| Course : <b>Cost and Management Accounting</b>                                                     |
| Course Code : BBA 305, Crédits : 03, Session :2021-22 (Odd Sem.), Class : BBA 2 <sup>nd</sup> Year |
| Faculty Name : Dr. Sudarshana Sharma                                                               |

**Introduction:** The course aims at developing an insight into cost accounting, its need and the various methods used to determining the cost of production, preparation of cost sheet, allocation and absorption of overheads, break even analysis, variance analysis and budgeting.

**A. Course Outcomes:** At the end of the course, students will be able to:

**BBA305.1.** Get an overview of Cost Accounting, its concept, scope and nature. The students will be able to differentiate between management accounting and financial accounting, understand methods of costing, different cost concepts, how to prepare cost sheet and will be able to know the relevant cost which are used for decision making.

**BBA305.2.** Understand the material pricing and method of costing. The students will get acquainted different methods of pricing the material and various methods used in costing such as job costing, batch costing, contract costing, single costing, process costing etc.

**BBA305.3.** Know about Overhead allocation and absorption. The students will be able to know how to do accounting for factory overheads, administration overheads, classification of selling and distribution overheads, and activity-based costing.

**BBA305.4.** Understand the concept of marginal costing and Cost volume profit analysis. The students will be able to calculate the fixed & variable cost, cost volume profit ratio, break-even point, calculation of sales at desired profits.

**BBA305.5.** Get an overview of concept of budgetary control, objectives of budgetary control. The students will be able to prepare purchase budget, production budget, cash budget, fixed and flexible budget.

**BBA305.6.** Understand the concept and calculations of Variance, Material cost Variance, Material Price variance, labour cost variance and Overhead Variance.

**B. Programme Outcome:**

**[PO.1]. Knowledge of Business, Management and Emerging Technologies:** Have a broad body of knowledge in business management concepts, current practices in a global business environment and emerging technologies to support, sustain and innovate business.

**[PO.2]. Research and Business Intelligence:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Creativity and Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4].Environment Analysis:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Working in team:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Problem Solving and Decision Making:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Intercultural Competence/Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Global Citizenship/Ethics (Collaborate, Negotiate and Resolve Conflicts):** Define, explain and illustrate the foundations of business ethics, and in preparing for citizenship, both local and global. Recognise, explain and illustrate the importance of ethical conduct and resolve ethical issues in business.

**D. Assessment Plan:**

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                                                    | CT       | 15%         |
|                                | Project/Assignment/Quiz/Presentation                                                                                                                                                                          | P/A/Q/PR | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

**E. Syllabus**

**Module I: Introduction to Cost Accounting**

Meaning, nature and scope of cost accounting. Differentiate cost accounting from management accounting and financial accounting. Methods of costing. Cost concepts and numerical on preparation of cost sheet. Relevant costs for decision-making.

**Module II: Material Pricing & Methods of Costing**

Methods of pricing materials. Actual cost method, First in First out method, Last in First out method, Weighted Average method (numericals), Highest in First out method, Replacement Cost method, Introduction to various methods used in costing: job costing, batch costing, contract costing, single costing, process costing, services or operating costing (no numericals).

Case Study: “**Cortland Manufacturing, Inc**” (<http://www.chegg.com/homework-help/questions-and-answers/maneagerial-accounting-case-study-case-assignment-1-cortland-manufacturing-inc>)

**Module III: Overhead Allocation and Absorption**

Introduction and classification of overheads. Accounting for factory overheads, Accounting for the administration overheads. Definition and classification of Selling and Distribution overheads and numericals on the same. Introduction to Activity Based Costing.

#### **Module IV: Marginal Costing and Cost Volume Profit Analysis**

Marginal Costing – Fixed & variable cost, meaning & characteristics of marginal costing profit/volume ratio. Limiting or key factor, break-even analysis and calculation of sales for desired profit and numericals on the same.

#### **Module V: Budgetary Control**

Budgetary Control, objective of budgetary control, preparation of purchase budget, production budget, cash budget, fixed & flexible budgets and zero base budgeting.

#### **Module VI: Variance Analysis**

Concept of variance. Material Cost Variance, Material Price Variance and numericals on the same. Labour cost Variance, Labour Rate Variance and numericals on the same. Concept of overhead variance.

#### **F. Examination Scheme:**

| <b>Components</b>    | <b>CT</b> | <b>HA/C/V</b> | <b>A</b> | <b>EE</b> |
|----------------------|-----------|---------------|----------|-----------|
| <b>Weightage (%)</b> | <b>15</b> | <b>10</b>     | <b>5</b> | <b>70</b> |

(C - Case Discussion/ Presentation; HA - Home Assignment; Q – Quiz; V - Viva; CT - Class Test; A - Attendance; EE - End Semester Examination)

#### **G. Suggested Text/Reference Books:**

Text:

- Cost Accounting, S.P Jain & K.L Narang

| 3  | Differentiate cost accounting from management accounting and financial accounting. | Lecture | BBA305.1 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 4  | Methods of costing                                                                 | Lecture | BBA305.1 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 5  | Cost Concepts and Numericals on preparation of cost sheet                          | Lecture | BBA305.1 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 6  | Relevant Costs for Decision Making                                                 | Lecture | BBA305.1 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 7  | Material Pricing and Methods of Costing- Introduction                              | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 8  | Actual Cost Method, FIFO method                                                    | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 9  | LIFO method and Weighted average cost methods                                      | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 10 | HIFO method and replacement cost method                                            | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 11 | Introduction to various methods used in costing                                    | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 12 | Job Costing and Batch Costing                                                      | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 13 | Contract Costing, Single Costing                                                   | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 14 | Process Costing                                                                    | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 15 | Operating costing                                                                  | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 16 | Case Study: Cortland Manufacturing, INC.                                           | Lecture | BBA305.2 | Mid-Term, Assignment/Quiz & End Sem Examination |
| 17 | Overhead Allocation and Absorption- Introduction                                   | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination                 |

|    |                                                                                            |         |          |                                 |
|----|--------------------------------------------------------------------------------------------|---------|----------|---------------------------------|
| 18 | Introduction and Classification of overheads                                               | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination |
| 19 | Accounting for factory overheads                                                           | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination |
| 20 | Accounting for the administration Overheads                                                | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination |
| 21 | Definition and classification of selling and distribution overheads                        | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination |
| 22 | Numerical                                                                                  | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination |
| 23 | Introduction to activity based costing                                                     | Lecture | BBA305.3 | Viva/Quiz & End Sem Examination |
| 24 | Introduction to marginal costing and cost volume profit analysis                           | Lecture | BBA305.4 | Viva/Quiz & End Sem Examination |
| 25 | Marginal Costing-Fixed and Variable cost                                                   | Lecture | BBA305.4 | Viva/Quiz & End Sem Examination |
| 26 | Meaning and Characteristic of marginal costing                                             | Lecture | BBA305.4 | Viva/Quiz & End Sem Examination |
| 27 | Calculating Marginal Costing profit volume ratio                                           | Lecture | BBA305.4 | Viva/Quiz & End Sem Examination |
| 28 | Limiting Key Factor and Calculating break-even analysis and calculation for desired profit | Lecture | BBA305.4 | Viva/Quiz & End Sem Examination |
| 29 | Introduction to budgetary control and Its objective                                        | Lecture | BBA305.5 | Viva/Quiz & End Sem Examination |
| 30 | Preparation of Purchase Budget and Production Budget                                       | Lecture | BBA305.5 | Viva/Quiz & End Sem Examination |
| 31 | Preparing Cash Budget, Fixed and Flexible Budget                                           | Lecture | BBA305.5 | Viva/Quiz & End Sem Examination |
| 32 | Concept of zero base budgeting                                                             | Lecture | BBA305.5 | Viva/Quiz & End Sem Examination |
| 33 | Introduction to variance analysis, Concept of variance, material cost variance             | Lecture | BBA305.6 | Viva/Quiz & End Sem Examination |

|                              |                                                                                                                                                                                                                                                                                                                                               |   |   |   |   |   |   |   |   |   |  |  |  |  |

### **PROGRAMME OUTCOMES**

#### **Bachelor of Business Administration, Academic Year – 2021-22**

##### **Programme Outcomes:**

**[PO.1]. Knowledge of Business, Management and Emerging Technologies:** Have a broad body of knowledge in business management concepts, current practices in a global business environment and emerging technologies to support, sustain and innovate business.

