6. Details of the Events:	The event was conducted to aware people about yoga and meditation- An ancient art of India. Yoga is the journey of discovering the self. It is an ancient and beautiful practice of India that is linked to all aspects, namely, physical, spiritual, and mental. It calms and relaxes your body and soul. It helps an individual to stay fit and healthy. Practicing yoga has a bundle of benefits linked to it. Even though it is an age-old practice it is still relevant, it has gained more popularity in the recent past even in the western world. Looking at the modern stressful lifestyle of almost every age group weather it's a student going to school or an adult working in the office there is a dire need of practicing yoga meditation that can help them lead a life in peace. Meditation is the practice of thinking deeply in silence, in order to make the mind calm. Effective meditation is a relaxation technique like yoga and deep breathing that activates the body's relaxation response. When meditation is practiced

	regularly, it leads to decrease in our stress levels in everyday life. Meditation gives a boost in our feelings of happiness and calmness. It increases our ability to stay cool, calm and composed under pressure. Research has shown that meditation has benefits on mental health, including decrease in depression, increase in positive emotional state and increases in the ability to deal with unavoidable stressful conditions in life. Meditation has also been practiced for thousands of years. Meditation originally was meant to help deepen understanding of the sacred and mystical forces of life. These days, meditation is commonly used for relaxation and stress reduction. When you meditate, you may clear away the information overload that builds up every day and contributes to your stress. Yoga and Meditation is very useful to balance the physical and mental health and develops spirituality to live a natural life with moral and ethical values. Yoga and meditation when practiced together reinforce the connection between mind and body, improving mainly health and well-being. Both yoga and meditation have proven health benefits when practiced regularly. People under stress are less likely to exercise and can get prone to addiction and reply on junk food. So during stress we should follow breathing technique through left nostril (Surya Nadi) which gives instant relaxation by activating sympathetic and parasympathetic system. It enlightened the power of pause to deal with amygdala hijack through meditation. Meditation is coordinate geometry of daydreaming, frustration, concentration and meditation. It is an integrated practice. He then discussed about heartfullness meditation and decision making https://youtu.be/MdaNFc7GNxs https://youtu.be/M7MFrC-BXyU https://youtu.be/QhgnL5wk-Lc https://youtu.be/ioGtobaz-Lo

About Faculty Development Program (FDP)

Education is a completely evolving field, and to ensure its continued growth, teachers should also evolve themselves. Their enhanced knowledge will help them introduce their students to the new facets. Engineering and computational techniques are growing exponentially over recent years. There has been significant growth in Artificial Intelligence, Data Science and Cyber Security. All these have increased the demand for professional and researchers. The need is to keep oneself abreast of all the new emerging technical developments and pursue the path towards continuous learning and growth.

Objectives of the Faculty Development Program (FDP)

- To offer to learn the emerging trends and challenges in the field of AI, Cyber Security and Data Science and provide opportunities to widen the knowledge further.
- To improve the research outreach among the faculty members and Research Scholars in carrying out multidisciplinary research in Data Science & Cyber Security.
- To provide a forum for exchanging views, ideas on the latest innovations in Artificial Intelligence, Data Science and Cyber Security.

Pedagogy

The FDP will be highly experiential and interactive with online lectures, discussion, presentations and activity-based sessions on current developments.

Learning Outcomes

- Understanding of innovative theories and methods in AI, Data Science and Cyber Security.

- Analyze, evaluate and examine existing practical systems in AI and Cyber Security.
- Critically review and assess scientific literature in the emerging fields and apply theoretical knowledge to identify the novelty and practicality of the proposed methods.

Who Should Attend

- Faculty Members, Research Scholars and Industry Personnel.

How to Register

- Registration Fee: Free of Cost

Top vulnerabilities in Android apps
• Binary Protection Failure
Slide 28 of 33
11:36 AM
Next animation
Lack of binary protection:
• When the apps do not have Jailbreak / Root Detection.
• App can be installed on Rooting or jailbreaking device.
• A rooted device can reveals data protection and encryption schemes on the system.
• No obfuscation
Solution:
• With regards to security, App should have root/Jailbreak detection machenism, and also obfuscate the app.
Insecure Data Storage:
• Application is can store it's data in SharedPreferences, Internal storage, external storage, database or over the network.
• Apps that store sensitive data in local or external storage instead of sandbox environment are vulnerable to insecure data storage issues.

Actions on Objectives
Research, identification and selection of targets, often represented as crawling Internet websites such as conference proceedings and mailing lists for email addresses, social relationships, or information on specific technologies
Coupling a remote access trojan with an exploit into a deliverable payload, typically by means of an automated tool (weaponizer). Increasingly, client applications data files such as Adobe PDF or Microsoft Office documents serve as the weaponized deliverable
Transmission of the weapon to the targeted environment using vectors like email attachments, websites, and USB removable media.
After the weapon is delivered to victim host, exploitation triggers intruders' code. Most often, exploitation targets an application or operating system vulnerability.
Installation of a remote access trojan or backdoor on the victim system allows the adversary to maintain persistence inside the environment.
Typically, compromised hosts must beacon outbound to an Internet controller server to establish a C2 channel
Only now, after progressing through the first six phases, can intruders take actions to achieve their original objectives. Typically this objective is data exfiltration which involves collecting, encrypting and extracting information from the victim environment.

Use case-3 : MalDoc
• Scenario: It is common for threat actors to utilize living off the land (LOTL) techniques, such as the execution of PowerShell to further their attacks and transition from macro code. This challenge is intended to show how you can often perform quick analysis to extract important IOCs. The focus of this exercise is on static techniques for analysis.

Model Deployment using Streamlit
This is a deployment tool that simplifies the entire model deployment cycle and lets you deploy your model quickly.
It quickly turns data scripts into shareable web applications.
Using Streamlit we can create front-end in python script itself, so we do not require any others wed deployment techniques. Understanding python is enough. It is an open source and hence no cost is involved. We can deploy our apps without paying anything.
The best thing about Streamlit is that everything we do is in Python. Starting from the loading the model to creating front-end all can be done using Python

Machine Learning Life Cycle
Broadly, the entire machine learning lifecycle can be described as a combination of 6 stages. Let me break these stages for you:
Stage 1: Problem Definition
Stage 2: Data Collection
Stage 3: Exploratory Data Analysis
Stage 4: Feature Engineering and Pre Preparation
Stage 5: Algorithm Selection
Stage 6: Model Building and Evaluation

This she has been practicing through numerous self initiated classroom, real life observations and experiments.She has brought together close to ~8400 people interested in exploring and sharing fundamental issues around Design

Education, through an Internet based platform, “Design Educators in India”. She has been teaching core design courses in premier design institutes and has also helped develop design course curriculums and start new programs for Design Education at several prominent Universities.

Prof. (Dr.) Abhijit Majumdar He is holding the position of Chair Professor in Textile and Fibre engineering at Indian Institute of Technology, Delhi, India (IIT Delhi). He graduated from Calcutta University in 1995 with Gold medal in Textile Technology. He also holds M.Tech and MBA from IIT Delhi. He acquired Ph.D in Production Engineering from Jadavpur University, Kolkata. He has 22 years of experience in academia and 2 years of experience in industry. He has authored two textbooks and edited three books. He has published 120 research papers in refereed journals. He is the associate editor of two journals, namely OPSEARCH and Journal of the Institution of Engineers (India) Series E published by Springer. He is the recipient of Best Industry Relevant Masters Project Supervision Award, IIT Delhi (2019); Gandhain Young Technology Innovation (GYTI) Award 2016 and Teaching Excellence Award of Indian Institute of Technology Delhi for the year 2014-15.

Prof. (Dr.) Binwant Kaur She is a professor in Department of Fashion Technology at NIFT, Kolkata She has an experience of more than 30 years. Presently, she is head of International and Domestic Linkages unit at NIFT. She has completed her graduation and Post-graduation in Mathematics from St. Stephen's College, University of Delhi. She has worked in the area of software development before joining NIFT, Kolkata. Ever since she joined NIFT, she has been associated with integration of IT tools in Fashion, Design and Apparel Production. Over the years she has imparted training to undergraduate students from Design and Technology disciplines in various subjects such as Computer Aided Designing (CAD) in Garment Industry for Pattern Making, Grading and Marker Planning; application of Textile CAD (Vision) in Printing and Weaving Industry; application of graphic tools such as Corel and Adobe software as part of Digital Design and Communication courses. In addition to these, she has also taken courses in the area of application of Artificial Intelligence in Fashion, ERP for Fashion Business etc. She was also involved in research in the areas such as 3D Printing in Fashion and Impact of RFID technology in Apparel Supply Chain. She was invited by Buffalo state University, LIM College, and Hunter College in New York to deliver Lectures to undergraduate students in subjects related to Apparel Production and Retail. As part of her PhD degree, she was committed to her research in the area of “Designing and Developing Union fabrics on Handlooms” under the guidance of Dr. Probir Kumar Choudhuri, at Visva-Bharati University.In addition to the academics, she has held an additional administrative responsibility of Director, NIFT, Kolkata from July 2015 to Feb 2017. Presently, she is also handling the responsibility of Head, International and Domestic Linkages unit at NIFT.

Dr. Subhankar Maity He is appointed as Assistant Professor in The Department of Textile Technology in Uttar Pradesh Textile Technology Institute, Kanpur, India(from Dec 2017). He worked as Assistant Professor in the Department of Textile Technology, Dr. B R Ambedkar National Institute of Technology, Jalandhar, India (2016-2017). He has industrial work experience in Ginni Filaments Ltd., Noida, India (2010-2011) and Alok Industries Ltd., Silvassa, India (2007-2008). He pursued PhD in Textile Technology from Dr. B R Ambedkar National Institute of Technology, Jalandhar, India, M.Tech. in Textile Engineering from IIT Delhi, and B. Tech. in Textile Technology from College of Textile Technology, Berhampore, W.B., India. His main research focuses on conductive polymer based electro-conductive textiles, graphene coated textiles, heat transfer

behaviour of fibrous/polymeric materials and related functional textiles. He has over 30 publications in leading refereed journals of materials, textiles and polymer fields, 1 authored book, 1 book chapters, and 5 conference proceedings. He specialisation in Fibre and Polymer characterisation - Fibre structure, properties, polymer physics, molecular weight and density, IR spectroscopy, Thermal characterisation by DSC, TGS, DMA, TMA etc., Optical and electron microscopy, X-ray diffraction, etc. and Functional Textiles - Conductive polymers, coating methods of conductive polymers onto textiles, Graphene coated textiles, heating and cooling effect of electro-conductive textiles, sensory applications, EMI shielding etc. Thermal conductivity and thermal insulation of fibrous materials, structure property relationship etc. High performance fibres and Textile Reinforced Composites- Manufacturing, structure, properties and applications of various high performance fibres, Fibrous reinforcement, polymeric matrix, composite properties, applications of composites.

