# AMITY UNIVERSITY

MADHYA PRADESH

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES**

**Master of Business Administration**

**2017-18**

### **Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

| Course : <b>ECONOMIC ANALYSIS</b>                                                       |
| Course Code : MBA 103, Crédits : 03, Session :2017-18 (Odd Sem.), Class : MBA. 1st Year |

**S. Introduction:** The objective of this course is to impart the knowledge of micro economics as a subject and its importance while business. The business decisions are made scientifically on the basis of all available information. So understanding and interpreting basic economic concepts/variables for e.g. demand and supply functions, forecasting demand, productions, costs will make them aware of various operations carried in business.

**T. Course Outcomes:** At the end of the course, students will be able to:

**MBA103.1** To understand the concepts of cost, nature of Economic Analysis and its relationship to Business operations.

**MBA103.2.** To apply marginal Theory of Demand and Supply under different market conditions.

**MBA103.3** To analyse Theory of Production and Cost of different market conditions.

**MBA103.4** To integrate the concept of price and output decisions of firms under various market structure.

**U. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

#### **V. Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                                                                            | <b>Code</b> | <b>Weightage %</b> |

| End Semester Examination | End Semester Examination | EE | 70%         |
| <b>Total</b>             |                          |    | <b>100%</b> |

## W. Syllabus

### Module I: Theory of Demand and Supply

Nature and scope of economic analysis: its relevance for managerial decision making, Demand analysis: nature of demand for a product- individual demand and market demand, demand by market segmentation. Demand function and determinants of demand.

Demand Analysis- II Marshallian, Hicksian and Revealed Preferences approaches.

Concept of elasticity of demand- income, cross, price and advertizing elasticity. Theorems on the price elasticity of demand. Applications of the concept of price elasticity of demand in business decisions.

### Module II: Theory of Production and Cost

Production analysis: Production function-neo-classical, Cobb- Douglas, Leontief. Least cost combination of inputs for a firm. Concept of an isoquant-smooth curvature and right angle. Returns to scale and returns to a factor. Expansion path of a firm. Cost Analysis: Cost relevant for management decision making. Economies of scale: Cost Function: Cost and output relationship. An Analysis of the Objectives of a Business Firm: Profit Maximization Model, Baumoul's Sales Maximization Model, Marris's Model of 'Managerial Enterprise' Williamson's Model Of 'Managerial Discretion.

### Module III: Market Structure: Price and Output Decisions

Pricing and Output decisions – Perfectly Competitive and Monopoly Market Pricing and Output Decisions- Under Monopolistically Competitive Market- Product Differentiation; Price Discriminating Monopolist; Models of Oligopolistic Market: Price Rigidity – The Kinky Demand Curve Model Interdependence - The Cournot Model, Price Leadership Models, Cartels and Collusion. Game theory and its applications

## X. Examination Scheme:

| Components           | Mid Term Exam | Attendance | Project/Assignment/Quiz/<br>Presentation | ESE |
|----------------------|---------------|------------|------------------------------------------|-----|
| <b>Weightage (%)</b> | 15            | 5          | 10                                       | 70  |

**Y. Suggested Text/Reference Books:**

- Gupta, G.S. (2006), Managerial Economics, Tata McGraw Hill
- Peterson, H.C and Lewis, W.C. (2005), Managerial Economics, Prentice Hall of India
- R Ferguson, R., Ferguson, G.J and Rothschild, R. (1993) Business Economics, Macmillan India.
- Chandra, P. (2006), Project: Preparation, Appraisal, Implementation and Review, Tata McGraw Hill.

| Course Handout                                                                          |
| Course : <b>MARKETING MANAGEMENT</b>                                                    |
| Course Code : MBA 104, Crédits : 03, Session :2017-18 (Odd Sem.), Class : MBA. 1st Year |

**BB. Introduction:** Marketing management course enables a student to understand the fundamentals of marketing concept and the role marketing plays in business. Students should be able to demonstrate their comprehension of marketing concepts and knowledge by applying those in their written exams, case studies discussions, presentations, and projects. The course methodology encourages students to explore for themselves the role of a marketing manager and the boundaries of marketing.

**CC. Course Outcomes:** At the end of the course, students will be able to:

**MBA104.1.** The course will sensitize participants with the knowledge of the business environment and domain knowledge of the impact of the environment on the decisions and activities of a marketer.

**MBA104.2.** It will also develop critical thinking, business analytical, problem solving and innovative solution development abilities in the participant.

**MBA104.3.** Through the course participants will also become sensitive to the social responsiveness and ethical issues that a marketer needs to adhere to. Effective communication is an area that a marketing student must be well versed with, and this would be coupled with development of leadership skills and the ability to work in teams.

**MBA104.4.** With this the broader learning outcome of this course will be to provide the students exposure to modern marketing concepts, tools, and techniques, and help them develop abilities and skills required for the performance of marketing functions.

