| Course : DIGITAL AND SOCIAL MEDIA MARKETING                                                        |
| Course Code : MBA476, Crédits : 03, Session :2022-23(Even Sem.), Class : MBA. 2 <sup>nd</sup> Year |
| Faculty Name :                                                                                     |

**Introduction:** The death of a salesman in the B2B channels is as real as the day itself. E-commerce has radically changed how people identified their needs, searched for products, analysed their options, made the purchase and then provided their feedback based on their experience of the service of the product provider or the satisfaction they have gained from the product itself. This course is designed to facilitate this generation of netizens to graduate from a level of only buying and availing online services to a level where they are sensitized with what it takes for an online marketer to recruit customers online and provide them services and products that are sold online, but are not necessarily availed online. The course will explicate the role of business environment and domain knowledge and impress upon skills like critical thinking, business analysis, and problem solving and creating innovative solutions.

**A. Course Outcomes:** At the end of the course, students will be able to:

**MBA476.1.** On studying this module, the students will be able to understand the concept of marketing in digital environment. They will also be able to relate traditional marketing concepts with digital marketing and evaluate the use of various channel options available for digital marketing.

**MBA476.2.** On completing this module, the students will develop the concept of digital marketing research. They will also be able to examine online consumer behaviour and imagine its utility in online/offline marketing strategies.

**MBA476.3.** Upon studying this module, the students will be able to build an understanding of search engines and their utility in digital marketing area. They will also comprehend optimization and the keyword search methodology.

**MBA476.4.** On properly studying this module, the student will be able to examine the utility of different social media in digital marketing and evaluate their use, as future managers, in actual marketing campaigns.

**MBA476.5.** On studying this module, the student will be able to create favourable online reputation, later, as future managers, for organizations they serve. Students will also be able to form opinion on current trends in digital marketing area and estimate future trends therein.

## **B. Programme Outcomes:**

**[PO.1].Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2].Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4].Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

#### B. Syllabus

## Module I: Set Theory & Functions

Theory of Sets: Meaning; Elements; Types of sets, Subsets; Super sets & Power sets;

Operation on sets, Venn diagrams, Cardinal no of a set and Applications of set theory; Concept of inclusion-exclusion principle with simple example, Finite, Countable or Infinite sets; Cartesian product of sets. Real number systems, Constant and variable, functions, types of functions, Some useful functions in Business and Economics limits and continuity of a function of one variable.

## Module II: Techniques of counting and Number System

Basic counting principle, Factorial Notation; Binomial coefficient; Permutations and Combination; Permutation with restriction; Circular Permutation and Combination with restriction. Series and Sequence- A.P. and G.P.

## Module III: Simple, Compound Interest and Annuities

Simple Interest, Compound interest (Nominal and effective rate of interest), Concept of present value and amount of sum, Concept of discount, Types of annuities, present value and amount of an annuity, including the case of continuous compounding.

## Module IV: Matrices & Determinants

Matrices; concepts and types; properties; Addition; Multiplication; Transpose and inverse of matrix; Algebra of matrices; Ad joint of a matrix; Determinants; Properties of determinants; Solution of simultaneous Linear Equations; Business applications of matrices; Solution using inverse of the coefficient matrix; Numerical Problems.

### A. Examination Scheme:

| Components    | A | CT | S/V/Q/HA | EE |
|---------------|---|----|----------|----|
| Weightage (%) | 5 | 15 | 10       | 70 |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

# AMITY UNIVERSITY

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

**DEPARTMENT OF BUSINESS MANAGEMENT**

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

**Bachelor of Commerce (B. Com.) I, Academic Year – 2022-23**

### **Programme Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Programme Specific Outcomes:**

**PSO 1:**

**PSO 2:**

**PSO 3:**

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “- “

## F. Syllabus

### Module I: Consumer Behaviour

Consumer sovereignty-limitations. Approaches to the study of consumer behaviour-cardinal approach-the law of equi-marginal utility, ordinal approach – indifference curve analysis and its properties. Consumer equilibrium, Price effect, income effect and substitution effects. Engel curve. Consumer surplus – meaning-analysis limitations.

### Module II: Microeconomics and Demand Analysis

Nature and scope of economics; Difference between micro and macroeconomics, Nature of economic problem. Basic postulates, Role of price mechanism. Theory of Demand and Analysis: Demand-demand determinants – law of demand-characteristics exceptions -Elasticity of demand – price elasticity – types – determining factors- change in demand and elasticity of demand-business applications of price elasticity- concepts of income and cross elasticity of demand. Measurement of price elasticity of demand by total outlay method.

### Module III: Theory of Production and Cost

Concept of Production Function- Law of variable proportions and stages of production. Isoquants, marginal rate of technical substitution, Return to scale.

Revenue curves- Average revenue and marginal revenue curve, and elasticity of demand.

Cost curve in short and long run, average and marginal cost curve and its relationship.

### Examination Scheme:

| Components    | CT | HA/C/V | A | EE |
|---------------|----|--------|---|----|
| Weightage (%) | 15 | 10     | 5 | 70 |

## B. Syllabus

### Course Objective:

The objective of this paper is to make the student to understand how the business organizations work by applying economic principles in their business management. The course will attempt to relate theory to practice and try to instill in students the ability to apply basic microeconomic concepts to the understanding of everyday phenomena.

### Course Contents:

#### Module I: Market Structures

Market Structures and business decisions; Objectives of Business firm. A) Perfect Competition: Profit Maximization and equilibrium of firm and industry; Short - run and long - run supply curves; Price and output determination. Practical Applications. B) Monopoly: Determination of price under monopoly; Equilibrium of a firm; Comparison between perfect competition and monopoly; Multi Plant monopoly, Price Discrimination; Practical applications. C) Monopolistic Competition: Meaning and characteristics; Price and output Determination under monopolistic competition; Excess capacity under monopolistic competition. D) Oligopoly: Characteristic, indeterminate pricing and output; Classical models of Oligopoly; price leadership; Collusive oligopoly; kinked demand curve.

#### Module II: Factor Pricing - I

Marginal productivity theory and demand for factors; Nature of supply of factor inputs; Determination of wage rates under perfect Competition and monopoly; Exploitation of labor, Rent - concept; Ricardian and Modern theories of rent; Quasi-rent, Functional Distribution of Income.

#### Module III: Factor Pricing - II

Interests - concept and theories of interest - Loanable Fund Theory, Liquidity Preference Theory, Profit - natural, concepts, and theories of Profit - Innovation Theory, Dynamic Theory, Risk Theory and Uncertainty Bearing Theory.

#### Examination Scheme:

|               |           |           |          |           |

AMITY BUSINESS SCHOOL

DEPARTMENT OF BUSINESS MANAGEMENT

Course Handout

Course : Cost Accounting -1

Course Code : BCH302, Crédits : 04, Session: 2021-22 (Odd Sem.), Class : BCOM. IInd Year

Faculty Name :

## A. Introduction:

To get an expert knowledge in the area of cost management and cost control to enable effective management decisions.

**B. Course Outcomes:** At the end of the course, students will be able to:

- 1.**BCH302.1.** Able to understand the concept of cost accounting and Cost Module – Cost Center – Elements of Cost – Preparation of cost sheet
- 2.**BCH302.2.** Know the basics about material costing techniques of Inventory control – Setting of stock levels – EOQ- ABC Analysis– Methods of pricing materials issues – LIFO – FIFO.
- 3.**BCH302.3.** Able to recognize the essential of labour costing and causes and effect of labour turnover.