Prof. Dr. Barun Shankar Gupta He has been an active researcher in sustainability issues since 2004 and has presented his research findings in Sri Lanka, Portugal, United Kingdom, Norway, USA and India. Previously, he was involved in scientific design research related to sustainable materials for building construction. Much of his career has been spent in the USA, Norway, Canada and France. OUTCOME REPORT:

1. **Inspiration behind taking this particular subject:**
   While designing the faculty development programme module we mainly focused on coming with such type of program that would inculcate and inspire the participants to innovate new ideas and to generate new inventions. That's why we have selected the topic of sustainability in fashion design and technology which would help and motivate participants to explore more. This FDP provided a comprehensive knowledge to the faculty, staff and industry people belonging to Fashion, Textile Designing and Technology of various organisations across India. It focused on sustainable fashion, manufacturing process of textiles, challenges in craft sectors , QFD techniques, Sustainable Design, luxury fashion and lifestyle, design process, supply chain, apparel manufacturing, Intelligent clothing and communities involved in the process, and how to minimise the impact on the environment.

2. **Criteria Considered for inviting the Various Individual Guests :**
   The criteria for selecting the keynote speakers were:
   • Relevance to the topic
   • The speakers needed to have required experience and qualification to talk on the topic.
   • We tried to get speakers from all different verticals of fashion & textiles industry like exports/ retail/ design/ handloom and textile engineers
   • Reputation and qualification of the speaker
   • Subject knowledge

3. **Previous Interaction with guests:**

• Mr. Bijan Bihari Paul, Dr. Prabir Kumar Choudhuri and Prof. Binwant Kaur were invited for the webinar on "Designing of Textiles & Fashion for Sustainable Development" on 29th December 2020
• Mr. Ashish Ahuja is also the head of our Industry Advisory Board

4. **We're the guests Recommended by someone. If yes, who**
The guests had been recommended and invited by Dr. Sambaditya Raj, Coordinator & Associate Professor, Amity School of Fashion Technology, Amity University Rajasthan **5.**

5. **Who all attended the FDP? Also, if possible, give the numbers.**
The FDP was attended by Fashion & Apparel students, industry professionals, academicians, Research scholars and Technologists across India.
Day 1- 115 participants
Day 2- 112 participants
Day 3- 97 participants
Day 4- 88 participants
Day 5- 78 participants

6. **Take-homes for the guests in terms of knowledge**
• Enable the participants to understand Sustainable Fashion through collaborative Consumption of Apparel.
• Acquainted the participants with the understanding of Sustainable manufacturing process of textiles through handlooms in India.
• Made the participant relies the challenges of sustainable production in craft sectors.
• Acquainted the learners with the weaving a future through sustainable practices.
• The participants were made understand the Exploration of Quality Function Development (QFD) technique in fashion & textile designing.
• Made the participants understand the importance of Design, sustainability and Spirituality
• Participants were told about the changing directions of luxury fashion and lifestyle Retail-A historic perspective.
• Importance of The Process Part of Design
• A dept knowledge of Sustainable textile and clothing supply chain.
• Participants were told about the importance of Apparel Manufacturing in a Sustainable Environment
• All the details of Intelligent Clothing: scope for conductive polymer-based textiles were discussed
• Helped the participants to discuss the design for sustainable future

7. **Tangible gains from the FDPs:**
a. Building network with industry leaders and senior faculty members across India
b. Popularisation of Amity School of Fashion Technology, AUR as an institution promoting research, entrepreneurship
c. Building reputation of the institution
d. Getting information about seminars/ conferences/ workshops/ FDPs etc across different institution

8. **Follow-up with guests for collaborations:**
   a. For internships and placements
   b. For future seminars/ conferences/ workshops
   c. Industry projects

9. **Plans for utilizing contacts developed:**
   a. Placement opportunities for students of batch of 2021 – April-May 2022
   b. Internship opportunities for students of batch of 2022 – May-June 2022
   c. Workshop/ talk shows/Webinars – AY 2021/22
   d. National Conference – January 2022 (tentative) e. Graduation projects for students (Jan 2022- March 2022)

AMITY UNIVERSITY RAJASTHAN

Amity School of Languages, Jaipur

Organizes

One Week International Workshop

On

Bridging Industry and Academia in Language Studies

July 15-21, 2021

ABOUT AMITY SCHOOL OF LANGUAGES

Amity School of Languages (ASL), Jaipur is an integral part of the Faculty of Humanities, Social Science and Liberal Arts. The Department is functioning since the inception of the University in 2007 and plays a strategic role in enhancing the language competency of all the UG and PG students of various institutions in languages such as French, German, Spanish and Mandarin. It also runs English and French Language & Literature programs at Undergraduate & Postgraduate levels along with PhD in English, French and Spanish. At the level of international collaboration ASL plays a pro-active role with active Student Exchange Programs to its credit.

In today's era, multilingualism has become more than just 'important'. Knowing a foreign language other than the native language has evolved to be extremely beneficial to make 'real' connection with people. The role of English as a global connect language needs no more emphasis. But providing students with the needful knowledge to venture into corporate jobs along with academic openings will be a necessity.

Needless to say, while in recent days there is a growing demand from Academia to make successful professionals in Language, Literature, Culture and Civilization be it in English, French, German, Spanish or Mandarin, over the time a growing demand for language professionals in the corporate fields has been felt as well. Moreover, the state of Rajasthan gives a special thrust on its booming tourism sector. Keeping all this in mind and with a bid to produce good professionals in corporate as well as in academics ASL lays special stress on innovative curricula and the objective of the Workshop is to bring these areas into limelight with implementational goals.

KEYPOINTS TO BRAINSTORM

- Global companies like Amazon, Infosys, Samsung, TCS, HCL, LG, L&T, Genpact, Fujitsu Technology, Accenture, and Geometric Ltd, among others, are looking for employees with foreign language proficiency.

- Academia is not the only prospect of jobs for language learners.

- Corporate opportunities like Embassy jobs, Intelligence operatives, Interpreter and translator, Research analyst, Corporate trainer, Content writer and Inter-cultural Consultants are on the rise.

- The present workshop will provide an ideal platform to understand , share and discuss the indispensability of languages in being the pivot for acquiring lucrative jobs, enhancing job profile and exploring new avenues of financial growth amid the new normal norms set by the Pandemic

THEMES

1. Corporate Careers and Foreign Languages
2. Cultural Competency for 21st Century Professionals
3. Languages in Media Communication
4. Verbal and Written Communication in Digital Era
5. Translation as an avenue of placement
6. Creative Writing Vs. Content Writing
7. Advertisement as a job option
8. New avenues in the New Normal
9. Role of University Placement Board
10. IQAC and Placement

RESOURCE PERSONS

1. Prof. Jonathan Locke Hart , Poet, Literary Critic and Historian, Canada
2. Dr. Ajit Pathak, National President, Public Relations Society of India
3. Dr Yukteshwar Kumar, FHEA, Course Director, MAIT/Chinese Stream, University of Bath UK
4. Maryline Laidin, Attaché for Cooperation in French Language , Institut Français en Inde
5. Mr. Jatinder Singh, Deputy Head for Cooperation in French Language & Education, Institut Français en Inde

1. General Introduction (50-80 words)

The FDP on Network Science is intended to impart knowledge and training on the fundamentals of Network Science, which is interdisciplinary field of Physics, Mathematics, Computer Science, Artificial intelligence and Statistical Mechanics. Since last decade, there is huge focus on real-time networks, its structural properties and dynamics of evolving networks. Network Science has become important as many organizations work over various applications like protein networks, complex biological networks, social networks, transportation networks (airports/ railway stations/ metro stations), co-authorship networks, language networks and many more. Apart from these single layer networks, many Heterogeneous information networks/ Multi-layer networks are evolving. The study of structure and dynamics of evolving networks may give many useful insights about the incoming data.

The study of non-linear dynamics of epidemics via different types of transportation networks, identifying influential nodes in social networks which may help in advertisement and marketing, community detection, and handling dynamic graphs are some of the interesting research areas in network science. It is observed that the number of online users have increased upto 25% during lockdown period of COVID-19. Post pandemic and post lockdown period, with evolving era of 'Great Reset', it has become important to understand industrial trends, human behavior, attitudes and social mental health of online users.

The main objective is to make the participants familiar in the field of Network Science. This course may be beneficial to research scholar, faculty and professionals in the field of Engineering, Computer Science, Physics, Mathematics or Quantitative Business Studies.

There are 15 sessions in the FDP and in the 15th session, evaluation will be done based on the MCQ based exam. For this, 80% attendance and 60% marks is the qualifying criteria for getting the certificate from ATAL.

The FDP is sponsored by ATAL -AICTE. ATAL Academy is established with the vision "To empower faculty in thrust areas to achieve goals of Higher Education such as access, equity, and quality." ATAL academy conducts a series of workshops or FDP in various identified thrust areas. Therefore, this FDP was sponsored by ATAL.

Brief report of speakers and sessions

The Chief Patrons of the faculty development programme were Dr. Ashok K. Chauhan, Founder President, Amity Group and Dr. Aseem Chauhan, Chancellor, Amity University, Rajasthan. The first-day session started with the key address of Prof. (Dr.) Neeraj Kumar, Thapar University, Patiala who talked about Blockchain for Smart Communities Network. The session was followed by the talk of Dr. Anamika Chhabra, Data Science Instructor, IIT Madras online degree program who talked about Software and Tools for Network Science and Structural Properties of a Network: Power law, Small World property, Clustering Coefficient. The third talk was delivered by Dr. Pawan Goyal who discussed about random walks on graphs, along with some applications of random walks.

The second day address commenced with talk of Dr. Anurag Singh, Assistant Professor, CSE, NIT Delhi who discussed Community detection and Assortativity. It was followed by session delivered by Dr. Yayati Gupta who discussed about Network Science models for static networks: k-core decomposition, k-shell decomposition and k-truss decomposition. The sixth session was delivered by Dr. Mahipal Jadeja, MNIT Jaipur. He talked about Deep Learning and Convolution Neural Network (CNN). The subject of centrality measures was explained by Prof. (Dr.) Harish Kumar, Panjab University, Chandigarh. Dr. Akrati Saxena, Eindhoven University of Technology, Netherlands talked about Link Prediction and it's Theory and Applications. The session on Hate Speech Analysis was delivered by Dr. Animesh Mukherjee, IIT Kharagpur.

The fourth day was commenced with talk of Prof. (Dr.) Neeraj Kumar, Thapar University who discussed about Dynamics of evolving epidemics in networks. It was followed be the session of Dr. Sriparna Saha, IIT Patna who talked about Cyberbully Detection. The last session of this day was delivered by Dr. Mahipal Jadeja, MNIT Jaipur who discussed about Graphical Neural Networks: Hands-on with Deep Learning on Social Networks.