**DD. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective

leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyses the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

#### EE. Assessment Plan:

| Component of Evaluation        | Description                          | Code | Weightage % |
|--------------------------------|--------------------------------------|------|-------------|
| Continuous Internal Evaluation | Mid Term Exam                        | CT   | 15%         |

| Course Code : MBA 204, Crédits : 03, Session : 2017-18 (Odd Sem.), Class : MBA. 1st Year |

**AAA. Introduction:** The course aims to provide a thorough understanding of the essential characteristics and the basic tenets of research methodology and report preparation. For this we begin by explicating the role of business environment and develop the domain knowledge of the course through critical thinking, business analysis, problem solving and honing skills for finding innovative solutions. The course will focus on quantitative and descriptive research methods and techniques that are essential for the validity and reliability of the research process. The course will identify and review the components essential for preparation of research proposals, research reports, business proposals and feasibility studies in order to develop report writing and formal presentation skills of the research projects undertaken. For the same, the course will also focus on enhancement of effective communication skills. A researcher also has to be sensitive towards their social responsiveness and the expected ethical standards of research. Through various class activities, the course will also aim at developing the abilities of working in teams and leading a team.

**BBB. Course Outcomes:** At the end of the course, students will be able to:

**MBA 204.1.** To develop the understanding of research concept and research methodology to design the research framework.

**MBA 204.2.** To develop necessary skill set for choosing the sample and collecting the data for research.

**MBA 204.3.** To integrate the knowledge of statistical test and designing the research experiment.

**MBA 204.4.** Demonstrate the art of writing the research report.

**CCC. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**DDD. Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b> | <b>Code</b> | <b>Weightage %</b> |
|--------------------------------|--------------------|-------------|--------------------|
| Continuous Internal            | Mid Term 1         | CT          | 15%                |

|                          |                                                                                                                                                                                                               |          |             |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|

|                          | Project/Assignment/<br>Quiz/Presentation                                                                                                                                                                      | P/A/Q/PR | 10%         |
| Attendance               | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>             |                                                                                                                                                                                                               |          | <b>100%</b> |

### **EEE. Syllabus**

**Module I: Research Methodology and Research Methods:** Background to research: Developing a research proposal-Research paradigms-Contribution of research to theory and practice. Presentation and defence of proposal. Objective/purpose, evaluation, significance and types of research, Research Methods vis-à-vis Methodology.

**Module II: Research Problem and Research Design:** Literature review: Identifying, accessing and managing sources of information and scholarly literature. Academic writing and referencing. Steps in literature review development. Argumentation. Qualitative Methods: Nature and type of qualitative research. Quantitative research.

**Module III: Sampling Design and Scaling Techniques:** Census and sample survey, Criteria for selecting a sampling procedure, Measurement and Scaling techniques.

**Module IV: Data Collection and Field Force:** Data collection methods: Primary and secondary sources. Data entry and screening. Coding of questionnaires.

**Module V: Statistical Inference- Test of Significance:** Types of data analysis methods. Nature of Quantitative research: Descriptive and Inferential statistics. Quantitative methods: Data and variables.

**Module VI: Design and Analysis of Experiments:** Associations: Correlation coefficient, bivariate regression. Multivariate Techniques- Reliability, validity and rigour.

**Module VII: Report Writing:** Content and Format of the Marketing Research Report quantitative and qualitative, Practical considerations: Timelines, budgets, supervision and management. Common Problems Encountered when Preparing the Marketing Research Report. Writing up qualitative research.

**FFF. Examination Scheme:**

| Components    | Midterm Exam | Project/Assignment/Quiz/Presentation | Attendance | ESE |
|---------------|--------------|--------------------------------------|------------|-----|
| Weightage (%) | 15           | 10                                   | 5          | 70  |

**JJJ. Introduction:** The aim of this course is to develop understanding of the strategic and functional issues in the operational environment of any organization, of the various decisions involving the operational activities, and of the methods which enable taking the best possible alternative decision.

**KKK. Course Outcomes:** At the end of the course, students will be able to:

**MBA205.1** Identify the elements of operations management and various transformation processes to enhance productivity and competitiveness.

**MBA205.2.** Analyse and evaluate various strategic decisions, develop a balanced line of production & scheduling and sequencing techniques in operation environments

**MBA205.3** To analyse operations decisions of different types in different conditions.

**MBA205.4** To integrate the concept of controlling under various conditions.

**LLL. Programme Outcomes:**

**[PO.1].Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2].Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4].Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**MMM. Assessment Plan:**

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                                                    | CT       | 15%         |
|                                | Mid Term 2                                                                                                                                                                                                    |          |             |
|                                | Project/Assignment/ Quiz/Presentation                                                                                                                                                                         | P/A/Q/PR | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

## **NNN. Syllabus**

**Module I: Introduction:** Introduction of Operations Function and Operations Management; Input/output transformation; Operations as Competitive Advantage, Trade-offs and combinations

**Module II: Strategic Decisions:** Planning and Designing the Products/Services; Process Design and Planning; Designing the Facility Location and Layout; Selection and Management of Product Technology; Long-term and Short-term Capacity Planning.

**Module III: Operating Decisions:** Forecasting and its types, Inventory Management: Deterministic demand model–EOQ- Continuous and Periodic review Supply chain management; Operations Scheduling and Sequencing, Aggregate Planning and Master Production Scheduling and MRP Probabilistic Inventory Control Models, Materials Requirement Planning.

**Module IV: Controlling and Improvement Decision:** Productivity, Efficiency and Effectiveness; Measuring and Improving the Operations Processes; Green operations management.

## **OOO. Examination Scheme:**

| <b>Components</b>    | <b>Mid Term Exam</b> | <b>Attendance</b> | <b>Project/Assignment/Quiz/<br/>Presentation</b> | <b>ESE</b> |
|----------------------|----------------------|-------------------|--------------------------------------------------|------------|
| <b>Weightage (%)</b> | 15                   | 5                 | 10                                               | 70         |

**Syllabus****INTERNATIONAL SUPPLY CHAIN MANAGEMENT****Course Code: MBA 417****Credit****Units: 03****Course Objective:**

Developing an understanding of the various components of an integrated supply chain management suited to global markets; Teaching criticality of an efficient supply chain with “zero defects” in the WTO border-less world ; Understanding the micro aspects of global distribution and logistics ; imparting knowledge of Multi-modal Transport operators , ocean & air transportation in world trade.

