International Yoga Day 2022

Yoga is the journey of the self, through the self, to the self.” – The Bhagavad Gita. Yoga is not a religion; it is a way of living that aims towards a healthy mind in a healthy body. Yoga helps promote a balanced development of physical, mental and spiritual being of a person. It brings together physical and mental disciplines to achieve a peaceful body and mind. Practice of Yoga also helps in increasing flexibility and improving respiration, energy and vitality. In a speech given at UN General Assembly on September 2014 our Honorable

Prime Minister Mr. Narendra Modi said, “Yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. By changing our lifestyle and creating consciousness, it can help in well being.”

Amity University Madhya Pradesh completely believes that a healthy mind only resides in a healthy body. The students at our university are always made to understand the importance of yoga. It means addition – addition of energy, strength and beauty to body, mind and soul. The theme of this year’s Yoga Day celebrations is ‘Yoga for Humanity’.

The faculty and students are sensitized regarding the positive effect of yoga in the mind and soul. Yoga in daily life is a system of practice consisting of eight levels of development in the areas of physical, mental, social and spiritual health. When the body is physically healthy, the mind is clear, focused and stress is under control.

Event of Practicing Yoga, 21st June 2022:

Life is hectic today full of stress and worries. Practicing yoga will give you a peaceful mind and a healthy body. It will improve your body resistance towards ailments and help you concentrate more on work and studies.