The detailed insight of Multi-layer networks and Heterogeneous information networks: Recent research trends in Complex Networks was addressed by Prof. (Dr.) Tripti Swarnkar, SOA University. In the concluding session Dr. Veena Krishnan, University of Petroleum & Energy Studies talked about Emotional hygiene towards mental well-being. The evaluations were done in the 15th session.

2. Objectives of the Event (Point-wise)

- The main objective is to make the participants familiar in the field of Network Science. This course is beneficial to research scholar, faculty and professionals in the field of Engineering, Computer Science, Physics, Mathematics or Quantitative Business.
- This course is multi-disciplinary and therefore is open to students and professionals with a wide variety of backgrounds.
- Networks can be used to help us understand various aspects of society and to ultimately improve our lives.

3. Envisaged Vs Achieved Outcomes

S No.	Envisaged Outcome	Is the outcome tangible or intangible?*	Achieved Outcome	Remarks, if any
1	Acquired knowledge about recent development in the field of Network Science.	intangible	Yes, as per expectation, our speakers provided very deep insights of different technologies related to Network Science.	Every one appreciated them.
2.	To get the idea of technological advancement of Network Science.	intangible	All the sessions inspire many participants as well as me to work in this direction.	All lectures were appreciated by participants.

4. Actionable Progressive Outcomes

Outcomes requiring prolonged monitoring are as under:

S No.	**Envisaged Outcome (a)**	**Outcome activity yet to be achieved (b)**	**Is the outcome tangible or intangible?***	**Action plan to achieve the Outcome activity described in column "(b)" and "(c)"**	**Target Date (d)**	**Responsibility (e)**	**Remarks, if any (f)**
1.	To achieve knowledge of Network Science	All activities are completed.	intangible	All speakers shared their latest research in the field of Network Science.	Nil	To coordinate for collaborative projects.	

***(*) – Tangible outcomes should have a specific target date. Intangible outcomes need* not have a specific target date**

5.Scientific/ Technological/ Administrative strengths of the institution/s visited. Not Applicable

Not Applicable.

6.Establishing linkages or possibilities of collaboration with other Organization(s)/ Participants and their strengths.

The aim of this FDP was to enhance maximum interaction with the faculties and scientist of different fields. The participants of this FDP included faculties, research scholars, and scientists, from different fields of engineering and technology like civil, mechanical, electronics, computer, chemical engineering, and life sciences. The amalgam of different fields of science and engineering can facilitate us to contribute in our own way towards green earth. The participants would like to collaborate and work on some collaborative projects with us. We will discuss the best possible way to work on collaborative projects.

Brief about the One day Programme:-

Communication with internal and external stakeholders is critical for maintaining healthy business relationships, obtaining business outcomes, and one's own personal health and wellbeing. Keeping this in mind, Corporate Resource Center- Amity University Rajasthan organized a one day Staff Development Program on – **Developing Communication Competency** for the CRC team members on 6th July 2021.

.

Our understanding and the related research have time and again proven that Communication is not the only but certainly the most essential skill required for upward mobility and for delivering excellent results. The research indicates that the professionals who have demonstrated effectiveness both in building relations and at work are competent in their communication skills.

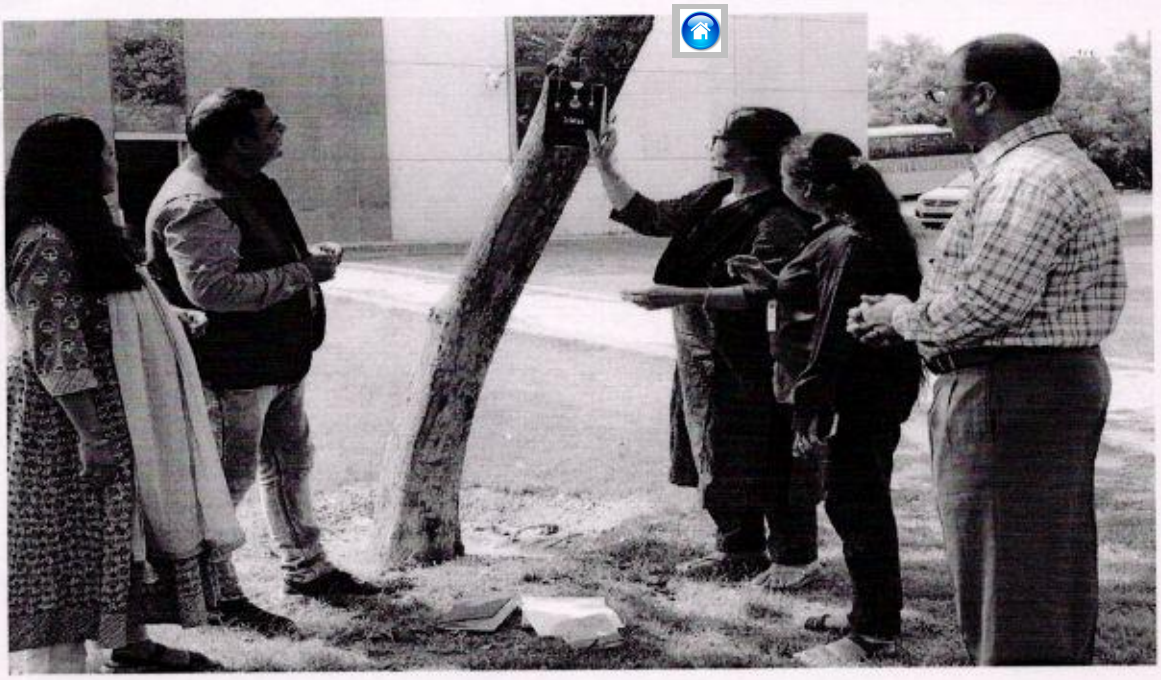

This Programme was designed to help managers at the middle level positions to come and test themselves and further their communication skills. Good communication skill is a core skill needed in the corporate environment, something that is expected from almost everyone in an organization. Whether you are an executive, senior manager, or support staff, you should be able to express yourself and communicate well with your colleagues.

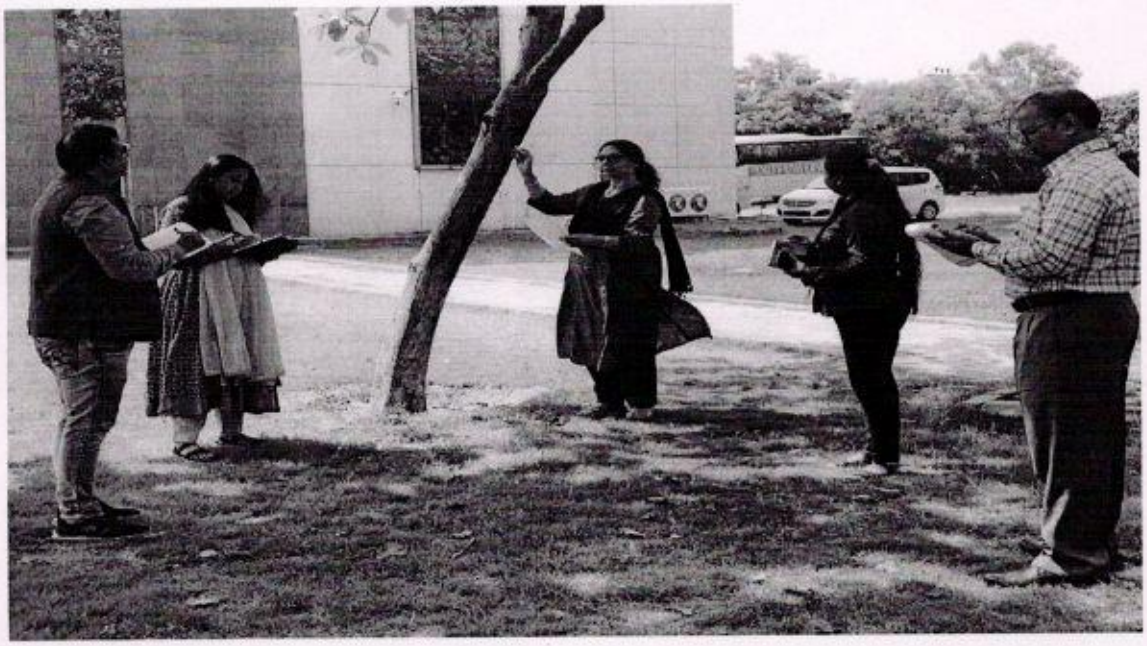

During this Programme, Emotional Intelligence, verbal and non-verbal communication, empathy, perception, listening and giving and receiving feedback were some of the topics that were emphasized. Both verbal as well as non- verbal forms of communication were also touched upon during this one-day Programme. CRC team members are required to communicate with both external as well as internal stakeholders on daily basis. Hence it is very important that all the team members are well acquainted with these skills to interact effectively with Organizations, recruiters, students, faculties higher management etc.

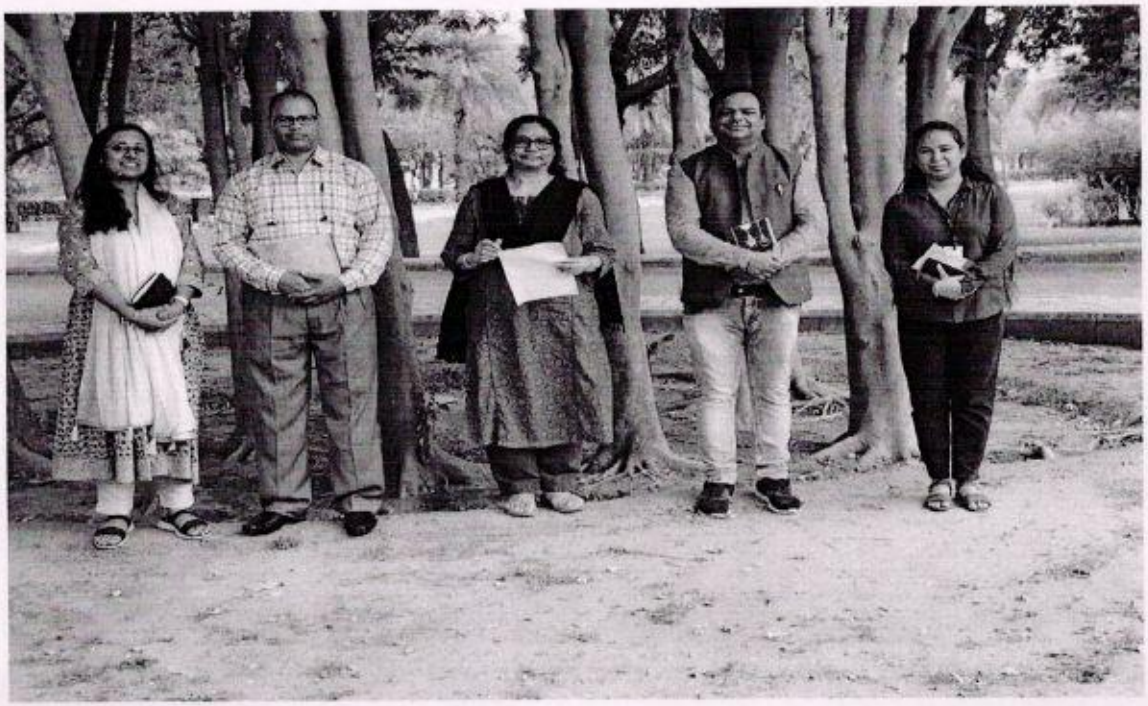

The day long training involved learning through videos, role plays, exercises & caselets. Topics like - Email writing, text messages, sending LinkedIn invites/ messages, voice modulation, body language etc. were explained in detail in the Programme. All these topics were covered through various activities like - story telling, role play, extempore etc. The Programme was well structured, planned and very interactive, and was highly appreciated by all participants.