## C. Programme Outcomes:

**[PO.1].Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well-developed personal value system.

## **PROGRAMME OUTCOMES**

### **Bachelor of Commerce (H)**

**2022-2023**

#### **Programme Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

| Course Code : BCH402, Crédits : 03, Session :2022-23(Even Sem.), Class : BCOM. 2nd Year |
| Faculty Name :                                                                          |

#### **A. Introduction:**

To get an expert knowledge in the area of cost management and cost control to enable effective management decisions.

#### **B. Course Outcomes:** At the end of the course, students will be able to:

- 1.**BCH402.1.** Able to understand the concept of overhead costing, Procedure for accounting and control of overheads
- 2.**BCH402.2.** Know the basic functions of Job Costing – Batch Costing – Contract Costing and Service costing.
- 3.**BCH402.3.** Able to recognize the essential features of Marginal costing and Break-Even Analysis

#### **C. Programme Outcomes:**

**[PO.1].Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### **D. Programme Specific Outcomes:**

## F. Syllabus

### Module I: Overhead Costing

Definition – Classification of overheads – Procedure for accounting and control of overheads – Allocation of overheads – Apportionment of Service department costs to production departments – Repeated Distribution method – Simultaneous equation method – absorption of OH's – Methods of Absorption – Percentage of direct material cost – Direct Labour Cost – Prime Cost, Direct Labour hour rate and Machine Hour Rate – Problems.

### Module II: Costing Methods

Costing Methods Introduction - Job Costing – Batch Costing – Contract Costing- Process Costing – principles – distinction between Process and Job – Preparation of process accounts – treatment of normal loss – abnormal loss – abnormal gain – Joint and By-products. Service costing.

### Module III: Marginal costing and Break-Even Analysis

Concept of Marginal Costs and Marginal Costing; Assumptions of Marginal Costing; Marginal Costing vs Absorption Costing; Advantages and Limitations of Marginal Costing; Break Even Analysis: Break-Even Point, Margin of safety, Angle of Incidence.

### G. Examination Scheme:

|               |           |           |          |           |
|---------------|-----------|-----------|----------|-----------|
| Components    | CT        | HA/C/V    | A        | EE        |
| Weightage (%) | <b>15</b> | <b>10</b> | <b>5</b> | <b>70</b> |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

### H. Suggested Text/Reference Books:

- N.K. Prasad: Cost Accounting

- Nigam & Sharma: Cost Accounting
- Khanna Pandey & Ahuja: Practical Costing
- M.L. Agarwal: Cost Accounting
- Jain & Narang: Cost Accounting
- S.P. Iyengar: Cost Accounting
- S.N. Maheshwari: Cost Accounting
- Horngren: Cost Accounting: A Managerial Emphasis
- M. N. Arora: Cost Accounting
- Dutta: Cost Accounting

#### I. Lecture Plan

#### **A. Introduction:**

The objective of the course is to acquaint the student with various market structures within which a firm operates. The Course also deals with long -term decision-making and market efficiency.

#### **B. Course Outcomes:** At the end of the course, students will be able to:

- 1.BCH403.1.** Able to understand Market for factor inputs.
- 2.BCH403.2.** Know the basic functions of Inter-temporal Analysis and Choice under Uncertainty.
- 3.BCH403.3.** Able to recognize the essential features of General Equilibrium and Welfare Economics

#### **C. Programme Outcomes:**

**[PO.1].Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

#### **D. Programme Specific Outcomes:**

#### **E. Assessment Plan:**

## Attainment

**Session Course** 2021-22  
**Name** B.Com (Hons)  
**Semester** 4th Semester  
**Subject Code** BCH403  
**Subject Name** Microeconomic Theory &

**Attainment Level** 56% of the students secured more than 60% marks

### Note:

#### **Attainments**

Level 1

Level 2

Level 3

#### **Rubric**

IF 60% of students secure more than 60% marks then level 1 IF 70% of students secure more than 60% marks then level 2 IF 80% of students secure more than 60% marks then level 3

**PROGRAMME OUTCOMES**  
**Bachelor of Commerce (H)**  
**2022-2023**

**Programme Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

## A. Syllabus

### Course Contents:

#### Module I: Management Accounting

Nature & Scope: Meaning and Definition - Objectives of Management Accounting - Management Accounting and Financial Accounting - Management Accounting and Cost Accounting - Utility of Management Accounting - Limitations of Management Accounting - Position of Management Accountant in the Organisation.

#### Module II: Analysis and Interpretation of Financial Statements - I

Concept of Financial Statements and their Nature - Limitations of Financial Statements - Analysis and Interpretation - Tools - Comparative Financial Statements - Common size Statements - Trend Percentages

#### Module III: Analysis and Interpretation of Financial Statements - II

Ratio Analysis - Nature and Interpretation - Utility and Limitations of Ratios - Short-term Financial Ratios - Long-term Financial Ratios - Profitability Ratios - Proprietary and Yield Ratios - Turnover Ratios - DUPONT Control Chart

#### Module IV: Funds Flow Analysis

Concept of Funds - Sources and Uses of Funds - Concept of Flow - Funds Flow Statement - Managerial Uses of Funds Flow Analysis - Construction of Funds Flow Statements

### Practical:

Use of various software packages to obtain different Management Accounting outputs like: (i) Fund Flow Statement, (ii) Ratio Analysis

### Examination Scheme:

| Components    | CT | HA/C/V | A | EE |
|---------------|----|--------|---|----|
| Weightage (%) | 15 | 10     | 5 | 70 |

**Introduction:** The objective of this course is to orient the students towards the basic concepts of mathematics and its applications in the business world.

**B. Course Outcomes:** At the end of the course, students will be able to:

- BCH 502.1** Understand basic concepts of Macro Economics
- BCH 502.2** Understand the concepts of National Income Accounting
- BCH 502.3** Analyse Schools of Macro Economic Thought
- BCH 502.4** Analyse Keynesian Model of Macro economics
- BCH 502.5** Apply Quantity Theory of Money
- BCH 502.6** Examine implications of Inflation

## **Program Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4] Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5] Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9]Research and Business Intelligence:** The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics , prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Course Handout**

Course : Operations Research

Course Code : BBM 101, Credits : 03, Session :2021- 22(Odd Sem.), Class : BCOM 5th Year

Faculty Name : Dr Meenakshi Tripathi

**Introduction:** The objective of this course is to orient the students towards the basic concepts of mathematics and its applications in the business world.

**B. Course Outcomes:** At the end of the course, students will be able to:

- BCH 504.1* Understand basic concepts of Financial Management
- BCH 504.2* Analyse Time Value of Money
- BCH 504.3* Analyse Cost of capital
- BCH 504.4* Apply Capital Budgeting

**Program Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4] Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5] Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9]Research and Business Intelligence:** The program will develop the capacity to

understand and analyze the business and commerce knowledge, developing research acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**Program Specific Outcomes :**

- **[PSO1]** : Analyze the business environment and assess its impact on Financial Institutions and Financial Markets.
- **[PSO2]** : Evaluate financing and investment options to maximize the return on investment for corporate and individuals.

**Introduction:** The objective of this course is to orient the students towards the basic concepts of mathematics and its applications in the business world.

**B. Course Outcomes:** At the end of the course, students will be able to:

BCH 51.1 Understand basic concepts of Compensation Management  
BCH 513.2. Analyse process of Job Analysis  
BCH 513.3 Apply Wage Policy  
BCH 513.4 Examine Pay Structure

**Program Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2] Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3] Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4] Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5] Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6] Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system

**[PO.7]Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8] Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large

**[PO.9]Research and Business Intelligence:** The program will develop the capacity to understand and analyze the business and commerce knowledge, developing research

acumen for innovative business solutions.

**[PO.10] Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics , prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**A. Assessment Plan:**

## MANAGEMENT ACCOUNTING – II

**Course Code: BCH 601**

**Credit Units: 03**

### Course Objective:

To provide the students knowledge about the use of costing data for planning, control and decision making.