**[PO.2]. Research and Business Intelligence:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Creativity and Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment Analysis:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Working in team:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Problem Solving and Decision Making:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Intercultural Competence/Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Global Citizenship/Ethics (Collaborate, Negotiate and Resolve Conflicts):** Define, explain and illustrate the foundations of business ethics, and in preparing for citizenship, both local and global. Recognise, explain and illustrate the importance of ethical conduct and resolve ethical issues in business.

## DEPARTMENT OF Management

### Course Handout

Course : Research Methodology and Report Preparation

Course Code : BBA 403, Crédits : 03, Session :2021-22(Even Sem.), Class : BBA 2nd Year

Faculty Name :

- A. To understand the way in which systematic research can be conducted to describe, explain, and predict phenomena of interest; To develop practical knowledge and skills to understand and carry out research projects; To develop understanding of the basic techniques and tools for conducting research; To develop contents and organization of both the written report and oral presentation for which the research study was done.

- B. **Course Outcomes:** At the end of the course, students will be able to:

**BBA 403.1** To learn about Conceptualization and Formulation of a Research Problem, Introduction to Research Design

**BBA 403.2** to study about Concept of Primary And Secondary Data; Data Collection Methods: Observation, Survey, Questionnaire; Steps in Constructing Questionnaire

**BBA 403.3** to study about Concept Nature of Sampling, Steps of Sampling Design, Sampling Frame, Sample Selection Methods

**BBA 403.4** To understand about Fieldwork procedure, Common sources of error in the fieldwork

**BBA 403.5** To study about the Data analysis-I: Test of significance Z, t, F and chi-square

**BBA 203.6** To learn about Research presentation and research process examination

**Programme Outcomes:**

**[PO.1]. Knowledge of Business, Management and Emerging Technologies:** Have a broad body of knowledge in business management concepts, current practices in a global business environment and emerging technologies to support, sustain and innovate business.

**[PO.2]. Research and Business Intelligence:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Creativity and Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4].Environment Analysis:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Working in team:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Problem Solving and Decision Making:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Intercultural Competence/Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Global Citizenship/Ethics (Collaborate, Negotiate and Resolve Conflicts):** Define, explain and illustrate the foundations of business ethics, and in preparing for citizenship, both local and global. Recognise, explain and illustrate the importance of ethical conduct and resolve ethical issues in business.

#### C. Assessment Plan:

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                                                    | CT       | 15%         |
|                                | Mid Term 2                                                                                                                                                                                                    |          |             |
|                                | Seminar/Viva-Voce/Quiz/Home Assignment                                                                                                                                                                        | S/V/Q/HA | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

#### D. Syllabus

#### Module I: Introduction

**Meaning and Importance of Research, Conceptualization and Formulation of a Research Problem, Introduction to Research Design, Scales and Measurements: Ordinal, Nominal, Ratio, Interval, Likert. Preliminary Research: Literature Review, Construction of Hypotheses**

#### Module II: Data collection methods

**Primary And Secondary Data; Data Collection Methods: Observation, Survey, Questionnaire; Steps in Constructing Questionnaire, Type of Questions, Introduction to Projective techniques**

#### Module III: Sampling

**Nature of Sampling, Steps of Sampling Design, Sampling Frame, Sample Selection Methods - Probability and Non Probability, Sample Size, Sampling Errors and Principles of Sampling.**

#### Module IV: Data Collection Field Work

**Fieldwork procedure, Common sources of error in the fieldwork, Minimizing fieldwork errors, Tabulation of collected data**

#### Module V: Data Analysis

**Data analysis-I: Test of significance Z, t, F and chi-square, Data analysis-II: Correlation and Regression techniques, Data analysis – III: Introduction to Statistical Package**

#### Module VI: Report Writing

**Research presentation and research process examination; Report writing – Format and Types of research report.**

#### **Examination Scheme:**

| <b>Components</b>    | <b>A</b> | <b>CT</b> | <b>S/V/Q/HA</b> | <b>EE</b> |
|----------------------|----------|-----------|-----------------|-----------|
| <b>Weightage (%)</b> | 5        | 15        | 10              | 70        |

CT: Class Test, HA: Home Assignment, S/V/Q: Seminar/Viva/Quiz, EE: End Semester Examination; A: Attendance

#### **E. Suggested Text/Reference Books:**

Luck, David J and Rubin, Ronald S., Marketing Research(7th edition), Prentice Hall of India  
Aaker, David A; Kumar V and George S., Marketing Research(6th edition), John Wiley & Sons.  
**Boyd, Harper W, Westphall, Ralph & Stasch, Stanely F, Market Research : Text & Cases, Richard D. Irwin Inc.**

#### **F. Lecture Plan**

| <b>Lecture</b> | <b>Topics</b>                                                                                      | <b>Mode of Delivery</b> | <b>Corresponding CO</b> | <b>Mode of Assessing CO</b>     |
|----------------|----------------------------------------------------------------------------------------------------|-------------------------|-------------------------|---------------------------------|
| 1              | <b>Meaning and Importance of Research, Conceptualization and Formulation of a Research Problem</b> | Lecture                 | BBA 403.1               | Mid Term-1, Quiz & End Sem Exam |

|    |                                                                                |         |           |                                 |

| Course Code : BBA 405, Crédits : 04, Session :2021-22(Odd Sem.), Class : BBA |
| Faculty Name :                                                               |

**A. Introduction:** In the changed business environment of today, it has become imperative for businesses to understand, appreciate and learn to create their presence in cyber space. This course focuses on exposing the students to the world of e-commerce, the opportunities, and the threats and teaches them the strategies of making businesses viable and successful.

**B. Course Outcomes:** At the end of the course, students will be able to:

**BBA 405.1.** To focus on the three major driving forces that permeate all aspects of e-commerce: business development and strategy, technological innovations, and social and legal issues and impacts

**BBA 405.2.** Covers E-commerce technology infrastructure, business concepts, social issues and real-world experiences.

**BBA 405.3.** To know the concept of e-commerce and its (r)evolution. Understand current Internet business models and strategies

**4. BBA 405.4.** Able to Explain and develop solutions for implementing an e-commerce web presence. Discuss major ethical and legal issues surrounding e-commerce

5. **BBA 405.5.** To understand implement, in simulation or authentically, an e-commerce presence. Create a marketing and promotional plan for an e-commerce presence.

**C. Programme Outcomes:**

**[PO.1]. Knowledge of Business, Commerce and Emerging Technologies:** The program will enable students to develop business acumen, managerial skills and abilities and be capable of maintaining business accounts using innovative emerging technologies. The course will provide thorough knowledge of finance, HR, marketing, international business, corporate & business laws, accounting and taxation etc.