Dear Sir

Thank you for organizing of the Fire Safety Drill and capacity building workshop for occupants of the Block-E.

The session conducted by Sh. Sudarshan Kumawat was very informative, and was attended by all faculty, students and staff present in the precincts. Information was provided about the fire alarm system, available fire fighting equipments and criteria for their selection, emergency escape routes and their usage, the personnel involved and information escalation system. Information was also provided about the safety aspects in handling of the equipment during the fire fighting through live demonstration.

The process of use of these equipments was demonstrated by the instructor, and the attendees were also encouraged to operate the equipment.

It was very useful, and will surely contribute towards fire safety of occupants in the building.

Best regards

At the beginning of the session Dr Deepali Bhatnagar welcomed all the speakers and invited Prof. Jian for his inaugural address and for setting the tone of session. After his insightful remarks the session was taken up by Dr C.B. Sharma, wherein his discussed and enlightened the students on the topic with many examples and told about cyber crime consequences. He also added that lack of user awareness about Internet, cyber laws and risks pose a big challenge in India. When we consider the wide strata of users, from tech-savvy to new users, as well as different socio-economic conditions, demographics, culture and age, making users aware about the risk and saving them from cyber frauds is a challenge before law enforcement agencies as well as the government.

STAFF DEVELOPMENT PROGRAM--EVENT REPORT

Examination cell organized a staff development program on 12th August'2021. The topic of the day long program was "Emotional Intelligence and Stress Management".

It is very important for us to understand, use, and manage our own emotions in positive ways to relieve stress, communicate effectively / empathize with others for overcoming challenges / resolving conflicts.

During pandemic, we could not manage our stress due to several internal / external factors which were beyond our control.

At this stage, we decided to organize a staff development program on emotional intelligence and stress management.

The program was attended by nine (09) staff members of the examination cell.

We invited Prof (Dr) Anand Prakash and Dr. Poonam Singh from the department of clinical psychology as speaker.

The questionnaire session was also handled by Dr. Poonam Singh.