**Course Contents**

Module I: Global Supply Chain – Overview

Introduction & Importance of Supply Chain Management, Developing Supply Chain as a Competitive Tool for Customer Satisfaction and Corporate Profitability, Channel Structure, Supplier Network Development, Outsourcing., Supply Chain Logistics Operations.

#### **Module II: Strategic Issues in Supply Chain Management**

Value chain and value delivery system, Concept of multi-modal transportation and infrastructure needs; Transportation Choices and Third Party Logistics, Fourth Party Logistics Distribution Channel Design, Strategic Alliances, Communication Flow of Supply Chain, Documentation needs and liabilities; Inter-functional coordination, Inter-corporate cooperation, Outsourcing in Supply Chain; Vendor Management & Development, Strategic Lead Time Management, Warehousing

#### **Module III: International Logistic System**

Concept, Objectives & Scope, The System Elements, International Transportation Issues, Warehousing, Inventory Management, Packaging and Unitization Issues, Communication and Control, Centralized and Decentralized Logistic Management, Third Party Logistics (3PL), Multimodal Transport Operator (M.T.O.)

#### **Module IV: Air & Ocean Transport and Chartering**

The General Structure of shipping industry, Characteristics of Shipping Industry, Liner and Tramp Operations and Significance, World Seaborne Trade and World Shipping, Composition of World Seaborne Trade, Problems of Developing Countries, Liner Freightage Practice, Principles – Freight Structure, Voyage Charter, Time Charter, Barboat Charter. Indian Shipping, Growth and Perspective, Problems of Shipping Industry, Shipping Policy, International Air Transport System, Air Transport and PDM Approach to Export Distribution, International Set – up for Air Transport, Air Freight Rates, India's Export – Import Trade by Air, Problems and Prospects, Law Relating to Carriage of Goods

#### **Module V: Managing the Supply Chain Performance**

SCM and Information Technology, IT Enabled Supply Chain Management, Inter-firm Integration: Implementation Issues, Application of ERP, JIT, Optimization of Supply Chain, Retailing Management, Waste Elimination and Lean Thinking in Supply Chain; Supply chain performance measurement systems; Supply Chain Balanced Score Card.

#### **Examination Scheme:**

| Components    | CPA | TP | Q/S | A | ME | EE |
|---------------|-----|----|-----|---|----|----|
| Weightage (%) | 5   | 5  | 5   | 5 | 10 | 70 |

## AMITY BUSINESS SCHOOL

### Course Handout

Course : Elementary Business Mathematics

Course Code : BBM 101, Crédits : 03, Session :2018- 19 (Odd Sem.), Class : B Com (Hons) 1st Year

### PROGRAMME OUTCOMES

**Bachelor of Commerce**

**2018-2019**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently :** The program will develop the ability to think critically and independently translating into a well -developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9] Research and Business Intelligence:** The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Introduction:** The objective of this course is to orient the students towards the basic concepts of mathematics and its applications in the business world.

**B. Course Outcomes:** At the end of the course, students will be able to:

**BBM 101.1** Understand set theory and functions in Business and Economics Limits.

**BBM 101.2** Analyse Basic Counting Principle, Permutation and Combinations

**BBM 101.3** Apply Simple, Compound Interest and Annuities

**BBM 101.4** Evaluate Matrices, Determinants and Numerical Problems

**A. Program Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4] Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5] Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9] Research and Business Intelligence:** The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

## B. Syllabus

### Module I: Set Theory & Functions

Theory of Sets: Meaning; Elements; Types of sets, Subsets; Super sets & Power sets;

Operation on sets, Venn diagrams, Cardinal no of a set and Applications of set theory; Concept of inclusion-exclusion principle with simple example, Finite, Countable or Infinite sets; Cartesian product of sets. Real number systems, Constant and variable, functions, types of functions, Some useful functions in Business and Economics limits and continuity of a function of one variable.

### Module II: Techniques of counting and Number System

Basic counting principle, Factorial Notation; Binomial coefficient; Permutations and Combination; Permutation with restriction; Circular Permutation and Combination with restriction. Series and Sequence- A.P. and G.P.

### Module III: Simple, Compound Interest and Annuities

Simple Interest, Compound interest (Nominal and effective rate of interest), Concept of present value and amount of sum, Concept of discount, Types of annuities, present value and amount of an annuity, including the case of continuous compounding.

### Module IV: Matrices & Determinants

Matrices; concepts and types; properties; Addition; Multiplication; Transpose and inverse of matrix; Algebra of matrices; Ad joint of a matrix; Determinants; Properties of determinants; Solution of simultaneous Linear Equations; Business applications of matrices; Solution using inverse of the coefficient matrix; Numerical Problems.