**[PO.2]. Handling of trade, commerce and industry:** The course will develop the required knowledge, skills and attitude for the handling of trade, commerce and industry

**[PO.3]. Problem-solving and decision making:** Developing the ability to identify, formulate and provide creative and innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Business Environment Analysis:** The course will develop the ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Understanding business processes and work teams:** Will enable students understand business processes and work teams for better business outcomes.

**[PO.6]. Think critically and independently:** The program will develop the ability to think critically and independently translating into a well developed personal value system.

**[PO.7]. Ability to identify entrepreneurial opportunities:** The program will encourage entrepreneurship spirit among students and encourage them to participate effectively in social, commercial and civic issues ultimately leading to national development.

**[PO.8]. Developing Business Communication:** Developing effective presentation and business communications skills for communicating effectively in the business environment and with various stakeholders at large.

**[PO.9]. Research and Business Intelligence:** The program will develop the capacity to understand and analyse the business and commerce knowledge, developing a research acumen for innovative business solutions.

**[PO.10]. Responsible Professionals/Future leaders:** The program will develop the foundations of business ethics, prepare responsible global business leaders/citizens, establishing the importance of ethical conduct in business at national and international levels.

**D. Programme Specific Outcomes:**

#### E. Assessment Plan:

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |

**AMITY BUSINESS SCHOOL**

**Course Handout**

Course : **Personal Financial Planning**

Course Code : BBA 502, Crédits : 04, Session :2021-22 (Odd Sem.), Class : BBA V Year

Faculty Name : Dr. Sudarshana Sharma

**Introduction:** The aim of the course is to orient the student to the recent changes in the financial institutions and financial services industry and their link to economic development. The financial institutions and services are changing rapidly. A course that merely describes the existing institutions and services will not prepare you for the change. Thus you must familiarize yourself with the services available in the industry today and understand why they are the way they are and why they are changing. An Indian perspective will be given.

| <b>Course Handout</b>                                                                |  |
| Course : <b>Financial Services</b>                                                   |  |
| Course Code : BBA 507, Crédits : 04, Session :2021-22 (Odd Sem.), Class : BBA V Year |  |
| Faculty Name : Dr. Sudarshana Sharma                                                 |  |

**Introduction:** The aim of the course is to orient the student to the recent changes in the financial institutions and financial services industry and their link to economic development. The financial institutions and services are changing rapidly. A course that merely describes the existing institutions and services will not prepare you for the change. Thus you must familiarize yourself with the services available in the industry today and understand why they are the way they are and why they are changing. An Indian perspective will be given.

| CO1 | Q.<br>1  | What is a derivative? Explain the characteristics of a derivative.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 3  |
| CO2 | Q.<br>2a | What is meant by a futures? Explain different types of futures contracts.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 3  |
|     | Q.<br>2b | A sugar mill in Uttar Pradesh is expected to produce 100 MT of sugar in the month of April. The current price today (in the month of February) is Rs. 22 per kg. April future contract in sugar due on 20 April is trading at Rs. 25 per kg. The sugar mill apprehends that a lesser price than Rs. 25 per kg will prevail in April due to excessive supply expected at that time. How can the sugar mill hedge its position against the anticipated decline in sugar prices in April? (Quantity to be hedged is 100 MT and Quantity in each future contract is 10 MT) | 3  |
| CO2 | Q.<br>3  | Explain the following concepts with reference to future contracts:<br>1- Short Position and Long Position<br>2- Speculation with Futures<br>3- Margin                                                                                                                                                                                                                                                                                                                                                                                                                  | 6  |
| CO3 | Q.<br>4  | What are options? Explain the concepts of strike price, underlying price and option premium.                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 3  |
| CO2 | Q.<br>5  | Explain the different types of future contracts.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 3  |
|     | Q.<br>5  | Differentiate between future and forwards contracts.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 3  |
| CO1 | Q<br>6   | What are stock indices? Discuss about few of the Indian stock indices with their basis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 6  |

### C. Syllabus

## TRAINING AND DEVELOPMENT

**Course Code: BBA 511**

**Credit Units: 04**

### Course Objective:

The objective of the course is to help students acquire and enhance their knowledge of how to plan, develop, carry out, and evaluate training and executive development programmes in Business Organizations.

### Course Contents:

#### Module I: Introduction

Meaning and definition of training, Training vs education, Culture and Context, Introduction to training Strategy.

#### Module II: Process of Training

Establishing objectives, training need assessment (Person Analysis, Task Analysis, Organization Analysis, designing the programs, training methods, trainers and training styles, Introduction to Management Development program.

#### Module III: Evaluation of Training & Development

Training Evaluation – Need for evaluation, Measuring Training Effectiveness, Concept of Return on Investment, Cost – Benefit Analysis, Models of Training Evaluation.

#### Module IV: Training Systems

Action Research for better training, knowledge management, career development, succession planning, diversity training, orientation training.

**Module V:** Changes in Training Needs for Modern Organizations. Concept and Need for Learning Organizations, Trainer Identification) & Training for Trainers, Leadership, Basics of Sensitivity Training, Computer Based Training. Training transfer to workplace

#### Module VI: Development

Executive Development – significance & nature, identifying development needs and setting objectives. Techniques of development and advantages. Role of HRD in 21<sup>st</sup> Century.

**Assignment** – Visit an Organization & find out their training needs.

### Examination Scheme:

| Components    | CT | HA/C/V | A | EE |
|---------------|----|--------|---|----|
| Weightage (%) | 15 | 10     | 5 | 70 |

| <b>Name</b>           | BBA               |
| <b>Semester</b>       | 6th Semester      |
| <b>Subject Code</b>   | BBA 607           |
| <b>Subject Name</b>   | Retail Management |

|                         |                                                 |
|-------------------------|-------------------------------------------------|
| <b>Attainment Level</b> | 52% of the students secured more than 60% marks |
|-------------------------|-------------------------------------------------|

### Note:

#### Attainments

Level 1  
Level 2  
Level 3

#### Rubric

IF 60% of students secure more than 60% marks then level 1 IF  
70% of students secure more than 60% marks then level 2 IF  
80% of students secure more than 60% marks then level 3

# AMITY UNIVERSITY

MADHYA PRADESH

Established vide Government of Madhya Pradesh Act No. 27 of 2010

**AMITY UNIVERSITY MADHYA PRADESH, GWALIOR**

**AMITY BUSINESS SCHOOL**

**DEPARTMENT OF BUSINESS MANAGEMENT**

| AMITY BUSINESS SCHOOL                    |
| DEPARTMENT OF BUSINESS MANAGEMENT        |

## **PROGRAMME OUTCOMES**

**Master of Business Administration**

**2021-2022**

### **Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

If there is no correlation, put “-”

| Course Handout                                                                        |
| Course : MANAGERIAL (MICRO) ECONOMICS                                                 |
| Course Code : MBA103, Crédits : 03, Session :2021-22(Odd Sem.), Class : MBA. 1st Year |
| Faculty Name :                                                                        |

**A. Introduction:** The objective of this course is to impart the knowledge of micro economics as a subject and its importance while business. The business decisions are made scientifically on the basis of all available information. So understanding and interpreting basic economic concepts/variables for e.g. demand and supply functions, forecasting demand, productions, costs will make them aware of various operations carried in business.

**B. Course Outcomes:** At the end of the course, students will be able to:

**MBA103.1** To understand the concepts of cost, nature of Economic Analysis and its relationship to Business operations.

**MBA103.2.** To apply marginal Theory of Demand and Supply under different market conditions.

**MBA103.3** To analyse Theory of Production and Cost of different market conditions.

**MBA103.4** To integrate the concept of price and output decisions of firms under various market structure.

**C. Programme Outcomes:**

**[PO.1].Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2].Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4].Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**D. Assessment Plan:**

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|

| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

**E. Syllabus**

**Module I: Theory of Demand and Supply**

Nature and scope of economic analysis: its relevance for managerial decision making, Demand analysis: nature of demand for a product- individual demand and market demand, demand by market segmentation. Demand function and determinants of demand.