### Course Outcomes

CO1 Understand various costing systems and management systems

CO2 Analyse and provide recommendations to improve the operations of organisations through the application of Cost and Management accounting techniques

CO3 Evaluate the costs and benefits of different conventional and contemporary costing systems

CO4 Analyze cost-volume-profit techniques to determine optimal managerial decisions.

CO5 Apply cost accounting methods for both manufacturing and service industry.

### Course Contents:

#### Module I: Cash Flow Analysis

Distinction of Cash from Funds - Utility of Cash Flow Statement - Construction of Cash Flow Statement

#### Module II: Budgets and Budgetary Control

Concept of Budgets and Budgetary Control - Nature and Objectives of Budgetary Control - Advantages and Limitations of Budgetary Control - Establishing a system of Budgetary Control - Preparation of Sales Budget, Selling and Distribution Cost Budget, Production Budget, Purchase Budget, Cash Budget etc. - Flexible Budgets and Master Budgets.

#### Module III: Cost Volume Profit Analysis

Profit/volume ratio, Contribution/Sales ratio, key factor. Margin to Safety ratio, Break-even analysis Angle of incidence, Determination of cost indifference point

#### Module IV: Responsibility Accounting

Concept of Responsibility Accounting - Cost Centers and Profit Centers - Contribution by Segments

#### Practical:

Use of various software packages to obtain different Management Accounting outputs like :(i) Cash Flow Analysis, (ii) Preparation of different budgets, (iii) Break-even Analysis

### Examination Scheme:

|               |    |        |   |    |
|---------------|----|--------|---|----|
| Components    | CT | HA/C/V | A | EE |
| Weightage (%) | 15 | 10     | 5 | 70 |

## Course Outcomes

CO1: Gain an understanding of the different analytical approaches used by HR Professionals to solve real business problems

CO2: Examine actual business cases and apply problem solving and critical thinking skills through group case studies

CO3: Understand the application of quantitative and qualitative analysis to understand trends and indicators in human resource data.

CO4: Understand the role of information technology to enhance the efficiency and effectiveness of human resource functions within the organization.

## Course Contents:

### Module I Performance Management

Performance Appraisal– Meaning of performance appraisal, objectives of Performance appraisal, methods of performance appraisal and limitations.

### Module II Training and Development

Training and Induction – Meaning of Training and Induction, objective and purpose of induction, Need for training, benefits of training, identification of training needs, methods of training. HRD – Meaning of HRD, Role of training in HRD.

### Module III Healthy Work Environment

Work Environment –Industrial accidents, Employee safety, Morale, Grievance and Grievances handling, Motivation Perspectives, Empowering Employees.

### Module IV Emerging Issues in HRM

HRD – Meaning of HRD, Role of training in HRD, Impact of globalisation on human resource management, problems in relation to transnational and multi nationals.

Impact of Technological Development on HRM Practices, Dealing with Workforce Diversity, Work / Life Balance.

## Examination Scheme:

# HUMAN RESOURCE ACCOUNTING - II

**Course Code:** BCH 615

**Credit Units:** 02

## Course Objective:

To help students to understand the concepts of Human resource accounting, its importance and various methods of human resource accounting.

## Course Outcomes

CO1:- To introduce the concept of Human resource accounting, its objectives, approaches to accounting process

CO2:- To make the students understand the importance of investment in human resources and the need for accounting of human capital

CO3:- To provide information on responsibility accounting and management control

CO4:- To provide knowledge on human resource auditing, balanced score card, HRD score card, accounting and financial statements

CO5:- To learn about organisational climate

## Course Contents:

### Module I

First-Generation Accounting Systems for Human Resource Value

Second and Third-Generation Accounting Systems for Human Resource Value

Applications and Implementations

Designing and Implementing Human Resource Accounting Systems

### Module II

Applications for Improving Management, Training, and Personnel Decisions

Developing an Integrated Systems

Recent Advancement and Future Directions in Human Resource Accounting

## Examination Scheme:

|               |    |        |   |    |
|---------------|----|--------|---|----|
| Components    | CT | HA/C/V | A | EE |
| Weightage (%) | 15 | 10     | 5 | 70 |

# CORPORATE TAX PLANNING - II

**Course Code:** BCH 616

**Credit Units: 02**

## Course Objective:

To help students to understand the concept of Corporate Tax planning and give them a practical exposure to the method of computing corporate tax.

## Course Outcomes

CO1- To provide knowledge about goods service tax

CO2- To create employability to the students in the commercial tax practices

CO3- To understand the procedure for registration, payment and refund of GST

CO4- To know tax related with movement of goods

CO5- To understand the appeals, offences and penalties with respect to GST

## Course Objective:

The course is designed to enable students to understand the basic concepts of GST Law introduced in India and to develop skills of computing GST and in filing all the returns involved under the GST.

## Course Contents:

### Module I: Introduction to Goods and Services Tax (GST)

Meaning, scope and significance of GST; principles of subsumption and taxes subsumed; classification of goods and services and GST rates. GST model in India – CGST, SGST and IGST; GST Administration in India – GST Council - functions and challenges; GST Network – objectives structure, administration and functions; operational aspects of GST–process of registration for manufacturer, service provider and dealer, etc; amendment and cancellation of registration; tax invoice, credit and debit notes; accounts and records; filing of returns – forms, time schedule; assessment, payment of tax.

**Module II: Levy and Collection of Tax** – CGST Act, 2017 – levy and collection of central and state GST, Composition levy, taxable person, power to grant exemption from tax; Time and Value of Supply – time of supply of goods and services, change in rate of tax in respect of supply of goods or services; value of taxable supply; Illustrative problems.

### Module III: Input Tax Credit & Related Terms

Meaning, eligibility and conditions for taking Input Tax Credit – CGST, SGST and IGST; recovery of Input Tax Credit and interest thereon, taking input tax credit in respect of inputs sent for job work, reverse charge, manner of distribution of credit by input; service distributor; Transitional Provisions, Electronic Commerce, HSN Code, Illustrative problems

## Examination Scheme:

# COMPUTERIZED ACCOUNTING SYSTEM - II

**Course Code:** BCH 617

**Credit Units:** 02

## Course Objective:

To help students to understand the computerization of accounting system and the use of the software Tally

## Course Outcomes

CO1 After successfully qualifying practical examination, students will be awarded certificate to work with well-known accounting software i.e. Tally ERP.9

CO2 Student by their own will create company, enter accounting voucher entries including advance voucher entries, reconcile bank statements, do accrual adjustments, and also print financial statements, etc. in Tally ERP.9 software.

CO3 Students will possess required skill and can also be employed as Tally data entry operator.

CO4 To impart knowledge regarding concepts of Financial Accounting. Tally is an accounting package which is used for learning to maintain accounts.

| Level       | 1 | IF 60% of students secure more than 60% marks then level 1 |
| Level       | 2 | IF 70% of students secure more than 60% marks then level 2 |
| Level       | 3 | IF 80% of students secure more than 60% marks then level 3 |

# BUSINESS DATA PROCESSING - II

**Course Code: BCH 618**

**Credit Units: 02**

## Course Objective:

To help students to understand the DBMS concepts with oracle as a tool.

## Course Outcomes

CO1 Understand the basic principles of database management systems.

CO2 Draw Entity-Relationship diagrams to represent simple database application scenarios CO3 Write SQL queries for a given context in relational database.

CO4 Discuss normalization techniques with simple examples.

CO5 Describe transaction processing and concurrency control concepts.

