this method involves securing fabric with buttons, creating dynamic patterns and shapes on a dress form. By strategically placing buttons at intervals, the fabric gathers and forms intriguing textures. Beyond its aesthetic appeal, Button Masala emphasizes sustainability, offering a versatile and reusable approach to garment construction. This innovative technique has gained popularity for its simplicity, allowing designers and enthusiasts to explore endless possibilities in fabric draping and creativity.

This workshop using Paper draping on dress form into the realm where creativity meets craftsmanship, offered a unique exploration of fashion design. Through the tactile art of manipulating paper on a three-dimensional dress form, participants embarked on a journey of conceptualization, innovation, and expression. Fashion draping with paper can be considered sustainable for several reasons. Paper is a renewable resource, and when used mindfully, it can reduce the environmental impact associated with traditional fabric production. Additionally, paper draping allows student to experiment and create prototypes without using large quantities of fabric, minimizing waste. The recyclability of paper further contributes to sustainability by promoting a circular economy. Overall, incorporating paper into fashion draping practices aligns with eco-friendly principles and encourages responsible resource use in the design process.

The colour story of Paper & fabric draping was Tri colours of Indian Flag celebrating the Republic Day of India. They embarked on a journey of design exploration, discovering the transformative power of fabrics under the guidance of skilled Faculty. The workshop was not just an exploration of techniques but a celebration of ingenuity, fostering a collaborative spirit among students eager to push the boundaries of conventional design.

3.2 Inspiration & Objectives of the Event:

- The primary objective of the Seamless Tacking workshop for university students is to facilitate skill development in a sustainable way. Participants learnt the intricate art of draping sustainable fabric using button techniques, honing their abilities in the realm of textile manipulation. Sustainability also substitutes of fabric into paper.
- The workshop aims to encourage creative expression among university students by providing them with a unique and innovative approach to the fashion design. Workshop offered a platform for students to explore their artistic inclinations and experiment with unconventional materials.
- Another crucial objective is to raise awareness about sustainable fashion. By teaching students, the principles of Button Masala, the workshop promotes the concept of upcycling and reusing materials, (Fabric & Paper) contributing to a more sustainable and eco-friendly approach to clothing design.
- The workshop is designed to offer a hands-on learning experience. Through practical exercises, students will gain a deeper understanding of the draping techniques, enhancing their ability to apply theoretical knowledge in a practical setting.
- Fostering a collaborative environment is a key objective. The workshop provides a platform for students to work together, share ideas, and engage in a collective creative process. This collaborative approach encourages teamwork and a sense of community among participants.
- The workshop may incorporate elements of professional development by introducing students to potential career paths in the fashion industry. By learning a unique skill like Button Masala draping, students may broaden their scope of opportunities within the creative sector.
- Depending on the context, the workshop might aim to incorporate elements of cultural appreciation. Button Masala has roots in Indian fashion, and the workshop can provide insights into the cultural aspects of this art form, fostering a greater understanding and appreciation among participants.
- The culmination of the workshop could involve a showcase or exhibition where students can display their Button Masala draped creations. This provides a platform for them to exhibit their talents and receive constructive feedback, enhancing their confidence and presentation skills.
- Finally, the workshop seeks to contribute to the personal growth of participants. By challenging them to think creatively, problem-solve, and collaborate, it aims to instill a sense of confidence and adaptability that can be valuable in various aspects of their academic and professional lives.

3.3 Brief about the address/talk of speakers: NA

3.4 'Take Homes' for the Guest and Attendees:

- Participants will proudly carry home the results of their creative endeavours – garments uniquely draped using the innovative Button Masala technique. These pieces serve as tangible reminders and personal touch infused into their creations.

- Participants take with them a mastery of the Button Masala draping technique. This hands-on knowledge empowers them to transform fabrics into stylish designs independently, opening doors to a world of personalized fashion exploration.
- Through the workshop, participants gain valuable design insights into the creative possibilities offered by the Button Masala technique. These insights inspire ongoing exploration and innovation in garment draping, fostering a sense of continuous learning.

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date : 31 January 2024
Event Type : Guest Lecture
Event Title : CAR T Cell Therapy; Reimagining live cell therapies to combat Cancer
Event Theme : NA
Venue : A Block Conference Room
Web/Video Link of the Event: NA
Organized by : Amity Institute of Biotechnology (AIB)
In collaboration with: NA
Event Level : Institutional
Student Participation: No. of Students from AUH (Course wise):- 38
Faculty Participation: No. of Faculty Members from AUH (Deptt. wise):- 23
Participation from outside AUH: No. of Students & Faculty Members- Nil
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Prof. Gargi Bagchi, Professor, AIB

Details of Expert/Speaker/Resource Person/Judge:

S N	Countr y Name	Expert Name	Organiz ation Name	Design ation	Specializati on	Contac t No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborat e with expert	Recomm ended by
1	India	Dr. Mayank Singh	AIIMS, Delhi	Associ ate Profes sor	Immunothe rapy and its application in Cancer therapeutic s	NA	mayan k.sing h@aia ms.edu	NA	Research	Prof. Rajendra Prasad, Director, AIB

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): Dr. Mayank Singh received his Ph.D from AIIMS, New Delhi, in 2009. He did postdoctoral research from University of Texas South Western, Cleveland clinic Lerner Research Institute, Ohio, and Department of Radiation oncology, Comprehensive cancer center Ohio state University Columbus Ohio between 2009 to 2017. In 2017, he joined the All India Institute of Medical Sciences, Medical Oncology Lab as an Assistant Professor, and became Associate Professor in 2021. His area of expertise include Immunotherapy and its application in Cancer therapeutics, Ubiquitin/Deubiquitin signaling and its application in cancer therapeutics, Role of Histone Acetyl Transferases in inducing epigenetic modification in cancer microenvironment and Liquid Biopsy and its application as a diagnostic and prognostic tool in cancer. He has received many prestigious awards from USA and India for his research work.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)? Supervisor of ex-PH.D student.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				

a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.			Next 1 year	
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects			In next 1 year	
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event : The Talk started with Dr. Mayank's interaction with the panel members, following which Prof. Rajendra Prasad welcomed the speaker. Dr. Gargi bagchi formally introduced Dr. Mayank Singh to the audience.

3.2 Inspiration & Objectives of the Event : New therapy for Cancer

3.3 Brief about the address/talk of speakers : Dr. Mayank mentioned in his talk about Traditional cancer treatments use nonspecific drugs and monoclonal antibodies to target tumor cells. Chimeric antigen receptor (CAR)-T cell therapy, however, leverages the immune system's T-cells to recognize and attack tumor cells. T-cells are isolated from patients and modified to target tumor-associated antigens. CAR-T therapy has achieved FDA approval for treating blood cancers like B-cell acute lymphoblastic leukemia, large B-cell lymphoma, and multiple myeloma by targeting CD-19 and B-cell maturation antigens. Bi-specific chimeric antigen receptors may contribute to mitigating tumor antigen escape, but their efficacy could be limited in cases where certain tumor cells do not express the targeted antigens. Despite success in blood cancers, CAR-T technology faces challenges in solid tumors, including lack of reliable tumor-associated antigens, hypoxic cores, immunosuppressive tumor environments, enhanced reactive oxygen species, and decreased T-cell infiltration. To overcome these challenges, current research aims to identify reliable tumor-associated antigens and develop cost-effective, tumor microenvironment-specific CAR-T cells. His talk covered the evolution of CAR-T therapy against various tumors, including hematological and solid tumors, highlights challenges faced by CAR-T cell therapy, and suggests strategies to overcome these obstacles, such as utilizing single-cell RNA sequencing and artificial intelligence to optimize clinical-grade CAR-T cells.

				Students learnt about the basic structure and workflow of a pharmaceutical company. Moreover, about how they function and work to provide adequate quality and quantity in the it pharmaceutical products. The students also observed the vast machinery and equipment used there.
5. <u>Any other</u>				
<u>NA</u>				

2. Event Report along with glimpses of the event(Photographs)

Learning is a key to success. Keeping this in mind Amity university of Haryana decided to organise an Industrial visit to Sun Pharmaceutical Lab, Gurugram which was organised on 31st Jan 2024. The labs visited by the students was pharmaceutical lab. There were many instruments they use for analysis of a tablet or a medicine. The main motive behind this visit was to make students aware about the instrumentation functioning and processing the data derived from the initial steps.

As they are a generic company, so they synthesize the APIs by exactly copying the innovator whose drug is already in the market and has a large consumption. So, they mimic the quality, quantity, and process for the synthesis of the drug to deliver the exact same drug. The company has many labs having heavy machinery for the important steps in drug development like DSC, TGA and a machine for identifying carbon, Hydrogen and Nitrogen from the sample for purity purposes.

They have ample machinery for processes like PXRD, different types of Chromatographic technology like GCMS, LCMS. Moreover, they had HPLC, NMR, Master Sizer. They also had machinery for in-vitro and in-vivo dissolution of the product formulation.

Students got to know about various instruments such as like LC-MS machine which stands for Liquid chromatography – mass spectroscopy this instrument run through liquid chromatography. They also learnt about the GC-MS which works on Gas chromatography and other instruments like HPLC, spectrophotometer.

The visit organized under the supervision of Dr Dipti Vaya and Dr Manish Shandilya. The visit turned out to be very informative and their scientists were hardworking, passionate, and helpful. The students gained information about instruments which will surely be helpful throughout their careers and future.

2. Event Report along with glimpses of the event (Photographs)

Seminar started with introduction of speaker. The seminar: **“Unlocking the therapeutic potential: Rudraksh in Pharmaceutical and Medicine”** held on 1st February, 2024 conducted by Prof (Dr) Seema R Pathak. The talk is about the naturally occurring fruit that is brown in colour known as Rudraksh that is of immense importance for the chanting mantras in Hindu mythology. The medicinal and the pharmaceutical properties of Rudraksh has been discussed which are highly fascinating for the pharmaceutical industries. Rudraksh beads are the dried stones of the fruit Elaeocarpus ganitrus tree. These Rudraksh can be of different kinds such as ek mukhi, do mukhi, teen mukhi etc. based on the type of cell division takes place in the fruit. It is used for psychological purpose and for reducing the anxiety. Rudraksh also possess antioxidant, anti inflammatory, anti depressant, anti diabetic and anti microbial properties. Also, the Rudraksh powder is now available in the market for the health benefits. Jewellery are also made up of Rudraksh like bracelets and necklaces. Some researches are also going on the topic. Seminar ended with lots of query raised by students.

Amity School of Liberal Arts, Amity University Haryana organized a Guest Lecture on *Designing Dreams: Journey of an Entrepreneur* on the virtual platform of Microsoft Teams at 11:30 am on 5th February 2024. Resource Person of the session was Ms. Sanya.A.Bakhshi, Executive Director, *Create Cluster*. The session began by welcoming the Resource Person by Jasmine, student of B.A.English IV and by Dr. Sapna Sharma, Placement Coordinator ASLA. Ms. Sanya guided our students about various strategies and characteristics one should adopt to become a successful entrepreneurship. She said irrespective of the fact whether you belong to Arts stream or business stream, if you are inclined towards establishing a business, you can succeed in this career with proper knowledge, passion and guidance. She further elaborated the requirements for a career in Graphic Designing. Students with Graphic Designing can make their career in Communication, Creative and Art Direction, Digital Marketing, Branding etc. The session was an interactive one where students asked many questions like hurdles that she faced while starting up her career, where the students can get internship in Graphic Designing etc. The session ended with a vote of thanks by the Placement Coordinator.

Designing Dreams Journey of a Creative Entrepreneur

Ms. Sanya.A.Bakshi, Executive Director: Create Cluster

				To impart skill training and personality development
5. Any other				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: “Achieving Problem-Solution Fit and Product-Market Fit”

3.2 Inspiration & Objectives of the Event: Innovation flourishes when the right solutions meet the right problems, and when products resonate deeply with the needs of their intended markets. This event is inspired by the belief that true success in entrepreneurship lies not just in creating products, but in ensuring they address real pain points and find enthusiastic adoption. By focusing on achieving problem-solution fit and product-market fit, the event aims to empower entrepreneurs and innovators to create impactful solutions that truly make a difference in the world. The objective of this event is to provide participants with the knowledge, and insights needed to achieve critical milestones in the journey of any product or service.

3.3 Brief about the address/talk of speakers: Dr. Manoj Mishra shared his success story of 11 startup in which he is an investor. He explained about how to identify product/services, market, problem and solution. Further, he elaborated the advantage of Market Value Proposition (MVP). He explained in brief about the 11 startups that he is part of by giving a glimpse about what those startups do.

3.4 ‘Take Homes’ for the Guest and Attendees: Dr. Manoj Mishra shared with the attendees the success mantras that helped him to ensure all his 11 startups being successful as of the day. These mantras are, Knowledge, Being Relevant, Positive, Ambitious as well as Guiding the startup at the time they do a mistake.

3.5 Future plan for utilizing the contacts developed with the Invited Guests: To organize more such guest lectures

3.6 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): From the side of AIP NIL

3.7 Details of Awards if Any:

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

The workshop on combating fake news aimed to raise awareness and equip participants with tools to identify and counter misinformation especially in the time when elections are about to be held.				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Students of BAJMC sem 2 and 4, MAJMC/2nd sem attended the event.

Objectives of the Event

- Understanding the Impact of Fake News on public opinion, elections, and social cohesion.
- Fact-Checking Tools demonstrations introduced participants to various online tools and resources for fact-checking, empowering them to verify information before sharing it.(Eg. Google reverse image, IN Vid, Hive software etc)

3.2 Brief about the address/talk of speakers

Ms. Vrishali and Mr. Abheet provided practical tips on recognizing misinformation, emphasizing critical thinking and fact-checking skills. Students were made to identify fake news and images, letting them test the practical guidelines shared during the workshop.

The workshop on fake news provided a valuable platform for dialogue and knowledge exchange. Participants left with a heightened awareness of the impact of misinformation and practical tools to contribute to a more informed society. The event underscored the importance of ongoing efforts to address the evolving landscape of fake news and promote media literacy at all levels of society.

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Mr. Nithil Dennis is an Associate Professor at Royal Thimphu College, Bhutan. He teaches photography, filmmaking and also Heads the Department of Communication Arts and Creative Media. He holds a Degree in Visual Communication, specializing in Photography from Loyola College, Chennai, and a Post Graduate Degree in Electronic Media, specializing in Film and television production. He is a UGC-NET qualified academician with 20+ years of teaching experience in various leading educational Institutes. He was the former Director of Symbiosis School of Photography, Symbiosis International University. He has worked with leading photographers and filmmakers, which include three-time green Oscar winning wildlife filmmaker Mike Pandey. He has directed and filmed two documentaries, which have been screened in International Film festivals. He has produced documentaries for NDTV, a leading news channel in India. Moreover, he has worked in Argentina as a Photo and Video journalist for an English news website based in Buenos Aires. He loves to travel and has a strong sense of identifying photo stories. His research interest is 'Storytelling through visuals and Representation of ethnographic Communities'. He has a special interest in Visual Anthropology and social documentary.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

Yes. He served in Amity University, Noida Campus till 2015 in ASCO where he was in touch with Dr Amit Chawla and Dr. Sumit Narula. Further, he invited Dr Amit Chawla earlier to the Symbiosis school of Photography where he was serving as director.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Nil	Nil		
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	Nil	Nil		
c) Collaboration for Funded Projects	Nil	Nil		
2. Outcome related to Industry Connect				
a) Placement	Nil	Nil		
b) Collaborations for Research Papers	Nil	Nil

Report:

Amity Academic Staff College, in collaboration with the Institute of Innovation Council, organized a successful workshop titled "Nurturing Entrepreneurial Skills, Mindset, and Behavioral Excellence" on February 12, 2024. The program commenced with a Lamp Lighting Ceremony, followed by opening remarks by Prof Dr. Sanjna Vij, Dy Director Amity Academic Staff College, AUH. Prof Sanjna Vij emphasized that Nurturing entrepreneurial skills, mindset, and behavioral excellence is not just a professional development strategy; it's a journey toward creating a culture of innovation, resilience, and success.

The workshop session started by Dr. Savita Sharma from Shri Vishkarma Skill University, Gurugram aimed to provide valuable insights into the key components of entrepreneurial success. Dr. Savita Sharma initiated the session by delving into the concept of mindset. Participants actively engaged in a comprehensive discussion exploring the essence of mindset and its profound influence on one's perspective and approach to various situations. The workshop meticulously examined different sets of mindsets, underscoring their impact on decision-making, problem-solving, and overall personal and professional growth. Dr. Savita Sharma introduced the notion of an entrepreneurial mindset, highlighting its significance in fostering creativity, resilience, and adaptability. Participants gained insights into how an entrepreneurial mindset differs from traditional perspectives. The session emphasized the crucial role an entrepreneurial mindset plays in navigating the challenges of the business world. Discussions revolved around how this mindset fosters innovation, risk-taking, and a proactive approach. Practical strategies for developing and nurturing an entrepreneurial mindset were explored. Dr. Savita Sharma shared actionable steps and exercises to cultivate this mindset among participants.

The workshop transitioned into identifying and nurturing entrepreneurial skills. Discussions included personalized strategies for recognizing and honing these skills in individuals.

Participants actively engaged in exercises to identify and refine their specific entrepreneurial skills. The focus was on promoting self-awareness and leveraging individual strengths.

Overall the workshop proved to be an insightful and enriching experience for around 150 participants. Dr. Savita Sharma's expertise and interactive approach ensured that the objectives of nurturing entrepreneurial skills, mindset, and behavioral excellence were met.

3. Event Report along with glimpses of the event (Photographs)

- 1- The visit started with introduction of chromatography section which was guided by Ms. Nidhi where mass chromatography, liquid chromatography and gas chromatography were performed under specific humidity and temperature.
- 2- Heavy Metal testing were performed by measuring sample ppm level, percentage level, ppt level and ppt level.
- 3- Microbiology testing was guided by Dr. Jasharith where food testing for microbial affect was performed that includes testing of animal food and feed, antimicrobial activity product, aayush products, biocides, biopesticides and biofertilizers, cosmetics and essential oils, E.coli etc.
- 4- Water analysis was guided by Ms. Naira where drinking water, industrial water, pharmaceutical water, irrigation water, etc were tested following the parameters provided by Bureau of Indian Standards i.e. BIS.
- 5- Wet chemistry lab was guided by Ms. Ankita where food packet lable values were under consideration following FSSAI parameters.
- 6- Oils and Fat section was guided by Mr. Bhushan where acidic value and rancidity of oil were under consideration mainly based on titration methods.
- 7- Cosmetic testing was guided by Ms. Priyanka where spf testing, shampoo fumide testing, viscosity testing was explained.
- 8- Biotechnology section was guided by Ms. Shivani where allergen testing was under consideration in which shelf life of food is reduced by two techniques i.e. Arrhenius in which shelf life reduced to 1/3rd and other is Cuten in which shelf life is reduced to half by the help of temperature variations.
- 9- Environmental laboratory was guided by Ms. Lavi where monitoring related to air quality was under consideration. Different types of airs are monitored like ambient air, environment air, workzone air, indoor air, compressed air, etc. with the help of instruments like UV Spectrophotometer, Gas chromatography, etc.

				Students learnt about the various departments and units of the pharmaceutical industry. They came to know about the various unit operations and batch operations that are going on in the pharma plant. They also learnt about various sophisticated instruments utilized in the pharmaceutical industry.
5. Any other				
The one day industrial visit gave students exposure about the functioning of a pharmaceutical company, various products that are being developed and produced there, Quality Control aspect and their documentation.				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event: Amity Institute of Pharmacy (AIP), AUH has organized a one-day industrial visit to Arbro Pharmaceutical Ltd on 15th Feb 2024. The 2nd semester students along with two faculty members Dr. Atin and Dr. Asim accompanied them to the industry. Arbro Pharmaceuticals Private Limited, a well renowned name in Indian pharmaceutical industry having more than 35 years of experience in manufacturing and exporting of pharmaceutical formulations, trading of raw materials and Research & Development for pharmaceutical Industry Dedicated to providing the best quality products in pharmaceutical, biotechnology & healthcare Industry, Arbro is at paramount & has a strong presence in exports, generic formulations, ethical range of products, institutional & government supplies as well as recognized as Government approved R & D facility by Department of Science and Technology, Government of India (<https://arbropharma.com/about-us/>). So, for a second semester students it was envisioned that to give them a exposure of pharmaceutical industry so as to acquaint them with their course syllabus in a better way. The visit overall was very fruitful and informative.