Demand Analysis- II Marshallian, Hicksian and Revealed Preferences approaches.

Concept of elasticity of demand- income, cross, price and advertizing elasticity. Theorems on the price elasticity of demand. Applications of the concept of price elasticity of demand in business decisions.

## **Module II: Theory of Production and Cost**

Production analysis: Production function-neo-classical, Cobb- Douglas, Leontief. Least cost combination of inputs for a firm. Concept of an isoquant-smooth curvature and right angle. Returns to scale and returns to a factor. Expansion path of a firm. Cost Analysis: Cost relevant for management decision making. Economies of scale: Cost Function: Cost and output relationship. An Analysis of the Objectives of a Business Firm: Profit Maximization Model, Baumol's Sales Maximization Model, Marris's Model of 'Managerial Enterprise' Williamson's Model Of 'Managerial Discretion.

## **Module III: Market Structure: Price and Output Decisions**

Pricing and Output decisions – Perfectly Competitive and Monopoly Market Pricing and Output Decisions- Under Monopolistically Competitive Market- Product Differentiation; Price Discriminating Monopolist; Models of Oligopolistic Market: Price Rigidity – The Kinky Demand Curve Model Interdependence - The Cournot Model, Price Leadership Models, Cartels and Collusion. Game theory and its applications

### **F. Examination Scheme:**

| <b>Components</b>    | <b>Mid Term Exam</b> | <b>Attendance</b> | <b>Project/Assignment/Quiz/<br/>Presentation</b> | <b>ESE</b> |
|----------------------|----------------------|-------------------|--------------------------------------------------|------------|
| <b>Weightage (%)</b> | 15                   | 5                 | 10                                               | 70         |

### **G. Suggested Text/Reference Books:**

- Gupta, G.S. (2006), Managerial Economics, Tata McGraw Hill
- Peterson, H.C and Lewis, W.C. (2005), Managerial Economics, Prentice Hall of India
- R Ferguson, R., Ferguson, G.J and Rothschild, R. (1993) Business Economics, Macmillan India.
- Chandra, P.(2006), Project: Preparation, Appraisal, Implementation and Review, Tata McGraw Hill.

| Course : Marketing Management                                                                  |
| Course Code : <b>MBA 104</b> , Crédits : 03, Session :2021-22 (Odd Sem.), Class : MBA 1st Year |
| Faculty Name : Prof. (Dr.) Anil Vashisht                                                       |

**A. Introduction:** Marketing management course enables a student to understand the fundamentals of marketing concept and the role marketing plays in business. Students should be able to demonstrate their comprehension of marketing concepts and knowledge by applying those in their written exams, case studies discussions, presentations, and projects. The course methodology encourages students to explore for themselves the role of a marketing manager and the boundaries of marketing.

**B. Course Outcomes:** At the end of the course, students will be able to:

**MBA104.1.** The course will sensitize participants with the knowledge of the business environment and domain knowledge of the impact of the environment on the decisions and activities of a marketer.

**MBA104.2.** It will also develop critical thinking, business analytical, problem solving and innovative solution development abilities in the participant.

**MBA104.3.** Through the course participants will also become sensitive to the social responsiveness and ethical issues that a marketer needs to adhere to. Effective communication is an area that a marketing student must be well versed with, and this would be coupled with development of leadership skills and the ability to work in teams.

**MBA104.4.** With this the broader learning outcome of this course will be to provide the students exposure to modern marketing concepts, tools, and techniques, and help them develop abilities and skills required for the performance of marketing functions.

**C. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyses the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and

motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

| <b>MBA104.1</b> | The course will sensitize participants with the knowledge of the business environment and domain knowledge of the impact of the environment on the decisions and activities of a marketer                                                                                                                                                             | <b>2</b> |          | <b>3</b> | <b>3</b> |          | <b>3</b> |          | <b>2</b> |          |          |   |   |   |
| <b>MBA104.2</b> | It will also develop critical thinking, business analytical, problem solving and innovative solution development abilities in the participant.                                                                                                                                                                                                        |          | <b>3</b> | <b>2</b> |          |          | <b>2</b> | <b>3</b> | <b>2</b> | <b>1</b> | <b>3</b> |   |   |   |
| <b>MBA104.3</b> | Through the course participants will also become sensitive to the social responsiveness and ethical issues that a marketer needs to adhere to. Effective communication is an area that a marketing student <i>must</i> be well versed <i>with</i> , and this would be coupled with development of leadership skills and the ability to work in teams. |          | <b>3</b> |          | <b>3</b> |          |          | <b>2</b> |          | <b>3</b> |          |   |   |   |
| <b>MBA10.4</b>  | With this the broader learning outcome of this course will be to provide the students exposure to modern marketing concepts, tools, and techniques, and help them develop abilities and skills required for the performance of marketing functions.                                                                                                   |          | <b>3</b> |          | <b>3</b> | <b>3</b> | <b>1</b> | <b>2</b> |          | <b>3</b> |          |   |   |   |

## E. Syllabus

### Module I

Role of statistics: Applications of inferential statistics in managerial decision-making; Tabulation and Presentation of Data: Construction of frequency distribution, Presentation of Data –Diagrams, Graphical Presentation - Histogram - Frequency polygon - Frequency curve - Ogives.  
Measures of central tendency: Mean, Median and Mode and their implications;

### Module II

Measures of Dispersion: Range, Mean deviation, Standard deviation, Coefficient of Variation ( C.V.), Skewness, Kurtosis.  
Probability: Basic Concept of probability and its uses in business decision-making; Addition and multiplication theorems; Bayes' Theorem and its applications.

### Module III

Sampling and Sampling Distribution

Sampling: Basic Concept, Types of Sampling Errors and Precautions, Parameter and Statistic, Sampling Distribution of the mean, Sampling distribution of proportion, Estimation – point estimation, Interval Estimation of the mean -  $\sigma$  known &  $\sigma$  unknown cases, interval estimation of the proportion, determining of sample size for estimating population mean  $\mu$ , determination of sample size for estimating proportion.

## F. Examination Scheme:

| Components    | Mid Term Exam | Attendance | Project/Assignment/Quiz/Numerical/ Presentation | ESE |
|---------------|---------------|------------|-------------------------------------------------|-----|
| Weightage (%) | 15            | 5          | 10                                              | 70  |

## G. Suggested Text/Reference Books:

- Gupta C B, Gupta V - An Introduction to Statistical Methods (Vikas1995, 23rd Edition).
- Sharma J K - Business statistics (Ane's Student Edition)
- Render and Stair Jr - Quantitative Analysis for Management (Prentice-Hall, 7th edition)
- Levin Rubin - Statistics for Management (Pearson 2000, New Delhi, 7th Edition).