## Course Contents:

### Module I: Concept of Cursors

Types- Implicit, Explicit Open, Close cursor

### Module II: Introduction to triggers

Block Level, Field level triggers, Simple example to be solved with Form

### Module III: Working with forms

Basic Concept, Application Development in Form, Creating a Form, Running a Form, Form Triggers, maintaining Standards in Forms, Master Detail Forms, Libraries and Alerts.

### Module IV: Working with menus

Using Default Menu, Using custom menu. Attaching a Menu Module to a Form, Opening a Form through a menu

### Module V: Working with reports

Features, Defining data Module for a Report, Specify Runtime Parameter form for report, specify runtime parameter form for a report.

## Examination Scheme:

|               |    |        |   |    |
|---------------|----|--------|---|----|
| Components    | CT | HA/C/V | A | EE |
| Weightage (%) | 15 | 10     | 5 | 70 |

**Amity Business School**  
**I MID-SEMESTER (SEM –6) 2022-23**

Class: Bcom VI

**Subject Name:**  
**BUSINESS DATA PROCESSING - II**

**Time: 2 Hrs**

**Max. Marks: 30**

| Levels of the questions as per Blooms Taxonomy | Remembering | Understanding | Applying | Analyzing | Evaluating | Creating |
|------------------------------------------------|-------------|---------------|----------|-----------|------------|----------|
| Question Mapping                               | Q.1,4       | Q.2,3         | Q.4      | Q.2,5,6   |            |          |

Student will be able to

CO1 Develop ideas of the basic characteristics of Indian economy, its potential on natural resources.

CO2 Understand the importance, causes and impact of population growth and its distribution, translate and relate them with economic development.

CO3: Grasp the importance of planning undertaken by the government of India, have knowledge on the various objectives, failures and achievements as the foundation of the ongoing planning and economic reforms taken by the government.

CO4. Understand agriculture as the foundation of economic growth and development, analyse the progress and changing nature of agricultural sector and its contribution to the economy as a whole.

CO5. Not only be aware of the economy as a whole, they would understand the basic features of Indian's economy, sources of revenue, how the state government finance its program and projects

| CO Map | Question No. | Question                                | Marks |
|--------|--------------|-----------------------------------------|-------|
| CO1    | Q.1          | Define Cursors                          | 3     |

| Attainments |   | Rubric                                                     |
|-------------|---|------------------------------------------------------------|
| Level       | 1 | IF 60% of students secure more than 60% marks then level 1 |
| Level       | 2 | IF 70% of students secure more than 60% marks then level 2 |
| Level       | 3 | IF 80% of students secure more than 60% marks then level 3 |

# COMPARATIVE ACCOUNTING SYSTEMS - II

**Course Code:** BCH 619

**Credit Units:** 02

## Course Objective:

To help students to understand the accounting systems and disclosure practices around the world. The course should enable the student to make successful comparisons of international accounting systems.

## Course Outcomes

CO1 Explain, and make comparisons between, the financial reporting regimes of a range of countries.

CO2 Describe the present degree of international harmonisation of financial reporting, and the possibilities of further harmonisation.

CO3 Analyse different approaches to key financial reporting issues, e.g. foreign currency translation, consolidation, price level accounting, asset valuation, intangibles, provisions and reserves, in a range of countries.

CO4 Analyse and interpret financial reports from a range of countries, emphasising differences in practices followed. Be familiar with the international accounting system

## Course Contents:

### Module I

Country studies - Financial reporting in the United Kingdom - Financial reporting in the United States - Financial reporting in the Netherlands - Financial reporting in France - Financial reporting in Germany- Financial reporting in Japan - Financial reporting in nine other important countries - Australia, Canada and Singapore - Scandinavia -South Korea, Italy and Spain - Financial reporting in Central and Eastern Europe and China

### Module II

Issues in international accounting - Consolidation - Introduction - Rate of adoption - The concept of a group - Harmonization - Definitions of group companies - Publication requirements and practices - Techniques of consolidation - Foreign currency translation - Translation of the profit and loss account

### Module III

Segment reporting - What is segment reporting? - The need for segment information - Disclosure regulations - Problems of segment identification - Recent developments - Evidence on the benefits of segment reporting

### Module IV

Inflation accounting - Introduction - Terminology

### Module V

Analysis and management issues - International financial analysis - Understanding differences in accounting method - Disclosure practices in international financial reporting - International auditing - Introduction - The international audit process

## Examination Scheme:

|               |    |        |   |    |
|---------------|----|--------|---|----|
| Components    | CT | HA/C/V | A | EE |
| Weightage (%) | 15 | 10     | 5 | 70 |

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

## AMITY BUSINESS SCHOOL

### Course Handout

Course : PRINCIPLES OF ECONOMICS

Course Code : BAE101, Crédits : 04, Session :2021-22(Odd Sem.), Class : BA. (Hons) Economics 1st Year

Faculty Name :

**Introduction:** The main objective of this paper is to introduce the students into the field of economics basic concept of the area what they are going to study. It aims at providing the relevant inputs to the participant so that they could study systematically the various areas of Economics.

**A. Course Outcomes:** At the end of the course, students will be able to:

**BAE 101.1** Know about the rational for understanding economics and effective allocation of scare recourses.

**BAE 101.2.** Come to know the concept of demand and supply and their applications in the market place.

**BAE101.3.** Know about various forms of market structure and will also enhance their understanding of factor markets i.e. Land and labour market.

**BAE101.4.** Know about various Theories of international trade and the barriers to international trade.

**BAE101.5.** Know the concept of Balance of payment, Flexible exchange rate system and its impact in economy.

**B. Programme Outcomes:**

**Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**A. Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                                                                            | <b>Code</b> | <b>Weightage %</b> |

## B. Syllabus

### Module I: *Exploring the subject matter of Economics:*

Why study Economics? Scope and Method of Economics; The Economic Problem: Scarcity and Choice; the question of What to Produce, How to Produce and How to Distribute Output; Science of Economics; Relation of Economics with other social sciences, Property Rights and Profits: Incentives and Information, Rationing; Opportunity Sets; Economic Systems; Reading and Working with Graphs.

### Module II: Supply and Demand: How markets work, Markets and Welfare:

Markets and Competition; Determinants of individual demand/supply, Demand/Supply schedule and demand/supply curve, Market versus individual demand/supply, Shifts in the demand/supply curve, Demand and Supply together, How Prices allocate resources. Elasticity and its application; Controls on Prices; Taxes and the Costs of Taxation; Consumer, Producers and the Efficiency of the Markets.

### Module III: The Firm Perfect Market Structure & Input Markets:

Financing, controlling and managing firms -- The firm's legal form, Corporate Finance, why corporations care about financial structure, takeover and the market for managers, making decisions, centralization and decentralization, the boundaries of the firm. Behaviour of profit maximizing firms and the production process, Short run costs and output decisions, costs and output in the long run.

Monopoly Imperfect information in the product market.

Labour and Land Markets--Basic concepts [derived demand, productivity of an input, marginal product of labour, marginal revenue product]; demand for labour; input demand curves; shifts in input demand curves;.

### Module IV: *Exploring International Economics:*

The International Economy--Trade surpluses and deficits, the economic basis for trade—absolute advantage versus comparative advantage, terms of trade, exchange rates; Sources of comparative advantage - Heckscher-Ohlin Theorem and other explanations. Trade Barriers--tariffs, subsidies and quotas; free trade or protection--case for free trade, case for protection.

### Module V: *Exploring the Macroeconomics of an Open Economy:*

Balance of Payments-----the current and capital account ;Open economy with flexible exchange rates, factors affecting exchange rates, effects of exchange rates on the economy .