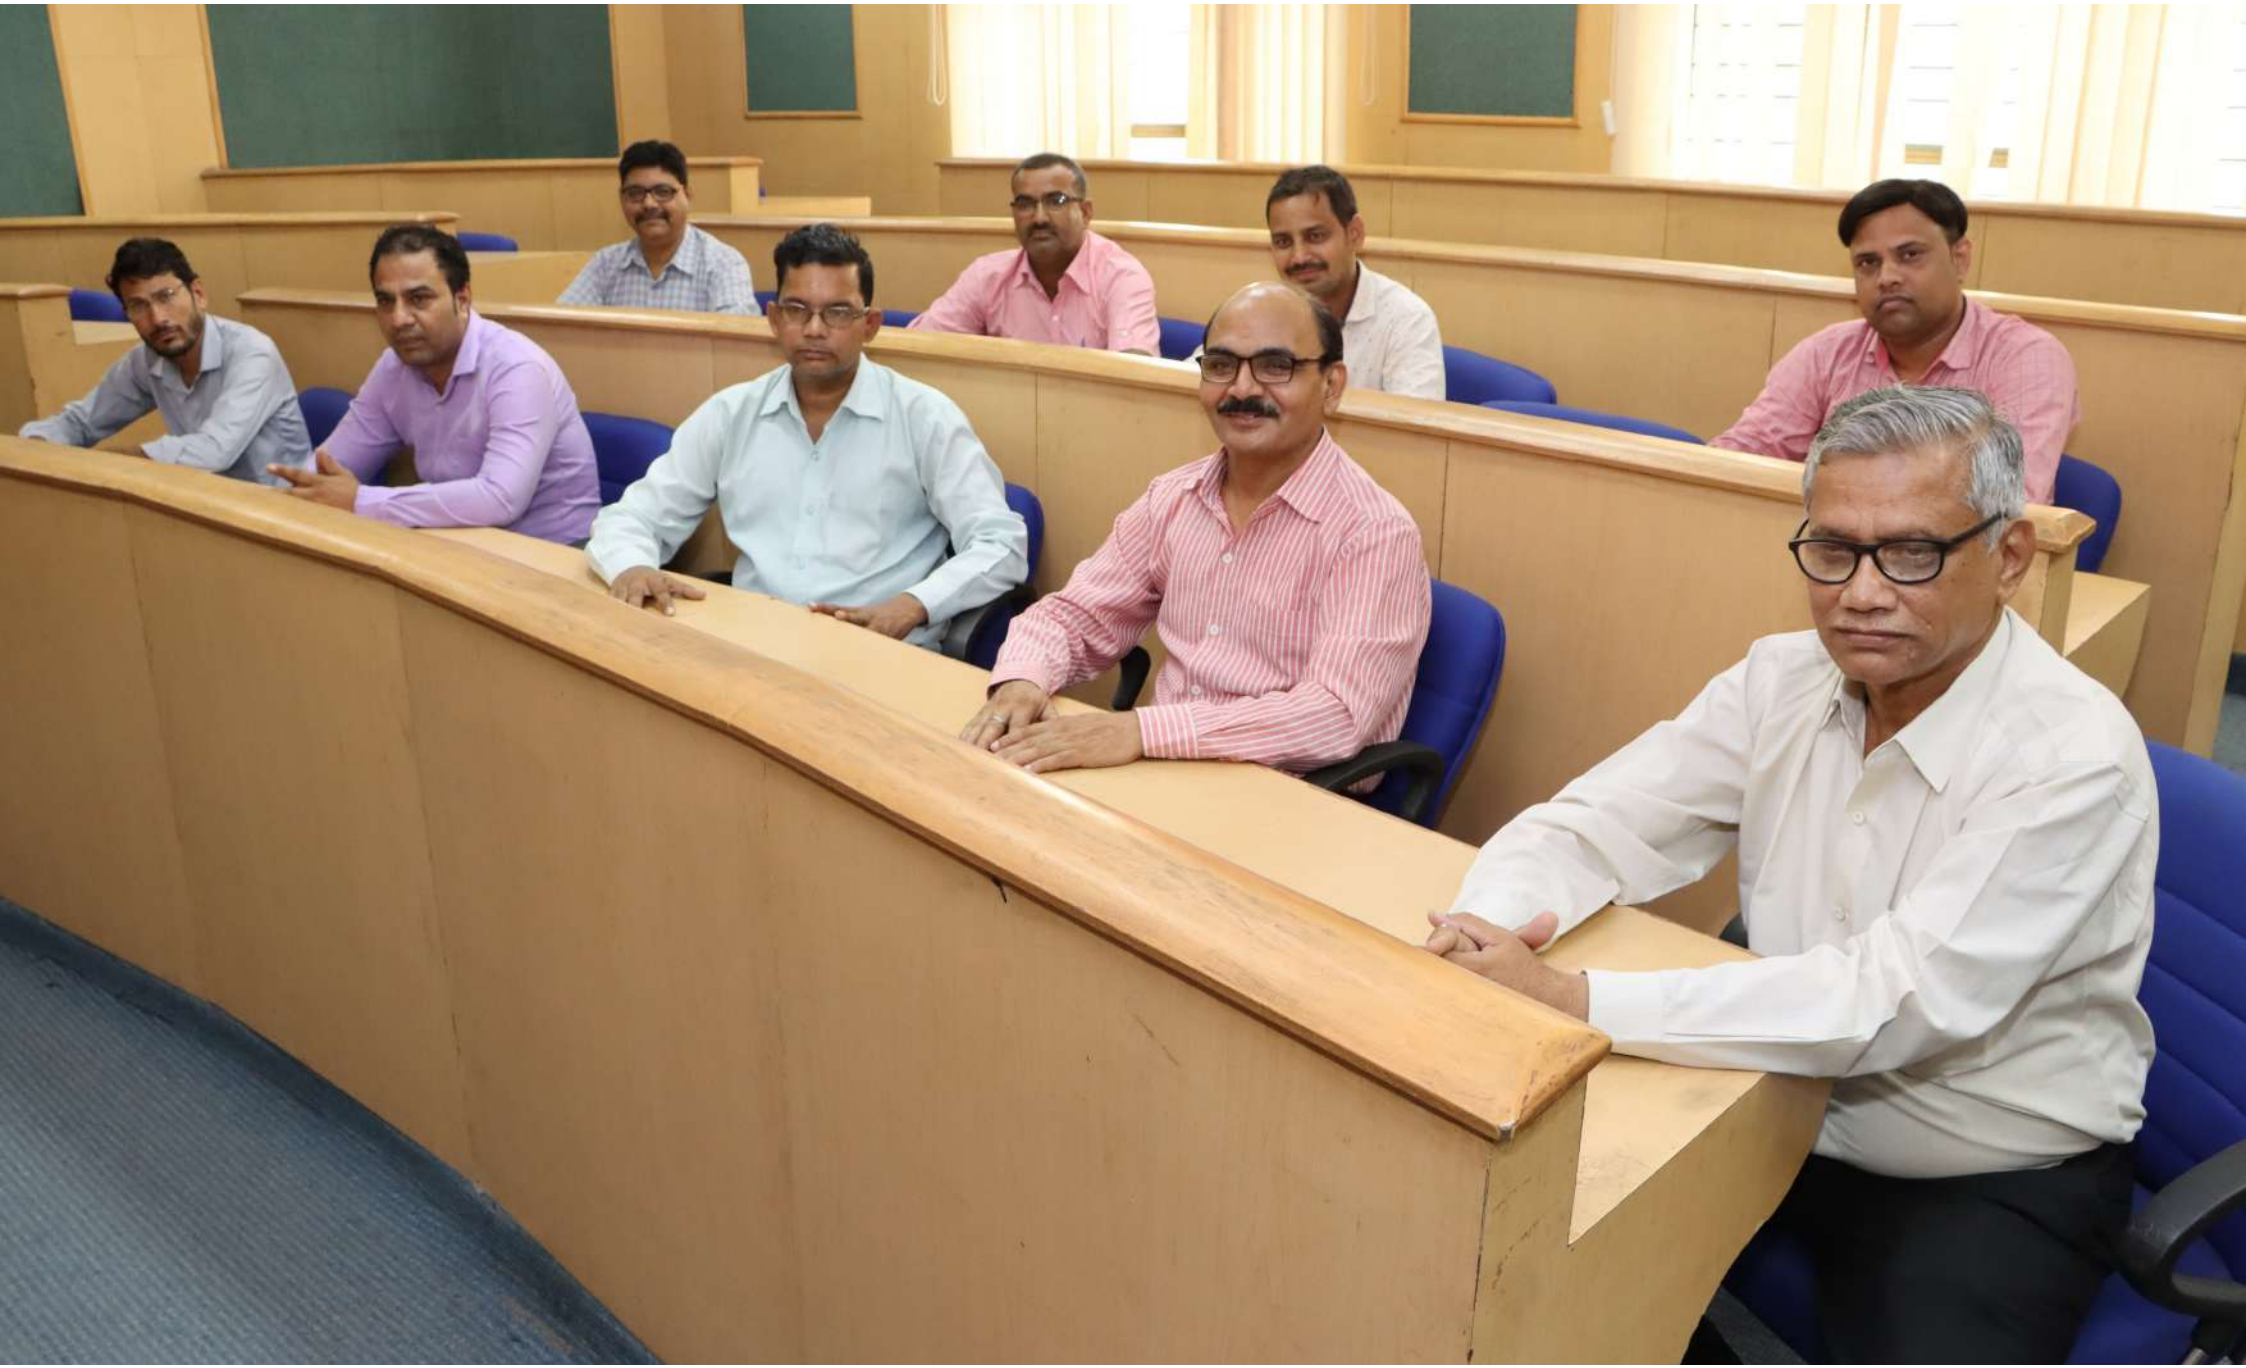

Considering the importance of effective stress management, we need to organize such program in every year on regular basis.

Point wise Outcome Report:

1) What was the Inspiration behind taking up this Particular Subject for the Webinar ?

The world is facing acute environmental, political and economic challenges that require urgent resolutions in order to achieve and sustain a healthy living condition for all. The United Nations Conference on Sustainable Development held in 2012 at Rio de Janeiro, recommended seventeen Sustainable Development Goals (SDGs) that aim from eliminating hunger to reducing inequalities to building sustainable communities around the world. The world's population is constantly increasing. To accommodate everyone, we need to build modern, sustainable cities. For all of us to survive and prosper, we need new, intelligent urban planning that creates safe, affordable and resilient cities with green and culturally inspiring living conditions. The 11th goal targets to make the cities and human settlements inclusive, safe, resilient and sustainable.

Students had interactive activity-based workshop with area expert Overall experience was excellent, students were very much enthusiastic to know about how to improve self-management skills. We requested resource person to have these kinds of interactive webinars in future as well. This kind of webinar should be on regular basis. We also requested to resource person for visiting their organization. Students were interested to make their career in F&B service Industry and Cruise line. Overall, it was very nice and fruitful webinar by which all students along with faculties were enhanced with knowledge.

Further possibility: - Students interested to have more sessions with the resource person.

Feedback on workshop "Clinically Clean Room Post Covid-19" held on 11& 12 Jan 22.

1. A two day workshop under the aegis of Amity School of Hospitality was held on 11 & 12 Jan 22. Students are expected to join Hostels on 07 Feb 22 and this workshop has provided insight on how to prepare the rooms post COVID -19 for students in the hostel.

2. Important aspects covered in the work shop were as follows:-

a) Module One- Safety & hygiene standards for Hostels, Government advisory for safety standards and guidelines post covid-19. Personal hygiene standards & tools.
b) Module Two- Sanitization procedures and chemicals to be used.
c) Module Three- New standards & Procedure (post covid-19) in Accommodation Management and various public areas and facilities. Hostel room check list for inspection .

3. Two day workshop was very useful in educating the wardens on latest govt guidelines as well as safety& hygiene standards that have to be followed post Covid. Arrangements as enunciated in the training will be followed for maintaining covid free environment.

ONE WEEK ONLINE

RESEARCH METHODOLOGY WORKSHOP ON ADVANCES IN RESEARCH METHODS IN MANAGEMENT AND SOCIAL SCIENCES

OCTOBER 12-16, 2020

ORGANIZED BY
AMITY BUSINESS SCHOOL &
YUNUS SOCIAL BUSINESS CENTRE
Amity University Rajasthan, Jaipur

INTRODUCTION

The institutions of higher learning in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research especially in social science, commerce, management studies, life sciences etc. The need of the hour is to develop a sound methodological base of research among the budding educationists and researchers to cope up with future challenges. A good research methodology is a key to sound research output. To operationalize this vision, there is a need to train, reorient and reactivate the research scholars, young faculty members, and practitioners in the field of management and social science on research methodology. The current workshop is an effort to enrich the scholars on research methodology.

ABOUT THE WORKSHOP

The workshop seeks to acquaint the participants from different disciplines such as Management, Commerce, Sociology, Economics, Anthropology, Education, Public Administration, Political Science, Population Science, Physical Education, Law, Journalism, Hospitality and others. Increasingly in recent decades, Qualitative, Quantitative and mixed methods have gained currency with social and management researchers as trusted tools to deal with the intrinsic as well as the social, economic and cultural phenomena of interest to them. These methods yield insights about the causes and effects of, and solutions to, social problems. A common element in many of these methods is the engagement of the evaluator with human subjects, which opens up complex sets of issues. A competent researcher is expected to be adequately equipped to address these.

The modules of workshop cover a gamut of themes from epistemology to the building blocks of research, including topics like a Bibliometrics, Quantitative / Qualitative Methods with focus on Evaluation and Development, Structural Equation Modelling, AHP, DEMATAL, TOPSIS and other Multi Criteria Decision Making. The workshop shall be conducted in an interactive mode. In addition to the interactive classroom lectures the participants will be introduced to the use of selected statistical packages like SPSS/STATA. They will also have the opportunity to discuss with the Resource Persons on their synopsis, issues relating to tools of data collection, interpretation of data, use of statistical tools and techniques, etc. depending upon the stage of progression of their research work. Those who are about to complete their research may get an opportunity to share their findings with their peers, faculty and invited experts so that they could incorporate worthy suggestions.

OBJECTIVE OF THE WORKSHOP

The objective of this programme is to provide an introduction to the participants about the use of data analytics in Management and social sciences Research with special focus on advance techniques. It is aimed that at the end of the course, the participants would be able to apply modern techniques for data analysis for academic and market research, managerial decision and policy making.

OUTCOME REPORT

of

'AYU Samvad- An awareness program on Ayurveda and Covid 19'

Date and Time: 7th May 2021 at 11:00 AM-12:00 Noon

Virtual Platform Link: https://amityuni.live/85143504337

Organized By

Prof. Neelam Jain (Secretary, Industry Advisory Board)

Amity Institute of Biotechnology

Inspiration behind conducting the Webinar

In this time of health emergency where we do not have accurate solutions and precision medicine to tackle this SARS COV-2 Virus, even drugs are not effective to combat it and the vaccines are in their budding stage, the world is looking for alternatives to antibiotics and antivirals due to their side effects, and inefficiency to combat Covid-19. In these unprecedented times of survival, Ayurveda has emerged as a ray of hope amidst this pandemic to reduce the severity of the infections at the same time boosting our immunity to fight against this life-threatening disease.

The Covid-19 pandemic is a good learning for us in this challenging time to take care of one's health. Looking at current scenario globally, an initiative has been undertaken by All India Institute of Ayurveda, Ministry AYUSH, Government of India to create health awareness, health management and preparedness to face this SARS COV-2 Virus through Ayurvedic interventions.

Speakers Detail:

To spread the awareness of Ayurveda (The Traditional Healing System of India) among all, an Ayurvedic expert was required. The invited speaker was Dr. Vidhi Bapna (Kumath) M.D.(Ayu). She is Professor & Head of Department, P.G. Department of Dravyaguna, J.S Ayurveda Mahavidyalaya, Nadiad (Gujarat).

The Internal expert was Prof Vinay Sharma, Director AIB & Dean Research, AUR.

Background:

I have been known to Dr Vidhi since 2015 during my summer training at ICAR-DMAPR, Gujrat. She approached me to organize an awareness program on Ayurveda

under the mission of All India Institute of Ayurveda, Ministry of AYUSH, Government of India to create awareness among all.

Webinar Attendees (Annexure 1)

The webinar was attended by 168 participants including Students, Faculties, admission Aspirants, Directors

ABOUT AMITY UNIVERSITY RAJASTHAN

AUR is deftly focused on developing academic excellence and employability of students and faculties. A major distinctive feature of all the Programmes offered at AUR, is that, the course at its initial stage (First Year) deal primarily with the contents/concepts however, as it progresses it becomes more advanced, technical and practical oriented, leading to wide range of specialization areas, for the students to opt in their final years. The entire course holds a vista of the key concerns, pertaining to teaching and learning pedagogies. The objective is to prepare the students as per industry trends and demands.

ABOUT AMITY SCHOOL OF HOSPITALITY

With its inception in the year 2007, Amity School of Hospitality is committed to set a benchmark in hotel management studies to provide multidimensional approach to students and nurture future global leaders by providing an environment to excel in tourism and hospitality industry.Amity School of Hospitality aims to interconnect domain specific practical knowledge along with Tourism & Hospitality business management studies, that incorporate experimental learning, to foster requisite skills among students.

With its well-equipped training labs, food and beverage production units, world class faculty, and culture of innovation the school assists (ASH)its learners to carve a career in tourism and hospitality industry. The institute imparts knowledge and training for holistic development of students under the able guidance of acclaimed and seasoned faculty members.

Report of Five – Day Faculty Development Programme on "Effective Teaching Skills in New Era"

organized by the Amity School of Hospitality, Amity University, Jaipur Rajasthan.