## H. Lecture Plan

| Lecture | Topics                                                               | Mode of Delivery | Corresponding CO | Mode of Assessing CO            |
|---------|----------------------------------------------------------------------|------------------|------------------|---------------------------------|
| 1       | Applications of inferential statistics in managerial decision-making | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 2       | Tabulation and Presentation of Data                                  | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 3       | Construction of frequency distribution                               | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 4       | Presentation of Data                                                 | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 5       | Graphical Presentation - Histogram                                   | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 6       | Frequency polygon - Frequency curve - Ogives                         | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 7       | Measures of central tendency                                         | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 8       | Mean                                                                 | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 9       | Median                                                               | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 10      | Mode and its implications                                            | Lecture          | MBA106.1         | Mid Term-1, Quiz & End Sem Exam |
| 11      | Range                                                                | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 12      | Mean deviation                                                       | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 13      | Standard deviation                                                   | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 14      | Coefficient of Variation (C.V.)                                      | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 15      | Skewness                                                             | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 16      | Kurtosis                                                             | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 17      | Basic Concept of probability                                         | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 18      | Probability and its uses in business decision-making                 | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 19      | Addition and multiplication theorems                                 | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |
| 20      | Bayes' Theorem                                                       | Lecture          | MBA106.2         | Mid Term-1, Quiz & End Sem Exam |

|    |                                                                           |         |          |                                 |
|----|---------------------------------------------------------------------------|---------|----------|---------------------------------|
| 21 | Bayes' Theorem and its applications                                       | Lecture | MBA106.2 | Mid Term-2, Quiz & End Sem Exam |
| 22 | Sampling: Basic Concept                                                   | Lecture | MBA106.3 | Mid Term-2, Quiz & End Sem Exam |
| 23 | Types of Sampling                                                         | Lecture | MBA106.3 | Mid Term-2, Quiz & End Sem Exam |

**PROGRAMME OUTCOMES**

**Master of Business Administration**

**2021-2022**

**Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**Note:** - Correlation levels 1, 2 and 3 as defined below:  
1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

| AMITY BUSINESS SCHOOL                                                                   |
|-----------------------------------------------------------------------------------------|
| Course Handout                                                                          |
| Course : <b>Marketing Research</b>                                                      |
| Course Code : MBA 204, Crédits : 03, Session :2021-22 (Odd Sem.), Class : MBA. 1st Year |
| Faculty Name : Dr.                                                                      |

**A. Introduction:** *The course aims to provide a thorough understanding of the essential characteristics and the basic tenets of research methodology and report preparation. For this we begin by explicating the role of business environment and develop the domain knowledge of the course through critical thinking, business analysis, problem solving and honing skills for finding innovative solutions. The course will focus on quantitative and descriptive research methods and techniques that are essential for the validity and reliability of the research process. The course will identify and review the components essential for preparation of research proposals, research reports, business proposals and feasibility studies in order to develop report writing and formal presentation skills of the research projects undertaken. For the same, the course will also focus on enhancement of effective communication skills. A researcher also has to be sensitive towards their social responsiveness and the expected ethical standards of research. Through various class activities, the course will also aim at developing the abilities of working in teams and leading a team.*

**B. Course Outcomes:** At the end of the course, students will be able to:

**MBA 204.1.** To develop the understanding of research concept and research methodology to design the research framework.

**MBA 204.2.** To develop necessary skill set for choosing the sample and collecting the data for research.

**MBA 204.3.** To integrate the knowledge of statistical test and designing the research experiment.

**MBA 204.4.** Demonstrate the art of writing the research report.

**C. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

#### D. Assessment Plan:

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                                                    | CT       | 15%         |
|                                | Mid Term 2                                                                                                                                                                                                    |          |             |
|                                | Project/Assignment/ Quiz/Presentation                                                                                                                                                                         | P/A/Q/PR | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

#### E. Syllabus

##### Module I: Research Methodology and Research Methods

Background to research: Developing a research proposal-Research paradigms-Contribution of research to theory and practice. Presentation and defence of proposal. Objective/purpose, evaluation, significance and types of research, Research Methods vis-à-vis Methodology.

## **Module II: Research Problem and Research Design**

Literature review: Identifying, accessing and managing sources of information and scholarly literature. Academic writing and referencing. Steps in literature review development. Argumentation. Qualitative Methods: Nature and type of qualitative research. Quantitative research.

## **Module III: Sampling Design and Scaling Techniques**

Census and sample survey, Criteria for selecting a sampling procedure, Measurement and Scaling techniques.

## **Module IV: Data Collection and Field Force**

Data collection methods: Primary and secondary sources. Data entry and screening. Coding of questionnaires.

## **Module V: Statistical Inference- Test of Significance**

Types of data analysis methods. Nature of Quantitative research: Descriptive and Inferential statistics. Quantitative methods: Data and variables.

## **Module VI: Design and Analysis of Experiments**

Associations: Correlation coefficient, bivariate regression. Multivariate Techniques- Reliability, validity and rigour.

## **Module VII: Report Writing**

Content and Format of the Marketing Research Report quantitative and qualitative, Practical considerations: Timelines, budgets, supervision and management. Common Problems Encountered when Preparing the Marketing Research Report. Writing up qualitative research.

### **F. Examination Scheme:**

| <b>Components</b> | <b>Midterm Exam</b> | <b>Project/Assignment/Quiz/Presentation</b> | <b>Attendance</b> | <b>ESE</b> |
|-------------------|---------------------|---------------------------------------------|-------------------|------------|
| Weightage (%)     | 15                  | 10                                          | 5                 | 70         |

### **G. Suggested Text/Reference Books:**

- Cooper, Donald R and Schindler, Ramela (2000) Business Research Methods, Tata Mc Graw Hill
- Kothari C R, (1990) Research Methodology: Methods & Techniques, Vikas Publishing House Pvt. Ltd. 1978.

- Levin & Rubin (2004), Statistics for Management, 8<sup>th</sup> Ed, Prentice Hall of India
- Srivastava, Shenoy and Sharma (2002). Quantitative Techniques for Business Decisions, 4<sup>th</sup> Ed, Allied Publishers
- Dr. S. Shajahan ( 2004), Research Methods for Management 2<sup>nd</sup> Edition, Jaico Publishers
- Ranjit Kumar, (2005), Research Methodology, Pearson Education

## H. Lecture Plan

| Lecture | Topics                                                                                                  | Mode of Delivery | Corresponding CO | Mode of Assessing CO            |
|---------|---------------------------------------------------------------------------------------------------------|------------------|------------------|---------------------------------|
| 1       | Background to research                                                                                  | Lecture          | MBA 204.1        | Mid Term-1, Quiz & End Sem Exam |
| 2       | Developing a research proposal                                                                          | Lecture          | MBA 204.1        | Mid Term-1, Quiz & End Sem Exam |
| 3       | Research paradigms- Contribution of research to theory and practice                                     | Lecture          | MBA 204.1        | Mid Term-1, Quiz & End Sem Exam |
| 4       | Research paradigms- Contribution of research to theory and practice                                     | Lecture          | MBA 204.1        | Mid Term-1, Quiz & End Sem Exam |

| AMITY BUSINESS SCHOOL                    |
| DEPARTMENT OF BUSINESS MANAGEMENT        |

## PROGRAMME OUTCOMES

**Master of Business Administration**

**2021-2022**

### Programme Outcomes:

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “- “

MADHYA PRADESH

*Established vide Government of Madhya Pradesh Act No. 27 of 2010*

|                                                                                                     |
|-----------------------------------------------------------------------------------------------------|
| Amity Business School                                                                               |
| Course Handout                                                                                      |
| Course : Quantitative Techniques                                                                    |
| Course Code : MBA206, Crédits : 03, Session : 2022-23(Even Sem.), Class : MBA. 2 <sup>nd</sup> Year |
| Faculty Name :                                                                                      |

**Introduction:** This course will help to students to understand the basic operations research concepts and terminologies involved in optimization techniques, and understand the mathematical tools that are needed to solve optimisation problems. Student should be able to apply probability distributions as an aid to business decision making and operational excellence may become a source of sustained competitive advantage in both manufacturing and service operations.