3.2 Inspiration & Objectives of the Event: The objective of the industry visit was to give students a real time and fair idea about the pharmaceutical manufacturing industry. Where they could see various operations being going in industry, various products that they manufacture they ascertain the quality to their product. The visit was also to sensitize students towards the various challenges pertaining to the pharmaceutical industry and how

Registrar
Amity University Haryana
Manesar Gurgaon-122413

them by devising novel ideas/protocols. It is therefore in this aspect this one-day workshop was organized. However, following were some of the notable objectives of organizing the workshop:

- a) To make students well versed with the functioning of pharmaceutical Industry.
- b) To motivate students towards developing and nurturing their soft skills to be employable.
- c) To encourage students to opt for summer training in pharmaceutical company.
- c) To further motivate students to opt for the pharmaceutical core companies for their job option as quality assurance professional or Manufacturing professional.

3.3 Brief about the Industry Visit:

An industry visit was organized by AIP on 15th Feb 2024. The visit comprised of two segments. First segment was a session of Dr. Neha Arora, and the second segment was the actual visit to the manufacturing plant. Dr. Neha took a general class wherein she explained about the company and various products that it manufactures and its business model. She encouraged students to nurture their soft skills and to learn the subtle nuances of the pharmaceutical manufacturing industry. The session was very informative and interactive. She emphasized upon performing practical classes in a meticulous way. Afterwards the students' groups were being made and the training was started in two batches. First batch students were sent to quality control and documentation whereas the next batch was sent for manufacturing unit operation visit. Company officials explained in detail about the various instruments, manufacturing process, various products that they manufacture, quality control aspects in each and every operation and at last about documentation. Students interacted with the company experts and asked their queries.

3.4 'Take Homes' for the Guest and Attendees:

The take home message to the industrial visit was to incorporate more of the industrial related projects in the day-to-day practical classes of students and to nurture them in such a way to make them market ready after their completion of course. Also to make students aware about the fundamentals of the subject.

3.5 Future plan for utilizing the contacts developed with the Invited Guests: To organize more such industrial visit in future.

3.6 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): NIL

Students learnt and understood about the Miller Indices which provides the information about the specific plane and the orientation of the plane in crystal lattice.				
5. Any other				
The competition attracted enthusiastic participation from Amity University Haryana second-semester students, showcasing a blend of artistic talent and a commitment to public health awareness.				

3. Event Report along with glimpses of the event(Photographs)

3.1 Brief about the address/talk of speakers:

3.2 'Take Homes' for the Guest and Attendees:

Seminar started with the introduction of speaker. The seminar: **"Miller indices: Understanding of planes"** held on 15th February, 2024 conducted by Prof Joydeep Dutta.

The students learnt about the Miller indices in detail and are able to understand about the hkl planes. Miller indices can be defined by three values h k and l. hkl are the three set of integers which can either be positive or negative. The number of quadrant in 2D is four whereas in 3D there are 8 quadrants (e.g., cubic system). The orientation and direction of any plane can be understood with the help of hkl. Plenty of information can be extracted from the hkl value. There are three types of cubic crystals i.e., simple cubic, face centred cubic and body centred cubic crystals in which the number of atoms per unit cell differs that is 1 in simple cubic, 2 in body centred and 4 in face centred cubic lattice and correspondingly volume and packing efficiency of the different crystal lattice can also be calculated.

The number of atom per unit cell impacts the diffractogram. The example of diffractogram of copper nanoparticles has been taken in order to make students understand about the different parameters of crystals. The reason of intense peak in diffractogram is the number of atoms which lead to higher reflection and hence intense peak. The diffraction in the crystal lattice can be determined by the Bragg's equation which is:

$$n\lambda = 2d\sin\theta$$

where;

n: number of atoms,
 λ : wavelength,
d: interplaner distance,
 θ : angle of reflection

The interplaner distance and the reflection angles are inversely proportional to each other means when the interplaner distance value is low, the value of 2θ is higher. X ray (shortest wavelength) diffraction is a non destructive technique used to determine the structure of crystal. Nothing is perfect, crystal do have imperfections.

3.3 Future plan for utilizing the contacts developed with the Invited Guests: NA

1. General Information

Date : 20 February 2024
Event Type : Workshop (Training)
Event Title : Hands-on workshop on Introduction to Neuroscientific Tools in Psychology
Event Theme : Collaborative event with IIC to promote awareness about technological advancement in research and entrepreneurship in neuropsychology.

Venue : B Block Auditorium, AUH. 10:00am – 11:30am for Introductory Session
 Room no: 223, D Block AIBAS Dept. 11:30am – 4:45pm for Technical Sessions

Web/Video Link of the Event: NA

Organized by : Amity Institute of Behavioural Science

In collaboration with: IIC

Event Level : Institutional

Student Participation: No. of Students from AUH (Course wise)-UG & PG Students from AIBAS-123

Faculty Participation: No. of Faculty Members from AUH (Deptt. wise):- 03

Participation from outside AUH: No. of Students & Faculty Members- Nil

(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Dr Priyanka Verma- HoD & Convener IIC, AIBAS
 Dr A.A.S. Azam- Assistant Professor, Co-convener IIC, AIBAS
 Dr Fouzia .A. Shaikh- Assistant Professor, AIBAS

Details of Resource Person:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Mr. Siddharth Shahi	DNA-Decision Neuro Advantix	CEO & Founder	Neuroscience	+91 6375 7177 94	ceo@decisionneuroadvantix.com	NA	Cognitive neuroscience	Dr Priyanka Verma- HoD AIBAS

Criteria of Inviting Resource Person:

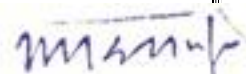

Mr. Siddharth Shahi is the founder and CEO of neuroscience firm Decision Neuro Advantix (DNA), which stands tall across 4 continents across the globe. In 2023, he was awarded by the Home Ministry of India for excellent work in Neuroscience in India at the age of 26. He is a top-notch young global youth icon in the field of neuropsychology. Currently, he is the scientific editor of the Journal of Neurology and Psychology Research, USA. A pioneer in VR research using EEG and fMRI techniques, Mr. Shahi holds patents in AI and web 3.0 collaborations. Siddharth has travelled across 22 nations till now for research and is one of the very first people in India who could carry out research via Virtual Reality adjoined with EEG + fMRI. In 2023, Siddharth was named among the top 40 neuro innovators worldwide, the only Asian to achieve this feat.

Were the guest known in advance and if yes, from what previous interaction (Write a p

All the esteemed dignitaries Vice Chancellor, Pro-Vice Chancellor, Director-HR, Registrar, HoIs, Programme coordinators of other departments at AUH, AICP faculty members and AIBAS faculty members were all invited in advance by HoD via email. The Vice Chancellor and Pro-Vice Chancellor were also invited in person by HoD but due to extensive busy schedules for the day, they were unable to attend the introductory session. However, they extended their support and best wishes for smooth and successful organization of the event.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Students and faculty members are further collaborating with the resource person in mastering the neuroscience tools usage for data collection and research publication.	Proposal: Further guide AIBAS students, scholars and faculty members in using neuroscience machines effectively for inculcating the application of these tools in practical curriculum, SRPs and dissertation.	Proposal: Conduct similar training event in the next even Semester for IIC event at AIBAS. The event can be for 2 days instead of one so that more extensive training can be provided utilizing maximum resources available in AIBAS.	By collaborating with Mr Siddharth, AIBAS students and faculty members can engage in innovative & futuristic researches using brain mapping tools, softwares, etc.
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	AIBAS students can utilize the EEG machine to understand neurofeedback of human behavior in their practicals and dissertation related research projects.	Interested AIBAS students can intern and seek placements in DNA.		AIBAS students would get more practical exposure in field of cognitive psychology and neuropsychology which are being taught at UG/PG levels.
c) Collaboration for Funded Projects	NA			
2. Outcome related to Industry Connect				
a) Placement	AIBAS students pursuing MSc in Clinical Psychology have shown interest in interning and applying at DNA-office.	Proposal: SRC, AUH can have tie-up with the DNA for providing bi-annual placements to AIBAS UG and PG students in the field of neuropsychology		
b) Collaborations for Research Papers	AIBAS students and faculty members are contemplating research studies with resource person in the field of neurofeedback, advertisement, etc.			

Registrar
Amity University Haryana
Manesar Gurgaon-122413

c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Resource person can be further invited for guiding research dissertation based on neuropsychology at UG/PG level.			AIBAS aims at beginning of undertaking AI and neurofeedback oriented research studies in the field of psychology.
d) Collaboration for Funded Projects	NA			

3. Outcome related to Society Outreach

a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education	AIBAS students and faculty received hands-on training in utilizing the neuroscience instruments available in the departmental laboratory. The students were trained in basics of using EEG and GSR devices.	PG students of AIBAS have shown deep curiosity and sharp inclination in further understanding of neurofeedback techniques in scientific study of human behavior.		The event invited students to be active participants and contributors in field of AI and neuropsychology based researches.

4. Outcome related to Students Learning & Grooming

		The students once again through the medium of this workshop got opportunities to learn, hone and apply the 21 st century learning skills as students also volunteered to host, photograph and record the event.

Manesar Gurgaon-122413

3.1 General Introduction of the Event

The One day Hands-on training workshop on Introduction of Neuroscientific Tools in Psychology was organized by AIBAS in collaboration with IIC.

3.2 Inspiration & Objectives of the Event

The workshop was organized with primary aim to inspire students for innovation in the field of psychology in general and to train them in application of neurofeedback techniques in particular.

3.3 Brief about the address/talk of speakers

Mr. [Siddharth Shahi](#) presented the use of EEG and GSR as the major topics. Through the EEG demonstration, participants gained knowledge about how external stimuli affect the D-TAB, including delta, theta, alpha, and gamma waves. The participants also learned that delta and theta waves are the most significant, followed by gamma and beta waves. Moreover, the workshop participants were introduced to the concept of eye tracking and its potential for unveiling unconscious feedback from individuals. The session was indeed engaging and insightful as it also managed to showcase on EEG device how brain waves change when one is involved in diverse range of activities like listening to music, solving a Rubik's cube and painting. The session started with Introductory Session in the morning in which AIBAS BSc CP First Semester student compered the session, Head of the Department Dr Priyanka Verma welcomed the resource person and all AIBAS students and faculty members and Guest Speaker made an introductory presentation on breakthroughs made in field of neuropsychology and neuromarketing using latest neurofeedback technology. The introductory session was followed by two technical training sessions for PG semester 1 and semester 2 students respectively.

In the end, Dr. Fouzia .A. Shaikh delivered the vote of thanks to the resource person, all the workshop participants, Head of the department and faculty members of AIBAS.

3.4 'Take Homes' for the Guest and Attendees

The students of AIBAS learnt how to use EEG device and understood brain wave map. Many of them also have chosen to further enhance their understanding of neuropsychology by engaging in collaborative research work with the resource person. One important advice given to the students of AIBAS was to learn and master coding skills and basic computer programming language like Python for effective stimulus design in effective experiments in psychology.

Directorate of Outcome Outcome Report (Event/Activity Organized @ AUH)

1. General Information

Date : 21 February-22 February 2024
Event Type : Industrial Visit
Event Title : Industrial Visit: Maruti Suzuki Manesar Plant
Venue : Maruti Suzuki Plant, Manesar, Haryana
Organized by (School): Amity School of Economics, AUH
Student Participation*: No. of Students from AUH (Course wise): 47
Faculty Participation*: No. of Faculty Members from AUH (Dept. wise): 05
 Participation from outside AUH*: No. of Students & Faculty Members- Nil
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Prof. (Dr.) A. M. Jose, Dr. Faraz Ahmad, Assistant Professor, Dr. Bushra Khalid, Assistant Professor, Dr. Jomit C.P., Assistant Professor, Dr. Sumair Nabi, Assistant Professor, Amity School of Economics (ASE)

1. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/ Intangible	Achieved/ Proposed	Target date & responsibilities (If proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.		NA		
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.		NA		
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement	Full-Time Employment: Exceptional students who make a positive impression during the industrial visit may be considered for full-time employment opportunities upon graduation	Industry Insights: The industrial visit can provide students with a deeper understanding of the automotive industry's dynamics,		Internship Opportunities: Maruti Suzuki may offer internship programs to students who demonstrate strong interest and attitude  Registrar Amity University Haryana Manesar Gurgaon-122413

		challenges, and trends. This knowledge can be advantageous during job interviews or when pursuing career opportunities in related fields, as it demonstrates a genuine interest in the industry and a proactive approach to professional development.		
b) Collaborations for Research Papers		NA		
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments		NA		
d) Collaboration for Funded Projects		NA		
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene		Through the students the knowledge they acquired will reach the larger society		
b) Benefit to society in terms of Education		Through the students the knowledge they acquired will reach the larger society		

4. Outcome related to Students Learning & Grooming

The main aim of the industrial visit was to understand and study how the production and planning works in an automobile industry, its operations and activities. Production and planning process, an insight into Maruti Plant, safety measures taken, organisation and factory lay out. Further, the students through the industrial visit would gain an insight regarding internal working of an industry which they cannot experience by sitting in the class rooms. In addition to this it is expected that the Interaction between University and Industry would facilitate better education and research as practiced elsewhere in advanced countries.	A brick-and-mortar type of learning can offer only limited knowledge to students. Combining industrial visits and production tours with classroom teaching can fill the learning gap. Tangible outcomes: Increased understanding of automotive manufacturing processes, such as assembly line operations, quality control procedures, and supply chain management. Acquisition of specific technical knowledge about automobile components, materials, and technologies used in production. Improved awareness of safety protocols and workplace regulations within a manufacturing environment. Development of practical skills related to troubleshooting, problem-solving, and teamwork through hands-on experiences during the visit.	Students will be able to combine theoretical knowledge with practical experiences and use this additional knowledge to build their skills.	It gives first-hand experience of the work atmosphere in an industry. Students witnessed live events and activities in a business space through industrial visits. It improves technical know-how. Students get to observe the live working mechanisms of machinery and equipment. Intangible outcomes: Enhanced motivation and inspiration among students by witnessing real-world applications of theoretical concepts learned in the classroom. Strengthened interpersonal relationships and teamwork skills through shared experiences and discussions during the visit. Increased confidence and self-efficacy as students gain exposure to a professional work environment and interact with industry professionals. Cultivation of a deeper appreciation for the complexity and importance of the automotive industry in the economy and society. Formation of long-lasting memories and positive impressions that may influence career aspirations or future decision-making related to education and employment.

5. Any other

Students became conversant with significance of critical analysis.

2. Event Report along with glimpses of the event (Photographs)

a) General Introduction of the Event

Amity School of Economics organised an Industrial Visit to MARUTI SUZUKI. The students of Amity School of Economics.

Manesar

Registrar

Amity University Haryana
Manesar Gurgaon-122413

Director

b) Objectives of the Event

1. To understand the manufacturing plant of an Automobile Industry.
2. To understand the culture of Maruti Suzuki.
3. To understand the technology and techniques used for making cars.
4. To understand the production and distribution strategy of an automobile company
5. To know the production process and production planning of Maruti Suzuki.
6. The company's current supply chain management system with latest technology being used.

c) Brief about the event:

We started our journey from the university campus at 9:45 am for Maruti Suzuki Plant located at Manesar and reached the plant at 10:30 pm. As we arrived, we received a warm welcome by Maruti Suzuki Manesar Team and were instructed to not take photos or touch anything to ensure our safety and their confidentiality. Mr. Dhanumjaya Chegu, Executive Vice President, Safety, guided us throughout the visit.

Our visit began with a presentation by Ms. Richa Chitkaria, Plant Control Manager, Manesar, on Production and Planning at Maruti Suzuki. We were also served coffee and snacks during the presentation. The key points of their presentation were:

- Maruti Suzuki offers 18 models out of which 16 are made by them and two are made by Toyota Company for them.
- They roll out 2800 cars per day from Manesar Plant only, 1500 from the one at Gurgaon, and 2800 from the one at Gujrat.
- They operate three production plants at the Manesar Plant only, namely- Plant A, Plant B, and Plant C.
- Their Production process takes place in 5 stages.
- They follow somewhat of Japanese Culture like wearing same uniforms for everyone and no separated cabins.

After the presentation, we went to visit plant B which had 5 shops for 5 stages of production, 1.) Press Shop, 2.) Weld Shop, 3.) Paint Shop, 4.) Assemble Shop, and 5.) Inspection Stage. Before entering, we were asked to wear safety gear- Helmet and Goggles. We could not visit Paint Shop due to safety issues but we visited the rest and most of the process was capital intensive using automation and labour-free technologies. Upon returning from the site visit, we had a presentation about the company's production and market distribution and also how production is planned by Mr. Ravi Singh which involved. Some of the key points of the presentation were:-

- It takes 4 years for a technology to be fully able to be applied in production, it requires a lot of research and development.
- Maruti's Plant at Rewari is solely for research and development and production is not being carried out there.
- They do production under 3R's(Reduce, Reuse and Recycle) policy, which are prevention measures for environment protection.
- Storage Capacity at Manesar Plant is around 25000 cars.
- Jobs created are around 3 persons per car.
- Maruti Suzuki mainly have two showrooms- NEXA (for premium products) and ARENA (for affordable products).
- They plan schedule for an year in advance to ensure time supply, even at seasonal

After this, we went for lunch at the cafeteria, offered by them maintaining all health and hygiene standards.

Upon returning after lunch, we saw a presentation on how digital technology impacts automobile industry and then the visit was concluded by them with gifts to students and faculty members.

It was overall a memorable event for all the students. It was informative to delve deeper into the manufacturing process and learn about production and designing in the automobile sector.

The students could learn some of the key features of the company as noted below:

The Maruti Suzuki Company's key historical turning points:

Invention and Early Growth: The Government of India established Maruti Udyog Limited in February 1981 as a joint venture with Suzuki Motor Corporation as a small partner. The Government of India partially departed the business in 2003 and then sold all of its remaining shares to Suzuki Motor Corporation in 2007. In 1982, Maruti opened its first production facility in Gurugram, Haryana, India.

Manufacturing facilities: Maruti Suzuki has two manufacturing facilities in Haryana (Gurugram and Manesar), and one manufacturing complex in Gujarat wholly owned by parent company Suzuki which supplies its entire production to Maruti Suzuki. All manufacturing facilities have a combined production capacity of 2,250,000 vehicles annually (1.5 million from Maruti Suzuki's two plants and 750,000 from Suzuki Motor Gujarat).

Joint venture-related issues: The relationship between the Government of India, under the United Front (India) coalition, and Suzuki Motor Corporation over the joint venture was a point of heated debate in the Indian media until Suzuki Motor Corporation gained the controlling stake. This highly profitable joint venture that had a near monopolistic trade in the Indian automobile market and the nature of the partnership built up till then was the underlying reason for most issues. The success of the joint venture led Suzuki to increase its equity from 26% to 40% in 1987, to 50% in 1992, and further to 56.21% as of 2013. In 1982, both the venture partners agreed to nominate their candidate for the post of managing director and every managing director would have a tenure of five years.