#### A. Examination Scheme:

| Components    | A | CT | S/V/Q/HA | EE |
|---------------|---|----|----------|----|
| Weightage (%) | 5 | 15 | 10       | 70 |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

## PROGRAMME OUTCOMES

**Bachelor of Commerce (H)**

**2018-2019**

### Programme Outcomes:

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

|                                | Mid Term 2                                                                                                                                                                                                    |          |             |
|                                | Seminar/Viva-Voce/Quiz/Home Assignment                                                                                                                                                                        | S/V/Q/HA | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

## Syllabus

### Module I: Consumer Behaviour

Consumer sovereignty-limitations. Approaches to the study of consumer behaviour-cardinal approach-the law of equi-marginal utility, ordinal approach – indifference curve analysis and its properties. Consumer equilibrium, Price effect, income effect and substitution effects. Engel curve. Consumer surplus – meaning-analysis limitations.

### Module II: Microeconomics and Demand Analysis

Nature and scope of economics; Difference between micro and macroeconomics, Nature of economic problem. Basic postulates, Role of price mechanism. Theory of Demand and Analysis: Demand- demand determinants – law of demand-characteristics exceptions - Elasticity of demand – price elasticity – types – determining factors- change in demand and elasticity of demand-business applications of price elasticity- concepts of income and cross elasticity of demand. Measurement of price elasticity of demand by total outlay method.

### Module III: Theory of Production and Cost

Concept of Production Function- Law of variable proportions and stages of production. Isoquants, marginal rate of technical substitution, Return to scale.  
Revenue curves- Average revenue and marginal revenue curve, and elasticity of demand.  
Cost curve in short and long run, average and marginal cost curve and its relationship.

### Examination Scheme:

| Components    | CT | HA/C/V | A | EE |
|---------------|----|--------|---|----|
| Weightage (%) | 15 | 10     | 5 | 70 |

| Course : Cost Accounting -1                                                            |
| Course Code : BCH302, Crédits : 04, Session: 2018-19 (Odd Sem.), Class : BCOM. II Year |

## A. Introduction:

To get an expert knowledge in the area of cost management and cost control to enable effective management decisions.

**B. Course Outcomes:** At the end of the course, students will be able to:

**BCH302.1.** Able to understand the concept of cost accounting and Cost Module – Cost Center – Elements of Cost – Preparation of cost sheet

**BCH302.2.** Know the basics about material costing techniques of Inventory control – Setting of stock levels – EOQ- ABC Analysis– Methods of pricing materials issues – LIFO – FIFO.

**BCH302.3.** Able to recognize the essential of labour costing and causes and effect of labour turnover.

## C. Programme Outcomes:

**[PO.1].Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well-developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### **D. Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                     | <b>Code</b> | <b>Weightage %</b> |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--------------------|

|                          | includes all types of leaves including medical leaves. |    |             |
| Attendance               | End Semester Examination                               | A  | 5%          |
| End Semester Examination |                                                        | EE | 70%         |
| <b>Total</b>             |                                                        |    | <b>100%</b> |

## E. Syllabus

### Module I: Cost Accounting

Introduction – Meaning of Cost, costing and Cost Accounting – Comparison between Financial Accounts and Cost Accounts – Application of Cost Accounting – Designing and installing a Cost Accounting system – Cost concepts and Classification of Costs – Cost Module – Cost Center – Elements of Cost – Preparation of cost sheet – Tenders and Quotations – Problems.

### Module II: Material Costing

Classification of materials – Material Control – Purchasing procedure – store keeping – techniques of Inventory control – Setting of stock levels – EOQ- ABC Analysis– Methods of pricing materials issues – LIFO – FIFO – Weighted Average Method – Simple Average Method – Problems.

### Module III: Labour Costing

Control of labour cost – Labour Turn Turnover – Causes and effects of labour turnover – Meaning of Time and Motion Study, Merit Rating, Job Analysis, Time keeping and Time booking – Idle time, causes and treatment – Overtime – Methods of Wage Payment, Time rate and Piece Rate – Incentive Schemes – Halsey Premium Plan – Rowan Bonus Plan – Taylor’s and Merrick’s differential piece rate systems – Problems.

**Assignment for the students:** Students will Prepare LIFO- FIFO- EQO through any popular Software.

### Examination Scheme:

|               |           |           |          |           |
|---------------|-----------|-----------|----------|-----------|
| Components    | CT        | HA/C/V    | A        | EE        |
| Weightage (%) | <b>15</b> | <b>10</b> | <b>5</b> | <b>70</b> |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

| <b>Course : COST ACCOUNTING – II</b>                                                     |
| Course Code : BCH402, Crédits : 03, Session :2018-19 (Even Sem.), Class : BCOM. 2nd Year |

## A. Introduction:

To get an expert knowledge in the area of cost management and cost control to enable effective management decisions.

**B. Course Outcomes:** At the end of the course, students will be able to:

**1.BCH402.1.** Able to understand the concept of overhead costing, Procedure for accounting and control of overheads

**2.BCH402.2.** Know the basic functions of Job Costing – Batch Costing – Contract Costing and Service costing.

**3.BCH402.3.** Able to recognize the essential features of Marginal costing and Break-Even Analysis

## C. Programme Outcomes:

**[PO.1].Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### **D. Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                                                  | <b>Code</b> | <b>Weightage %</b> |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--------------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                          | CT          | 15%                |
|                                | Seminar/Viva-Voce/Quiz/Home Assignment                                                                                                                                              |             |                    |
|                                | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves | S/V/Q/HA    | 10%                |

|                          |                           |    |             |
|--------------------------|---------------------------|----|-------------|
|                          | including medical leaves. |    |             |
| Attendance               | End Semester Examination  | A  | 5%          |
| End Semester Examination |                           | EE | 70%         |
| <b>Total</b>             |                           |    | <b>100%</b> |

## E. Syllabus

### Module I: Overhead Costing

Definition – Classification of overheads – Procedure for accounting and control of overheads – Allocation of overheads – Apportionment of Service department costs to production departments – Repeated Distribution method – Simultaneous equation method – absorption of OH's – Methods of Absorption – Percentage of direct material cost – Direct Labour Cost – Prime Cost, Direct Labour hour rate and Machine Hour Rate – Problems.