**A. Course Outcomes:** At the end of the course, students will be able to:

**MBA206.1** To understand the concepts of probability distribution and its relationship to Business.

**MBA206.2.** To apply concepts of forecasting under different conditions.

**MBA206.3** To analyse probability based decisions in of different types in different conditions.

**MBA206.4** To integrate the concept of Linear programming and business under various conditions.

**B. Programme Outcomes:**

**[PO.1].Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2].Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4].Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

### **C. Assessment Plan:**

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                                                                                                                                    | CT       | 15%         |
|                                | Mid Term 2                                                                                                                                                                                                    |          |             |
|                                | Project/Assignment/ Quiz/Presentation                                                                                                                                                                         | P/A/Q/PR | 10%         |
| Attendance                     | A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves. | A        | 5%          |
| End Semester Examination       | End Semester Examination                                                                                                                                                                                      | EE       | 70%         |
| <b>Total</b>                   |                                                                                                                                                                                                               |          | <b>100%</b> |

## D. Syllabus

### Module I

Probability Distribution: Normal, Binomial and Poisson Distribution. Elementary Sampling Theory, Estimation Theory, Hypothesis testing: one sample and two sample tests for means and proportions of large samples (z-test), one sample and two sample tests for means of small samples (t-test), F-test for two sample standard deviations.

Non-parametric methods: Chi-square Tests for single sample standard deviation. Chi-square tests for independence of attributes and goodness of fit.

### Module II

Forecasting Techniques: Karl Person coefficient of correlation, Spearman's Rank methods, Regression Analysis – Estimated regression equation, least squares method, coefficient of determination. Analysis of Time Series and Business Forecasting: Concept, Additive and Multiplicative models, Components of time series, Trend analysis: Using Graphical, Semi average and Moving Average method. Least Square method - Linear and Non- Linear equations, Applications in business decision-making.

### Module III

Linear Programming Problem: Concept and formulation, structuring of LPP, solution of LPP by graphical method( Maximization and minimization cases), Simplex method.

Transportation Problem: Initial Basic feasible solution method, Modified approximation method to find optimal solution of a TP, Introductory concept of Assignment Problem: Hungarian method for optimal assignment. Concept of Game theory and Queuing theory with simple business applications.

**E. Examination Scheme:**

| <b>Components</b>    | <b>Mid<br/>Term<br/>Exam</b> | <b>Attendance</b> | <b>Project/Assignment/Quiz/<br/>Presentation</b> | <b>ESE</b> |
|----------------------|------------------------------|-------------------|--------------------------------------------------|------------|
| <b>Weightage (%)</b> | 15                           | 5                 | 10                                               | 70         |

**F. Suggested Text/Reference Books:**

- Gupta C B, Gupta V - An Introduction to Statistical Methods (Vikas1995, 23rd Edition).
- Sharma J K - Business statistics (Ane's Student Edition)

## G. Lecture Plan

| Lecture | Topics                                                        | Mode of Delivery | Corresponding CO | Mode of Assessing CO            |
|---------|---------------------------------------------------------------|------------------|------------------|---------------------------------|
| 1       | Probability Distribution                                      | Lecture          | MBA206.1         | Mid Term-1, Quiz & End Sem Exam |

Amity Business School  
I MID-SEMESTER (SEM –II) 2022-23

Class: MBA II Semester

|                                                  |             |               |          |           |                |          |
|--------------------------------------------------|-------------|---------------|----------|-----------|----------------|----------|
| Subject Name:<br>MBA 206 Quantitative Techniques |             | Time: 2 Hrs   |          |           | Max. Marks: 30 |          |
| Levels of the questions as per Blooms Taxonomy   | Remembering | Understanding | Applying | Analyzing | Evaluating     | Creating |
| Question Mapping                                 | Q.1,4       | Q.2,3         | Q.4      | Q.2,5,6   |                |          |

Student will be able to

**MBA.1** To understand the concepts of probability distribution and its relationship to Business.

**MBA.2.** To apply concepts of forecasting under different conditions.

**MBA.3** To analyse probability based decisions in of different types in different conditions.

**MBA.4** To integrate the concept of Linear programming and business under various conditions.

| CO Map | Question No. | Question                                                       | Marks |
|--------|--------------|----------------------------------------------------------------|-------|
| CO1    | Q.1          | Explain in brief concept of probability.                       | 3     |
| CO2    | Q.2a         | What is the nature of Forecasting?                             | 3     |
|        | Q.2b         | How concept of Forecasting is applied in business decisions?   | 3     |
| CO2    | Q.3          | Elaborate Forecasting and determinants of Forecasting          | 6     |
| CO2    | Q.4          | Explain the significance of Forecasting                        | 3     |
| CO3    | Q.5a         | Elaborate different types of probability based decision making | 3     |
|        | Q.5b         | Describe in brief probability based decisions.                 | 3     |
| CO4    | Q 6          | How Linear programming enables small-scale entrepreneurs?      | 6     |

## PROGRAMME OUTCOMES

**Master of Business Administration**

**2021-2022**

### Programme Outcomes:

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**Note:** - Correlation levels 1, 2 and 3 as defined below:

1: Slight (Low), 2: Moderate (Medium) and 3 : Substantial (High)

If there is no correlation, put “- “

### D. Syllabus

#### Module I: Entrepreneurial Psyche

The entrepreneurial mind-set. Key attributes of an entrepreneur: Desirable and acquirable Behaviour, The readiness : The right time, the right age, right conditions. Myths and realities of entrepreneurship. Struggles, causes of failure, Product/market, financing, managerial resilience. How many attempts. Similarities and variances between an Entrepreneur and an intrapreneur.

#### Module II: Entrepreneurship Development

Understanding the Entrepreneurial Perspective in Individuals: Ideas, opportunity and retrospective determinism- To solve something felt and experienced vs I want to be an entrepreneur – Where can ideas come from-creating and appropriating value- Scarcity, choice and trade-offs, Heuristics and gut-feel Funding and incubation, Informal capital, Friends and family. Formal capital: Personal finance, Angel- Introduction to the World of Venture Capitalists. Evaluation criteria employed by VC. Selecting the right VC. Financing mix and the financing continuum shareholding. explaining to family, entrepreneurial stress. Composition: complementarity-different

life stages. Relative importance-disagreements; India's start-up revolution. Trends, imperatives, benefits. The players involved in the eco-system, business incubators, rural entrepreneurship, social entrepreneurship, women entrepreneurs. Transition from college/regular job to the World of start-ups.

### **Module III: Growth and Development of Entrepreneurial Ventures**

Identifying 'paying customer'. Developing market understanding- Narrowing focus- end user profiling. Ideal persona-market segmentation, market sizing- marketing plan, pricing- strategy Rigor of another kind. Cliff-vesting schedule. Relative importance of operational involvement, Idea/Patent, driving force and capital infusion. Go live, what proof of concept is needed- Minimum viable product – Name of product/service. Website, visiting card, office space. Valuation and harvesting. Valuation methods. Term sheet Strategic sale. Negotiations – Management succession.

### **Module IV: Business Plan**

How to develop it. What all should it have. What it shouldn't have. Unit economics. Scalability. Defensibility. Venture feasibility analysis. Pitching. Legal matters. Organisational form. Sole Proprietorship, partnership, corporation. Intellectual property rights. Copyrights, trademarks, patents. Tax. Personnel Law. Contract Law. Law vs Ethics. Legal expenses. Hiring the service provider. Digital haves and have nots. Digital Economy as a resource. Promotion tools. The value of likes and shares. Matchmakers. Long tail markets. Micro Apps.