Five day faculty development program was organized by Amity School of hospitality from 21st june to 25th June. It was designed for the faculties and researchers working in universities, colleges and professional institutes. The main aim of this Faculty Development Programme was to enrich the knowledge of faculties about the teaching skills in new era through interaction with eminent personalities from academics. Through knowledge sharing improve the teaching learning process to the students and benefit the society. Prof. Sanjeeb pal was the convener of the FDP and Dr. Yashwant S. Rawal acted as a FDP coordinator. Total 80 Participant from different part of India registered for the Program. Every day three sessions were planned, two sessions with resource persons and one session was kept for open discussion every day.. Brief summary of all the sessions is mentioned below:

Session:1

Resource Person: Prof. Samar Sarabhai,

Jaipuria Institute of Management, Jaipur

Topic: Preparing an Effective Course Learning out come as per New Era

The session made all the participants learn a lot about how well we can apply the Bloom taxonomy and have a proper collaboration between the aim, objectives and outcome of teaching while designing a course and get the best learning outcome from our students. It is very well said by Dorothy Parker "The cure of boredom is curiosity, there is no cure of curiosity" and thus as educators we all should include activities and learning procedures which will lead to curious learning, among the students and this will also lead to improvisation in our way of teaching as well.

Session:2

Resource Person: Prof.G.K Aseri,

Provost and Dean Academics Amity University Rajasthan

Topic: IQAC- Quality mentoring and enhancing in University

Prof G.K Aseri highlighted parameters of NAAC and role of IQAC department in an education institution for pushing long term quality standards. He also stated the NAAC mission statement and purpose of this organization; that assesses the quality of the higher education institution.

Session: 3

Resource Person: Prof. Amit Jain, Pro-Vice-Chancellor, Amity University, Rajasthan.

Topic: Case Study Based Teaching (Fundamental Elements of Case Based Teaching.

The case study method of teaching emphasises the use of decision forcing method to put students in the role of managers/people faced with a difficult situation where decision making is the need of the hour. These are stories or actual happenings that are used as a teaching tool to enable the application of a theory or concept to real situations.

His session with a brief about the need of Case Study Method of teaching and emphasised the role of this method in instilling skills and attributes that are required for taking decisions in a knowledge-based economy and business. He stressed on the need to equip future business leaders in Communication Skills, Personality Development, Delegation Skills, Problem Solving Skills, Conflict Management and Negotiation Skills and the like, through the method of Case Studying. For the practitioners Case Study method offers an opportunity to provide instruction while conducting formative evaluation. For the learners, this method helps identify critical factors and develop realistic solutions to complex situations, and also the opportunity to learn from one another.

Session – 4

Resource Person: Dr. Swapna Patawari, Assoc. Professor, department of Management Studies, faculty of Commerce, Jai Narayan Vyas University, Jodhpur, Rajasthan

Topic: Case Study Based Teaching (Developing Case Studies, Preparing to Teach, and Evaluate Case Studies)

Dr. Patawari in her opening remarks made a strong case for Case Studies as an instructional method that refers assigned scenarios created and used as a tool for analysis and discussion. This helps the learners to observe, analyse, implement, conclude, and summarize a given situation and derive real-time learning from them. She underlined that case studies have been increasingly used in education and a variety of instructional situations. Schools of business have been most aggressive in the implementation of case-based learning, or "active learning" since the last few decades. This is becoming an increasingly common teaching strategy in Management.

In her closing remarks, she stressed the importance and role of Case Study Method as a effective tool in problem solving and dissemination of knowledge. Case Studies are especially beneficial as this actively engages the students in finding out principles by abstracting from the situation. Case studies are used across various disciplines.

INTRODUCTION

The institutions of higher learning in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research especially in social science, commerce, management studies, life sciences etc. The need of the hour is to develop a sound methodological base of research among the budding educationists and researchers to cope up with future challenges. A good research methodology is a key to sound research output. To operationalize this vision, there is a need to train, reorient and reactivate the research scholars, young faculty members, and practitioners in the field of management and social science on research methodology. The current workshop is an effort to enrich the scholars on research methodology.

ABOUT THE WORKSHOP

The workshop seeks to acquaint the participants from different disciplines such as Management, Commerce, Sociology, Economics, Anthropology, Education, Public Administration, Political Science, Population Science, Physical Education, Law, Journalism, Hospitality and others. Increasingly in recent decades, Qualitative, Quantitative and mixed methods have gained currency with social and management researchers as trusted tools to deal with the intrinsic as well as the social, economic and cultural phenomena of interest to them. These methods yield insights about the causes and effects of, and solutions to, social problems. A common element in many of these methods is the engagement of the evaluator with human subjects, which opens up complex sets of issues. A competent researcher is expected to be adequately equipped to address these.

The modules of workshop cover a gamut of themes from epistemology to the building blocks of research, including topics like a Bibliometrics, Quantitative / Qualitative Methods with focus on Evaluation and Development, Structural Equation Modelling, AHP, DEMATAL, TOPSIS and other Multi Criteria Decision Making. The workshop shall be conducted in an interactive mode. In addition to the interactive classroom lectures the participants will be introduced to the use of selected statistical packages like SPSS/STATA. They will also have the opportunity to discuss with the Resource Persons on their synopsis, issues relating to tools of data collection, interpretation of data, use of statistical tools and techniques, etc. depending upon the stage of progression of their research work. Those who are about to complete their research may get an opportunity to share their findings with their peers, faculty and invited experts so that they could incorporate worthy suggestions.

Feedback on Disaster Management Planning training held on 14 Feb 21.

One day training was held to educate wardens and attendants on Disaster Management Planning. The training was conducted by Admin and security Team at Hostel location.

The training started at 1000h on 14 Feb 21. List of Wardens and attendants, who attended the training is given in appendix.

Important aspects covered in training were:-

a) Likely disasters to be encountered at AUR location.
b) Nomination of disaster management teams.
c) Alarm Procedure.
d) Evacuation Drill.
e) Assembly drill.
f) First Aid.

The training was very useful and taught the staff as to how to react on any unforeseen emergency situations specifically like Earthquake & Fire.

Mock exercises carried out during training has helped in building courage and confidence in staff and now they can handle such emergencies with more clarity and calm.

The training also taught Life Saving and Rescue techniques to staff, and will enable them to be life savers at the time of emergencies.

ABOUT ASL

Amity School of Languages (ASL) at Amity University Rajasthan is an integral part of the Faculty of Humanities, Social Science and Liberal Arts. The Department is functioning since the inception of the University in 2007 and plays a strategic role in enhancing the language competency of all the UG and PG students of various institutions in languages such as French, German, Spanish and Chinese. It runs English and French Language & Literature courses at the Undergraduate & Postgraduate levels along with Ph.D in the same. At the level of international collaboration, ASL plays a pro-active role, with active Student Exchange Programmes to its credit.

In today's era, multilingualism has become more than just 'important'. Knowing a foreign language other than the native language has evolved into an extremely beneficial skill, to make 'real' connections with people. In recent days there is a growing demand from Academia to make successful professionals in Language, Literature, Culture and Civilization pertaining to World Literature and Culture, be it in French, German, Spanish or Chinese. Needless to say, over time we have seen a growing demand for language professionals in the corporate fields as well. Moreover, the state of Rajasthan gives a special thrust on its booming tourism sector. Keeping all this in mind and with a bid to produce good professionals in corporate as well as in academics ASL lays special stress on innovative curricula by orienting the students to open up to the world and explore the same through sincere research work.

ABOUT THE UNIVERSITY

Amity University Rajasthan is a part of Amity – India's leading education group with more than 1,50,000 students, 11 universities, nearly 200 institutions, 26 schools and pre-schools, 13 Foreign campuses in London, New York, California, Singapore, Dubai, Mauritius etc. Amity University Rajasthan is built on a foundation which embodies all the qualities that have made Amity institutions world class over the last two decades. Located in a sprawling 150 acre green campus on Delhi-Jaipur Highway, the University with its state-of-the-art infrastructure has instituted global standards in education, training and research with focus on the latest teaching methodologies.

INTERNATIONAL CONFERENCE ON RETHINKING THEATRE, DRAMATICS AND SUSTAINABLE STUDIES (RTDS 2019)

OCTOBER 15-16, 2019

Organized by:

AMITY SCHOOL *of* LANGUAGES (ASL)

ABOUT RTDS 2019

In modern day parlance, we often use the terms Drama, Play and Theatre interchangeably without adhering to the characteristics they manifest in different domains. All these are aesthetic art forms but their representations and productions make them different from each other. RTDS 2019 is intended to be an exchange of knowledge, research innovations, and practical methods, examining the future applications and implications of performance work. As we all know, drama can support language learning at the university level and can also support learners in acquiring professional competencies. So the conference also intends to explore forms of drama in language teaching, its role in making learning holistic and memorable, improving learners "social and personal competencies". The two-day long conference will witness significant keynote addresses, paper presentations, round table discussions as well as theatre workshops and presentation of skits.

The conference will have a unique multi-lingual and multi-cultural thrust, as experts and participants will be from various disciplines such as English Studies, French & Francophone Studies, Hindi literature, German Studies, Spanish Studies and Chinese language and literature.

OBJECTIVES

- To enhance and enrich the study of Dramatics & Theatre
- To generate dialogue on research possibilities in the field of Drama
- To showcase the importance of drama in the Post Modern Era
- To sensitize young and aspiring learners and teachers regarding Culture, Civilization and Drama

Background

Indian Society of Landscape Architects- India is an independent body of landscape architects in the country. Its Gujrat Chapter organized a one day hands on workshop for architecture students to sensitize students towards landscape architecture and give them a glimpse in the field of landscape architecture profession.

Intended Learning Outcome

The workshop was very useful in terms of giving the students of ASAP a fair knowledge about the domain of Landscape Architecture. The hand on workshop was designed to familiarize students with the advanced knowledge of Landscape architecture and design, which they generally do not get in their curriculum.

This workshop will help students to join master's course in landscape architecture after finishing their undergraduate course in Architecture.

REPORT ON ONE DAY GUEST LECTURES, WORKSHOP AND FIELD VISIT ON 18TH OCTOBER, 2019 UNDER AEGIS OF AMITY INSTITUTE OF BIOTECHNOLOGY (AIB)

As a step ahead in building a strong Academia-Industry relation, a one day event comprising series of Guest Lectures and a workshop on "Utility and importance of different size ranges of aerosol and their measurement by Aerosol Spectrometer" were organized on 18th October, 2019 from 11.00 AM -7.00 PM under the aegis of Amity Institute of Biotechnology at AUR in collaboration with Alfa Tech Services Company, a reputed brand and trustworthy name in the field of Environmental Monitoring solutions.

The lecture workshop was attended by around 60 UG/PG students (M.Sc. & M. Tech. Biotechnology/Microbial Technology, B.Tech. Biotechnology, B.Tech. Bioinformatics, B. Tech. + M.Tech. Biotechnology / B&B/ CNS/ EST, B.Sc. (H) Biotechnology) and faculties from AIB, COAST and AIMT including Ph.D. Research scholars. The whole event was coordinated by Dr. Neelam Jain (Associate Professor) of AIB.