## C. Examination Scheme:

| Components    | A | CT | S/V/Q/HA | EE |
|---------------|---|----|----------|----|
| Weightage (%) | 5 | 15 | 10       | 70 |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination;  
A: Attendance

## D. Suggested Text/Reference Books:

Robert S. Pindyck and D.L. Rubinfeld, (2000), *Microeconomics*, 3rd edition, Prentice Hall India.  
Ferguson & Gould- Micro Economic Theory, Cambridge University Press  
Koutsoyiannis, Modern Microeconomics, Macmillan.  
M.L. Trivedi, Managerial Economics- Theory & Applications, Tata McGraw Hill, 2002.  
W.J. Baumol, Economic Theory & Operations Analysis, Prentice Hall.

## **A. Lecture Plan**

| Lecture | Topics                                                                                                                  | Mode of Delivery | Corresponding CO | Mode of Assessing CO            |
|---------|-------------------------------------------------------------------------------------------------------------------------|------------------|------------------|---------------------------------|
| 1       | Why study Economics? Scope and Method of Economics                                                                      | Lecture          |                  | Mid Term-1, Quiz & End Sem Exam |
| 2       | The Economic Problem: Scarcity and Choice; the question of What to Produce, How to Produce and How to Distribute Output | Lecture          | BAE101.1         | Mid Term-1, Quiz & End Sem Exam |
| 3       | The Economic Problem: Scarcity and Choice; the question of What to Produce, How to Produce and How to Distribute Output | Lecture          | BAE101.1         | Mid Term-1, Quiz & End Sem Exam |
| 4       | Relation of Economics with other social sciences,                                                                       | Lecture          | BAE101.1         | Mid Term-1, Quiz & End Sem Exam |
| 5       | Property Rights and Profits: Incentives and Information                                                                 | Lecture          | BAE101.1         | Mid Term-1, Quiz & End Sem Exam |
| 6       | Rationing; Opportunity Sets; Economic Systems;                                                                          | Lecture          | BAE101.1         | Mid Term-1, Quiz & End Sem Exam |
| 7       | Reading and Working with Graphs.                                                                                        | Lecture          | BAE101.1         | Mid Term-1, Quiz & End Sem Exam |
| 8       | Markets and Competition; Determinants of individual demand/supply                                                       | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 9       | Demand/Supply schedule and demand/supply curve,                                                                         | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 10      | , Market versus individual demand/supply,                                                                               | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 11      | Shifts in the demand/supply curve, Demand and Supply together                                                           | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 12      | How Prices allocate resources                                                                                           | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 13      | Elasticity and its application                                                                                          | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 14      | Controls on Prices; Taxes and the Costs of Taxation                                                                     | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 15      | Consumer, Producers and the Efficiency of the Markets.                                                                  | Lecture          | BAE101.2         | Mid Term-1, Quiz & End Sem Exam |
| 16      | Financing, controlling and managing firms -- The firm's legal form                                                      | Lecture          | BAE101.3         | Mid Term-1, Quiz & End Sem Exam |
| 17      | Corporate Finance, why corporations care about financial structure                                                      | Lecture          | BAE101.3         | Mid Term-1, Quiz & End Sem Exam |
| 18      | takeover and the market for managers                                                                                    | Lecture          | BAE101.3         | Mid Term-1, Quiz & End Sem Exam |
| 19      | making decisions, centralization and decentralization,                                                                  | Lecture          | BAE101.3         | Mid Term-1, Quiz & End Sem Exam |
| 20      | the boundaries of the firm.                                                                                             | Lecture          | BAE101.3         | Mid Term-1, Quiz                |

|    |                                                                         |         |          |                                 |
|----|-------------------------------------------------------------------------|---------|----------|---------------------------------|
|    |                                                                         |         |          | & End Sem Exam                  |
| 21 | Behaviour of profit maximizing firms and the production process         | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 22 | Behaviour of profit maximizing firms and the production process         | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 23 | Short run costs and output decisions                                    | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 24 | Short run costs and output decisions                                    | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 25 | costs and output in the long run.                                       | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 26 | Monopoly Imperfect information in the product market                    | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 27 | Labour and Land Markets-- Basic concepts                                | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 28 | derived demand, productivity of an input                                | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 29 | marginal product of labour,                                             | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 30 | marginal revenue product                                                | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 31 | demand for labour; input demand curves; shifts in input demand curves;. | Lecture | BAE101.3 | Mid Term-2, Quiz & End Sem Exam |
| 32 | The International Economy-- Trade surpluses and deficits                | Lecture | BAE101.4 | Mid Term-2, Quiz & End Sem Exam |

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

**BA(H) Economics, Academic Year – 2021-22**

### **Programme Outcomes:**

#### **Programme Outcomes:**

[PO.1]. Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

[PO.2]. Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

[PO.3]. The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

[PO.4] To prepare the students for working in the Economic world like banking, industries, Education, etc.

[PO.5] Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

[PO.6] Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

[PO.7] Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

[PO.8] Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

[PO.9] Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

| Course : MICROECONOMICS- I                                                                            |
| Course Code : BAE102, Crédits : 04, Session :2021-22(Odd Sem.), Class : BA. Economics (Hons) 1st Year |
| Faculty Name :                                                                                        |

**A. Introduction:** The main objective of this paper is to introduce the students to the concept of microeconomics. It aims at making the students understand what is consumer behaviour and how does it impact the consumption decisions. It introduces them to the concepts of market structure and market failures so that they learn how to take decisions in such situations and how to plan their actions for dealing with such situations. It aims to provide knowledge about short run and long run production function.

**B. Course Outcomes:**

At the end of the course, students will be able to:

**BAE 102.1:** Explain the consumer behavior and his consumption decisions. Interpret the

impact of changes in income of consumer and changes in prices of goods on the demand for goods by the consumer. Describe the preference pattern of consumers with the help of Indifference curves. Explain the concept of inferior goods and Giffen goods and their impact in violation of law of demand.

**BAE 102.2:** Understand the concept of short run and long run production function and apply its knowledge in creating production functions in business organisations and learn the concept of isoquants. Interpret and apply these concepts in making economic business decisions. Understand the concept of Marginal product and total product, Law of diminishing marginal returns and marginal rate of technical substitution and Cobb Douglas Production function.

**BAE 102.3:** Develop an understanding of various forms of market structure and how they work to allocate resources and the optimal decision making for efficient outcome.

**BAE 102.4:** Analyse and interpret the problems of market failure arising out of negative externalities and misuse of public goods. Find solutions to the problems arising in markets with asymmetric information and apply them in uncertain market conditions.

### **C Programme Outcomes:**

**[PO.1].** The Programme is an attempt to develop capabilities in students to take effective decisions as managers of business organizations operating in the rapidly changing global economic environment.

**[PO.2].** The scope of the programme extends to topics in statistics, accountancy, mathematics, corporate finance, microeconomics, macroeconomics, marketing, business law, econometrics in the context of international business environment.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

## **D.PROGRAMME SPECIFIC OUTCOMES (PSO's)**

### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

.

### **E.Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b> | <b>Code</b> | <b>Weightage %</b> |
|--------------------------------|--------------------|-------------|--------------------|
| Continuous Internal Evaluation | Mid Term 1         | CT          | 15%                |
|                                | Mid Term 2         |             |                    |
|                                | Seminar/Viva-      | S/V/Q/HA    | 10%                |

|                          |                                                                                                                                                                                                               |    |             |

|                          | Voce/Quiz/Home Assignment                                                                                                                                                                                     |    |             |
| Attendance               | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A  | 5%          |
| End Semester Examination | End Semester Examination                                                                                                                                                                                      | EE | 70%         |
| <b>Total</b>             |                                                                                                                                                                                                               |    | <b>100%</b> |

## F. Syllabus

### Module I: Consumer Behaviour:

The consumption decisions -- budget constraints, consumption and income/price changes, demand for all other goods and price changes, Description of preferences [Representing preferences with indifference curves. Properties of Indifference curves], Consumers' optimum choice, income and substitution effects.(Hicks and Slutsky), ordinary and compensated demand curves, inferior goods and Giffen goods, price consumption and income consumption curves, derivation of labour supply and intertemporal choice (saving and borrowing ) Revealed preference----weak axiom and substitution effect

### Module II: Production and Costs:

Technology, Isoquants, production with one and more variable inputs, Returns to scale, short run and long run costs, cost curves in the short run and long run, total, average, and marginal product, cost minimization and expansion path, elasticity of substitution, Cobb Douglas, Linear, and CES production function.