#### **E. Examination Scheme:**

| <b>Components</b>    | <b>Mid Term Exam</b> | <b>Attendance</b> | <b>Project/Assignment/Quiz/ Presentation</b> | <b>ESE</b> |
|----------------------|----------------------|-------------------|----------------------------------------------|------------|
| <b>Weightage (%)</b> | 15                   | 5                 | 10                                           | 70         |

**Introduction** The course is designed to help students understand the concept of strategy and strategic management process. This starts with a clear understanding of business environment and the domain knowledge of what the top-management of an organisation does. The course will further enhance critical thinking skills, business analysis skills, problem solving skills and the ability to come up with creative and innovative solutions. The course also aims at acquainting students with basic concepts and principles of strategic management; develop and prepare organizational strategies that will be effective for the current dynamic environment and likewise to impart the strategic management conceptual framework which will increase students' skills and knowledge in identifying and describing organizations' strategic posture and direction. This will also cover global exposure and cross-cultural understanding to create an understanding of how global firms operate. The course will culminate with sensitizing participants regarding their responsibilities towards the society through training on social responsiveness and ethics.

**A. Course Outcomes:** At the end of the course, students will be able to:

**MBA209.1.** Students will be able to describe major theories, background work, concepts and research output in the field of strategic management.

**MBA209.2.** Students will demonstrate a clear understanding of the concepts, tools & techniques used by executives in developing and executing strategies and will appreciate its integrative and interdisciplinary nature.

**MBA209.3.** Build understanding of the nature and dynamics of strategy formulation and implementation processes at corporate and business level.

**MBA209.4.** Students will be able to develop their capacity to think and execute strategically.

**MBA209.5:** Enhanced ability to identify strategic issues and design appropriate courses of action.

**B. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

#### C. Assessment Plan:

| Component of Evaluation        | Description                                                                                                                                                                                                   | Code     | Weightage % |

| 4       | Concept of Vision, Mission and Business Definition.                                     | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 5       | Importance of stakeholders in business                                                  | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 6       | The external environment                                                                | Lecture          | MBA209.2         | Mid Term-1, Quiz & End Sem Exam |
| 7       | PESTLE Analysis                                                                         | Lecture          | MBA209.2         | Mid Term-1, Quiz & End Sem Exam |
| 8       | Stakeholder analysis                                                                    | Lecture          | MBA209.2         | Mid Term-1, Quiz & End Sem Exam |
| 9       | Strategic Advantage Profile (SAP), Porter's Value Chain Analysis                        | Lecture          | MBA209.2         | Mid Term-1, Quiz & End Sem Exam |
| 10      | Risk & return of single security and portfolio of securities                            | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 11      | Measurement of risk – calculation of Mean deviation                                     | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 12      | Standard Deviation                                                                      | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 13      | Beta value- Ex-ante and Ex-post beta                                                    | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 14      | Negative beta and its significance in investment decision.                              | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 15      | Fundamental analysis: Economy analysis, Industry analysis                               | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 16      | Company analysis- financial and non- financial analysis                                 | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 17      | International events and its impact on security market                                  | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 18      | Technical analysis - Various Technical analysis tools like Moving averages              | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 19      | Volume Analysis, Indicators                                                             | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |
| 20      | RSI, Pattern analysis, Candle sticks, Market breadth                                    | Lecture          | MBA209.1         | Mid Term-1, Quiz & End Sem Exam |

|    |                                                                                        |         |          |                                 |
|----|----------------------------------------------------------------------------------------|---------|----------|---------------------------------|
|    | analysis                                                                               |         |          |                                 |
| 21 | Trend analysis, Elliot wave, ROC/RSI                                                   | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 22 | lagging indicators and leading indicators analysis                                     | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 23 | Reading and interpretations of technical patterns and charts                           | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 24 | Other tools to Forecast the market and take Entry and exit decisions; Dow Theory       | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 25 | Introduction to portfolio management                                                   | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 26 | efficient market theory                                                                | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 27 | efficient portfolio and efficient frontier                                             | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 28 | Valuation by PE ratio /Book value to price value analysis                              | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 29 | Markowitz diversification                                                              | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 30 | Single Index Model, CAPM, Arbitrage pricing theory                                     | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 31 | Estimation of Portfolio beta                                                           | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 32 | Separation of risks into systematic and unsystematic risk                              | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 33 | motivation for partitioning of risk                                                    | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 34 | calculation of portfolio risk and return, optimal portfolio selection.                 | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 35 | Role of Fund Manager                                                                   | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 36 | Portfolio management services                                                          | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 37 | Churning and revision of Portfolio - Need for revision                                 | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 38 | different techniques of revision                                                       | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 39 | Modified formula plan: Dollar cost Averaging; practical problems in portfolio revision | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 40 | Portfolio re balancing and up gradation, Sharpe"performance Index                      | Lecture | MBA209.1 | Mid Term-2, Quiz & End Sem Exam |
| 41 | Trennor"performance Index, Jensen's performance Index                                  | Lecture | MBA311.4 | Mid Term-2, Quiz & End Sem Exam |
| 42 | Managing equity and bond funds- Managing Mutual Funds                                  | Lecture | MBA311.4 | Mid Term-2, Quiz & End Sem Exam |

|    |                                                                                                 |         |          |                                 |
|----|-------------------------------------------------------------------------------------------------|---------|----------|---------------------------------|
| 43 | Practical assignment of virtual trading mechanism of stock markets on popular trading platforms | Lecture | MBA311.5 | Mid Term-2, Quiz & End Sem Exam |
| 44 | Trennor"performance Index, Jensen's performance Index                                           | Lecture | MBA311.4 | Mid Term-2, Quiz & End Sem Exam |
| 45 | Managing equity and bond funds- Managing Mutual Funds                                           | Lecture | MBA311.4 | Mid Term-2, Quiz & End Sem Exam |

#### J. Course Articulation Matrix (Mapping of COs with POs)

| CO              | STATEMENT                                                                                                                                                                                                       | CORRELATION WITH PROGRAMME OUTCOMES |             |             |             |             |             |             |             |             |              | CORRELATION WITH PROGRAMME SPECIFIC OUTCOMES |                  |                  |

#### **D. Syllabus**

##### **Module I: Context of Project Management**

Concept of Projects, Project Management, importance; Project Goals, Functions; Categories of Projects, Phases of Projects, 7S' of Projects; Life Cycles

##### **Module II: Project Selection and Appraisal**

Criteria for selection: Checklist Model, Scoring Model, Analytic Hierarchy Process, Profile Model; identification of the project; Request for Proposal; Project appraisal: Technical, Commercial, Economic, Financial and Management appraisal; Feasibility Study: Payback Period, NPV, IRR, Options Model; Detailed Project Report

##### **Module III: Project Planning and Organization**

Project Planning: Planning steps, Master plan; Defining Project Scope, Developing Work Breakdown Structure, Project Activity, Project Coordination, Scheduling Charts; Schedule, Gantt Charts, CPM and PERT Project Team, Role of the leader; Project Organization: Pure, Matrix, Mixed; Project Portfolio Management

##### **Module IV: Cost Estimation, Budgeting, Measurement of Risk**

Cost Estimating Process, Budgets and Estimates; Cost-Time Overrun; Risk analysis, Project Management Information System

##### **Module V: Project Review and Control**

Control Process, Cybernetic controls, Go-No-go Controls, Post controls; Project Quality Control; Critical Chain Project Management; Project Closeout; Project Termination and Abandonment Analysis; Project Audit

,

#### **E. Examination Scheme:**

| Components    | Midterm Exam | Project/Assignment/Quiz/Presentation | Attendance | ESE |
|---------------|--------------|--------------------------------------|------------|-----|
| Weightage (%) | 15           | 10                                   | 5          | 70  |

|                                                                                         |

**Introduction:** The objective of this course is to help the students to learn about International Finance. The issues will be discussed in a way that will facilitate students to appreciate empirical issues and help identify research questions in the areas discussed. The topics discussed will also include survey of few empirical studies, evaluation of econometric techniques, and research applications in the Indian and international context.