Students review for the Industrial Visit were as follows:

- “Good afternoon sir Tanushree this side! Sir I'd like to extend a lot of gratitude to you for insisting that we all attend this industry visit. It has been one of the most informative and amazing industry visits that I've had the grace to be a part of. All the dignitaries who addressed us were very hospitable and welcoming in nature and all our doubts were addressed with patience and enthusiasm. I'd like to thank you , Faraz sir , Jomit sir , Bushara ma'am, Sumair ma'am and the entire ASE faculty for going through so many pains to organize such an amazing and enriching industry visit for all of us. I feel very proud to be an Economics student and to be associated with ASE. I will always be giving my best to this department . Thankyou so much sir for all your efforts!!” – Tanushree
- “Good afternoon sir, I extend my sincere gratitude for organizing the insightful industrial visit. Your efforts in providing us with this valuable experience are truly appreciated. It has enhanced my understanding and practical knowledge at the Maruti Suzuki plant. Thank you for your guidance and support.” – Kary
- “Good evening sir, I would like to express my heartfelt gratitude to Amity University Haryana for the invaluable opportunity to visit the Maruti Suzuki manufacturing company. The visit provided me with real-life insights into the intricate process of car manufacturing, from production to distribution. Witnessing firsthand the complexities of supply chain management and understanding the potential impact on the company if the supply is disrupted was an enlightening experience. I extend my sincere thanks to the 10 individuals who dedicated their time to guide us through the manufacturing facility, sharing the insights. Their willingness to take a break from their own responsibilities

learning experience is truly commendable. Moreover, the provision of quality food added to the overall positive experience of the visit. It reflects the meticulous planning and thoughtful consideration put forth by the organizing team. This visit not only broadened my understanding of the automotive industry but also highlighted the importance of collaboration and dedication in achieving operational excellence. Once again, thank you to Amity University Haryana for facilitating this enriching visit, and to the Maruti Suzuki team for their hospitality and valuable contributions to our learning journey.” -Nagraj

- “My visit to Maruti Suzuki was an unforgettable experience filled with warmth and genuine hospitality. From the moment we stepped in, their welcoming gestures made us feel truly appreciated. The insightful presentation illuminated Maruti Suzuki's remarkable progress, emphasizing core principles like 'heijunka' and their commitment to a discrimination-free workplace. Learning about their open office culture and the empowerment of independent decision-making was truly inspiring. Touring the plant, with careful precautions, allowed us to witness firsthand the meticulous processes explained by our gracious host. The emphasis on digital technology's role in shaping the automotive industry according to consumer preferences left a lasting impression. As an economics student, this journey was enriching and profound, offering invaluable insights into real-world practices.” -Divyakshi
- “Good morning sir, Disha Taneja, Ba economics honours| 2nd semester| A50018223013 Maruti Suzuki visit was the great learning industrial visit, we learned new things such as ~ Maruti Suzuki have 2 mainly showrooms- ARENA and NEXA, NEXA sales premium products whereas arena sales cheaper and affordable products. ~ there are 5 stage followed while making a maruti Suzuki vehicle,:- press shop(1st stage), weld shop(2nd stage), paint shop(3rd stage), assemble shop(4th stage), inspection stage. ~ maruti Suzuki produces 18 models but 16 models are manufactured them rest 2 products or models Toyota company made for them :- Maruti Suzuki grand vitara and maruti Suzuki Baleno.

Learning from economics perspective~

1) It is very important to balance the supply and demand of the product to run a firm successfully.

2) According to demand, they have to manage their supply.

3) It is very difficult to balance the supply with the demand as many obstacles comes between - container storage, transport, and many more.

After COVID maruti Suzuki faced fall of the supply of their product in domestic area(India) so they decided to increase the exports to those company who have somehow overcome the COVID and have better economic condition than in COVID because there people were willing to spend their money on luxury items(cars) whereas in India people were not willing and able to spend their money on such goods, luxury items.

4) In India EV cars are not much successful in India because it is made of battery and battery is made up of lithium. Lithium is imported from China to India. China and India shared unfavorable relationship.”-Disha Taneja

- “The experience was both enlightening and informative. The guided tour provided valuable insights into every stage of the automobile production process, from assembly line operations to quality control measures. The explanations provided by your knowledgeable staff were clear and engaging, making it easy to understand the complexities of car manufacturing. The best part for me was the interactive elements of the tour, such as the opportunity to observe the assembly line in action and interact with your team members, made the visit both enjoyable and educational. Also, Maruti was a wonderful host providing us with snacks and lunch with such amazing hospitality was an add on to the entire visit.”

The visit was concluded with a vote of thanks by Prof. A. M. Jose

The industry visit team returned back at the campus at 4:10 PM.

3.1 General Introduction of the Event

The workshop aimed to provide participants with a comprehensive understanding of cutting-edge concepts and creative methodologies within the gaming and animation industries.

3.2 Inspiration & Objectives of the Event

The workshop covered topics such as:

Emerging Technologies: Exploring the latest technologies influencing game design and animation, such as virtual reality (VR), augmented reality (AR), and artificial intelligence (AI).

Design Thinking in Animation: Introducing participants to design thinking principles and methodologies to foster a creative and user-centric approach in animation projects.

Game Mechanics and Storytelling: Discussing innovative game mechanics and storytelling techniques to enhance the user experience and engagement in gaming.

Visual Effects Innovation: Highlighting advancements and innovations in visual effects, with practical demonstrations or examples showcasing the impact on animation and film production.

Details of Expert/Speaker/Resource Person/Judge:

S N	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Dr Bharat Kumar	Veer Kunwar Singh University Ara (MV College Buxar)	Assistant Professor	Catalysis	97180 39833	bharatc haubey dce@gmail.com		Nanotechnology	Dr GK Rao

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): The resource person was invited because he is the Associate Professor in Veer Kunwar Singh University Ara (MV College Buxar).

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

No, Dr Bharat Kumar was not known in advance to the students. He is the Assistant Professor in Veer Kunwar Singh University Ara (MV College Buxar).

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible / Intangible	Achieved / Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a)Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Nil	Nil	Nil	Nil

b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	Nil	Nil	Nil	Nil
c) Collaboration for Funded Projects	Nil	Nil	Nil	Nil
2. Outcome related to Industry Connect				
a) Placement	Nil	Nil	Nil	Nil
b) Collaborations for Research Papers	Nil	Nil	Nil	Nil
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Nil	Nil	Nil	Nil
d) Collaboration for Funded Projects	Nil	Nil	Nil	Nil
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	Nil	Nil	Nil	Nil
b) Benefit to society in terms of Education	Nil	Nil	Nil	Nil
4. Outcome related to Students Learning & Grooming				
Students learnt and understood about the extensive utilization of a variety of nano materials in catalyzing different reactions.				
5. Any other				
Nil				

3. Event Report along with glimpses of the event (Photographs)

3.1 Brief about the address/talk of speakers:

3.2 'Take Homes' for the Guest and Attendees:

Seminar started with introduction of speaker. The seminar: "Nanomaterials for Catalysis" held on 4th March, 2024 conducted by Dr Bharat Kumar.

The lecture started with the introduction of the guest and then Dr Bharat Kumar started the lecture with the basic definition of nano (i.e., one part of one million). He taken into consideration the work of Michael Faraday who prepared the colloidal solution and the colloidal particles are of nano range. Dr Bharat also works on the synthesis of nanomaterials and the application of those materials in catalysis. The tuning of nanomaterials can be done on the basis of size (whether it is 2nm, 4nm or 10nm), morphology (whether it is cubic, spherical, rod, hollow or cylindrical) and composition (whether pure or mixture). For example, if at once titanium oxide is taken as titanium source which is in the solid form and then the titanium isopropoxide is taken as titanium source which is in hollow form both of which differ in the characteristics. Then afterwards, temperature also plays a very important role for example if a material has been reported to synthesized at 700-800°C and if someone synthesize the same material at 150-200°C, it would be a great deal. Along with temperature, annealing time also plays a key role in synthesis, annealing time, morphology, size of material. Even though, type of base also affect the morph

Manesar

Registrar

Amity University Haryana
Manesar Gurgaon-122413

Adding of the base (i.e., the speed of addition) also affect the process. The catalysis has been highly diverse even when same material, same amount, same temperature, same annealing time, same precursor has been taken but heated at different rate (i.e., 5°C/hrs, 25°C/hrs, 250°C/hrs).

After that, a discussion on clusters has been started that upto 2010, it has been supposed that gold clusters are magic numbers and other elements can not be doped. First time, the post doctoral supervisor of Dr Bharat Kumar, Neigeshi doped palladium in the gold cluster. The doping of even a very small quantity of palladium in gold cluster changes its colour. The doping of the atom changes the HOMO and LUMO gap and in turn the colour, properties and the catalytic nature changes. After the doping of palladium, several people try to dope cadmium, mercury, silver, copper etc. The application of nanomaterials in catalysis has been discussed.

3.3 Future plan for utilizing the contacts developed with the Invited Guests: NA

3.4 Budget of the Event(Budget Sanctioned, Total Expenditure &Revenue Generated)-NA

3.5 Details of Awards if Any:

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for

ESTABLISHED BY THE HARYANA ACT NO.19 OF 2019 AND UGC RECOGNISED - LOCATED AT GURGAON (MANESAR)

**Contemporary Research Endeavors
The Seminar Series**

“Nanomaterials for Catalysis”

Speaker: Dr. Bharat Kumar, Department of Chemistry
Veer Kunwar Singh University Ara (M V College Buxar)

Organized by: Department of Chemistry, Bio-Chemistry
and Forensic Sciences, ASAS

Venue: D 309

Date: 4th March 2024(Monday)

Time: 2:00-3:00 PM

Audience

Compulsory to all students of M.Sc. Applied
Chemistry and M.Sc. Forensic Science (Second
Semester)

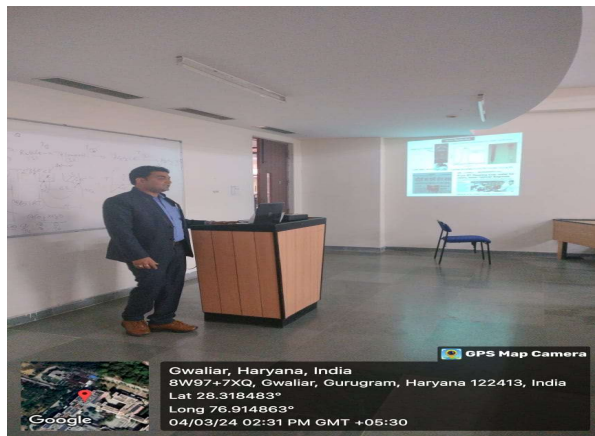

Others are welcome to attend

Directorate of Outcome Outcome Report (Event/Activity Organized @AUH)

1. General Information

Date: 05 March 2024
Event Type: Seminar
Event Title: Augmented and Virtual Reality
Venue: Amity University Haryana
Organized by(School): Amity School of Engineering and Technology
Student Participation*: No. of Students from AUH – 48
Faculty Participation*: No. of Faculty Members from AUH :- 06
Participation from outside AUH*: No. of Students & Faculty Members- Nil
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Dr. Khushboo Tripathi, Associate Professor and
 Dr. Rashmi Gupta, Assistant Professor

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Address	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/No)
1	India	Mr. Nihar Madkaiker	iXR Labs	Co-founder		9503 1313 06	NA	iXR Labs	training	
2	India	Ms. Sai Ahladini Tripathi	iXR Labs	Product Manager	Building modules	NA	NA	NA	Labs and Training	
3	India	Mr. Shubhankar Sethi	iXR Labs	Business development Manager	Networking Marketing	NA	NA	NA	Labs and Training	

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.	NA			
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NA			From the academic point of view participants can use their skills learned for working on projects. Summer internship and project trainings can be provided to students from Amity
c) Collaboration for Funded Projects	NA			

2. Outcome related to Industry Connect				
a) Placement	NA			
b) Collaborations for Research Papers	NA			
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NA			
d) Collaboration for Funded Projects	NA			
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	NA			
b) Benefit to society in terms of Education		Yes	24/4/2023	Students participated keenly in the discussion and cleared their doubts regarding the network technology. They learnt about the holistic approach towards the research in the sustainable world.
4. Outcome related to Students Learning & Grooming				
				Students and teachers can visualize the future of education field using AR/VR technologies.
5. Any other				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

Objectives of the Event: 1. To show student working of AR/VR technologies in education sector.
2. To introduce students about latest technology

3. Make students aware about necessary skills to enter and learn virtually in classrooms.

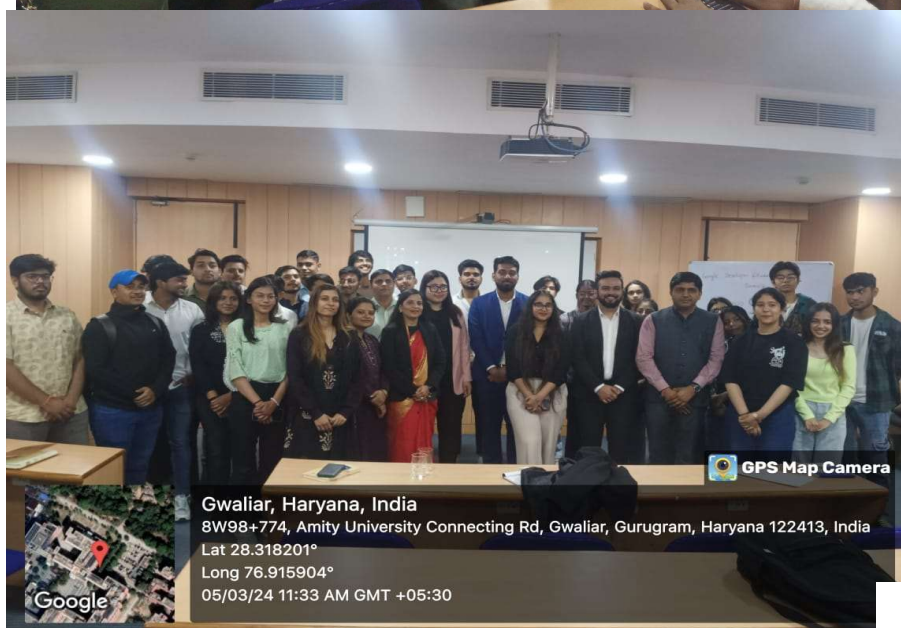

3.3 Brief about the address/talk of speakers :

Mr. Surinder Yadav: Talked about the devices needed in networking. A brief intro about the subject and equipment was given by him. He also talked about the potential of network field in the job sector.

Mr. Siddharth Bhalla: He gave knowledge about devices and certification that are in demand in the market. The theoretical discussion was done about the IP and Signals.

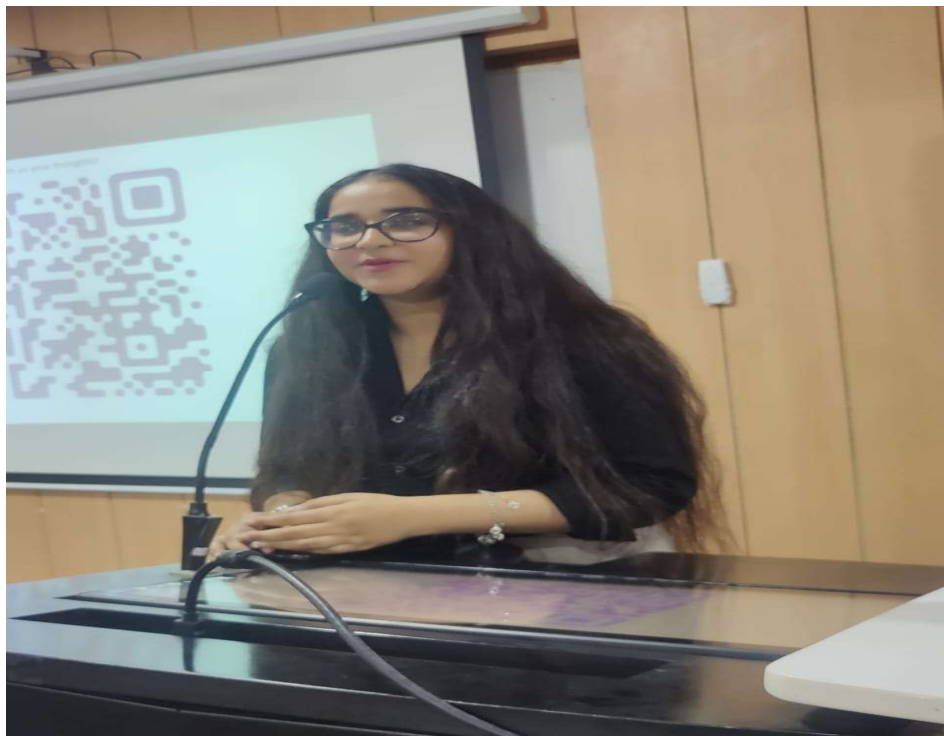

Mr. Sandipan R K Mishra: He briefed about the security and devices needed in the security.

3.3 Photographs with caption (also share high resolution JPEG files of photographs)

2. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				<i>Climate change challenges were highlighted, and measures taken to cater to the challenges were explained</i>
b) Benefit to society in terms of Education				<i>The expert lecture was very educational in climate change aspects. The need for the efforts towards the climate change was discussed by the expert. He highlighted several measures to tackle to the existing solutions and briefly demonstrated the situation of California and how things have been handles there. The impacts of efforts made were also showcased to motivate the students to work in this direction.</i>
3. Outcome related to Students Learning & Grooming				
				This expert lecture was effective in raising awareness, educating the students, motivating them to take action, educated the audience regarding the influences of policy. The lecture headed towards fostering collaboration, and empowering students to address this urgent global challenge.
4. Any other				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event :- The signs of climate change are evident in the increasing frequency of extreme weather events, the melting ice caps, and the rising sea levels. The event was dedicated to the climate change and its impact to let this generation know the impact of the change and efforts that has to be made.

3.2 Objectives of the Event :- To increase the awareness about the climate change and its impact and also to educate and motivate for action.

3.3 Brief about the address/talk of speakers – The Chief guest Dr Udai P Singh discussed about the climate change. He outlined the present scenario and also how badly the world will be impacted due to climate change. The presentation covered the case study of California state of USA.

1	India	Dr. Sam Vinay Rao	AUH	Prog. Coordinator or (ASCO)	Animation	981034 5509	svrao@ggn.amity.edu	NA	Graphic design, Fashion & Interior design & Animation.	Dr. Suniti Sood Associate Professor & HOD,

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Dr. Sam Vinay Rao was invited as a speaker in the workshop on Adobe Illustrator. As he is expert and specialized in the field of Graphic, animation, and digital illustration software.

Currently employed as Associate Professor and Programme Coordinator (Mass Communication/Animation and Graphics), Amity School of Communication, Amity University, Manesar, Haryana.

Designation : Associate Professor and Prog. Coordinator
Job Responsibilities : Teaching BJMC, BSc and M.A. (Mass Comm) Programme

Responsible for taking the curriculum forward and making improvements in it. Coordinating academic activities, supervision and scheduling activities, industry liaison and integration, mentoring and also pursuing Ph.D programme. Published nine research papers in National and International journals. Mentored and supervised students in professional Studio and Field projects. Currently involved in creating a MOOC for a series on video editing for a large University.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

Dr. Sam Vinay is working in ASCO Department in Amity University Haryana.

2. Outcome of the Event with Timelines (Proposed/Achieved)

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

An engaging CAD Workshop titled “Basics of Adobe Illustrator” was meticulously organized by the AMITY SCHOOL OF FASHION DESIGN & TECHNOLOGY with the primary objective of nurturing student’s proficiency in this essential software. This workshop serves as a platform for students to delve into the creation, management, and editing of vector artwork, crucial skills in today’s design landscape. Through this initiative, participants are afforded a comprehensive introduction to the foundational principles of vector graphics and their seamless integration into the design workflow, fostering a deeper understanding of industry-standard practices aimed at enhancing productivity. By mastering Adobe Illustrator, students are equipped with the indispensable tools to conceptualize, craft, and refine their designs within the dynamic realm of fashion. This newfound proficiency empowers students to embark on intricate illustration projects, ranging from garment renderings to the realization of elaborate Graduation design collections, thereby catalysing their journey towards becoming adept fashion designers.

CAD WORKSHOP ON BASICS OF ADOBE ILLUSTRATOR

3.2 Inspiration & Objectives of the Event

- To use Adobe Illustrator to create high-quality illustrations, logos, and another custom artwork.
- To understand the workspace, tools, and drawing features are available in Adobe Illustrator.

3.3 Brief about the address/talk of speakers. Mentioned above.

3.4 'Take Homes' for the Guest and Attendees

- With Adobe Illustrator, students will have an extra level of flexibility when working to customize your overall workspace. Interface allows for custom viewing. There is an option to enable space saving as well. These processes allow students to work on the project in whatever way is most comfortable, while maintaining complete control over all the available options.
- It allows to work on multiple images in a similar fashion all at once, which makes you much more productive than the other programs which force you to work on one image at a time.
- Zero resolution issues when working with Adobe Illustrator. Because the graphics are based on mathematics equations instead of stored pixels, It always gives sharp, crisp lines that are print-ready in any dimension.
- Compared to similar platforms, Illustrator creates files that are relatively small. You can share them quite easily, mail them as an attachment, or use them without absorbing most of your computing resources.
- Re-create print-ready graphics with ease thanks to Adobe Illustrator. Students are also able to create web graphics with this platform.