### Module III: Market Structure

Review of perfect competition and monopoly; Pricing with market power; price discrimination, peakload pricing, two-part tariff; monopolistic competition and oligopoly.

### Module IV: Market Failure

Externalities, public goods, markets with asymmetric information

**G.Examination Scheme:**

| Components    | A | CT | S/V/Q/HA | EE |
|---------------|---|----|----------|----|
| Weightage (%) | 5 | 15 | 10       | 70 |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination;  
A: Attendance

## AMITY BUSINESS SCHOOL

### Course Handout

Course : Economic History of India

Course Code : BAE104, Crédits : 04, Session :2022-23 (Odd Sem.), Class : BA. Economics (Hons) 1st  
Year

Faculty Name :

### A. Introduction:

The objective of this course is to familiarize students with the Economic history and the economic change over time. It will subsequently help the students to understand the trend of economic growth & development. At the same time it will throw light on the economic history of India through explaining the Trends in macroeconomic, Railways and Economic Change, Indian agricultural scenario and Indian economic conditions at the time of Independence.

B. **Course Outcomes:** At the end of the course, students will be able to:

**BAE 104.1:** Interpret the colonial legacy of the country, strategies of development and subsequent changes in policies, the reason of rapidly expanding British colonial and their purpose behind the expanding industries in India.

**BAE 104.2:** Identify the **Trends in macroeconomic aggregates** such as population, labour force and occupational structure; National Income. Foreign trade and Balance of Payments; Saving and Investment, Money supply and prices.

**BAE 104.3:** Discuss the importance of railways in Indian economics, their role in strengthening the development of the industry and agriculture and the changes occurred after the development of railways in India.

**BAE 104.4:** Explain land, labour, agriculture, technology, commercialization, famines & environment and relationship among all these.

**BAE 104.5:** Discuss deindustrialization and its hypothesis, Industrial labour and growth of entrepreneurship, rise in the industrial sector during the pre-war and the interwar period and the effect of industrial sector on the Indian economy.

**BAE 104.6:** Describe the Indian Economy at Independence and subsequent changes occur during the independence period in Indian Economy.

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

**Bachelor of Arts in Economics Academic Year – 2022-23**

### **Programme Outcomes:**

[PO.1]. Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

[PO.2]. Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

[PO.3]. The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

[PO.4] To prepare the students for working in the Economic world like banking, industries, Education, etc.

[PO.5] Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

[PO.6] Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

[PO.7] Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

[PO.8] Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

[PO.9] Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

[PO.10] Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “- “

### Course Handout

Course :Microeconomics II

Course Code : BAE201, Crédits : 04, Session :2021-22 (Even Sem.), Class : BA. Economics (Hons) 1st  
Year

Faculty Name :

A. **Introduction:** The main objective of this paper is to introduce the students to the concepts of Microeconomics such as Collusive oligopoly models, Cournot and Stackelberg. It aims to develop the skill of decision making in students regarding pricing and output. It aims to teach them the concepts of non-cooperative games, mixed and pure strategies, Nash equilibrium, subgame perfect equilibrium. It introduces them to the concepts of factor pricing and welfare economics.

B. **Course Outcomes:** At the end of the course, students will be able to:

**BAE 201.1:** Interpret decision theory under uncertainty. Understand risk aversion and risk preference. Understand the concept of adverse selection of moral hazard.

**BAE 201.2:** Understand the concept of non - cooperative game theory. Understand Nash equilibrium and sub game perfect equilibrium. Understand the concept of pure and mixed strategies.

**BAE 201.3:** Understand the concept of Collusive oligopoly and learn the application of Prisoner's dilemma of Nash equilibrium. Learn about the models of Oligopoly such as Cournot and Stakelberg.

**BAE 201.4:** Understand the concept of Factor pricing. Understand the difference between firm demand and industry demand. Understand and implement the concepts of derived demand for a single input and multiple inputs in a perfectly competitive market and imperfect competition markets.

**BAE 201.5:** Discuss and apply the concepts of Welfare economics. Apply the concepts of Pareto optimality in pure exchange.

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                                                                            | <b>Code</b> | <b>Weightage %</b> |

## Syllabus

**Module I:** Decision theory under uncertainty: Utility functions and expected utility, Risk aversion and risk preference, insurance and investor's choice. Asymmetric information- Adverse selection of moral hazard (concept only)

## **Module II: Basic notions of non-cooperative game theory**

Complete information games in extensive form (relatively informal introduction) and strategic form; pure and mixed strategies; dominant strategies equilibrium, Nash equilibrium and subgame perfect equilibrium.

## **Module III: Oligopoly**

Conjectural variation & reaction functions, analysis of Cournot & Stackelberg, Collusive Oligopoly and application of Prisoner's Dilemma of Nash equilibrium.

## **Module IV: Factor Pricing**

Derived demand for a single input and multiple inputs in competitive & imperfect competition markets, firm demand and industry demand, collective bargaining and exploitation rent & quasi rent.

## **Module V: Welfare Economics**

Conditions of pareto optimality in pure exchange and with production, optimality of perfect competition.

### **Examination Scheme:**

| <b>Components</b>        | <b>PO<br/>(Attendance)</b> | <b>PI</b> | <b>CI</b> | <b>CT</b> | <b>EE1</b> |
|--------------------------|----------------------------|-----------|-----------|-----------|------------|
| <b>Weightage<br/>(%)</b> | <b>5</b>                   | <b>5</b>  | <b>5</b>  | <b>15</b> | <b>70</b>  |

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

### **Bachelor of Arts in Economics Academic Year – 2022-23**

#### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3: Substantial (High)

If there is no correlation, put “-”

## Syllabus

### Module I

Major features of Indian Economy since Independence

### Module II: Growth, Development and Structural Change

The experience of growth and development: planning and the market.

Growth and development experience in different phases of growth defined broadly (but not exclusively) by reference to changes in policy regimes and goals of development

- i). Growth and structural change
- ii). Growth and distribution
- iii). Human development and environment
- iv). Regional contrasts

Indian development experience in international perspective: factors, strategy and policy

### Module III: Issues in Indian economic policy

Population and Human resource Development

Growth, unemployment and poverty

Macroeconomic stabilization: Trade, Fiscal and Monetary policy issues

Agriculture, industry, services and trade

### Module IV: India's development prospects-looking ahead

**Examination Scheme:**

| Components       | PO<br>(Attendance) | PI | CI | CT | EE1 |
|------------------|--------------------|----|----|----|-----|
| Weightage<br>(%) | 5                  | 5  | 5  | 15 | 70  |

**PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

**Bachelor of Economics (B.A. (Eco.) (Hons.)), Academic Year – 2021-22**

**Programme Outcomes:**

[PO.1]. Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

[PO.2]. Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

[PO.3]. The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

[PO.4] To prepare the students for working in the Economic world like banking, industries, Education, etc.