### Module II: Costing Methods

Costing Methods Introduction - Job Costing – Batch Costing – Contract Costing- Process Costing – principles – distinction between Process and Job – Preparation of process accounts – treatment of normal loss – abnormal loss – abnormal gain – Joint and By-products. Service costing.

### Module III: Marginal costing and Break-Even Analysis

Concept of Marginal Costs and Marginal Costing; Assumptions of Marginal Costing; Marginal Costing vs Absorption Costing; Advantages and Limitations of Marginal Costing; Break Even Analysis: Break-Even Point, Margin of safety, Angle of Incidence.

## F. Examination Scheme:

|               |           |           |          |           |
|---------------|-----------|-----------|----------|-----------|
| Components    | CT        | HA/C/V    | A        | EE        |
| Weightage (%) | <b>15</b> | <b>10</b> | <b>5</b> | <b>70</b> |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

## G. Suggested Text/Reference Books:

- N.K. Prasad: Cost Accounting
- Nigam & Sharma: Cost Accounting
- Khanna Pandey & Ahuja: Practical Costing
- M.L. Agarwal: Cost Accounting

- Jain & Narang: Cost Accounting
- S.P. Iyengar: Cost Accounting
- S.N. Maheshwari: Cost Accounting
- Horngren: Cost Accounting: A Managerial Emphasis
- M. N. Arora: Cost Accounting
- Dutta: Cost Accounting

#### H. Lecture Plan

| Lecture | Topics                                                                                                                       | Mode of Delivery | Corresponding CO | Mode of Assessing CO            |
|---------|------------------------------------------------------------------------------------------------------------------------------|------------------|------------------|---------------------------------|
| 1       | Definition – Classification of overheads – Procedure for accounting and control of overheads                                 | Lecture          | BCH402.1.        | Mid Term-1, Quiz & End Sem Exam |
| 2       | Definition – Classification of overheads – Procedure for accounting and control of overheads                                 | Lecture          | BCH402.1.        | Mid Term-1, Quiz & End Sem Exam |
| 3       | Definition – Classification of overheads – Procedure for accounting and control of overheads                                 | Lecture          | BCH402.1..       | Mid Term-1, Quiz & End Sem Exam |
| 4       | Definition – Classification of overheads – Procedure for accounting and control of overheads                                 | Lecture          | BCH402.1.        | Mid Term-1, Quiz & End Sem Exam |
| 5       | Allocation of overheads – Apportionment of Service department costs to production departments – Repeated Distribution method | Lecture          | BCH402.1.        | Mid Term-1, Quiz & End Sem Exam |
| 6       | Allocation of overheads – Apportionment of Service department costs to production departments – Repeated Distribution method | Lecture          | BCH402.1.        | Mid Term-1, Quiz & End Sem Exam |
| 7       | Allocation of overheads – Apportionment of Service                                                                           | Lecture          | BCH402.1.        | Mid Term-1,                     |

|    |                                                                                                                              |         |                  |                                 |

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES**

**Bachelor of Commerce (H)**

**2018-2019**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

## A. Introduction:

The objective of the course is to acquaint the student with various market structures within which a firm operates. The Course also deals with long –term decision-making and market efficiency.

**B. Course Outcomes:** At the end of the course, students will be able to:

- 1.BCH403.1.** Able to understand Market for factor inputs.
- 2.BCH403.2.** Know the basic functions of Inter-temporal Analysis and Choice under Uncertainty.
- 3.BCH403.3.** Able to recognize the essential features of General Equilibrium and Welfare Economics

## C. Programme Outcomes:

**[PO.1].Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and

social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### D. Assessment Plan:

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES**

### **Bachelor of Commerce (H)**

**2018-2019**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

| <b>Course Handout</b>                                                                 |
| Course : Operations Research                                                          |
| Course Code: BBM 501, Credits : 03, Session :2018-19 (Odd Sem.), Class: BCOM 3rd Year |

**Introduction:** The objective of this course is to orient the students towards the basic concepts of mathematics and its applications in the business world.

**B. Course Outcomes:** At the end of the course, students will be able to:

- BBM 501.1** Understand basic concepts of Operations Research
- BBM 501.2** Analyse Linear Programming
- BBM 501.3** Apply Transportation Problem
- BBM 501.4** Apply Assignment Problem
- BBM 501.5** Examine Game Theory
- BBM 501.6** Interpret Queuing & Simulation.

**Program Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify,

formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4] Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5] Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9]Research and Business Intelligence:** The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics , prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### A. Assessment Plan:

| Component of Evaluation        | Description                                                                                                                                                                                           | Code     | Weightage % |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                                            | CT       | 15%         |
|                                | Seminar/Viva-Voce/Quiz/Home Assignment                                                                                                                                                                | S/V/Q/HA | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical | A        | 5%          |

|                          |                          |    |             |
|--------------------------|--------------------------|----|-------------|
|                          | leaves.                  |    |             |
| End Semester Examination | End Semester Examination | EE | 70%         |
| <b>Total</b>             |                          |    | <b>100%</b> |
|                          |                          |    |             |

## A. Syllabus

### Module I: Introduction

Introduction to Operations Research, Definition, scope and limitations of Operations Research

### Module II: Linear Programming

Linear Programming – Basic Concepts, Model formulation; Solution methods – Graphical Solution method, Simplex method (problems involving only upto 3 constraints and of inequality <), Application of LPP in business decision making.