3.5 Future for utilizing the contacts developed with the Invited Guests- Future institutional workshop.

1. Event Report along with glimpses of the event(Photographs)

a) General Introduction of the Event

Amity School of Business organised a guest lecture on topic “Navigating the healthcare horizon: Exploring emerging trends and opportunities” for the students of Amity University. The event focused on addressing the transformative changes occurring in the healthcare sector, particularly in response to the COVID-19 pandemic. It aimed to provide insights into the evolution of healthcare delivery from the pre-COVID era to the present and beyond. The event highlighted the pivotal role of technology in reshaping healthcare practices, improving patient outcomes, and ensuring accessibility and equity in healthcare services.

b) Objectives of the Event

- To Analyze Healthcare Trends: The event sought to analyze the evolving trends in healthcare, starting from the pre-COVID era through the pandemic and into the post-COVID landscape. This analysis aimed to identify the challenges and opportunities within the health

Manu

Registrar

Director Amity University Haryana
Manesar Gurgaon-122413

- **To Explore Technology's Role:** A key objective was to explore the significant role of technology in healthcare delivery. The event aimed to showcase how technological advancements such as artificial intelligence and telemedicine are revolutionizing patient care, improving diagnostics, and enhancing overall healthcare outcomes.
- **To Discuss Social and Gender Issues:** The event aimed to address social and gender disparities in healthcare access and delivery. It highlighted how technology could be leveraged to improve women's healthcare, enhance mental health services, and ensure better communication between doctors and patients.
- **To Highlight Innovative Initiatives:** The event aimed to showcase innovative initiatives and projects aimed at improving healthcare accessibility and quality. These initiatives included telemedicine projects in underserved areas, mobile medical vans, and online counseling services for adolescent girls.

c) Brief about the event:

The guest lecture titled "Navigating the Healthcare Horizon: Exploring Emerging Trends and Opportunities" provided attendees with a comprehensive overview of the evolving landscape of healthcare delivery. The presentation was structured to cover three main periods: the pre-COVID era, the impact of the COVID-19 pandemic, and the anticipated developments in the post-COVID world.

During the discussion of the pre-COVID era, the speaker likely reflected on the state of healthcare before the pandemic, highlighting existing challenges and opportunities. This segment may have focused on traditional healthcare models, emphasizing areas for improvement such as patient compliance, monitoring, and record-keeping.

The subsequent segment addressed the profound impact of the COVID-19 pandemic on healthcare systems worldwide. Attendees gained insights into how the pandemic necessitated rapid adaptation and innovation within the healthcare sector. The speaker likely discussed the challenges faced during the pandemic, such as overwhelmed health systems and disrupted healthcare services, along with the emergence of telemedicine as a crucial tool for remote diagnosis and monitoring.

The presentation then shifted focus to the post-COVID era, envisioning the future of healthcare delivery. Attendees were introduced to emerging trends and technologies expected to shape the healthcare landscape in 2024 and beyond. These included Artificial Intelligence, Telemedicine, Internet of Medical Things, Big Data & Analytics, and Genomics, among others.

Moreover, the speaker emphasized the role of technology in addressing social and gender issues in healthcare delivery. Attendees learned how innovations like telemedicine and digital health apps could improve women's healthcare, enhance uptake of mental health services, and facilitate better doctor-patient communication. Additionally, the session highlighted the importance of technology in improving healthcare outcomes for the elderly and promoting comfortable elderly care.

Real-world case studies and initiatives were showcased to illustrate the practical applications of technology in healthcare delivery. Projects such as the Telemedicine Mobile Sehat Van in Uttarakhand, the Nagaland Telemedicine Project, and workshops like BTS (Bolo Toh Sahi) focusing on adolescent girl health provided tangible examples of how technology is being leveraged to address healthcare challenges in different contexts.

Overall, the event provided attendees with a holistic understanding of the landscape, the transformative potential of technology, and the importance and gender issues in healthcare delivery. Students gained valuable insights

and real-world applications, equipping them with knowledge to navigate the future of healthcare effectively.

The students could learn some of the key features of the guest lecture as noted below:

Students attending the session could learn several key insights and lessons, including:

1. Understanding the evolution of healthcare delivery and the impact of external factors such as pandemics on the healthcare landscape.
2. Recognizing the transformative potential of technology in healthcare, including its role in improving patient compliance, monitoring, and record-keeping.
3. Gaining insights into emerging trends in healthcare for 2024, such as Artificial Intelligence, Telemedicine, and Genomics, and understanding their implications.
4. Appreciating the importance of addressing social and gender issues in healthcare delivery and exploring innovative solutions to enhance healthcare access and outcomes.
5. Learning from real-world case studies and projects, such as telemedicine initiatives in Uttarakhand and Nagaland, and workshops focusing on adolescent girl health, to understand practical applications of healthcare innovations and interventions.

The guest lecture was conducted by Dr. Monika Arora and Dr. Geeta Ravish

The guest lecture concluded at 3:20 pm

Directorate of Outcome **Outcome Report(Event/Activity Organized @ AUH)**

1. General Information

Date: 15 March 2024
Event Type: Guest Lecture
Event Title: Contract Drafting: Best Practices
Event Theme: NA
Venue: Hybrid : Microsoft Teams and Moot Court Room, B Block 2nd Floor
Web/Video Link of the Event:
Organized by: Amity Law School
In collaboration with: NIL
Event Level: Institutional
Student Participation: No. of Students from AUH (Course wise):- 156
Faculty Participation: No. of Faculty Members from AUH (Deptt. wise): -01
Participation from outside AUH: No. of Students & Faculty Members- -
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Dr Vidushi Puri, Assistant Professor

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	India	Dr Astha Mehta	Sushant University	HOD, Faculty of Law	Law	9650383788	astha2287@gmail.com	On Request	-	Dr Vidushi Puri

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

The Resource Persons were invited keeping in view their Academic/ Professional profiles and suitability for the subject matter.

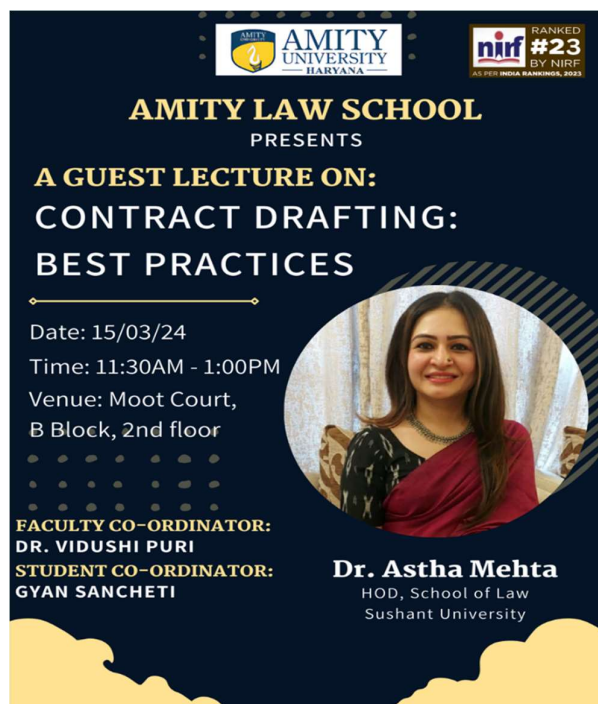

Were the guests known in advance and if yes, from what previous interaction (Write a paragraph)?

The guest was known in advance from personal interaction.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Y	Proposed	-	-
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects	-	-	-	-
2. Outcome related to Industry Connect				
a) Placement	-	-	-	-
b) Collaborations for Research Papers				

c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	-	-	-	-
d) Collaboration for Funded Projects	-	-	-	-
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	-	-	-	-
b) Benefit to society in terms of Education	Y	Achieved	-	The students learned the nuances of contract drafting
4. Outcome related to Students Learning & Grooming				
The Guest Lecture aimed at enhancing and honing the contract drafting skills of students which are crucial in the field of Law.				

5. Any other

3. Event Report along with glimpses of the event(Photographs)

Overview:

In business, contracts are extremely important and often play a central role in its success. When it comes to contract design, there are a lot of things to consider, such as making sure contracts serve everyone's best interests and figuring out how to help prevent future contractual litigation. Whether it is a contract for builders, construction management contracts, a real estate contracts, or any other contract, its essential for them to draft effective commercial contracts.

In order to highlight and elaborate more on the importance of contract drafting and to provide valuable insights on how to improve the contract drafting skills of law students, Amity Law School, Amity University Haryana had organised a Hybrid guest lecture titled "CONTRACT DRAFTING: BEST PRACTICES" on Friday 15th March 2024. There were 69 attendees physically present in the Moot Court and about 87 attendees joined through Microsoft Teams. Ms. Noor Chabra, a student of BALLB[H] 4th semester, welcomed the guest lecturer, Dr. Astha Mehta, Head of Department, School of Law, Sushant University, Gurugram.

The lecture commenced with Dr. Astha talking about how drafting a contract is a very personal and human thing to do and hence Artificial Intelligence like ChatGPT will not be able to replace a real human drafting a contract as AI will not give the human touch to it. Dr. Astha continued by talking about the importance of legal research for the drafting of contracts and further highlighted the importance of the use of appropriate legal terminology while drafting the contracts.

Further, Dr. Astha elaborated on having a better understating of commercial laws and how it helps to draft a better contract that results in minimal chances of arising of disputes. Dr. Astha, through her presentation, explained all the important clauses of a contract to bear in mind while drafting the contract so as to avoid any possible contractual litigations.

Dr. Astha, moving further, provided valuable insights about the necessary legal knowledge required to draft an effective contract. She also explained about the client demands and solving the problems through analysis of the contract. Later, she elaborated on the importance of interpreting the laws and having an eye for details. She also provided the students with templates and formats to draft an effective contract that avoids any major legal hurdles and obstacles.

Concluding the lecture, Dr. Astha opened the lecture for questions and clarifications from the students. Ms. Shayla Goel of BALLB[H] 4th semester asked a question about how artificial intelligent consulting can reshape legal processes. She answered by saying that optimal use of Artificial Intelligence can definitely yield productive results. However, solely relying on Artificial Intelligence is not advised as it will lack the human touch that comes when a person drafts a contract. Another question was asked by Ms. Khushi, 4th semester. She asked about the importance of dispute resolution in a contract. Dr. As

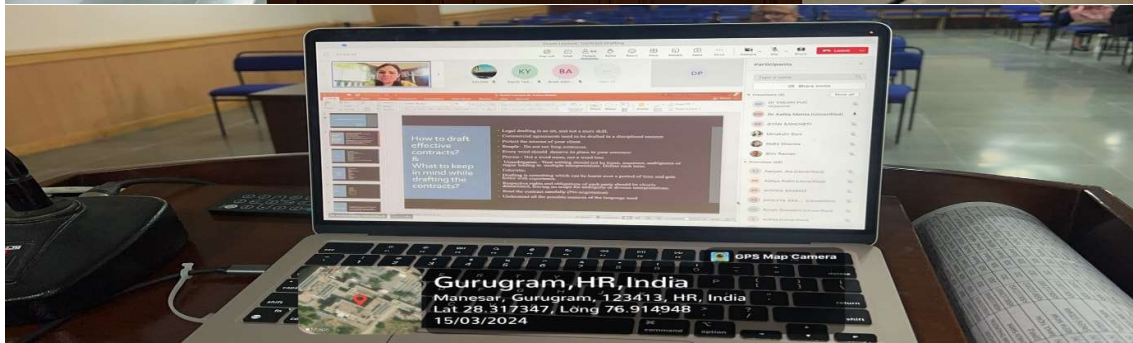

dispute resolution in a contract can be done through various methods like compensation. However, it is ideal if the contract has minimal chances of arising of disputes.

Vote of thanks:

The vote of thanks was proposed by Dr. Pranshul Pathak, Coordinator, Amity Law School, Amity University Haryana. He gave his thoughts and ideas on the same topic to all the attendees present physically and online. Finally, Dr. Pranshul appreciated the faculty coordinator Dr Vidushi Puri and the student coordinator for organising the lecture and the lecture was concluded.

5. Any other				

14. Event Report along with glimpses of the event (Photographs)

Seminar started with introduction of speaker. The seminar: **“Smart Polymer for Biomedical Applications” and “Generative AI in Scientific Publishing”** held on 15th March, 2024 conducted by Dr Krishan Kumar and Dr Ruchika Yogesh.

The lecture started with the topic of Dr Krishan Kumar which is “Smart Polymer for Biomedical Applications”. He started the lecture with the introduction of his topic i.e., he elaborated polymers and the applications of polymers. He then showed his work in this field and some of his guide’s work in order to make students aware about the biomedical applications of the polymers in recent years. The polymers are not only beneficial in biomedical applications, they are also useful in cosmetics, window sheets etc.

He also explored how different proteins can affect the phase transition behaviour of polymers. The first polymer in his PhD upon which he worked is polyvinyl caprolactum which shows the thermal transition behaviour in the range of 30-35 °C.

After the wonderful lecture of Dr Krishan Kumar, Dr Ruchika Yogesh has been welcomed for her talk on “Generative AI in Scientific Publishing”. She has outstandingly explained the use of AI in the Scientific researches and the publishing of the papers. She focused on the benefits of AI in the students interested in research and want to write the paper. It is highly time and energy saving but one need not to be dependent on the AI tools fully as it can also lead to the decline in the creativity of the student. So, she focused on the use of AI in publishing but in a limited way and don’t rely fully on these tools.

Future plan for utilizing the contacts developed with the Invited Guests: Dr. Pooja Bawra discussed with Dr. Krishan Kumar for future research collaboration.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

CBSE sponsored one-day training program on 15.03.2024 (Friday) for over 65 principals and school teachers teaching Multi Media, Mass Media & Photography (Sub. Code — 415/821/835). This program was jointly hosted by ASCO and Media & Entertainment Skills Council. Organized from 9:30 AM to 4:45 PM at the B Block Auditorium, this event witnessed representatives from 30+ schools and institutions from different parts of the nation. In the **workshop**, Mr. Idris Ahmed (Photographer) shared his expertise on digital photography, Mr. Gaurav Birla talked about important developments in Mass Media Studies curriculum in school curriculum, while Dr. Sachin Juneja introduced various programs offered by Amity University. Tons of participants' queries were taken up by Prof (Dr) Sumit Narula, Prof (Dr) Amit Chawla and the team of Amity University. Many collaboration proposals were initiated including Train-the-trainer, Summer school for school children and many more. The participants also received blessings and pearls of wisdom from Hon'ble Vice Chancellor of AUH, Prof. P.B. Sharma Sir.

3.2 Inspiration & Objectives of the Event

This was a capacity building **workshop** on Multimedia, Mass Media & Photography (Sub. Code – 415/821/835) sponsored by CBSE and Co-hosted by ASCO AND MESC. The objective was to upskill the CBSE school faculty and principals offering Media Studies programs at their respective schools as per the New Education Policy 2020.

3.3 Brief about the address/talk of speakers

Mr. Idris Ahmed (Photographer) shared his expertise on digital photography, Mr. Gaurav Birla talked about important developments in Mass Media Studies curriculum in school curriculum, while Dr. Sachin Juneja introduced various programs offered by Amity University. Tons of participants' queries were taken up by Prof (Dr) Sumit Narula, Prof (Dr) Amit Chawla and the team of Amity University.

3.4 'Take Homes' for the Guest and Attendees

The teachers learnt about the art of photography from Mr. Idris; about the latest developments in the field of Media Studies from Mr. Birla; about the various programs offered by AUH and other Amity Campuses at UG, PG and PhD levels from Mr. Sachin Juneja; about misinformation, disinformation and fake news from Dr. Sumit Narula; about the photography, videography and animation related infrastructural requirements from Dr Amit Chawla.

3.5 Future plan for utilizing the contacts developed with the Invited Guests

Many collaboration proposals were initiated including Train-the-trainer, Summer school for school children etc. Teachers will also be invited to co-host and attend AUH events in future.

3.6 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated)

Event sponsored by CBSE as per attached proposal file.

of Instruments				
d) Collaboration for Funded Projects	NA	NA	NA	NA
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	YES	YES	YES	- Workshops often emphasize the importance of cleanliness and proper hygiene practices when working with dyes and fabrics. This can lead to improved personal hygiene habits among participants. - Educating participants about the safe handling and disposal of dyes and chemicals promotes environmental and personal safety, reducing the risk of exposure to harmful substances.
b) Benefit to society in terms of Education	YES	YES	YES	Tie-dye and batik workshops serve as educational platforms that not only teach specific techniques but also promote cultural appreciation, creativity, environmental awareness, and cross-cultural understanding in society.
4. Outcome related to Students Learning & Grooming				
				- Students gain proficiency in tie-dye and batik techniques, including fabric preparation, dye application, wax resist methods, and finishing processes. - They develop their creativity and artistic abilities by experimenting with color combinations, patterns, and design elements in their fabric creations. - Through hands-on experience, students learn to troubleshoot issues that arise during

- problem-solving skills.
- Students learn the importance of precision and attention to detail in achieving desired patterns and color effects, which can be applied to other areas of study and work.
- The workshop provides students with tangible outcomes such as dyed fabrics or batik artworks, which can be included in their portfolios to showcase their skills and creativity.

5. Any other

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: The “Tie & Dye and Batik” workshop, organized by AMITY SCHOOL OF FASHION DESIGN & TECHNOLOGY in the department, was a resounding success in fostering creativity and cultural appreciation among participants. Held over the course, the workshop attracted visitors eager to explore the rich traditions of Tie & dye and Batik. Led by expert facilitators, participants engaged in hands-on activities, mastering various techniques, and experimenting with vibrant dyes and fabrics. The workshop not only provided valuable skills but also served as a platform for cultural exchange and artistic expression. Students left with newfound knowledge, inspired by the fusion of traditional textile techniques and contemporary creativity. This workshop underscores the university’s commitment to preserving cultural heritage and nurturing artistic talent within its community.

3.2 Inspiration & Objectives of the Event:

- The workshop aims to provide participants with practical skills in tie & dye enabling them to create unique textile designs. Through hands-on experience, methods of applying dyes, tying fabrics, and wax-resist techniques characteristic

Manesar

Registrar
Amity University Haryana
Manesar Gurgaon-122413

- By teaching traditional textile arts like tie & dye and Batik, the workshop contributes to the preservation and promotion of cultural heritage. Participants gain an appreciation for the historical and cultural significance of these techniques, fostering a sense of pride in traditional craftsmanship.
- The workshop encourages participants to explore their creativity and experiment with different designs and colour combinations. By providing a platform for artistic expression, it cultivates innovation and encourages participants to develop their own unique style within the framework of tie & dye and Batik.
- Beyond the practical skills acquired, the workshop aims to educate participants about the broader context of tie & dye and Batik, including their historical origins, cultural significance, and contemporary relevance. Participants gain a deeper understanding of the art form's cultural and aesthetic value.

16. Event Report along with glimpses of the event (Photographs)

Seminar started with introduction of speaker. The seminar: **“Chromogenic Functional Materials and its Applications”** held on 18^h March, 2024 conducted by Dr **Mohammed Iqbal Khazi, Research Associate Professor, Institute of Nano Science and Technology, Department of Chemical Engineering, Hanyang University, Seoul, South Korea.**

The lecture started with general introduction with Dr. Khazi research lab and the Hanyang University. Then he started the lecture with the introduction of his topics i.e., conjugated polymer sensors, light responsive materials and conductive polymers. He elaborated chromogenic functional materials, stimuli, and its application in sensor, imaging etc. He then showed his work in this field and some of his guide's work in order to make scholars aware about the applications of the polymers (PDA) in recent years.

He also explored how polymer (PDAs) used as hydro chromic sensors using sweat pore mapping. He showed many PDA sensor developed in his lab. Other than that he also discussed about covalent organic nanotubes and light responsive inks for reusable paper.

Future plan for utilizing the contacts developed with the Invited Guests: Dr. Pooja Rawat discussed with Dr. Khazi regarding future collaboration related to paper as well as project writing.

3.1 General Introduction of the Event

Students of BSc.A&VG, BAJMC Sem 2 and 4, MAJMC/2nd Sem attended the event. We organised this event to facilitate imparting of industry knowledge and opportunity for growth in the rapidly evolving i-gaming industry.

Objectives of the Event

Networking: Facilitating the student body to interact with an I-gaming consultant as we have gaming enthusiasts amongst our students.

Opportunities: Among the enthusiasts within the i-gaming industry create a bond with the students to nurture them and foster them.

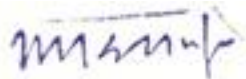

Community building: Create a sense of community and camaraderie amongst alumni and present students.

3.2 Brief about the address/talk of speakers

The event started off with a small introduction of Mr. Gourav Pilia and his work. Professor (Dr.) Sumit Narula, Director of the Amity School of Communication welcomed the guest speaker. All students of Amity School Of Communication and Faculty were present in the audience. Professor (Dr.) Pooja Rana welcomed the students and sincerely expressed her happiness to witness her former student bring glory. Mr. Gourav graduated from BA Journalism & Mass Communication 2015-2018 batch at Amity University Haryana. Mr. Gourav who now works as a successful I-Gaming consultant briefed the students of Journalism and Animation on I-Gaming and his role as a consultant.