[PO.5] Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

[PO.6] Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

[PO.7] Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

[PO.8] Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

[PO.9] Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

[PO.10] Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

**A. Introduction:** This course is designed to provide students with an understanding of the data and its relevance in economics and develop an understanding of the quantitative techniques from statistics. A particular emphasis is placed on developing the ability to interpret the numerical information that forms the basis of decision-making in economics. Most of the examples are drawn from a variety of business applications. This course introduces statistical methods in economics and fundamental aspects of decision-making. It examines aspects of business and marketing with regards to basic statistical analysis. Students will be provided with the theoretical concepts, tools and methods of statistics as well as the opportunity to work through example problems.

**B. Course Outcomes:** At the end of the course, students will be able to:

**BAE203.1.** Learn the importance of data, the types of data, methods for collection of data, organization of data, geometrical representation of data and the calculation of a central value in the data set around which most of the data values are clustered and to describe the variability or diversity and to indicate the degree of variation in a set of data values.

**BAE203.2.** Study of existence of relationship in between given statistical variables and use simple regression models to formulate and analyse the underlying relationships between them.

**BAE203.3.** Understand the pattern of the historical data and then extrapolate the pattern into the future. Understand the different approaches to forecasting that can be applied in business. Gain a general understanding of time-series forecasting techniques. Learn how to decompose time-series data into their various components and to forecast by using decomposition techniques.

**BAE203.4.** Explain the purpose of index numbers. Compute indexes to measure price changes and quantity changes over time. Revise the base period of a series of index numbers. Explain and derive link relatives. Discuss the limitations of index number construction.

**C. Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Assessment Plan:**

| <b>Component of Evaluation</b> | <b>Description</b>                                                                                                                                                                                            | <b>Code</b> | <b>Weightage %</b> |

**A. Syllabus**

**Module I: Elementary Distribution Theory**

Univariate Frequency Distributions, measures of location, Dispersion, Skewness and Kurtosis; the first four moments about zero and central moments.

**Module II: Bivariate Distributions and Simple Linear Regression:**

Marginal and conditional distributions: discrete case; Covariance and correlation: rank correlation. Simple

linear regression; method of least squares; Derivation of the normal equation; standard error of regression (SER), properties of the least squares estimator, Gauss- Markov Theorem, Simple tests of hypothesis on regression coefficients.

### **Module III: Time series analysis, linear and exponential trend, forecasting**

### **Module IV: Index Numbers**

Concept of an index number. Laspeyer's, Paasche's and Fisher's Index Numbers; Time Reversal, Factor reversal and circular tests; Chain base index; Problems in the Construction of an index number; splicing; base shifting and use of index number for deflating other series.

#### **B. Examination Scheme:**

| <b>Components</b>    | <b>A</b> | <b>CT</b> | <b>S/V/Q/HA</b> | <b>EE</b> |
|----------------------|----------|-----------|-----------------|-----------|
| <b>Weightage (%)</b> | 5        | 15        | 10              | 70        |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

#### **C. Suggested Text/Reference Books:**

- Sharma, J.K, Fundamentals of Business Statistics, Pearson.
- Allen, R.G.D, Mathematical Analysis for Economics, Macmillan Press, London.
- Black, J. and J.F. Bradley, Essential Mathematics for Economics, John Wiley and Sons.
- Chiang, A.C, Fundamental Method of Mathematical Economics, McGraw-Hill, New Delhi.
- Croxton, F.E., D.J. Cowden and S. Klein, Applied General Statistics, Prentice Hall, New Delhi.
- Gupta, S.C. and V.K. Kapoor, Fundamentals of Applied Statistics, S.Chand and Sons, New Delhi.
- Speigal, M.R, Theory and Problems of Statistics, McGraw-Hill Book, London.

#### **D. Lecture Plan**

## PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES

BA(H) Economics, Academic Year – 2021-22

### Programme Outcomes:

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

| Course Code : BAE301, Crédits : 04, Session :2021-22(Odd Sem.), Class : BA. Economics (Hons) 2 <sup>ND</sup> Year |
| Faculty Name :Dr. Kishan Singh Rathore                                                                            |

- A.** Introduction: This course aims at introducing the fundamentals of Macro economic theories, policies and models in a historical perspective. It will enable the students to develop a critical insight on Classical and Keynesian macro economic models, to understand the relationship between inflation and employment by providing exposure to the constructions of Friedman, Phelps & Phillips.

Course Outcomes:

At the end of the course, students will be able to:

BAE 301.1: Explain the roots of macro economics components and its methodology along with role of government in the country.

BAE 302.2: Demonstrate a way to measure concepts of national income and its related aggregates along with Nominal and real GDP.

BAE 303.3: Understanding the classical model of full employment to determine labor, capital product market equilibrium at the extended model of full employment in the economy.

BAE 304.4: Analyze the simple Keynesian Model and the role of government participation in the economy to measure aggregate equilibrium level and income and suggested fiscal measure and the effect of multiplier on the economy.

BAE 305.5: Evaluate in-depth causes of inflation and its cost , The Fisher effect and apply remedies to overcome these problems in economic policy.

### C Programme Outcomes:

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

#### E. Assessment Plan:

| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| Total                          |                                                                                                                                                                                                               |          | 100%        |

#### F. Syllabus

##### Module I:

###### Introduction to Macroeconomics

The roots of macroeconomics, macroeconomic concerns, the role of government in the macroeconomy, the components of the macroeconomy, the methodology of macroeconomics.

##### Module II:

###### Introduction to National Income Accounting

Concepts of GDP and national income, approaches to calculating GDP, GDP and personal income, Nominal and real GDP, Limitations of the GDP concept, GDP and the black economy.

##### Module III:

###### The Classical System: The Full-Employment Model

Macroeconomic Equilibrium, the labour market, the product market, the capital market; extending the full employment model

##### Module IV:

###### The Simple Keynesian Model

Aggregate expenditure and equilibrium output--aggregate output and aggregate income, equilibrium aggregate output; Government participation in the economy; Fiscal policy at work--The Multiplier effect.

#### Module V:

##### Money in the Modern Economy

Characteristics of a monetary economy; The demand for money; The supply of money and overall liquidity position; credit creation.

#### Module VI: Inflation

The causes of inflation, level of prices and the value of money, The Fisher effect, The cost of inflation

#### G.Examination Scheme:

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

#### H.Suggested Text/Reference Books:

#### Examination Scheme:

| Components    | P0<br>(Attendance ) | P1 | C1 | CT | EE1 |
|---------------|---------------------|----|----|----|-----|
| Weightage (%) | 5                   | 5  | 5  | 15 | 70  |

MADHYA PRADESH

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

**BA(H) Economics, Academic Year – 2021-22**

### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**A. Introduction:** The main objective of this paper is to introduce the students with the principles of public finance, role of different governments, public expenditure, taxation, budget and fiscal policy in India. Further, it will also provide exposure to the students, the role and the function of the government in a modern economy. The government plays different roles and performs varied functions which are different from earlier societies. In this context the public financial functions of the government need to be understood by a student, by studying the relevant theory and empirical analysis.

**B. Course Outcomes:**

At the end of the course, students will be able to:

**BAE 302.1:** Understand the role of government in managing the economy under different economic systems and learn about the social welfare function. Explain the theory of public goods, understand the market failure and Externalities. Discuss problems in allocation of resources, learning theoretical developments in demand revelation for social goods and public choice.

**BAE 302.2:** Understand the theories of Public Expenditure, analyze the structure and growth of public expenditure, learn the criteria for public investment and income redistribution, analyze the expenditure programmes for the poor, discuss social insurance: unemployment insurance, health care, and education, analyze social cost-benefit, benefit estimation and evaluation.

**BAE 302.3:** Understand the theory of taxation, analyze benefit and ability-to-pay approaches, discuss Indian direct and indirect taxes, learn tax reforms since 1975, analyze Chelliah Committee Report, evaluate tax reforms -taxation incidence and alternative concepts of incidence.