Guest Lectures: After a welcome address and introduction of speakers by Dr Neelam Jain the event started with a very interesting and interactive lecture by our internal expert Prof. Dr P.V.S. Raju (Director, COAST-AUR) on 'Climate change and weather forecasting' followed by an an eye opening session on "Aerosol properties and its impact over Jaipur, Rajasthan by Dr Swagat Payra (Assistant Professor, BITS Mesra).

Workshop: After lunch break the session was taken over by Mr. Sunil Kumar (Executive Sales Manager, Alfa Tech Services Company) who delivered a lecture workshop on "Utility and importance of different size ranges of aerosol and their measurement by Aerosol Spectrometer". It was a great opportunity for the students to interact with such experienced professionals from Industry and get insights regarding the latest technological advancements and strategies in Aerosol monitoring with special emphasis on Particulate matter. After finishing this workshop Prof. P.V.S. Raju felicitated the speakers with Amity Honoraria.

Field Visit: The next part of the workshop was a 'Field visit' to the polluted sites of Jaipur to give a live hands on experience to students and Scholars for onsite Aerosol monitoring and

study of PM 1.0, 2.5 and PM 10 at four sites. The students had actively participated in the workshop and had a live experience of handling such a sophisticated Instrument thus enhancing their technical skills. The daylong event ended up with student feedback, vote of thanks. The speakers were highly impressed by the thirst of knowledge acquisition, prompt reply and the interest of our students and had promised them for any help in their future endeavours pertaining to Environmental pollution monitoring. It was privilege for us and our students to have a direct dialogue and exchange of ideas with the Environmental Professionals from Academia & Industry thus fulfilling our initiative in bridging the Industry-Academia gap. We are thankful to Prof. Vinay Sharma (Director AIB), Prof. Ajay Jain (Deputy Director AIB), Mr Ajoy Mudaliyar (Director, Administration) for conducting this one day lecture workshop and Field visit smoothly.

Outcome: This event was a leap forward and a platform for building a strong Industry - Academia relationship which in turn would help us to make Industry ready students. Students got hands on experience which had enhanced their technical skills to use the portable 'Aerosol Spectrometer' for environmental monitoring. Students had Moreover the speakers promised to help students in their Summer Research Projects and Internships in the area of Environmental Pollution.

Visit Report - Joint Programme with Federation University Australia, Chitkara University, Chandigarh and Amity University Rajasthan, Jaipur

A two-week joint programme on Water Resources Management was organized from 18th to 29th Nov 2019 for the students of B. Tech. Civil Engineering from Federation University Australia, Chitkara University, Chandigarh and Amity University Rajasthan, Jaipur. Dr. Harpreet Kandra, Lecturer, School of Engineering and IT, Federation University, Australia was the resource person.

In the first phase of this two-week program, Chitkara University, Chandigarh acted as the host institute, where students from all the three universities attended the joint programme at our campus. The second phase of the program will be done at Amity University Rajasthan, Jaipur from 25thto 29th Nov 2019. Over five days, the students visited the traditional water management structures like *bawadis, tanka, kund* in and nearby Jaipur city.

The students gathered a wealth of information about the current practices involved in the management of water resources. The students also got insight related to current scenario of water-related issues and challenges and opportunities to improve the ever-growing crisis in the managing the water as a resource. Over two weeks, students gained several important understandings that will aid in the decision-making process towards water management. Overall, the program was a hugely rewarding and informative experience for the students.

ABOUT **CONCLAVE**

Digital Transformation of Work and Workplace-
"Opportunities, Challenges and the Way Forward"

Digital transformation is a process as well an outcome; it is a revolutionary change and also an evolutionary phenomenon!

In the recent years the increasing integration of digital technologies in all aspects of our lives has benefited, but at the same time posed a few challenges, to business organizations in particular, and society in general. Today, enterprises are collaborating globally, incorporating a diverse and global workforce. Digital transformation creates responsive organizations that are ready to change with the advancement of technology. The role of digital technology in the overall value creation of any business has become so prominent, that the world is witnessing a radical reshaping of traditional industry boundaries.

With the digital transformation of work and the workplace, we are increasingly beginning to realise that it is in fact people and their inherent 'human competencies', that will play an even more important role in the long-term success of today's organizations.

With the advent of Artificial Intelligence, Block chain, Machine Learning, Automated Performance Management system etc., businesses have a much greater opportunity, as well as a challenge, to enhance sustainability and growth in the era of digital transformation.

Feedback on "Basic Counselling Techniques" dated 10 Mar 20

Dr. Shobita Jain, Counsellor, AUR organized a work shop for wardens and hostel active working members on "Basic Counselling Techniques". The aim of the work shop was to enlighten the wardens about basic counselling skills.

Following topics were covered:-

- Identify the benefits of counselling.
- Determine in what areas counselling can be beneficial.
- Common Problems for Students.
- Identify some of the qualities of a good counsellor.
- Identify the elements of good counselling skills.
- Identity inappropriate responses in counselling.
- Identify the important counselling technique tools.
- Do's & Don'ts
- We are together

The workshop ended with question and answer session which was used by wardens to clear their doubts. The workshop was very relevant and gave the wardens an insight to basic counselling skills.

Such workshops should be held regularly so that wardens are aware about the problems being faced by students and they are able to handle and resolve the problems before they get aggravated.

Report on Joint Programme on Management of Water Resources

A 5-day joint programme on Management of Water Resourceswas organized from 24th to 28th September 2018 for the sttudents of B.Tech Civil Engineering from Federation University Australia, Chitkara University, Chandigarh and Amity University Rajasthan, Jaipur.The sessions were provided by Dr. Harpreet Kandra (Lecturer, School of Engineering and IT, Federation University, Australia).

In the first phase of this two-week program, AUR acted as the host institute, where students from all the three universities attended the joint programme at our campus. The second phase of the program will be done at Chitkara University Campus, Chandigarh from 1st to 5th Oct 2018.

Over five days, the students visited the traditional water management structures like *bawadis, tanka, kund* in and near by Jaipur city. The students gathered a wealth of information about the current practices involved in the management of water resources. The students also got insight related to current scenario of water-related issues and challenges and opportunities to improve the ever-growing crisis in the managing the water as a resource. In less than one week,students gained several important understandings that will aid in the decision-making process towards water management.Overall, the program was a hugely rewarding and informative experience for the students.

We are extremely grateful to Hon'ble Prof.(Dr.) Arun Patil (President, AUR) for his continuous guidance and inspiration which made this joint program a great success. We are also thankfulto Prof. (Dr.) Manish Verma (Director, International Affairs and Director, ASCO) and Prof.(Dr.) D. D. Shukla (Director, ASET) for his motivation for conducting these fruitful programs on the latest issues which are prevalent in today's time. We are also grateful to Gp. Capt. (Retd.) Ajoy Mudaliar (Director, Administration) and his staff for their continuous support in providing comfortable stay and delicious food to the participating students and faculty member. We are also thankful to Mr.R. K. Pachauri, Manager IT and his staff for the technical support provided for smooth conduct of this joint program. Last but not the least; we are also thankful to the faculty, staff and students of Civil Engineering Department (ASET, AUR) for making this joint program a great success.

Lecture on "New Science for Enhancing Plant Productivity, and to Secure Sustainable Energy Future and Environment" by Dr Kumud Tripathi (Gechon University, S. Korea)

1. **Name of the Institute:** AIB
2. **Event Category:** Guest lecture
3. **Name of the Event:** Guest lecture cum Interaction
4. **Venue of the Event:** AIB
5. **Attended by no. of Students/No. of the Faculty:** 30 Students/scholars and 5 Faculty
6. **Details of the Events:**

Dr Kumud reached in AUR at 10 AM and welcome by Dr Harish. Arrangement for presentation was made in office of Director, AIB. She started her presentation at 10.30 AM and discussed about her research work. She emphasized on the global issues of food insecurity and depleting environment. World population is increasing and energy sources are reducing. So, to address these issues, science based solutions are sought. Scientist are working on new technologies and Nanotechnology has major role in this direction. She explained about the carbon nanostructures which can be applied for energy generation and as adsorbent to capture the pollutants from environment. Nanotechnology can be applied for increasing the plant growth and food production. She explained in detail the future application of nanocrystals with diverse morphology for the fabrication of next generation artificial devices. She also discussed the role of nano-carbon based sensors for sensing of bio-molecules (such as DNA, amino acids, glucose, cholesterol.

After some time, her presentation was shifted to Food Tech lab due to meeting of Director AIB. Then students and scholars from AIB, Physics, microbiology and computer department interacted with Dr Kumud and asked many questions.

Mr Akash asked about the role and mechanism of nanoparticles in increasing the plant growth. Dr Kumud explained in reply the complete mechanism and also named the materials such as carbon, gold and silver nanomaterials which are being utilized for this purpose. He also requested to help him in sample analysis of his PhD samples. She

agreed on this point and informed that they have all high ended equipments and students can send samples for analysis free of cost. They will also help in data interpretation.

One student from Physics department asked about the synthesis of carbon nano sheets. She replied to her question also. During the interaction, she also pointed out that while working in this field, safety of humans and environment is very important. We should take all the precautions while handling the hazardous materials and also disposed off the waste safely to avoid the environment damage.

After the lecture, Dr Kumar was felicitated and had lunch with Prof Vinay Sharma. She left for Jaipur around 1.30 PM.

7. **Date and Time of the Start & End of the Event:** 10/12/2018, 10.30 AM-12.30PM

Workshop on Research Methods & Data Analysis using SPSS

ABS Workshop on Research Methods and Data Analysis

A Workshop on **"Research Methods & Data Analysis using SPSS",** under the aegis of **Amity Business School (ABS)** was organized **on 01/04/2019**. It was a practical and interactive workshop for faculties and students, it aimed to develop an understanding in designing and carrying out research and guide students for research projects and dissertation. Workshop offered practical hands on approach to use data analysis tools, software packages through case examples, and skill building exercises. It was instrumental in providing a comprehensive understanding of research methodology that can better equip faculty to effectively guide their own research and students' research work. The Resource Person Dr. J. P. Singh Associate Professor, Indian Institute Health and Research Management, Jaipur deliberated participants on topics like Research design- Understanding the basic functions of research design like problem formulation, hypotheses making, sampling, literature survey, types of research- exploratory vs. confirmatory, data collection procedure, data editing, data analysis- analysis and design of experiments, inferential statistics, multivariate statistics, use of SPSS package for data analysis, report writing, paper writing for journals, thesis writing etc.