After graduating and working for different content providers over a period of time he joined Fantasy Sports Gaming company. He went into great lengths on explaining how much effort goes into making a single game that people play with. During his interaction with the students he touched on the importance of building one's portfolio, the importance of networking, to be open to challenges and change and questioning what one doesn't understand.

He had also been featured in Forbes India and also attended several online gaming summits as a guest speaker, apart from that he also participated in panel discussions within India and Overseas. Mr. Gourav gave the students a glimpse of the real world of Media. He advised students to reach out and connect as to find their way in the media. It was an overall friendly interactive session which also offered opportunity options to the students for internships. At last, Professor (Dr.) Esha Jainiti, Additional Director of Amity School Of Communication graciously delivered the vote of thanks.

Feedback for the I-GAMING interaction with Mr. Gaurav Pilonia workshop on 19.03.24.

AP

ANANYA PAUL

To:Esha Jainiti

Wed 3/20/2024 22:52

Respected Madam,

It is my immense pleasure for giving me the opportunity to share my experience on an interaction between I-Gaming expert- content writer, Gaurav Pilonia. Who was cordially invited as the guest/ alumni to address the gathering of the whole ASCO department. This event was organised by the ASCO department at Amity University of Haryana.

It was a wonderful experience. Personally, I got to learn that lot of effort is gone just to make a single game, that we like to play. This workshop also gave an insight on:

1. how to build your portfolio.
2. networking is the key
3. Questioning which you don't get to understand
4. be open to challenges and changes.

With this i would like to conclude my feedback by expressing my immense gratitude towards Mr. Pilonia and the whole ASCO department for organising such events which help to us students guide on which path we should look forward to. And help us to use these practical skills to use.

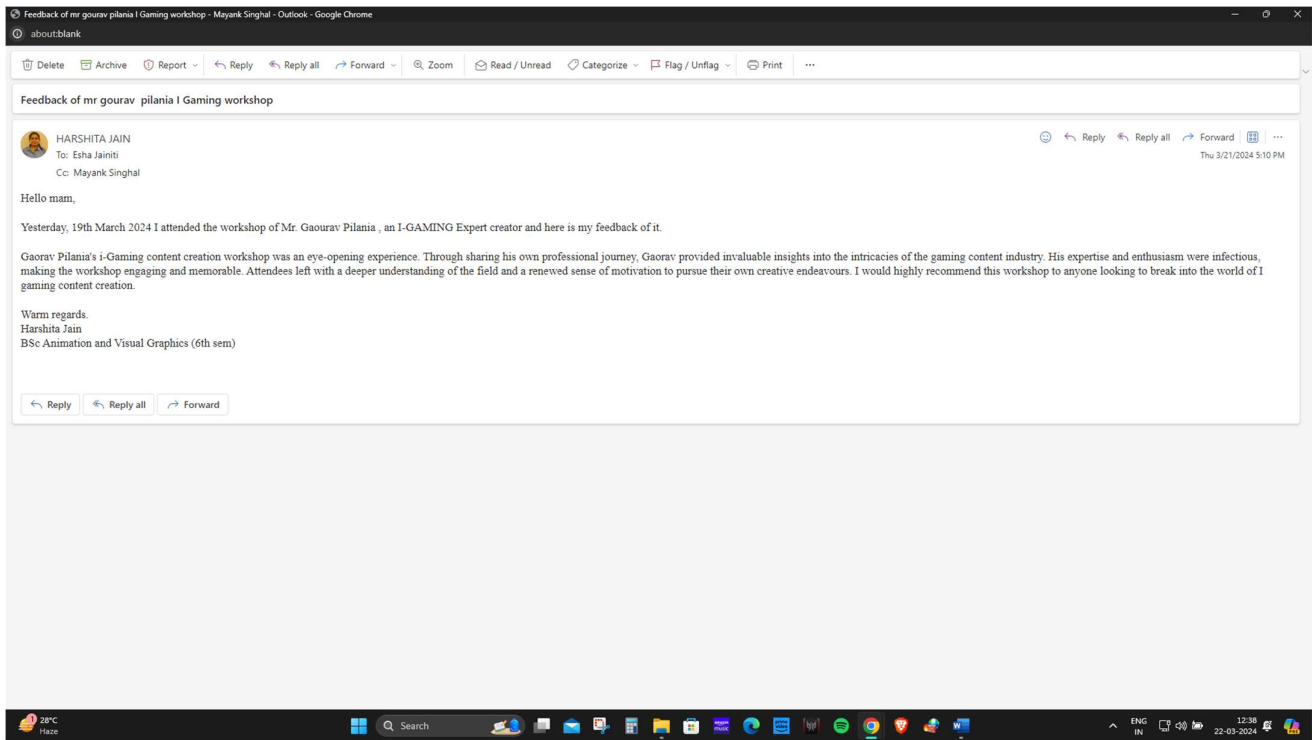

Thank you!

Warm Regards,

Ananya Paul

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event:

Corporate Resource Centre (CRC) organized a workshop/ Guest lecture on 'Luxury Fashion Management & Fashion Styling' conducted by Mr Ravineet Singh Marwah, Founder Indyverse for the students of Amity School of Fashion Design & Technology. Indyverse is India's first Luxe Fashion Styling platform with global designers and brands. During the Event Mr Ravineet Singh Marwah covered key topics such as market trends, brand positioning, and the intersection of technology, luxury, and styling followed with questions & answers.

Indyverse's success story inspired our students to navigate the complexities of the industry.

Indyverse completely focuses on niche services provided under a one-stop shop for our clients. They are a fashion Styling- e-commerce platform in the Metaverse and Web 3.0. They are different from other brands and stay unique by providing hyper-personalized service to customers through styling services. The spectrum of services provided shows the collaboration with wedding planners, individual clients, and corporate individuals and they strategize to provide specialized services to all clients, where there is a whole brand setup at the backend to support their vision of spreading fashion styling services.

Indyverse is a community of 100K plus followers and registered users with 2500+ customer personas being worked upon, 90+ fashion categories of 400+ designer brands showcasing 10000+ products at Indyverse.

Indyverse fashion styling process delivers personalized experiences at clients' doorsteps while:

- Working on customer persona like body type color pallets...etc
- Showcasing linen through swatch books, look books & styles through mood boards.
- Authenticity of A-List celebrity designers like Falguni Shane Peacock, Farah Khan, Kunal Rawal. & many more for shopping assistance and appointments.

3.2 Inspiration & Objectives of the Event:

- Learnings about the aspects of styling.
- Identification & dress designing according to a client's body type.
- Criteria for client consultation
- Requisites for Personal Branding & Brand positioning

3.3 Brief about the address/talk of speakers:

The lecture covered key topics such as market trends, brand positioning, and the intersection of technology, luxury, and styling. Indyverse's success story will inspire students to navigate the complexities of the industry.

3.4 'Take Homes' for the Guest and Attendees:

- Students gained knowledge of & the importance of building your own Brand.
- Learnt about the upcoming colours, texture, and prints for Spring- Summer 24.
- Importance of teamwork and team building in an organization.
- Learnt about luxury fashion management and fashion styling business.
- Points to be kept in mind for becoming a good stylist and entrepreneur.
- Learnt about different types of 3D software's like CLO, web 3.0.
- Learnt about AI influencers like Kyra and Shudu models.

3.1 General Introduction of the Event

A visit to Artius Interior Products (P) Ltd, Gurgaon was planned on 3rd MApril.'2024 where students of Amity School of Architecture and Planning had a good experience. Artius, an innovative enterprise in India, pioneers the use of patented glulam technology to craft exceptional timber windows, doors, and expansive structures for exclusive private residences. Established in 2011 by Ms. Bhawna Sharma. Nestled at the intersection of innovation and craftsmanship, Artius Interior Products stands as a beacon in the realm of wood manufacturing, design, and construction. During the visit ,students had the unique opportunity to witness the craftsmanship of wood , from the conception of a mere idea to the realization of breathtaking designs. Guided by experts, students explored the intricate processes that transform raw materials into works of art and gained insights into the meticulous attention to detail .

3.2 Inspiration & Objectives of the Event

- Exposure to firsthand understanding of the intricate processes involved in wood manufacturing, design, and construction.
- To bridge the gap between theoretical knowledge and practical application of wood craftsmanship.

Brief about the address/talk of speakers: NA

3.3 'Take Homes' for the Guest and Attendees

- Students had the opportunity to observe and learn from skilled craftsmen and technicians, gained insights into advanced woodworking techniques and machinery operation.
- Experienced the innovative designs and meticulous craftsmanship that will inspire students to think creatively and push the boundaries of their own design practice.

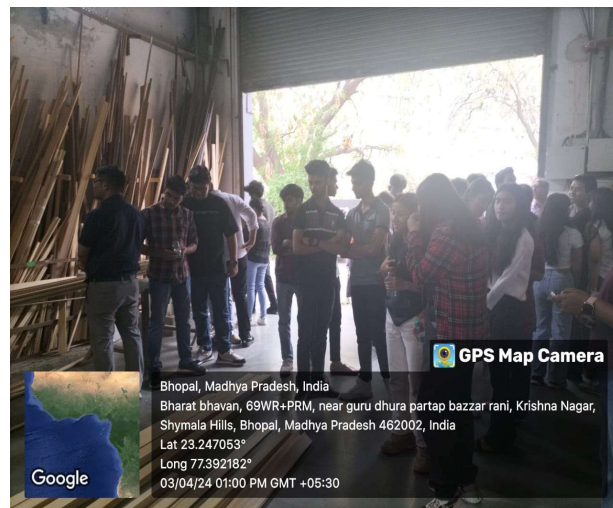

3.4 Future plan for utilizing the contacts developed with the Invited Guests: NA

5. Any other

Students learned the feasibility assessment skills based on fundamental analysis of equity based investment instruments of capital markets; for taking rational investment decisions.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

The Expert-Session by eminent personalities of industry is an integral part of MBA, BBA Industry Interface and provides insight into applicability, integration and real working of corporate sector management domain like Finance, Marketing, HR and International Business, rendering the course-work linking with actual application of management strategies, instruments and systems to further enhance the efficacy of management education.

3.2 Objectives of the Event

To apprise and mould Management students of ABS, AUH to have insight into the actual working of corporate ecosystem/ expert mind-set, and how best to mould themselves with intellectual, behavioural, personality and execution skill set to become an efficient Manager.

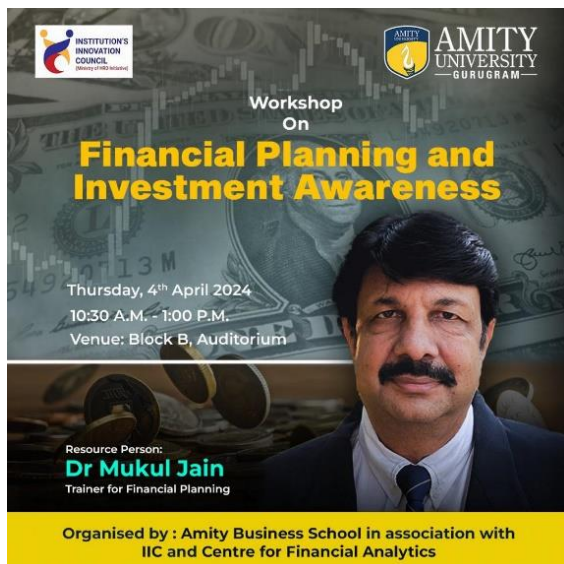

3.3 Brief about the Industry Visit:8

- The expert-session by Dr. Mukul Jain on topic “Financial Planning and Investment Awareness’ initiated in AUH, ‘B’ Block Auditorium for ABS, MBA and BBA students on 4.April.2024. After Brief introduction of the speaker by student anchor Ms Shrishti, and introduction note by Dr. Monika Arora, the speaker gave the introduction of various equity and debt investment instruments of capital markets.
- Dr. Mukul Jain demonstrated the relative feasibility of Mutual Funds, ELSS, NPS and direct equity transactions, he stated that small cap and mid cap equity based investment instruments have larger risks because of their low market value and large cap and index based equity investment instruments have relative lower risks. He further demonstrated that debt based investment instruments are also

seems to provide much higher returns. He further demonstrated the effect of NPV on Mutual Fund Returns.

- Dr. Mukul Jain through live streaming of BSE quotes of select equities has practically demonstrated to students the though P/E ratio is significant parameter of assessing equity return but it should be lower than 52-week high ratio not higher. He stressed that fundamental analysis is base but technical analysis provides return assessment for shorter period.
- Dr. Jain explained the details about NISM based examinations and asserted that management students should also qualify this exam apart from regular exams. The session concluded with the thanks note by Dr. Ajay Pandey and student-anchor Ms Shakshi.
- Dr. Mukul Jain after lunch, had a courtesy meeting with Dr. Vikas Madhukar, PVC, AUH & Director-ABS, wherein further conduction of such type sessions by the speaker is assured. The session concluded successfully.

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 04/04/2024
Event Type: Workshop
Event Title: Sustainable Building Practices.
Event Theme: IPR/Entrepreneurship or Startup/ Innovation
Venue: Construction Yard, AUH
Web/Video Link of the Event:
Organized by: Amity school of Architecture and Planning (ASAP)
In collaboration with: Agency/Govt.Agency (Central)/Govt. Agency (State)/ Corporate/Industry Association /Non Govt. Agency/International Agency
Event Level: Institutional/State/National/International
Student Participation*: No. of Students from AUH (Course wise):- B.ARCH- 18 , BID – 06 =24
Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 07
Participation from outside AUH*: No. of Students & Faculty Members- NIL
(Enclose attendance sheets in given format)

Event Coordinator(s) with designation: Ar. Geetika Verma (Assistant Professor II)

Details of Expert/Speaker/Resource Person/Judge:

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				

a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning &Grooming				
				Learning from the workshop :Using the Pythagoras rule. Usage of tools on-site.Using earth rammer. Curing of bricks and its importance. Understanding of the timing of drying mortar.
5. Any other				
The workshop started by dividing the participants into three distinct groups and each was assigned a different task. - Group 1- (B.arch students) “L- shape ENGLISH Brick Bond” length 4.6ft by 4.6 ft , and 2.6ft high . - Group 2- (BID) “MOSAIC PATTERN”				

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

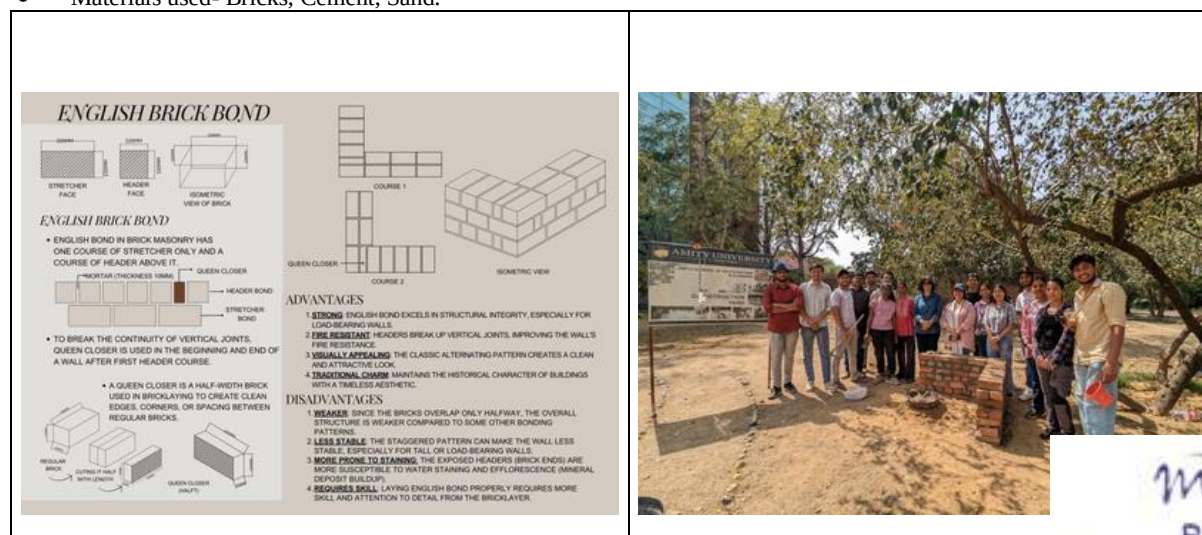

Amity School of Architecture and Planning, Haryana organized a building material and construction workshop on the 04. 04.2024.

Procedure for Group 1:

Procedure for Group 1: The process of building a L-shape English bond starts with providing plain and strong bedding. To provide bedding the team started digging with the help of a spade of 4 to 6-inch-deep pits in the ground in L shape. After emptying the pit, the ground is made a plain surface with the help of an earth rammer and the ground is made moist with water. After achieving a plain surface, mixture of mortar of ratio 1:6 is prepared. Now the PCC is laid with the mixture of broken bricks to achieve the strong foundation. To begin the procedure of laying the bricks we first make sure that the L shape of the bench is in a proper right angle using a thread and the 3:4:5 rules (Pythagoras theorem). The pattern of laying bricks is mentioned in the attached drawing given below. These drawing were referred to understand the laying pattern for the bricks. Each layer was laid carefully, and the mortar was again put in between and above the bricks. After laying each layer the thread is elevated according to the increasing height to keep the angle of the wall correct. Along with this to make sure the wall is erected vertically in a proper manner the usage of a plumb bob is made, it is used after laying each layer of bricks. A total of 8 layers of bricks are erected vertically to achieve a height of nearly 790mm.

Learning from the workshop:

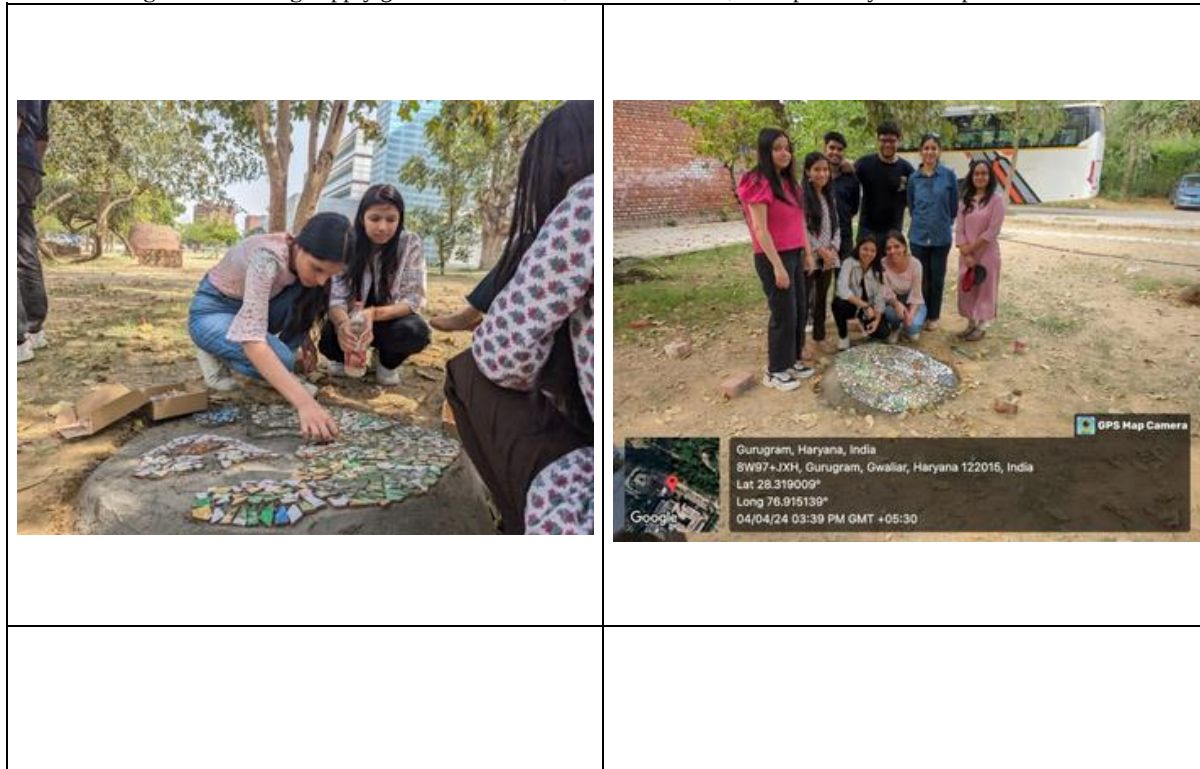

- Using the 3:4:5 rule (Pythagoras theorem)
- Usage of tools on site.
- Using a earth rammer.
- Curing of bricks and its importance.
- Understanding of timing of drying mortar.
- Materials used- Bricks, Cement, Sand.