**BAE 302.4:** Understand Budget, learn concept of PPB, discuss Zero-based budgeting and Deficit Budgeting, understand types of Deficits and learn about Public Debt: Trends and composition of Indian Public Debt, discuss Debt management.

**BAE 302.5:** Discuss Fiscal Policy and understand role of Fiscal Policy in India, learn the Principles of Fiscal federalism in India, discuss vertical and horizontal imbalance, analyze Finance Commission and Planning Commission and understand issues in revenue devolutions and Grants -in-Aid - Local Finance.

### **C Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**E. Assessment Plan:**

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

### **BA(H) Economics, Academic Year – 2021-22**

#### **Programme Outcomes:**

[PO.1]. Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

[PO.2]. Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

[PO.3]. The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

[PO.4] To prepare the students for working in the Economic world like banking, industries, Education, etc.

[PO.5] Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

[PO.6] Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

[PO.7] Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

[PO.8] Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

[PO.9] Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

[PO.10] Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

### **Bachelor of Arts in Economics Academic Year – 2022-23**

#### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note: - Correlation levels 1, 2 and 3 as defined below:**

**1: Slight (Low), 2: Moderate (Medium) and 3: Substantial (High)**

**If there is no correlation, put “- “**

## BACHELOR OF ARTS(HONOURS)- ECONOMICS

### Course Handout

Course : Business Information & Data Base System

Course Code : BAE 402, Crédits : 04, Session:2021-22(Even Sem.), Class : BAE. 2nd Year

A. **Introduction:** This subject aims at providing the basic knowledge on Business information and Data Base System. To enable students to gain knowledge on effectiveness and efficiency of information systems in business functions. To develop skills on internet, communication channels and communication network.

B. **Course Outcomes:** At the end of the course, students will be able to:

**BAE 402.1** Describe the ideas of Business information and Data base system.

**BAE 402.2** Apply various strategies using information systems.

**BAE 402.3** Apply the Information systems in Business Functions.

**BAE 402.4** Describe the Data warehouse and Data mining concepts.

**BAE 402.5** Develop skills on internet and communication network.

### C. Programme Outcomes:

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**D. Assessment Plan:**

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code         | Weightage % |

**F. Syllabus**

**Module I:**

Business Information Systems- Meaning and Evolution- Types- System Concepts- Components- Information System Activities.

**Module II:**

Strategies, Uses of Information Systems - Strategy and Strategic Moves- Achieving Competitive Advantage.

**Module III:**

Information System in Business Function- Effectiveness and Efficiency- Manufacturing and Inventory Control- Enterprise and Resource Planning.

**Module IV:**

Database Management- Foundation Data Concepts- Database Management Approach- Types of Database.

**Module V:**

Data Warehouses - Data Mining - Databases on the Web knowledge Management- Internet communication channels and communication networks

**G. Examination Scheme:**

| Components    | P0 (Attendance) | P1 | C1 | CT | EE1 |
|---------------|-----------------|----|----|----|-----|
| Weightage (%) | 5               | 5  | 5  | 15 | 70  |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

**Bachelor of Arts in Economics Academic Year – 2022-23**

### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note: - Correlation levels 1, 2 and 3 as defined below:**

**1: Slight (Low), 2: Moderate (Medium) and 3: Substantial (High)**

**If there is no correlation, put “- “**

# AMITY UNIVERSITY

MADHYA PRADESH

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

### **Bachelor of Arts in Economics Academic Year – 2022-23**

#### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

MADHYA PRADESH

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

## **PROGRAMME OUTCOMES AND PROGRAMME SPECIFIC OUTCOMES**

### **Bachelor of Arts in Economics Academic Year – 2022-23**

#### **Programme Outcomes:**

**[PO.1].** Identify and explain economic concepts and theories, and create models that connect to a wide variety of interdisciplinary and real-life contexts

**[PO.2].** Apply knowledge and skills in economics, mathematics, statistics, and analytical software for conducting original and independent social science research.

**[PO.3].** The programme aims at enhancing the ability of students to analyse and interpret data to take effective managerial decisions in organizational departments both at national and international levels.

**[PO.4]** To prepare the students for working in the Economic world like banking, industries, Education, etc.

**[PO.5]** Apply knowledge and skill in the field of Economics, research, statistics, mathematics and will be able to have the employability in these areas.

**[PO.6]** Demonstrate the traits of an ethical global citizen by bringing in various perspectives, interests and biases, and articulate their effects in shaping, forming and manipulating worldviews in a cross-cultural environment

**[PO.7]** Analyse and present critical perspectives on social issues, especially related to gender and environment, through an interdisciplinary lens

**[PO.8]** Develop and demonstrate employability and entrepreneurial skills to explore their own innovative competence and integrate their lived experiences into becoming effective leaders

**[PO.9]** Demonstrate social sensitivity and Develop social awareness through activities such as service-learning and formulate constructive ways of engaging with different communities

**[PO.10]** Exhibit self-motivation, adaptability and respect for peers in personal and professional engagements.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “-”

### AMITY BUSINESS SCHOOL

#### Course Handout

Course : ECONOMETRICS : BASIC THEORY AND APPLICATIONS

Course Code : BAE603, Crédits : 04, Session :2021-22 (Even Sem.), Class : BA. Economics (Hons)  
3rdYear

**A. Introduction:** The main objective of this paper is to make the students learn the core concepts and techniques in econometrics, with a special focus on the classical linear regression model. It aims to make the students to learn the use statistical software to implement the various techniques taught employing secondary data and demonstrate ability to analyse and assess empirical results. It aims to make the students to learn the application of and interpretation of specification analysis.

**B. Course Outcomes:** At the end of the course, students will be able to:

**BAE 603.1:** Explain core concepts and techniques in econometrics, with a special focus on the classical linear regression model.

**BAE 603.2:** Understand the assumptions upon which different econometric methods are based and their implications

**BAE 603.3** Use statistical software to implement the various techniques taught employing secondary data and demonstrate ability to analyse and assess empirical results

**BAE 603.4:** Interpret and critically evaluate applied work and econometric findings.

**BAE 603.5:** Apply and interpret specification analysis.

**BAE 603.6:** Interpret and apply Cobb Douglas Production Function. Estimate Consumption function.

| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A           | 5%                 |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE          | 70%                |
| <b>Total</b>                   |                                                                                                                                                                                                               |             | <b>100%</b>        |

## Syllabus

### Module I: Nature and scope of econometrics

### Module II: Classical Linear Regression Model: Two Variable Case

Descriptive Aspects

Properties of Least Squares estimates; tests of hypotheses and confidence intervals; Gauss - Markov Theorem

Forecasting

### Module III: Classical Multiple Linear Regression Model.

Descriptive Aspects: Least Squares Estimation;  $R^2$  and Adjusted  $R^2$ ; Partial Correlations

The Classical Model: Gauss - Markov Theorem; Standard Error of Estimate Standard errors of regression coefficients

Functional Forms of Regression Models

Dummy Variables-distributed lags - need, limitation and interpretation in Economics

### Module IV: Violations of Classical Assumptions and Remedies

Multicollinearity

Heteroscedasticity

Auto-correlation

### Module V: Specification Analysis

Omission of a relevant variable

Inclusion of irrelevant variable

Tests of Specification Errors

### Module VI: Simple Applications of Least Square

Estimation of Cobb-Douglas Production function

Estimation of Consumption function

### Examination Scheme:

| Components    | P0<br>(Attendance) | P1 | C1 | CT | EE1 |
|---------------|--------------------|----|----|----|-----|
| Weightage (%) | 5                  | 5  | 5  | 15 | 70  |