**Course Outcomes:** At the end of the course, students will be able to:

CO1. Understanding the broader problems of international finance by understanding global business scenario.

CO2. Possessing knowledge of Foreign Exchange market, Speculation and Arbitrage in term of International Finance

CO3. Demonstrating critical thinking about Hedging tools for Management of Transaction Exposure.

CO4. Conducting in depth research using different analytical tools for generating new knowledge for International Investment Proposals and Institutions of Global Finance

CO5. Preparing Analytical reports for business decision making

#### **S. Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.

**T. Assessment Plan:**

| Component of Evaluation        | Description                                                                                         | Code     | Weightage % |
|--------------------------------|-----------------------------------------------------------------------------------------------------|----------|-------------|
| Continuous Internal Evaluation | Mid Term 1                                                                                          | CT       | 15%         |
|                                | Mid Term 2                                                                                          |          |             |
|                                | Project/Assignment/Quiz/Presentation                                                                | P/A/Q/PR | 10%         |

## JJ. Syllabus

### Module I: Introduction to Security Analysis

Introduction to security market, Role of SEBI/ OTCEI//ROC/Stock exchanges, Investors and its types: Speculators & Investors. Meaning, features and types of Investment; Concept & valuation models of equity and bonds. Introduction to security analysis, Need for investment analysis & portfolio management, Risk and Return Introduction, realized return vs. expected return. Risk & return of single security and portfolio of securities, Measurement of risk – calculation of Mean deviation, Standard Deviation, Beta value- Ex-ante and Ex-post beta, Negative beta and its significance in investment decision.

### Module II: Approaches to Security Analysis

Fundamental analysis: Economy analysis, Industry analysis, Company analysis- financial and non-financial analysis, International events and its impact on security market. Technical analysis - Various Technical analysis tools like Moving averages, Volume Analysis, Indicators, RSI, Patten analysis, Candle sticks, Market breadth analysis, Trend analysis, Elliot wave, ROC/RSI, lagging indicators and leading indicators analysis, reading and interpretations of technical patterns and charts, Other tools to Forecast the market and take Entry and exit decisions; Dow Theory

### Module III Portfolio analysis & related models

Introduction to portfolio management, efficient market theory, efficient portfolio and efficient frontier; Valuation by PE ratio /Book value to price value analysis, Markowitz diversification, Single Index Model, CAPM, Arbitrage pricing theory, Estimation of Portfolio beta, Separation of risks into systematic and unsystematic risk, motivation for partitioning of risk, calculation of portfolio risk and return, optimal portfolio selection.

### Module IV Portfolio Management Services

Role of Fund Manager, Portfolio management services, Churning and revision of Portfolio - Need for revision, different techniques of revision- formula plan: constant dollar value plan, constant ratio plan, variable ratio plan; Modified formula plan: Dollar cost Averaging; practical problems in portfolio revision, Portfolio re balancing and up gradation, Sharpe"performance Index, Trennor"performance Index, Jensen's performance Index. Managing equity and bond funds-Managing Mutual Funds

#### Module V Trends and Practical

Practical assignment of virtual trading mechanism of stock markets on popular trading platforms

##### KK. Examination Scheme:

| Components    | Midterm Exam | Project/Assignment/Quiz/Presentation | Attendance | ESE |
|---------------|--------------|--------------------------------------|------------|-----|
| Weightage (%) | 15           | 10                                   | 5          | 70  |

##### LL. Suggested Text/Reference Books:

Human Resource Evaluation- Definition and Overview, Rationale for HR Evaluation, Measures of HRM Performance, Approaches to HR Evaluations, The Measurement Challenge in HRM.

### **Module V: Future trends in Strategic HRM Approaches:**

The Strategic approach of HR towards Career Management, Mentoring Relationship & Work-life Integration. Matching culture with strategy, Behavioral issues in strategy implementation, Global HR strategies, Core Competence as the Root of Competitive Advantage

**Case Study** - Banning Flexible Work Options: Yahoo's New Controversial HR Policy  
<http://www.icmrindia.org/casestudies/catalogue/Human%20Resource%20and%20Organization%20Behavior/HROB162.htm>

Submit a project on Strategic Retention strategies

- The students will form small groups (2 Students)
- They will research on the latest trends in retention strategies
- They will prepare a PPT presentation & present it before class
- The group will discuss the learning from the case
- The students will be evaluated out of 10 Marks

### **F. Examination Scheme:**

| Components    | Midterm Exam | Project/Assignment/Quiz/Presentation | Attendance | ESE |
|---------------|--------------|--------------------------------------|------------|-----|
| Weightage (%) | 15           | 10                                   | 5          | 70  |

### **G. Suggested Text/Reference Books:**

| Course Handout                                                                           |
| Course : <b>MANAGING BANKS AND FINANCIAL INSTITUTIONS</b>                                |
| Course Code : MBA 408, Crédits : 03, Session :2021-22 (Even Sem.), Class : MBA. 2nd Year |
|                                                                                          |

**Introduction:** The aim of the course is to orient the finance students to the changes in the financial industry. The financial industry much like the computer industry is changing rapidly. A course that merely describes the existing institutions will not prepare the students adequately for the change. Thus, familiarization with institutions of today & developing an understanding why they are the way they are, and why they are changing is the core aim of the course. An Indian perspective will be added but conceptually the Global frameworks will be used. This course will help students to develop Business Environment and Domain Knowledge, Critical thinking, Business Analysis, Problem Solving and Innovative Solutions, Global Exposure and Cross-Cultural Understanding, Social Responsiveness and Ethics.

**Course Outcomes:** At the end of the course, students will be able to:

- CO1. Understanding the broader problems of Banks and financial institutions
- CO2. Understand the entire process of operating a bank and other financial institutions with respects to the rules and regulations prescribed by the regulators.
- CO3. Explain elements of the Basel regulatory framework, with special emphasis on capital adequacy regulation, and calculate banks' required capital ratios given their balance sheets.
- CO4. Explain the roles financial intermediaries perform in society and the major risks they face
- CO5. Understand The modern banking service.

**Programme Outcomes:**

**[PO.1]. Leadership and Management:** Develop the leadership skills amongst the students with requisite knowledge, skills, and attitude necessary to create effective leadership that enables students to prove, develop and sustain in a global environment.

**[PO.2]. Domain Knowledge:** Capacity and ability to illustrate, understand and analyse the knowledge of principles of management to find solutions to real world problems.

**[PO.3]. Problem Solving & Innovation:** Developing the ability to identify, formulate and provide innovative solution frameworks to real world complex business and social problems by applying quantitative and qualitative problem-solving tools and techniques.

**[PO.4]. Environment and sustainability:** Developing an ability to do the SWOT (Strengths, weakness, opportunities, and threats) analysis of the business environment and predict the future of the business.

**[PO.5]. Individual and teamwork:** Summarize and apply theories of team composition, process, and motivation (including inclusivity and diversity) to effectively manage work teams

**[PO.6]. Continuous learning:** Recognize the need of being proactive keep continuous learning in the broadest context of changes happening in business management.

**[PO.7]. Entrepreneurship:** Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing start-ups as well as professionalizing and growing family businesses.

**[PO.8]. Effective Communication:** Developing effective presentation and communications skills for communicating effectively in the business environment and society at large.

**[PO.9]. Reasoning Ability:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.

**[PO.10]. Global Orientation and International Exposure:** Ability to approach any relevant business issues from a global perspective and exhibit an understanding of Cross-Cultural aspects of business and management.