### Module III: Transportation Problem

Transportation problem- Initial Basic feasible solution (North West corner rule, Vogel's approximation method), Test for optimality (The Modified Distribution (MODI) method)

### Module IV: Assignment Problem

Assignment Problem – Introduction, Approach of the Assignment model, Solution Methods (Hungarian method)

### Module V: Game Theory

Game Theory- Concept and definition; Solution methods of Pure Strategy games (with saddle point), Significance of Game Theory.

### Module VI: Queuing & Simulation

Introduction, Elementary queuing system, Introduction to Single – channel queuing model (with Poisson arrivals and Exponential service times), (no numerical); Introduction to Simulation, applications, advantages and drawbacks of simulation, Introduction to Monte – Carlo Simulation, Role of computers in Simulation

### Examination Scheme:

| Components    | A | C<br>T | C/HS/Q | E<br>E |
|---------------|---|--------|--------|--------|
| Weightage (%) | 5 | 15     | 5      | 70     |

## Lecture Plan

| Lecture | Topics                              | Mode of Delivery | Corresponding CO | Mode of Assessing CO             |
|---------|-------------------------------------|------------------|------------------|----------------------------------|
| 1       | Introduction to Operations Research | Lecture          | BBM 501.1        | Mid Term-1, Quiz & End Sem. Exam |
| 2       | Definition of operation research    | Lecture          | BBM 501.1        | Mid Term-1, Quiz & End Sem. Exam |
| 3       | Scope of operation research         | Lecture          | BBM 501.1        | Mid Term-1, Quiz & End Sem. Exam |
| 4       | Limitations of Operations Research  | Lecture          | BBM 501.1        | Mid Term-1, Quiz & End Sem. Exam |
| 5       | Limitations of Operations Research  | Lecture          | BBM 501.1        | Mid Term-1, Quiz & End Sem. Exam |
| 6       | Linear Programming – Basic Concepts | Lecture          | BBM 501.2.       | Mid Term-1, Quiz & End Sem. Exam |
| 9       | Model formulation                   | Lecture          | BBM 501.2        | Mid Term-1, Quiz & End Sem. Exam |
| 10      | Solution methods                    | Lecture          | BBM 501.2        | Mid Term-1, Quiz & End Sem. Exam |
| 11      | Graphical Solution method           | Lecture          | BBM 501.2        | Mid Term-1, Quiz & End Sem. Exam |
| 12      | Graphical Solution method           | Lecture          | BBM 501.2        | Mid Term-1, Quiz & End Sem. Exam |
| 13      | Simplex method                      | Lecture          | BBM 501.2        | Mid Term-1, Quiz & End Sem.      |

|    |                                                               |         |           |                                  |
|----|---------------------------------------------------------------|---------|-----------|----------------------------------|
|    |                                                               |         |           | Exam                             |
| 14 | Simplex method                                                | Lecture | BBM 501.2 | Mid Term-1, Quiz & End Sem. Exam |
| 15 | Application of LPP in business decision making.               | Lecture | BBM 501.2 | Mid Term-1, Quiz & End Sem. Exam |
| 16 | Application of LPP in business decision making.               | Lecture | BBM 501.2 | Mid Term-1, Quiz & End Sem. Exam |
| 17 | Application of LPP in business decision making.               | Lecture | BBM 501.2 | Mid Term-1, Quiz & End Sem. Exam |
| 18 | Application of LPP in business decision making.               | Lecture | BBM 501.2 | Mid Term-1, Quiz & End Sem. Exam |
| 19 | Transportation problem                                        | Lecture | BBM 501.3 | Mid Term-1, Quiz & End Sem. Exam |
| 20 | Initial Basic feasible solution                               | Lecture | BBM 501.3 | Mid Term-1, Quiz & End Sem. Exam |
| 21 | North West corner rule                                        | Lecture | BBM 501.3 | Mid Term-2, Quiz & End Sem. Exam |
| 22 | North West corner rule                                        | Lecture | BBM 501.3 | Mid Term-2, Quiz & End Sem. Exam |
| 23 | Vogel's approximation method                                  | Lecture | BBM 501.3 | Mid Term-2, Quiz & End Sem. Exam |
| 24 | Test for optimality (The Modified Distribution (MODI) method) | Lecture | BBM 501.3 | Mid Term-2, Quiz & End Sem. Exam |

|    |                                                             |         |           |                                  |
|----|-------------------------------------------------------------|---------|-----------|----------------------------------|
| 25 | Assignment Problem – Introduction                           | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 26 | Assignment Problem – Introduction                           | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 27 | Approach of the Assignment model                            | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 28 | Approach of the Assignment model                            | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 29 | Solution Methods (Hungarian method)                         | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 30 | Solution Methods (Hungarian method)                         | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 31 | Solution Methods (Hungarian method)                         | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 32 | Solution Methods (Hungarian method)                         | Lecture | BBM 501.4 | Mid Term-2, Quiz & End Sem. Exam |
| 33 | Game Theory- Concept and definition                         | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 34 | Game Theory- Concept and definition                         | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 35 | Solution methods of Pure Strategy games (with saddle point) | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 36 | Solution methods of Pure Strategy games (with               | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |

