Summary Report: SDG 12 – Responsible Consumption and Production

Amity University Rajasthan, Jaipur | Academic Year 2025–26

1. Introduction

This report summarises the evidence submitted by Amity University Rajasthan (AUR) for Sustainable Development Goal 12, Responsible Consumption and Production, for the academic year 2025–26. Each indicator is supported by a separate evidence document.

2. Resource Management Profile

Parameter	Details
Plastic	Polythene-free campus since 2016; single-use plastic banned since 2022
Organic waste	Food waste to animal feed; green waste and STP sludge composted
Wastewater	STP and ETP of 7.5 lakh litres per day; treated water fully reused
E-waste and used oil	Disposed of only through certified and RSPCB-authorised recyclers
Hazardous materials	Governed by a dedicated committee and the Institutional Biosafety Committee
Procurement	Sustainable Procurement and Purchase Policy

3. Indicator-wise Summary

No.	Topic	Summary of evidence (2025–26)
12.2.1	Ethical sourcing of food and supplies	Sustainable Procurement and Purchase Policy: competitive procurement with preference for energy-efficient, durable and plastic-free products. Food vendors are bound by the plastic ban.
12.2.3	Hazardous waste disposal	Policy on hazardous materials (2021) following UGC, CPCB and AERB guidelines, overseen by a committee and the Institutional Biosafety Committee. E-waste and used oil go to authorised recyclers.
12.2.4	Measuring waste sent to landfill and recycled	Waste segregated at source and each stream recorded through to its destination. Only residual dry waste goes to the municipal facility.
12.2.5	Minimisation of plastic	Polythene-free campus since 2016 and ban on single-use plastic since 2022, enforced at the gate and in hostels.
12.2.6	Minimisation of disposable items	Disposable cups, plates, cutlery and straws prohibited. Largely paperless administration, reuse of equipment and composting of organic waste.

No.	Topic	Summary of evidence (2025–26)
12.2.7	Policies extended to outsourced services	Food vendors, shops, waste collectors, recyclers and security are bound by the plastic and waste policies. Disposal certificates are obtained.
12.2.8	Policies extended to suppliers	Plastic-free delivery, BEE star-rated equipment, buy-back on replacement and compliance of building works with the Energy Efficiency Policy.
12.3.1	Measuring waste generated and recycled	Whole-campus measurement of waste. Organic waste is composted or used as animal feed, and wastewater is fully reused.
12.4.1	Sustainability report	Annual Sustainability Report 2025–26 covering governance, policies, energy, carbon, campus and community, waste, procurement and certifications.

4. Policies

Policy / certification	Year
Ban on polythene bags and plastic packaging	2016
Policy for purchase, storage, usage and disposal of hazardous materials / chemicals	2021
Ban on single-use plastic items	2022
Sustainable Procurement and Purchase Policy	In force

5. Conclusion

During 2025–26, Amity University Rajasthan sourced goods responsibly, minimised plastic and disposable items, extended these requirements to its service providers and suppliers, managed hazardous waste safely, and tracked and recycled its waste streams, with wastewater and organic waste fully reused on campus.