A Workshop on "Automated Protein Purification using NGC™ Medium-Pressure Liquid Chromatography Systems" was organized on 10th April 2019 from 10:30am to 16:00pm by Bio-Rad laboratories India Pvt.Ltd. in Amity Institute of Biotechnology, Amity University Rajasthan, Jaipur. All the final year students, research scholars and faculty members of AIB attended this seminar.

The workshop was organized with the following objectives:

1. Introduction of advancements in Automated Protein Purification Technology.
2. Introduction of Bio-Rad NGC™ Medium-Pressure Liquid Chromatography.
3. Introduction of the concepts of Scouting/ Multi D Chromatography.
4. Basic hands on experimentation on IEX/IMAC/SEC Chromatography using Bio-Rad NGC™ Medium-Pressure Liquid Chromatography Systems.

Prof. Vinay Sharma, Director AIB welcomed all the participants and introduced the experts from BIO RAD laboratories. He explained the theme of the workshop and importance of the workshop to students and faculty members of AIB.

Dr Sandip Kadam (Capital Sales Specialist) BIO RAD laboratories delivered a talk on "Introduction to Next Generation Chromatography". During his talk he discussed the basic concepts of liquid chromatography and the recent advances in the field of liquid chromatography. He also pointed out that how these methods are revolutionizing the way biological research is conducted. He also informed the students and faculty members that how these systems are enabling studies that were very difficult few years ago.

Post lunch **Dr Sandip Kadam** introduced the Bio-Rad NGC™ Medium-Pressure Liquid Chromatography Systems to the students. He bought this system along with him from Mumbai. He demonstrated the full working principle to the students and also provided students hands on experience.

Later on in the interactive session students and faculty members asked many relevant questions. Dr Sandip Kadam answered the questions and cleared the doubts of students and faculties. The workshop ended with vote of thanks given by **Dr. Sanket Kaushik.**

Feedback on Workshop conducted by AIBAS on Mental health first aid on 19 Feb19

DETAILS OF THE EVENT:

The workshop on "***Mental Health First Aid***" was proposed by the Amity Institute of Behavioural and Allied Sciences, **AIBAS**, and conducted on **19th February 2019**. The venue for the workshop was Hostel Director's Office. The participants of the workshop were the hostel wardens of AUR.

The objective of the workshop was to train to be Mental Health First Aid to hostel wardens who are the first contact people for residential students. Also how to identify students who are in crisis. **Mental health first aid** is the help provided to a person who is developing a mental health problem, experiencing a worsening of an existing mental health problem or in a mental health crisis.

OUTCOME/RECOMANDATION OF THE WORKSHOP: -

* Advantage to Hostel Wardens to be a mental health first aider to the residing hostel Students.

* Effective training on how to be a mental health first aider given in the workshop helped hostel wardens to know how to identify and confront different and difficult issues.

* The workshop was able to instil confidence in wardens to infuse more positive interaction with hostel students.

* Wardens expressed to conduct more workshop on topics like counselling skills, relationship management etc.

* Holistic approach to understand the students and their problem.

* Special case or issue should be conveyed to the wardens by HOI/HOD/Mentors/Programme coordinator etc.

* Orientation programme of Wardens to the fresher's need to be organised for rapport establishment and better relationship between hostel wardens and fresher's students.

NOTE: The workshop was highly appreciated by one and all present there and has been successful in creating an inquisitive and favourable attitude for the future workshops.

VEYON

Introduction:

VEYON is free and open source software for computer monitoring and classroom management supporting Windows and Linux. It enables teachers to view and control computer labs and interact with students. VEYON is available in many different languages and provides many features.

Benefits:

1. Monitoring mode: By default, VEYON is running in monitoring mode. In this mode you have an overview of all computers and see their screen contents. The screen content is real time, so you can monitor all activity at the selected locations.
2. Remote access: In this feature consists of two very similar features Remote view and Remote control. In both access modes, the screen of a remote computer is displayed in full size in a separate window.
3. Power on, restart and shutdown computers: The features Power on, Reboot and Power down.

4. Log in and Log off users.

AMITY UNIVERSITY JAIPUR

INTERNATIONAL WORKSHOP ON

RESEARCH METHODOLOGY

June 4 – 8, 2018

Organized by:

AMITY INSTITUTE *of* APPLIED SCIENCE | AMITY BUSINESS SCHOOL

BACKDROP:

The institutions of higher learning in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research especially in social science, commerce, management studies, life sciences etc. The need of the hour is to develop a sound methodological base of research among the budding educationists and researchers to cope up with future challenges. A good research methodology is a key to sound research output. To operationalize this vision, there is a need to train, reorient and reactivate the research scholars, young faculty members, and practitioners in the social science on research methodology. The current workshop is an effort to enrich the scholars on research methodology.

ABOUT WORKSHOP:

The course seeks to acquaint the participants from different disciplines such as Sociology, Economics, Anthropology, Education, Public Administration, Political Science, Population Science, Management Studies, Physical Education, Life sciences and other applied sciences etc. Increasingly in recent decades, Qualitative, Quantitative and mixed methods have gained currency with social and management researchers as trusted tools to deal with the intrinsic as well as the social, economic and cultural phenomena of interest to them. These methods yield insights about the causes and effects of, and solutions to, social problems. A common element in many of these methods is the engagement of the evaluator with human subjects, which opens up complex sets of issues. A competent researcher is expected to be adequately equipped to address these.

The course covers a gamut of themes from epistemology to the building blocks of research, including topics like a Primer, Arriving at Research Problem, Essentials in Data Collection and Analysis, Quantitative/Qualitative Methods with focus on Evaluation and Development, Designing of tools, Sampling Techniques, Econometrics etc. The workshop shall be conducted in both lecture and interactive mode. In addition to the interactive classroom lectures the participants will be introduced to the use of selected statistical packages like SPSS/STATA. They will also have the opportunity to discuss with the Resource Persons on their synopsis, issues relating to tools of data collection, interpretation of data, use of statistical tools and techniques, etc. depending upon the stage of progression of their research work. Those who are about to complete their research may get an opportunity to share their findings with their peers, faculty and invited experts so that they could incorporate worthy suggestions.

OBJECTIVE OF THE WORKSHOP:

- To enable the participants, define research problem, developing an approach to research problem and selection of suitable research design.
- To impart capabilities for formulation and testing of hypothesis based on the nature of research.
- To comprehend appropriateness of statistical software packages for analyzing research data.
- To enable the participants to understand report writing and writing research proposals.

TENTATIVE CONTENTS:

- Nature of Scientific Methods and its Application to Social Phenomenon & Nature, Importance and Scope of Research
- Types of Research: Historical, Analytical, Interdisciplinary, Evaluative, Participative and Action Research
- Steps in the Process of Research- Problem Selection, Formulation and Planning: How to write a Proposal
- Types of Research Design: Exploratory, Diagnostic, and Descriptive, Experimental; Control Group & Experimental Group; Ex-Post Facto Research Design
- Concepts in Research: Variables & Attributes
- Hypotheses: Concept & Types of Hypotheses, Formulation of Hypothesis, Testing of Hypothesis
- Sampling Design: Probability Sampling and Non-Probability Sampling
- Tool of Data Collection: Primary & Secondary - Questionnaire, Types and Formats
- Content analysis, reliability and validity
- Ethnographical Perspective and Phenomenological Perspective of research
- Descriptive Statistics: Measurement of Central Tendency, Dispersion, Skewness, Kurtosis, Regression and Correlation
- Statistical Inference: Point and interval estimates, Parametric and Non-Parametric Tests

Introduction:

An EDP for the students was organised by ABS. The session on Entrepreneurial Development Program Amity Business School was a well framed platform dedicated towards highlighting the positive disruptions in disguise in the era of competitive contemporaries.

Objective(s) of the Event

- To sensitize the audience on current entrepreneurial development scenario in India.
- To provide orientation and awareness pertaining to various managerial and operational functions in wake of positive disruptions.

Details of the Events - About EDP

Prof Arun Patil, Vice Chancellor AUR gave the welcome speech followed Prof K Balakrishnan who briefed the delegates on the relevance of entrepreneurship.
Navneet Agarwal, Asst. Director, World Trade Centre, Jaipur who very briefly yet accurately defined the life transforming effects of an idea that carries weightage and impact. His words gave out frequencies that claimed that if one needs to ensure his idea is accepted, it must go above and beyond one's imagination in the simplest ways. Financial estimations is considered to be the last leg in the action plan as it comes easy when the idea is universally accepted.
The first keynote speaker was Akhilesh Trivedi, Global Mentor and Consultant. He began by giving out three pillars of entrepreneurship, namely – Ideate, Innovate and Accelerate. He laid out the hitches in the most complex uncertainties and the risk associated with emerging ideas and their successful implementations.
He concluded his session by stating the most important thing when it comes to startups is stay passionate and simply get started as there's no better time than right here, right now.

Mr. Prashant Pal is leader of Pure India Trust which is a leading NGO working for rural students and women entrepreneurship as its prime motive. He has worked with Accenture, Tata, Idea, Airtel, IBM, Aegis and many more to name. He stressed upon solving people's problem efficiently and making money out of the same. He thinks that social problems which we face needs to get resolved which in turn can also be created as small scale business models.
Social entrepreneurship according to Mr. Pal is solution to social, cultural, environmental issues which we provide a solution for and in that way we return to the society.A CA by professional

Mr. Piyush Mittal has dived deep into the financing of start-ups, entrepreneurship ventures and the government schemes available for the same. He focused on the initiatives of the government which are lifting up the financial prospect of budding start-up ventures.

- Mudra Yojyna
- Start-up India
- Stand Up India
- IFCI Ltd

The eligibility criteria as well the benefitted section by the scheme was thoroughly explained. Towards the end he urged students to start working from freelancer sites as it gives them confidence which they require before initiating any business or moving a start-up plan.

Dr. Shikha Sharma gave vote of thanks

6. **Details of the Events:**

The business world fears that traditional universities, so-called "ivory towers", are not keeping up with the rapid pace of global change in the business sector of the knowledge economy. Are they right? It is certainly challenging to bring about change in the academic world. Despite the purpose of academia being the development and dissemination of new knowledge, academia is too often deeply committed to the rightness of its own theories. It can be particularly resistant to responding to the needs of the business world, which is often viewed with suspicion.

In this conservative environment of academia, we are failing to keep up with the speed of global change. Good ideas are killed. Innovation does not flourish. If we are truly committed to seeing academia occupy a strong and competitive position in the global knowledge economy, we must radically re-think the approach the university sector takes to collaboration and alignment with the needs of the business world. We must invest more heavily in collaboration, in the nurturing of innovation, in public-private partnerships, in risk-taking.

Professor Bhargava discussed with examples; Challenges and Solution of this problem. He spoke about how the research excellence at academic platform can be translated into innovation.

7. **Date and Time of the Start & End of the Event:** 16/01/2018, 2.20-5.05 PM