Bond Explanation	Completion of L shape English bond

Procedure for Group 2:

1. The process of making mosaic pattern ,first prepared the base with mortar then Sketch or plan your mosaic pattern.
2. **Tile Selection:** Choose tiles or tesserae in various colors and materials.
3. **Tile Cutting:** Use tile nippers to cut tiles into desired shapes if needed.
4. **Substrate Preparation:** Prepare the surface with adhesive.
5. **Assembly:** Arrange tiles according to your design, pressing them into the adhesive.
6. **Grouting and Finishing:** Apply grout between tiles, clean off excess, and optionally seal for protection.

The workshop helps students to understand the procedures and the intricacy of work on site. Also help to understand the value of labors work and their hardship. The practical scenario on site is very different than the theoretical learning. The workshop was also a playful and bonding experience for the department.

3.2 Inspiration & Objectives of the Event

The purpose of the workshop was to develop a general understanding of basic building techniques amongst the students, get some practical knowledge.

3.3 Brief about the address/talk of speakers

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

This excel workshop organized by ABS which aimed to provide a platform to our students where they can get comprehensive understanding of excel and its various functions and teach them how to utilize excel to solve common problems.

3.2 Inspiration & Objectives of the Event

- To train students in advance excel as per the industry demand
- To cover a range of topics related to excel, including basic formula and functions, data sorting and filtering, pivot chart, vlookup, Dashboard.
- To provide students broadly understanding of excel and its various function

3.3 Brief about the address/talk of speakers-

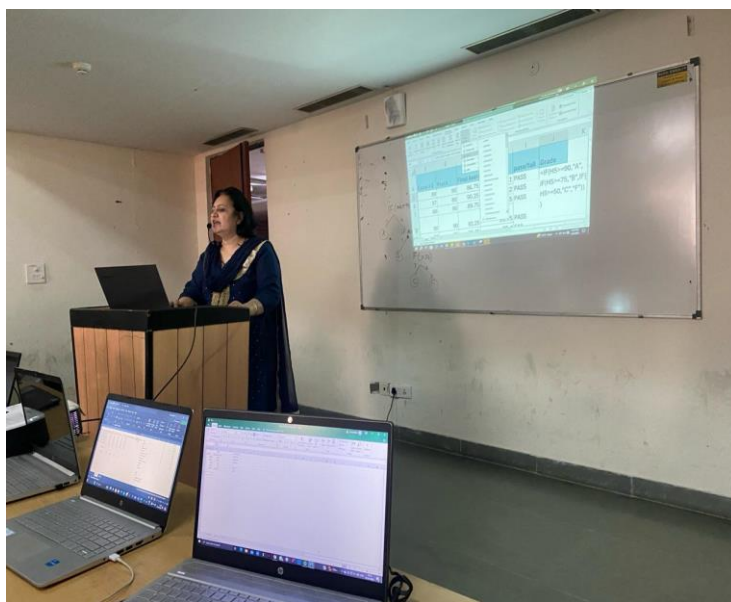

3.4 Future plan for utilizing the excel skills- Excel skills are highly versatile and can be valuable in various professional fields. Here are some future plans for utilizing Excel skills which includes Data Analysis and Reporting, Financial Modelling and Forecasting, Budgeting and Expense Tracking, Process Automation, Project Management, Inventory Management and Data Visualization. Update Excel skills by learning new features, exploring online tutorials, and staying up to date with the latest Excel developments

3.5 Budget of the Event-

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 09 April 2024
Event: Industrial Visit
Event Title: FARE Labs Visit
Venue: FARE Labs, D18, Infocity 2, Gurugam, Haryana, 122001
Organized by: Amity School of Applied Sciences
Student Participation: (MSc. Forensic Science)+5 (M.Sc Biochemistry)= 18
Faculty Participation: (ASAS) = 02
Participation from Outside AUH: 0
Event Coordinator(s) with designation: Dr. Bhuvnesh Yadav, Dr. Manish Shandilya

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	Address	Major Areas where Amity can Collaborate with expert	CV of Expert (Yes/ No)

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	Tangible	Proposed	July 2024	NA
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	Tangible	Proposed	July 2024	Students got the exposure of latest research equipment
c) Collaboration for Funded Projects	Intangible	NA	NA	NA
2. Outcome related to Industry Connect				
a) Placement	Tangible	Proposed	July 2024	Discussed the opportunity and they agreed to connect with placement cell at AUH
b) Collaborations for Research Papers	Tangible	Proposed	Dec 2024	Discussed but if student worked in FARE lab only during dissertation.
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	Tangible	Proposed	July 2024	Students got the exposure of latest research equipment
d) Collaboration for Funded Projects	Intangible	NA	NA	NA
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	NA	NA	NA	NA
b) Benefit to society in terms of Education	NA	NA	NA	NA
4. Outcome related to Students Learning & Grooming				
Student internship and Major projects	Tangible	proposed	July 2024	Students various

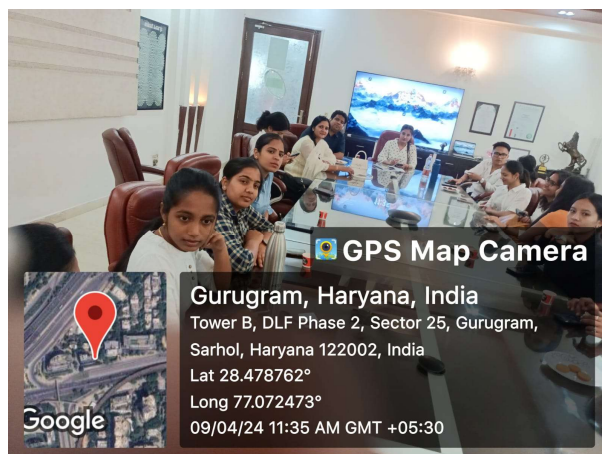

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event: The event was organised to give a general orientation of advanced laboratory instruments and their working utility in different laboratories.

3.2 Objectives of the Event: The aim was to provide insight into food and toxicological research. The students learn about the applications of various high-end instruments for qualitative and quantitative assessment of components of any material.

3.3 Brief about the address/talk of speakers : Ms. Smiriti (HR Manager) of FARE was the resource person. The orientation included the overall working of different laboratories, their working, instrumentation and types of samples and testing. The scientists and technical staff of different labs taught the students about instruments like Gas chromatography, GCMS, ICP-MS, ICP-OES, LC and AA systems, HPLC, and TOC (Total Organic Carbon) detectors. GC applications to check food, water, soil and air samples for cholesterol, fatty acids etc. are mentioned. In the microbiology division, microbial assessment of food, water, fertilizers, drugs, and cosmetics was demonstrated. In the ICP-MS section, heavy metal detection with ICPOES, LC and AA systems was demonstrated to the students. Also, instrumentation used for herbal product quantification and air and water pollutant detection were shown.

3.3 Photographs with caption (also share high-resolution JPEG files of photographs)

Directorate of Outcome
Outcome Report (Event/Activity Organized @ AUH)

1. General Information

Date : 12 April 2024
Event Type : Workshop
Event Title : Workshop on Textile Testing
Event Theme : Technicality
Venue : D-427 Room, D Block, Fourth Floor
Web/Video Link of the Event: NA
Organized by : Amity School of Fashion Design & Technology (ASFDT)
In collaboration with: NIL
Event Level : Institutional
Student Participation*: No. of Students from AUH (Course wise): - B.Des FD 2nd Sem – 10
Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise): - 01
Participation from outside AUH*: No. of Students & Faculty Members- NIL
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Ms. Kavita (AP-1)

Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborate with expert	Recommended by
	NIL									

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph): NIL

Was the guest known in advance and if yes, from what previous interaction (Write a paragraph):

2. Outcome of the Event with Timelines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers / Conference Papers/ Book Chapter etc.	NA	NA	NA	NA

b) Benefit to society in terms of Education	Yes	Yes	Yes	Yes

students with hands-on experience in understanding the properties and quality of textiles. It helps them grasp concepts such as fabric durability, colorfastness, and performance standards, fostering a deeper understanding of material science and quality control. This knowledge equips them for careers in textile engineering, fashion design, and manufacturing, contributing to advancements in the industry and ensuring consumer safety and satisfaction.

4. Outcome related to Students Learning & Grooming

After the workshop, students will be able to understand: -

1. How to measure GSM, yarn Count, snap pull strength etc.
2. How to perform some basic textile testing in textile industry along with some technical testing like GSM cutter, EPI, PPI, Snap pull tester, Beasley balance.

5. Any other

NA

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

The textile testing workshop was organized on 12th April’2024. Students worked on GSM Cutter, weighing balance, Beasley Balance, and Snap pull tester and learn how to perform these tests and what is the benefit for doing these testing in export house in fashion industry.

[Handwritten Signature]

Registrar
Amity University Haryana
Manesar Gurgaon-122413

3.2 Inspiration & Objectives of the Event

- ☐ To learn about the snap pull testing procedure.
- ☐ To learn about the basic textile testing of fabric like calculation of GSM and EPI, PPI.

3.3 Brief about the address/talk of speakers: NA

3.4 'Take Homes' for the Guest and Attendees:

Learnt about different seasons and a variety of garments and styling.

2. Event Report along with glimpses of the event(Photographs)

General Introduction of the Event : Social media hacking and exploitation: Cyber forensics involves the investigation and analysis of digital devices and networks to uncover evidence related to cybercrimes. It's crucial for solving cybercrimes and identifying perpetrators, in which also deals about the hacking and exploitation of social media platforms.

Objectives of the Event: To develop an understanding of the cyber forensic concepts for the identification of the possible cyber threats and prevention from the challenges/risks associated with data theft, identity theft, social media hacking, and exploitation via a live demo.

Brief about the address/talk of speakers : The speaker enlightened the audience about the potential cyber-attacks, related preventions and reactive approaches. He discussed the following topics:

- How hackers exploit social media:
 - Cookie Stealing
 - Session Hijacking
 - Account Takeovers
 - Breached Database
 - Phishing Attacks
 - Fake News and Misinformation
 - Data Scraping
 - Fake Profiles and Impersonation
 - Malware Distribution
 - Cookie Stealing

2. Session Hijacking/Cookie Stealing:

- Attackers steal authentication cookies stored on users' devices through various methods such as cross-site scripting (XSS) attacks or malware.
- These stolen cookies can be used to Impersonate users and gain unauthorized access to their accounts without needing their login credentials

3. Malware Attack: Malicious links or attachments disguised as legitimate content are shared, leading to malware installation on users' devices

4. Fake profiles and impersonation

5. Social Engineering

6. Fake news and Misinformation

7. Sms & Call spoofing

8. Criminal Utilization of Call Spoofing and AI-Generated Voice Cloning

9. The Techniques Employed by Criminals in Attacks: Initially, they gather information from social media platforms, identifying details such as wealth or financial status

- Personal Information is then collected through OSINT (Open-source intelligence) or via social engineering tactics
- They scrutinize your Instagram and Facebook content, extracting voice recordings from videos.
- Utilizing AI tools, they replicate the extracted voice to create a convincing imitation
- Finally, they employ spoof calling techniques to execute their targeted attacks.

10. E-sim frauds

11. Scams on social media platforms

- Shopping and Product Selling
- Work from home scams
- Fake giveaways
- Marriage and relationship Scams
- Travel Tour Scams
- Fake Charity Appeals
- Investment Scams
- Trading and crypto scams

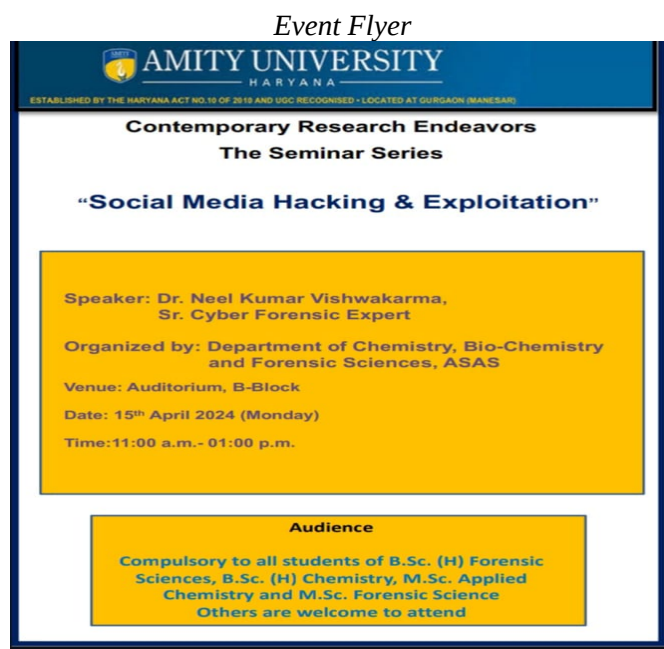

Future plan for utilizing the contacts developed with the Invited Guests: Dr. Seema Pathak and Dr. Priyanka Verma have discussed the future collaborations in workshops, FDPs, and conferences with the speaker.

2.1 Budget of the Event (Budget Sanctioned, Total Expenditure & Revenue Generated): Rs. 296/- (Hospitality)

2.2 Details of Awards if Any: NA

Directorate of Outcome

Outcome Report(Event/Activity Organized @ AUH)

1. General Information

Date: 22/04/2024
Event Type: Guest Lecture
Event Title: Semiconductor Chip Design, Manufacturing & Ecosystem
Event Theme: NA
Venue: AUH (Online)
Web/Video Link of the Event: <https://youtu.be/gpHPqiKRIS8>
Organized by: Department of Electronics and Communication Engineering, ASET, AUH
In collaboration with: TSMC, Taiwan
Event Level: National
Student Participation*: No. of students from AUH (Course wise):- 88
Faculty Participation*: No. of Faculty Members from AUH (Deptt. wise):- 11
Participation from outside AUH*: No. of Students & Faculty Members- 10
(Enclose attendance sheets in given format)
Event Coordinator(s) with designation: Dr. Neeraj Gupta; Associate Professor, ASET
Details of Expert/Speaker/Resource Person/Judge:

SN	Country Name	Expert Name	Organization Name	Designation	Specialization	Contact No.	E-mail Id	CV of Expert (Yes/ No)	Major Areas where Amity can Collaborate with expert	Recommended by
1	Taiwan	Ms. Apoorva Sood	TSMC, Taiwan	R&D Engineer	N2 Technology	9560029158	apoorvasood07@gmail.com	On request	Semiconductor devices, N2 technology	Dr. Neeraj Gupta

Criteria of Inviting Resource Person/Judge/Speaker/Judge (Write a paragraph):

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

Apoorva Sood is an R&D Engineer at TSMC, specializing in N2 technology. With 5 years of combined experience at TSMC Taiwan, Keysight Technologies, and Exicom Power System in India. Apoorva holds an MS in EE from NYCU, Taiwan, and a Bachelor's in ECE from Amity University Haryana. During her master's program, she showcased her academic progress through publications in high-impact journals and active participation in international conferences such as IDEM, VVC Australia, and IEEE VLSI TSA. Her outstanding contributions earned her recognition from the Taiwanese government with the prestigious PHI Tau Phi honorary award.

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible/Intangible	Achieved/Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. <u>Outcome related to Academia Connect</u>				

. Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	NIL	NIL	NIL	NIL
. Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	NIL	NIL	NIL	NIL
. Collaboration for Funded Projects	NIL	NIL	NIL	NIL

4. **Outcome related to Industry Connect**

. Placement	NIL	NIL	NIL	NIL
. Collaborations for Research Papers	NIL	NIL	NIL	NIL
. Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	NIL	NIL	NIL	NIL
. Collaboration for Funded Projects				

5. **Outcome related to Society Outreach**

. Benefit to society in terms of Health & Hygiene		NIL	NIL
. Benefit to society in terms of Education			

3. **Outcome related to Students Learning & Grooming**

Semiconductor chips are the backbone of 21st century. Chips are required for day-to-day operation. Automobile sector needs large number of chips. Recently three semiconductor plants have been inaugurated by Honourable Prime Minister Mr. Narender Modi. After attending the lecture audiences may have better understanding of semiconductor chip design, manufacturing processes, ecosystem and become aware of emerging technologies and trends in semiconductor chip design and manufacturing such as artificial intelligence, Internet of Things (IoT), and autonomous vehicles. It could inspire students, researchers, and industry professionals to pursue innovation and entrepreneurship in the field. The participants gaining valuable knowledge, insights, and networking opportunities that can contribute to their professional development and the advancement of the semiconductor industry.

4. **Any other**

5. **Event Report along with glimpses of the event(Photographs)**

1. **General Introduction of the Event:**

The event aimed to inspire and educate participants about the Semiconductor Chip Design, Manufacturing and Ecosystem.

Inspiration & Objectives of the Event:

The semiconductor industry faces the challenges and opportunities of increased product demand in the immediate future. The growth of artificial intelligence (AI) and the Internet of Things (IoT) and the ongoing demands from the smartphone sector and other high-tech industries will place stress on the semiconductor supply chain. New solutions are needed to face these demands.

The main objective of semiconductor chip design, manufacturing, and the ecosystem technological innovation, deliver high-performance and reliable semiconductor solutions, collaboration, and contribute to economic growth and societal advancement.

Such events further the aim of AUH which research and innovation driven university. The objective was to make participants gain valuable insights from expert about semiconductor chip design, manufacturing and ecosystem, and the event served as a platform for meaningful discussions and knowledge exchange.

2. Brief about the address/talk of speakers:

Ms Apoorva Sood explained the participants about the semiconductor chip design process and laid the foundation of importance of chips. In the later part of the session, he debunked all the myths about semiconductor devices. He covered the following topics:

1. Explained about the Moore's law in semiconductors
2. Discuss about the MOSFET and its basic operation
3. The challenges faced by engineers at scaled devices
4. Semiconductor chip design process and its ecosystem
5. Applications of semiconductors in various domain of engineering
6. Finally, focus on job opportunities and challenges faced by engineers in this demanding area.

1. **'Take Homes' for the Guest and Attendees;** The take home message from the lecture was introductory knowledge in the semiconductors and market trends in this domain. Innovation is not the sole domain of scientists, engineers, or entrepreneurs. It is a collective endeavour that involves each one of us. It thrives on diversity, on the collision of ideas and perspectives. Participants were encouraged to embrace their inner innovator, to ask questions, challenge the status quo, and seek out new ways of doing things.

2. **Future plan for utilizing the contacts developed with the Invited Guests:** To organize more such events.