|    |                                                                                                       |         |           |                                  |
|----|-------------------------------------------------------------------------------------------------------|---------|-----------|----------------------------------|
|    | saddle point)                                                                                         |         |           |                                  |
| 37 | Solution methods of Pure Strategy games (with saddle point)                                           | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 38 | Significance of Game Theory.                                                                          | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 39 | Significance of Game Theory.                                                                          | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 40 | Significance of Game Theory.                                                                          | Lecture | BBM 501.5 | Mid Term-2, Quiz & End Sem. Exam |
| 41 | Introduction                                                                                          | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |
| 42 | Elementary queuing system                                                                             | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |
| 43 | Introduction to Single – channel queuing model (with Poisson arrivals and Exponential service times), | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |
| 44 | Introduction to Single – channel queuing model - (no numerical)                                       | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |
| 45 | Introduction to Single – channel queuing model - (no numerical)                                       | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |
| 46 | Introduction to Simulation                                                                            | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |
| 47 | Introduction to Simulation, applications, advantages and drawbacks of simulation                      | Lecture | BBM 501.6 | Mid Term-2, Quiz & End Sem. Exam |

|    |                                                                           |         |           |                                  |

#### A. Syllabus

##### Course Contents:

**Module I: Management Accounting**

Nature & Scope: Meaning and Definition - Objectives of Management Accounting - Management Accounting and Financial Accounting - Management Accounting and Cost Accounting - Utility of Management Accounting - Limitations of Management Accounting - Position of Management Accountant in the Organisation.

**Module II: Analysis and Interpretation of Financial Statements - I**

Concept of Financial Statements and their Nature - Limitations of Financial Statements - Analysis and Interpretation - Tools - Comparative Financial Statements - Common size Statements - Trend Percentages

**Module III: Analysis and Interpretation of Financial Statements - II**

Ratio Analysis - Nature and Interpretation - Utility and Limitations of Ratios - Short-term Financial Ratios - Long-term Financial Ratios - Profitability Ratios - Proprietary and Yield Ratios - Turnover Ratios - DUPONT Control Chart

**Module IV: Funds Flow Analysis**

Concept of Funds - Sources and Uses of Funds - Concept of Flow - Funds Flow Statement - Managerial Uses of Funds Flow Analysis - Construction of Funds Flow Statements

**Practical:**

Use of various software packages to obtain different Management Accounting outputs like:  
(i) Fund Flow Statement, (ii) Ratio Analysis

**Examination Scheme:**

| Components    | CT        | HA/C/V    | A        | EE        |
|---------------|-----------|-----------|----------|-----------|
| Weightage (%) | <b>15</b> | <b>10</b> | <b>5</b> | <b>70</b> |

COURSE MANUAL

Course : Operations Research

Course Code : BCH 502, Credits: 04, Session :2018- 19 (Odd Sem.), Class : BCOM 3rd Year

**Introduction:** The objective of this course is to orient the students towards the basic concepts of mathematics and its applications in the business world.

**B. Course Outcomes:** At the end of the course, students will be able to:

- BCH 502.1** Understand basic concepts of Macro Economics
- BCH 502.2** Understand the concepts of National Income Accounting
- BCH 502.3** Analyse Schools of Macro Economic Thought
- BCH 502.4** Analyse Keynesian Model of Macro economics
- BCH 502.5** Apply Quantity Theory of Money
- BCH 502.6** Examine implications of Inflation

**Program Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4] Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5] Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9]Research and Business Intelligence:** The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics , prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**A. Assessment Plan:**

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |

## **A. Syllabus**

### **Course Contents:**

#### **Module I: Introduction to Macroeconomics**

The roots of macroeconomics, macroeconomic concerns, the role of government in the macro economy, the components of the macro economy, the methodology of macroeconomics

#### **Module II: Introduction to National Income Accounting**

Concepts of GDP and national income, approaches to calculating GDP, GDP and personal income, Nominal and real GDP, Limitations of the GDP concept, GDP and the black economy.

#### **Module III: Schools of Macroeconomic Thoughts**

Classical, Neo Classical and Keynesian Models.; Say's Law of Markets and Classical Theory of Employment

#### **Module IV: Keynesian Model**

Aggregate expenditure and equilibrium output; Consumption function; theory of investment-marginal efficiency of capital; saving and investment; The Investment Multiplier and its application to LDC's

#### **Module V: Money in the Modern Economy**

Theories of Demand for Money: Quantity Theory and Keynes approach. Baumol and Tobin Contributions and Friedman's restatement of quantity theory Characteristics of a monetary economy; the supply of money and overall liquidity position; credit creation

## Module VI: Inflation

The causes of inflation, level of prices and the value of money, The Fisher effect, the cost of inflation.

### Examination Scheme:

| Components    | CT        | HA/C/V    | A        | EE        |
|---------------|-----------|-----------|----------|-----------|
| Weightage (%) | <b>15</b> | <b>10</b> | <b>5</b> | <b>70</b> |

|  |                                                                                                                                                                                              |  |  |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
|  | Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. |  |  |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|

## F. Syllabus

### Course Contents:

#### Module I: Cash Flow Analysis

Distinction of Cash from Funds - Utility of Cash Flow Statement - Construction of Cash Flow Statement

#### Module II: Budgets and Budgetary Control

Concept of Budgets and Budgetary Control - Nature and Objectives of Budgetary Control - Advantages and Limitations of Budgetary Control - Establishing a system of Budgetary Control - Preparation of Sales Budget, Selling and Distribution Cost Budget, Production Budget, Purchase Budget, Cash Budget etc. - Flexible Budgets and Master Budgets.