3. **Budget of the Event(Budget Sanctioned, Total Expenditure & Revenue Generated):** NIL

4. **Details of Awards if Any:**

Awardee Details	Award / Position / Recognition Secured	Title of Innovation/ Start-up Secured the Award / Recognition	Award/Recognition/ Achievement Received for
-----------------	---	---	--

5. **Photographs with caption** (also share high resolution JPEG files of photographs)

GUEST LECTURE ON
SEMICONDUCTOR CHIP DESIGN, MANUFACTURING & ECOSYSTEM

Monday, 22nd April 2024 | 2:15 PM. – 3:15 PM. | Mode: Online | Amity University Haryana

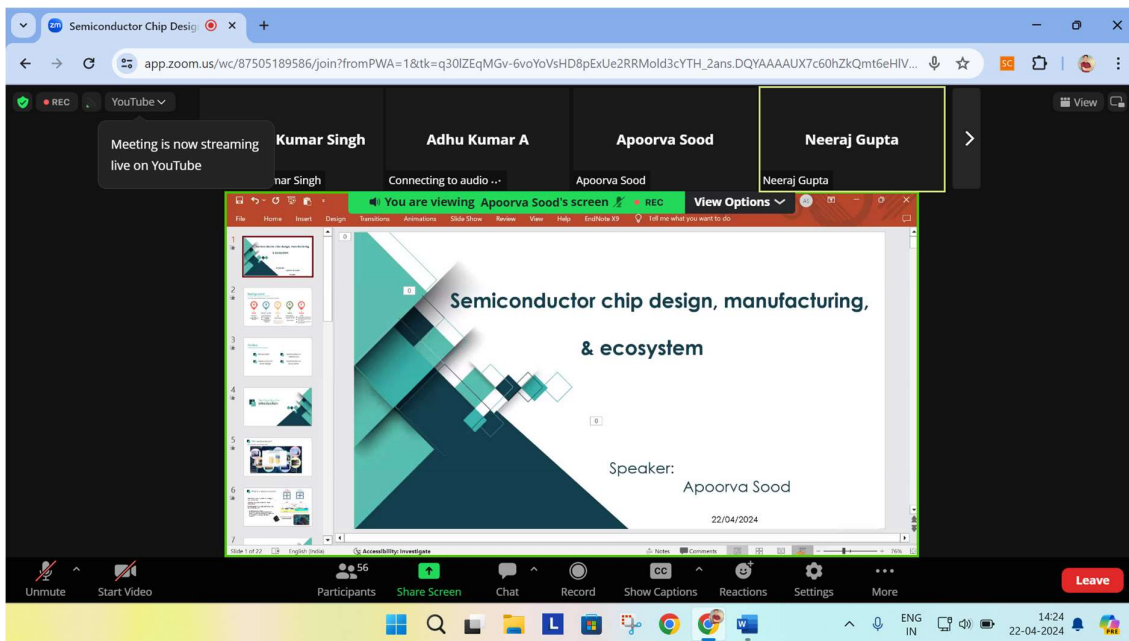

SPEAKER:
Ms Apoorva Sood,
R&D Engineer,
Taiwan Semiconductor Manufacturing Company,
Taiwan

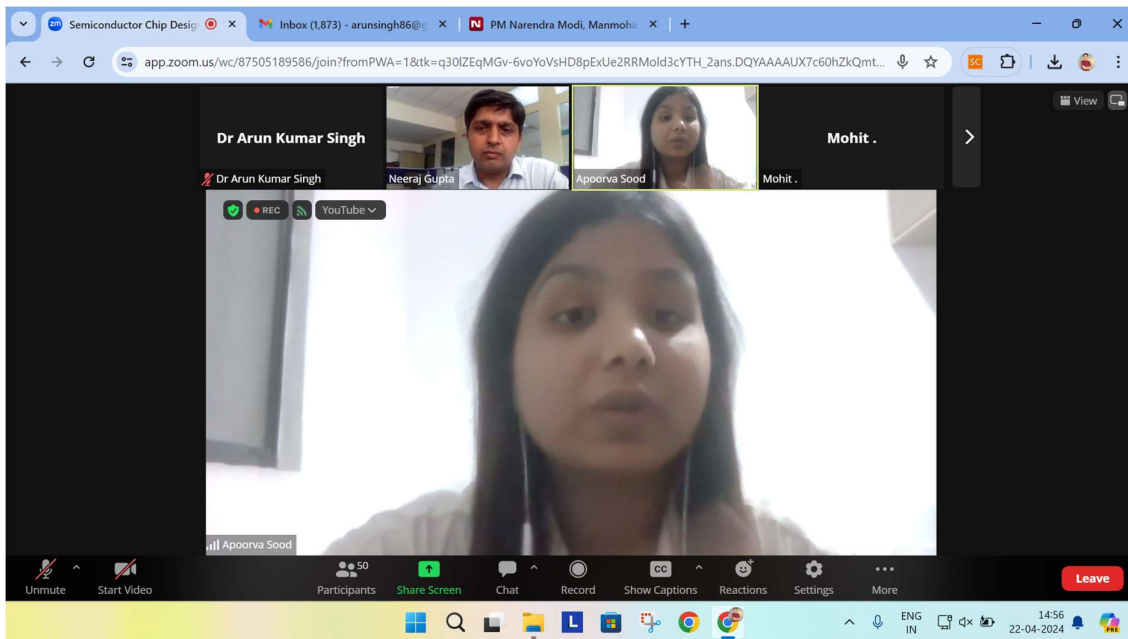

COORDINATOR:
Dr. Neeraj Gupta
98965 37008

Flyer of the Expert Lecture

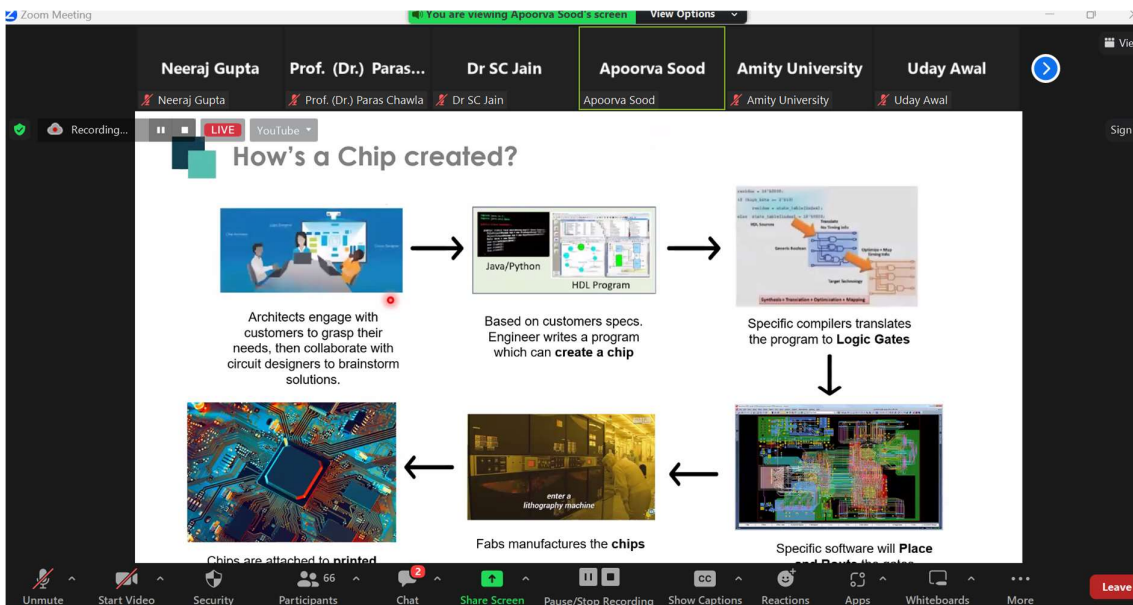

Introduction to Expert by Dr Neeraj Gupta

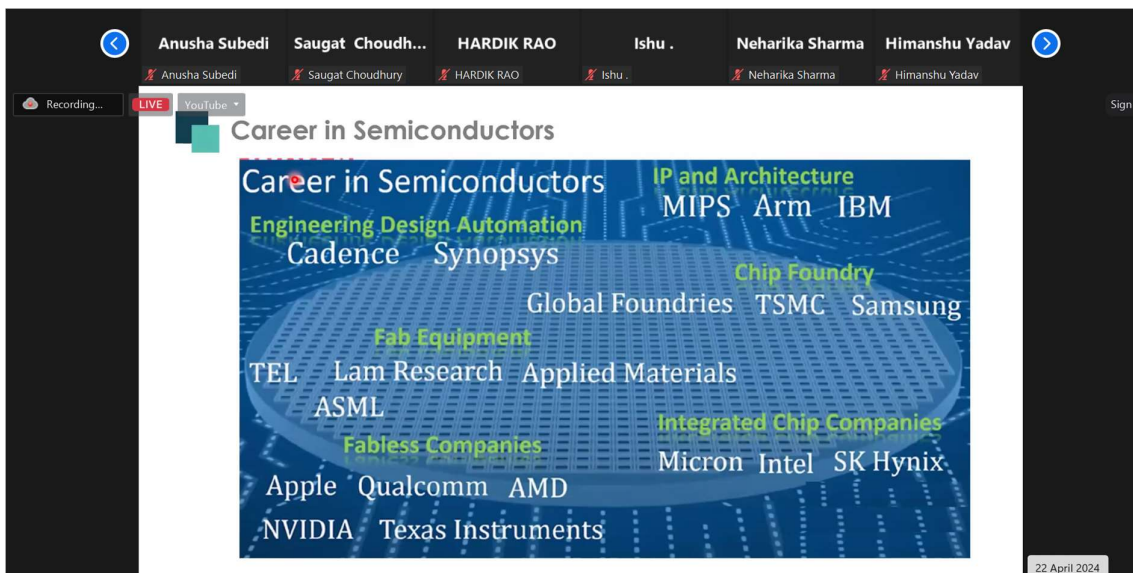

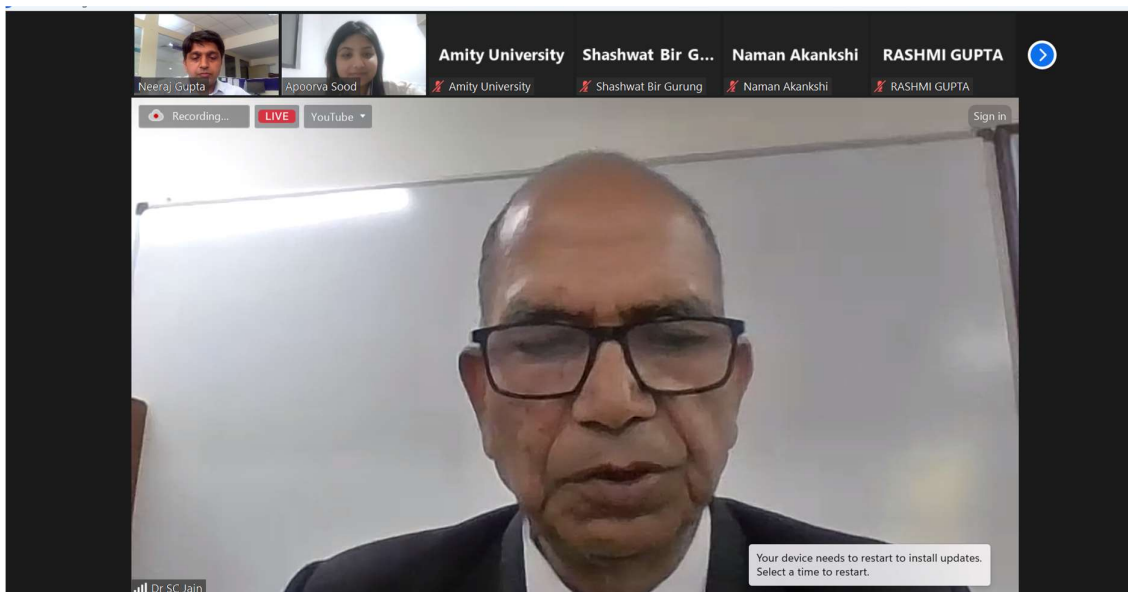

Semiconductor Chip Design, Manufacturing & Ecosystem Presented by Ms Apoorva Sood

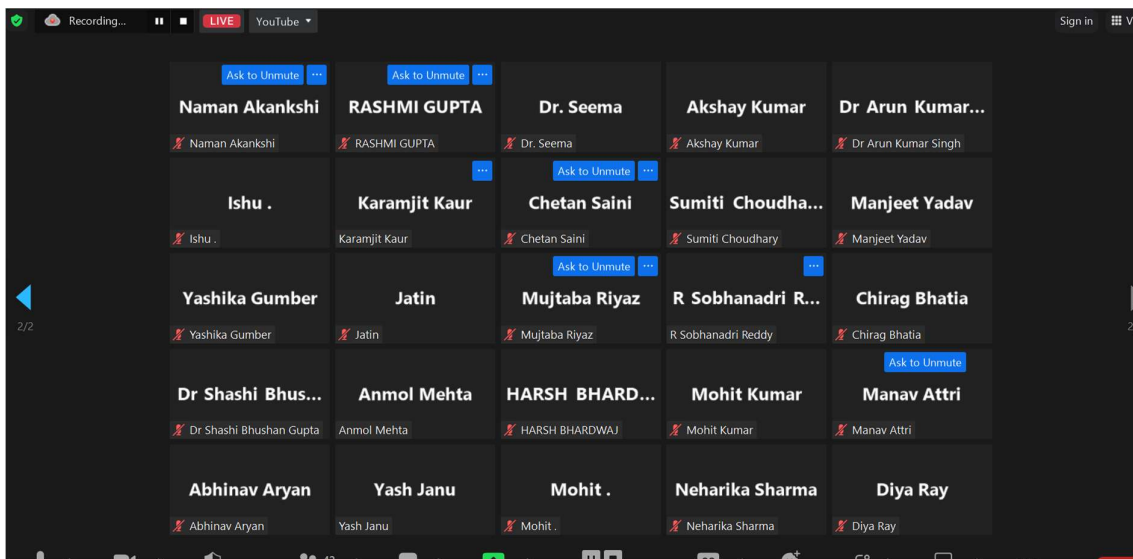

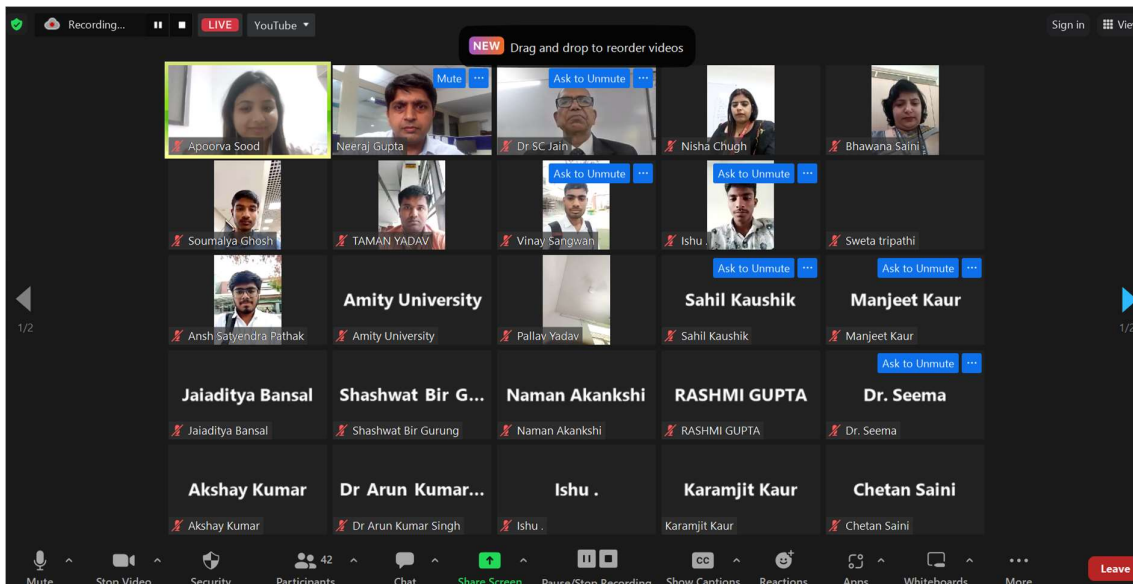

Typical Process of Chip Creation

Opportunities in Semiconductor research for job seekers

Vote of Thanks by Maj Gen Prof (Dr) SC Jain, Professor and HoD, ECE

Group photograph of the Event

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangibl e/ Intangi ble	Achieve d/ Propose d	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.	-	-	--	

b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.	-	-	-	-
c) Collaboration for Funded Projects	-	-	-	-
2.				
a) Placement	Students become aware of the process of management which may help students with the knowledge to get into a corporate job	The visit exposed the students to the function of a manufacturing firm especially its operations and management	Students can look for opportunities to understand various types of Business firms, especially their day-to-day managerial activities.	Industrial visit has their own importance in the career of a student who is pursuing a degree at AUH. It is a part of AUH curriculum and it is intended to provide students with an insight into the internal working of companies. It is understood that theoretical knowledge is not enough for making a good professional career. Therefore, with an aim to go beyond academics, industrial visit provides students with a practical perspective on the world of work. Industrial visit lets the student know things practically through interaction, working methods and employment practices. They also provide students with a good opportunity to gain full awareness about industrial practices. The ABS students specifically benefitted from the nature of employment, the structure of organizing an industry, demand pattern, production and productivity, marketing, competitors, product quality, firm expansion, industry emission/pollution levels and experience of the importance of working safely.
b) Collaborations for Research Papers	-	-	--	
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments	-	-	-	-
d) Collaboration for Funded Projects	-	-	-	--
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene	-	-	-	
b) Benefit to society in terms of Education				The premise of engaging a student with ind assumption where l

				industry organizations give and receive something of value. Community engagements are implicitly a part of the ABS program's mission and therefore, industrial visits are more responsive and in touch with societal issues and concerns.
--	--	--	--	---

4. Outcome related to Students Learning & Grooming

	Students become aware of the process of a manufacturing unit	The visit has familiarized and generated interest in the managerial practices of a company	Students can clear the placement process of manufacturing companies as they were given how a company functions in a real-life situation.	Today, businesses are looking for innovative solutions from academia to help meet their business needs of higher productivity and lower costs, yet increase efficiencies. Students can relate their theoretical knowledge to practical aspects of the studied courses, in terms of industrial unit operations, process and design concepts, and the impact of its activities on health, safety, environment and society, working conditions, incentives and career opportunities. From the ABS student's point of view, the visit was indeed an enriching and fruitful visit that made them observe the Indian Industry working environment and it was a very informative experience in the sense that it provided exposure to the working of the concept of a factory.
--	--	--	--	---

5. Any other

Several broader educational partnerships would emerge as a result of these visits. These include student internships, funded research projects, curriculum development, and student career opportunities. Moreover, students will gain the subject learning outcome.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event

Industrial visit as part of Orientation Programme of second-semester students of ABS during the Academic Year 2023-2025

3.2 Objectives of the Event

To appraise and mould Management students of ABS, to have insight into the actual working of corporate ecosystem/ expert mindset, and how best to mould themselves with intellectual, behavioural, personality and execution skill-set to become efficient Managers.

The main aim of the industrial visit was to understand and study the vision and mission of the Industry, its operations and activities. Health and safety measures are taken, organization and factory layout. Further, the students through the industrial visit would get an insight into the internal working of companies which they cannot experience by sitting in the classrooms. In addition to this, it is expected that the *Interaction between universities and Industry* would facilitate better education and research as practiced elsewhere in advanced countries.

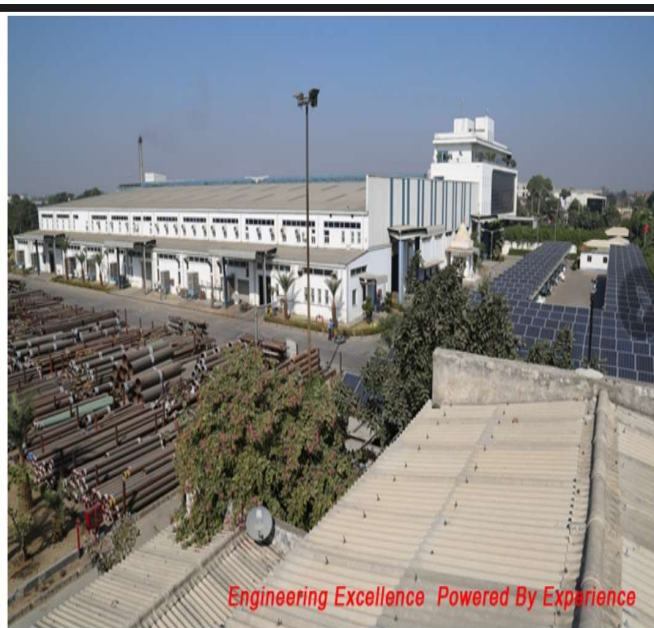

3.3 Brief Summary of the Event.

On 25 April 2024, 22 students (11 girls and 11 Boys) and 1 Faculty from ABS visited BOTIL Oil Tools India Pvt Limited in Borakalan. The group started from the campus 10.15 AM, reached at 11 am at BOTIL India Ltd. The group was received at BOTIL India by **Mr. Pradeep Arora**, Deputy Director, HR, and taken to the conference room. **Mr Jitendra kumar**, HR manager explained the profile of the company and its operations. Further, the students were taken to the manufacturing area of the company including a visit to the sewage treatment plant, and other facilities in the company. **Mr Pradeep Arora** has explained each and every detail of the working of the company and cleared all doubts that students raised during the Factory visit. After the conclusion of the Factory visit **Dr L Kanunga** the Corporate Manager and member of the Board of Directors of the Company addressed the students and explained the clarifications raised by students on the operational issues of the company. All the students were provided with light refreshments and the visit ended by 2 PM. The Team reached back at the AUH Campus at 2.45 PM. It was a very fruitful industrial visit and all the students gave a very high opinion; a few of the feedbacks are appended to this report.

- **Profile of the Company:** In 1989 the company was established, Botil Oil Tools India Pvt. Ltd. is located in Borakalan, Gurgaon. This Oil field equipment supplier has a very good rating as informed by the HR manger. Botil Oil Tools India Pvt. Ltd. has a website <http://www.botilindia.com/>.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event - Amity School of Hospitality (ASH) organized “Pickle Workshop” under “AUH 24x7 Initiative” on 25/04/2024 at Food Production Lab, ASH. The faculty coordinators were Dr. Kunal Seth – Professor and Dr. Vinod Kumar Chauhan – Assistant Professor. The objective to conduct this event was to make ASH students learn about how to make different types of pickle such as mango pickle, spicy onion pickle, green chilli pickle, lemon pickle, assorted pickle etc. A total of 29 BHM & BTM Students of ASH participated in this event.

Here are the recipes for each of the above-mentioned pickle:

1. Mango Pickle (Aam ka Achar):

Ingredients:

- 2 large raw mangoes, peeled and cubed
- 1/4 cup mustard oil
- 2 tablespoons mustard seeds
- 1 tablespoon fenugreek seeds
- 1 tablespoon fennel seeds
- 1 teaspoon turmeric powder
- 2 tablespoons red chili powder
- Salt to taste

Instructions:

- Heat mustard oil in a pan until it smokes. Let it cool down.
- In a separate pan, dry roast mustard seeds, fenugreek seeds, and fennel seeds until fragrant. Grind to a coarse powder.
- In a large bowl, mix mango cubes with salt, turmeric powder, red chili powder, and the ground spice mixture.
- Add the cooled mustard oil to the mango mixture and mix well.
- Transfer the pickle to a clean, dry jar and let it sit for a couple of days before consuming.

2. Spicy Onion Pickle:

Ingredients:

- 2 large onions, thinly sliced
- 1/4 cup mustard oil
- 2 tablespoons mustard seeds
- 1 tablespoon fenugreek seeds
- 2 tablespoons red chili powder
- 1 teaspoon turmeric powder
- Salt to taste

Instructions:

- Heat mustard oil in a pan until it smokes. Let it cool down.
- Dry roast mustard seeds and fenugreek seeds until fragrant. Grind to a coarse powder.
- In a bowl, mix onion slices with salt, turmeric powder, red chili powder, and the ground spice mixture.

- Add the cooled mustard oil to the onion mixture and mix well.
- Transfer the pickle to a clean, dry jar and let it sit for a day before consuming.

3. Green Chilli Pickle:

Ingredients:

- 200g green chilies, slit lengthwise
- 1/4 cup mustard oil
- 2 tablespoons mustard seeds
- 1 tablespoon fenugreek seeds
- 2 tablespoons red chili powder
- 1 teaspoon turmeric powder
- Salt to taste

Instructions:

- Heat mustard oil in a pan until it smokes. Let it cool down.
- Dry roast mustard seeds and fenugreek seeds until fragrant. Grind to a coarse powder.
- In a bowl, mix green chilies with salt, turmeric powder, red chili powder, and the ground spice mixture.
- Add the cooled mustard oil to the green chili mixture and mix well.
- Transfer the pickle to a clean, dry jar and let it sit for a day before consuming.

4. Lemon Pickle (Nimbu ka Achar):

Ingredients:

- 10-12 lemons, quartered
- 1/4 cup mustard oil
- 2 tablespoons mustard seeds
- 1 tablespoon fenugreek seeds
- 2 tablespoons red chili powder
- 1 teaspoon turmeric powder
- Salt to taste

Instructions:

- Heat mustard oil in a pan until it smokes. Let it cool down.
- Dry roast mustard seeds and fenugreek seeds until fragrant. Grind to a coarse powder.
- In a bowl, mix lemon quarters with salt, turmeric powder, red chili powder, and the ground spice mixture.
- Add the cooled mustard oil to the lemon mixture and mix well.
- Transfer the pickle to a clean, dry jar and let it sit for a couple of days before consuming.

5. Assorted Pickle:

Ingredients:

- Assorted vegetables (carrots, cauliflower, green chilies, mangoes, etc.), chopped or sliced
- 1/4 cup mustard oil
- 2 tablespoons mustard seeds
- 1 tablespoon fenugreek seeds
- 2 tablespoons red chili powder
- 1 teaspoon turmeric powder
- Salt to taste

Instructions:

- Heat mustard oil in a pan until it smokes. Let it cool down.
- Dry roast mustard seeds and fenugreek seeds until fragrant. Grind to a coarse powder

- In a bowl, mix assorted vegetables with salt, turmeric powder, red chili powder, and the ground spice mixture.
- Add the cooled mustard oil to the vegetable mixture and mix well.
- Transfer the pickle to a clean, dry jar and let it sit for a few days before consuming.

3.2 Inspiration & Objectives of the Event – The inspiration & objective of the event was to organize “Pickle Workshop” under “AUH 24x7 Initiative” to educate students about how to make different types of pickle such as mango pickle, spicy onion pickle, green chilli pickle, lemon pickle, assorted pickle etc.

3.3 Brief about the address/talk of speakers – N/A

3.4 ‘Take Homes’ for the Guest and Attendees – The ‘Take Homes’ for the Attendees was that they learnt about how to make different types of pickle such as mango pickle, spicy onion pickle, green chilli pickle, lemon pickle, assorted pickle etc.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event

The event organized by the Department of Medical Laboratory Technology (MLT) at Amity Medical School was a pivotal initiative aimed at bridging the gap between academia and industry for undergraduate and postgraduate students. Commencing at 10:30 AM, students embarked on an enriching visit to the Molq Lab in Gurugram, where they had the opportunity to explore various departments including Haematology, Biochemistry, Histopathology, and Microbiology (covering Mycology, Bacteriology, and Serology).

During this engaging visit, students interacted with experts who provided comprehensive demonstrations on the introduction, working principles, procedures, applications, as well as the advantages and disadvantages of cutting-edge instruments used in these domains. The event was met with great enthusiasm from the students, who found the experience immensely satisfying and enlightening.

3.2 Inspiration & Objectives of the Event

- To provide benefits to the students that may help them in term of career establishment.
- To learn the advance technology in the field of laboratory medicine
- To minimize the gap between industry and institute
- To provide knowledge of different department of MLT

3.3 Brief about the address/talk of speakers

On 26/04/2024: From 10.30 am to 03.00 pm

- Introduction of Molq Lab Gurugram
- Meeting with Head of Departments & other experts
- Visit to different departments of Lab
- Brief of Lab facility available
- Different diagnostic tests and their clinical applications
- Students visit to: Hematology, Microbiology, Histopathology, Immunology and serology, Biochemistry of the laboratory.

3.4 'Take Homes' for the Guest and Attendees

They get an overall idea of their career and future possibility. Diagnostic test and their clinical significance were updated to the students

2. Event Report along with glimpses of the event (Photographs)

General Introduction of the Event :

On May 3, 2024, the Amity Law School Legal Aid Clinic, in collaboration with Amity University Haryana Institutions Innovation Council, hosted a workshop titled “Navigating Start-Up Journey: Legal and Ethical Planning.” The workshop provided attendees with insightful guidance on legal and ethical aspects crucial for navigating the start-up journey, fostering a deeper understanding of the challenges and opportunities in the entrepreneurial landscape.

2.1 Inspiration & Objectives of the Event:

- Educate participants on the essential steps involved in planning for a start-up.
- Provided insights into the legal and ethical aspects of starting a business.
- Participants will have the opportunity to work on case studies and scenarios to apply their learning in real world contexts.
- Empower attendees to make informed decisions and navigate potential challenges.

2.2 Brief about the address/talk of speakers :

Session 1: The workshop commenced with Ms. Nidhi Sharma, Associate Law Professor, ALS, AUH, providing a comprehensive outline of Startup Governance. Quoting Dhirubhai Ambani, she emphasized the importance of pursuing one's dreams and discussed Prime Minister Narendra Modi's Start-Up India Project. Ms. Sharma delved into various business structures available to start-up aspirants, elucidating their differences, advantages, and disadvantages.

Session 2: CA. Sandeep Kumar discussed the essential documents, procedures, and accounting practices vital for start-ups' efficiency and sustainability.

Session 3: Mr. Kartik Jain, Partner and Legal Advisor, JSA Associates shed light on fund-raising issues, ethical practices, and the process of start-up planning, addressing audience queries comprehensively.

4. Outcome related to Students Learning & Grooming				
Strengthened interpersonal relationships and teamwork skills through shared experiences and discussions during this event. Increased confidence and self-efficacy as students gain exposure to a professional work environment and interact with industry professionals.				
5. Any other				
This kind Community engagement activity gives more information and perspectives, which can help students develop their concepts for artworks.				

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event: Amity School of Fine Arts organized “**Bag with little hands** - An initiative for skill enhancement” (a community engagement activity), at BLG 09B, B-Block basement, AUH on 3rd May 2024. The event was conducted by students of ASFA, AUH under the guidance of the faculty coordinator, Dr. Animesh Mahata, and Mr. Vinod Chachere. The team consisted of 20 student volunteers who conducted various activities to engage with the kids. Student volunteers demonstrated slum children how to make bag in paper. After that they made design and coloured on bags. All children and students enjoyed this event very well.

3.2 Inspiration & Objectives of the Event: Main objectives of this community engagement activity was to build relationship, develop communication and interaction with the slum children and make them aware of the endless opportunities that the world has for them. By engaging with the community, students can become more aware of social- economic factors of society and collect feedback for their artworks.

3.1 General Introduction of the Event

Expert Talk on Importance of IPR in Research & Startups

3.2 Inspiration & Objectives of the Event

The inspiration & objective behind an expert talk on the importance of Intellectual Property Rights (IPR) in research and startups is to educate and empower individuals about the significance of protecting their innovations, ideas, and creations.

3.3 Brief about the event

The event was an expert talk focusing on the importance of Intellectual Property Rights (IPR) in research and startups. The aim was to educate participants about the significance of protecting their innovations, ideas, and creations through intellectual property laws and regulations. The event covered topics such as types of intellectual property, legal frameworks, strategies for protection, and the role of IPR in fostering innovation and competitiveness. Mrs. Pooja Kumar with expertise in intellectual property law and entrepreneurship shared insights, practical advice, and case studies to help attendees understand the importance of IPR in driving success in research and startup ventures.

3.4 'Take Homes' for the Guest and Attendees

- To inform researchers and startups about the various forms of intellectual property and the importance of safeguarding their intellectual assets.
- To offer practical advice on how to navigate the complex landscape of intellectual property law and regulations.
- To encourage innovation by highlighting the benefits of protecting intellectual property, such as attracting investment and fostering collaboration.
- To emphasize how protecting intellectual property can enhance the competitiveness of startups and research institutions in the global marketplace.
- To help participants understand their rights and responsibilities concerning intellectual property laws and regulations.

Overall, the aim is to empower individuals to leverage intellectual property rights effectively to drive innovation, protect their creations, and ultimately succeed in their endeavours.

3.5 Future plan for utilizing the contacts developed with the Invited Guests:

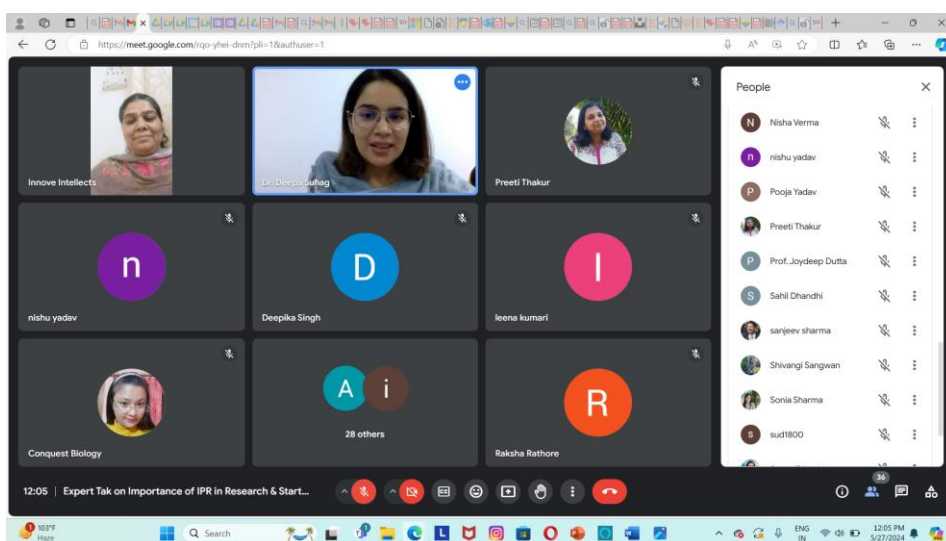

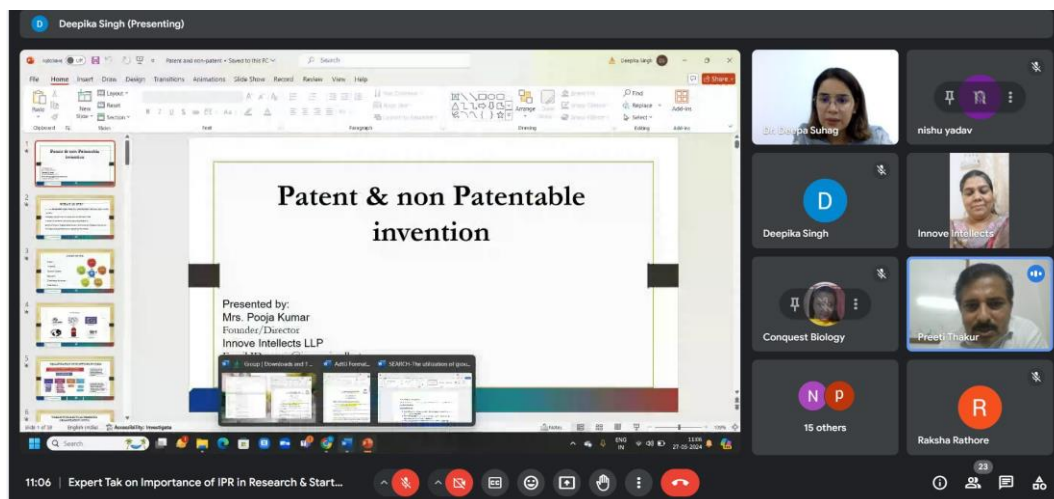

Patent filing for research and Startups.

Deepika Singh (Presenting)

BENEFITS OF OWNING A PATENT

- Ownership:**
A patent will grant you holding rights to the innovation for a given period of time. For example, a patent granted to you for 20 years for your product would mean you have full ownership of the product for the time period from the date of your patent application. This means you can block others from making, using or selling your product without your permission.
- Business:**
If you're a budding entrepreneur with a patented product, it'll be easier for you to raise capital from investors.
- Beat the competition:**
A patent for your technology will keep you a step ahead of your competitors. If your technology is patented, others in the market are barred from using your technology either directly or indirectly to develop another product. You can use this benefit of patent to deter your competitors.

3. Event Report along with glimpses of the event(Photographs)

3.1 General Introduction of the Event:

The Sensitization Seminar on Good Laboratory Practices (GLP) is designed to enhance the knowledge and skills of students and researchers in maintaining high standards of laboratory operations. GLP encompasses a set of principles intended to ensure the quality, integrity, and reliability of non-clinical safety studies. This seminar aims to familiarize participants with these crucial guidelines, promoting a culture of precision, accuracy, and accountability in scientific research.

Participants will gain insights into the regulatory framework governing GLP, its application in various research settings, and the importance of adhering to these practices to produce reproducible and credible results. Through interactive sessions, case studies, and expert-led discussions, attendees will be equipped with the foundational understanding necessary to implement GLP in their own research endeavors, ultimately contributing to the advancement of science and technology.

3.2 Inspiration & Objectives of the Event: The inspiration behind the event “SENSITIZATION SEMINAR ON GLP FOR STUDENTS & RESEARCHERS” is to Promote Compliance with Regulatory Standards, Improve Laboratory Skills and Practices, Encourage Reproducibility and Credibility, Prepare for Professional Growth, Facilitate Knowledge Exchange and Networking.

3.3 Brief about the address/talk of speakers:

Dr. Ekta Kapoor described about the Good Laboratory Practices (GLP) are a set of standardized procedures and principles aimed at ensuring the quality, integrity, and reliability of non-clinical laboratory studies. GLP was established to combat the rising concerns over data reliability and laboratory fraud. These practices encompass all aspects of the research process, including study planning, execution, data recording, and reporting, thereby ensuring that the results are credible and reproducible.

Dr. Sudhir Chandra Sarangi described the Standard Operating Procedures (SOPs) are detailed, written instructions designed to achieve uniformity in the performance of specific functions. Within the framework of Good Laboratory Practices (GLP), SOPs serve as essential tools to ensure that all laboratory activities are conducted consistently and correctly. They cover a wide range of laboratory processes, including equipment calibration, sample collection, data analysis, and safety protocols. By standardizing these procedures, SOPs minimize variability, reduce the risk of errors, and enhance the reliability and reproducibility of experimental results.

Prof. Seema R. Pathak discussed the test Facility Management is responsible for overseeing the overall operations of a laboratory or research facility to ensure compliance with Good Laboratory Practices (GLP).

Dr. G. K. Rao delivered the lecture on the (OECD) Principles of Good Laboratory Practice (GLP) which represent a comprehensive framework designed to ensure the quality, integrity, and reliability of non-clinical safety studies. In response to growing concerns over the validity and reproducibility of scientific data, these principles provide standardized guidelines for the planning, conduct, monitoring, recording, reporting, and archiving of laboratory studies.

Dr. Bhuvnesh Yadav discussed the Quality Assurance (QA) Unit within a Good Laboratory Practices (GLP) framework plays a pivotal role in ensuring the integrity, reliability, and compliance of laboratory studies. Its primary responsibility is to establish and maintain a robust quality assurance program that encompasses all aspects of the laboratory's operations. This includes developing and implementing Standard Operating Procedures (SOPs) for quality control, conducting regular audits and inspections to assess compliance with GLP principles, and identifying areas for improvement. The QA Unit is also responsible for training personnel on GLP requirements, documenting and investigating deviations or non-conformities, and ensuring corrective and preventive actions are implemented. By upholding the highest standards of quality and regulatory compliance, the QA Unit contributes significantly to the credibility and trustworthiness of scientific data generated within the laboratory.

At the end VC sir, director sir and all the invited guests visited the poster gallery w the research work conducted by masters students of CBFS.

The guests are well versed with the nuances of drug discovery and development by virtue of their technical expertise and experience. They were invited in order to sensitize students about the contemporary trends that is going on in drug discovery and development. The purpose of the session was to give a holistic picture of the innovation in the field and also to motivate students to inculcate the entrepreneurship skills.

Were the guest known in advance and if yes, from what previous interaction (Write a paragraph)?

2. Outcome of the Event with Time Lines (Proposed/Achieved)

Envisaged Outcome	Tangible / Intangible	Achieved / Proposed	Target date & responsibilities (if proposed)	Details of outcome
1. Outcome related to Academia Connect				
a) Collaborations for Research Papers/Conference Papers/ Book Chapter etc.				
b) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments etc.				Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)]
c) Collaboration for Funded Projects				
2. Outcome related to Industry Connect				
a) Placement				
b) Collaborations for Research Papers				
c) Collaborations & MOU for Research Guidance [PhD, PG & UG (summer training, Dissertation)] & Projects/Use of Instruments				
d) Collaboration for Funded Projects				
3. Outcome related to Society Outreach				
a) Benefit to society in terms of Health & Hygiene				
b) Benefit to society in terms of Education				
4. Outcome related to Students Learning & Grooming				
				To make students aware about the feasibility of fostering the philosophy of entrepreneurship specially in the domain of drug discovery and development

5. Any other

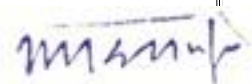

In order to foster the ecosystem of entrepreneurship and innovation it is highly desirable to follow the guidelines/mandates of institutional innovation council (IIC). Therefore, in this pursuit AIP has organized a session on Lean Start-up & Minimum Viable Product/Business. It was ensured to give the stakeholders of AIP a fair idea about the contemporary trends in the pharmaceutical sciences and what are the business ideas that they could pitch in.

3. Event Report along with glimpses of the event (Photographs)

3.1 General Introduction of the Event :

Under the aegis of Institution Innovation Council (IIC), AUH AIP has organized a Mentoring Session on the theme **“Lean Start-up & Minimum Viable Product/Business”**. The topic of the session was Mentoring Session on **“MolSoft PMS software mediated Drug Discovery”**. The session encompasses various operations that could be carried out during in-silico drug discovery such as:

- ICM Pocket Finder
- ICM 3D Interactive Editor
- 2D ligand-receptor interaction diagrams
- Small Molecule Docking
- Protein-Protein Docking
- Induced Fit Docking