#### Module III: Cost Volume Profit Analysis

Profit/volume ratio, Contribution/Sales ratio, key factor. Margin to Safety ratio, Break-even analysis Angle of incidence, Determination of cost indifference point

#### Module IV: Responsibility Accounting

Concept of Responsibility Accounting - Cost Centers and Profit Centers - Contribution by Segments

#### Practical:

Use of various software packages to obtain different Management Accounting outputs like :(i) Cash Flow Analysis, (ii) Preparation of different budgets, (iii) Break-even Analysis

#### Examination Scheme:

|               |           |           |          |           |
|---------------|-----------|-----------|----------|-----------|
| Components    | CT        | HA/C/V    | A        | EE        |
| Weightage (%) | <b>15</b> | <b>10</b> | <b>5</b> | <b>70</b> |

Established vide Government of Madhya Pradesh Act No. 27 of 2010

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

**Course Code: BCH 618 Credits -2 Session 2018-19 ( Even Sem.) Class B Com( Hons )6<sup>th</sup> Semester**

## **PROGRAMME OUTCOMES**

### **Bachelor of Commerce (Honours)**

### **2018-2019**

#### **Programme Outcomes:**

**[PO.1].** Knowledge of Business, Commerce and Emerging Technologies: The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]** Handling of trade, commerce and industry: The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]** Problem-solving and decision making: Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]** Business Environment Analysis: The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5].** Understanding business processes and work teams: Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]** Think critically and independently: The program will develop the ability to think critically and independently translating into a well -developed personal value system

**[PO.7]**Ability to identify entrepreneurial opportunities: The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]** Developing Business Communication: Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9]** Research and Business Intelligence: The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10]** Responsible Professionals/Future leaders: The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**PROGRAM SPECIFIC OUTCOMES:**

SO.1 Understand the different types of financial products and services and get acquainted with the recent trends in the functioning of financial services industry including banking, insurance & other financial services providers.

PSO.2 Getting a conceptual understanding of different products & services, functioning and recent developments in stock and derivatives markets. To get familiar with the stock market terminology, modes of trading and trading strategies in stock & derivatives market and to get equipped with the financial tools for making decision for investment in different financial securities.

PSO.3 Become an accounting and finance specialist with strong foundations in advance corporate accounting concepts, taxation concepts, taxation laws and tax planning.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

| Course Code : BCH 618, Crédits : 02,<br>Session : 2018-19 (Even Sem.), Class : BCOM 6th Semester |

**A. Introduction:** To help students to understand the DBMS concepts with oracle as a tool.

## B. Course Outcomes

**BCOM 618.1** Understand the basic principles of database management systems.

**BCOM 618.2** Draw Entity-Relationship diagrams to represent simple database application scenarios

**BCOM 618.3** CO3 Write SQL queries for a given context in relational database

**BCOM 618.4** Discuss normalization techniques with simple examples.

**BCOM 618.5** Describe transaction processing and concurrency control concepts

## Programme Outcomes:

**[PO.1].** Knowledge of Business, Commerce and Emerging Technologies: The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]** Handling of trade, commerce and industry: The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]** Problem-solving and decision making: Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]** Business Environment Analysis: The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]** Understanding business processes and work teams: Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]** Think critically and independently: The program will develop the ability to think critically and independently translating into a well -developed personal value system

**[PO.7]** Ability to identify entrepreneurial opportunities: The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]** Developing Business Communication: Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]** Research and Business Intelligence: The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10]** Responsible Professionals/Future leaders: The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### **D. Programme Specific Outcomes:**

After graduating in this Program, the students will be able to:

**[PSO.1]** Leadership and Management: Analyze the interaction of marketing and environmental forces through an understanding of marketing decisions and practices with social, technological, economic, and political forces.

**[PSO.2].** Domain Knowledge: Capacity and ability to illustrate, understand and analyses the knowledge of principles of management to find solutions to real world problems.

**[PSO.3].** Problem Solving & Innovation: Evaluate results of marketing activities using criteria related to budgeted sales, costs, and profits. Contribute to evaluating the effectiveness of advertising and marketing communications initiatives.

#### **Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                                                                            | <b>Code</b> | <b>Weightage %</b> |

| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A           | 5%                 |

## F. Syllabus

### Module I: Concept of Cursors

Types- Implicit, Explicit Open, Close cursor

### Module II: Introduction to triggers

Block Level, Field level triggers, Simple example to be solved with Form

### Module III: Working with forms

Basic Concept, Application Development in Form, Creating a Form, Running a Form, Form Triggers, maintaining Standards in Forms, Master Detail Forms, Libraries and Alerts.

### Module IV: Working with menus

Using Default Menu, Using custom menu. Attaching a Menu Module to a Form, Opening a Form through a menu

### Module V: Working with reports

Features, Defining data Module for a Report, Specify Runtime Parameter form for report, specify runtime parameter form for a report.

### Examination Scheme:

|               |    |        |   |    |
|---------------|----|--------|---|----|
| Components    | CT | HA/C/V | A | EE |
| Weightage (%) | 15 | 10     | 5 | 70 |
